Andrew Mackinlay: To ask the Minister for Women and Equality whether provision will be included in the Equality Bill to empower governors of any publicly funded faith school to decline employment to staff or applicants for teaching posts who are not prepared to teach pupils in accordance with the ethos on values of the relevant religious faith. [318477]

Maria Eagle: The Equality Bill maintains exceptions contained in the School Standards and Framework Act 1998 (SSFA), which permit faith schools to discriminate on religious grounds in relation to certain staff. These exceptions are different according to the different types of maintained faith schools. Voluntary aided schools may apply religious criteria to all applicants to teaching posts.

Voluntary controlled and foundation schools are required to have reserved teachers who are appointed specifically to teach religious education. These reserved teachers must be appointed for their fitness and competence to teach religious education according to the tenets of the relevant faith; they may account for up to a fifth of all the teaching staff and may include the head teacher. In these schools such religious criteria cannot be applied to any other teaching posts.

CHILDREN, SCHOOLS AND FAMILIES

Building Schools for the Future Programme

Michael Gove: To ask the Secretary of State for Children, Schools and Families what proportion of schools that have received Building Schools for the Future funding have been *(a)* rebuilt, *(b)* remodelled and *(c)* refurbished. [316585]

Mr. Coaker: Of 146 schools that have benefited from Building Schools for the Future funding, 91 are deemed to be new build (built on 70 per cent. or more of the floor area). This provides for 62 per cent. of the total number of schools.

14 schools have benefited from major remodelling (50-70 per cent. of floor area) and 16 from minor remodelling (20-50 per cent. of the floor area). This provides for 21 per cent. of the total number of schools.

Six schools are deemed to be refurbished (0-20 per cent. of the floor area). This provides for 4 per cent. of the total number of schools.

19 schools (13 per cent.) have received funding for ICT only.

Citizenship: Hemsworth

Jon Trickett: To ask the Secretary of State for Children, Schools and Families how many young people in Hemsworth constituency have received lessons on citizenship since that subject was made part of the national curriculum. [316714]

Ms Diana R. Johnson: Citizenship is a part of the national curriculum which is compulsory for all pupils registered at maintained secondary schools. We do not collect data on the delivery of any curriculum subject and therefore cannot say how many young people have received lessons on citizenship in Hemsworth since it became a compulsory subject in 2002.

Class Sizes: Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families what the average staff to pupil ratio is in *(a)* primary and *(b)* secondary schools in Milton Keynes. [315372]

Ms Diana R. Johnson: The following table provides the pupil:adult ratios for local authority maintained primary and secondary schools in Milton Keynes local authority, January 2009.

Within school pupil:adult ratio (PAR)[1] in local authority maintained primary and secondary schools. Year: January 2009. Coverage: Milton Keynes local authority

	PAR
Primary	11.3
Secondary	10.1

[1] The within school PAR is calculated by dividing the total full-time equivalent (FTE) number of pupils on roll in schools by the total FTE number of all teachers and support staff employed in schools, excluding administrative and clerical staff.

Source:

School Census

Departmental Accountancy

Mr. Hurd: To ask the Secretary of State for Children, Schools and Families whether any written instructions have been provided to the Accounting Officer for his Department and its predecessors in accordance with paragraph 5.5 of the Ministerial Code since May 1997. [315315]

Ms Diana R. Johnson: I can confirm that no written instruction has been provided from Ministers to the Department's current Accounting Officer or his predecessors, since May 1997, in respect of an action that could be considered to breach the requirements of propriety or regularity.

Departmental Buildings

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families what the cost to the public purse was of the principal staircase connecting the ground floor and the restaurant at his Department's offices at Sanctuary Buildings, Great Smith street. [302667]

Ms Diana R. Johnson: The costs incurred for the staircase to link the ground floor and lower ground floor, where the Department's meeting rooms, library, restaurant and drop-in work facilities are situated, was £191,917. The work increased the usable floor area of the lower ground floor by 13 per cent.

Departmental Carbon Emissions

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families whether *(a)* his Department and *(b)* associated non-departmental public bodies plan to sign up to the 10:10 campaign for cutting carbon usage in 2010; and if he will publish the (i) criteria and (ii) research upon which such a decision will be taken. [312568]

Mike Wood: To ask the Secretary of State for Children, Schools and Families whether the *(a)* Department, *(b)* agencies and *(c)* non-departmental public bodies for which he has responsibility intend to sign up to the 10:10 campaign for cutting carbon usage; and if he will publish the research or criteria on which decisions about participation in the campaign have been based. [312471]

Ms Diana R. Johnson: DCSF Headquarters (comprising our main buildings at Runcorn, Darlington, Sheffield and London) has signed up to the 10:10 campaign for cutting carbon usage. Information is not held centrally on whether the Department's non-departmental public bodies (NDPBs) intend to sign up.

Within the Department, there is support from the Secretary of State for Children, Schools and Families for the 10:10 climate campaign. Trajectories for carbon savings are monitored as part of reporting DCSF progress towards meeting Sustainable Development in Government carbon reduction targets. A review of the portfolio of projects targeted at reducing carbon considered projected CO_2 savings for 2010 sufficient to meet the 10:10 campaign for cutting carbon usage.

Departmental Consultants

Mr. Weir: To ask the Secretary of State for Children, Schools and Families how much was spent on external consultants and advisers by *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in 2009. [318051]

Ms Diana R. Johnson: The cost for consultants, both for the Department and its non-departmental public bodies and executive agencies, cannot be obtained without incurring disproportionate cost.

Departmental Cost Effectiveness

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will break down the proposed £350 million of savings from his Department and its non-departmental public bodies, as referred to on page 110 of the pre-Budget report, Cm 7747; and if he will make a statement. [307592]

Ms Diana R. Johnson: While we have yet to determine exactly how these additional savings will be delivered, we will be working across the Department and with our NDPBs to identify the most effective way to achieve them without damaging outcomes for children, young people and families yet to determine.

Departmental Pay

Mr. Scott: To ask the Secretary of State for Children, Schools and Families how much has been paid in bonuses to civil servants in his Department and its predecessor in each year since 2003. [306454]

Ms Diana R. Johnson: In the Department the following amounts were paid as non-consolidated performance related awards in each year since 2003.

Performance year	Total of non-consolidated payments (£ million)
DFES	
2003-04	1.5
2004-05	1.8
2005-06	1.9
2006-07	2.1
DCSF	
2007-08	1.9
2008-09	1.9

The information for 2003-04 to 2006-07 refers to the former Department for Education and Skills (DFES).

Non-consolidated performance payments are subject to strict criteria in line with the Government's policy on public sector pay. Senior civil service non-consolidated payments are determined as part of a central performance management framework managed by the Cabinet Office. Payments for other grades are subject to the pay remit process and reflect previous pay settlements. Non-consolidated performance payments have to re-earn each year and do not add to future pay bill costs (e.g. pensions) and are an integral element of the reward package for staff.

Mr. Leech: To ask the Secretary of State for Children, Schools and Families what the *(a)* average and *(b)* highest non-consolidated performance-related payment in cash terms was for senior civil servants in his Department and its predecessor, in each of the last five years. [308056]

Ms Diana R. Johnson: The information requested is set out in the following table:

£

	(a) average non-consolidated performance related payment for senior civil servants	*(b)* highest non-consolidated performance related payment for senior civil servants
2007-08	9,753	25,000
2008-09	8,732	15,000

The information for 2005-07, for the former Department for Education and Skills (DfES), is not readily available and could only be obtained at disproportionate costs. Non-consolidated performance payments are used to drive high performance and form part of the pay award for members of staff who demonstrate exceptional potential, for example by exceeding targets or meeting challenging objectives. The percentage of the pay bill set aside for performance-related awards for the senior civil service is based on recommendations from the independent senior salaries review body. Non-consolidated variable pay awards are funded from within existing pay bill controls, and have to be re-earned each year and, as such, do not add to future pay bill costs.

Departmental Responsibilities

John Mason: To ask the Secretary of State for Children, Schools and Families how many meetings Ministers and officials in his Department have had with members of the public in the last three years. [317050]

Ms Diana R. Johnson: The information requested is not held centrally and could be obtained only at disproportionate cost. Ministers and officials have meetings with a wide variety of people on a regular basis as part of the process of policy development and delivery.

Education Maintenance Allowance

Mr. Oaten: To ask the Secretary of State for Children, Schools and Families pursuant to the answer to the hon. Member for Middlesbrough South and East Cleveland of 2 February 2010, *Official Report*, column 292W, on education maintenance allowance, if he will direct the acting chief executive of the Learning and Skills Council to send a copy of the letter to the Editor of the Official Report for publication. [317136]

Mr. Iain Wright *[holding answer 22 February 2010]:* The Department for Children, Schools and Families (DCSF) received, on 9 February, a copy of the letter Geoff Russell, the Learning and Skills Council's (LSC) acting chief executive, sent to my hon. Friend the Member for Middlesbrough, South and East Cleveland (Dr. Kumar) with the information requested. A copy of his reply has been placed in the House Library.

Free School Meals

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families what proportion of students in *(a)* Romford and *(b)* the London borough of Havering are eligible to receive free school meals. [315908]

Ms Diana R. Johnson: The requested information is shown in the table.

Maintained nursery, primary[1] and state funded secondary[1,2] schools: Number and percentage of pupils known to be eligible for free school meals[3], As at January 2009

	Nursery and primary schools[1]			*State funded secondary schools[1,2]*		
	Number of pupils[4]	*Number of pupils eligible for FSM*	*Percentage of pupils eligible for FSM*	*Number of pupils[4]*	*Number of pupils eligible for FSM*	*Percentage of pupils eligible for FSM*
Havering local authority	19,190	2,280	11.9	16,640	1,500	9.0

Maintained nursery, primary[1] and state funded secondary[1,2] schools: Number and percentage of pupils known to be eligible for free school meals[3], As at January 2009

	Nursery and primary schools[1]			State funded secondary schools[1,2]		
	Number of pupils[4]	Number of pupils eligible for FSM	Percentage of pupils eligible for FSM	Number of pupils[4]	Number of pupils eligible for FSM	Percentage of pupils eligible for FSM
Romford constituency	6,880	770	11.2	4,540	440	9.7

[1] Includes middle schools as deemed.

[2] Includes city technology colleges and academies.

[3] Those eligible may choose not to take up their offer of a free school meal for various reasons, e.g. through preference or through non-attendance on the day. Pupils are counted as eligible only if they meet the eligibility criteria and make a claim.

[4] Includes sole and dual (main) registrations.

Note:

Pupil numbers have been rounded to the nearest 10.

School Census

Gifted Children: Salford

Hazel Blears: To ask the Secretary of State for Children, Schools and Families what percentage of pupils in Salford have participated in gifted and talented programmes in each year for which information is available. [317389]

Ms Diana R. Johnson: Through the School Census, schools are asked to confirm the number of gifted and talented pupils they have identified.

The tables show the number and percentage of children identified as gifted and talented in the Salford local authority in the January census between 2006, when the question was first asked, and 2009.

2006 records include Secondary G&T pupil data only. Otherwise, figures include Primary[1] and Secondary[1,2] school data broken down by the number[3] and percentage of gifted and talented pupils.

[1] All data include middle schools as deemed.

[2] All data include City Technology Colleges and Academies.

[3] All data show solely registered pupils only.

Salford local authority

As at January each year

	Maintained Primary Schools		State-funded Secondary Schools		Primary and Secondary Schools	
	Number of gifted and talented pupils	Percentage of gifted and talented pupils	Number of gifted and talented pupils	Percentage of gifted and talented pupils	Number of gifted and talented pupils	Percentage of gifted and talented pupils
2009	1,310	6.9	1,076	9.6	2,390	7.9
2008	800	4.2	1,360	11.9	2,160	7.1
2007	820	4.3	1,610	13.5	2,430	7.9
2006	—	—	1,500	12.1	1,500	12.1

Note:

Pupil numbers have been rounded to the nearest 10.

Source:

School Census

A data table showing information for all local authorities in England has been placed in the Libraries of both Houses.

Learning Disability: Salford

Hazel Blears: To ask the Secretary of State for Children, Schools and Families what recent steps have been taken to improve educational outcomes for children with *(a)* moderate and *(b)* severe learning difficulties in Salford; and what vocational training opportunities are available to such people. [311672]

Ms Diana R. Johnson: Salford has been focusing on narrowing the gap in achievement between all pupils with special educational needs (SEN) and their peers, working with schools on using the inclusion development programme, which improves the skills of the workforce in meeting the needs of children with SEN and preparing to roll-out progression guidance, which supports schools in setting high expectations for what children with SEN should achieve.

Salford's special schools are increasingly providing outreach support to mainstream schools to build their capacity and better support their pupils.

Salford is also part of the Greater Manchester Challenge and is benefiting from additional investment to extend the great practice that already exists within the city region, finding innovative methods and local solutions to crack the cycle of disadvantage and educational underachievement.

As a result, Salford has narrowed the gaps between pupils with SEN and their peers at both key stage 2 and key stage 4. The percentage of pupils with SEN making three levels of progress across key stage 3 and 4 has also risen significantly.

The LSC has invested funding into a variety of projects which focus on improving educational outcomes in Salford. It is recognised that a high proportion of young people who are not in education, employment or training (NEET) when they leave school will have SEN. Current projects include:

Providing additional support and personalised learning programmes to young people who, during key stage four, are identified as becoming at risk of disengaging from learning.

Working with learners in an individual way through foundation learning to deliver clear progression pathways; and

Engagement with employers to develop supported work placements and training and to provide progression routes for learners with more complex learning difficulties and/or disabilities. It will also help partners to build capacity and provide adult learners with opportunities to develop their skills.

The funding set aside for expenditure on SEN in 2009-10 by Salford LA is £23,803,000[1].

[1] These figures include the Individual Schools' Budget for special schools, spending in maintained nursery, primary and secondary schools identified as "notional SEN", the centrally retained element of the school budget, and the SEN element of the LA budget.

Personal, Social, Health and Economic Education

Robert Key: To ask the Secretary of State for Children, Schools and Families what steps he plans to take to ensure that teaching of personal, social, health and economic education meets the specific needs of *(a)* deaf and *(b)* disabled children. [312704]

Ms Diana R. Johnson: The Children, Schools and Families Bill currently before Parliament will make personal, social, health and economic (PSHE) education statutory. We will be discussing with the Qualifications and Curriculum Development Agency and with external organisations, including those representing special educational needs and disability, on the support teachers will require to implement the statutory requirements.

For the current non-statutory framework at key stages 1 and 2, the Training and Development Agency has produced a training toolkit "Including Pupils with SEN and/or Disabilities in Primary PSHE and Citizenship". The toolkit explains how teachers need to anticipate the barriers to taking part and learning particular activities, what lessons or a series of lessons may pose for pupils with particular SEN and/or disabilities; and how teachers need to consider ways of minimising or reducing those barriers so that all pupils can fully take part and learn. It includes advice on pupils with sensory needs and pupils with disabilities.

Primary Education: Pupils

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils attended primary schools with more than *(a)* 400, *(b)* 500, *(c)* 600, *(d)* 750 and *(e)* 1,000 pupils in the most recent year for which figures are available. [316182]

Ms Diana R. Johnson: The requested information is in the table.

Maintained primary schools[1]: number of pupils by size of school[2], as at January 2009 in England

	Number[3]	*Percentage*
Total number of pupils	4,074,890	100.0
Pupils attending schools with >400 pupils	1,091,840	26.8
Pupils attending schools with >500 pupils	307,850	7.6
Pupils attending schools with >600 pupils	170,340	4.2
Pupils attending schools with >750 pupils	24,990	0.6
Pupils attending schools with >1,000 pupils	0	0.0

[1] Includes middle schools as deemed.

[2] Includes solely registered pupils.

[3] Pupils included in schools with more than 500 pupils are also included in schools with more than 400 pupils, and so on.

Note:

Pupil numbers have been rounded to the nearest 10.

Source:

School Census

School Meals: Finance

Mr. Hurd: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 15 December 2009, *Official Report,* column 1072W, on school meals: finance, what political and policy opinion formers were identified by the stakeholder mapping exercise of the School Food Trust; and if he will place in the Library a copy of the desk research report produced by Tetra Strategy. [315278]

Ms Diana R. Johnson: This information is not held by the Department and is a matter for the School Food Trust. Following the hon. Member's previous question, the terms of reference were placed in the Library.

Schools: Health Hazards

Tom Brake: To ask the Secretary of State for Children, Schools and Families whether he has made an assessment of the merits of ensuring that there are no wireless device radiations in *(a)* schools and *(b)* child-care centres. [316541]

Mr. Coaker: The Department considers the merits of wireless device radiations in schools or child care centres on the basis of assessments and advice provided by the Health Protection Agency (HPA). The HPA advises the Government in relation to the protection of communities from radiation hazards, including those associated with exposure to non-ionising radiation such as the radio waves from wireless communication systems. The HPA concluded that there is no consistent evidence to date that exposure to radio waves from wireless networks adversely affects the health of the general population and that there is no reason why schools and others should not use wi-fi equipment.

Schools: Standards

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many *(a)* secondary schools, *(b)* pupil referral units and *(c)* special schools (i) were in the National Challenge and (ii) had been in the National Challenge for more than (A) one year, (B) two years and (C) three years on the latest date for which information is available. [316721]

Mr. Coaker: Currently there are 247 secondary schools below the National Challenge benchmark (less than 30 per cent. of pupils achieving five A*-C grade GCSEs including English and maths). The programme started in June 2008 and therefore no secondary schools have been in receipt of National Challenge support for more than two years.

However, of the 247 schools currently below the benchmark, 168 have been below this level for over two years, 147 for over three years and 133 for over four years.

Pupil referral units and special schools are not supported by National Challenge as the programme only supports maintained mainstream schools.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary schools, *(b)* secondary schools, *(c)* pupil referral units and *(d)* special schools (i) were in special measures, (ii) had been in special measures for more than a year and (iii) had been in special measures for more than two years on the latest date for which information is available. [316723]

Mr. Coaker: Data on schools in Ofsted categories are published termly by Ofsted. The latest data were published on 24 November 2009 and provide information on schools in categories as of 31 August 2009. The following table provides the information on the numbers of institutions placed in the Ofsted category of special measures, and the length of time institutions have been in that category. This information can be accessed at:

http://www.ofsted.gov.uk/Ofsted-home/Publications-and-research

Number of institutions in special measures as at 31 August 2009

	(a) Primary schools	*(b)* Secondary schools	*(c)* Pupil referral units	*(d)* Special schools	*Total*
(i) Total schools	131	44	11	7	193
(ii) 1+ years	53	17	3	2	75
(iii) 2 + years	3	2	0	1	6

Sure Start Programme

Dr. Starkey: To ask the Secretary of State for Children, Schools and Families how many Sure Start centres have been opened since 2005 *(a)* nationally and *(b)* in Milton Keynes; and how much capital funding has been allocated to such centres. [311248]

Dawn Primarolo: Please see table 1 for the Sure Start children's centres designated since 2005.

Table 1

	Milton Keynes	*England*
2005	1	254
2006	2	603
2007	5	836
2008	4	1,029
2009	6	471

Note.
This table does not include centres designated before 2005. At the end of December 2009 there were a total of 3,381 designated Sure Start Children's Centres including 19 centres in Milton Keynes.

The Department allocates capital funding for Sure Start children's centres and their predecessor Sure Start local programmes to local authorities. It is for local authorities to decide how to allocate the grant flexibly to best meet their local objectives.

In 2004 local authorities received a two year allocation (2004-06). Since 2006-07 all children's centres capital formed part of the main capital block of the Sure Start Early Years and Childcare Grant. Please see table 2 for the Milton Keynes and national capital allocations from 2004-06 and 2009-10.

Table 2

	Milton Keynes	*England*
2004-06	512,168	320,870,605
2006-07	1,330,667	272,254,576
2007-08	2,579,838	545,033,570
2008-09	1,647,002	81,000,006
2009-10	2,263,493	169,000,002

Taxis

Grant Shapps: To ask the Secretary of State for Children, Schools and Families how much his Department spent on taxi fares in each of the last five years. [309922]

Ms Diana R. Johnson: Details of the expenditure on taxi fares for financial years 2005-06, 2006-07, 2007-08 and 2008-09 is set out in the following table:

	£
2008-09	319,519
2007-08	247,738
2006-07	268,857
2005-06	113,810

The expenditure is based on staff travel claims and approved invoices received from taxi companies paid via the Department's accounts payable system. Expenditure on taxi travel in the financial years prior to 2005-06 was recorded under a general heading of "travel expenses" and is not separately identifiable for these years.

The Department for Children, Schools and Families was created on 28 June 2007 as a result of Machinery of Government change, and the expenditure recorded here, prior to this date, relates to that of its predecessor department, the Department for Education and Skills.

Truancy: Gifted Children

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils with gifted and talented status were classed as persistent truants in *(a)* 1997, *(b)* 2003, *(c)* 2006 and *(d)* the most recent year for which figures are available. [316856]

Mr. Coaker: The following table shows the number of pupils identified as gifted and talented with the number and percentage of those pupils who were classed as persistent absentees for 2006/07 and 2007/08, the most recent year for which data are available.

Persistent absence includes both authorised and unauthorised absence. Unauthorised absence is absence without leave from a teacher or other authorised representative of the school. This includes all unexplained or unjustified absences, such as lateness, holidays during term time not authorised by the school, absence where reason is not yet established and truancy.

Information on persistent absentees is not available for 1997 and 2003.

Primary, secondary and special schools[1, 2] persistent absentees within the gifted and talented cohort[3, 4]: England

	Number of gifted and talented enrolments[5]	Number of gifted and talented enrolments who are persistent absentees	Percentage of gifted and talented enrolments who are persistent absentees	Percentage of all enrolments who are persistent absentees
2006/07	639,000	10,250	1.6	4.1
2007/08	704,620	9,320	1.3	3.6

[1] Includes city technology colleges and academies (including all-through academies).

[2] Includes maintained and non-maintained special schools. Excludes general hospital schools.

[3] Persistent absentees are defined as having 64 or more sessions of absence (authorised and unauthorised) during the year, typically over 20 per cent. overall absence rate.

[4] Pupils who were identified as gifted and talented at the time of the spring census. Where gifted and talented information was missing in the spring census, information collected in the summer census has been used.

[5] Number of pupil enrolments in schools. Includes pupils on the school roll for at least one session who are aged between five and 15, excluding boarders. Some pupils may be counted more than once (if they moved schools during the school year or are registered in more than one school).

Note:

Figures have been rounded to the nearest 10.

School Census

Youth Taskforce

James Brokenshire: To ask the Secretary of State for Children, Schools and Families what the remit of the Youth Taskforce is; how much his Department has allocated to the programme for *(a)* 2009-10 and *(b)* 2010-11; what measures he uses to assess the performance of the taskforce; what activities it is undertaking; and if he will make a statement. [311231]

Dawn Primarolo: The Government established the Youth Taskforce to prevent and tackle the antisocial and offending behaviour which can blight communities and ruin lives. The Youth Taskforce works across Government and with partners up and down the country to strengthen local delivery of services for the most challenging and vulnerable young people.

The current Youth Taskforce Programme Budget is £21.916 million in 2009-10, although this figure could change following completion of the Spring Supplementary procedure and should not be considered final. The indicative Youth Taskforce programme budget for 2010-11, reflected in the Department's Programme Budget Control System, is currently £12.296 million although it is expected to increase to approximately £22 million once funding for the cross-Government Youth Crime Action Plan is confirmed. The Youth Taskforce programme budget is one part of the broader cross-Government investment to tackle youth crime and antisocial behaviour.

The Youth Taskforce Action Plan and the Youth Crime Action Plan set out the Government's approach to preventing and tackling youth crime and antisocial behaviour. The Youth Taskforce is driving delivery of both Action Plans, working with more than 80 local authorities and their partners across the country to ensure that every area can deliver an appropriate response to the needs of vulnerable young people. The most recent Youth Taskforce Progress Report is available at:

www.dcsf.gov.uk/everychildmatters/ytf

The work of the Youth Taskforce contributes to a continued reduction in the number of first-time entrants to the criminal justice system aged 10-17 (PSA 14), and in the number of people who consider young people hanging around to be a problem (British Crime Survey). There are ongoing evaluations of all Youth Taskforce programmes. Final reports are due in March 2011, and will be published thereafter.

Written Answers to Questions

Thursday 25 February 2010

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason the Rural Payments Agency has decided to carry out remote sensing mapping induction in Gloucestershire; what the average time taken to process information gathered by the process is; for what reason such processes have delayed the award of single farm payments; and if he will take steps to expedite any payments so delayed. [317706]

Jim Fitzpatrick *[holding answer 22 February 2010]:* All European Union member states have a requirement to inspect at least 5 per cent. of single payment scheme (SPS) applications each scheme year to confirm eligibility.

The majority of these eligibility inspections are carried out by RPA using remote sensing. Remote sensing uses very high resolution satellite images to check the land area in a selected zone and then to check it matches what the farmer has claimed for on the SPS application form. The geographical zones to be inspected are selected as far as possible in counties not having been previously selected and this explains why part of Gloucestershire has been included. Claims in these zones are targeted using a risk-based approach.

RPA employs a specialist contractor to undertake preliminary checks using remote sensing. When the findings reach RPA, they are checked against the SPS claim and the Rural Land Register (RLR) and then if necessary conveyed to the farmers concerned. In previous years remote sensing inspection cases have generally been paid later in the regulatory payment window, which closes on 30 June. This year and because RPA has been more successful in paying farmers earlier non payment of remote sensing cases appears more pronounced.

Owing to the complex and scientific nature of analysing thousands of hectares of land cover and topography using satellite imagery, RPA inevitably discovers instances where it is difficult to interpret what the imagery is showing, for example because of atmospheric conditions or apparent land use and management changes, which require further clarification with the farmer. This year has also been more complex because of the work to update all of the boundaries, position and accuracy of the land in the RLR.

RPA must ensure that findings from these inspections are taken fully into account before a claim can be paid, which often necessitates ongoing communications with farmers to reach an accurate outcome. Because of the range of checks on claims' some will inevitably take longer than others to complete. Remote sensing processing is being carried out as quickly as possible and RPA is working to make these payments as soon as possible.

Poultry: Animal Feed

Annette Brooke: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on the *(a)* public health and *(b)* moral and religious implications of undisclosed elements of pork and beef being fed to chickens. [318786]

Jim Fitzpatrick: We have received no recent representations on these subjects.

CULTURE, MEDIA AND SPORT

National Heritage Memorial Fund

Bob Spink: To ask the Secretary of State for Culture, Media and Sport how much funding the National Heritage Memorial Fund received from the public purse in each of the last three years. [318017]

Margaret Hodge *[holding answer 23 February 2010]:* The grant in aid funding figures for the National Heritage Memorial Fund received from my Department in each of the last three full financial years are in the table.

Financial year	*£ million*
2006-07	5.0
2007-08	10.0
2008-09	10.0

Public Libraries: Birmingham

Mr. Godsiff: To ask the Secretary of State for Culture, Media and Sport what the reason was for the time taken for his Department to determine the application of Birmingham city council for a certificate of immunity from listing in respect of its proposal to redevelop Birmingham Central Library; and for what reason his Department has declined to release documents relating to that decision in response to an application under the Freedom of Information Act 2000. [318137]

Margaret Hodge: The Birmingham Central Library case involved a great deal of detailed consultation and careful consideration of high volumes of correspondence before a decision could be reached.

All departmental responses to freedom of information requests are handled within the requirements of the Freedom of Information Act 2000. Where exemptions apply, a full explanation is provided to the applicant.

Radio

Bob Russell: To ask the Secretary of State for Culture, Media and Sport what estimate he made of the revenue which would accrue to the Exchequer in circumstances in which Ofcom re-auctioned the three existing independent national radio licences. [317595]

Mr. Bradshaw: An assessment of the potential revenue was made in the impact assessment which accompanied the draft Digital Economy Bill. This is available at:

http://www.culture.gov.uk/images/publications/digitalbritain_impactassessment.pdf

ELECTORAL COMMISSION COMMITTEE

Electoral Register: Expenditure

Chris Ruane: To ask the hon. Member for South West Devon, representing the Speaker's Committee on the Electoral Commission pursuant to the answer of 3 February 2010, *Official Report*, column 326W, on electoral register: expenditure, how much was spent on each type of initiative on electoral registration referred to in the answer in *(a)* 2007-08 and *(b)* 2008-09. [318592]

Mr. Streeter: The Electoral Commission informs me that the figures given in the previous answer were the total expenditure for registration objectives as recorded in its resource accounts for 2007-08 and 2008-09. The Commission further informs me that the expenditure is not recorded by activity in its accounts and that it is not possible to provide the detailed information sought without incurring disproportionate cost.

SCOTLAND

Carbon Sequestration

Miss McIntosh: To ask the Secretary of State for Scotland what recent discussions he has had with the Secretary of State for Energy and Climate Change on the potential effects on the energy industry in Scotland of proposals on carbon capture and storage. [318695]

Ann McKechin: My right hon. Friend and I hold regular discussions with ministerial colleagues across Government about a wide range of issues. The Energy Bill allows for the introduction of a carbon capture and storage incentive to support the construction of up to four UK commercial-scale demonstration projects.

Trade: Scotland

Mr. MacNeil: To ask the Secretary of State for Scotland what recent discussions he has had with Ministers in the Department for Business, Innovation and Skills on international trade in Scotland. [318509]

Ann McKechin: My right hon. Friend and I have regular discussions with ministerial colleagues on a range of issues.

The Scotland Office worked closely with DEFRA on the recent Scotch Whisky Regulations 2009. The regulations came into force on 23 November last year and provide a significant step forward in providing extra protection for an important Scottish industry. These regulations will help safeguard Scotch whisky from unfair and deceptive practices and will help protect whisky customers across the globe.

JUSTICE

Industrial Disputes: Essex

Bob Spink: To ask the Secretary of State for Justice how many industrial tribunal cases are outstanding in *(a)* Essex and *(b)* Castle Point. [318109]

Bridget Prentice: The allocation of claims to an Employment Tribunal office is determined by the postcode of the respondent against whom the claim has been brought. Employment Tribunal claims against respondents based in the county of Essex are dealt with by the Bury St. Edmunds, East London and Watford Employment Tribunal offices. Claims against respondents based specifically in the borough of Castle Point are dealt with by the East London Office.

The following table shows the number of live claims held in each of the offices covering the county of Essex at 31 January 2010:

	Number
Bury St. Edmunds	3,349
East London	5,320
Watford	2,599

Source:
Tribunals Service internal management information

Claimants from Essex or Castle Point may have brought claims against respondents outside Essex and these claims may be held in other offices depending on the address of the respondents. Statistical information is not collated centrally in relation to such cases.

Prisoners: Nationality

Damian Green: To ask the Secretary of State for Justice how many serving prisoners convicted of each type of offence are recorded as having no nationality, broken down by length of sentence. [317170]

Claire Ward: On 30 June 2009, there were 68,375 prisoners under immediate custodial sentence in England and Wales, including 156 prisoners whose nationality was not yet recorded.

The following table shows these 156 prisoners by type of offence and sentence length.

	Less than or equal to six months	*Six months to less than 12 months*	*12 months to less than four years*	*Four years to indeterminate*	*Indeterminate*	*Total*
Burglary	1	1	6	8	0	16
Drug offences	0	0	4	12	0	16
Fraud and forgery	5	5	14	1	0	25
Motoring offences	3	0	1	0	0	4
Offence not recorded	5	0	3	3	0	11
Other offences	6	3	2	1	1	13
Robbery	0	0	5	2	0	7
Sexual offences	0	0	1	7	8	16

6	Less than or equal to six months	Six months to less than 12 months	12 months to less than four years	Four years to indeterminate	Indeterminate	Total
Theft and handling	5	3	5	0	0	13
Violence against the person	2	2	12	8	13	36

Note: These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Voting Rights

Mr. Touhig: To ask the Secretary of State for Justice whether his Department plans to bring forward legislation to change the law which prevents prisoners from voting in general elections. [318409]

Mr. Wills: The Government have recently undertaken the second stage consultation on this issue. We are currently considering the responses. The Government will then consider the next steps towards implementing the judgment in legislation.

Prisons: Drugs

Philip Davies: To ask the Secretary of State for Justice how many and what proportion of illicit drug seizures within prisons was attributed to *(a)* sniffer dogs, *(b)* closed circuit television, *(c)* strip searches, *(d)* intimate searches, *(e)* searches of prison cells and *(f)* police intelligence in each of the last five years. [317397]

Maria Eagle: Information is not recorded in the format requested and would require requests for and detailed analysis of data returns from all prisons in England and Wales. To do so would incur disproportionate costs.

The combination and extent to which these methods have been used to seize drugs is specific to individual prisons, and will have varied over time as priorities and tactics have changed and evolved.

Local searching strategies are based on an individualised assessment of risk while containing mandatory actions set out in the National Offender Management Service's (NOMS) National Security Framework. NOMS searching policy is based on: common law principles of decency; human rights principles of necessity and proportionately; and not subjecting prisoners to degrading treatment.

An intimate search is defined as a manual search of buccal, anal and/or vaginal cavities. Intimate searching runs a significant risk of causing internal damage, particularly where the subject is non-compliant. Only qualified medical practitioners or registered nurses are able to undertake an intimate examination and will do so only with consent and for health-related reasons.

NOMS policy on searching in prisons does not permit intimate searches to be conducted. Where prison staff suspects internal concealment, the prisoner may be placed in confinement until the item is produced and/or referred to health care whenever there are concerns about health, for example, due to the concealment of drugs.

Public Sector: Disclosure of Information

Mr. Maude: To ask the Secretary of State for Justice pursuant to the answer of 26 January 2010, *Official Report*, column 734W, on public sector: disclosure of information, if he will list each of the 57 primary requests that have been accepted by the Unlocking Service; and what the status is of each. [318341]

Mr. Wills: The following 57 requests to the Unlocking Service were accepted:

Asset	*Status*

Youth Justice Board

John McDonnell: To ask the Secretary of State for Justice what percentage of the Youth Justice Board's expenditure was spent on purchasing custodial places in 2008-09. [318441]

Maria Eagle: The cost of custodial places currently includes payment for education provision. In respect of certain establishments, it also includes contributions to primary care trusts for health provision.

For the financial year 2008-09 the cost to purchase places and regimes for children and young people in the secure estate was £297,952,000 which equates to 63 per cent. of their annual budget.

The data contained in this answer is taken from the published YJB annual accounts.

TRANSPORT

Channel Tunnel: Safety

Mr. Brazier: To ask the Minister of State, Department for Transport what research his Department is undertaking in respect of the safety aspects of the two recent major incidents in the Channel Tunnel. [318763]

Chris Mole: The Channel Tunnel Intergovernmental Commission acts for and on behalf of the British and French Governments to supervise all matters relating to the operation of the Channel Tunnel, including safety.

The Channel Tunnel Intergovernmental Commission is advised by the Channel Tunnel Safety Authority on all matters relating to safety.

Departmental Buildings

Stephen Hammond: To ask the Minister of State, Department for Transport how many members of staff of *(a)* Directly Operated Railways and *(b)* East Coast Trains occupy office space in his Department. [318677]

Chris Mole: At the moment there are three full-time and two part-time Directly Operated Railways staff based at the Department for Transport's Marsham street offices. In addition, two non-executive directors also use these offices for up to two days each month.

From the 6 May, Directly Operated Railways staff will be based at offices in Kemble street which are not Department for Transport premises.

There are no East Coast staff occupying space in the Department for Transport offices.

Departmental Disabled Staff

Mr. Harper: To ask the Minister of State, Department for Transport how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317898]

Chris Mole: The following table details how many and what proportion of staff in the Department for Transport and its Executive agencies are declared disabled; and what the average salary is of full-time declared disabled staff, full-time non-disabled staff, part-time declared disabled staff and part-time non-disabled staff.

	Disabled	*Non-disabled*	*Disabled staff as percentage of known disability*	*Full-time disabled average salary (£)*	*Full-time non-disabled average salary (£)*	*Part-time disabled average salary (£)*	*Part-time non-disabled average salary (£)*
DFT(C)	90	1,770	4.7	31,020	36,080	0	32,500
DVLA	980	4,760	17.1	17,730	17,730	17,730	17,730
DSA	150	2,490	5.6	24,320	24,320	22,790	22,450
GCDA	10	310	2.2	24,740	24,740	0	23,070
HA	160	2,780	5.3	23,070	22,630	22,550	22,550
MCA	90	790	9.7	22,330	24,370	24,980	18,620
VCA	0	140	0	0	31,210	0	19,610
VOSA	90	2,430	3.7	26,710	24,710	16,000	19,560

These data are based on returns made by Government Departments and agencies to ONS for the reference date of 31 March 2009.

Driver and Vehicle Licensing Agency: Snow and Ice

Grant Shapps: To ask the Minister of State, Department for Transport what assessment he has made of the effect of recent adverse weather on the delivery of car tax renewal notices to motorists; how many have been delayed; and what the Driver and Vehicle Licensing Agency's policy is on this matter. [318746]

Paul Clark: The Driver and Vehicle Licensing Agency's policy is to send out vehicle tax renewal reminders around three weeks before the existing tax disc expires.

This gives customers plenty of time to get a new tax disc. The agency's online and telephone based tax disc services are available 24 hours a day to ensure that customers need never miss the deadline for taking action.

Renewal reminder notices are sent as a courtesy. The registered keeper of a vehicle is responsible for ensuring it is correctly licensed, even if a renewal reminder is not received. Our assessment is that there is no evidence that reminders were unduly delayed during recent bad weather and that 3 million motorists licensed their vehicles during January.

Electric Vehicles

Mrs. Ellman: To ask the Minister of State, Department for Transport what research *(a)* his Department and *(b)* its agencies have commissioned on the reliability of electronic systems fitted in vehicles in the last five years. [318756]

Paul Clark: The Department for Transport or its agencies has not commissioned any specific research to look at the reliability of vehicles' electronic systems. However, under harmonised European construction rules electronic vehicle systems such as braking and steering are assessed for potential failures and any effect they may have on the safe operation of the vehicle.

Government Car and Despatch Agency: Internet

Mr. Maude: To ask the Minister of State, Department for Transport for what reasons the Government Car and Despatch Agency has no contact details on its website. [318343]

Paul Clark: The Government Car and Despatch Agency (GCDA) publishes its contact details on its website:

www.dft.gov.uk/gcda

Within the 'Contact Us' section, telephone numbers for GCDA departments are shown.

E-mail addresses and contact telephone numbers are shown at the end of each of the GCDA product/service pages.

Motor Vehicles: Safety

Mrs. Ellman: To ask the Minister of State, Department for Transport (1) on what date the Vehicle and Operator Services Agency was informed by Toyota of the possibility of the need to recall certain models of the Prius motor car; and if he will make a statement; [318755]

(2) what discussions he has had with representatives of the Toyota Motor Company on reported faults with the Prius model; and if he will make a statement. [318759]

Paul Clark: On 1 February 2010, the Vehicle Safety Branch (VSB) of the Vehicle and Operator Services Agency (VOSA) held a meeting with Toyota GB to discuss the Toyota accelerator pedal matter.

The Vehicle Standard Branch raised at the same time the issue concerning the braking system fitted to the Toyota Prius. Toyota GB advised that its parent company was conducting an investigation and agreed to keep VSB informed.

Toyota GB believed this to be a brake pedal issue during brake application and the intervention of the ABS on low friction road surfaces rather than a safety defect. The Vehicle Standard Branch engineers conducted extensive tests and concluded that there was no safety defect.

On 9 February 2010 Toyota GB informed VSB of their intention to treat this matter as a recall. Keepers of 8,500 Prius vehicles in the UK will be contacted to submit their vehicle to a dealer who will re-programme the Anti Lock Braking System software. Toyota GB informed VSB that as of 22 February 2010, 1,258 vehicles have been fixed.

Motor Vehicles: Testing

Mrs. Ellman: To ask the Minister of State, Department for Transport how many vehicles failed an MOT test for incorrectly adjusted headlamps in the last five years. [318757]

Paul Clark: The Vehicle and Operator Services Agency (VOSA) does not record this specific information and to find this information would result in disproportionate cost being incurred.

VOSA publishes MOT failures by categories in its Effectiveness Report. Incorrectly adjusted headlamps would be recorded within the Lighting and Signalling category along with other related failures. Figures for the last three years are listed in the table.

Table A 3.2 Failures of vehicles which included a lighting and signalling defect as a percentage of vehicles tested at MOT stations

	2008-09	2007-08	2006-07
Total tests	29,691,015	28,742,618	27,805,830
Class 1 and 2 motorcycles percentage of tests	8.9	8.9	8.7
Class 3 and 4: cars and light vans up to 3,000kg (percentage)	18.9	18.8	18.2
Class 5: Private passenger vehicles with more than 12 seats (percentage)	19.7	19.5	19.0
Class 7: Goods vehicles between3,000 and 3,500 kg gross vehicle weight (percentage)	43.1	43.6	42.3

Notes:

1. A failed vehicle for a lighting and signalling defect often has more than one failure item.
2. The percentage shows the percentage of the defect category against the total number of tests carried out.
3. Figures before 2006-07 are recorded in a different format.

Official Cars

Mr. Maude: To ask the Minister of State, Department for Transport pursuant to the answer of 21 January 2010, *Official Report*, column 420W, on official cars, how many such cars were available for *(a)* Ministers and *(b)* senior civil servants in 1997-98; and what the annual cost was of providing the service in that year. [318194]

Paul Clark: The Government Car and Despatch Agency holds no historical information for that period and this could be obtained only at a disproportionate cost.

Railways: Fines

Stephen Hammond: To ask the Minister of State, Department for Transport to what use fines received from train operating companies as a result of franchise breaches are put. [318676]

Chris Mole: No fines have been imposed on train operating companies since the Department for Transport assumed responsibility for rail franchising, as the Government have instead sought appropriate passenger benefits from the train operator concerned, at a financial cost to the operator.

PRIME MINISTER

2010 Winter Olympics in Vancouver

Mr. Hunt: To ask the Prime Minister how many staff of his Office attended the 2010 Winter Olympics in Vancouver. [318778]

The Prime Minister: None.

Official Residences

Mr. Maude: To ask the Prime Minister pursuant to the answer of 28 January 2010, *Official Report*, column 1070W, on official residences, on what date the squatters who occupied the property at the beginning of December 2009 left the ministerial residence of South Eaton Place; whether the police or courts were used to secure occupation; and what steps have been taken to secure the property in future. [318301]

Angela E. Smith: I have been asked to reply.

Following a court order the persons illegally occupying South Eaton Place vacated it on 13 December 2009. The property is for sale.

OLYMPICS

Departmental Disabled Staff

Mr. Harper: To ask the Minister for the Olympics how many and what proportion of staff in the Government Olympic Executive are disabled; and what the average salary in the Government Olympic Executive is of *(a)* full-time disabled staff, *(b)* full-time non-disabled staff, *(c)* part-time disabled staff and *(d)* part-time non-disabled staff. [317903]

Tessa Jowell: The Government Olympic Executive (GOE) reports to me through the permanent secretary at the Department for Culture, Media and Sport (DCMS). GOE will be included within the answer provided by the Parliamentary Under-Secretary of State at DCMS.

Departmental Official Hospitality

Bob Spink: To ask the Minister for the Olympics how much her office has spent on entertainment in each of the last five years. [318472]

Tessa Jowell: My office has been in existence since June 2007. In the reporting year 2007-08 £1,215 was spent on entertainment, in the reporting year 2008-09 £717.05 was spent. Figures for 2009-10 will not be available until the end of the reporting year.

Olympic Games: Canada

Mr. Hunt: To ask the Minister for the Olympics how many staff of the Government Olympic Executive attended the 2010 Winter Olympics in Vancouver; and whether she attended. [318779]

Tessa Jowell: Four members of the Government Olympic Executive have attended the 2010 Winter Olympics. It is planned that a further four officials will attend the Paralympics. They are participating in the observer programmes which run throughout the Winter Olympic and Paralympic Games.

I attended the Vancouver 2010 Olympic Games from 10 to 18 February, with my private secretary, a press officer and a special adviser. This provided an invaluable opportunity to study at first-hand Vancouver's experience in staging an Olympic Games and to learn lessons for London 2012.

Overseas Aid: Expenditure

Mr. Hunt: To ask the Minister for the Olympics how much was spent on humanitarian assistance programmes in each of the last five years. [318624]

Tessa Jowell: The role of my Humanitarian Assistance Unit is to:

ensure that the needs of British people affected by major emergencies are acted on within Government in building preparedness for and responding to major emergencies; and

act as an advocate for victims and their families within Government and beyond.

Expenditure on humanitarian assistance programmes in each of the last five years is as follows:

	£
2005-06	549,000
2006-07	366,500
2007-08	312,500
2008-09	277,500
2009-10 (to date)	217,000

In addition, the Government provided:

£1 million to the British Red Cross in 2006-07 to set up the Relief Fund for Victims of Terrorism; and

£1 million to the Royal Parks for the 7 July memorial in Hyde Park.

ENERGY AND CLIMATE CHANGE

Warm Front Scheme: Eaga

18. **Natascha Engel:** To ask the Secretary of State for Energy and Climate Change if he will review the effectiveness of the role of Eaga in the allocation of grants under the Warm Front scheme. [318599]

Mr. Kidney: All applications to Warm Front will be considered by the scheme manager, Eaga, in accordance with the regulations which govern the scheme. The assistance provided to qualifying households will depend on their circumstances and the range of measures available. Work is allocated to those installers appointed under the scheme to work in the local area. The Department has an independent quality assurance contract in place to verify the work of the scheme manager.

Gas Storage

20. **Michael Fabricant:** To ask the Secretary of State for Energy and Climate Change how much additional gas storage capacity he expects to be available in the UK by 2012; and if he will make a statement. [318561]

22. **Mr. Rob Wilson:** To ask the Secretary of State for Energy and Climate Change how much additional gas storage capacity he expects to become available in the UK by 2012. [318564]

Mr. Kidney: I refer the hon. Member to the reply my right hon. Friend the Secretary of State for Energy and Climate Change gave to the hon. Member for Bracknell (Mr. Mackay) earlier today.

Chronic Obstructive Pulmonary Disease

21. **Mr. Clapham:** To ask the Secretary of State for Energy and Climate Change how many miners' claims relating to chronic obstructive pulmonary disease remain to be settled; and when he expects the compensation scheme to end. [318562]

Mr. Kidney: The Department has settled over 590,000 chronic obstructive pulmonary disease claims to date. A further 1,762 claims remain to be settled of which less than 270 have yet to receive an offer. The Department aims to settle these claims by end of December 2010, although some claims involve protected parties and may take longer to resolve.

Carbon Capture and Storage

Mr. Binley: To ask the Secretary of State for Energy and Climate Change what steps he plans to take to secure progress in the post-competitive phase of the carbon capture and storage programme. [318542]

Edward Miliband: I expect to announce shortly which consortia will be selected following detailed scrutiny to undertake the tens of millions of pounds-worth of work for the front-end engineering and design for the first CCS demonstration project, the necessary work prior to construction. Later this year, we will also open the competition for the three other projects, to be funded under the CCS Incentive. The latter is, of course, dependent on the successful passage of the Energy Bill.

Energy Management Strategy

Greg Mulholland: To ask the Secretary of State for Energy and Climate Change when he expects to publish his Department's household energy management strategy. [318552]

Joan Ruddock: The Government consulted on their plans for improving the energy efficiency of existing homes from February to May last year. We had over 300 responses to that consultation, from a wide variety of organisations and individuals, expressing a broad range of views.

In response to that consultation, our Strategy for Household Energy Management will be published very shortly.

Coal: Electricity

Mr. David Anderson: To ask the Secretary of State for Energy and Climate Change if he will give additional support to promote the use of co-firing of biomass in coal-powered electricity generation. [318563]

Mr. Kidney: Co-firing, along with other eligible renewable electricity generation technologies is supported under the renewables obligation.

In October 2010 we will start the first scheduled banding review for all eligible renewables technologies supported under the renewables obligation.

This will include reviewing at the level of support for co-firing of biomass and energy crops in fossil-fuelled generation.

Environmental Technologies

Mr. Bain: To ask the Secretary of State for Energy and Climate Change what recent steps he has taken to increase the use of new environmental technologies; and if he will make a statement. [318558]

Joan Ruddock: The Department of Energy and Climate Change has a range of policies in place that will increase the use of new environmental technologies by driving carbon emission reduction. These policies include the EU Emissions Trading Scheme, our carbon budgets, and the carbon reduction commitment.

Recent steps to increase the use of new environmental technologies include Feed In Tariffs; the Renewable Heat Incentive and the Low Carbon Communities Challenge.

Natural Gas: Industrial Disputes

Mr. Crabb: To ask the Secretary of State for Energy and Climate Change (1) what steps his Department is taking to ensure the security of the UK's gas supply in the event of proposed industrial action at Milford Haven; [318463]

(2) on what dates he discussed Unite's proposed industrial action at Milford Haven with officials from Unite; [318464]

(3) what representations he has received on the likely effect on the security of gas supply of industrial action by Unite at Milford Haven; [318465]

(4) what representations he has received on the likely effect of industrial action by Unite at Milford Haven on imports of crude oil and refined products. [318466]

Mr. Kidney: The Department of Energy and Climate Change has been closely following events at Milford Haven Port Authority over the past few weeks. My officials have been in regular contact with the operators of LNG import facilities and refineries in the area to understand the implications of possible industrial action. We have also been in contact with national grid to discuss the potential implications for UK's gas supply. Officials have maintained close communication with port authority management to follow developments and, between 1 and 23 February, Ministers and officials have spoken on a number of occasions with senior representatives from Unite to seek their assessment of the dispute.

DECC recognises the strategic importance of the port to the energy industry and has urged the parties concerned to do everything possible to reach a resolution to the dispute whilst recognising that the issues under negotiation are a matter for the management and employees of the port authority. We welcome the announcement that the industrial action at Milford Haven port scheduled to start on 23 February has been averted and are pleased that consultation is under way on proposals which we hope will lead to an agreement.

My officials and I will continue to monitor developments closely and I urge the parties concerned to seek a swift and sustainable agreement to the dispute.

NORTHERN IRELAND

Departmental Pay

Grant Shapps: To ask the Secretary of State for Northern Ireland how much funding his Department has allocated for *(a)* year end and *(b)* in-year bonuses for its staff in 2009-10. [307023]

Paul Goggins: The Northern Ireland Office (NIO) operates three non-consolidated performance payment schemes: an in-year, special performance scheme (to reward particularly meritorious contributions during the year); an end-of-year performance payment scheme for staff below the Senior Civil Service (SCS) (to reward performance and delivery throughout the previous year); and a performance payment scheme for SCS staff, which is an integral part of the pay arrangements in operation in all Whitehall Departments.

The annual costs of the end-of-year performance payment scheme for staff below Senior Civil Service is £348,300. This equates to 0.54 per cent. of the pay remit available to those staff eligible to participate in the scheme.

In respect of performance payments for Senior Civil Service for 2009-10, the NIO will, as usual, await the advice of the Senior Salaries Review Body and Cabinet Office Guidance.

The funding allocated to the in-year special performance scheme equates to 0.4 per cent. of the pay remit available to those staff eligible to participate in the scheme. The funding for the 2009-10 year was set at £258,000.

Departmental Travel

Mr. Watson: To ask the Secretary of State for Northern Ireland if he will publish the travel guidance issued to staff of each of his Department's agencies and non-departmental public bodies. [315033]

Paul Goggins: Most of the Department's agencies and non-departmental public bodies follow travel policy/guidance issued by the Northern Ireland Office (NIO).

The Northern Ireland Human Rights Commission have their own guidance document and the Northern Ireland Prison Service follow the guidance contained in the Northern Ireland Civil Service Handbook.

I will place in the Library of the House copies of travel guidance documents.

DEFENCE

Afghanistan: Peacekeeping Operations

Andrew Mackinlay: To ask the Secretary of State for Defence how many turbines other than those delivered in September 2008 are operational at Kajaki dam; in what year such turbines were installed; and what the volume of electricity output has been of such turbines in the last five years for which figures are available. [311001]

Chris Bryant: I have been asked to reply.

There are two turbines operational at Kajaki dam, which were installed between 1972 and 1975. In 1975, the dam began to produce electricity for the Helmand Valley and Kandahar. It produces 33 mega watts of power.

Andrew Mackinlay: To ask the Secretary of State for Defence for what reasons the turbine delivered to Kajaki dam by UK forces in September 2008 is not functioning; whether that turbine has functioned since its delivery; when he expects that turbine to function; and if he will make a statement. [311003]

Chris Bryant: I have been asked to reply.

The turbine delivered in September 2008 requires other materials, namely mechanical and construction equipment, to make it functional. These have not yet been moved to the Kajaki area. While the dam does not operate to its full capacity, currently it does provide electricity to the population of Helmand. Two generators are in place and being used, along with diesel-powered local generation, to increase supply. While the security situation in the area makes access and delivery to Kajaki challenging, supplies, including oil, are being delivered. USAID, the US federal government agency responsible for the US effort in the field of development and reconstruction, is leading the work on the refurbishment of the power station. They continue to plan to make the facility fully operational.

Armed Forces: Housing

Angus Robertson: To ask the Secretary of State for Defence what proportion of each grade of his Department's single living accommodation housing stock in Scotland was empty in each of the last five years. [317784]

Mr. Kevan Jones: We record details of void bed-spaces which are defined as those which are available but not currently required for occupation by single Service personnel. Separate figures for Scotland are not available.

Armed Forces: Manpower

Dr. Murrison: To ask the Secretary of State for Defence what the current shortfall is of *(a)* reservist and *(b)* regular (i) medical, (ii) nursing and (ii) paramedic staff. [309014]

Mr. Kevan Jones *[holding answer 6 January 2010]*: The latest available data are provided in the following tables:

Defence Medical Service Regulars—Manning as at 1 October 2009

	Requirement	*Trained strength*	*Shortfall (percentage)*
Medical officers	818	476	42
Nurses	1,900	1,500	21
Medical support services	4,083	3,882	5
Dental officers and allied dental healthcare professionals	777	764	2
Total	7,578	6,622	13

Notes:
1. Requirement excludes the manning and training margin.
2. Trained strength only includes personnel that are qualified in their speciality.
3. 'Medical Support Services' include the paramedic cadre.
4. Dental officers and allied dental healthcare professionals includes dental practitioners, dental support officers, dental surgery assistants and dental technicians.

Defence Medical Service Reserves—Manning as at 1 October 2009

	Requirement	*Trained strength*	*Shortfall (percentage)*
Medical officers	1,001	408	59
Nurses	863	553	36
Medical support services	2,316	1,535	34
Dental officers and allied dental healthcare professionals	58	31	47
Total	4,238	2,527	40

Notes:
1. Dental officers and allied dental healthcare professionals includes dental practitioners, dental support officers, dental surgery assistants and dental technicians.
2. 'Medical Support Services' include the paramedic cadre.

Willie Rennie: To ask the Secretary of State for Defence (1) how many people of each occupation are employed as personal staff for the Director General Land Warfare; [316934]

(2) how much his Department has spent on personal staff for the Director General Land Warfare in the last 12 months. [316935]

Bill Rammell: Director General Land Warfare has access to a pool of staff as part of a garrison-wide contract. He shares the use of one gardener and one domestic assistant to maintain his service family accommodation with the whole garrison of about 2,000 people. As such their staff duties are not solely dedicated to Director General Land Warfare. This is within MOD guidelines on proportionate staffing levels for the post.

The contract value of the support provided to Director General Land Warfare was valued at approximately £1,200 per month from February 2009 to January 2010.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Defence how many performance reviews were undertaken in respect of staff of *(a)* his Department and *(b)* its agencies in each of the last five years; in how many cases performance was rated as unsatisfactory or below; how many staff left as a direct result of such a rating; and what percentage of full-time equivalent staff this represented. [313834]

Mr. Bob Ainsworth: This information is not held in the format requested.

Other than certain medical grades, all MOD civilian staff are required to participate in an annual performance review process. If performance is identified as unsatisfactory—at any point in the reporting year—individuals may be subject to the restoring efficiency process, which involves warning the individual, encouraging improvement, and allowing a reasonable opportunity to improve. If a satisfactory performance is not achieved, the individual may be dismissed or downgraded. The number of staff dismissed for unsatisfactory performance in each financial year was as follows:

	Total
2004-05	12
2005-06	12
2006-07	12
2007-08	4
2008-09	2

These figures include staff in MOD agencies but exclude Trading Funds and the Royal Fleet Auxiliary.

Ex-servicemen: Military Decorations

Mr. Sarwar: To ask the Secretary of State for Defence how many veterans' badges have been issued to former members of the armed forces since the badges were introduced. [318256]

Mr. Kevan Jones: As at 19 February 2010, 770,324 Veterans Lapel Badges have been issued to former members of the armed forces and their entitled dependants since their introduction on 10 April 2004.

Hercules Aircraft

Angus Robertson: To ask the Secretary of State for Defence how many search and rescue operations took place beyond the standard operational range of the Hercules aircraft in the last five years. [318838]

Bill Rammell: None. The UK has responsibility for search and rescue operations within a specified area, which includes the north Atlantic, extending out to 30 degrees west. Hercules aircraft are capable of covering the entirety of the UK search and rescue area of responsibility.

Incapacity Benefit: Chelmsford

Angus Robertson: To ask the Secretary of State for Defence how much his Department spent on substitute accommodation in Scotland for *(a)* service family accommodation and *(b)* single living accommodation in each of the last five years. [316513]

Mr. Kevan Jones: It will take more time to collate and verify the information requested. I will write to the hon. Member.

Substantive answer from Kevan Jones to Angus Robertson:

In my answer of 9 February (Official Report, column 811W) I undertook to write to you with details of how much the Department has spent on substitute accommodation in Scotland for Service Family Accommodation and Single Living Accommodation in each of the last five years.

Substitute Service Family Accommodation (SSFA) and Substitute Service Single Accommodation (SSSA) are only ever used as a last resort in cases where service accommodation either does not exist or is not available. SSSA properties may accommodate more than one entitled Service person of the same gender and of an equivalent rank. As part of the value for money programme that I chair, the entitlements of all Ministry of Defence employees are being considered.

The amount spent on SSFA and SSSA in Scotland in each of the last five years is shown in the following table:

	Number of SSFA	*Cost (£ million)*	*Number of SSSA*	*Cost (£ million)*	*Total expenditure (£ million)*
2005	18	0.2	304	2.1	2.3
2006	23	0.2	487	2.5	2.7
2007	26	0.2	585	3.2	3.4
2008	34	0.2	682	3.9	4.1
2009	36	0.3	638	3.8	4.1

Iraq Committee of Inquiry

Lembit Öpik: To ask the Secretary of State for Defence if he will *(a)* make available to the Iraq Inquiry and *(b)* place in the Library a copy of all legal advice given by his Department to military personnel prior to the beginning of the Iraq war; and if he will make a statement. [318459]

Mr. Bob Ainsworth: The Ministry of Defence is providing the inquiry with all the documentation that the inquiry has requested including legal advice. The Department will consider any requests to place documents containing legal advice relating to the Iraq conflict in the Library of the House on a case-by-case basis.

Military Aircraft

Angus Robertson: To ask the Secretary of State for Defence what the maximum operational range is of the *(a)* MR2 and *(b)* Hercules search and rescue aircraft without air-to-air refuelling. [318837]

Bill Rammell: The Nimrod MR2 and Hercules C130K aircraft perform other tasks aside from long-range search and rescue. We therefore cannot comment on actual capability levels as this is classified information.

The UK has responsibility for search and rescue operations within a specified area, which includes the North Atlantic out to 30 degrees West and both the Nimrod MR2 and Hercules C130K aircraft are capable of covering the entirety of the UK's search and rescue area of responsibility. The maximum time on task is dependent on a wide range of factors including load, configuration and weather, and this can be extended through use of diversions as far afield as Iceland in the north or indeed the Azores in the south. Additionally, the Hercules C130K has the capacity to air-to-air refuel which could significantly extend its time on task if it was required.

Nimrod Aircraft

Angus Robertson: To ask the Secretary of State for Defence how many search and rescue missions were flown from RAF Kinloss using MR2 aircraft in each of the last five years; and what the *(a)* distance and *(b)* duration was of each such mission. [318839]

Bill Rammell: The number of search and rescue missions flown by MR2 aircraft from RAF Kinloss in each of the last five years is provided in the following table:

	Number
2005	28
2006	28
2007	17
2008	25
2009	11

The available information relating to distance and duration of each mission in each of the last five years is provided in the following tables. The distance provided represents the nautical miles from RAF Kinloss to the search and rescue (SAR) task and does not represent the total distance flown. The duration of each mission relates only to the actual search and rescue mission and does not, in every case, represent total flying time.

Nuclear Submarines

Angus Robertson: To ask the Secretary of State for Defence (1) what plans he has for the replacement of MR2s in the protection of the UK's nuclear submarine fleet; [318833]

(2) what the end of service date is of the MR2 aircraft; what plans there are for its replacement; when he expects the MRA4 aircraft to enter service; and if he will make a statement; [318836]

(3) if he plans to lease search and rescue aircraft following the withdrawal from service of the MR2 aircraft. [318840]

Mr. Kevan Jones: The Nimrod MR2 will be taken out of service on 31 March 2010, and will be replaced by the substantially more capable Nimrod MRA4. The MRA4 production programme remains unchanged, but the aircraft will be introduced into service at a slower rate as part of a package of key adjustments to the

Defence programme announced on 15 December last year. During the period of transition we intend to use other assets to fulfil its various roles. We do not currently have any plans to lease aircraft to fulfil the long range search and rescue tasks undertaken by the MR2.

I cannot comment on the levels of protection assigned to the Deterrent for reasons of national security.

INTERNATIONAL DEVELOPMENT

Civil Society Challenge Fund

Mr. Andrew Mitchell: To ask the Secretary of State for International Development if he will place in the Library copies of the proposals received by his Department for funding each project which is to receive funding from the Civil Society Challenge Fund 2010. [317592]

Mr. Douglas Alexander: Details for the projects to receive funding from the Civil Society Challenge Fund in 2010 are available on the Department for International Development's (DFID's) website at:

www.dfid.gov.uk

Signing of grant agreements for 2010 is still subject to negotiation of financial and other arrangements and the usual DFID approval procedures.

Haiti: Earthquakes

Mr. Touhig: To ask the Secretary of State for International Development what discussions *(a)* he and *(b)* officials of his Department have had with (i) politicians and (ii) officials in Haiti on the role the UK can play in the reconstruction of that country. [318157]

Mr. Michael Foster: Reconstruction on such a vast scale is best led multilaterally. The Government of Haiti have asked the World Bank and United Nations to be the joint international leads on this, and we expect the other international financial institutions, the European Commission and Haiti's major bilateral donors also to have a strong role. The United Kingdom is and will remain a major contributor to multilateral funding and in that role fully expects to attend the main reconstruction conference in New York at the end of March.

Mr. Touhig: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of the *(a)* aid and *(b)* other assistance provided by his Department to the people of Haiti since the earthquake in that country. [318158]

Mr. Michael Foster: The Department for International Development's (DFID's) assessment team provide daily field reports on the developing humanitarian situation in Haiti, to inform departmental decisions on funding and strategic choices. These situation reports are published on the DFID website for members of the public to view.

Overseas Aid: Asylum

Angus Robertson: To ask the Secretary of State for International Development how much his Department has allocated to support work with refugees from *(a)* Iraq, *(b)* Afghanistan, *(c)* Sudan, *(d)* Somalia and *(e)* Rwanda in 2009-10. [318006]

Mr. Michael Foster: To date, in 2009-10 the Department for International Development (DFID) has provided a core contribution of £19 million to the UN Office of the UN High Commissioner for Refugees (UNHCR) to work with refugees worldwide.

DFID has also provided earmarked funding to UNHCR to support refugees in specific countries. In 2009-10 this has included £1.5 million for humanitarian assistance in Iraq and £2 million for Somali refugees in Kenya.

Rwanda: HIV Infection

Mr. Newmark: To ask the Secretary of State for International Development if he will take steps to *(a)* ensure local HIV positive survivors of the Rwandan genocide continue to receive targeted support and *(b)* support local organisations in Rwanda in providing services to HIV positive genocide survivors after March 2010. [317224]

Mr. Thomas: Since 2006 the Department for International Development (DFID) has funded a £4.25 million Care and Treatment of Survivors Programme (CTP) targeting victims of genocide who are HIV positive.

From March 2010 this programme will be managed by the Government of Rwanda. DFID worked closely with the Rwandan Ministry of Health (MoH) and genocide survivors' local organisations to ensure that HIV positive survivors will continue to receive targeted support from the Global Fund through government systems.

DFID will continue to support Rwanda's health and social services system, including its specialised services to genocide survivors, through Sectoral Budget Support and General Budget Support. DFID's monitoring and policy dialogue with the government will provide a means of ensuring that services to HIV positive genocide survivors continue to be provided after March 2010.

TREASURY

Banks: Loans

Willie Rennie: To ask the Chancellor of the Exchequer (1) what recent assessment he has made of the performance of banks in meeting his Department's mortgage lending requirements; [318816]

(2) what percentage of the lending targets for financial institutions set by his Department has been reserved for support for first-time buyers in the housing market. [318818]

Sarah McCarthy-Fry: The Government agreed lending commitments with Lloyds Banking Group and the Royal Bank of Scotland (RBS) in February 2009. Under these legally binding agreements, Lloyds committed to lend an additional £3 billion and RBS an additional £9 billion to households on commercial terms (and subject to market demand) over the 12 months from March 2009.

The Government will report annually to Parliament on the delivery of these commitments.

The lending commitments include qualitative commitments on first-time buyers. For example, they require both these banks to ensure that they market products to first-time buyers including mortgage products of up 90 per cent. loan to value.

Willie Rennie: To ask the Chancellor of the Exchequer what steps his Department is taking to support first-time buyers in the housing market. [318817]

Sarah McCarthy-Fry: In England, the Government's key objective for housing is to ensure everyone has access to a decent home at a price they can afford. The Government remain committed to the delivery of affordable housing, including through both shared equity and shared ownership schemes. Since 1997 the Government have helped more than 110,000 households in England into low-cost homeownership through shared ownership and shared equity.

The Pre-Budget Report 2009 announced that the Government would increase the Development of HomeBuy Direct Homes in 2010-11, delivering an investment of over £150 million in HomeBuy Direct that year and an increase of 3,000 homes above the original target of 10,000 for England. Additionally, the Government announced that housing for first-time buyers would be priorities within the Kickstart Housing Delivery Programme. Further information on Government measures to help homebuyers in England is available at

www.realhelpnow.gov.uk

Decisions concerning whether to engage in lending to support shared equity or shared ownership remain commercial decisions for firms. Where there is public sector investment in financial institutions these stakes will be managed on an arm's length and independent basis by UK Financial Investments Ltd.

Housing policy is devolved in Scotland and the Devolved Administration in Scotland has its own policies to assist first-time buyers; further information is available at

http://www.scotland.gov.uk/Topics/Built-Environment/Housing/BuyingSelling/lift

Dunfermline Building Society

Willie Rennie: To ask the Chancellor of the Exchequer what recent estimate he has made of the sums paid from the public purse to *(a)* consultants, *(b)* accountants, *(c)* legal advisers and *(d)* other financial advisers for work connected with management of the assets of Dunfermline Building Society. [318671]

Sarah McCarthy-Fry: I refer the hon. Gentleman to the letter sent to him dated 11 January 2010 from Lord Myners, a copy of which will be placed in the Libraries of the House of Commons and House of Lords.

Government Departments: Procurement

Mr. Maude: To ask the Chancellor of the Exchequer (1) what proportion of central Government procurement is not co-ordinated through the Office of Government Commerce; [318243]

(2) pursuant to the answer of 29 January 2010, *Official Report*, column 1145W, on Government departments: procurement, what proportion of Government expenditure on goods and services was undertaken via collaborate procurement programmes in 2009; and if he will list each professional buying organisation and the amount of Government expenditure in each such case. [318313]

Ian Pearson: Management information from December shows that 47 per cent. of categorised central Government expenditure was undertaken through collaborative procurement in 2009-10.

A list of professional buying organisations can be found in Annex C of the Operational Efficiency Programme report Collaborative Procurement which was published in December 2009. Details of Government expenditure through professional buying organisations is not held centrally.

Members: Correspondence

Mr. Baron: To ask the Chancellor of the Exchequer when the Financial Secretary to the Treasury plans to respond to the letter from the hon. Member for Billericay of 11 January 2010 on his constituent, Mr. Toomey. [318678]

Mr. Timms: I have replied to the hon. Member.

Non-Domestic Rates

Lorely Burt: To ask the Chancellor of the Exchequer how many hereditaments there are with a rateable value of *(a)* under £5,000, *(b)* between £5,000 and £14,999, *(c)* between £15,000 and £24,999, *(d)* between £25,000 and £49,999, *(e)* between £50,000 and £99,999, *(f)* between £100,000 and £499,999 and *(g)* at least £500,000; and what the total rateable value is of hereditaments in each category. [317018]

Ian Pearson *[holding answer 22 February 2010]:* The following data are as at the 2 November 2009 and extracted from the information published by the Valuation Office Agency on the 18 December 2009.

These data are consistent with the statistical release titled: 'Non- domestic rateable values: 2010 Local Ratings Lists-England and Wales', published on 18 December 2009. A copy of this statistical release is available at the following link:

http://www.voa.gov.uk/publications/statistical_releases/VOA_Statistics_Release_Final.pdf

Draft 2010 Rating List as at 2 November 2009

Hereditaments (thousand), RV (£ million)

	England		Wales		Total	
	Number hereditaments (thousand)	Total rateable value (£ million)	Number hereditaments (thousand)	Total rateable value (£ million)	Number hereditaments (thousand)	Total rateable value (£ million)
Below 5,000	601	1,497	48	115	649	1,612
Between 5,000 and 14,999	568	5,018	32	274	600	5,292
Between 15,000 and 24,999	189	3,629	9	174	198	3,803
Between 25,000 and 49,999	167	5,798	7	254	174	6,052

Between 100,000 and 499,999	82	16,411	3	655	86	17,066
500,000 or over	13	17,360	0	607	14	17,966
Total	1,717	56,373	104	2,358	1,821	58,732

Public Expenditure

Adam Afriyie: To ask the Chancellor of the Exchequer pursuant to the answer of 9 February 2010, *Official Report*, columns 932-3W, on the strategic investment fund, whether the £100 million of new funding was raised through borrowing; and from which budgets the £100 million from departmental re-prioritisation was drawn. [318429]

Mr. Timms: The £100 million from the Exchequer for the Strategic Investment Fund is funded through an additional spending allocation in 2010-11. The Government's forecast for borrowing in 2010-11 derives from forecasts of net expenditure less net receipts in that year. The £100 million not funded by the Exchequer will be funded equally from the Department for Business Innovation and Skills and the Department for Transport's 2010-11 Budgets.

Welfare Tax Credits: Overpayments

Mr. Duncan Smith: To ask the Chancellor of the Exchequer what plans he has to amend the definition of hardship used by HM Revenue and Customs when considering debt recovery; and whether he plans to align that definition with the definition used by the Department of Work and Pensions. [317303]

Mr. Timms: Neither HM Revenue and Customs nor the Department for Work and Pensions have specific definitions of "hardship" in connection with debt recovery. When considering debt recovery, decisions are made based on the specific facts of each case and against the statutory framework within which each Department operates.

CHILDREN, SCHOOLS AND FAMILIES

Children: Day Care

Alan Keen: To ask the Secretary of State for Children, Schools and Families how many childcare places have been created in Feltham and Heston constituency since 1997. [316682]

Dawn Primarolo: Information on the number of childcare places is not available for parliamentary constituencies.

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many *(a)* free nursery and *(b)* pre-school places were available for children aged (i) three and (ii) four years old in (A) Essex and (B) Castle Point in each year since 1997. [318091]

Dawn Primarolo: Table 1 shows the number of part-time equivalent places filled by three and four-year-olds in Essex local authority from 1997 to 2009. Table 2 shows the number of part-time equivalent places filled by three and four-year-olds in Castle Point constituency from 2004 to 2009.

The Department publishes information on the part-time equivalent number of free early education places filled by three and four-year-olds in maintained, private, voluntary and independent providers. Information on the number of pre-school places is not separately available. Part-time equivalent places are derived by counting children taking up 12 and a half hours per week as one place, 10 hours per week as 0.8 places, seven and a half hours per week as 0.6 places, five hours per week as 0.4 places and two and a half hours per week as 0.2 places. Data at parliamentary constituency level are not available prior to 2004.

Table 1: Part-time equivalent number of free early education places[1, 2] filled by three and four-year-olds[4]

	Local authority: Essex	
Position in January each year	Three-year-olds	Four-year-olds
1997	1,600	14,000
1998	1,900	15,000
1999	2,000	15,200
2000	2,000	15,100
2001	2,200	15,100
2002	8,700	15,100
2003	11,500	15,000
2004	11,700	15,000
2005	11,900	14,400
2006	11,900	14,100
2007	12,300	14,100
2008	12,800	14,600
2009	13,000	15,100

[1] A place is equal to 12.5 hours (five sessions) and can be filled by more than one child.

[2] Figures are rounded to the nearest 100.

[3] Prior to 2004, information on early education places was derived from returns made by local authorities as part of the Nursery Education Grant (NEG) data collection exercise. From 2004 onwards, information has been derived from Early Years Census and School Census data.

[4] Age of all children taken at 31 December in the previous calendar year.

Source:

NEG, Early Years Census and School Census

Table 2: Part-time equivalent number of free early education places[1] [2] [3] filled by three and four-year-olds[4]

Parliamentary constituency: Castle Point		
Position in January each year	Three-year-olds	Four-year-olds
2004	760	880
2005	690	880
2006	700	850
2007	720	830
2008	780	840
2009	750	870

[1] A place is equal to 12.5 hours (five sessions) and can be filled by more than one child.

[2] Figures are rounded to the nearest 10.

[3] Prior to 2004, information on early education places was derived from returns made by local authorities as part of the Nursery Education Grant (NEG) data collection exercise. These data were collected at local authority level, therefore, data for this parliamentary constituency are not available prior to 2004.

[4] Age of all children taken at 31 December in the previous calendar year.

Source:

Early Years Census and School Census

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release (SFR) 11/2009 "Provision for children under five years of age in England: January 2009", available on my Department's website:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000848/index.shtml

Children: Poverty

Hazel Blears: To ask the Secretary of State for Children, Schools and Families what initiatives his Department and its predecessors have taken to tackle child poverty in Salford since 1997. [313322]

Dawn Primarolo: Since coming to office in 1997 the Government have developed a number of initiatives, both nationally and locally, to tackle child poverty. Salford has built on these national policies and developed their own local strategy to drive their child poverty agenda forward. My Department and Salford's local strategies have provided and strengthened family support through universal targeted specialist approaches including:

the Common Assessment Framework;

Children's Centres and Family Intervention Projects to maximise family and parenting support; and

the "Think Family" Pathfinder which encourages family and community learning.

In addition to these initiatives, Salford is benefiting from the new multi-service assertive Outreach Teams and Children's Centres which together are able to provide parents with a range of services.

Children's Centres, in particular, disseminate up-to-date information on job vacancies, education, training and volunteering, and often act as the first "port of call" for those seeking specialist financial advice. Children's Centres provide a liaison point with Job Centre Plus to offer parents information on employment and skills and co-ordinate community-based learning and training. Their work is underpinned and further enhanced by the introduction of 35 community workers and teams of lone parent advisers, who are also located within the centres.

Salford is also part of the Manchester's co-ordinated support for separating parents pilot, one of the eight child poverty pilots being undertaken nationally.

Children: Social Services

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what the cost has been of each common area assessment of children's services. [307578]

Dawn Primarolo: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 10 February 2010:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for response.

In line with the Education and Inspections Act 2006 Ofsted is charged with providing an annual performance rating for children's services for each local authority area. The children's services rating is a wide-ranging and robust assessment of the outcomes for children and young people that is strongly based on the evidence from Ofsted inspections of early years provision, schools including special schools and Pupil Referral Units, colleges, fostering and adoption services, children's homes, safeguarding and looked after children services inspections.

In addition, as one of the partner inspectorates, Ofsted has contributed to both the organisational and area assessments which together make up the Comprehensive Area Assessment of local areas. The children's services rating is a significant factor in the organisational assessment overall score for each council. For Ofsted and local authority children's services the Comprehensive Area Assessment replaces the annual performance assessment and the joint area review programmes.

The Comprehensive Area Assessment was introduced in April 2009. Consequently costs are provisional and have been estimated for 12 months. Full audited costs will be available from the end of June. Taking into account the time contributed to this work by Her Majesty's Inspectors, data analysts, management and administrative staff, the estimated cost of Ofsted's contribution to the 2009 CAA is £18,829 per local authority. Please note that this estimate does not include any allocation of corporate overhead.

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Children's Centres: East Sussex

Norman Baker: To ask the Secretary of State for Children, Schools and Families (1) how many children's centres there were in *(a)* Lewes constituency and *(b)* East Sussex in each year since 1997; [308453]

(2) how many children attended *(a)* Sure Start facilities and *(b)* children's centres in Lewes constituency in the last 12 months for which information is available; and how much such facilities cost in that period. [308462]

Dawn Primarolo: The following table details how many designated Sure Start children's centres there were in *(a)* Lewes constituency and *(b)* East Sussex local authority in each year since 2004 (there were none previous to this).

Table 1: Designated Sure Start children's centres

	Lewes constituency	East Sussex
2004	1	7
2005	0	4
2006	0	6
2007	1	11
2008	0	5
2009	3	[illegible]
Total	5	34

In East Sussex local authority, there are 35 designated Sure Start children's centres which have a combined reach area of over 24,000 children under five and their families. Of these, six are in Lewes constituency and have a reach area of over 5,000 children under five and their families.

Reach area defines those children and families with the opportunity to access Sure Start children's centres. Figures for the number of people actually using children's centres are not collected centrally.

In 2008-09, East Sussex local authority spent £4,119,141 on children's centres revenue funding; £4,189,109 on Sure Start local programmes; and £446,448 on children's centres capital funding. This is the latest 12-month period for which spend figures are available.

The Department allocates funding to local authorities for Sure Start children's centres, and its predecessor Sure Start local programmes, through the Sure Start, Early Years and Childcare Grant. It is for local authorities to determine how to allocate the funding between individual centres. The Department does not collect information on how much is allocated and spent at individual centre level.

The allocations for Children's Centres for East Sussex for 2008-09 to 2010-11 are shown in Table 2.

Table 2: Sure Start, Early Years and Childcare grant allocations for East Sussex local authority

	Revenue			Capital	
	Main Revenue Block		SSLP Block	Main Capital Block	
	Children's centres	Total main revenue	Sure Start local programmes	Children's Centres	Total Main Capital
2008-09	3,995,304	7,360,556	3,460,552	698,435	2,771,127
2009-10	5,261,515	8,358,567	3,154,933	1,456,072	3,528,764
2010-11	6,348,245	10,101,509	2,880,240	872,667	2,945,359
Total	3,995,304	7,360,556	3,460,552	698,435	2,771,127

Children's Centres: Essex

Bob Spink: To ask the Secretary of State for Children, Schools and Families how much funding his Department has allocated for children's centres in *(a)* Essex and *(b)* Castle Point in each of the last three years. [316096]

Dawn Primarolo: Funding for Sure Start Children's Centres is provided to Local Authorities as part of the Sure Start, Early Years and Childcare Grant (SSEYCG) and is not allocated to individual constituencies. Essex Local Authority is responsible for managing the SSEYCG funding and Children's Centres' performance across their area and will decide how much to allocate to centres in Castle Point.

The funding allocated to Essex for Children's Centres over the past three years is shown in Table 1.

Table 1. Children's Centres allocations for Essex local authority, 2007-08 to 2009-10

	Children's Centres Revenue Allocation	Children's Centres Capital Allocation
		(£)
2007-08	7,874,703	[1]12,908,404
2008-09	11,916,047	2,175,268
2009-10	15,750,814	5,751,259

[1] The 2007-08 allocation is for the wider Main Capital Block.

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many children in *(a)* Essex and *(b)* Castle Point attend Sure Start centres. [318097]

Dawn Primarolo: The 85 designated Sure Start Children Centres in Essex local authority have a combined reach of over 70,000 children under five and their families. The six centres in Castle Point constituency have a combined reach of around 4,500 children under five and their families. Reach area defines those children and families with the opportunity to access children's centres. Figures for the number of children under five and their families actually attending and using children's centres are not collected centrally.

Children's Centres: Feltham

Alan Keen: To ask the Secretary of State for Children, Schools and Families how much funding his Department has allocated for children's centres in Feltham and Heston constituency. [316609]

Dawn Primarolo: Hounslow local authority has been allocated over £31.6m revenue and capital funding to deliver its Sure Start Children's Centres. The Department allocates funding to local authorities for children's centres, and its predecessor Sure Start Local programmes, through the Sure Start, Early Years and Childcare Grant. It is for local authorities to determine how to allocate the funding between individual children's centres. The Department does not collect information on how much is allocated at constituency level.

GCSE

Paul Holmes: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 18 January 2010, *Official Report*, column 137W, on academies: sponsorship, what the increase was in the proportion of pupils achieving at least five GCSEs at grades A* to C including English and mathematics in 2009 in schools, other than academy schools, which had fewer than *(a)* 50, *(b)* 40 and *(c)* 30 per cent. of pupils achieving this standard in 2008. [312798]

Mr. Coaker *[holding answer 25 January 2010]*: The requested information is shown in the following table.

	Percentage end KS4 pupils 5+ A*-C including English and maths 2008	Percentage end KS4 pupils 5+ A*-C including English and maths 2009	Percentage point improvement 2008-09
Schools other than academies with fewer than 50 per cent. of end KS4 pupils achieving 5+ A*-C at GCSE (or equivalent) including English and maths in 2008	33	41	+8
Schools other than academies with fewer than 40 per cent. of end KS4 pupils achieving 5+ A*-C at GCSE (or equivalent) including English and maths in 2008	26	31	+5

	Percentage end KS4 pupils 5+ A*-C including English and maths 2008	Percentage end KS4 pupils 5+ A*-C including English and maths 2009	Percentage point improvement 2008-09
Schools other than academies with fewer than 30 per cent. of end KS4 pupils achieving 5+ A*-C at GCSE (or equivalent) including English and maths in 2008	17	23	+6

Note:
Independent and special schools are included in these figures.

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many students resident in *(a)* Knowsley, *(b)* Kensington and Chelsea and *(c)* Islington sat a GCSE in (i) physics, (ii) chemistry, (iii) English literature, (iv) history and (v) a modern language in 1997; [316646]

(2) how many students resident in *(a)* Knowsley and *(b)* Kensington and Chelsea sat a GCSE in (i) physics, (ii) chemistry, (iii) English literature, (iv) history and (v) a modern language in the most recent year for which figures are available. [316647]

Mr. Coaker: Consistent information about pupil achievement based on residency is only available for years 2002-03 onwards. Information on whether a pupil has entered GCSEs in chemistry, physics, history and English literature has also only been on the National Pupil Database since the 2003-04 academic year, and on a consistent basis for a modern foreign language since the 2007-08 academic year.

Fifteen year old students[1] resident[2] in (a) Knowsley, (b) Kensington and Chelsea and (c) Islington local authorities who were entered for GCSEs in (i) physics (ii) chemistry (iii) English literature (iv) history in 2003-04

	Number of students[3] entered for chemistry GCSE	Number of students[3] entered for physics GCSE	Number of students[3] entered for history GCSE	Number of students[3] entered for English literature GCSE
Knowsley	[illegible]	[illegible]	467	1,654
Chelsea	26	29	145	501
Islington	25	23	369	1,280

[1] Aged 15 on 31 August 2003.
[2] Students attending maintained schools only including City Technology Colleges and Academies.
[3] Based on students with a valid postcode in that academic year.
Source:
National Pupil Database (final data)

Students at the end of Key Stage 4[1] resident[2] in (a) Knowsley, (b) Kensington and Chelsea and (c) Islington local authorities who were entered for GCSEs in a modern foreign language in 2007-08

Local Authority	Number
Knowsley	800
Kensington and Chelsea	270
Islington	605

[1] Number of students on roll at the end of Key Stage 4 in the 2007-08 academic year.
[2] Students attending maintained schools only including City Technology Colleges and Academies.
[3] Based on students with a valid postcode in that academic year.
Source:
National Pupil Database (final data)

Students at the end of Key Stage 4[1] resident[2] in (a) Knowsley and (b) Kensington and Chelsea local authorities who were entered for GCSEs in (i) physics (ii) chemistry (iii) English literature (iv) history and (v) a modern foreign language in 2008-09

Local Authority	Number of students[3] entered for a Modern Foreign Language GCSE	Number of students[3] entered for Chemistry GCSE	Number of students[3] entered for Physics GCSE	Number of students[3] entered for History GCSE	Number of students[3] entered for English Literature GCSE
Knowsley	[illegible]	82	81	425	1,276
Kensington and Chelsea	253	29	29	170	481

[1] Number of students on roll at the end of Key Stage 4 in the 2008-09 academic year.
[2] Students attending maintained schools only including City Technology Colleges and Academies.
[3] Based on students with a valid postcode in that academic year.

National Pupil Database (amended data)

Home Education

Mr. David Anderson: To ask the Secretary of State for Children, Schools and Families if he will recommend an increase in the use of school attendance orders as a method of supporting families with home-educated children. [318522]

Mr. Coaker: No, the usage of those measures is left to the local authorities' discretion.

Pre-school Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much he expects local authorities to spend on delivering the three to four year-old nursery entitlement in 2010-11. [316691]

Dawn Primarolo: In 2008-09 over £4 billion was spent by local authorities on provision for under fives including the free entitlement for three and four-year-olds. This amount is up from around £1 billion in 1997-98.

In 2010-11, funding of £340 million has been made available to local authorities through the Standards Fund to fund the 2.5 hours per week extension to the three and four-year-old free entitlement and flexible delivery.

Local authorities will shortly be submitting their budget plans to the Department for the 2010-11 financial year, as required by section 251 of the Apprenticeships Skills Children and Learners Act 2009.

Schools: Essex

Bob Spink: To ask the Secretary of State for Children, Schools and Families how much has been spent on repairing schools in *(a)* Essex and *(b)* Castle Point in each year since 1997; and what proportion of that expenditure was spent on schools which failed to meet standards on acoustics. [318088]

Mr. Coaker: Repairs which bring schools back to their original state constitute a revenue expense, and are paid out of revenue funding. Repairs which amount to capital improvement, such as better insulation, are payable from capital allocations.

School revenue and capital allocations are not made directly to Castle Point, but to Essex county council. School-based revenue expenditure on repair and maintenance is shown in the following table.

		£
	Essex	*England*
1999-2000	14,003,000	631,994,000
2000-01	19,815,000	670,942,000
2001-02	24,214,000	729,882,000
2002-03	14,780,000	503,199,000
2003-04	14,309,000	501,233,000
2004-05	15,794,000	550,301,000
2005-06	15,662,000	608,386,000
2006-07	17,869,000	645,680,000
2007-08	18,993,000	731,938,000
2008-09	20,815,000	738,599,000

Notes

1. Up to 2001-02, the figures cover all expenditure on non-capital building works, including repairs and maintenance of buildings, and non-capital expenditure on fixed plant and grounds.

2. From 2002-03, the definition of the figures is: Building maintenance and improvement, including

Charges by contractors for internal and external repair, maintenance and improvement to buildings and fixed plant including costs of labour and materials; Related professional and technical services, including labour costs where supplied as part of the contract/service; Costs of materials and equipment used by directly employed staff for internal and external repair, maintenance and improvement to buildings and fixed plant; Fixtures and fittings e.g. carpet, curtains, etc.

3. All figures rounded to the nearest £1,000.

Capital allocations by the Department to Essex in each year since 1997-98 are as follows:

	£ million
1997-98	11.4
1998-99	15.5
1999-2000	21.9
2000-01	57.3
2001-02	48.9
2002-03	95.5
2003-04	77.4
2004-05	80.2
2005-06	72.4
2006-07	56.7
2007-08	66.4
2008-09	109.4
2009-10	107.9
2010-11	266.8

Information is not held on the proportion of expenditure spent on acoustic improvements in schools.

Schools: Salford

Hazel Blears: To ask the Secretary of State for Children, Schools and Families (1) what capital funding was allocated to schools in Salford in *(a)* 1997 and *(b)* 2009; [317390]

(2) how many schools in Salford have been *(a)* rebuilt and *(b)* significantly refurbished since 1997. [317384]

Mr. Coaker: Capital funding allocated by the Department to schools in Salford amounted to: *(a)* £5.5 million in 1997-98; and *(b)* £18.9 million in 2009-10.

Since 1997, the 2007 and 2009 building survey returns received from Salford City Council, show there have been: *(a)* 17 schools (eight Primary and nine Secondary) rebuilt; and *(b)* 14 schools (13 Primary and one Secondary) significantly refurbished. A significant refurbishment is deemed to apply when over 50 per cent. of the school floor area has changed.

Schools: Vocational Guidance

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what guidance his Department provides to schools on options to be offered to *(a)* pupils by careers services offered in schools and *(b)* training of staff of such services. [318198]

Mr. Iain Wright *[holding answer 24 February 2010]:* In October 2009 we published 'Quality, Choice and Aspiration: A strategy for young people's information, advice and guidance', which sets out a range of resources and support for the school work force, including training and development, to improve the delivery of information, advice and guidance.

Alongside the strategy we published statutory guidance on impartial careers education, setting out how schools must deliver high quality impartial information about learning options that promotes the best interests of pupils. An accompanying resources pack supports schools in implementing the statutory guidance. The provision of careers advice in schools is based on a partnership between the school and the Connexions service and other specialist services commissioned by the local authority. We will shortly consult on draft Directions and statutory guidance for local authorities in the delivery of such services.

Social Services: Doncaster

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what reasons Mr. Mark Hodson gave his Department for leaving his post as Director of Children's Services in Doncaster in 2007. [312794]

Ms Diana R. Johnson *[holding answer 25 January 2010]:* Like all employees Mark Hodson was appointed by Doncaster council in accordance with its recruitment procedures. Similarly Mark Hodson's decision to step down from his post as Doncaster council's Director of Children's Services in 2007 was a matter between Mark Hodson and the council.

Vetting: Local Education Authorities

Mr. Stewart Jackson: To ask the Secretary of State for Children, Schools and Families with reference to the Answer to the hon. Member for Aylesbury (Mr. Lidington) of 16 October 2009, *Official Report*, column 1106W, on schools: vetting, what guidance has been given to local authorities on whether *(a)* lead member councillors and *(b)* other councillors required to register under the vetting and barring scheme will also be required to undergo Criminal Records Bureau checks. [309547]

Dawn Primarolo: No guidance has been issued to local authorities on whether lead members and other councillors who are required to register under the vetting and barring scheme will also be required to undergo Criminal Records Bureau checks. Individual councillors may currently undergo CRB checks because of particular functions they may exercise for the local authority for which they are a member, for example being a member of the local authority's fostering or adoption panel. The Government confirmed in their response to Sir Roger Singleton's report 'Drawing the Line' on the vetting and barring scheme, *Official Report*, 14 December 2009, column 50WS, that they intends to review their requirements for CRB disclosures.

CABINET OFFICE

10 Downing Street: Repairs and Maintenance

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 3 February 2010, *Official Report*, column 401W, on 10 Downing Street: repairs and maintenance, what the nature is of the works that have been undertaken as part of Project George to date. [318302]

Angela E. Smith: The Government are legally required to maintain the Downing Street complex to standards appropriate to its Grade I and II listed status in consultation with English Heritage. In addition to providing office accommodation the building also fulfils an important representational role. The last significant refurbishment works at the Downing street complex were undertaken between 1960 and 1963. As a result much of the infrastructure required renewal or upgrading. Essential improvements are being undertaken through ongoing annual maintenance works.

Cancer: Essex

Bob Spink: To ask the Minister for the Cabinet Office what the cancer mortality rate was in *(a)* Essex and *(b)* Castle Point in (i) 1997 and (ii) the latest period for which figures are available. [318103]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your recent question asking what the cancer mortality rate was in *(a)* Essex and *(b)* Castle Point in (i) 1997 and (ii) the latest period for which figures are available. I am replying in his absence. (318103)

The table attached provides the age-standardised mortality rate, where cancer was the underlying cause of death in (a) Essex county and (b) Castle Point local authority, in (i) 1997 and (ii) 2008 (the latest year available).

Figures for Essex county do not include deaths in Southend-on-Sea and Thurrock unitary authorities, which were part of the former County of Essex.

Table 1. Age-standardised mortality rate per 100,000 population[1] where cancer was the underlying cause of death,[3] Essex county and Castle Point local authority,[4] 1997 and 2008[5]

Area	Year	Rate	95% Confidence Interval
Essex	1997	181	(175-187)
	2008	167	(162-172)
Castle Point	1997	192	(167-217)
	2008	167	(147-187)

[1] Age-standardised mortality rates per 100,000 population, standardised to the European Standard Population. Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages.

[2] Confidence intervals are a measure of the statistical precision of an estimate and show the range of uncertainty around the estimated figure. Calculations based on small numbers of events are often subject to random fluctuations. As a general rule, if the confidence interval around one figure overlaps with the interval around another, we cannot say with certainty that there is more than a chance difference between the two figures.

[3] Cause of death for cancer was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 140-208 for 1997 and Tenth Revision (ICD-10) codes C00-C97 for 2008.

[4] Based on boundaries as of 2009.

[5] Figures are for deaths registered in each calendar year.

Census

Mr. Maude: To ask the Minister for the Cabinet Office (1) what timetable has been set for laying before Parliament and seeking approval for the Census Regulations relating to the 2011 Census; [318125]

(2) what the timetable is for the laying and ratification of the Census regulations for the 2011 Census; and whether they will be subject to positive, negative or hybrid resolution. [318244]

Angela E. Smith: I expect to lay the Census (England) Regulations 2010 before both Houses of Parliament within the next couple of weeks. In accordance with the Census Act 1920, the regulations will be subject to negative resolution.

Mr. Maude: To ask the Minister for the Cabinet Office whether the contracts let for services relating to the 2011 Census contain break clauses. [318127]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated February 2010:

As the Director General for the Office for National Statistics (ONS) I have been asked to reply to your recent question asking whether the contracts let for the services relating to the 2011 Census contain break clauses. (318127)

Every commercial contract agreed in respect of the 2011 Census programme contains break clauses. This is normal public procurement practice. As the majority of contracts are fixed price, ONS would incur financial penalties if these break clauses were invoked for reasons other than poor contractor performance.

This information was given in answer to a question from Nick Hurd MP, Official Report, 3 December, column 955W.

Charities: Hizb ut-Tahrir

Margaret Moran: To ask the Minister for the Cabinet Office how many investigations under the Charities Act 2006 the Charity Commission has conducted relating to breaches of articles on the grounds of *(a)* political activity and *(b)* providing a platform to Hizb ut-Tahrir and associated groups; and how many (i) mosques and (ii) other charitable organisations have had their charitable status revoked following investigations of each type. [318531]

Angela E. Smith: The information requested falls within the responsibility of the Charity Commission. I have asked the Commission to reply.

Letter from Andrew Hind, dated 23 February 2010:

As the Chief Executive of the Charity Commission, I have been asked to respond to your written Parliamentary Question (318531) on how many investigations under the Charities Act the Charity Commission has conducted relating to breaches of articles on the grounds of (a) political activity and (b) providing a platform to Hizb ut-Tahrir and associated groups; and how many (i) mosques and (ii) other charitable organisations have had their charitable status revoked following investigations of each type.

Your question refers to 'investigations'. It may be helpful to provide some background information on the way in which we carry out our investigatory compliance work, which has changed significantly over recent years. Prior to our strategic review in 2005, our practice was to carry out all investigations as formal statutory inquiries under section 8 of the Charities Act 1993. We now carry out a wider range of compliance work dealing with problems in charities. This includes assessment cases, monitoring, non-statutory investigations that we call regulatory compliance cases, as well as section 8 statutory inquiries. We now reserve statutory inquiries only for the most serious cases of regulatory concern. Last year, for example, we conducted 1,504 assessment cases and 211 monitoring cases, and completed 167 regulatory compliance cases and 21 statutory inquiries.

The statistical information we hold for the purposes of our investigations is not designed to identify the sort of data you are looking for. However, I have looked at our statistics for both non-statutory investigations and statutory inquiries for the last three complete financial years going back to 2006-07 and can provide the following information.

In relation to (a), we have carried out 29 investigations regarding political activity since 2006-07, out of a total of 736 investigations. These 29 investigations were to examine allegations or concerns about inappropriate political activity and campaigning by charities, or charities making political donations or giving support to a political party. I should point out that revocation of charitable status is not a legal remedy if a charity has broken political campaigning rules. Our role in these cases is to make good the breach (for example, to ensure inappropriate payment by a charity to a political party is repaid) and ensure steps are taken to prevent recurrence.

As you may know, charities can campaign and undertake political activity but cannot have political purposes. If we find that an organisation, although registered as a charity, does in fact have a political purpose, it cannot be a charity in law. In these cases, we would remove the organisation from the Register of Charities because it was never in fact a charity. Our records show that we have removed two charities from the Register on this basis: one in October 2001 and the other in July 2004. Regarding part (i) of your question, I can confirm that neither of these organisations were mosques.

In relation to (b), our statistical information does not allow us to readily identify on a historical basis cases regarding allegations that a charity may have provided a platform to Hizb ut-Tahrir. However, I can confirm that we have no current statutory or non-statutory investigations into such concerns.

I hope this is a helpful response to your question.

Civil Servants: Pay

Mr. Maude: To ask the Minister for the Cabinet Office which of the jobs advertised on the *(a)* internal and *(b)* public versions of the Civil Service jobs website had salaries of £150,000 or over in the last six months. [318128][1]

Angela E. Smith: Not all vacancies advertised on the civil service jobs site show salary details. Of those that were advertised in the last six months showing salary details, 43 roles fell within the £81,600 to £220,000 salary range.

The total figure of 43 was made up of 11 jobs advertised on the public part of the civil service jobs site and 32 on the internal part of the site.

Departmental Disabled Staff

Mr. Harper: To ask the Minister for the Cabinet Office how many and what proportion of staff in *(a)* her Department, *(b)* the Prime Minister's Office, *(c)* the Office of the Leader of the House and *(d)* the executive agencies for which her Department is responsible are disabled; and what the average salary in each (i) Office and (ii) agency is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317902]

Angela E. Smith: The Prime Minister's Office and the Office of the Leader of the House of Commons are an integral part of the Cabinet Office.

The latest information for which figures are available on the number and proportion of staff that are disabled in Cabinet Office is contained in the Annual Civil Service Employment Survey (ACSES) statistics published on the Office for National Statistics website and can be found at table '38' at this link:

http://www.statistics.gov.uk/downloads/theme_labour/Civil-service-tables-2009-final.xls

This information is also shown in the following table:

	Number
Number of disabled employees	50
Number of non-disabled employees	690
Number of employees not declared or non-response	590
Total number of employees	1,330
All employees with known disability status	740
Disabled employees as percentage of known disability status	6.8

The latest information from the Office of National Statistics, which is not published, on which figures are available on the median gross annual earnings of full-time and part-time disabled and non-disabled staff in Cabinet Office is detailed in the following table:

	Median earnings (£)	
	Disabled	*Non-disabled*
Full-time	30,000	33,881
Part-time	27,100	27,530

Departmental Internet

Mr. Heald: To ask the Minister for the Cabinet Office how many designs for its website her Department has commissioned since 2005. [318658]

Tessa Jowell: The Cabinet Office has commissioned one design for its website since 2005.

---

[1] *[Official Report, 8 April 2010, Vol. 508, c. 15MC.]*

Employment

Mr. Maude: To ask the Minister for the Cabinet Office whether a recent estimate has been made of the number of *(a)* public and *(b)* private sector employees in each constituency. [318122]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your Parliamentary Question asking whether a recent estimate has been made of the number of (a) public and (b) private sector employees in each constituency. I am replying in his absence. (318122)

The Office for National Statistics (ONS) compiles employment statistics for local areas from the Annual Population Survey (APS) following International Labour Organisation (ILO) definitions.

Individuals are classified to the public or private sector according to their responses to the APS. Consequently, the classification of an individual's sector may differ from how they would be classified in the National Accounts.

Table 1 shows the number of persons employed in the public and private sectors in each constituency in Great Britain from the APS for the period July 2008 to June 2009. Estimates for Northern Ireland are not available. As the information requested is quite extensive, a copy has been placed in the House of Commons Library.

As with any sample survey, estimates from the APS are subject to a margin of uncertainty. A guide to the quality of the estimates is given in table 1.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Employment Tribunals Service

Mr. Maude: To ask the Minister for the Cabinet Office how many employment disputes involving staff of her Department have been taken to an employment tribunal in the last four years; and what the *(a)* grounds of dispute and *(b)* outcome was of each. [318246]

Angela E. Smith: There was one employment dispute taken to an employment tribunal in November 2009. The basis of the dispute was unfair constructive dismissal. The claim was dismissed by the tribunal.

Government Departments: Advertising

Mr. Maude: To ask the Minister for the Cabinet Office what recent estimate she has made of the proportion of Government advertising expenditure which is not administered by the Central Office of Information. [318119]

Tessa Jowell: This information is not collected centrally. Each Government Department, agency and NDPB is responsible for setting its own communications priorities and outputs, and each Secretary of State is responsible to Parliament.

Jobseeker's Allowance: Chesterfield

Paul Holmes: To ask the Minister for the Cabinet Office how many young people aged 16 and 17 years in *(a)* Chesterfield and *(b)* Derbyshire have claimed jobseeker's allowance in each year since 2005. [318765]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your Parliamentary Question asking how many young people aged 16 and 17 years in (a) Chesterfield and (b) Derbyshire have claimed jobseeker's allowance in each year since 2005. I am replying in his absence. (318765)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. Table 1 shows the number of people aged 16 and 17 resident in Chesterfield parliamentary constituency, Chesterfield local authority and Derbyshire claiming Jobseeker's Allowance (JSA) in January 2010 and January of each year since 2005.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Table 1: Number of persons[1] aged 16 and 17 claiming jobseeker's allowance resident in Chesterfield parliamentary constituency, Chesterfield local authority and Derbyshire

	Chesterfield (pc)	*Chesterfield (la)*	*Derbyshire*
January 2005	40	40	135
January 2006	30	30	115
January 2007	20	20	95
January 2008	15	20	85
January 2009	5	5	65
January 2010	5	5	45

[1] Age data are only available for computerised claims, which account for 99.7 per cent. of all claims.

Note:

Data rounded to nearest five.

Job-centre Plus Administrative System

New Businesses: Essex

Bob Spink: To ask the Minister for the Cabinet Office how many businesses have started up in *(a)* Essex and *(b)* Castle Point since 1997. [318102]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your recent Parliamentary Question concerning how many businesses have started up in *(a)* *Essex* and *(b)* Castle Point since 1997. I am replying in his absence. [318102]

Annual statistics on business births, deaths and survival are available for 2002 onwards from the ONS release on Business Demography at www.statistics.gov.uk

The following table contains the latest statistics available on business births for Essex and Castle Point.

Enterprise births for Essex and Castle Point 2002-2008

	Essex county	*Castle Point*
2002	6,055	340
2003	6,590	340
2004	6,980	355
2005	6,560	390
2006	6,315	360
2007	6,880	370
2008	6,770	340

Personal Income

Grant Shapps: To ask the Minister for the Cabinet Office what the average income of a household in the *(a)* private rented sector and *(b)* social rented sector was in each of the last three years. [316740]

Helen Goodman: I have been asked to reply.

The information requested is given in the table for periods where data are available.

In each of the three years those households living in private rented sector accommodation have had higher median incomes than those living in the social rented sector on both a before and after housing basis. This pattern is to be expected as poverty rates tend to be higher for the social rented sector.

Before housing costs, the median household income of private rented sector tenants was between about £360 and £370 per week (between about £250 and £260 per week after housing costs). In the same period the median household income of social rented sector tenants remained fairly constant at around £280 per week (around £210 per week after housing costs).

Median household income by rented sector, 2005-06 to 2007-08, £ per week, before housing costs (BHC) and after housing costs (AHC), in 2007-08 prices, United Kingdom

£

	2005-06		*2006-07*		*2007-08*	
	BHC	*AHC*	*BHC*	*AHC*	*BHC*	*AHC*
Private rented sector	368	257	357	250	365	260
Social rented sector	281	210	281	210	279	211

Notes:

1. These statistics are based on Households Below Average Income, sourced from the Family Resources Survey. Both of these documents are available in the Library.
2. Small changes should be treated with caution as these will be affected by sampling error and variability in non-response.
3. The reference period for Households Below Average Income figures are single financial years.
4. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' series, which uses disposable household income, adjusted (or 'equivalised') for household size and composition, as an income measure as a proxy for standard of living.
5. For the Households Below Average Income series, incomes have been equivalised using Organisation for Economic Co-operation and Development equivalisation factors.
6. Median incomes have been provided rather than mean incomes because the income distribution is skewed with some outliers with high incomes.
7. Incomes are presented in 2007-08 prices and have been rounded to the nearest pound sterling.

Source:

Households Below Average Income, DWP

Political Parties: Copyright

Mr. Maude: To ask the Minister for the Cabinet Office what Crown copyright permission has been granted to political parties for the reproduction of artwork or content from the *(a)* Building Britain's Future and *(b)* Real Help Now campaigns. [318245]

Tessa Jowell: None.

Building Britain's Future is a Government initiative and we will ensure that it is not misrepresented by political parties or other organisations.

It is acceptable for other organisations to highlight Government initiatives as long as they are clear that they are Government initiatives. Building Britain's Future and Real Help Now have been referred to by a number of third party organisations in this way.

Public Bodies: Pay

Mr. Maude: To ask the Minister for the Cabinet Office how many officials in each public sector body earn more than £150,000. [312260]

Mr. Byrne: I have been asked to reply.

Individual pay decisions are made by individual public sector bodies and Departments so this information is not held centrally. The Office for National Statistics collects the annual salaries of civil servants, as part of the Annual Civil Service Employment Survey (ACSES) and I refer the right hon. Member to the answer given to him on 20 July 2009, *Official Report*, columns 1035-1036W.

Following the 2009 pre-Budget report, all public sector bodies subject to direct ministerial control will be required to publish the salary, including benefits in kind and the level of any bonus, of named individuals paid more than £150,000 to the nearest £5,000 and the number of staff paid more than £50,000 in £5,000 increments. The Government will expect other public bodies to comply with this level of disclosure.

FOREIGN AND COMMONWEALTH OFFICE

Antarctic

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs how long on average his Department's Polar Regions Unit took to process an application for a British expedition to Antarctica in the last 12 months. [318674]

Chris Bryant: Our website states that permit applications should be submitted to us as far in advance as possible, and not less than six months before the applicant intends to travel to Antarctica so there is adequate time to work with applicants to resolve any queries and ensure a smooth permitting process. Experience has shown that the time it takes to process an application can vary depending on the type of activities the applicant wishes to complete and the type of permit they are applying for.

In all cases we aim to process applications as quickly as possible following receipt.

Bletchley Park

Mr. Swire: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to recognise those who worked at Bletchley Park during the Second World War in the last 10 years. [318072]

Chris Bryant: On 9 July 2009 I announced the launch of the Bletchley Park Commemorative Badge, to honour those who worked at Bletchley Park and its outstations during the Second World War. The launch was marked by a special ceremony at Bletchley Park on 9 October 2009, which my right hon. Friend the Foreign Secretary attended. Since its launch, over 2500 badges and accompanying certificates have been awarded to surviving veterans. In addition to the Commemorative Badge a bound Roll of Honour will be created containing the names of all those that worked at Bletchley Park and its outstations during the Second World War, which will be located at Bletchley Park and on their website.

British Nationals Abroad: Prisoners

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the number of British citizens who have been subject to *(a)* torture and *(b)* other cruel and degrading punishments consequent upon conviction of criminal offences in overseas jurisdictions. [318153]

Chris Bryant: We are not aware of any British nationals who are currently facing torture or other cruel and degrading punishments consequent upon conviction of criminal offences in overseas jurisdictions. We are opposed to torture and mistreatment in all circumstances. If we have reason to believe that a British national in detention is being mistreated, whether prior to or following conviction, then with the permission of the individual we will take all appropriate action to ensure that mistreatment stops, and that the incident is investigated and the perpetrators brought to justice.

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the number of British citizens who are under sentence of death in other jurisdictions; and what steps he is taking to assist such individuals. [318154]

Chris Bryant: We are currently aware of eight British nationals sentenced to death and a further 26 facing charges which may attract the death penalty. The Government are strongly opposed to the death penalty. We express our opposition to its use on British nationals at whatever stage and level is judged appropriate from the moment when the imposition of a death sentence becomes a possibility.

Burma: Asylum

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterpart in the government of Thailand on its proposals to deport Karen refugees back to Burma. [317192]

Chris Bryant: The Government are closely monitoring reports about the possible forced return of Karen refugees to Burma. Our ambassador to Thailand has raised our concerns with the Thai Foreign Minister and with the Secretary-General of the National Security Council stressing the importance of adherence to international standards and to Thailand's international obligations. We understand that the Royal Thai Government decided not to deport the 30 families it had originally identified for removal. We will continue to co-ordinate closely with UN High Commissioner for Refugees, US and EU partners and will continue to raise any concerns with Thai authorities.

David Proctor

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has received in respect of Mr. David Proctor, a UK citizen who has been refused permission to leave the State of Qatar; [318364]

(2) what representations Her Majesty's Government has made to the Government of the State of Qatar in respect of Mr. David Proctor; what consular assistance has been provided to Mr. Proctor by his Department; and if he will make a statement; [318365]

(3) what investigations have been made by Her Majesty's Government into the circumstances surrounding the detention of Mr. David Proctor by the authorities in the State of Qatar; and if he will make a statement; [318366]

(4) what recent discussions he has had with the Ambassador of the State of Qatar about the detention of Mr. David Proctor in Qatar; [318367]

(5) what plans he has for discussions of the case of Mr. David Proctor with the Ambassador of the State of Qatar; and if he will make a statement. [318368]

Chris Bryant: Our embassy in Doha are aware of Mr. Proctor's case and have been providing consular assistance. The embassy has also expressed concern about the length of time it is taking to resolve his situation. Since the end of January our ambassador in Qatar has met with Mr. Proctor and has had two subsequent telephone conversations with him. Our consul has also had two separate meetings with him, and Mrs. Proctor had two meetings with consular staff during her recent visit to London. We will continue to stay in touch with Mr. Proctor and the Qatari authorities.

Our embassy in Doha has raised Mr. Proctor's case with the Qatari authorities to establish the nature of the investigation into him and the existence of a ban on his leaving Qatar while the investigation is ongoing. As of 22 February 2010, no charges had been brought against him, but the Public Prosecution Department's investigation into allegations made by his former employer continues.

Mr. Proctor is not being held in detention by the Qatari authorities but the embassy have received confirmation that an administrative travel ban remains in place which will not be lifted until the investigation is resolved. Additionally we understand that there are two separate legal matters running concurrently. The first is a financial dispute between Mr. Proctor and his former employer, the second a labour dispute lodged by Mr. Proctor against his former employer. We are unable to intervene in private legal issues.

As the matter is being dealt with by our embassy in Qatar there have been no discussions with the Qatari ambassador in London.

Departmental Disabled Staff

Mr. Harper: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317891]

Chris Bryant: The proportion of Foreign and Commonwealth Office (FCO) staff declaring a disability, and the median earnings of full-time and part-time staff, both disabled and non-disabled, are given in Annexes A and B of the Annual Civil Service Employment Survey statistics published by the Office for National Statistics on 20 January 2010. A copy of the document has been placed in the Library of the House. Separate figures are given for the FCO's executive agency, Wilton Park.

Dubai: Interpol

Mr. Galloway: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK's Ambassador in Tel Aviv has had discussions with the British passport holders named in the Interpol request following the murder of Mr Mahmoud al-Mabhouh in Dubai on the circumstances in which their passport details may have been compromised. [318760]

Chris Bryant: The UK is providing support to the British nationals who have been affected by this fraudulent activity. Our officials at the British embassy in Tel Aviv have contacted the affected British nationals, and stand ready to provide them with the support that they need.

GCHQ: Internet

David Davis: To ask the Secretary of State for Foreign and Commonwealth Affairs what expenditure has been incurred on the Mastering the Internet programme at GCHQ to date. [318271]

Chris Bryant *[holding answer 24 February 2010]:* I refer the right hon. Member to the answer given to the hon. Member for Hornchurch (James Brokenshire) on 15 May 2009, *Official Report,* column 1088W, namely that Government Communications Headquarters (GCHQ) continues to invest to maintain its capabilities in the face of growth in internet-based communications. The use of internet technologies and skills are one of the greatest challenges GCHQ has to master in order to deliver intelligence in accordance with its statutory purposes set out in the Intelligence Services Act 1994 (section 3). In the interests of national security detailed figures on Security and Intelligence Agency expenditure are not made public, but are subject to parliamentary scrutiny through the Intelligence and Security Committee (ISC). The ISC's annual report for 2007-08 was published in March 2009.

Iran

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the risk of other countries in the Middle East taking military action against Iran. [318140]

Chris Bryant: There is widespread speculation about the possibility of military action against Iran as a result of its refusal to engage seriously with the international community over its nuclear programme. We have made clear that we are totally committed to finding a diplomatic solution to this issue in order to avoid the serious consequences of diplomacy failing. We will continue to work intensively with our partners to that end.

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on further sanctions against Iran. [318142]

Chris Bryant: The Government continue to pursue the dual track strategy of engagement and pressure to address the issue of Iran's nuclear programme. In that context, the Government support further appropriate use of sanctions designed to influence the regime's decision making on the nuclear file.

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the threat posed by Iran to other countries in the Middle East. [318155]

Chris Bryant: We remain concerned by Iran's support for groups such as Hamas and Hizballah which threaten regional stability through violence, militia groups in Iraq and the Taleban in Afghanistan. We assess that Iran's ability to create instability in the Middle East would be greatly increased if it had a nuclear weapons capability. This underlines the urgency of finding a diplomatic solution to the issue of Iran's nuclear programme and we are working intensely with international partners to achieve this. Iran needs to engage with the international community and its regional neighbours to restore confidence in its intentions.

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of *(a)* the threat posed to the UK by Iran and *(b)* Iran's capacity to obtain nuclear weapons. [318156]

Chris Bryant: The latest International Atomic Energy Agency (IAEA) report confirms our fears that Iran is acting duplicitously and illegally with its nuclear programme. Iran has ignored IAEA requests for information about the possible military dimension of its programme, has built a secret enrichment plant in Qom, and has enriched uranium up to 20 per cent. despite the IAEA telling it not to do so.

The actions of the Iranian regime threaten the stability of the region as a whole, which has profound implications for the UK and highlights the need for the international community to impose appropriate sanctions in order to bring Iran back to negotiations.

Marshall Aid Commemoration Commission

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to promote the Marshall Aid Commemoration Commission's scholarship programme. [318669]

Chris Bryant: We work very closely with the Marshall Aid Commemoration Commission to maintain the reputation of the scholarship programme and to ensure that the best candidates are selected.

HOME DEPARTMENT

Automatic Number Plate Recognition

David Davis: To ask the Secretary of State for the Home Department how many intelligence-led stops have been generated by the Automatic Number Plate Recognition CCTV network in each year since 2006; whether approval under the Regulation of Investigatory Powers Act 2000 was obtained in each case; and whether such approvals have been disclosed in subsequent court proceedings. [318333]

Mr. Hanson: The operation of police-owned Automatic Number Plate Recognition systems is the responsibility of individual chief officers and information relating to intelligence-led stops is not collated centrally.

Children: Abuse

Margaret Moran: To ask the Secretary of State for the Home Department for what reasons a caution was issued in respect of *(a)* rape and *(b)* other offences of abuse of a child in the last five years. [317726]

Mr. Alan Campbell: The Home Office do not hold information concerning the issuing of a caution for each individual case.

A caution for rape of a child must be sanctioned by the CPS and should only be used by the police in the most exceptional circumstances. It is a function of the police to consider cautions and it is a statutory duty of a Crown Prosecutor to consider whether a prosecution should proceed, taking into account the requirement for a reasonable prospect of conviction and the public interest in the particular prosecution in question.

Crimes Against the Person: Sevenoaks

Mr. Fallon: To ask the Secretary of State for the Home Department how many offences against the person have been recorded in the Sevenoaks district in each year since 1997. [318196]

Mr. Alan Campbell *[holding answer 24 February 2010]*: The requested information relates to offences of violence against the person recorded in the Crime and Disorder Reduction Partnership (CDRP) of Sevenoaks. CDRP data are available only since 1999-2000.

The information requested is given in the following tables:

Table 1: Violence against the person, CDRP Sevenoaks, 1999-2000 to 2001-02

	Number
1999-2000	504
2000-01	443
2001-02	374

Note:
The data in this table are prior to the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for later years.

Table 2: Violence against the person, CDRP Sevenoaks, 2002-03 to 2008-09

	Number
2002-03	767
2003-04	702
2004-05	782
2005-06	933
2006-07	962
2007-08	723
2008-09	723

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Identity Cards

Mr. Maude: To ask the Secretary of State for the Home Department whether the Identity and Passport Service has made an estimate of the *(a)* gross annual revenue likely to be generated from fees for the replacement of (i) lost and (ii) stolen identity cards and *(b)* annual average number of cards per 1,000 identity card holders likely to be (A) lost and (B) stolen. [318114]

Meg Hillier: The Identity and Passport Service is not forecasting any material volumes or income in relation to lost or stolen cards.

Identity Cards: Young People

Damian Green: To ask the Secretary of State for the Home Department pursuant to the written ministerial statement of 25 January 2010, *Official Report*, column 41WS, on identity cards, how many people aged between 16 and 24 years old registered their interest in a voluntary identity card by 1 January 2010. [317243]

Meg Hillier: As of 1 January 2010 there were 2,662 registrations from people aged 16 to 24 on the Early Interest website.

National Identity Register

Mr. Maude: To ask the Secretary of State for the Home Department pursuant to the answer of 1 February 2010, *Official Report*, column 91W, on the national identity register, how many years after the death of an individual, that person's personal data will be removed from the register. [318320]

Meg Hillier: The Identity Cards Act 2006 provides that the date of death may be held on the national identity register. There is no set number of years for which this information may be retained as it will be retained for as long as is necessary, for example to prevent an individual's identity from being stolen after death.

Passports: Older People

Mr. Lancaster: To ask the Secretary of State for the Home Department if he will make an assessment of the merits of advancing the fee exemption date for passport applications for persons born before 2 September 1929 by one year each year. [319216]

Meg Hillier: There are no plans to extend the free passport scheme as it is not a simple age-related concession. It was introduced in 2004 by the then Home Secretary as a concession for veterans of the Second World War who were attending 60th Anniversary Commemorative Events. It was decided to extend the initial scheme to cover everyone who was 16 or older by the end of the war and so may have contributed to the war effort in a military or civilian capacity.

Police: Finance

Mr. Ellwood: To ask the Secretary of State for the Home Department what *(a)* the average budget for all police forces in England and *(b)* the budget of Dorset Police was in each of the last five years. [318201]

Mr. Hanson *[holding answer 24 February 2010]:* Setting of budgets is a matter for individual police authorities.

The information requested is provided in the table:

		£
	England police average budget	*Dorset police authority budget*
2005-06	239,742,395	99,253,000
2006-07	249,514,186	103,055,700
2007-08	260,563,320	107,800,000
2008-09	270,078,887	111,791,785
2009-10	278,203,514	115,933,100

Source:

Data are taken from the Budget Requirement (BR) forms submitted annually by all billing and precepting authorities in England to the Department for Communities and Local Government.

The England police average includes that part of the Greater London Authority that relates solely to the Metropolitan police.

Police: Manpower

Mr. Ellwood: To ask the Secretary of State for the Home Department how many police officers there were in *(a)* Dorset and *(b)* Bournemouth in each of the last five years. [318202]

Mr. Hanson *[holding answer 24 February 2010]:* The available data are provided in the table.

This and other related data are published annually as part of the annual Police Service Strength Home Office Statistical Bulletin. The latest bulletin can be found at:

http://www.homeoffice.gov.uk/rds/policeorg1.html

and bulletins for this and previous years are deposited in the Library of the House.

Police officer strength in Bournemouth and Dorset, as at 31 March 2005 to 2009, and September 2009

			Full-time equivalent[1]
	Bournemouth	*Bournemouth and Poole*	*Dorset*
2005[2]	317	n/a	1,475
2006[2]	319	n/a	1,512
2007[2]	315	n/a	1,526
2008[2]	317	n/a	1,518
2009[2]	n/a [3]	506	1,512
September 2009	n/a	[3]–	1,489

n/a = Not applicable. not available.

[1] This table contains full-time equivalent figures that have been rounded to the nearest whole number. Figures include officers on career break or maternity/paternity leave.

[2] Police personnel statistics are not collected by parliamentary constituency. Data have been provided for Bournemouth Basic Command Unit for 2005 to 2008. In 2009, the Basic Command Unit breakdown within Dorset changed. The figure for 2009 is for 'Bournemouth and Poole'.

[3] Not available.

Note:

The latest available information at force level is as at 30 September 2009, while the latest available information at Basic Command Unit level is at 31 March 2009.

Prosecutions: EU Action

Sammy Wilson: To ask the Secretary of State for the Home Department what his policy is on the establishment of an Office of the European Public Prosecutor; and what discussions he has had with his European counterparts on such an office in the last three months. [317972]

Meg Hillier: The Government have consistently opposed the creation of a European Public Prosecutor (EPP).

Were such a proposal to emerge, it would have to be agreed by unanimity of all participating member states. The UK would also have the choice of whether or not to participate by virtue of our Protocol to the Treaty on the Functioning of the EU, which says that we are opted out of any proposals in this area unless we choose to opt-in. So the UK could not be bound to accept any such measure.

The Home Secretary has not held dedicated discussions on this issue with any European counterparts. But within the context of negotiations on the new JHA work programme (the Stockholm Programme) there were wider discussions among EU member states on the future establishment of a European Public Prosecutor (EPP). As part of those discussions, the UK argued against the need for an EPP. The Stockholm Programme makes reference to the EPP as one possibility to further develop EUROJUST (the EU judicial cooperation agency) following an evaluation of its effectiveness during the next five-year period.

Rape: Children

Margaret Moran: To ask the Secretary of State for the Home Department on how many cases in which a person suspected of having raped a child was issued with a caution the decision to issue a caution was taken on grounds of the inability of the alleged victim to give evidence in the last five years; and if he will make a statement. [317725]

Mr. Alan Campbell: The number of offenders cautioned in England and Wales for rape of a person aged under 16 years, from 2004 to 2008 (latest available) can be viewed in the following table.

Data for 2009 are expected to be published in the autumn, 2010.

The Home Office does not hold information concerning the issuing of a caution for each individual case.

A caution for rape of a child must be sanctioned by the CPS and should only be used by the police in the most exceptional circumstances. It is a function of the police to consider cautions and it is a statutory duty of a Crown Prosecutor to consider whether a prosecution should proceed, taking into account the requirement for a reasonable prospect of conviction and the public interest in the particular prosecution in question.

Number of offenders cautioned[1,2] for rape of a person aged under 16 years[3], England and Wales 2004 to 2008[4]

	Number
2004	30
2005	20
2006	13
2007	30
2008	32

[1] The cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time the principal offence is the more serious offence.

[2] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. These figures have been included in the totals.

[3] Sexual Offences Act 2003 came into force on 1 May 2004.

[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Justice Statistics Analytical Services - Ministry of Justice.

(Ref: IOS 073-10)

Tetra: Health Hazards

Mr. Crabb: To ask the Secretary of State for the Home Department what representations he has received from organisations representing police officers on reports of ill health among police officers assigned to duties near Tetra masts. [318165]

Mr. Hanson: Since the rollout of Airwave radio in 2001, the Government have funded research into the safety of Terrestrial Trunked Radio (TETRA) technology. None of the research to date has produced any evidence that Airwave terminals or masts are harmful to the health of police officers or the public.

The Police Federation of England and Wales and the Scottish Police Federation support the view that Airwave TETRA radio is an effective communications tool that enhances officer safety. They maintain a strong interest in the short and long-term health effects of Airwave.

Theft: Motor Vehicles

Andrew Rosindell: To ask the Secretary of State for the Home Department how many thefts of cars facilitated through the theft of car keys there have been in each London borough in each month of the last five years. [315924]

Mr. Alan Campbell: The requested information is not available at borough level.

Figures on this matter are collected on a quarterly basis at police force area level only in England and Wales. A national level summary of these data is published in the annual Statistical Bulletin "Crime in England and Wales" for 2007-08 and 2008-09 respectively; copies of which are available in the Library.

Vetting

Mr. Maude: To ask the Secretary of State for the Home Department pursuant to the answer of 1 February 2010, *Official Report*, column 90W, on the Independent Safeguarding Authority, what estimate he has made of the number and proportion of people likely to be subject to Independent Safeguarding Authority registration in the first 12 months of its operation. [318319]

Meg Hillier: For the period July 2010 to 30 June 2011 we currently forecast that approximately 1,770,000 individuals will apply to become ISA-registered through the Criminal Records Bureau. This represents approximately 3 per cent. of the total population (56.2 million) of England, Wales and Northern Ireland.

COMMUNITIES AND LOCAL GOVERNMENT

Council Housing: Property Transfer

Margaret Moran: To ask the Secretary of State for Communities and Local Government which local authorities *(a)* have transferred and *(b)* have plans to transfer assets under the (i) Asset Transfer Fund and (ii) Advancing Assets programme to date. [318537]

Barbara Follett: With reference to the Asset Transfer Fund, I assume my hon. Friend is referring to the Community Assets Fund which is now known as the Community Assets Programme. The following table shows the local authorities that have been awarded funding through (i) the Community Assets Programme towards renovating assets for transfer; and (ii) those that have been supported through the Advancing Assets for Communities Demonstration Programme in each of the three years since 2007 to enable them to advance specific asset transfer projects.

The Community Assets Programme is designated as 'CAP' in the table and Advancing Assets for Communities is designated as 'AA' followed by the year in which they were supported by the programme:

Local authority	*Programme*
Allerdale BC	AAY2 and CAP

Key:
CAP = Community Assets Programme
AAY1 = Advancing Assets 2007-08
AAY2 = Advancing Assets 2008-09
AAY3 = Advancing Assets 2009-10

Empty Property: Lancashire

Rosie Cooper: To ask the Secretary of State for Communities and Local Government how many empty properties were brought back into housing stock by West Lancashire borough council in *(a)* 2008 and *(b)* 2009. [318753]

Mr. Ian Austin: Information on the number of empty properties that were brought back into housing stock in 2008 and 2009 by West Lancashire borough council is not held centrally.

Fire Brigades Union

Grant Shapps: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Meriden (Mrs. Spelman) of 22 October 2009, *Official Report*, column 1643W, on the Fire Brigades Union, if he will place in the Library a copy of the minutes of each meeting referred to in the Answer. [311528]

Mr. Malik: It is not our practice to place internal notes of confidential meetings between Ministers and other parties in the Library of the House.

Fire Services: Emergency Calls

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to his Department's publication entitled FiReControl Project: Equalities Impact Assessment, December 2009, what the reasons were for the time taken to undertake the SMS emergency number project; and how much had been spent on that project on the latest date for which figures are available. [317961]

Mr. Malik: The SMS emergency number project is managed and part funded by British Telecommunications plc, with additional funding from the mobile service providers. While the project is welcomed by the Government and emergency services, information about the cost to BT is not available to CLG. It is not part of the FiReControl Project.

Housing: Equality

Margaret Moran: To ask the Secretary of State for Communities and Local Government what assessment he has made of the effect of the provisions of the Equality Bill on the operation of *(a)* the Tenants Services Authority, *(b)* the Homes and Communities Agency and *(c)* registered social landlords. [318162]

John Healey: Following Royal Assent, the Government intend to add—by secondary legislation—a number of bodies to the list of public authorities in Schedule 19 to the Equality Bill, including the Tenant Services Authority (TSA) and the Homes and Communities Agency (HCA), thereby making them subject to the proposed public sector equality duty.

The TSA is currently consulting on a Single Equalities Scheme that takes account of the requirements under the proposed Equality Bill. The consultation paper is available on the TSA's website:

www.tenantservicesauthority.org/upload/doc/Single_equalities_scheme.doc

The HCA introduced a Single Equality Scheme in November 2009 following extensive consultation. This is available on the HCA's website:

http://www.homesandcommunities.co.uk/equality

Registered social landlords (RSLs) are not listed as public bodies in the Bill. The Government do not intend to add them through secondary legislation.

It is for individual RSLs, as independent organisations, to ensure that they comply with all applicable legislation.

Housing: Finance

Sarah Teather: To ask the Secretary of State for Communities and Local Government how much of the £84 million for cavity wall insulation in the social sector announced in April has been spent in each region. [307004]

Mr. Ian Austin: The funds from the Social Housing Energy Savings Programme are released in arrears after landlords have already made their expenditure. The Homes and Communities Agency monitor financial output on a quarterly basis. The first schemes to start to invest under this programme began in quarter 3 of 2009-10, the HCA do not yet have final output figures. A table of allocations by region split over the two years of the programme follows.

Social housing energy savings programme

£

Region	*Allocations in 2009-10*	*Allocations in 2010-11*
East	717,288	
East Midlands	977,185	1,231,965
East of England	680,634	615,811
London	30,535,391	24,304,397
North East	651,625	200,655
North West	3,049,696	2,505,473
South East	1,534,224	82,762
South west	467,906	85,381
West Midlands	1,123,200	
Yorkshire and Humber	3,622,742	1,205,658
Grand Total	43,359,891	30,232,102

Local Government: Bank Services

John Mann: To ask the Secretary of State for Communities and Local Government (1) what assumptions affecting the next three years regarding write-off provisions for local authority losses in Icelandic banks his Department has made; [318281]

(2) what provision his Department has made for losses incurred by local authorities through investment in Icelandic banks. [318295]

Barbara Follett: Investment decisions are a matter for local authorities. It is for those local authorities which had investments in Icelandic banks to make provision in their financial plans for estimated losses.

John Mann: To ask the Secretary of State for Communities and Local Government what estimate he has made of the extent of losses incurred by local authorities through investment in Icelandic banks. [318296]

Barbara Follett: CLG has not made any such estimates. The Resolution Committee for Landsbanki and Glitnir and the UK administrators of Heritable and Kaupthing Singer and Friedland Ltd. have published information on likely rates of return. Local authorities are in direct contact with these administrators.

New Deal for Communities

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the new deal for communities in each *(a)* local authority and *(b)* lower layer super output area in each year since 2000. [318266]

Ms Rosie Winterton: The grant for each NDC by local authority area is shown in the following tables. It is not possible to provide spend or budget information at lower super output area (LSOA) because NDC areas are composed of several LSOAs, and are also often not consistent with LSOA boundaries. Allocations are, therefore, not able to be disaggregated to LSOA level.

Note: Funds granted to two NDCs in Birmingham—Kings Norton and Aston.

Planning Permission

Rosie Cooper: To ask the Secretary of State for Communities and Local Government what recent discussions he has had with (*a*) the Local Government Association and (*b*) representatives of local authorities on the short-term erection of refrigeration tents in the pre-Christmas period and the enforcement of planning requirements; what recent representations he has received on this matter; and if he will take steps to prevent the erection of such tents without planning consent. [318764]

Mr. Ian Austin: I have not had any discussions with the Local Government Association or with representatives of local authorities, nor have I received representations regarding planning requirements for temporary refrigeration tents. In the first instance it is for local planning authorities to determine whether such temporary structures constitute development and whether, therefore, would require planning permission.

Social Rented Housing

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many contracts the (*a*) Homes and Communities and (*b*) Tenant Services Agency has let to (i) social enterprises and (ii) registered social landlords since each agency was established. [318528]

John Healey: The HCA has three-year framework delivery contracts in place with 187 RSL investment partners for the 2008-11 spending review period, transferred from the HCA's predecessor body the Housing Corporation. The HCA also have three contracts with RSLs and one with a social enterprise through the Places of Change programme.

The Tenants Services Authority has let two contracts to small and medium enterprises.

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many registered social landlords operate local labour (*a*) schemes and (*b*) clauses in contracts let. [318529]

John Healey: This information is not held centrally and could be obtained only at disproportionate cost.

In order to obtain Social Housing Grant from the Homes and Communities Agency (HCA), registered social landlords (RSLs) are required to sign up to the principles of the 2012 Construction Commitments. Full details of these commitments are available at:

http://www.housingcorp.gov.uk/upload/pdf/
2012_construction_commitments_agreement.pdf

The HCA's Single Conversation process reflects the importance of supporting local economic development and employment through investment. The Single Conversation guidance emphasises the need for Local Investment Plans to address poverty and socio-economic inequalities through strategies for employment protection and creation and by providing training and apprenticeships. HCA reports that 1,107 apprenticeships have been created through RSL partnerships.

The Single Conversation guidance is available on the HCA's website:

http://www.homesandcommunities.co.uk/public/documents/SC_LIP_Further_information.pdf

Sustainable Communities Act 2007

Mr. Mark Field: To ask the Secretary of State for Communities and Local Government what progress his Department has made in its consideration of the proposal made by Westminster city council under the Sustainable Communities Act 2007 on temporary accommodation targets; and if he will make a statement. [318451]

Barbara Follett: The Government are consulting the Local Government Association (LGA) in its role as selector under the Sustainable Communities Act 2007 and are seeking to reach agreement on which of the 199 short-listed proposals, including that submitted by Westminster city council, should be implemented. Many of the proposals are complex and raise significant practical issues but the Government are anxious to make progress as quickly as possible on those proposals that offer practical benefits and new ways of meeting local needs.

A series of official-level meetings took place in January between the LGA and Government Departments to consider the proposals, and further work is now under way to follow up the issues raised in those discussions.

Mr. Mark Field: To ask the Secretary of State for Communities and Local Government what *(a)* funding and *(b)* guidance his Department has provided to local authorities that have made proposals that have been shortlisted for consideration under the Sustainable Communities Act 2007; and if he will make a statement. [318452]

Barbara Follett: No funding has been provided to local authorities that have made proposals under the Sustainable Communities Act 2007.

On 9 July 2008 statutory guidance on submitting proposals was published as part of the Statutory Guidance on the Local Government and Public Involvement in Health Act 2007 "Creating Strong, Safe and Prosperous Communities".

On 14 October 2008 the Secretary of State issued an invitation to local authorities to submit proposals. At the same time, the Department wrote to all local authorities giving an indication of the likely approach of Government to decisions on short-listed proposals.

These documents are available on the Department's website at:

http://www.communities.gov.uk/localgovernment/about/sustainablecommunitiesact

Sustainable Development

Derek Wyatt: To ask the Secretary of State for Communities and Local Government what criteria have been established for the creation of carbon-efficient towns and cities. [318509]

John Healey: Towns and cities can play a big role in tackling climate change. Many local authorities in towns and cities have set themselves targets to reduce emissions in response to National Indicator 186. We have set out our expectation of how planning authorities in towns and cities can plan new development to ensure carbon emissions are reduced in our Climate Change Planning Policy Statement (PPS) and we will shortly be consulting on a revision to the PPS. As part of the Eco-towns Programme we have set out sustainability standards for eco-towns in our eco-towns PPS. These include the requirement that the developments as a whole must be zero-carbon. We are working with nine groups of local authorities and individual local authorities to pilot the concept of local carbon frameworks, a new approach for local authorities to set themselves ambitious targets and plans for reducing carbon emissions.

Travelling People: Caravan Sites

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to the oral answer by the Parliamentary Under-Secretary of State of 14 July 2009, *Official Report*, column 69WH, on Travellers, what his Department's definition of *(a)* fairness and *(b)* equality is in relation to planning applications for sites for Gypsy and Traveller caravans. [317605]

Mr. Malik: Fairness and equality, in relation for the planning applications for Gypsy and Traveller sites, means that the law is applied equally to Gypsies and Travellers and to those of the settled community; any proposal for development must be considered purely on its planning merits taking account of all relevant planning matters.

Robert Neill: To ask the Secretary of State for Communities and Local Government what guidance *(a)* his Department and *(b)* the Planning Inspectorate has issued on the length of time a (i) Traveller and (ii) demonstration encampment may be in place before it is deemed permanent for planning purposes; and how long temporary encampments may be in place before becoming rateable for (A) council tax and (B) business rate purposes. [317805]

Mr. Malik: The Planning Inspectorate has issued guidance on the length of time a (i) Traveller or (ii) a demonstration encampment may be in place before it is deemed permanent or authorised. The guidance issued by the Planning Inspectorate is in the form of the Inspectors Handbook, which covers professional planning matters dealt with by Inspectors. Annex E of ODPM Planning Circular 01/2006 'Planning for Gypsy and Traveller sites' states that planning permission may not be required for any development if the use of the land has been established over a period of time without valid planning enforcement action have been taken by the local authority.

No guidance has been issued by the Department for Communities and Local Government or the Planning Inspectorate on the length of time a temporary encampment may be in place before becoming rateable for council tax or business rates. No minimum period is defined by statute. It is established rating law that a transitory occupation of land does not amount to rateable occupation. Whether the necessary permanence of occupation has been established for liability to arise will depend on the facts in each case.

A Traveller[1] or demonstration[2] encampment can become permanent, and authorised, for planning purposes through the express grant of planning permission for such a use, unencumbered by a condition limiting its use to a specified period, or by the imposition or removal of an appropriate condition attached to an existing planning permission by the formal process set out in s.73 and 73 A of the Town and Country Planning Act 1990. The only other means by which a use of land can become lawful is where it continues, uninterrupted and in essentially the same form, for a period of 10 years and the evidence exists to prove that this has occurred, on the balance of probabilities, such that a Certificate of Lawful Development under s.191 of the Town and Country Planning Act 1990 can be granted. In a similar way a use can become immune from enforcement action under S.171B of the 1990 Act after a period of 10 years, if a local planning authority has not taken enforcement action before that time.

[1] Assumed to mean the occupation of a site by Travellers for residential purposes.

[2] Assumed to mean an unauthorised use of land for demonstration purposes.

Robert Neill: To ask the Secretary of State for Communities and Local Government whether unmet need for traveller sites is a material consideration in the planning process when considering a retrospective application of the development of an unauthorised Traveller site. [317879]

Mr. Malik: ODPM Circular 2001-06 Planning for Gypsy and Traveller Caravan Sites confirms that unmet need for Gypsy and Traveller sites is one of several material considerations which decision makers should take into account when determining planning applications. The material considerations relevant to a retrospective application for the development are no different for those submitted prospectively.

WORK AND PENSIONS

A4e: Employment

Nadine Dorries: To ask the Secretary of State for Work and Pensions how many and what percentage of people who have attended A4e meetings have found work within six months of the inception of the A4e contract in *(a)* England, *(b)* the East of England, *(c)* Bedfordshire and *(d)* Mid Bedfordshire constituency. [317539]

Jim Knight: The information is not available in the format requested.

Asbestos: Schools

Paul Rowen: To ask the Secretary of State for Work and Pensions what assessment she has made of the follow-up work to the Health and Safety Executive's (HSE) Asbestos Management in Schools survey; how many visits by the HSE to local education authorities have been made following the survey; and when she estimates the HSE follow-up work will be completed. [318515]

Jonathan Shaw *[holding answer 24 February 2010]*: HSE inspectors are in the process of visiting the local authorities which were identified through the questionnaire survey, that is, those local authorities which did not provide sufficient information to demonstrate the adequacy of their arrangements for properly managing asbestos in system-built schools. In total 45 LAs have been identified for visit and to date 14 of these have been visited with three further visits scheduled. The remaining visits are scheduled for completion during March and April.

Besides any specific actions required at the time of visits by inspectors in individual cases, an overall assessment of the collective findings will rapidly be made by HSE, and the findings shared with others to ensure that necessary remedial actions are taken.

It is essential that all schools have arrangements in place to actively and competently manage asbestos whenever it is present. HSE will continue to work with the local authorities, DCSF and schools to ensure that schools both understand their legal responsibilities and act on them.

Children: Maintenance

John Mason: To ask the Secretary of State for Work and Pensions how many of the cases under consideration by the Child Support Agency involve absent parents in *(a)* Scotland and *(b)* Glasgow East constituency. [317055]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Cold Weather Payments: Tamworth

Mr. Jenkins: To ask the Secretary of State for Work and Pensions how many pensioners in Tamworth constituency have received cold weather payments in 2009-10. [311775]

Helen Goodman: The number of pensioner benefit units in Tamworth constituency who have received cold weather payments in 2009-10 is estimated to be around 4,000.

As well as pensioners, a range of other groups are also eligible for cold weather payments. People eligible are those awarded:

pension credit, or

income-related employment and support allowance that includes a work-related activity or support component.

Those awarded:

income support, or

income-based jobseeker's allowance, or

income-related employment and support allowance in the assessment phase.

and who have:

a pensioner premium, or

a disability premium, or

a child who is disabled, or

a child under the age of five.

are also eligible to receive payments.

Notes:

1. A benefit unit consists of a single person or a couple. The number of individual pensioners who have been helped by cold weather payments is greater than 4,000, because both members of a couple benefit unit have gained from the payment.

2. The figure has been rounded to the nearest 1,000.

Sources: Analysis of 5 per cent. sample data for pension credit, income support (for recipients with a pensioner premium), jobseeker's allowance (for recipients with a pensioner premium) and the Work and Pensions Longitudinal Study (100 per cent. data), all for May 2009, and DWP records of cold weather payment triggers.

Council Tax Benefits: Kingston

Mr. Davey: To ask the Secretary of State for Work and Pensions how many pensioners in (a) the Royal Borough of Kingston and (b) Kingston and Surbiton constituency have been in receipt of council tax benefit in each of the last three years. [318041]

Helen Goodman: The available information is in the tables. Statistics on council tax benefit recipients are derived from the single housing benefit extract (SHBE), which is a monthly electronic scan of claimant level data direct from local authority computer systems, and which replaces quarterly aggregate clerical returns. Geographic breakdowns are available at regional and local authority level, but have not yet been developed for smaller geographical areas such as parliamentary constituencies.

Number of families where at least one person is aged 60 or over receiving council tax benefit in The Royal Borough of Kingston upon Thames: August 2007

	Number
August 2007	3,170

Notes:

1. The data refer to benefit units, which may be a single person or a couple.

2. The figures have been rounded to the nearest 10.

3. Council Tax benefit totals exclude any second adult rebate cases.

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in August 2007.

Number of families where at least one person is aged 60 or over receiving council tax benefit in The Royal Borough of Kingston upon Thames: November 2008-09

	Number
November 2008	3,300
November 2009	3,390

Notes:

1. The data refer to benefit units, which may be a single person or a couple.

2. The figures have been rounded to the nearest 10.

3. Council Tax Benefit figures exclude any Single Adult Rebate cases.

4. SHBE is a monthly electronic scan of claimant level data direct from local authority computer systems. It replaces quarterly aggregate clerical returns. The data are available monthly from November 2008 and November 2009 is the most recent available.

Source:

Single Housing Benefit Extract (SHBE)

Departmental Contracts

Mr. Leech: To ask the Secretary of State for Work and Pensions how many jobs formerly undertaken by staff of her Department have been outsourced to external companies in each of the last five years; and to which companies. [314632]

Jonathan Shaw: My Department has entered into the following contracts with external suppliers in the last five years which have resulted in staff contracts being transferred to suppliers:

63 staff under the Record Storage contract awarded to Capita in March 2004;

610 staff under the Review of Office Services contract awarded to Haden in September 2006;

15 staff under the Print and Associated Services contract awarded to iON in February 2007.

Departmental Disclosure of Information

David Davis: To ask the Secretary of State for Work and Pensions whether (a) agencies and (b) non-departmental public bodies for which her Department is responsible sell information on a commercial basis to (i) companies or individuals in the private sector and (ii) other organisations. [313231]

Jim Knight: Government Departments and agencies and non-departmental public bodies (NDPBs) that have Crown status make most of their non-personal information available for free re-use under the PSI Click-Use Licence to other public bodies, commercial organisations and individuals.

The Department for Work and Pensions (DWP) does not charge for the provision of such information. DWP currently publish a range of such information in official publications, such as research reports and statistical publications, via the internet, which are available free of charge. Prior to internet dissemination of such publications, these were only available as paper copies for which a nominal charge was made to cover costs. Paper copies of statistical publications are no longer available to purchase as they are available to download free of charge; some paper copies of research reports are still held in the Department and are made available to the public free of charge if requested.

In general, most of DWP's NDPBs do not sell such information on a commercial basis. However, there are two instances where a charge may be levied by the non-departmental public bodies for the provision of information:

In support of the Health and Safety Executive's (HSE's) Strategy launched in June 2009, and to demonstrate HSE's commitment to provide real help to small business, from 1 September 2009, HSE made the range of its publications freely available on HSE's website to download, view and print. There is an option to purchase a professionally printed version should the company or individual require. These publications provide guidance to those responsible on either practical application or best practice in complying with the legal requirements under the Health and Safety at Work etc. Act 1974.

The Pensions Advisory Service (TPAS) have the facility to charge employers to cover the printing costs of TPAS leaflets where a large number have been requested. This has not been used in, at least, the last five years.

DWP is also custodian of a large amount of personal information. DWP takes its duty of confidentiality to all its customers extremely seriously and complies with the provisions of the Data Protection At 1998. The Department does not provide its customers' personal information to any third party for commercial gain.

Departmental ICT

Mrs. May: To ask the Secretary of State for Work and Pensions how many times the Labour Market System has been unavailable in the last 24 months; and for how long that system was unavailable on each occasion. [317626]

Jim Knight: The Labour Market System was unavailable on five occasions in the last 24 months. These are as follows:

10 September 2008: 1 hour

7 January 2009: 44 minutes

30 April 2009: 2 hours 10 minutes

16 December 2009: 1 hour 13 minutes

8 January 2010: 2 hours 56 minutes.

Departmental Manpower

Mrs. May: To ask the Secretary of State for Work and Pensions (1) what the staff turnover rate in her Department was in 2009; [317163]

(2) what the staff turnover rate in Jobcentre Plus was in 2009. [317164]

Jonathan Shaw: The Department and its agencies calculate turnover on a rolling 12-month basis and the following rates are based on average staffing and the number of turnover leavers.

The turnover rates as at 30 September 2009 are shown in the table.

	Percentage
Department for Work and Pensions and agencies	4.11
Jobcentre Plus	4.08

The percentage turnover rate is calculated by dividing the number of permanent staff (includes staff on fixed term appointments exceeding 12 months) who leave in the relevant 12-month period, by the average number of permanent staff employed in the same period.

Turnover is calculated in line with a "wastage index" method which is a recognised methodology.

The following broad categories of leavers are included in the calculation:

Retirements

Death in service

Dismissals and discharge

Resignation

Transfers to other Government Departments and non civil service public sector.

The calculation excludes:

staff transferring as a result of movement of work, e.g. machinery of government changes;

staff leaving as a result of voluntary early release schemes, and;

temporary staff leaving.

In order to provide a view on the trend the turnover rates at 30 September 2008 were:

	Percentage
DWP	5.79
Jobcentre Plus	5.28

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Work and Pensions how many staff in her Department have had five or more periods of sickness absence of less than five days in two or more of the last three years. [316452]

Jonathan Shaw: The number of staff currently recorded on the Department's personnel computer system as having had five or more periods of sickness absence of less than five days in two or more of the last three years is 2,699. DWP currently employs more than 120,000 full and part-time staff.

The average number of working days lost per year in the Department through sickness has fallen from 10.3 in December 2007 to 8.4 in January 2010, the latest date for which figures are available.

Future Jobs Fund

Mr. Clappison: To ask the Secretary of State for Work and Pensions (1) how many people have obtained jobs through the Future Jobs Fund with the social enterprise Real Baby Milk since the inception of the Fund; [315669]

(2) how many placements for young people have been made in the *(a)* public, *(b)* private and *(c)* voluntary sector through the Future Jobs Fund since its inception; [316367]

(3) how many apprenticeship places have been delivered through the Future Jobs Fund in each region since its inception. [316368]

Jim Knight: Information on Future Jobs Fund starts and apprenticeship places delivered through the Future Jobs Fund is not currently available but will be made available from spring 2010 through an official statistical release that is planned to cover the whole of the Young Person's Guarantee.

This is normal practice for the Department's employment programmes and it allows time for the information to be collected, understood, verified and reported.

Mrs. May: To ask the Secretary of State for Work and Pensions pursuant to the answer of 2 February 2010 to the hon. Member for Maidenhead, *Official Report*, column 258W, on the Future Jobs Fund, how many of the jobs announced to date, excluding those created under national bids will be created in each local authority area. [317645]

Jim Knight: The information requested is not collated centrally and could be provided only at disproportionate cost.

Housing Benefit

Grant Shapps: To ask the Secretary of State for Work and Pensions how many housing benefit recipients there were in each region in each of the last 12 quarters. [316799]

Helen Goodman: Housing benefit has played a key role in helping people deal with the impact of the recession and will play an equally important part in helping people return to work as the economy improves.

The available information is in the following tables.

Housing benefit recipients, by region: February 2006 to November 2006

Government Office Region	*February 2006*	*May 2006*	*August 2006*	*November 2006*
North East	226,800	227,500	228,300	227,000
North West	520,200	512,900	516,100	518,400
Yorks and the Humber	349,000	343,500	345,800	350,500
East Midlands	239,900	243,300	244,900	246,000
West Midlands	360,000	363,200	366,800	364,300
East	292,400	293,500	297,100	297,800
London	691,200	685,600	689,700	694,300
South East	404,100	407,000	412,700	413,800
South West	280,300	281,500	288,800	284,800
Wales	200,400	200,900	201,900	200,600
Scotland	434,100	318,500	432,200	431,200

Housing benefit recipients, by region: February 2007 to August 2007

Government Office Region	*February 2007*	*May 2007*	*August 2007*
North East	228,600	226,800	227,400
North West	520,300	518,400	518,600
Yorks and the Humber	350,900	351,000	349,500
East Midlands	246,700	242,700	244,900
West Midlands	369,400	368,100	369,600
East	300,800	300,100	302,100
London	692,600	693,500	698,300

Scotland	419,100	428,370	440,250	446,120	454,530

Notes:
1. The data refer to benefit units, which may be a single person or a couple.
2. The figures have been rounded to the nearest 10.
3. Housing benefit figures exclude any extended payment cases.
4. The Department modernised the way it collected HB and CTB from local authorities to make the process more efficient. The new data source, the Single Housing Benefit Extract (SHBE) is a monthly electronic scan of claimant level data direct from local authority computer systems. It replaces quarterly aggregate clerical returns.
5. The data are available monthly from November 2008 and October 2009 is the most recent available.
6. Data from SHBE incorporate the local authority changes from 1 April 2009.
7. Data are published at:
http://research.dwp.gov.uk/asd/asd1/hb_ctb/HBCTB_release_JAN10.xls

Source:
Single Housing Benefit Extract (SHBE)

Grant Shapps: To ask the Secretary of State for Work and Pensions how many (*a*) people and (*b*) households received local housing allowance in each of the last eight quarters. [316800]

Helen Goodman: The local housing allowance arrangements were rolled out from 7 April 2008 and apply to customers in the deregulated private rented sector who make a new claim for housing benefit or to existing customers who change address. Of the 1.34 million housing benefit customers who live in private rented sector accommodation 0.90 million (70 per cent.) have had their benefit assessed according to the local housing allowance rules.

Information is not available in relation to households.

The most recent available information is in the table.

Housing benefit recipients—local housing allowance tenants: Great Britain, November 2008 to October 2009

Month	*LHA tenants*
2008	
November	408,380
December	459,190
2009	
January	499,450
February	554,180
March	604,510

Housing benefit recipients—local housing allowance tenants: Great Britain, November 2008 to October 2009

Month	*LHA tenants*
April	651,800
May	688,170
June	727,780
July	758,280
August	782,950
September	815,970
October	850,310

Notes:
1. Recipients are as at second Thursday of the month.
2. Local housing allowance tenants may include a small number of non-LHA cases making a new claim since 7 April 2008. This will include recipients in caravan accommodation.
3. Figures are rounded to the nearest 10.
4. The data refer to benefit units, which may be a single person or a couple.
5. SHBE is a monthly electronic scan of claimant level data direct from local authority computer systems. It replaces quarterly aggregate clerical returns. The data are available monthly from November 2008 and October 2009 are the most recent available.
6. Data are published on table 4 at
http://research.dwp.gov.uk/asd/asd1/hb_ctb/
HBCTB_release_JAN10.xls
7. Details on the number of LHA tenants are not available prior to the introduction of SHBE.

Housing Benefit: Scotland

Mr. Tom Harris: To ask the Secretary of State for Work and Pensions whether her Department takes steps to check whether the landlords of housing benefit recipients in Scotland are properly registered with local authorities. [318071]

Helen Goodman: No. It is for local authorities in Scotland to ensure landlords are properly registered under guidance from the Scottish Executive.

All private landlords in Scotland must be registered (or have applied for registration) with the local authorities where they let private property. Once an application has been submitted it is assessed by the relevant local authority who determines whether the landlord is fit and proper. There are a number of sanctions available to local authorities if a landlord fails to register, or continues to let property after being refused registration. The sanctions include reporting the case to the Procurator Fiscal for prosecution. However, the most popular and successful sanction so far has been the rent penalty notice (RPN). If a local authority serves such a notice, it suspends the tenant's liability to pay rent for the period of the notice. If an RPN is used, the tenant is notified to stop paying rent and, if housing benefit is in payment, the local housing benefit office is informed that an RPN is in place and that housing benefit should not be paid for the period of the notice.

Immobilisation of Vehicles

Norman Baker: To ask the Secretary of State for Work and Pensions how much her Department and its predecessors have paid in vehicle clamping charges incurred on *(a)* privately-owned and *(b)* publicly-owned land in each of the last 10 years; and if she will make a statement. [302738]

Jim Knight: The information requested is not available.

Jobcentre Plus

Mrs. May: To ask the Secretary of State for Work and Pensions what outreach work is undertaken by Jobcentre Plus; and what plans she has for the future of such work. [313078]

Jonathan Shaw: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Darra Singh. I have asked him to provide the hon. Member with the information requested.

Letter from Darra Singh:

The Secretary of State has asked me to reply to your question asking what outreach work is undertaken by Jobcentre Plus, and what plans she has for the future of such work. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus has locations across the country providing outreach services which meet the needs of customers and communities, reaching the most disadvantaged and vulnerable in society. These outreach services complement our core services delivered through other channels.

There are various outreach schemes that Jobcentre Plus operates. Among them are: District Community Outreach, which provides ease of access to advice and support within the local community; Prison Outreach which provides specific support to prisoners as part of their preparation for release by offering both benefit and job broking advice; and School Gates which is a support initiative to increase the amount of employment and enterprise support provided to parents in and around their child's school.

In addition there is a small team of advisers working directly in community locations in three Jobcentre Plus Districts—Merseyside, South London, and South Tyne and Wear Valley. Their objective is to work with partners locally, in particular with social housing providers, to engage with residents, challenge attitudes to worklessness and offer a holistic service to address the barriers that prevent individuals or households from finding work.

Recognising this early success we announced in the White Paper an extension to this approach. Therefore, we will be funding 11 new teams in addition to the original three, from April 2010.

For the future, I see outreach being a continued way of delivering our services. We will continue to work with partners at a local level to establish new and innovative ways of sharing premises, facilitate the provision of more cohesive local services, promote our services to a wider customer base and potentially reduce overall Government estate costs.

I hope this information is helpful.

Jobcentre Plus: Disclosure of Information

Jenny Willott: To ask the Secretary of State for Work and Pensions how many complaints have been made to Jobcentre Plus managers by whistleblowers in each of the last five years; and if she will make a statement. [316616]

Jim Knight: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Darra Singh. I have asked him to provide the hon. Member with the information requested.

Letter from Dara Singh:

The Secretary of State has asked me to reply to your question asking how many complaints have been made to Jobcentre Plus managers by whistleblowers in each of the last five years; and if she will make a statement. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The Department only holds information on the number of employees within Jobcentre Plus that have contacted the Department's Whistleblowers' Hotline. This information is detailed below for each of the last five years.

The number of employees within Jobcentre Plus contacting the Department's Whistleblowers' Hotline

Period of Referral	*Number of referrals*
1 April 2004-31 March 2005	61
1 April 2005-31 March 2006	83
1 April 2006-31 March 2007	75
1 April 2007-31 March 2008	75
1 April 2008-31 March 2009	70
1 April 2009-5 February 2010	64

Jobcentre Plus: Termination of Employment

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of Jobcentre Plus staff have had their contracts terminated for each reason of termination in each of the last five years; and if she will make a statement. [316601]

Jim Knight: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus. Darra Singh. I have asked him to provide the hon. Member with the information requested.

Letter from Darra Singh:

The Secretary of State has asked me to reply to your question asking how many and what proportion of Jobcentre Plus staff have had their contracts terminated for each reason of termination in each of the last five years. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The tables in the attached annex contain the numbers and proportions of staff who have had their contracts terminated, as well as termination reason. The information covering proportions sets out staff as a percentage of the average number of people in the organisation in each of the years in question.

Information has been provided from April 2006 which are the earliest available data.

I hope this is helpful.

Jobcentre Plus: Training

Jenny Willott: To ask the Secretary of State for Work and Pensions what equality training is *(a)* compulsory and *(b)* made voluntarily available for Jobcentre Plus employees; and if she will make a statement. [316595]

Jim Knight: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus. Darra Singh. I have asked him to provide the hon. Member with the information requested.

Letter from Darra Singh:

The Secretary of State has asked me to reply to your question asking what equality training is (a) compulsory and (b) made voluntarily available for Jobcentre Plus employees. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

All new starters to Jobcentre Plus are required to work through the compulsory Department for Work and Pensions (DWP) Induction Programme. The programme sets out the actions that should be taken to successfully induct and settle new staff into DWP, including sections on Diversity and Equality. To facilitate this programme, support is provided to line managers and staff via a checklist, which has been produced to provide clear guidance on the process, what needs to be done and by when.

Jobcentre Plus has in place a comprehensive foundation learning programme in which Diversity and Equality feature within two key products. The first is the 12 hour Diversity and Equality

Awareness for Excellent Customer Service workbook. The workbook is designed to highlight Jobcentre Plus' commitment to supporting Diversity and Equality in all that we do within our business. It provides an introduction to the diversity of Jobcentre Plus customers, and as the learner works through they are sign posted to the DWP Diversity and Equality site where they are expected to gather information in order to successfully answer questions and exercises covered within the workbook.

On completing the workbook learners undertake the Core Key Skills for Excellent Customer Service training event. The event provides learners with the understanding, skills and knowledge required to provide excellent and accessible customer services to all Jobcentre Plus customers. The event reinforces and builds on the knowledge gained from undertaking the workbook and provides coverage on: Equal Opportunity, Values & Beliefs, Customer Groups, Cultural Awareness and Diversity and Equality.

Dependant on their job role and the staff's interaction with the customer within Jobcentre Plus, an additional training event is delivered.

Further training events available to Jobcentre Plus staff include:

Age;

Disability;

Equal Opportunities;

Gender;

Race;

Religion or Belief;

Sexual orientation; and

Work Life Balance.

I hope this information is helpful.

Jenny Willott: To ask the Secretary of State for Work and Pensions what cultural awareness training is *(a)* compulsory and *(b)* made voluntarily available for Jobcentre Plus employees; and if she will make a statement. [316596]

Jim Knight: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Darra Singh. I have asked him to provide the hon. Member with the information requested.

Letter from Darra Singh:

The Secretary of State has asked me to reply to your question asking what cultural awareness training is (a) compulsory and (b) made voluntarily available for Jobcentre Plus employees. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Cultural awareness is included as part of our compulsory Diversity and Equality learning for all our people. For example a three day facilitated event covering Excellent Customer Service includes coverage on Cultural Awareness.

In addition to mandatory learning on Diversity and Equality we offer the following cultural awareness training for our people:

Race Relations Overview Workshop;

Race and Understanding Workshop;

Understanding Stereotyping Workshop;

About Me Workshop;

Culture Confidence Workshop; and

A Class Divided Workshop

Line Managers will recommend this training for people who would benefit from this additional learning to support them in their job role.

I hope this is helpful.

Maximus Employment and Training

Chris Huhne: To ask the Secretary of State for Work and Pensions what remit her Department has assigned to Maximus Employment and Training UK in Eastleigh; and what payments have been made from the Exchequer to this organisation. [316526]

Jim Knight: Maximus Employment and Training UK delivers Progress 2 Work provision in Eastleigh on behalf of the Department for Work and Pensions. In addition to Progress 2 Work, Maximus also delivers the following provision:

Flexible new deal (Kent, Surrey and Sussex)

Workprep (South West)

Workstep (Dorset and Somerset)

Link Up (West of England), and

In work support (Dorset and Somerset)

The following table shows the payments made to Maximus covering all the programmes they deliver across the UK.

	£
Year 1 2005-06	9,468,024
Year 2 2006-07	10,418,332
Year 3 2007-08	9,783,920
Year 4 2008-09	4,118,532
Year 5 2009-10	6,776,192
Total	40,565,000

Through flexible new deal Maximus provides tailored and personalised support for customers who have been unemployed for 12 months with the aim of helping them into work. Through the other welfare to work programmes Maximus supports disabled people and customer groups that are furthest from the job market, such as those with social or drug issues.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Work and Pensions what the average monthly payment to recipients under the Support for Mortgage Interest Scheme was in each of the last *(a)* three years and *(b)* six months. [316801]

Helen Goodman: Financial support is provided through benefit assistance towards payments of mortgage interest to homeowners who run into unforeseen difficulties. Help is provided towards the interest on mortgages—known as Support for Mortgage Interest (SMI) as part of income support (IS), income-based jobseeker's allowance (JSA(IB)), and income-related employment and support allowance (ESA(IR)) and state pension credit (PC)

The information is not available in the format requested; the available information is in the table.

Average weekly amount of support with mortgage interest payments made to income support (IS); jobseekers allowance (income-based) (JSA(IB)); or pension credit (PC) claimants in Great Britain

			£
	IS	*JSA(IB)*	*PC*
May 2007	46.88	47.47	27.98
August 2007	50.89	51.50	30.56
February 2008	51.11	52.71	30.33

Average weekly amount of support with mortgage interest payments made to income support (IS); jobseekers allowance (income-based) (JSA(IB)); or pension credit (PC) claimants in Great Britain.

£

	IS	*JSA(IB)*	*PC*
May 2008	48.75	50.08	29.93
August 2008	49.30	51.11	29.08
November 2008	46.60	53.67	27.67
February 2009	63.39	61.31	37.31
May 2009	51.06	75.49	29.39

Notes:
1. Average weekly amounts are based on a 5 per cent. sample and are therefore subject to a degree of sampling variation.
2. Data are collected quarterly therefore monthly figures are not available. The quarter November 2007 is not available.
3. Residual minimum income guarantee (MIG) cases are included in the IS figures. These are mainly cases where the claimant is aged under 60 and the partner over 60.
4. JSA(IB) figures include claimants in receipt of income-based JSA who would also be entitled to the contributory JSA element.
5. Average amounts can include other housing costs, for example ground rent.
6. The DWP reformed Income Support for Mortgage Interest (SMI) by shortening the waiting period before SMI is paid from 39 weeks to 13 weeks for new working age claims. This came into effect from 5 January 2009.
Source:
DWP Information Directorate. 5 per cent. samples

Grant Shapps: To ask the Secretary of State for Work and Pensions what proportion of monies paid under the Support for Mortgage Interest Scheme was paid directly to *(a)* mortgage lenders and *(b)* households in each of the last three years. [316803]

Helen Goodman: Financial support is provided through benefit assistance towards payments of mortgage interest to homeowners who run into unforeseen difficulties. Help is provided towards the interest on mortgages—known as Support for Mortgage Interest (SMI) as part of Income Support (IS), income-based Jobseeker's Allowance (JSA (IB)), and income-related Employment and Support Allowance (ESA (IR) and State Pension Credit (SPC).

The Mortgage Interest Direct (MID) Scheme was introduced in May 1992 in consultation with the Council of Mortgage Lenders. The scheme ensures Support for Mortgage Interest is paid direct to the lender. Membership of the scheme is voluntary, but the majority of the major lending institutions are members of the scheme.

Mortgage lenders who are not members of the MID Scheme do not have payments made direct to them. Instead customers receive housing cost payments in their benefit, and are responsible for maintaining their lending arrangement and forwarding these payments to the lender.

The available information is in the following table.

Income support (IS), jobseeker's allowance (income-based JSA) and pension credit (PC) claimants who receive support with mortgage interest (SMI) payments—Great Britain May 2009

Benefit	*Total claimants receiving assistance with SMI*	*MI paid direct to 3rd party*[1]	*MI included in housing costs paid to claimant*[2]
IS	79,600	78,000	1,600
JSA (IB)	19,400	18,100	1,400
PC	116,400	89,800	26,600

[1] The majority of the major lending institutions are members of the mortgage interest direct scheme (MID), a[illegible] there is a statutory obligation that mortgage interest payments are transferred direct to lenders.
[2] Mortgage lenders who are not members of the MID Scheme do not have payments made direct to them. Instead customers receive housing cost payments in their weekly benefit. They are responsible for maintaining their lending arrangement and forwarding these payments to the lender.
Notes:
1. Figures have been uprated using 5 per cent. proportions against 100 per cent. WPLS totals and rounded to the nearest 100.
2. Residual MIG cases are included in the IS figures. These are mainly cases where the claimant is aged under 60 and the partner over 60.
3. Support for Mortgage Interest is a component of income-based jobseeker's allowance so cannot be added to contribution-based jobseeker's allowance.
4. The DWP reformed Support for Mortgage Interest (SMI), by shortening the waiting period before SMI is paid from 39 weeks to 13 weeks for new working age claims. This came into effect from 5 January 2009.
5. Totals may not sum due to rounding.
Sources
1. Work and Pensions Longitudinal Study (WPLS)
2. Department for Work and Pensions, Information Directorate. 5 per cent. sample

Grant Shapps: To ask the Secretary of State for Work and Pensions (1) how many applications for assistance from the Support for Mortgage Interest Scheme were received in each of the last 12 quarters; [316827]

(2) what proportion of applications for funding from the Support for Mortgage Interest Scheme was granted in each month since January 2008. [316804]

Helen Goodman: The information is not collated centrally and could be provided only at disproportionate cost.

Pension Credit

Paul Holmes: To ask the Secretary of State for Work and Pensions what estimate she has made of the proportion of pensioners who were eligible for guarantee credit in *(a)* Chesterfield constituency, *(b)* Derbyshire and *(c)* England in each year since 2003. [317649]

Angela Eagle: Estimates of eligibility are not available below the level of Great Britain.

The latest estimates of the take-up rates and the number of those entitled but not receiving pension credit are published in the report 'Income Related Benefits estimates of Take-Up in 2007-08', which is available in the House of Commons Library or on the DWP website at:

http://research.dwp.gov.uk/asd/irb.asp

Pensions

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions with reference to the answer of 7 July 2009, *Official Report*, column 747W, on pensions, if she will place in the Library a copy of each of the three written representations. [311743]

Angela Eagle: The summary of consultation responses can be found at:

http://www.dwp.gov.uk/docs/pae-regulations-2009-govt-response-sept09.pdf

It is not our normal practice to publish consultation responses individually. The hon. Gentleman may wish to contact the Local Government Employers and Communities and Local Government to request a copy directly.

Poverty

Mrs. May: To ask the Secretary of State for Work and Pensions how many families were classed as living in poverty in each financial year since 1996-97. [313163]

Helen Goodman: The requested information is given in the following table.

Total number of families and number and proportion of families living in households with less than 60 per cent. of contemporary median income, 1996-97 to 2007-08, Great Britain

		Proportion living in low income households		Number living in low income households	
	Number of families (million)	Before housing costs (percentage)	After housing costs (percentage)	Before housing costs (million)	After housing costs (million)
1996-97	28.9	19	25	5.4	7.3
1997-98	29.1	19	24	5.5	7.0
1998-99	29.3	19	24	5.4	7.0
1999-2000	29.4	19	24	5.5	7.0
2000-01	29.5	18	23	5.5	6.8
2001-02	29.7	18	22	5.4	6.6
2002-03	29.8	18	22	5.5	6.7
2003-04	30.1	18	21	5.4	6.4
2004-05	30.3	17	20	5.2	6.1
2005-06	30.7	18	21	5.5	6.5
2006-07	30.9	18	22	5.6	6.7
2007-08	31.1	19	22	5.8	6.8

Notes:

1. These statistics are based on Households Below Average Income, sourced from the Family Resources Survey. Both of these documents are available in the Library.
2. Small changes should be treated with caution as these will be affected by sampling error and variability in non-response
3. The reference period for Households Below Average Income figures are single financial years.
4. Figures correspond to Great Britain only, because prior to 2002 these are the only figures available and so this shows the full run on a consistent basis.
5. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' (HBAI) series, which uses disposable household income, adjusted (or 'equivalised') for household size and composition, as an income measure as a proxy for standard of living.
6. For the Households Below Average Income series, incomes have been equivalised using Organisation for Economic Co-operation and Development (OECD) equivalisation factors.
7. A family is defined as a single adult or couple living as married (including same sex partners from January 2006) and any dependent children.
8. Number of families in low-income households have been rounded to the nearest hundred thousand families and proportion of families have been rounded to the nearest per cent.

Households Below Average Income, DWP

Social Security Benefits: Armed Forces

Gordon Banks: To ask the Secretary of State for Work and Pensions when she expects to publish guidance on entitlement to national insurance credits for spouses of members of HM armed forces on the direct.gov website. [318428]

Angela Eagle: Legislation which provides for a new National Insurance credit for the accompanying spouse or civil partner of a member of Her Majesty's forces, who is on an assignment outside the United Kingdom, is currently going through the legislative process and will come into force from 6 April 2010.

The associated guidance, which includes information as to who will benefit from this change is currently being produced and will shortly be made available via the appropriate routes including direct.gov.

Social Security Benefits: Disabled

Damian Green: To ask the Secretary of State for Work and Pensions how many *(a)* incapacity benefit and *(b)* employment and support allowance claimants there were in (i) Ashford constituency and (ii) Kent on the latest date for which figures are available. [313514]

Jonathan Shaw: The information is in the following table:

Number and proportion of incapacity benefit/severe disablement allowance and employment and support allowance claimants in the Ashford constituency and Kent in May 2009

	Incapacity benefit/severe disablement allowance		Employment and support allowance	
	Number of claimants	Proportion of working age population as a percentage	Number of claimants	Proportion of working age population as a percentage
Ashford constituency	2,940	4.4	430	0.6
County of Kent	43,660	5.2	5,580	0.7

Notes:
1. Caseload has been rounded to the nearest 10.
2. Percentages are shown to one decimal place.
3. Employment and support allowance replaced incapacity benefit and income support paid on the grounds of incapacity for new claims from 27 October 2008.
4. The proportion of claimants shown for the Ashford constituency is a percentage of the whole of the Ashford constituency's working age population.
5. The proportion of claimants shown for the County of Kent is a percentage of the whole of the county of Kent's working age population. 6. The county of Kent includes the following local authorities: Ashford, Canterbury, Dartford, Dover, Gravesham, Maidstone, Sevenoaks, Shepway, Swale, Thanet, Tonbridge and Malling, Malling, Tunbridge Wells.
Source:
DWP Information Directorate.

Social Security Benefits: Ex-servicemen

Gordon Banks: To ask the Secretary of State for Work and Pensions pursuant to the answer of 4 February 2010, *Official Report*, column 447W, on social security benefits: ex-servicemen, if she will take steps to ensure that local authorities implement a full disregard of all war pensions in considering eligibility for housing and council tax benefits. [318430]

Helen Goodman: The Government recognise the special nature of war pensions and will continue to do so. War pensioners are given preferential treatment through the generous system of mandatory disregards in the income-related benefits, including housing benefit and council tax benefit.

Under long-standing arrangements, local authorities have additional powers to disregard all or part of the remaining war pension when assessing housing benefit and council tax benefit entitlement as part of their local discretion.

Local authorities operating a local discretionary disregard in addition to the mandatory disregard of war pensions meet the majority of the costs but, since 2004, receive a contribution in their benefit subsidy in recognition of this.

The Government have no plans to amend legislation to make the full disregard of war pensions mandatory as we believe this is properly a responsibility that is devolved to local authorities to use their discretion in this matter.

Social Security Benefits: Fraud

Lady Hermon: To ask the Secretary of State for Work and Pensions how many people called the Benefit Fraud hotline in each of the last 12 months; how many such calls were followed up with an investigation; and how many prosecutions for benefit fraud leading to a conviction there have been in the same period. [302937]

Helen Goodman: Every call to the National Benefit Fraud Hotline is examined by the Department. Where there is enough evidence to indicate potential benefit fraud the case is passed to either the Fraud Investigation Service for further investigation or to our Customer Compliance teams in Jobcentre Plus who will scrutinise the relevant benefit claim and make adjustments to entitlements as necessary.

The number of prosecutions for benefit fraud leading to a conviction from National Benefit Fraud Hotline referrals is not available.

Available information is set out in the following table:

Number of calls followed up with an investigation

Number

	Calls to National Benefit Fraud Hotline	*Referred for further initial inquiries*	*In depth criminal investigation*	*Customer compliance interview*
2008				
November	19,107	6,588	3,444	6,144
December	12,826	7,277	2,499	5,288
2009				
January	26,879	10,495	3,245	7,042
February	19,741	8,709	3,113	6,004
March	21,113	9,737	3,510	6,773
April	22,380	8,176	3,252	6,095
May	19,497	8,182	3,616	6,160
June	22,828	9,893	3,443	6,847
July	25,725	9,321	3,594	6,741
August	21,389	7,777	2,834	5,333
September	21,305	12,515	5,438	8,272
October	24,462	9,197	3,462	5,046

Notes:
1. Monthly call data begin on the first Friday after the first Thursday of the month.
2. Number of calls to the National Benefit Fraud Hotline is the number of calls that are presented to the Contact Centre and enter the queue (or are answered immediately) during business hours. Business hours are 7am to 11pm.
3. Number of investigations is generated from the number of referrals/incidents accepted for investigation (i.e. those which result in a case being opened).
4. Figures represent Great Britain only (do not include Northern Ireland).
Sources:
1. National Benefit Fraud Hotline data provided by Jobcentre Plus Contact Centre Directorate.
2. Investigation data taken from DWP Fraud Referral and Investigation Management System.

Unemployment Benefits

Mr. Harper: To ask the Secretary of State for Work and Pensions how many customers who have made successful claims for *(a)* jobseekers' allowance and *(b)* income support had previously made an unsuccessful claim for employment and support allowance in each quarter since the introduction of that allowance. [317037]

Jim Knight *[holding answer 22 February 2010]:* The information is not available as records of unsuccessful claims are not included in the National Statistics datasets which underpin routine publication of benefit statistics.

Mr. Harper: To ask the Secretary of State for Work [illegible] Pensions what estimate has her Department made [illegible] additional on flows to *(a)* jobseekers' allowance and *(b)* income support attributable to the introduction of employment and support allowance in each quarter since October 2008. [317039]

Jim Knight *[holding answer 22 February 2010]:* The requested information is not available.

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate her Department has made of the projected caseloads for *(a)* jobseekers' allowance and (b) income support not reckoning the introduction of employment and support allowance in each quarter since October 2008. [317040]

Jim Knight [*holding answer 22 February 2010*]: The requested information is not available. No estimate has been made of caseloads for jobseeker's allowance or income support based on the employment and support allowance not having been introduced.

Unemployment Benefits: Medical Examinations

Mr. Carmichael: To ask the Secretary of State for Work and Pensions what contracts her Department has with external companies to conduct work capability assessments; and when each such contract is due to expire. [317750]

Jonathan Shaw: The DWP has one contract for the provision of medical services which is delivered on a national basis. The current medical services contract to conduct work capability assessments was awarded to Atos Healthcare, a subsidiary company of Atos Origin.

The contract commenced on 1 September 2005 and is due to expire on 31 August 2012. The Department has options to extend the contract for a further five years up to 31 August 2017.

Mr. Carmichael: To ask the Secretary of State for Work and Pensions how many appeals against the outcomes of assessments for employment support allowance in (a) the UK and (b) Scotland there have been since 27 October 2008; in how many such cases the appeal has been upheld; and how many of the upheld appeals related to the outcomes of assessments undertaken in respect of a serious illness. [317755]

Jonathan Shaw: The Department publishes detailed information relating to the work capability assessment for employment and support allowance claims in Great Britain. Information is not available at a lower level. The report can be found at:

http://research.dwp.gov.uk/asd/workingage/esa_wca/esa_wca_arc.asp

A copy is available in the Library. This report contains details of the number of initial assessments carried out since the introduction of employment and support allowance, a breakdown of the result of the assessment, including the fit for work decision and separate information relating to work capability assessment appeals.

Information about the number of work capability assessment appeals is in the table.

Work capability assessment appeals heard on 'Fit for Work' decisions employment and support allowance claims to December 2008/appeals heard by end of December 2009

	Number
Appeals heard	8,800

Notes:
1. Includes clerical assessments.
2. Volumes will increase in the coming months as more appeals are processed giving a more robust picture of appeal volumes and outcomes. It will then be possible to link this information to the work capability assessment data and provide information on proportions appealing.
3. Figure rounded to the nearest 100.

Data by medical conditions are not yet available for employment and support allowance. Information on appeal outcomes falls to my right hon. Friend the Secretary of State for Justice.

Woolworths: Redundancy

Mrs. May: To ask the Secretary of State for Work and Pensions what information her Department holds on the number of former Woolworth workers who (a) have received help through Jobcentre Plus, (b) are in employment and (c) are out of work. [304393]

Jim Knight: The information requested is not available.

HEALTH

Accident and Emergency Departments

Jeremy Corbyn: To ask the Secretary of State for Health what information his Department holds on the use of accident and emergency departments at (a) University College Hospital, (b) the Royal Free Hospital, (c) Whittington Hospital, (d) Barnet General Hospital, (e) North Middlesex Hospital and (f) Chase Farm Hospital in each year since 2000. [318019]

Mr. Mike O'Brien: Information is collected on first attendances in accident and emergency (A and E) departments. This excludes follow-up visits for the same condition, but counts each attendance by the same patient for different conditions separately. The following table shows reported first attendances for north central London by national health service trust.

First attendances at accident and emergency (A&E) departments, minor injury units and walk-in centres, Barnet and Chase Farm Hospitals, North Middlesex University Hospital, Royal Free Hampstead, The Whittington Hospital, University College London Hospitals

		First attendances								
OrgID	Name	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09

Department of Health dataset KH09, QMAE.

Cancer: Health Services

Miss McIntosh: To ask the Secretary of State for Health what the change has been in the average level of NHS expenditure on an individual cancer patient in the last five years. [318697]

Ann Keen: This information is not held in the requested format. We are not able to provide information on what change there has been in the average level of national health service expenditure on an individual cancer patient in the last five years. We are able to provide information on gross expenditure per capita on cancers and tumours in England.

Gross expenditure per capita on cancers and tumours in England

	Total spend (£000)	*England populations*	*Spend per head (£)*
2003-04	3,385,750	49,175,998	68.85
2004-05	3,773,203	49,175,998	76.73
2005-06	4,302,656	49,175,998	87.50
2006-07	4,352,462	50,476,231	86.23
2007-08	4,964,282	50,695,909	97.92
2008-09	5,134,948	51,220,531	100.25

Notes:
1. Expenditure figures are from estimated England level programme budgeting data, which are calculated using primary care trust (PCT) and strategic health authority programme budgeting returns and Department of Health Resource Accounts data. Figures will include an estimation of special health authority expenditure.
2. In order to improve data quality, continual refinements have been made to the programme budgeting data calculation methodology since the first collection in 2003-04. The underlying data which support programme budgeting data are also subject to yearly changes. Caution is therefore advised when using programme budgeting data to draw conclusions on changes in PCT spending patterns between years.
3. Figures do not include expenditure on cancer screening, health promotion programmes or general practitioner expenditure. Populations are those used for PCT resource allocations.

Cancer: Nurses

Mr. Lansley: To ask the Secretary of State for Health (1) what estimate he has made of the cost to the public purse of the Prime Minister's plans to provide specialist cancer nurses for all people in England who *(a)* have and *(b)* have had cancer; how many new nurses such additional funding would provide; and from which budget it will be taken; [318891]

(2) what estimate he has made of the number of specialist cancer nurses required to provide support at home for all in England who *(a)* have and *(b)* have had cancer; how many such nurses would be newly-trained nurses; and how many hours of support per week on average he estimates each such person would need. [318892]

Ann Keen: We are investing £20 million in 2011-12 to work with Macmillan to introduce more specialist cancer nurse posts. The £20 million has been found from funding released from programmes launched by the Next Stage review, which will either have been implemented fully by 2011-12, or which funded development activities which are now reaching a planned conclusion.

Current estimates are that up to half of cancer patients do not have one-to-one support, which could mean that we would need to double the number of people who provide such support. We are currently carrying out a detailed assessment of work force needs. This includes considering different possible models and levels of support, which may vary according to where someone is on the patient pathway.

It is likely that most of the additional work force will need to receive training, and we will be looking at what needs to be done to ensure that the work force is appropriately trained.

Departmental Finance

Mr. Stephen O'Brien: To ask the Secretary of State for Health what his plans are in respect of *(a)* resource and *(b)* capital expenditure for (i) his Department and (ii) the NHS budget in 2010-11. [318185]

Mr. Mike O'Brien: Expenditure plans for 2010-11 are set out in the Departmental Report 2009:

(a) Resource in Figure A5: Page 219

(b) Capital expenditure in Figure A7: Page 221.

These tables include a split of expenditure that shows departmental expenditure, and overall expenditure in the national health service.

Departmental Statistics

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will place in the Library a copy of his Department's latest statistics on the percentage of courses of dental treatment for the same patient re-attending within *(a)* three months and *(b)* three to nine months in each primary care trust. [318173]

Ann Keen: The information requested is contained in a table, which has been placed in the Library.

Derriford Hospital

Mr. Swire: To ask the Secretary of State for Health what training procedures have been put in place for nursing staff at Derriford Hospital following the transfer of the upper gastro-intestinal cancer unit from the Royal Devon and Exeter Hospital. [318168]

Mr. Mike O'Brien: The information requested is not held centrally, and this is a matter for the local national health service.

Down's Syndrome: Dementia

Mr. Touhig: To ask the Secretary of State for Health what steps his Department is taking to support people with Down's syndrome who have dementia. [318145]

Phil Hope: Improving services for dementia, including people with learning difficulties who also have dementia, is a Government priority. The Government launched the first ever National Dementia Strategy and implementation plan in February 2009, backed by £150 million in funding to primary care trusts in 2009-10 and 2010-11. Mention is made throughout the strategy on the particular needs of people with learning difficulties.

Hackney

Ms Abbott: To ask the Secretary of State for Health if he will set out, with statistical evidence relating as closely as possible to Hackney North and Stoke Newington constituency, the effects on that constituency of his Department's policies since 1997. [318377]

Mr. Mike O'Brien: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. 93 per cent. of people nationally now rate the NHS as good or excellent. The NHS Constitution contains 25 rights and 14 pledges for patients and the public including new rights to be treated within 18 weeks, or be seen by a cancer specialist within two weeks, and an NHS health check every five years for those aged 40-74 years.

There is significant evidence that these policies have yielded considerable benefits for the Hackney North and Stoke Newington constituency.

For example, figures for December 2009 show that in City and Hackney primary care trust (PCT):

94 per cent. of patients whose treatment involved admission to hospital started their treatment within 18 weeks.

98 per cent. of patients whose treatment did not involve admission to hospital started their treatment within 18 weeks.

Between September 2001 and September 2008 the number of general practitioners (GPs) per 100,000 people within City and Hackney PCT has increased from 69.9 to 81.8.

In September 2009, at Barts and the London NHS Trust, 98.3 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge.

In September 2009, at Homerton University Hospital NHS Foundation Trust, 98.5 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge.

Between September 1997 and September 2008 the number of consultants at Barts and the London NHS Trust increased from 177 to 417. Between September 1997 and September 2008 the estimated number of nurses increased from 1,991 to 2,641.

Between September 1997 and September 2008 the number of consultants at Homerton University Hospital NHS Foundation Trust increased from 29 to 86. Between September 1997 and September 2008 the estimated number of nurses increased from 615 to 1,029.

93.4 per cent. of urgent GP referrals to Barts and the London NHS Trust with suspected cancer are seen by a specialist within two weeks of the referral.

96.2 per cent. of urgent GP referrals to Homerton University Hospital NHS Foundation Trust with suspected cancer are seen by a specialist within two weeks of the referral.

Although statistical information is not available at a local level, Hackney North and Stoke Newington will have also benefitted from national policies in other areas. For example:

Since 1997, gross current expenditure on personal social services has increased by around 70 per cent. in real terms with around 105,000 households now receiving intensive home care and 3,076 new extra care housing units—exceeding the original target of 1,500 new extra care units.

Other strategies currently being implemented are:

Subject to parliamentary approval, the Personal Care at Home Bill will guarantee free personal care for 280,000 people with the highest needs and help around 130,000 people who need home care for the first time to regain their independence;

The "Shaping the Future of Care Together" Green Paper, published in July 2009, sets out a vision for a National Care Service for all adults in England which is fair, simple and affordable. The Department has consulted widely on this reform and is currently analysing the responses which will feed into a White Paper later this year;

The National Carer's Strategy ("Carers at the heart of 21st century families and communities") launched in 2008;

The first National Dementia Strategy was published in February 2009;

"Valuing People Now"—a three year strategy for people with learning disabilities published in January 2009; and

"New Horizons: A Shared Vision for Mental Health"—launched in December 2009—to maintain improvements in mental health services combined with a new cross-Government approach to promoting public mental health.

Since 1998, there are now 2.4 million fewer smokers in England as a result of the Government's comprehensive tobacco control strategy which has had a measurable impact on reducing smoking prevalence.

Child obesity levels are reducing due to the efforts of families across England, supported by the Government's obesity strategy. In 2008, 13.9 per cent. of children (aged 2 to 10) in England were classified as obese, compared with 17.3 per cent. in 2005.

Overall, life expectancy at birth for men has increased from 74.5 years (1995-1997 data) to 77.7 years (2006-08 data) while for women, life expectancy at birth has increased from 79.6 years (1995-97 data) to 81.9 years (2006-08 data).

Health Services: Gloucestershire

Mr. Clifton-Brown: To ask the Secretary of State for Health what estimate he has made of the likely number of hospital beds provided by *(a)* NHS foundation and *(b)* primary care trusts in Gloucestershire in the financial year (i) 2010-11 and (ii) 2011-12. [318787]

Mr. Mike O'Brien: The information requested is not collected centrally.

It is for the local national health service organisations to plan, develop and improve services for local people.

Mr. Clifton-Brown: To ask the Secretary of State for Health what estimate he has made of the likely number of *(a)* specialists, *(b)* doctors, *(c)* nursing staff and *(d)* auxiliary staff in each (i) NHS foundation and (ii) primary care trust in Gloucestershire in the financial year (A) 2010-11 and (B) 2011-12. [318788]

Ann Keen: The information requested is not collected centrally.

Local national health service organisations are best placed to assess the health needs of their local community and plan the workforce and training requirements of the staff that they need.

Mr. Clifton-Brown: To ask the Secretary of State for Health how much funding his Department plans to provide for *(a)* NHS foundation and *(b)* primary care trusts in Gloucestershire in the financial year (i) 2010-11 and (ii) 2011-12. [318790]

Mr. Mike O'Brien: The information is not collected in the format requested.

On 8 December 2008, primary care trusts (PCTs) were informed of their allocations for 2009-10 and 2010-11. The allocations to PCTs in Gloucestershire are shown in the following table.

£ million

	2009-10	*2010-11*
Gloucestershire PCT	825.9	868.5
South Gloucestershire PCT	323.1	339.7

PCT allocations for 2011-12 onwards are yet to be determined. However, as announced in the pre-Budget report in December 2009, front-line NHS spending will be protected for the following two years to 2012-13.

The Department does not make allocations directly to foundation trusts. It is for PCTs to use the funding allocated to them to commission services to meet the needs of their local populations.

Mr. Clifton-Brown: To ask the Secretary of State for Health for what reason the effect on the delivery of healthcare services of changes to funding provided by his Department to *(a)* NHS foundation trusts and *(b)* primary care trusts in Gloucestershire between financial years 2010-11 and 2011-12 was not discussed at the meeting held on 22 January 2010 at the Gloucestershire primary care trust headquarters. [318791]

Mr. Mike O'Brien: The Department had no involvement in the meeting held on 22 January 2010 at the Gloucestershire primary care trust headquarters.

This was a meeting of the Gloucestershire Members of Parliament and the chairs and chief executives (or their representatives) of the Gloucestershire national health service organisations: Gloucestershire primary care trust, Gloucestershire Hospitals NHS Foundation Trust, 2gether NHS Foundation Trust and Great Western Ambulance Service NHS Trust.

Mr. Harper: To ask the Secretary of State for Health when his Department was informed of proposals to cut £27 million from the budget of the Gloucestershire Hospitals NHS Foundation Trust for 2010-11 by *(a)* Gloucestershire Primary Care Trust and *(b)* Gloucestershire Hospitals NHS Foundation Trust. [318793]

Mr. Mike O'Brien: The Department was not informed by Gloucestershire primary care trust or Gloucestershire Hospitals NHS Foundation Trust of the proposals to cut £27 million from the budget of the Gloucestershire Hospitals NHS Foundation Trust for 2010-11.

The Department does not make allocations directly to foundation trusts. It is for primary care trusts to use the funding allocated to them to commission services to meet the needs of their local populations.

Health Services: Worcestershire

Peter Luff: To ask the Secretary of State for Health if he will make it his policy to allow further time for NHS Worcestershire to consult on changes to the purchaser/provider split to enable local views to be taken fully into account before developing a preferred option for the delivery of community services; and if he will make a statement. [318586]

Mr. Mike O'Brien: There are no plans to extend the deadline set in the 'NHS Operating Framework 2010/11' for primary care trusts (PCTs) to agree their proposals for the future organisational form of all current PCT-provided community services with their strategic health authority.

When determining the timetable for planning and implementing proposals for the future form of PCT-provided community services, the Department took account of the need to create greater stability within community services to provide certainty for community service staff and a firm foundation for service transformation. Consideration was given to the pivotal role community services play in helping the national health service to meet the productivity and quality challenge. This will enable the NHS to accelerate service integration to deliver the vision of more integrated care delivered closer to home, as set out in 'NHS 2010-2015: from good to great. Preventative, people-centred, productive'.

The 'Operating Framework 2010/11' and 'NHS 2010-2015: ~~from~~ good to great. Preventative, people-centred, productive' have already been placed in the Library and are also available on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/index.htm

Health: Islington

Jeremy Corbyn: To ask the Secretary of State for Health what comparative information on health inequalities in Islington his Department holds on *(a)* teenage pregnancy, *(b)* infant mortality, *(c)* life expectancy, *(d)* obesity and *(e)* HIV/AIDS in (i) 1990, (ii) 1995, (iii) 2000, (iv) 2005 and (v) the latest date for which figures are available. [318033]

Gillian Merron: The data are not available in the requested format.

Information relevant to teenage pregnancy and infant mortality is not held centrally.

However, data are available from the Office for National Statistics (ONS).

The information requested on obesity is not held centrally. However, data on obesity in adults and children in England have been published in the Health Survey for England. However, data on the number of obese adults and children in Islington are unavailable.

The following table provides ONS data for life expectancy in Islington and England. Life expectancy data for Islington are not available for 1989-91.

The following tables provides Health Protection Agency Information on those affected by Human Immunodeficiency Virus/Acquired Immune Deficiency (HIV/AIDS) within the Islington Primary Care Trust (PCT) area.

Life expectancy at birth (years), Islington local authority and England

—	1991-1993	1994-1996	1999-2001	2004-2006	2006-2008
Males, Islington	71	72	73	75	75
Males, England	74	74	76	77	78
Females, Islington	78	78	79	80	81
Females, England	79	80	80	82	82

Notes:

1 Figures are rounded to the nearest integer.

2 All figures are three-year averages, produced by aggregating the number of deaths registered in each year and mid-year population estimates across each three-year period.

3 Figures are period life expectancies at birth. Period expectation of life at birth for an area in a given time period is an estimate of the average number of years a newborn baby would survive if he or she experienced the particular area's age-specific mortality rates for that time period throughout his or her life. It is not therefore the number of years a newborn baby in the area in each time period could actually expect to live, both because the death rates of the area are likely to change in the future and because many of those born In the area will live elsewhere for at least some part of their lives.

4 All figures are calculated using abridged life tables. Deaths of non-residents are excluded from the data for England. (The England figures presented here may differ slightly from figures quoted elsewhere based on National Interim Life Tables, which are calculated using complete life tables and include deaths of non-residents).

Source:

Office for National Statistics

Information on numbers of individuals newly diagnosed with HIV or AIDS in Islington PCT and individuals accessing HIV-related care in Islington PCT are presented by sex, age at diagnosis, probable route of infection and ethnic group in the following tables.

Table 1: Individuals newly diagnosed with HIV in Islington PCT: new HIV and first AIDS diagnoses by year of diagnosis

PCT of diagnosis	*Report type*	*Year of diagnosis*				
		1990	*1995*	*2000*	*2005*	*2008*
Islington PCT	HIV diagnoses [1]	30	46	25	56	14
	AIDS diagnoses [1]	12	16	<5	<5	0

[1] A further eight individuals diagnosed with HIV in the Camden and Islington area and seven individuals diagnosed with AIDS were reported, however it is not possible to determine which PCT these individuals were diagnosed in.

Table 2: Individuals newly diagnosed with HIV in Islington PCT: by year of diagnosis and sex

Report type and sex		*Year of diagnosis*				
		1990	*1995*	*2000*	*2005*	*2008*
HIV diagnoses	Men	25	29	12	28	8
	Women	5	17	13	28	6

Table 3: Individuals newly diagnosed with HIV in Islington PCT: by year and age at diagnosis

Report type and age at diagnosis		*Year of diagnosis*				
		1990	*1995*	*2000*	*2005*	*2008*
HIV diagnoses	<20	<5	<5	<5	5	0
	20-34	18	26	15	21	7
	35-44	8	14	<5	20	<5
	45-54	<5	<5	<5	7	<5
	55+	<5	<5	<5	<5	<5

Table 4: Individuals newly diagnosed with HIV in Islington PCT: by year of diagnosis and probable route of infection

Report type and sex		*Year of diagnosis*				
		1990	*1995*	*2000*	*2005*	*2008*
HIV diagnoses	Sex between men	20	18	7	15	<5
	Heterosexual contact	6	25	16	37	8
	Other	<5	<5	<5	<5	0

Table 5: Individuals newly diagnosed with HIV in Islington PCT: by year of diagnosis and ethnicity

Report type and sex		*Year of diagnosis*				
		1990	*1995*	*2000*	*2005*	*2008*
HIV diagnoses	White	14	19	10	13	5
	Black African	<5	10	10	30	<5
	Other	<5	<5	<5	9	<5

Notes:
1. Diagnoses are from reports received to end June 2009. Numbers will rise as further reports are received.
2. Patients may live with HIV for many years before they are diagnosed. Therefore, new diagnosis data do not necessarily reflect recently acquired infections.
3. Areas when presented are area of diagnoses and not of residence.
4. Cells with counts under five have been masked to avoid the risk of deductive disclosure of an individual's identity.
5. AIDS diagnoses relate to a person's first diagnosis of an AIDS defining illness (subsequent diagnoses are not recorded).
6. AIDS diagnoses were not presented by sex, age, ethnicity or probable route of infection as numbers were too low.
7. With the Whittington hospital being the only major diagnosing site located within Islington Primary care Trust (PCT), it is highly probable that persons resident within Islington PCT are being diagnosed in neighbouring PCTs.

Table 6: number of diagnosed HIV-infected patients accessing care, resident in Islington PCT, by age group: 2000, 2005 and 2008

	0-14	15-24	25-34	35-44	45-54	55+	Total
2000	10	9	234	276	58	22	609
2005	12	24	223	524	182	53	1018
2008	5	35	198	588	319	92	1,237

Table 7: number of diagnosed HIV-infected patients accessing care, resident in Islington PCT, by ethnic group: 2000, 2005 and 2008

	White	Black-Caribbean	Black-African	Black other	Indian/Pakistani /Bangladeshi	Other/mixed	Not known	Total
2000	465	6	72	11	6	44	5	609
2005	701	28	176	18	8	74	13	1,018
2008	823	38	206	21	14	101	34	1,237

Table 8: number of diagnosed HIV-infected patients accessing care, resident in Islington PCT, by route of infection: 2000, 2005 and 2008

	Sex between men	Injecting drug use	Heterosexual sex	Other	Not known	Total
2000	444	37	112	14	<5	608-611
2005	716	44	230	20	8	1,018
2008	823	47	281	18	68	1,237

Notes:
1. Cells with counts under five have been masked to avoid the risk of deductive disclosure of an individual's identity.
2. Data are not available for 1990 and 1995.
3. With the Whittington Hospital being the only major diagnosing site located within Islington PCT, it is highly probable that persons resident within Islington PCT are being diagnosed in neighbouring PCTs.

Health Protection Agency

Home Care Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment his Department has made of any unintended consequences of plans to provide free personal care at home for those in greatest need; and what steps his Department is taking to mitigate any such unintended consequences. [318191]

Phil Hope: The assessments made by the Department for the Personal Care at Home Bill are set out in the impact assessment, which has already been placed in the Library. The Department is committed to reviewing the policy within 12-18 months; any unintended or unforeseen consequences will be examined at that time.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 3 February 2010, *Official Report*, columns 385-6W, on home care services, for what reason the Personal Social Services EX1 return cost of care per hour was not used in respect of the Personal Care at Home Bill. [318402]

Phil Hope: The latest Personal Social Services EX1 return (PSS EX1), provisional 2008-09 data, shows that, for adults and older people receiving home care, the hourly cost is £15 per hour (sample week activity).

The hourly cost of care used in the Personal Social Services Research Unit (PSSRU) model is based on this figure, but has been adjusted to £15.75 per hour at 2011-12 prices. We have used the PSSRU modelling, since it is specialist independent analysis, using a microsimulation model constructed to produce analyses for the Care and Support Green Paper and White Paper.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what methodology was used to calculate the 6.54 figure for the average number of hours of personal care per week on page 16 of the Impact Assessment for the Personal Care at Home Bill. [318474]

Phil Hope: The figure of 6.54 hours per week is drawn from the Personal Social Services Research Unit (PSSRU) modelling, which is in turn rooted in current patterns of care. The PSSRU model shows an average package of community-based care for those in the critical Fair Access to Care Services category of around 8.7 hours per week. The PSSRU assumes, on the basis of Personal Social Services EX1 return (PSS EX1) data, that 74 per cent. of this package—around 6.5 hours per week—is home care. The Department then assumes that around 85 per cent. of the home care hours—around 5.5 hours per week on average—is personal care.

The cost estimate for the Personal Care at Home Bill implies eight hours of personal care per week for new entrants to publicly funded care. This is because the Department has made more generous allowance for the demand effects of free personal care than the PSSRU modelling.

Mr. Stephen O'Brien: To ask the Secretary of State for Health from which budgets he expects his

Department's contribution to the funding of free personal care at home to be made; and by how much in each such case. [318184]

Phil Hope: Changes to planned expenditure in 2010-11 to cover the Department's contribution to the funding of the Personal Care at Home Bill include nearly £50 million from indicative advertising and communications spending, over £60 million from management consultancy spending and over £20 million in reduced administration costs.

In addition, a saving of £62 million will be achieved by transferring responsibility for research activity from other departmental budgets to the Department's ring-fenced research and development budget. That budget will rise to over £1 billion in 2010-11. The research it currently funds will continue as planned.

Hospitals: Waiting Lists

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether his Department has received recent reports that GPs in some areas are delaying referrals to hospital for treatment in order to meet waiting time targets. [318189]

Mr. Mike O'Brien: The Department is not aware of recent reports that general practitioners (GPs) in some areas are delaying referrals to hospital for treatment in order to meet waiting time targets.

GPs have a duty to ensure that patient referrals are based on clinical need. Our policy is clear: all patients should be treated without unnecessary delay according to their clinical need.

Independent Sector Treatment Centres Programme

Mr. Stephen O'Brien: To ask the Secretary of State for Health how much his Department has spent on each stage of the independent sector treatment centres programme to date; and what percentage of contract activities such centres have undertaken at each such stage. [318181]

Mr. Mike O'Brien: The Independent Sector Treatment Centre (ISTC) programme was procured in two stages known as Wave One and Phase Two.

Payments for activity have been made to ISTC providers as follows:

Wave One £1,324.7 million and Phase Two £227.5 million (as at 31 December 2009).

The utilisation of ISTCs is continuing to improve and at the end of 2009 stood at 86 per cent. for Wave One and 78 per cent. for Phase Two.

Leukaemia: Drugs

Mr. David Anderson: To ask the Secretary of State for Health what support will be given to people diagnosed with chronic myeloid leukaemia if the National Institute for Health and Clinical Excellence recommends against the use of the drugs dasatinib and nilotinib. [318382]

Ann Keen: The National Institute for Health and Clinical Excellence (NICE) has not yet published final guidance on the use of dasatinib and nilotinib for the treatment of chronic myeloid leukaemia (CML) that is resistant to imatinib. NICE has published draft guidance and stakeholders now have until 2 March to comment on NICE'S recommendations.

Alternative treatment options for CML that is resistant to imatinib include interferon alfa, hydroxycarbamide or best supportive care. Guidance on best supportive care for patients with CML is set out in the NICE guidance "Improving outcomes in haematological cancers", published in 2003.

National Care Service

Mr. Stephen O'Brien: To ask the Secretary of State for Health what his most recent estimate is of the cost of the introduction of a national care service. [318187]

Phil Hope: The most recent estimate of the cost of proposals for reform of the care and support system as set out in the Green Paper, 'Shaping the Future of Care Together', was published in the Green Paper Impact Assessment available online at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_102338

Copies have already been placed in the Library.

Details of the costs and benefits of reform of the care and support system will be set out in more detail in our White Paper to be published this year.

NHS

Anne Milton: To ask the Secretary of State for Health under what circumstances social enterprises can tender for provision of NHS services; and if he will make a statement. [318501]

Mr. Mike O'Brien: Where commissioners decide to procure services through competitive tender, all providers should have a fair and equal opportunity to bid. Further guidance will be set out in a revised PCT Procurement Guide, due to be published shortly.

Mr. Bailey: To ask the Secretary of State for Health what guidelines apply to the operation of the NHS as a preferred provider; and whether those guidelines make provision for mutual providers. [318506]

Mr. Mike O'Brien: Guidance will be set out in detail in a revised PCT procurement guide due to be published shortly.

NHS Direct

Mike Penning: To ask the Secretary of State for Health what the average cost of a call to NHS Direct was in 2009. [317691]

Mr. Mike O'Brien: The information requested is not collected. Calls to NHS Direct cost a maximum of 5p per minute from a BT landline. Mobiles and other networks may vary.

NHS: Capital Expenditure

Mr. Stephen O'Brien: To ask the Secretary of State for Health what plans his Department has for NHS capital expenditure beyond 2010-11. [318183]

Mr. Mike O'Brien: This information is not yet available. Expenditure beyond 2010-11 will be agreed as part of the next spending review. As set out in pre-Budget report December 2009 paragraph 6.23:

"the Government is not doing a spending review at this stage."

NHS: Complaints

Mr. Stephen O'Brien: To ask the Secretary of State for Health to which body complaints about chairs of NHS hospital trusts should be directed. [318219]

Ann Keen: The nature of the individual complaint determines the body to which the complaint should be directed.

Complaints relating to the functions of a national health service trust may be sent directly to that trust, which is responsible for investigating complaints in respect of those functions; if relevant, this includes the actions of the NHS trust board.

Complaints about the conduct or performance of the chair should be referred to the NHS trust in the first instance. If the correspondent is dissatisfied with the NHS trust's response, the matter should then be referred to the relevant strategic health authority (SHA) chair, who will investigate the matter. If an SHA chair feels the allegations are serious enough to warrant possible suspension or termination of the chair's appointment, he or she will refer the case to the Appointments Commission.

NHS: Finance

Mr. Clifton-Brown: To ask the Secretary of State for Health what the percentage change to his Department's funding for *(a)* NHS foundation trusts and *(b)* primary care trusts is between financial years 2010-11 and 2011-12; and when the trusts were notified of these changes. [318789]

Mr. Mike O'Brien: On 8 December 2008 primary care trusts (PCTs) were informed of their revenue allocations for 2009-10 and 2010-11. The allocations are set out in the following table.

	2009-10	*2010-11*
Total PCT revenue allocations (£ billion)	80	84
Increase on previous year (£ billion)	4.2	4.4
Increase on previous year (percentage)	5.5	5.5

PCT revenue allocations for 2011-12 onwards are yet to be determined. However, as announced in the pre-Budget report in December of last year, front-line national health service spending will rise in line with inflation for the following two years to 2012-13.

The Department does not make allocations directly to foundation trusts. It is for PCTs to use the funding allocated to them to commission services from foundation trusts and other providers to meet the needs of their local populations.

NHS: Manpower

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment he has made of the effect of the points-based immigration system on the NHS's ability to recruit specialist consultants from outside the European economic area. [318220]

Ann Keen: The national health service is able to recruit specialist consultants through the points-based system either through tier 1 or, where there is no suitable United Kingdom or European economic area applicant, through tier 2.

Consultants in some specialities are on the tier 2 shortage occupation list which means their recruitment can be fast-tracked and does not require a full resident labour market test.

Nurses

Mr. Swire: To ask the Secretary of State for Health what the post-operative nurse to patient ratio is for high risk operations at *(a)* The Royal Devon and Exeter Hospital and *(b)* Derriford Hospital, Plymouth. [318210]

Ann Keen: The information requested is not collected centrally.

Nurses: Cancer

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the cost to the public purse of plans to provide specialist cancer nurses for all 1.6 million people in England who have or who have had cancer; and from which budget it will be funded. [318223]

Ann Keen: We are investing £20 million in 2011-12 to work with Macmillan to introduce more specialist cancer nurse posts. The £20 million has been found from funding released from programmes launched by the Next Stage review, which will either have been implemented fully by 2011-12, or which funded development activities which are now reaching a planned conclusion.

Current estimates are that up to half of cancer patients do not have one-to-one support. We will be looking at possible new models of care, which will have an impact on the number of new nurses needed.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what recent estimate he has made of the number of specialist cancer nurses required to provide support at home for all 1.6 million people in England who have or who have had cancer; how many such nurses would require training; and what estimate he has made of the number of hours per week each person requiring such support would need. [318224]

Ann Keen: Current estimates are that up to half of cancer patients do not have one-to-one support, which could mean that we would need to double the number of people who provide such support. We are currently carrying out a detailed assessment of work force needs. This includes considering different possible models and levels of support, which may vary according to where someone is on the patient pathway.

It is likely that most of the additional work force will need to receive training, and we will be looking at what needs to be done to ensure that the work force is appropriately trained.

Prescriptions: Fees and Charges

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he expects to introduce free prescriptions for all those with long-term medical conditions; and what his most recent estimate is of the cost to his Department. [318188]

Mr. Mike O'Brien: Professor Gilmore has now submitted his report on exempting people with long-term conditions from prescription charges to the Department. The recommendations are currently being considered. The cost of introducing the new exemption will depend on how the changes are phased in. We will publish our response shortly.

Royal Liverpool Hospital

Mrs. Ellman: To ask the Secretary of State for Health what progress he has made in his consideration of proposals for the rebuilding of the Royal Liverpool Hospital; and if he will make a statement. [318758]

Mr. Mike O'Brien: The Outline Business Case (OBC) for the £453 million private finance initiative proposal to redevelop Royal Liverpool university hospital is currently with the Department for approval. Subject to approval by departmental officials and Ministers the OBC will then go to the Treasury for approval.

Social Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 8 December 2009, *Official Report*, column 294W, on social services, if he will place in the Library a copy of the legal advice. [318403]

Phil Hope: Legal advice to the Government is confidential, and is covered by legal professional privilege. This enables the Government to obtain full and frank legal advice. For this reason, the Department does not intend to publish any legal advice it has received on this matter.

Strokes: Children

Sir Nicholas Winterton: To ask the Secretary of State for Health if he will introduce *(a)* an audit of stroke care for children and *(b)* a national registration system for childhood stroke; and if he will make a statement. [318359]

Ann Keen: It is for the Healthcare Quality Improvement Partnership (HQIP) who manage the National Clinical Audit and Patient Outcomes Programme (NCAPOP) on behalf of the Department to invite applications for new clinical audits each year, subject to the funding being available. The details are on their website at:

www.hqip.org.uk/national-clinical-audit/

All new applications are considered by The National Clinical Audit Advisory Group (NCAAG), which advises the Department on the NCAPOP. NCAAG has set out advice on the criteria to be used to prioritise topics for new national clinical audits. This is available from the Department's website at:

www.dh.gov.uk/ab/NCAAG/index.htm

Sir Nicholas Winterton: To ask the Secretary of State for Health what recent financial support his Department has provided for research into the causes, outcomes and treatment of childhood stroke. [318360]

Gillian Merron: Two National Institute for Health Research (NIHR) biomedical research centres[1] are undertaking research on aspects of childhood stroke. Their estimated spend on the topic is £370,000 over the two years 2007 to 2009.

The NIHR clinical research network is currently providing NHS research infrastructure support to one study concerned with the outcome of childhood stroke.

The Medical Research Council (MRC) meanwhile is not funding research specifically relating to the condition. However, the MRC funds a broad portfolio of more general stroke related research on which £10.1 million was spent in 2008-09. It includes basic and underpinning research that may increase understanding of the condition in childhood.

Sir Nicholas Winterton: To ask the Secretary of State for Health (1) when his Department expects to implement in full the Royal College of Physicians' clinical guidance on childhood stroke; and if he will make a statement; [318361]

(2) what steps his Department is taking to raise public and professional awareness of childhood stroke; [318362]

(3) what steps his Department is taking to increase support for carers of those affected by childhood stroke. [318363]

Ann Keen: Implementation of the Royal College of Physicians' clinical guidance is a local responsibility. It is for commissioners, in consultation with their providers, to specify services for their local populations on the basis of need, including children and young people.

The Government's policy document, 'Healthy lives, brighter futures: the strategy for children and young peoples health', raises awareness of the need to address rare and complex conditions in childhood and includes a commitment to make sure that, by 2010, all children with complex health needs will have individual care plans to support co-ordinated care. Work is in hand to ensure this commitment is met.

Support for the carers of children with complex conditions is a key feature of care plans. We are moving towards a situation where families can expect 24/7 access to advice and support from Community Children's Nursing Teams; a single lead professional for the family, who can liaise with the various agencies involved in delivering national health service care; and an integrated package of care.

---

[1] Hammersmith Hospitals and St. Mary's Hospital National Health Service Trusts/Imperial College London; and Great Ormond Street Hospital for Children NHS trust/University College London Institute of Child Health.

As a further step, the Department will shortly publish the final version of the National Framework for Children and Young People's Continuing Care. This will help with assessing the continuing health care needs of children and young people, and with considering the bespoke packages of care that will be required to meet those needs.

Tetra: Health Hazards

Mr. Crabb: To ask the Secretary of State for Health (1) what recent evidence he has *(a)* commissioned and *(b)* evaluated on the effects on human health of Tetra masts; [318163]

(2) what recent representations he has received on the health effects of Tetra masts on members of the public. [318164]

Gillian Merron: The Mobile Telecommunications and Health Research programme, funded by Government and industry, commissioned a study by Essex University concerning exposure of volunteers to radiofrequency signals typical of those from Tetra masts. The outcome of this study was published on 14 January 2010 in a paper, title "Do Tetra (Airwave) base station signals have a short-term impact on health and well-being? A randomized double-blind provocation study" by Wallace and co-workers in the journal Environmental Health Perspectives. This paper can be obtained online at:

http://ehp03.niehs.nih.gov/article/fetchArticle.action?articleURI=info%3Adoi%2F10.1289%2Fehp.0901416

The Department has received around 11 items of correspondence about Tetra signals from members of the public, either direct or through their MP.

Tuberculosis: Drugs

Julie Morgan: To ask the Secretary of State for Health what processes his Department has put in place to ensure that the supply of antituberculosis drugs in the UK is not interrupted. [318138]

Mr. Mike O'Brien: We are not aware of any current shortages of antituberculosis medicines. Due to the complex nature of pharmaceutical production, medicines supply problems can unexpectedly arise for a number of reasons. The Department and the Pharmaceutical Industry have produced joint best practice guidelines which are designed to help minimise the impact of medicine shortages and discontinuations. The guidelines give advice to companies and encourage early exchange of information. This allows consideration of the options that are available to help ensure that patients continue to get the medicines they need.

BUSINESS, INNOVATION AND SKILLS

Adult Education

Mr. Hancock: To ask the Minister of State, Department for Business, Innovation and Skills if he will take steps to ensure a redistribution of Adult Safeguarded Learning funds as part of the transfer of responsibility for informal learning from the Learning and Skills Council to the Skills Funding Agency. [318437]

Kevin Brennan: LSC funding for this type of provision is part of a much wider and more complex funding framework and any proposals for redistribution would need to be considered in this wider context.

The White Paper made it clear that a concerted and sustained effort from partners and stakeholders at national and local levels would be required to bring the "Learning Revolution" vision to life. The new funding and planning arrangements set out in Chapter 4 of "The Learning Revolution" are playing a key role in this transformation and so from August 2011 the Skills Funding Agency will channel funding for informal adult learning in local or sub-regional areas through identified Lead Accountable Bodies. We will invite all local authorities to take part in these new arrangements.

We are working closely with the Local Government Association, the Local Education Authorities Forum for the Education of Adults, the Association of Colleges, Ofsted and other delivery partners to develop a Lead Accountable Body model that will enable local authorities to discharge this pivotal leadership role. Accepting the role of Lead Accountable Body will enable local authorities to better position their own resources alongside those of the Skills Funding Agency, as part of a local learning infrastructure. This in turn will help to promote the wider personalisation agenda across a number of fronts, and enable other local services, like libraries, to play an important role in broadening choice for local people.

Debit Cards: Protection

Mr. Tom Clarke: To ask the Minister of State, Department for Business, Innovation and Skills if he will bring forward proposals to provide statutory protection to consumers in respect of debit card purchases in circumstances in which a company enters administration without having provided the goods or services purchased. [314410]

Kevin Brennan: As announced in the Consumer White Paper, "A Better Deal for Consumers", in July 2009, the Government is reassessing the regulatory framework for prepayments, and that includes looking at the effectiveness of the protection offered by debit cards. A number of proposals are being considered and the Government hope to be in position to announce its findings shortly.

Departmental Consultants

Pete Wishart: To ask the Minister of State, Department for Business, Innovation and Skills how much was spent on external consultants and advisers by *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in 2009. [317252]

Mr. McFadden: Central records indicate that the Department paid a total of £6,354,203 in external consultancy fees since its inception (announced on 5 June 2009) to 31 December 2009.

Further details, including provision of non-departmental public body information, could be provided only at disproportionate cost.

I have approached the chief executives of the Insolvency Service, Companies House, the National Measurement Office and the Intellectual Property Office and they will respond directly to the hon. Member.

Letter from Stephen Speed, dated 25 February 2010:

The Minister of State, Department for Business, Innovation and Skills has asked me to reply to your question on how much was spent on external consultants and advisers by (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in 2009.

The Insolvency Service spent £155,584.50 on external consultants and advisers in 2009.

Letter from Tim Moss, dated 15 February 2010:

I am replying on behalf of Companies House to your Parliamentary Question tabled 9 February 2010, UIN 317252 to the Minister of State for Business, Innovation and Skills.

Companies House spent £152,499 on external consultants and advisers in 2009.

Letter from John Alty, dated 16 February 2010:

I am responding in respect of the Intellectual Property Office to your Parliamentary Question tabled 09 February 2010, to the Minister of State, Department for Business, Innovation and Skills.

The Intellectual Property Office, an Executive Agency of the Department for Business, Innovation and Skills spent £105,000 on consultants and advisors in 2009.

Letter from Peter Mason, dated 24 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question asking the Minister of State, Department for Business, Innovation and Skills, how much was spent on external consultants and advisers in 2009.

Using the OGC definition of those who supply advice related to the Agency's strategy, structure, management or operations, our records indicate that in the Calendar Year 2009 the National Measurement Office paid £35,502.10 to external consultants and advisers.

Energy

Dr. Evan Harris: To ask the Minister of State, Department for Business, Innovation and Skills what steps he is taking to ensure effective use of the UK's expertise in fusion energy research. [318556]

Mr. Lammy: The Engineering and Physical Sciences Research Council (EPSRC) has the responsibility for the funding of magnetic confinement fusion research while the Science and Technology Facilities Council (STFC) funds laser-driven or inertial confinement fusion research.

EPSRC and STFC have recently updated the Research Council's strategy for the support of fusion research, assisted by an Expert Group chaired by Professor Keith Burnett, Vice-Chancellor of Sheffield University. The Expert Group's vision for fusion, and the key points of the new fusion strategy, have been published on the websites of EPSRC and STFC.

Erasmus

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how much the UK has contributed to the budget of the Erasmus programme in each year since 1997. [318665]

Mr. Lammy: The UK makes no direct financial contribution to the budget of the European Commission's Erasmus programme which is funded through the Commission's Lifelong Learning Programme. This Department (and its predecessors) has paid an annual management fee to a national agent, currently the British Council, to manage the delivery of the programme across the UK on behalf of the Government.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many UK students resident in the UK have participated in the Erasmus scheme since 1997. [318666]

Mr. Lammy: The following table shows number of UK students who have participated in the Erasmus scheme since 1997.

Academic year	*UK students participating in Erasmus*
1996/97	10,537
1997/98	10,582
1998/99	9,994
1999/2000	10,056
2000/01	9,020
2001/02	8,475
2002/03	7,973
2003/04	7,539
2004/05	7,214
2005/06	7,131
2006/07	7,235
2007/08	10,278
2008/09	10,827

Source:

The European Commission statistics:

http://ec.europa.eu/education/erasmus/doc920_en.htm

except 2008/09 and 2009/10, where the data is the latest estimates from the British Council and is subject to confirmation.

Early indications show that in the current academic year (2009/10), 11,302 UK students will take part in Erasmus.

Higher Education: Admissions

Michael Gove: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 5 February 2010, *Official Report*, columns 605-10W, on higher education: admissions, what proportion of pupils in receipt of free school meals in 2002-03 who progressed to higher education in 2006-07 attended a *(a)* school, *(b)* further education college and *(c)* sixth form college before entering higher education. [318404]

Mr. Lammy: The information is not available in the form requested.

Higher Education: Further Education

Mr. Willis: To ask the Minister of State, Department for Business, Innovation and Skills which universities have withdrawn funding for higher education provided in further education colleges in *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10; and if he will make a statement. [318785]

Kevin Brennan: Following our 2006 White Paper "Further Education: Improving Skills, Raising Life Chances", the Higher Education Funding Council for England (HEFCE) introduced a code of practice for franchised provision of higher education in further education colleges. HEFCE do not monitor individual franchise agreements between higher education institutions and further education colleges. However, the data provided in the table show that the total number of higher education institutions franchising to a further education college has remained fairly constant since 2006-07, while the number of students franchised from a higher education institution to a further education college has increased between 2006-07 and 2009-10.

Students franchised from HEIs to FECs

Academic year	*Number of institutions franchising to a FEC*	*Headcount of franchised students*
2006-07	63	50,140
2007-08	62	51,340
2008-09	60	54,095
2009-10	64	63,938

Source: HESES.

Higher Education: Part-time Education

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills how many part-time students are in their *(a)* first, *(b)* final and *(c)* other year of an undergraduate degree course. [318179]

Mr. Lammy: In the 2008/09 academic year there were 70,195 part-time first degree students in their first year of study and 135,000 students in any other year of study. It is not possible to accurately identify final year students as course timescales can vary, particularly for part-time students. However 36,855 part-time first degree students qualified in 2008/09. This will discount students who completed their final year, but did not qualify.

Motor Vehicles: Government Assistance

Mr. Sarwar: To ask the Minister of State, Department for Business, Innovation and Skills how many vehicles have been purchased under the Vehicle Scrappage Scheme to date. [318257]

Ian Lucas: By 14 February 2010, BIS had received 355,305 orders for new vehicles under the scrappage scheme.

Mr. Sarwar: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the likely effects of the Vehicle Scrappage Scheme on the volume of carbon dioxide emissions. [318258]

Ian Lucas: No detailed assessment has been made by this Department. According to the Society of Motor Manufacturers and Traders (SMMT), average CO_2 emissions of a car bought through the scheme was 133.3 g/km, almost 10 per cent. below the overall new car market average and 26.8 per cent. below the average figure for a scrapped car.

Multiple Sclerosis: Research

Mr. Sarwar: To ask the Minister of State, Department for Business, Innovation and Skills whether his Department has allocated funding for research to examine whether there is a causal relationship between chronic cerebrospinal venous insufficiency and multiple sclerosis. [318255]

Mr. Lammy: The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research. The MRC is an independent body which receives its grant-in-aid from the Department for Business, Innovation and Skills.

The MRC spent £3.4 million on research into Multiple Sclerosis in 2008-09, but is not currently funding any research specifically into chronic cerebrospinal venous insufficiency (CCSVI).

The MRC always welcomes high quality applications for support into any aspect of human health. The primary considerations in funding decisions are research excellence and importance to health; however, high quality proposals in areas of particular strategic importance may be given priority in competition for funds.

The MRC provides opportunities for additional clinical research training fellowships through collaborations with Royal Colleges and Charity flinders including the MRC/Multiple Sclerosis Society Clinical Research Training Fellowships. One fellowship per year is available under this scheme, aimed at researchers who are involved in treating patients and who wish to pursue research into understanding and treatment of multiple sclerosis.

Details of MRC's currently funded research can be found in the MRC research portfolio which is accessible on the MRC website at:

http://www.mrc.ac.uk/ResearchPortfolio/index.htm

Retail Trade: Planning Permission

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills when he expects to respond to the Competition Commission's recommendation on the introduction of a local competition test in planning regulations. [318319]

Kevin Brennan: The Government need to consider the wider implications of this recommendation alongside the Competition Commission's (CC) detailed analysis. These are complex issues. I expect to announce my response to the CC 's recommendation on introducing a competition test into the UK planning system in due course.

Science: Expenditure

Mr. Touhig: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of the UK's gross domestic product was spent on research and development in science in 2008-09; and what assessment he has made of likely trends in such expenditure in the next three financial years. [318146]

Mr. Lammy: The most recent data available are for 2007, when gross domestic expenditure on research and development (GERD) was 1.79 per cent. of gross domestic product.

Data for 2008 are expected to be published by the Office for National Statistics in March 2010.

The Department has made no assessment of future outturns for GERD for the period 2009-10 to 2011-12.

Written Answers to Questions

Friday 26 February 2010

WORK AND PENSIONS

Employment Schemes: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions what the average cost to Jobcentre Plus is of supporting clients on *(a)* Pathways to Work, *(b)* Workstep and *(c)* New Deal for Disabled People into (i) work and (ii) sustained work defined as 26 weeks in respect of clients diagnosed with (A) mental health conditions, (B) musculoskeletal diseases and (C) visual impairment. [315047]

Jim Knight: The information requested is not available.

Incapacity Benefits

Mrs. May: To ask the Secretary of State for Work and Pensions (1) whether people claiming employment and support allowance are counted for the purposes of meeting her Department's objective of reducing the national incapacity benefits caseload by one million by 2015; [317623]

(2) what recent assessment she has made of her Department's progress towards its target of reducing the national incapacity benefits caseload by one million by 2015. [317624]

Jonathan Shaw: The Government's aim is to reduce the number of people on employment and support allowance and incapacity benefits by 1 million by 2015 from a baseline of 2.74 million in 2005. Recipients of incapacity benefits include customers receiving incapacity benefit, severe disablement allowance, income support (on incapacity grounds) and employment and support allowance.

We expect the further planned reforms to employment and support allowance and incapacity benefits to help us make significant progress towards our aim to reduce the numbers on employment and support allowance and incapacity benefits by 1 million.

Jobcentre Plus

Mrs. May: To ask the Secretary of State for Work and Pensions what recent consideration she has given to the provision of Jobcentre Plus services at locations other than Jobcentre Plus offices. [313780]

Jim Knight: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Darra Singh. I have asked him to provide the right hon. Member with the information requested.

Letter from Darra Singh:

The Secretary of State has asked me to reply to your question asking what recent consideration she has given to the provision of Jobcentre Plus services at locations other than Jobcentre Plus offices. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

With the advances made in technology the way we deliver our services has changed and our channel strategy enables us to effectively deliver many of our services either by telephone or through the internet. However, for customers in need of tailored personal support, Jobcentre Plus continues to provide a face to face advisory service through our network of Jobcentres and a wide range of outreach locations.

We aim to make our services more accessible to customers by providing a range of support through outreach. Typically, advisory services can be delivered in partnership with Children's Centres, on Local Authority premises, or in conjunction with one of our Welfare to Work providers

To ensure these arrangements meet the challenge of the current economic climate we will keep our service delivery plans under review.

I hope this information is helpful.

Public Holidays

Bob Spink: To ask the Secretary of State for Work and Pensions what estimate she has made of the cost to her Department of the introduction of an additional public holiday; and if she will make a statement. [315112]

Jonathan Shaw: No official estimate has been made of the additional cost to the Department of an additional day's public holiday.

The actual cost would depend in particular on the degree to which work could be re-prioritised or re-scheduled as already happens, for example, at the Christmas and Easter public holidays.

TRANSPORT

Boating: Safety

Mr. Gordon Prentice: To ask the Minister of State, Department for Transport when he last reviewed safety arrangements for tall ships which are used for educational purposes for young people under 21; and if he will make a statement. [318938]

Paul Clark: The Maritime and Coastguard Agency (MCA) keeps the safety requirements for tall ships registered or operating in the UK under constant review. These requirements are set out in Codes of Safety published by the MCA. Tall ships registered or operating in the UK are subject to the same inspection regimes as ships of a comparable size. The agency is working with the Association of Sail Training Organisations (ASTO) on the development of an additional safety management system, designed specifically for smaller sail training ships.

Through the International Maritime Organization, the MCA is actively promoting greater co-operation between maritime administrations to develop a more consistent application of safety requirements internationally.

Departmental NDPBs

Bob Spink: To ask the Minister of State, Department for Transport for how many non-departmental public bodies his Department is responsible. [314260]

Chris Mole: Information on the number of non-departmental public bodies (NDPBs) sponsored by my Department is published in the annual Cabinet Office report 'Public Bodies'. 'Public Bodies 2009' is available online at:

www.civilservice.gov.uk/about/resources/ndpbs.aspx

Departmental Public Expenditure

Norman Baker: To ask the Minister of State, Department for Transport which projects have been allocated funding from the *(a)* Highways Agency Network Operations budget and *(b)* Technology Innovation Fund for (i) 2009-10, (ii) 2010-11, (iii) 2011-12, (iv) 2012-13, (v) 2013-14 and (vi) 2014-15; and how much such funding each such project has already received. [319073]

Chris Mole: The information requested is as follows:

(a) The Highways Agency was allocated £2.9 billion of programme expenditure in 2009-10 as presented in the Agency's 2009-10 Business Plan. The programme includes projects to maintain and operate the strategic road network.

There are over 3,000 which make up the programme allocation and it is not practicable to list each project. 2010-11 plans are being finalised and the following years are subject to the outcome of any future Spending Review.

(b) The Highways Agency was allocated funding for the A14 Corridor Traffic Management System and the Birmingham Box Phase 1 and 2 project from the Technology Innovation Fund for the periods 2009-10 and 2010-11.

Funding already allocated to the Highways Agency from the Technology Innovation Fund is as follows:

£ million

	2009-10 Budget	*2010-11 Indicative*
Birmingham Box Phase 1 and 2	76	32
A14 Corridor TMS	46	7

Departmental Sick Leave

David Simpson: To ask the Minister of State, Department for Transport how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last three years. [316455]

Chris Mole: Sickness absence statistics are available on the Department's website at:

http://www.dft.gov.uk/about/staff/sickabsence

Departmental Travel

Mr. Watson: To ask the Minister of State, Department for Transport if he will publish the travel guidance issued to staff of each of his Department's agencies and non-departmental public bodies. [314928]

Chris Mole: The Department for Transport does not hold this information. Agencies and NDPBs issue their own travel guidance to staff, and reference should be made to them for this information.

Liquid Explosives: EU Action

Mr. Brazier: To ask the Minister of State, Department for Transport when he expects the EU's Liquid Explosives Working Group to agree a standard for scanning for liquid explosives. [318904]

Paul Clark: The EU's aviation security regulatory committee (composed of member state experts) agreed a new package of implementing measures on aviation security on 21 October 2009. This package of measures includes standards for liquids screening technology. The timetable for introduction of this technology is currently being considered by the European Parliament.

Official Cars: Safety

Mr. Hoyle: To ask the Minister of State, Department for Transport whether cars operated by the Government Car and Despatch Agency have been subject to recall in the last six months. [319172]

Paul Clark: Eleven vehicles operated by the Government Car and Despatch Agency have been subject to a recall in the last six months.

Railways: Fares

Mr. Lancaster: To ask the Minister of State, Department for Transport (1) what the annual percentage change in the cost of a Senior Railcard has been in each year since 2000; [318407]

(2) what the cost of a Senior Railcard was in each year since 2000. [318408]

Chris Mole: The cost and percentage increase of a Senior Railcard in each year since 2000 was as follows:

	Price (£)	*Percentage increase*	*Date of increase*
2000	18.00	0	—
2001	18.00	0	—
2002	18.00	0	—
2003	18.00	0	—
2004	20.00	11.11	23 May 2004
2005	20.00	0	—
2006	20.00	0	—
2007	20.00	0	—
2008	24.00	20.00	2 January 2008
2009	26.00	8.33	17 May 2009
2010	26.00	0	—

These are in line with the terms of the Senior Railcard scheme agreement through which train operators are required to provide the cards.

Rescue Services: Hope Cove

Mr. Steen: To ask the Minister of State, Department for Transport if he will extend the coverage area of the Hope Cove lifeboat up to and including Ordnance Survey points *(a)* 695373 to the east and *(b)* 605465 to the west. [318209]

Paul Clark: There are no plans to extend the coverage of the general purpose boat operated by the Maritime and Coastguard Agency (MCA) at Hope Cove. The operating limits are set in the interests of the safety of the boat's volunteer crew and the public.

Roads: Snow and Ice

Mr. Bone: To ask the Minister of State, Department for Transport if he will make it his policy not to override local authority contracts for the supply of salt and grit. [318905]

Mr. Khan: The Department for Transport only provides advice to salt suppliers on prioritising deliveries to ensure salt is delivered to where it is needed most. Advice is provided by the Salt Cell, comprising officials from the Department for Transport, the Devolved Administrations, the Highways Agency and local authority representatives. The Salt Cell has remained in operation since 6 January and its advice has been extremely important in ensuring that no authorities have so far run out of salt despite the worst winter weather in 30 years. The Salt Cell's advice is based upon information provided by highway authorities on their stock levels and weather forecasts. It is a matter for the salt suppliers to decide what deliveries they make.

Mr. Bone: To ask the Minister of State, Department for Transport what assessment he has made of the preparedness of local authorities for the recent severe weather conditions including the provision of salt and grit in *(a)* Northamptonshire and *(b)* England. [318907]

Mr. Khan: Following the severe weather conditions in February 2009, the Government asked the UK Roads Liaison Group to identify the lessons that should be learnt regarding highway authorities' preparedness for extreme weather events. The UK Roads Liaison Group made 19 recommendations, one of which advised that:

> "in considering appropriate service standards, at least six days resilience would represent sensible good practice for determining the number of days resilience during the core winter period".

It is for each authority to consider the recommendations and decide for themselves how best to take them forward. However, a write-round in late October 2009 by regional resilience teams (RRTs) in the Government Offices found that of those local authorities that responded (a third of local highway authorities) all but one were holding at least six days' supply, and more than half of those responding arranged to hold 10 days' supply or more. Northamptonshire county council reported that it had reviewed the UKRLG's recommendations and that it held 11,000 tonnes at that time.

CULTURE, MEDIA AND SPORT

Sea Change Programme

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport who *(a)* applied for and *(b)* received funding through his Department's Sea Change programme in each year since its inception. [318594]

Margaret Hodge: The local authorities who applied for and received funding through the Sea Change programme since it began in April 2008 are shown in the tables. A total of £38 million has been allocated over the three phrases of the programme.

Wave One (2008-09)

Applied for funding and allocated a Sea Change grant

Local authority	*Resort*
Blackpool Council	Blackpool
Torbay Council	Torbay
Kent County Council	Dover
Berwick-upon-Tweed	Berwick
Devon County Council	Teignmouth
Rother District Council	Bexhill-on-Sea
Bournemouth Borough Council	Boscombe
North Somerset Council	Weston-Super-Mare
Arun District Council	Littlehampton
Torridge DC	Westward Ho!
Wyre BC	Fleetwood
North Devon Council	Ilfracombe
North Tyneside Council	North Tyneside
East Riding of Yorkshire Council	Withernsea
Thanet District Council	Margate

Applied for funding and not allocated a grant

Local authority	*Resort*
West Dorset District Council	West Bay
Sedgemoor District Council	Burnham-on-Sea
Penwith District Council	St Ives
South Holland District Council	Sutton Bridge
Shepway District Council	Folkestone
Worthing Borough Council	Worthing
Tendring District Council	Walton-on-the-Naze
Brighton and Hove City Council	Brighton
Sefton Metropolitan Borough Council	Southport
West Somerset Council	Minehead
Plymouth City Council	Plymouth

Wave Two 2009-10

Applied for funding and allocated a Sea Change grant

Local authority	*Resort*
East Riding of Yorkshire	Bridlington
Great Yarmouth Borough Council	Great Yarmouth
Hastings Borough Council	Hastings
Sefton Metropolitan Borough Council	Southport
Wansbeck District Council	Newbiggin
Worthing Borough Council	Worthing
South Tyneside Council	South Shields
Essex County Council	Jaywick
Swale Borough Council	Leysdown
Penwith District Council	Penzance
Teignbridge District Council	Dawlish
North Norfolk District Council	Wells
Kent County Council	Whitstable/Margate

Applied for funding and not allocated a grant

Local authority	*Resort*
Weymouth and Portland Borough Council	Weymouth
Tendring District Council	Dovercourt
Scarborough Borough Council	Filey
Portsmouth City Council	Portsmouth
Sunderland City Council	Sunderland
Fylde Borough Council	St. Anne's
Carrick District Council	Falmouth
Hartlepool Borough Council	Seaton Sands

Wave Three 2010-11

Applied for funding and allocated a Sea Change grant

Local authority	*Resort*
Thanet District Council	Margate
North Tyneside Council	Tynemouth

Applied for funding and allocated a Sea Change grant

Local authority	*Resort*
Sunderland City Council	Roker
Barrow Borough Council	Piel Island
Wyre Borough Council	Fleetwood
Cornwall County Council	St. Ives
Plymouth City Council	Plymouth

Applied for funding and not allocated a grant

Local authority	*Resort*
Lancaster City Council	Morecambe
Southend	Southend
Lincolnshire County Council	Chapel St. Leonards
Kings Lynn and West Norfolk borough council	Hunstanton
East Lindsey Borough Council	Skegness
Lincolnshire County Council	Skegness
North East Lincolnshire Council	Cleethorpes
South Holland District Council	Sutton Bridge
Hartlepool Borough Council	Seaton Carew
Northumberland County Council	Blyth
Redcar and Cleveland Borough Council	Redcar
Blackpool Council	Blackpool
Cumbria County Council	Siloth Green
Lancaster City Council	Morecambe
Wirral Metropolitan Borough Council	Old Hoylake
Chichester District Council	Selsey
East Sussex County Council	Newhaven
Havant Borough Council	Hayling Island
Kent County Council	East Kent Trail
Portsmouth City Council	Southsea
Shepway District Council	Folkestone
Thanet District Council	Margate
Devon County Council	Exmouth
East Devon District Council	Seaton
North Devon Council	Ilfracombe
Poole Borough Council	Poole
Teignbridge District Council	Teignmouth
West Dorset District Council	Lyme Regis
West Somerset Council	Minehead
Weymouth and Portland District Council	Weymouth
East Riding of Yorkshire Council	Hornsea

St. George's Day

Mr. Hollobone: To ask the Secretary of State for Culture, Media and Sport what plans his Department has to mark St. George's Day. [318952]

Margaret Hodge: On 23 April the Department for Culture, Media and Sport will fly the St. George's flag alongside the Union flag to celebrate St. George's Day. English Heritage plans to mark the day with events at several properties around the country, the biggest of which will be a two-day St. George's Day festival at Wrest Park in Bedfordshire.

Theatre: Young People

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many people have registered for Arts Council England's A Night Less Ordinary scheme. [317147]

Margaret Hodge: Central registration with Arts Council England is not required.

PRIME MINISTER

National Security Committee

Keith Vaz: To ask the Prime Minister what the membership is of the National Security Committee; how many times the Committee has met in the last 12 months; and what its remit is. [313546]

The Prime Minister: The Ministerial Committee on National Security, International Relations and Development exists to consider issues relating to national security and the Government's international, European and international development policies. Its membership is taken from relevant Ministers. The attendance of officials at ministerial committees is at the discretion of the chair of the committee. At NSID the Chief of the Defence Staff, the Chairman of the Joint Intelligence Committee and the heads of the intelligence agencies have a standing invitation to attend meetings.

CHURCH COMMISSIONERS

Religious Buildings: Repairs and Maintenance

Miss McIntosh: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what recent representations the Church Commissioners have received on the effects of the scheme which rebates value added tax payable on repairs for listed places of worship. [318596]

Sir Stuart Bell: On 11 February the General Synod made a clear statement that this extremely welcome scheme, which had by the end of January 2010 paid out over £101 million across the UK but is due to end on 31 March 2011, should be extended.

As no provision has been agreed within the EU to allow for the reduction of VAT for repairs to listed places of worship, the Church is campaigning, in partnership with other denominations and faiths, to persuade the Government to ensure the continuation of this scheme. The scheme makes a huge difference to our parish churches which are currently spending over £110 million on repairs and we are pleased that the hon. Lady and other hon. Members are actively involving themselves in this campaign and helping us to maintain a major part of the nation's built heritage for future generations.

DEFENCE

Armed Forces: Pay

Willie Rennie: To ask the Secretary of State for Defence how much his Department has spent on household staff for members of the armed forces with a rank of Brigadier or equivalent and above in each of the last 12 months. [316372]

Bill Rammell: The information requested is not held centrally.

Departmental Travel

Mr. Watson: To ask the Secretary of State for Defence if he will publish the travel guidelines issued to staff of each of his Department's agencies and non-departmental public bodies. [315150]

Mr. Kevan Jones: The Statement of Civilian Personnel Policy on Civilian Detached Duty Expenses has been placed in the Library of the House.

Copies of the guidance in respect of the Department's Trading Funds UK Hydrographic Office, Met Office and Defence Science and Technology Laboratory have been placed in the Library of the House. The Defence Support Group is currently in the process of harmonising the existing travel guidelines of its air and land businesses and a copy will be placed in the Library of the House when the revised guidelines are complete.

The Department's non-departmental public bodies have charitable status and are independent of the Secretary of State for Defence in relation to travel guidance. Advisory non-departmental public bodies have no staff.

Future Large Aircraft

Mr. Wallace: To ask the Secretary of State for Defence how much funding his Department has provided to the A400M aircraft project under each budgetary heading; and for what purposes. [319175]

Mr. Quentin Davies: The cost so far to the Department of the A400M programme has been £843 million from the Capital Departmental Expenditure Limit and £5 million from the Resource Departmental Expenditure Limit. This money has been spent on aircraft development and production activities.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Defence when he plans to respond to the email from the hon. Member for West Worcestershire of 24 November 2009 on his Department's bonus scheme. [319248]

Mr. Kevan Jones: The hon. Member's e-mail was not sent to the correct address. It has now been resent and a response will be provided shortly.

Met Office: Pay

Sammy Wilson: To ask the Secretary of State for Defence how much has been paid in bonuses to staff employed at the Met Office in each of the last five years. [318171]

Mr. Kevan Jones: Met Office staff are eligible to receive performance-related pay based on achievements against specific targets agreed and monitored by the Met Office Board, which are linked to the success of the Met Office at either individual, team or organisational level. Payments are non-consolidated and represent part of Met Office staff remuneration which is at risk and needs to be re-earned each year.

The following table details the amount paid in performance related pay to staff employed at the Met Office in each of the last five years.

£

	Total paid in non-consolidated, performance related awards	*Average award*
2008-09	2,720,000	1,485
2007-08	2,734,000	1,545
2006-07	2,491,000	1,458
2005-06	2,642,000	1,499
2004-05	1,742,000	968

RAF Fylingdales

Mr. Drew: To ask the Secretary of State for Defence how many *(a)* arrests, *(b)* reports, *(c)* de-arrests and *(d)* charges have been made under the RAF Fylingdales Military Land Byelaws since 1990. [318620]

Mr. Kevan Jones: The information requested is detailed in the following table:

	Arrests	*Reports*	*De-arrests*	*Charges*
1990	4	0	0	0
1991	5	1	0	1
1992	0	0	0	0
1993	0	0	0	0
1994	1	1	0	1
1995	0	0	0	0
1996	0	0	0	0
1997	0	0	0	0
1998	0	0	0	0
1999	0	0	0	0
2000	11	8	3	0

There is no record of the Military Land Byelaws at RAF Fylingdales being used by the Ministry of Defence Police after 2000. For the purposes of this response the term 'reports' has been interpreted as files that were submitted to the Crown Prosecution Service for advice.

United Kingdom Hydrographic Office

Mr. Jeremy Browne: To ask the Secretary of State for Defence whether he plans to privatise the United Kingdom Hydrographic Office. [318903]

Mr. Kevan Jones: We have no plans to privatise the UK Hydrographic Office.

COMMUNITIES AND LOCAL GOVERNMENT

Community Development: Expenditure

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under Connecting Communities in each *(a)* local authority and *(b)* lower super output area in each year since 2000. [318216]

Mr. Malik: The Connecting Communities programme was launched on 14 October 2009. A table providing information on the grant funding allocated to each area to support their proposals for participating in the Connecting Communities programme has been deposited in the Library of the House.

Fire Services

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what timetable has been set for the first full year's data to be collected from fire authorities under the new Incident Recording System. [319305]

Mr. Malik: Fire and rescue authorities have been asked to provide incident record data for the first full year under the new Incident Record System by the end of May 2010. This is in order to produce the provisional national statistics which are published in the Fire Statistics Monitor Publication series at:

www.communities.gov.uk/fire/researchandstatistics/firestatistics/firestatisticsmonitors/

Fire Services: Equipment

Mr. Fallon: To ask the Secretary of State for Communities and Local Government with reference to the answer of 15 September 2008, *Official Report*, columns 2083-4W, on fire services: equipment, what the equivalent information is for 2008-09. [318423]

Mr. Malik *[holding answer 24 February 2010]*: The number of front-line pumping appliances in each fire and rescue service in England during 2008-09 is shown in the table.

The numbers of defibrillators in each Fire and Rescue Service in 2007 as provided in the answer of 15 September 2008, *Official Report*, columns 2083-4W, on fire services: equipment were data collected as a one-off for the following piece of research: Current Practice and Prospects for Fire and Rescue Service Co-responding, 14/2008:

www.communities.gov.uk/publications/fire/frscoresponding

Information on the number of defibrillators in Fire and Rescue Services is not collected routinely and therefore data for 2008-09 could be provided only at disproportionate cost.

Fires: Domestic Waste

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Bromley and Chislehurst of 21 July 2009, *Official Report*, column 1654W, on fires: domestic waste, what the *(a)* budget and *(b)* timetable is for the research into fires in wheeled refuse containers. [319324]

Mr. Malik: The 2010-11 research programme is being drawn up at this time. We anticipate that draft research programmes will be considered by Ministers and we expect the outcomes of that process will be available in spring 2010.

Local Enterprise Growth Initiative

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what assessment has been made of the effect on local economies of the Local Enterprise Growth Initiative. [319278]

Ms Rosie Winterton: An independent national evaluation of the Local Enterprise Growth Initiative (LEGI) has been commissioned by Communities and Local Government which will measure and assess the outcomes and impacts of the programme; assess the strategic and operational fit of the fund within the wider policy environment; and identify innovation and good practice and work carried out by the LEGI partnerships.

The final report is scheduled to be published in summer this year.

Planning Permission: Appeals

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government whether submissions from developers to planning appeals may be *(a)* received and *(b)* taken account of after the closing date for such submissions; and if he will make a statement. [319251]

Mr. Ian Austin: The Secretary of State is able to use his discretion in determining whether to consider representations received after the close of an inquiry.

The late submission of appeal material can cause delays and late representations and evidence are therefore only accepted in exceptional circumstances.

Planning Permission: Innsworth

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what discussions he has had with the Planning Inspectorate on the timing of submissions made by developers in respect of proposals to build houses at Innsworth, Gloucestershire, GL3 1EB. [319252]

Mr. Ian Austin: None.

Public Sector

Robert Neill: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of each of the interim pilot reports published as part of the Total Place initiative. [317804]

Ms Rosie Winterton: Many of the pilots have now made their interim reports public, by either publishing them on the Total Place website or their own websites. The decision on whether to publish the interim reports was entirely a matter for the pilots.

Roads: Snow and Ice

Mr. Bone: To ask the Secretary of State for Communities and Local Government if he will bring forward proposals to include the provision of reserves of salt and grit as part of the audit requirements of local authorities. [318906]

Ms Rosie Winterton: The Department has no plans for such proposals.

Standards Board for England: Procurement

Robert Neill: To ask the Secretary of State for Communities and Local Government what the names and addresses are of each organisation that supplied goods or services to the *(a)* Standards Board for England and *(b)* Homes and Communities Agency in 2008-09. [317573]

John Healey: A list for both bodies has been deposited in the Library of the House.

Written Questions: Government Responses

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) when he plans to answer Question 314663, on households in temporary accommodation, tabled on 27 January 2010; [319588]

(2) when he plans to answer Question 314661, on households classified as intentionally homeless, tabled on 27 January 2010; [319589]

(3) when he plans to answer Question 314660, on emergency accommodation, tabled on 27 January 2010; [319590]

(4) when he plans to answer Question 314658, on emergency accommodation, tabled on 27 January 2010; [319591]

(5) when he plans to answer Question 314657, on services for intentionally homeless households, tabled on 27 January 2010. [319592]

Mr. Ian Austin: I replied to the hon. Member's questions on 24 February 2010, *Official Report*, columns 613-14W

FOREIGN AND COMMONWEALTH OFFICE

British Overseas Territories

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs what the name is of the *(a)* Governor and *(b)* Assistant Governor of each overseas territory. [319171]

Mr. Ivan Lewis: The names of the Governors and Deputy Governor, or equivalents, in each of the UK's Overseas Territories are as follows:

Anguilla

Governor—Mr. Alistair Harrison

Deputy Governor—Mr. Stanley Reid

Bermuda

Governor—Sir Richard Gozney

Deputy Governor—Mr. David Arkley

British Virgin Islands

Governor—Mr. David Pearey

Deputy Governor—Ms Vivian Inez Archibald

Cayman Islands

Governor—Mr. Duncan Taylor

Deputy Governor—Mr. Donovan Ebanks

Falkland Islands

Governor—Mr. Alan Huckle. Mr Huckle is also Commissioner for South Georgia and the South Sandwich Islands.

Deputy Governor—There is no such position. Mr. Paul Martinez is the First Secretary in the Governor's Office and has acted as Governor during periods of substantive absence by the Governor.

Gibraltar

Governor—Sir Adrian Johns

Deputy Governor—Ms Lesley Pallett

Montserrat

Governor—Mr. Peter Waterworth

Deputy Governor—Mrs. Sarita Francis

Pitcairn

Governor—Mr. George Fergusson

Deputy Governor—Ms Ginny Silva

St. Helena, Ascension Island and Tristan da Cunha

Governor—Mr Andrew Gurr

Deputy Governor—There is no such position. The Chief Secretary, Mr. Andrew Wells, has acted as Governor of St. Helena in the Governor's absence.

Ascension Island Administrator—Mr. Ross Denny.

Tristan da Cunha Administrator—Mr. David Morley.

Turks and Caicos Islands

Governor—Mr. Gordon Wetherell

Deputy Governor—Vacant

British Antarctic Territory and British Indian Ocean Territory

The Commissioner for the British Antarctic Territory and British Indian Ocean Territory is Mr. Colin Roberts.

Croatia: EU Accession

Mr. Bain: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to the hon. Member for West Bromwich East of 7 January 2010, *Official Report*, column 565W, on Croatia: EC enlargement, what assessment he has made of the effect of the election of Ivo Josipovic as President of Croatia on that country's progress in its EU accession negotiations, with particular reference to efforts towards reform in the areas of judiciary and fundamental rights. [318609]

Chris Bryant: President Josipovic was elected for a five-year term on 11 January 2010. His election campaign focussed on tackling corruption, support for European norms and the rule of law.

In his inauguration speech as Head of State he set out the following vision:

> "It was with a vision of a European, prosperous Croatia that I embarked on the electoral process. My key motivation was that of justice, the moral and legal foundation of a better society. We have established a state, but justice and fairness are the values yet to be materialized in their full scope."

I am confident that President Josipovic will encourage the Government of Croatia to continue vigorous efforts to meet the criteria for EU accession, particularly in the areas of tackling corruption and strengthening the judiciary and respect for fundamental rights.

Diplomatic Service: Manpower

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of the effects on levels of service of the withdrawal of management officers in the UK missions and their replacement with locally-engaged staff in *(a)* Iran, *(b)* Iraq, *(c)* Nigeria, *(d)* Russia and *(e)* China; and if he will make a statement. [318450]

Chris Bryant: Our missions will continue to provide appropriate levels of service for our staff whether supported by UK or locally-based staff. In Iran, Iraq, Nigeria, Russia and China, there will still be senior UK-based management staff.

The Foreign and Commonwealth Office tries to work very much as a single team, offering full responsibility and accountability to local as well as UK-based staff in accordance with their roles. We are privileged to attract a high calibre of local staff who deliver an excellent level of service including in the area of corporate services work.

Dubai: Interpol

Mr. Galloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterpart in Dubai on Interpol's request concerning named suspects in a murder investigation believed to be using details from British passports; and if he will make a statement. [318684]

Chris Bryant *[holding answer 25 February 2010]:* I refer the hon. Member to my hon. Friend the Minister for Europe's answer to the right hon. Member for Richmond, Yorks (Mr. Hague) of 22 February 2010, *Official Report*, columns 22-23, namely that on 21 February 2010 my right hon. Friend the Foreign Secretary spoke to Abdullah bin Zayed, the Emirati Foreign Minister.

Embassies: Closures

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to close any overseas posts during 2010-11. [318034]

Chris Bryant *[holding answer 22 February 2010]:* The Government are committed to a world-class and comprehensive diplomatic service that is a credit to the UK and reflects demands for our services and the Government's priorities. I am confident that we will continue to be able both to fulfil our historic responsibilities and to pursue our modern priorities.

Falun Gong

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of the Falun Gong movement in the UK. [318462]

Chris Bryant: UK representatives of the Falun Gong movement were invited to meetings with non-governmental organisations, held by my predecessor the hon. Member for Harlow (Bill Rammell), as part of a wider discussion on Human Rights in China.

Foreign and Commonwealth Office officials regularly meet with the UK representatives of the Falun Gong movement. Also at the end of last year they met with international Falun Gong researchers.

We have serious concerns about the mistreatment of Falun Gong adherents and regularly raise this issue with the Chinese Government. We did so most recently at the UK/China Human Rights Dialogue, which was held in London in January 2009. We asked how many re-education through labour detainees there were and what proportion were Falun Gong. The Chinese responded saying that reforms of the system of re-education through labour were taking place. We will raise this issue again at the next available opportunity.

War Crimes: Arrest Warrants

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to submit his response to the request from the UN Secretary-General under paragraph 1 of UN General Assembly Resolution 64/117 for information and observations on the scope and application of the principle of universal urisdiction, including information on judicial practice; whether that response will include details of the arrest warrant procedure in the UK; and if he will publish the response. [317364]

Chris Bryant: The UK intends to respond to the UN Secretary-General's request before his deadline of 30 April. The content of our reply, including the question of whether or not to include details of the arrest warrant procedure, is currently under consideration. The Government will lay a copy of the response in the Library of the House at the earliest opportunity.

JUSTICE

Arrest Warrants

Mr. Davey: To ask the Secretary of State for Justice on how many occasions statute law provisions relating to domestic arrest warrants have been amended in the last 30 years; and if he will make a statement. [317729]

Claire Ward: The statutory provision governing the issue of domestic arrest warrants is section 1 of the Magistrates' Courts Act 1980, which in the 30 years since it was passed has been amended by three enactments—the Criminal Justice Act 1991, the Courts Act 2003 and the Criminal Justice Act 2003.

Crime

Chris Grayling: To ask the Secretary of State for Justice (1) how many people were convicted of racist offences in *(a)* London, *(b)* each police force area and *(c)* England and Wales in each year since 1998; [317609]

(2) how many people have been convicted for causing *(a)* death and *(b)* injury by dangerous driving in England and Wales, in each year since 1998; and how many of these offences involved (i) alcohol and (ii) drug or substance abuse; [317656]

(3) how many people have been convicted for using firearms or imitation firearms with intent to resist arrest in England and Wales in each year since 1998; [317658]

(4) how many people have been convicted for *(a)* kidnapping, *(b)* child abduction and *(c)* false imprisonment in England and Wales in each year since 1998; [317659]

(5) how many people have been convicted for offences related to absconding from legal custody in each year since 1998; [317761]

(6) how many people were convicted of offences related to hijacking commercial lorries and tankers in England and Wales in each of the last 10 years; [317774]

(7) how many people have been convicted for offences of obstructing *(a)* police and *(b)* fire services in England and Wales in each year since 1998. [317775]

Claire Ward: The available information, up to 2008 (latest available), is shown in tables 1 to 6 which have been placed in the Library of the House.

The Court Proceedings Database holds information on defendants proceeded against, found guilty and sentenced for criminal offences in England and Wales. These data include information on the offence and statute for the offence. The Court Proceedings Database does not hold specific information on offences beyond descriptions provided by the statutes under which prosecutions are brought nor the circumstances of each case.

There is no specific statute of 'hijacking commercial lorries and tankers'. Defendants may be proceeded against for offences of theft or conspiracy to steal, etc. Centrally available motoring offences data do not separately identify commercial lorries and tankers from other types of motor vehicle. Data for 2009 are planned for publication in autumn, 2010.

Departmental Disabled Staff

Mr. Harper: To ask the Secretary of State for Justice how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317894]

Mr. Wills: The requirement to make a declaration about disability is voluntary and significant numbers of staff have chosen not to make a disclosure. Overall, within the Ministry of Justice (excluding the National Offender Management Services (NOMS)) 73 per cent. have completed a declaration. Among full-time staff 58 per cent. have completed a declaration form, with 3.9 per cent. recording that they have a disability. Among part-time staff 3.5 per cent. declared a disability.

For NOMS, 55 per cent. of directly employed staff have completed a declaration, with 6 per cent. recording that they have a disability. Among full-time staff 55 per cent. completed a declaration, of whom 6 per cent. declared a disability and among part-time staff 58 per cent. completed a declaration and 6 per cent. of those declared a disability.

2 per cent. of senior civil servants (SCS) employed within the Ministry have declared a disability. As the actual number of SCS staff involved is less than 10, any disclosure of their working patterns and average salaries may lead to individual identification.

For staff employed in grades below the SCS, insufficient numbers of employees have made any declaration of their status in relation to disability to enable the Ministry to determine, with any accuracy, average salary information.

However, during 2008-09 (the latest figures available) the average salary for full-time staff employed in the Ministry of Justice (excluding National Offender Management Services (NOMS)) was £23,986 and the average full-time equivalent (FTE) salary for part-time staff for 2008-09 was £20,717. For staff employed within NOMS, at 31 January 2010 the average full-time salary was £24,876 and the average FTE salary for part-time staff was £23,986.

Both the Ministry of Justice and NOMS encourages staff to declare relevant information to assist with diversity monitoring.

Drug Offences

Chris Grayling: To ask the Secretary of State for Justice how many children were *(a)* arrested, *(b)* prosecuted and *(c)* imprisoned for (i) all drugs offences and (ii) Class A drugs offences in each of the last five years. [317770]

Claire Ward: The arrests collection is held by the Home Office and covers arrests for recorded crime (notifiable offences) only, broken down at a main offence group level, covering categories such as violence against the person and robbery.

Information provided by the Home Office on 10 to 17-year-olds arrested for drug offences covering 2003-04 to 2007-08 (latest available) is provided in Table 1. It is not possible to separately identify arrests for Class A drugs from the information on arrests for drug offences reported to the Home Office.

Data on arrests for 2008-09 are scheduled to be published on 15 April 2010.

The number of persons aged 10 to 17 years proceeded against at magistrates courts for all drugs offences and Class A drugs offences, and those receiving a sentence of immediate custody at all courts, England and Wales, 2004 to 2008 (latest available) is given in Table 2. Court proceedings data are published on a calendar year basis.

Court proceedings data for 2009 are planned for publication in the autumn 2010.

Table 1: Number of persons aged 10 to 17 arrested for drug offences, England and Wales 2003-04 to 2007-08[1]

	Number of arrests for drug offences
2003-04	18,100
2004-05	14,600
2005-06	14,400
2006-07	12,800
2007-08	15,018

[1] Figures for 2006-07 onwards are unrounded, previous years rounded.
Source:
Home Office Statistics.

Table 2: The number of defendants aged 10 to 17 proceeded against at magistrates courts and sentenced to immediate custody at all courts for all drugs offences and Class A drugs offences, England and Wales, 2004-08[1, 2, 3]

	Defendants									
	Proceeded against					*Immediate custody*				
Offence	*2004*	*2005*	*2006*	*2007*	*2008*	*2004*	*2005*	*2006*	*2007*	*2008*
All drugs offences	5,125	5,214	4,977	5,855	6,928	181	200	214	214	284
Of which:										
Class A drugs offences	850	875	897	1,067	1,064	133	160	168	170	225

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Excludes convictions for Cardiff magistrates court for April, July and August 2008.

Justice Statistics Analytical Services—Ministry of Justice.

Drugs: Convictions

Chris Grayling: To ask the Secretary of State for Justice how many people have been convicted of a drug trafficking offence *(a)* as a result of an investigation by the Serious Organised Crime Agency and *(b)* in total in each year since 1998. [314751]

Alan Johnson: I have been asked to reply.

The number of defendants found guilty at all courts in England and Wales for drug trafficking offences, from 1998 to 2008 (latest available) can be viewed in the table. Court proceedings statistical data held by the Ministry of Justice do not include the circumstances of each case and therefore cannot identify any investigating agency.

The Serious Organised Crime Agency was set up to reduce the harm to the UK caused by serious organised crime. Criminal prosecution is only one of a number of tools SOCA uses. With its partners, SOCA undertakes a range of activities against drug trafficking, including work to secure criminal convictions. SOCA is not able to say how many people have been convicted of a specific drug trafficking offence since its inception. However, SOCA records show that the following number of people have been convicted as a result of operations countering drug trafficking.

Convictions for drug trafficking

	UK	*Overseas*
2006-07	215	20
2007-08	199	24
2008-09	197	20

The number of defendants found guilty at all courts in England and Wales for drug trafficking offences1, from 1998 to 20082,[3]

Offence description	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*[4]
Unlawful importation of a drug controlled under misuse of Drugs Act 1971	1,190	1,171	1,165	1,648	1,599	1,063	975	1,026	835	783	745

The number of defendants found guilty at all courts in England and Wales for drug trafficking offences[1], from 1998 to 2008[2,3]

Offence description	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*[4]

Having a controlled drug in possession on a ship; Being knowingly concerned in the carrying or concealing of a controlled drug on a ship.	16	1	1	6	1	1	1	1	1	1	—
Concealing or transferring the proceeds of drug trafficking; Assisting another person to retain the benefit of drug trafficking; Acquisition, possession or use of proceeds of drug trafficking	16	30	26	42	38	49	27	20	6	7	6
Total	12,428	11,490	10,355	10,297	10,525	11,083	10,925	11,246	10,918	11,953	13,792

[1] Includes offences under statutes: Customs and Excise Management Act 1979; Misuse of Drugs Act 1971; Misuse of Drugs Act 1971 as amended by Criminal Justice and Public Order Act 1994; Criminal Justice (International Co-operation) Act 1990; Proceeds of Crime Act 2002.

[2] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Excludes Convictions for Cardiff magistrates' court for April, July and August 2008

Source:
Justice Statistics Analytical Services - Ministry of Justice

John Penrose: To ask the Secretary of State for Justice pursuant to the answer of 24 November 2009, *Official Report*, column 84W, on drugs: crime, how many people were convicted of offences of drug *(a)* possession and *(b)* dealing in Avon and Somerset police force area in 2008. [318390]

Claire Ward: Pursuant to the answer of 24 November 2009, the number of persons found guilty at all courts for drug possession and dealing in the Avon and Somerset police force area in 2008 (latest available) can be viewed in the following table:

Number of persons found guilty at all courts for the possession and dealing of drugs, Avon and Somerset police force area 2008[1,2,3]

Offence	*2008*
Having possession of a controlled drug	707
Having possession of a controlled drug with intent to supply	154
Supplying or offering to supply a controlled drug	64

Notes:

1. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
3. Excludes convictions data for Cardiff magistrates court for April, July, and August 2008.

2003	1,541	4,563	33.8
2004	1,405	4,258	33.0
2005	1,230	3,942	31.2
2006	1,159	3,939	29.4
2007	1,335	4,628	28.8
2008	1,478	4,870	30.3

Notes:

1. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.
2. These figures have been drawn from administrative data systems.
3. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Drugs: Rehabilitation

Chris Grayling: To ask the Secretary of State for Justice pursuant to the answer of 4 February 2010, *Official Report*, column 493W, on drugs: rehabilitation, what proportion of offenders issued with a drug rehabilitation requirement or drug treatment and testing order completed a drug treatment programme in each of the last five years. [317834]

Claire Ward: The drug treatment and testing order (DTTO) and drug rehabilitation requirement (DRR) completion rate for each of the last five years is shown in the following table.

The proportion of offenders successfully completing DTTOs and DRRs has risen significantly from 28 per cent. in 2003 to 47 per cent. in 2008-09. This is encouraging because we know from research that offenders who complete orders have significantly lower reconviction rates (53 per cent.) than those that do not (91 per cent.)[1], although it is not possible to attribute this difference entirely to the programme.

These figures have been drawn from administrative data systems which may be amended at any time. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Drug treatment and testing order (DTTO)/drug rehabilitation requirement (DRR) completion rate

	Percentage
2004-05	36
2005-06	40
2006-07	44
2007-08	43
2008-09	47

[1] Hough, M., Clancy, A., McSweeney, T. and Turnbull, P.J. (2003) 'The Impact of Drug Treatment and Testing Orders on offending: two year reconviction results'. Home Office Research Findings No. 184. London: Home Office.

Family Conciliation Services

Margaret Moran: To ask the Secretary of State for Justice what the *(a)* highest, *(b)* lowest and *(c)* average cost was to the public purse of a child contact case heard in the last five years. [318042]

Bridget Prentice: The Ministry of Justice incurs costs in cases involving child contact issues in respect of legal aid and the administration of the courts.

Table 1 shows the highest, lowest and average legal aid cost in cases involving child contact for each of the last five years. These cases may include other issues, such as residence, as well as contact. The figures show the gross legal costs paid, and do not deduct any amounts recovered through contributions by the assisted party or otherwise.

The figures in table 2 show the average court cost for private law Children Act cases heard in the family proceedings courts and county courts for the four years since 2005-06. The costs shown are gross and do not deduct income from court fees.

It is not possible to disaggregate court costs in a way that would allow them to be attributed to individual cases. Therefore, figures for the highest and lowest case cost cannot be provided.

Table 1

£

	Highest cost	*Lowest cost*	*Average cost*
2004-05	122,360	10	2,532
2005-06	184,735	10	2,769
2006-07	140,985	14	3,229
2007-08	188,236	11	3,437
2008-09	232,508	10	3,176

Table 2

[2] Contact and residence only.

Firearms: Convictions

Chris Grayling: To ask the Secretary of State for Justice pursuant to the answer of 4 February 2010, *Official Report*, column 498W, on firearms convictions, how many *(a)* males and *(b)* females aged (i) 10 and under, (ii) between 10 and 16, (iii) between 17 and 18 and (iv) over 18 years were convicted of possessing or distributing prohibited weapons or ammunition in each year since 1998. [317919]

Claire Ward: Pursuant to the answer of 4 February 2010, *Official Report*, column 498W, the number of persons found guilty at all courts for selected firearms related offences, by age group from 1998 to 2008 (latest available) can be viewed in the following table.

The age of criminal responsibility in England and Wales is 10 years of age.

Court proceedings data for 2009 are planned for publication in the autumn, 2010.

Table 1: The number of persons found guilty at all courts for selected firearms related offences, by age group, England and Wales, from 1998 to 2008[1, 2] *Possessing or distributing prohibited weapons or ammunition—Firearms Act 1968*

	1998	*1999*	*2000*[3]	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*[4]
Males											
Age 10-16	19	21	22	29	41	32	27	14	6	9	9
Age 17-18	71	49	53	75	62	54	69	42	27	20	44
Age 19 and over	862	668	606	599	638	730	586	286	229	219	296
All Ages	952	738	681	703	741	816	682	342	262	248	349
Females											
Age 10-16	3	1	1	—	—	5	2	1	—	1	1
Age 17-18	6	3	—	—	7	4	3	—	—	1	1
Age 19 and over	83	70	51	54	47	74	42	10	13	14	10

Persons											
Age 10-16	22	22	23	29	41	37	29	15	6	10	10
Age 17-18	77	52	53	75	69	58	72	42	27	21	45
Age 19 and over	945	738	657	653	685	804	628	296	242	233	306
All Ages	1,044	812	733	757	795	899	729	353	275	264	361

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete.

However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Staffordshire Police Force were only able to submit sample data for persons proceeded against and convicted in the magistrates' courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

[4] Excludes convictions data for Cardiff magistrates' court for April, July, and August 2008.

Justice Statistics Analytical Services in the Ministry of Justice

Hackney

Ms Abbott: To ask the Secretary of State for Justice if he will set out, with statistical evidence relating as closely as possible to Hackney North and Stoke Newington constituency, the effects on that constituency of his Department's policies since 1997. [318374]

Mr. Wills: The Ministry of Justice's work spans criminal, civil and family justice, democracy, rights and the constitution. Every year around nine million people use our services in 900 locations across the United Kingdom, including 650 courts and tribunals and 139 prisons in England and Wales.

The range of the Department's policies and actions is wide and the statistical information relating to it is not normally collected on a constituency basis. Consequently, some of the information requested in the question cannot be provided in the form requested except at a disproportionate cost.

Although data on sentencing for the period are not available for the constituency of Hackney, North and Stoke Newington, they are available for London. This shows the total number of offenders sentenced annually was 202,478 in 1997 and 242,429 in 2008, the latest period for which such information is available.

The number of offences brought to justice for London increased from 119,531 for the 12 months ending 31 March 2001 (the earliest period since which such data have been compiled) to 230,202 (provisional figures) for the 12 months ending 31 March 2009.

With regard to prosecutions, data are not available for the constituency of Hackney, North and Stoke Newington. However, the total number of defendants proceeded against at magistrates courts by the Metropolitan police was 260,328 in 1997 compared to 279,581 in 2008.

The latest data, which cover reoffending in the period 1 October 2008 to 30 September 2009, showed that the three month reoffending rate for offenders on the probation caseload in Hackney was 8.04 per cent. After controlling for changes in the characteristics of offenders on the probation caseload, there was a reduction in reoffending of 8.49 per cent. compared to the 2007-08 baseline. Data are not available prior to 2007 on this basis.

The number of persons commencing court order supervision by the probation service in London was 17,214 in 1997 and 23,787 in 2008.

158,440 civil non-family proceedings were started in the county courts of London Civil and Family HM Courts Service (HMCS) area in 2008, compared to 263,305 in 1998, the first year for which these figures are available. In respect of family law, there were also 15,512 private law applications and 870 public law applications made in the county or High Courts of this HMCS area in 2008-09, compared to 11,684 and 1,095 respectively in 2003-04, the first annual period for which these figures are available.

In addition, at a national level:

Local communities are being better engaged in criminal justice—by giving them a say in the types of Community Payback projects offenders carry out and allowing them to see justice being done, for example through the use of high visibility jackets. Offenders have now worked more than 14 million hours, with an estimated value to the taxpayer of over £80 million.

Major constitutional reforms have been delivered, including devolution, the Human Rights Act, Freedom of Information, Lords Reform, and a new Supreme Court for the UK.

Knives: Sentencing

Chris Grayling: To ask the Secretary of State for Justice pursuant to the answer of 5 February 2010, *Official Report*, column 548W, on knife sentencing, what the *(a)* lowest, *(b)* highest and *(c)* average fine was for the selling of knives to a minor in each year since 1998. [317838]

Claire Ward: The requested information is provided in the following table.

Average, highest and lowest fines given for selling a knife or other bladed article to a person under age[1], 1998 to 2008

	1998	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Highest fine (£)	2,000	100	[2]—	3,250	4,000	4,000	3,000	2,500	4,500	2,000	3,500
Average fine (£)	[3]—	[3]—	[2]—	1,400	1,518	1,123	1,200	726	813	540	1,035
Lowest fine (£)	700	100	[2]—	100	75	70	200	100	75	100	90
Total fined	2	1	0	8	10	14	6	25	43	29	22

[1] 16 as enacted by the Criminal Justice Act 1988 amended to 18 by Violent Crime Reduction Act 2006.

[2] Not applicable (zero fines)

[3] Figure suppressed as number too small to give meaningful average.

Note:

These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.

Legal Aid: Sexual Offences

Mr. Drew: To ask the Secretary of State for Justice if he will instruct legal aid providers to withdraw support from an individual in circumstances in which that individual presents a continuing threat to others, with particular reference to offences of paedophilia and rape. [317527]

Bridget Prentice: Any individual charged with a criminal offence has the right to a fair trial, and is also entitled to legal aid if the interests of justice so require and if the relevant financial eligibility criteria are met.

The criteria governing eligibility for criminal legal aid take no account of whether or not the applicant has previously been convicted of a criminal offence. Nor do they allow for the withdrawal of legal aid if details of criminal offences committed by the applicant subsequently come to light.

The same principle applies to the civil legal aid, although exceptionally the applicant's past conduct may be taken into account if it has a direct relevance to the funding being sought.

Offenders

Chris Grayling: To ask the Secretary of State for Justice pursuant to the answer of 4 February 2010, *Official Report*, column 501W, on offenders, how many *(a)* adult and *(b)* juvenile offenders there were in each category. [317833]

Claire Ward: Figures for number of *(a)* adult and *(b)* juvenile offenders sentenced for indictable offences in England and Wales between 2000 and 2008 with no previous convictions or cautions are presented in the following table.

Offenders sentenced for indictable offences with no previous convictions or cautions by age group[1], 2000-08, England and Wales

	Adult			Juvenile		
	All sentenced offenders[2]	*First time offenders*[3]	*Percentage of first time offenders*	*All sentenced offenders*[2]	*First time offenders*[3]	*Percentage of first time offenders*
2000	269,637	32,950	12.2	52,269	6,659	12.7
2001	267,979	31,929	11.9	52,844	6,504	12.3
2002	283,444	31,240	11.0	52,538	6,395	12.2
2003	288,261	30,882	10.7	49,998	5,885	11.8
2004	271,717	30,846	11.4	51,138	6,162	12.0
2005	255,460	29,531	11.6	52,775	6,142	11.6
2006	250,384	28,436	11.4	52,942	5,764	10.9
2007	258,424	28,309	11.0	55,307	5,637	10.2
2008	274,657	28,687	10.4	50,835	5,148	10.1

[1] Excluding offenders whose age at sentence was not recorded on the PNC.
[2] Counts of person sentenced during the year. An offender may be counted more than once if he or she has been sentenced more than once during the year.
[3] Offenders who have never been cautioned or convicted previously.

These figures are taken from Table 6.4 of 'Sentencing Statistics 2008' which was published on 28 January 2010 and can be found at:

http://www.justice.gov.uk/publications/sentencingannual.htm

The figures have been drawn from the police's administrative IT system, the police national computer, which, as with any large scale recording system, is subject to possible errors with data entry and processing. The figures are provisional and subject to change as more information is recorded by the police.

Political Parties: Finance

Mr. Maude: To ask the Secretary of State for Justice what discussions he has had with Sir Hayden Phillips on the online publication of the background papers to his consideration of the funding of political parties. [318346]

Mr. Wills: On 21 October 2009, Sir Hayden Phillips wrote to the representatives of each of the political parties participating in the inter-party talks asking whether they would consent to the release and publication of the background papers and minutes from the inter-party talks on the funding of political parties. My right hon. Friend the Secretary of State for Justice and Lord Chancellor (Mr. Straw) has since responded to Sir Hayden in his capacity as Labour Party participant. Ministry of Justice officials have responded separately to Sir Hayden in respect of the background papers prepared by the Department. I understand that Sir Hayden is currently considering the parties' responses.

Mr. Maude: To ask the Secretary of State for Justice if he will publish the minutes of the final meeting of Sir Hayden Phillips' review of the funding of political parties. [318347]

Mr. Wills: I refer the right hon. Member to the answer given by my right hon. Friend the Secretary of State for Justice and Lord Chancellor (Mr. Straw) to the hon. Member for Chichester (Mr. Tyrie) on 16 October 2009, *Official Report*, column 1194W.

Prisons: Drugs

Philip Davies: To ask the Secretary of State for Justice what progress has been made on the development of a National Intelligence Model to enable the National Offender Management Service to disrupt the supply of illicit drugs into prisons. [316189]

Maria Eagle: The National Offender Management Service is preparing revised guidance on the management and use of intelligence in prisons. While not meeting the specific technical criteria of a National Intelligence Model, it describes key strategic tools and processes for the effective gathering, analysis and action from intelligence. On the specific issue of addressing illicit drug supply, a range of measures in combination disrupt the supply of drugs into prisons. The level of drug misuse in prisons as measured by mandatory drug testing has declined by 68 per cent. since 1996-97.

Chris Grayling: To ask the Secretary of State for Justice how many people in each of the 10 *(a)* most and *(b)* least deprived local authority areas have (i) undertaken drug treatment programmes and (ii) been convicted of (A) alcohol-related offences and (B) violent crimes in each of the last five years. [317769]

Claire Ward: The available information from the Department of Health is shown in the following tables, showing the number of adults in drug treatment by year in the top 10 most and least deprived partnerships:

Number of adults in treatment by year in top 10 most deprived partnerships, 2005-06 to 2008-09[1]

Partnership name	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Birmingham	5,330	5,832	6,439	6,894
Hackney	1,050	1,498	1,643	1,704
Islington	1,610	1,754	1,538	1,739
Kingston upon Hull	2,098	2,214	2,026	2,249
Knowsley	885	1,111	1,153	1,109
Liverpool	3,951	4,046	4,213	4,510
Manchester	3,233	3,476	3,538	3,671
Middlesbrough	1,250	1,352	1,477	1,812
Newham	1,014	1,276	1,346	1,307
Tower Hamlets	1,225	1,448	1,644	1,709

Number of adults in treatment by year in top 10 least deprived partnerships, 2005-06 to 2008-09[1]

Partnership name	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Bracknell Forest	123	151	190	236
Buckinghamshire	862	790	872	947

Number of adults in treatment by year in top 10 least deprived partnerships, 2005-06 to 2008-09[1]

Partnership name	2005-06	2006-07	2007-08	2008-09
Richmond upon Thames	628	665	698	598
Rutland	21	26	21	22
South Gloucestershire	475	534	625	786
Surrey	2,072	2,041	1,924	1,955
West Berkshire	211	250	265	282
Wiltshire	730	709	707	741
Windsor and Maidenhead	244	287	297	317
Wokingham	156	187	189	202

[1] The partnerships were taken from CLG data, Indices of Deprivation 2007. The statistics were provided by the National Treatment Agency for Substance Misuse (NTA).

The Ministry of Justice does not hold data on convictions by local authority area.

In addition, to show the volume of persons who have been convicted of such offences and undertaken drug treatment could be obtained only at disproportionate cost.

Further information on deprivation and crime is available from the Office of National Statistics' Neighbourhood Statistics website:

http://www.neighbourhood.statistics.gov.uk/dissemination/

Young Offender Institutions

Chris Grayling: To ask the Secretary of State for Justice what the *(a)* capacity and *(b)* population was of each young offender institution in each of the last five years. [317545]

Claire Ward: The following tables give the population and capacity of each Young Offender Institution in England and Wales.

Young Offender Prison Establishments in England and Wales 2005-09

	As at June 2005		As at June 2006		As at June 2007	
Establishment	Population	Capacity	Population	Capacity	Population	Capacity
Ashfield	310	360	357	380	385	400

Note:
Only those establishments with a predominant function of YOI are shown.

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Young Offenders

John McDonnell: To ask the Secretary of State for Justice how many *(a)* 10 to 14-year-olds, *(b)* 14 to 17-year-olds and *(c)* 18 to 21-year-olds were sentenced to a period of custody in (i) 1997 and (ii) 2007. [318445]

Claire Ward: The requested information is shown in the following table:

Number of juveniles and young offenders sentenced to immediate custody by age group and year, 1997, 2007—England and Wales

				Number of offenders
	Total sentenced		*Immediate custody*	
Age group	*1997*	*2007*	*1997*	*2007*
10-14	11,629	19,368	130	513
15-17	67,463	78,019	6,953	5,317
18-21	202,583	186,349	20,836	18,771

Notes:
1. The 18-21 age band differs from the standard age definition of young adults (aged 18-20). Offenders aged 21 will be eligible for a slightly different range of custodial and community sentences than offenders aged 18 to 20.
2. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.
3. These data have been taken from the Ministry of Justice Court Proceedings database. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.
Source:
Justice Statistics Analytical Services, Ministry of Justice Ref: PQ(JSAS)318445 (26/02/2010).

John McDonnell: To ask the Secretary of State for Justice how many *(a)* 10 to 14 year-olds, *(b)* 14 to 17 year-olds and *(c)* 18 to 21 year-olds did not comply with a community order in (i) 1997 and (ii) 2007. [318446]

Claire Ward: In answer to part *(c)*, of those community orders which terminated in 2007 for those aged 18 to 21, 13 per cent. (3,865) were terminated because of further offences being committed and 26 per cent. (7,505) were terminated because the offender failed to comply with the order.

Data are only available from April 2005 as the community order was introduced under the Criminal Justice Act 2003 on 4 April 2005.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

For parts *(a)* and *(b)*, the data held by the Youth Justice Board do not allow them to ascertain how many young people failed to comply with a community order, as they are compiled by offence, not by young person, and exclude the majority of cases of non-compliance, where a young person was warned but the matter was not brought to court.

John McDonnell: To ask the Secretary of State for Justice (1) how many *(a)* 10 to 14 year-olds, *(b)* 14 to 17 year-olds and *(c)* 18 to 21 year-olds were charged with a criminal offence in (i) 1997 and (ii) 2007; [318447]

(2) how many *(a)* 10 to 14 year-olds, *(b)* 14 to 17 year-olds and *(c)* 18 to 21 year-olds were convicted of a criminal offence in (i) 1997 and (ii) 2007. [318448]

Claire Ward: The number of persons proceeded against at magistrates courts and found guilty at all courts, by age group, England and Wales 1997, 2007 and 2008 (latest available) can be viewed in the following table.

The Ministry of Justice do not collect charging data; proceeded against information has been provided in lieu.

Number of persons proceeded against at magistrates courts and found guilty at all courts for all offences, by age group England and Wales 1997, 2007 and 2008[1,2,3]

	Proceeded against			*Found guilty*		
Age group	*1997*	*2007*	*2008*	*1997*	*2007*	*2008*
10-14	19,120	24,975	21,703	11,627	19,373	17,382
15-17	103,475	101,559	89,260	67,524	78,068	71,009
18-21	280,227	228,561	222,501	202,929	186,734	185,780
22 and over	1,436,563	1,366,400	1,295,649	1,092,435	1,123,790	1,080,975
All ages	1,839,385	1,721,495	1,629,113	1,374,515	1,407,965	1,355,146

[1] The figures given in the table on court proceedings relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Excludes convictions data for Cardiff magistrates court for April, July, and August 2008.

Justice Statistics Analytical Services in the Ministry of Justice

John McDonnell: To ask the Secretary of State for Justice what estimate he has made of the cost to criminal justice services of dealing with young offenders in 2008-09. [318493]

Maria Eagle: We do not have an estimate of the overall cost to criminal justice services of dealing with young offenders and this would be available only at disproportionate cost. However, the Youth Justice Board Annual Accounts show that 2008-09 they received funding of £495.287 million, which funds all of its functions including funding for local authorities' youth offending teams and operation of the secure estate. The YJB's forthcoming publication "Youth Justice Annual Workload Data 2008-09" reports that local authorities and their partners, such as social services, police and probation, contributed a further £222.8 million to the operation of youth offending teams in England and Wales in 2008-09.

John McDonnell: To ask the Secretary of State for Justice what the change in the number of 10 to 14-year-olds *(a)* convicted of and *(b)* receiving a custodial sentence for burglary was between 1996 and 2009. [318494]

Claire Ward: The available information is shown in the following table. 2009 data are not yet available and will be published in the Ministry of Justice Statistics Bulletin "Sentencing statistics, England and Wales 2009", due for publication autumn 2010.

Number of 10 to 14-year-olds sentenced for burglary and sentenced to immediate custody for burglary by year, 1996-2008, England and Wales

		Number of offenders
	Total sentenced for burglary	*Immediate custody for burglary*
1996	1,589	21
1997	1,595	38
1998	1,834	62
1999	1,780	89
2000	1,598	147
2001	1,553	167
2002	1,708	159
2003	1,451	134
2004	1,583	132
2005	1,583	109
2006	1,482	133
2007	1,417	97
2008	1,249	87

Young Offenders: Sentencing

Paul Holmes: To ask the Secretary of State for Justice how many sentences for each type of offence were handed down to young offenders aged between *(a)* 10 and 17 and *(b)* 18 and 20 years in 2008. [317650]

Claire Ward: The requested information is provided in the following table:

Total sentences handed down to young offenders, for each type of offence, 2008

	Ages	
	10 to 17	*18 to 20*
Violence against the person	7,390	7,280
Sexual offences	513	373
Burglary	5,419	3964
Robbery	3,621	1,751
Theft and handling stolen goods	15,953	12,312
Fraud and forgery	520	1,407
Criminal damage	2,616	1,670
Drug offences	6,373	7,510
Other indictable offences	3,532	5,782
Indictable motoring offences	327	834
Summary offences (excluding motoring)	34,380	54,501
Summary motoring offences	7,731	40,191
Total sentenced	88,375	137,575

Notes:

Youth Justice Board

John McDonnell: To ask the Secretary of State for Justice what the real terms change in spending on *(a)* the Youth Justice Board for England and Wales and *(b)* local youth offending teams was between 2000 and 2007. [318440]

Maria Eagle: For the financial year 2006-07 funding to the Youth Justice Board (YJB) from the Home Office and DFES/DCSF has increased in real terms by £199,954,000 to £457,413,000 from its funding of £234,305,000 in 2000-01.

YJB funding to Youth Offending teams increased in real terms by £86,868,000 to £118,482,000 from its funding of £28,600,000 over the same period. YOTs also receive funding from other Government sources at local level (including police, probation, social services and via local authorities).

John McDonnell: To ask the Secretary of State for Justice what the average cost was of a Young Offender Place purchased by the Youth Justice Board in 2008-09. [318443]

Maria Eagle: For the financial year 2008-09, the average cost of place in a young offender institution for 15 to 17-year-olds was £58,000. This figure has been provided by the Youth Justice Board.

John McDonnell: To ask the Secretary of State for Justice what the average cost was of a secure training centre place purchased by the Youth Justice Board in 2008-09. [318444]

Maria Eagle: For the financial year 2008-09, the average cost of place in a secure training centre was £153,000. This figure has been provided by the Youth Justice Board.

John McDonnell: To ask the Secretary of State for Justice what the average cost was of a place in a secure children's home purchased by the Youth Justice Board in 2008-09. [318492]

Maria Eagle: For the financial year 2008-09, the average cost of custodial place in a secure children's home was £210,000. This figure has been provided by the Youth Justice Board.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare: Circuses

Mr. Frank Field: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to prevent the use of wild animals in circuses. [319176]

Jim Fitzpatrick: After careful consideration of recent studies and the representations we have received on the issue of wild animal acts in travelling circuses, on 21 December 2009 DEFRA launched a public consultation on how best to safeguard the welfare of these animals.

We are consulting on three options:

A complete ban on the use of wild animals in travelling circuses.

Voluntary self-regulation of the use of wild animals in travelling circuses.

Compulsory statutory regulation of the use of wild animals in travelling circuses.

The consultation will run until 15 March. Further information is available on the DEFRA website.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when the Minister of State plans to respond to the email from the hon. Member for West Worcestershire of 15 December 2009 on the welfare of racing greyhounds. [319250]

Jim Fitzpatrick: I wrote to the hon. Member on 8 January 2010. I regret that my letter was not received. A copy was sent to the hon. Member on 24 February 2010.

CABINET OFFICE

Pre-Budget Report 2009

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the transcript of oral evidence from the Public Administration Select Committee on Government Communications, 14 January 2010, HC 219-i, question 42 on the pre-Budget report, if she will place in the Library a copy of the evidential basis for determining the marketing and communication budget; what the financial value in absolute terms is of the proposed reduction; and over what time period such a reduction is proposed to take place. [318331]

Mr. Byrne: I have been asked to reply.

The 2009 pre-Budget report announced that Government would save £650 million from cuts of 50 per cent. in consultancy spend and 25 per cent. in marketing and communications (based on 2009-10 spending levels) spend across Government by 2012-13.

HOUSE OF COMMONS COMMISSION

Audio Recordings

* **Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission with reference to the answer of 9 March 2009, *Official Report*, column 26W, what progress the House of Commons Commission has made on placing on the Parliamentary *(a)* intranet and *(b)* internet site a sound recording of the debate held on the Motion on Her Majesty's Government on 28 March 1979; and if he will make a statement. [318694]

Nick Harvey: The answer given in March 2009 stated that a history area of the website was planned and that this is the sort of material which would be considered for inclusion. The history section of the website

http://www.parliament.uk/about/livingheritage.cfm

was launched in July 2009 with an initial selection of content. Consideration will be given to including this particular item, as well as other material, within the history section of the website in March 2010. New content may be publicised on the parliamentary intranet with a link to the Parliament website page.

ENERGY AND CLIMATE CHANGE

Wind Power: Housing

Mr. Gordon Prentice: To ask the Secretary of State for Energy and Climate Change how many wind turbines in England are situated within two kilometres of a dwelling house. [319074]

Mr. Kidney: The information is not held centrally.

TREASURY

Castle Point

Bob Spink: To ask the Chancellor of the Exchequer if he will set out, with statistical evidence relating as closely as possible to Castle Point constituency, the effects on that constituency of changes to his Department's policies since 1997. [318100]

Sarah McCarthy-Fry: The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at:

http://neighbourhood.statistics.gov.uk/

The Government have put in place a broad programme of reform since 1997. Over the decade to 2007, the economic performance of all parts of the UK has improved considerably.

The global recession has had a negative impact on economic activity in all parts of the UK. However, the economy was starting from a position of strength and is actively supported by policies implemented by the Government, including the fiscal stimulus and a significant package of support for those out of work. In Castle

Point, people are benefiting from this investment. Over the second half of 2009, more than 450 people moved off of the claimant count each month on average. The claimant count fell for two consecutive months in October and November and stands below the level reached in September. Long-term unemployment is still nearly 80 per cent. lower than in 2000 at the start of 2010.

Departmental Recruitment

Mr. Hurd: To ask the Chancellor of the Exchequer how much *(a)* his Department, *(b)* HM Revenue and Customs, *(c)* the Valuation Office Agency and *(d)* his Department's other agencies spent on external recruitment consultants in the last 12 months. [315291]

Sarah McCarthy-Fry: The accounting systems of HM Treasury, HM Revenue and Customs, the Valuation Office Agency and the Debt Management Office do not separately identify spending on recruitment consultants from within general spending on recruitment and the information could not be supplied within the disproportionate costs threshold.

Equitable Life Ex-gratia Payment Scheme Review

Annette Brooke: To ask the Chancellor of the Exchequer pursuant to the answer of 2 February 2010, *Official Report*, column 212W, on Equitable Life, in which month he expects to receive Sir John Chadwick's final report; and in which month he expects to announce details of the payment scheme. [318784]

Mr. Byrne *[holding answer 25 February 2010]:* The Government expect Sir John Chadwick to submit his final report in May 2010. The Government shall respond to this report as soon as possible thereafter.

Members: Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he plans to respond to the email from the hon. Member for West Worcestershire of 27 November 2009 on beer duty. [319246]

Sarah McCarthy-Fry: A response was sent to the hon. Member on 16 December.

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he plans to respond to the email from the hon. Member for West Worcestershire of 17 December 2009 on a high pay commission. [319247]

Mr. Byrne: I have replied to the hon. Member.

Non-Domestic Rates

Robert Neill: To ask the Chancellor of the Exchequer what the average Rateable Value on the 2010 Rating List is of hereditaments in each such location area. [317864]

Ian Pearson: The information requested could be provided only at disproportionate cost.

Public Expenditure

Mr. Maude: To ask the Chancellor of the Exchequer with reference to Putting the Frontline First: smarter government, CM 7753, over which financial years changes to the level of funding of *(a)* arms length bodies, *(b)* Government advertising and marketing and *(c)* management consultants will be made; and how much will be saved in each such year. [318351]

Mr. Byrne: The pre-Budget report 2009 announced that Government would save at least £500 million by 2012-13 by reducing duplication between organisations and streamlining arm's length bodies.

The pre-Budget report 2009 also announced Government would save £650 million from cuts of 50 per cent. in consultancy spend and 25 per cent. in marketing and communications spend across Government by 2012-13. The 25 per cent. cut in marketing and communications spend will be based on 2009-10 spending levels and the 50 per cent. cut in consultancy spend will be based on 2008-09 levels.

For all savings, Government will work with Departments to help them deliver cuts although it will for individual departments and arm's length bodies to decide their priorities for future spending.

Valuation Office: Local Government

Robert Neill: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Peterborough of 20 January 2010, *Official Report*, column 393W, on the Valuation Office: local government, who is undertaking the work referred to; and when that work is expected to be completed. [318077]

Ian Pearson: The Valuation Office Agency had discussions with HM Revenue and Customs (HMRC) and has submitted a request that a legislative gateway be created. It is not possible to predict when this work will be completed because this will require primary legislation to be placed before Parliament.

WALES

Port Businesses in Wales

Mrs. Gillan: To ask the Secretary of State for Wales what estimate he has made of the number of jobs in port businesses in Wales in each year since 1997. [318908]

Mr. Hain: These figures are not collated on a regular basis or specifically for Wales.

In November 2005 the Department for Transport published a report entitled "Port Employment and Accident Rates" which stated that 74,000 people in the UK are working directly on port related activities either on or off the port estate.

Sheep Meat Smokies

Mrs. Gillan: To ask the Secretary of State for Wales what discussions he has had with ministerial colleagues on the legalisation of the practice of preparing sheep meat smokies in the last 12 months. [318909]

Mr. Hain: None. However, the hon. Member will recall that my predecessor, my right hon. Friend the Member for Torfaen (Mr. Murphy), met the hon. Member and a representative of the Farmers Union Wales on 22 April 2008 and subsequently made representations to DEFRA Ministers.

I am informed that the Food Standards Agency (FSA) and representatives of the UK meat industry have indicated that it is possible to produce such meat safely and hygienically in approved slaughterhouses.

The FSA is in discussion with the European Union to allow production of smoked skin-on sheep meat, commonly known as "smokies" for human consumption.

In the meantime, the production of smoked skin-on sheep meat for human consumption remains illegal. The FSA will continue to work closely with local authorities to take action against those breaching the relevant food hygiene and animal welfare regulations.

BUSINESS, INNOVATION AND SKILLS

Members: Correspondence

Sir Michael Spicer: To ask the Minister of State, Department for Business, Innovation and Skills when he expects to reply to the letter from the hon. Member for West Worcestershire dated 28 October 2009, transferred from the Department for Work and Pensions, reference: POS(2)10520/0243. [309022]

Jim Knight: I have been asked to reply.

A reply was sent to the hon. Member on 5 January 2010 and I apologise for the long delay in doing so.

HEALTH

Accident and Emergency Departments

Jeremy Corbyn: To ask the Secretary of State for Health what recent discussions he has had with officials of North Central London Health Authorities on the provision of accident and emergency departments; and what consultation there has been on the future provision of emergency and intensive care facilities. [318020]

Mr. Mike O'Brien: There have been no specific discussions between the Secretary of State for Health and officials of North Central London Health Authorities on this specific subject.

However, I met with representatives from NHS London, and the chief executives of the Whittington Hospital NHS Trust and Islington PCT on 2 December 2009 in advance of the Adjournment debate entitled 'The future of Whittington Hospital'. NHS staff brief Ministers on their local reconfiguration plans in order to support parliamentary business and do so as necessary.

Arthritis: Drugs

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 2 February 2010, *Official Report*, column 220W, on arthritis: drugs, what discussions on RoActemra his Department has had with the Prime Minister since the Prime Minister's press conference of 25 January 2010; and if he will make a statement. [318324]

Mr. Mike O'Brien: The Prime Minister made publicly clear on the 2 February 2010 that he will take an interest in RoActemra and I will be writing to him shortly to update him on the situation.

The Department has not needed any discussions with the Prime Minister since that statement because we are aware of it.

Audiology

Norman Lamb: To ask the Secretary of State for Health (1) how many places for the Bachelor of Science degree in audiology have been funded by each strategic health authority in each year since 2007; [318299]

(2) how many places for the Bachelor of Science degree in audiology will be funded by each strategic health authority in *(a)* 2009, *(b)* 2010 and *(c)* 2011. [318300]

Ann Keen: The information available for those strategic health authorities that participated in commissioning is set out in the following table. The information requested for 2010-11 and 2011-12 is not yet available.

Strategic health authority	*2007-08*	*2008-09*	*2009-10*
North West	41	34	41
Yorkshire and Humber	24	25	25
East Midlands	34	32	33
London	20	22	15
South Central	30	40	40
West Midlands	31	25	25
South West	31	30	30
Total	211	208	209

Derriford Hospital

Mr. Swire: To ask the Secretary of State for Health what assessment he has made of the effects on patient care of the transfer of the upper gastro-intestinal cancer unit from the Royal Devon and Exeter hospital to Derriford hospital. [318169]

Mr. Mike O'Brien: A consistent theme in the national Improving Outcomes Guidance (IOG) is that cancer services are best provided by teams of clinicians who work together effectively. Team working brings together staff with the necessary knowledge, skills and experience to ensure high quality diagnosis, treatment and care and improves the co-ordination and continuity of care for patients. How the guidance is implemented locally, however, is a matter for the local national health service.

In line with national Improving Outcomes Guidance, upper gastro-intestinal cancer surgery moved from the Royal Devon and Exeter NHS Foundation Trust, and Royal Cornwall Hospitals NHS Trust, and centralised at Plymouth's Derriford Hospital from 1 January 2010. All pre and post-operative care for patients will continue to be provided locally.

I am informed by the local NHS that expertise from clinical teams around the South West peninsula has been incorporated into a unit capable of delivering the best and most appropriate care to patients with these cancers.

Gloucestershire Hospitals NHS Foundation Trust: Finance

Mr. Laurence Robertson: To ask the Secretary of State for Health what representations he has received from the Gloucestershire Hospitals NHS Foundation Trust on the level of their funding for 2010-11; and if he will make a statement. [319253]

Mr. Mike O'Brien: My right hon. Friend the Secretary of State for Health has received no representations from the Gloucestershire Hospitals NHS Foundation Trust on the level of their funding for 2010-11.

The Department does not make revenue allocations directly to foundation trusts. It is for primary care trusts to use the funding allocated to them to commission services from foundation trusts and other providers to meet the needs of their local populations.

Mr. Laurence Robertson: To ask the Secretary of State for Health how much funding has been provided to the Gloucestershire Hospitals NHS Foundation Trust in each of the last five years; what the planned funding is for the next three years; and if he will make a statement. [319254]

Mr. Mike O'Brien: The information requested is not collected centrally.

The Department does not make revenue allocations directly to foundation trusts. It is for primary care trusts (PCTs) to use the funding allocated to them to commission services from foundation trusts and other providers to meet the needs of their local populations.

PCTs have been informed of their revenue allocations up to 2010-11. The allocations to PCTs in Gloucestershire from 2004-05 are shown in the following table.

Allocations to Gloucestershire PCT and South Gloucestershire PCT 2004-05 to 2010-11

£ million

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*	*2010-11*
Gloucestershire PCT	515.9	561.9	669.7	731.2	771.1	825.9	868.5
South Gloucestershire PCT	188.3	205.9	250.2	275.2	290.2	323.1	339.7

Notes:
1. Allocations are not always comparable between years because of changes to baseline funding.
2. Allocations from 2006-07 include primary medical services funding.

Source:
Financial Planning and Allocations Division, Department of Health

PCTs allocations for 2011-12 onwards are yet to be determined. However, as announced in the pre-Budget report in December 2009, front-line national health service spending will be protected for the following two years to 2012-13.

Gloucestershire Hospitals NHS Foundation Trust: Hospital Beds

Mr. Laurence Robertson: To ask the Secretary of State for Health how many beds there were at the Gloucestershire Hospitals NHS Foundation Trust in each of the last five years; how many beds it is estimated the Trust will have in 2010-11; and if he will make a statement. [319255]

Mr. Mike O'Brien: The information is not available in the format requested. Such information as is available is in the following table.

Average daily number of available beds for Gloucestershire Hospitals NHS Foundation Trust from 2004-05 to 2008-09

	Code	*Organisation*	*Total available*
2004-05	RTE	Gloucestershire Hospitals NHS Trust	1,380
2005-06	RTE	Gloucestershire Hospitals NHS Foundation Trust	1,404
2006-07	RTE	Gloucestershire Hospitals NHS Foundation Trust	1,297
2007-08	RTE	Gloucestershire Hospitals NHS Foundation Trust	1,254
2008-09	RTE	Gloucestershire Hospitals NHS Foundation Trust	1,257

Notes:
1. Data for 2009-10 will not be collected until May 2010.
2.Gloucestershire Hospitals NHS Trust became Gloucestershire Hospitals NHS Foundation Trust on 1 July 2004.

Department of Health form KH03

Hospitals: Admissions

Chris Grayling: To ask the Secretary of State for Health (1) how many people of each age were admitted to hospital for injuries sustained as a result of an assault by bodily force in each year since 1997; [317670]

(2) how many people of each age were admitted to hospital for injuries sustained as a result of an assault with *(a)* a sharp object and *(b)* a blunt object in each year since 1997; [317672]

(3) how many people of each age were admitted to hospital for injuries sustained as a result of an assault of having been hit, struck, kicked, twisted or scratched by another person in each year since 1997; [317673]

(4) how many people of each age were admitted to hospital for injuries sustained as a result of an attack by dog in each year since 1997; [317675]

(5) how many people of each age were admitted to hospital for injuries sustained as a result of an assault involving *(a)* a knife, *(b)* a sword and *(c)* a dagger in each year since 1997; [317676]

(6) how many people of each age were admitted to hospital for injuries sustained as a result of gunshot wounds caused by a handgun in each year since 1997; [317679]

(7) how many people of each age were admitted to hospital for injuries sustained as a result of gunshot wounds caused by *(a)* a rifle, *(b)* a shotgun and *(c)* a larger firearm in each year since 1997; [317681]

(8) how many people of each age have been admitted to hospital for injuries sustained by assault by *(a)* hanging, *(b)* strangulation and *(c)* suffocation in each year since 1997. [317684]

Gillian Merron: Information has been provided on the number of finished admission episodes by selected cause codes and age groups, between 1997-98 and 2008-09. Therefore it is important to note that as people may be admitted on more than one occasion, the data supplied do not describe the number of people admitted to hospital.

The data which have been provided in response to the question, on how many people of each age were admitted to hospital for injuries sustained as a result of an assault of having been hit, struck, kicked, twisted or scratched by another person in each year since 1997, include unintentional injury as well as assault as it is not possible to distinguish between the two.

For the question on how many people of each age were admitted to hospital for injuries sustained as a result of gunshot wounds caused by *(a)* a rifle, *(b)* a shotgun and *(c)* a larger firearm in each year since 1997 and the question on how many people of each age have been admitted to hospital for injuries sustained by assault by *(a)* hanging, *(b)* strangulation and *(c)* suffocation in each year since 1997, it is not possible to provide data according to the separate categories requested. However, overall numbers are available at:

www.hesonline.nhs.uk

For the question on how many people of each age were admitted to hospital for injuries sustained as a result of an assault involving a knife, a sword and a dagger in each year since 1997, it is not possible to provide on assaults by different sharp implements. Data on assault by a sharp object are available at:

www.hesonline.nhs.uk

Where any of the questions do not specifically request assault data, information has been provided for unintentional injury, self-harm and assault.

Modernising Scientific Careers Programme

Norman Lamb: To ask the Secretary of State for Health when the first qualified paediatric audiologists are expected to graduate under the Modernising Scientific Careers programme. [318253]

Ann Keen: Working with stakeholders, we are developing a range of education and training programmes which will have a focus on audiology as part of Modernising Scientific Careers. These will encompass the needs of both adult and paediatric services.

Nurses: Pay

Mr. Amess: To ask the Secretary of State for Health what the *(a)* median and *(b)* mean salary of an NHS nurse was in each region in (i) nominal and (ii) real terms in each year since 1997. [318691]

Ann Keen: The following table states the mean earnings for qualified nurses from 1997-08 to 2008-09 in nominal and real terms (based on 2008-09 prices).

Mean earnings of a qualified nurse

	Nominal (£)	*At 2008-09 prices (£)*	*Percentage yearly increase in real terms*
1997-98	20,830	27,109	—
1998-99	21,042	26,820	-1.1
1999-2000	22,329	27,911	4.1
2000-01	23,427	28,903	3.6
2001-02	24,733	29,848	3.3
2002-03	25,702	30,048	0.7
2003-04	26,342	29,952	-0.3
2004-05	27,697	30,641	2.3
2005-06	28,784	31,260	2.0
2006-07	29,861	31,498	0.8
2007-08	31,149	31,935	1.4
2008-09	32,339	32,339	1.3

Notes:

1. Mean earnings are estimated from the qualified nurse pay bill figures using NHS accounts data together with the NHS Pension Scheme rates, and national insurance rates and thresholds that apply to NHS employers.
2. The pay bill data includes all qualified nurses employed by NHS trusts, primary care trusts, strategic health authorities and foundation trusts in England. It excludes agency nurses.
3. Foundation trusts do not submit a breakdown of their pay bill by staff group. Figures from 2004-05 onwards include estimates for the breakdown of each foundation trust.
4. Average earnings have been expressed in real terms using the HM Treasury gross domestic product deflator index.
5. Figures for the median earnings and breakdown by region are not available.

Trust Financial Returns and Foundation Trust Annual Reports (pay bill data)

Information Centre Workforce Census (staff numbers)

Preventive Medicine

Mr. Peter Robinson: To ask the Secretary of State for Health what percentage of his Department's annual budget is allocated to preventative and early intervention measures. [318842]

Mr. Mike O'Brien: The Department does not collect detailed expenditure information in these areas since, subject to delivering national targets, there is local discretion on how the funding is spent. However, a report by Health England shows expenditure in England on public health and prevention for 2006-07. See Table 3 in the Report: Health England Report No 4. "Public Health and Prevention Expenditure in England 2009", available from:

http://healthengland.org/health_england_publications.htm

Table 3 in that report is shown in the following table, and provides a breakdown of spending based as closely as possible on Organisation for Economic Co-operation and Development (OECD) definitions.

Detailed prevention expenditure in England 2006-07

£ million

		Secondary prevention			
	Primary prevention	*Screening*	*Other*	*Medication*	*Total*[1]

[1] Figures may not sum due to rounding.
[2] Refers to expenditure from the central budget, data available only for 2006-07.
Source:
Health Inequalities and Partnership, Department of Health (Health England Report No 4. Public Health and Prevention Expenditure in England, 2009).

The expenditure on pharmaceuticals is included as its primary aim is prevention. Nevertheless, strictly, expenditure on pharmaceuticals is not included in the OECD prevention and public health category. Hence, for comparison with other countries using OECD data, these "medication" figures should be excluded. Excluding pharmaceuticals in line with OECD methodology gives a total expenditure on public health and prevention of £3.7 billion. If pharmaceuticals were included, the overall total for 2006-07 would be £5 billion.

Total health expenditure for England for the same period was approximately £93.5 billion. This suggests that about 4 per cent. of health expenditure is directed towards prevention (using the figure without pharmaceuticals and without health-related expenditure, so that this can be compared with other OECD countries).

Sodium Valproate

Mr. Syms: To ask the Secretary of State for Health (1) what medical evidence there is of any negative side effects of Epilim (sodium valproate) on *(a)* embryos and *(b)* those under the age of 18 years; [318951]

(2) how many compensation payments have been made for medical problems resulting from the prescribing of Epilim (sodium valproate) in the NHS; [318957]

(3) what advice is given in the NHS on the prescribing of Epilim (sodium valproate) to pregnant women. [318959]

Mr. Mike O'Brien: The safety, efficacy and quality of every medicine is thoroughly evaluated by the Medicines and Healthcare products Regulatory Agency as part of the licensing procedure and its safety is monitored continuously while it is on the market.

Animal studies have shown that Epilim has teratogenic effects. In humans, studies have shown an association between pregnancy exposure and neural tube defects such as myelomeningocele and spina bifida.

The product information which consists of the Summary of Product Characteristics for healthcare professionals and the Patient Information Leaflet contains extensive information to support the appropriate use of the medicine. These documents are available on the internet at www.medicines.org.uk. This information is also reflected in the prescribing advice provided in the British National Formulary, which is sent to all doctors within the NHS.

The product information for Epilim contains detailed advice in relation to the use of Epilim during pregnancy. It is currently advised that women of childbearing potential should not be started on Epilim without specialist neurological advice and the benefits of Epilim use should be weighed against the risks to the foetus.

Information on possible side effects which may occur during treatment with Epilim are also outlined in the product information. These side effects may have been reported during clinical trials or since Epilim has been marketed and have been assessed as either having a causal association or a strong suspicion of an association. Of the known side effects it is recognised that children who are treated with Epilim are at particular risk of developing liver damage and pancreatitis.

The NHS Litigation Authority (NHSLA) handles negligence claims against National Health Service bodies in England. However, due to the way that data are organised on the NHSLA's database, this answer could be provided only at disproportionate cost.

Sodium Valproate: Prescriptions

Mr. Syms: To ask the Secretary of State for Health how many prescriptions for Epilim (sodium valproate) were issued to those under the age of 18 years in the NHS in England in 2009. [318960]

Ann Keen: This information is not available. NHS Prescription Services cannot supply exemption category data, e.g. children under 18, after December 2007 because the processes for pricing prescriptions and for capturing prescription charge exemption status has changed. Therefore, NHS Prescription Services cannot reliably estimate the data for each exemption category relating to the age of the patient from that date.

Sodium Valproate: Research

Mr. Syms: To ask the Secretary of State for Health what research is being undertaken in the NHS on the use of Epilim (sodium valproate) for treatment in the NHS of diseases other than epilepsy. [318958]

Gillian Merron: The National Institute for Health Research (NIHR) is not at present funding any such research.

The NIHR health technology assessment programme commissions research where there is a gap in the knowledge the national health service has about healthcare treatments and tests. Suggestions for research topics can be made via the programme's open access form at:

www.hta.ac.uk/suggest/index.shtml

Spearhead Primary Care Trust

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of *(a)* the proportion of obese children, *(b)* the proportion of overweight children, *(c)* the percentage of people who smoke, *(d)* the percentage of people who drink, *(e)* the percentage of people who take drugs, *(f)* the teenage pregnancy rate and *(g)* the rate of sexually transmitted infections in respect of (i) Spearhead and (ii) non-Spearhead primary care trusts in each year since the inception of the Spearhead primary care trust programme. [318190]

Ann Keen: Not all the information is available in the format requested. Such information as is available is in the following tables.

Spearhead areas are defined based on local authority (LA) data. Spearhead primary care trusts (PCTs) are those that overlap geographically, either wholly or partly, with the Spearhead LAs. Where available, information is shown based on the 62 Spearhead PCTs (14 of which only partly overlap with the Spearhead LAs). Where information is not available by PCT, figures are based on the 70 Spearhead LAs. The Spearhead Group was launched in 2005.

Proportion of children aged 2 to 15 who are overweight and obese, by Spearhead group, 2008

		Percentage
	Boys	*Girls*
Obese children		
Spearhead PCTs	20	17
Non-Spearhead PCTs	15	14
Overweight children		
Spearhead PCTs	16	14
Non-Spearhead PCTs	14	14

Notes:

1. Figures are based on the 62 Spearhead PCTs (so are based on a larger population than the 70 Spearhead LAs).
2. Figures are shown for 2008 only. In 2008 the definitions used in the analysis were revised from those used in previous years to correct an error in the classification of children as either "overweight" or "obese". Results were not significantly different from those presented previously; however, revised data sets have not yet been made available for previous years.
3. Figures are based on children aged 2-15 with a valid body mass index (BMI) measurement.
4. Categories are mutually exclusive, i.e. overweight does not include those who are obese.
5. Overweight was defined as at or above the 85th but below the 95th UK National BMI percentile; obese was defined as at or above the 95th UK National BMI percentile.

Source:

Data from Health Survey for England, published in "Health Survey for England 2008 Volume 1—physical activity and fitness", The NHS Information Centre for health and social care, 2009 (table 13.5).

Proportion of adults aged 16 and over who drink alcohol or smoke cigarettes, by Spearhead group, 2005-08

				Percentage
	2005	*2006*	*2007*	*2008*
Adults who smoke				
Spearhead LAs[1]	27	27	26	24
Non-Spearhead LAs[1]	22	20	19	19
Adults who drink				
Spearhead LAs[1]	83	84	85	84
Non-Spearhead LAs[1]	88	88	88	87

[1] PCTs for 2008.

Notes:

1. Figures for 2005-07 are based on the 70 Spearhead LAs. Figures for 2008 are based on the 62 Spearhead PCTs (so are based on a larger population than the 70 Spearhead LAs).

2. "Adults who drink! is based on answers to two questions: Those who answer, "yes" to "Do you drink alcohol nowadays?" are classified as drinkers. Those who answer "no" are then asked, "Could I just check, does that mean you never have an alcoholic drink nowadays or do you have an alcoholic drink very occasionally, perhaps for medicinal purposes or on special occasions like Christmas or New Year?". Those who answer "Very occasionally" are also classed as drinkers.

Unpublished analysis of data from Office for National Statistics and Teenage Pregnancy Unit.

Rate of sexually transmitted infections (STIs)

Data on STIs diagnosed in genitourinary medicine (GUM) clinics are currently collected only by strategic health authority. Data on the rates of STIs for the period 2004 to 2008, the latest data for which figures are available, are published in "Selected STI diagnoses numbers and rates from GUM clinics in the UK: 2004-2008", a copy of which has been placed in the Library.

Swine Flu

Mr. Todd: To ask the Secretary of State for Health whether he has reviewed the effectiveness of the swine flu pandemic campaign in changing influenza patients' behaviour in visiting their GP to seek treatment. [318487]

Gillian Merron: Our swine flu campaigns sought to convey different messages at different stages of the pandemic.

People who developed swine flu symptoms, who had a serious underlying illness or were pregnant, as well as people who had a sick child under one year of age, were advised to contact their general practitioner directly. Other members of the public were encouraged to access the National Pandemic Flu Service if they developed swine flu symptoms. Over 2.7 million assessments were completed using the online and phone self-care services between July and February.

All of our campaigns are subject to evaluation and we will be evaluating the overall effectiveness of our swine flu campaigns in due course.

HOME DEPARTMENT

Alcoholic Drinks: Misuse

Chris Grayling: To ask the Secretary of State for the Home Department how many convictions for being drunk and disorderly there have been in each year since 1998. [315071]

Alan Johnson: The number of persons found guilty at all courts for being drunk and disorderly, England and Wales 1998 to 2008 (latest available) can be viewed in the following table. A penalty notice for disorder (PND) can also be issued for offences of being drunk and disorderly. The number of PNDs issued 2004 to 2008 is included in the table.

Court proceedings data for 2009 are planned to be published in the autumn 2010.

The number of persons issued with a penalty notice for disorder and found guilty at all courts for drunk and disorderly related offences in England and Wales, from 1998 to 2008[1,2,3]

Offences		*1998*	*1999*	*2000*[4]	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*[5]
Drunk and disorderly offences	Penalty notices for disorder	n/a	n/a	n/a	n/a	n/a	n/a	29,106	40,176	46,268	49,062	45,849
	convictions	29,974	28,006	26,274	25,632	26,254	27,044	20,420	15,399	14,995	16,767	18,229

n/a = not applicable

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Data include the following offence descriptions and corresponding statutes:

Being found drunk in a highway or other Public place whether a building or not, or a licensed premises.

Licensing Act 1872 Sec 12.
Any person who in any public place is guilty, while drunk, of disorderly behaviour.
Criminal Justice Act 1967 Sec.91.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates' courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

[5] Excludes convictions data for Cardiff magistrates court for April, July, and August 2008.

Alcoholic Drinks: Young People

Chris Grayling: To ask the Secretary of State for the Home Department how many people have been convicted for offences related to purchasing alcohol on behalf of a person aged under 18 years in each year since 1998. [314994]

Alan Johnson: The number of persons found guilty at all courts for offences related to purchasing alcohol on behalf of a person aged under 18 years, England and Wales 1998 to 2008 (latest available) can be viewed in the table. A penalty notice for disorder can also be issued for offences related to purchasing alcohol on behalf of a person aged under 18 years and are also given in the table.

Court proceedings data for 2009 are planned to be published in autumn 2010.

Number of persons issued with a penalty notice for disorder and found guilty at all courts for offences related to purchasing alcohol on behalf of a person aged under 18 years in England and Wales, from 1998 to 2008[1,2,3]

Offences		*1998*	*1999*	*2000*[4]	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*[5]
Buying alcohol on behalf of a person under 18	Penalty Notices for Disorder[6]	*	*	*	*	*	*	84	253	467	619	574
	Convictions	1	3	2	10	18	18	30	24	26	18	28

"*" = Not applicable.

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Includes the following offences and statutes:
Buying or attempting to buy intoxicating liquor for consumption by a person under 18.
Purchasing intoxicating liquor for consumption by person under 18 in bar.
(Licensing (Occasional Permissions) Act 1983 Schedule (Sec 3) para 4(3).
Licensing Act 1964 Sec 169(3)).
Person who buys or attempts to buy alcohol on behalf of an individual under 18.
(Licensing Act 2003 S149(3,4,7b))

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

[5] Excludes convictions data for Cardiff magistrates court for April, July, and August 2008.

[6] The penalty notice for disorder scheme was implemented in all 43 police forces in England and Wales in 2004.

Assaults on Police

Chris Grayling: To ask the Secretary of State for the Home Department how many police officers have received *(a)* fatal, *(b)* serious and *(c)* slight injuries in the course of a crime involving a (i) gun and (ii) knife in each year since 1997. [317765]

Alan Johnson: The latest chapter on offences involving firearms in England and Wales was published on 21 January 2010 and available at:

http://www.homeoffice.gov.uk/rds/pdfs10/hosb0110.pdf

Text table 2c of the chapter shows offences recorded by the police in which a police officer on duty was injured by a firearm (excluding air weapons) resulting in fatal, serious or slight injury between 1998-99 and 2008-09. This is reproduced in Table A, and extended to include offences recorded in 1997-98.

It is not possible to provide data on offences involving knives in which a police officer has been slightly or seriously injured. The knife crime database covers only the most serious offences and does not hold information on severity of injury or the occupation of victims.

Available information on knife crimes resulting in fatal injury is taken from the Homicide Index and relates to currently recorded homicides in England and Wales where the victim was an on-duty police officer and the method of killing was sharp instrument. The data in Table B are as at 24 November 2009 and are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.

Table A: Offences recorded by the police in England and Wales in which a police officer on duty was injured by a firearm, excluding air weapons, 1997-98 to 2008-09

	Total	*Fatal injury*	*Serious injury*[1]	*Slight injury*
1997-98	6	—	3	3
1998-99	11	—	—	11
1999-2000	10	—	—	10
2000-01	7	—	5	2
2001-02	10	—	—	10
2002-03	12	—	1	11

Table A: Offences recorded by the police in England and Wales in which a police officer on duty was injured by a firearm, excluding air weapons, 1997-98 to 2008-09

	Total	Fatal injury	Serious injury[1]	Slight injury
2003-04	14	1	3	10
2004-05	23	—	2	21
2005-06	23	1	6	16
2006-07	21	—	3	18
2007-08	24	1	3	20
2008-09	9	—	1	8

[1] A serious injury is one which necessitated detention in hospital or involved fractures, concussion, severe general shock, penetration by a bullet or multiple shot wounds.

Table B: Currently recorded homicides[1] where the victim was a police officer killed in the course of duty and method of killing was sharp instrument[2]: England and Wales, 1997-98 to 2008-09[3]

Year[3]	Number
1997-98	—
1998-99	—
1999-2000	—
2000-01	—
2001-02	—
2002-03	—
2003-04	—
2004-05	1
2005-06	—
2006-07	—
2007-08	1
2008-09	—

[1] As at 24 November 2009; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] Includes knives and other sharp instruments.
[3] Offences are shown according to the year in which they were initially recorded as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.

Homicide Index (Home Office)

Bigamy

Chris Grayling: To ask the Secretary of State for the Home Department how many offences of bigamy have been recorded in each year since 1998; and how many people have been *(a)* prosecuted and *(b)* convicted of an offence related to bigamy in each police force area in each of those years. [314814]

Alan Johnson: The Home Office has responsibility for the police recorded crime statistics and figures for the number of offences of bigamy recorded by the police are given in Tables 1 and 2.

Court proceedings statistics are collected by the Ministry of Justice. Information showing the number of persons proceeded against at magistrates courts and found guilty at all courts for bigamy in England and Wales from 1998 to 2008 are given in Tables 3 and 4.

The police recorded crime data are based on the number of offences recorded in each financial year. Court proceedings data are based on the number of offenders. These data are published on a calendar year basis and are counts of persons classified by their principal offence. For these reasons the two datasets are not directly comparable.

Table 1: Offences of bigamy recorded by the police, 1998-99 to 2001-02[1,2]

Number of offences

Police force area	1998-99	1999-2000	2000-01	2001-02

Justice Statistics Analytical Services—Ministry of Justice

Independent Safeguarding Authority

James Brokenshire: To ask the Secretary of State for the Home Department what consultation his Department undertook on the level of fees to be charged for the vetting procedure undertaken by the Independent Safeguarding Authority. [310860]

Meg Hillier: Consultation took place on the scheme as a whole. There was no separate consultation on the fee, which is set to achieve cost recovery for the Vetting and Barring Scheme as a whole.

National Identity Register

Mr. Maude: To ask the Secretary of State for the Home Department what authorities may be provided with personal information held on the National Identity Register without the consent of the subject of that information. [318116]

Meg Hillier: The Identity Cards Act 2006, and secondary legislation made thereunder, set out who may be provided with information from an individual's entry on the register and under what circumstances. In particular, the Identity Cards Act 2006 (Provision of Information without Consent) Regulations 2009, and the Identity Cards Act 2006 (Information and Code of Practice on Penalties) Order 2009 prescribe Government Departments and public authorities respectively which may be provided with information without the consent of the individual.

Passports: Older People

Janet Anderson: To ask the Secretary of State for the Home Department for what reasons entitlement to free passports for those over the age of 80 years was withdrawn; and if he will make a statement. [317172]

Meg Hillier: There has been no change to the eligibility for free passports. This is not an age related concession, but was introduced in recognition of those who could have made a substantial contribution to the national effort during the second world war. The free passport scheme is an extension of the initial scheme that offered free one-year passports to second world war military veterans attending 60th Anniversary Commemorative Events in 2004. It was decided to extend the scheme to full validity 10 year passports and to recognise those who may have made a contribution to the overall war effort, whether or not they had served in the armed forces. It therefore applies to those born on or before 2 September 1929 who would have been aged 16 or over at the end of the war.

Police: Football

Chris Grayling: To ask the Secretary of State for the Home Department how much has been spent policing football matches in *(a)* each police force area and *(b)* England and Wales in each year since 2003. [317570]

Alan Johnson: We do not have a national estimate for how much forces spend on policing annually. Forces are able to recharge a proportion of their costs and we estimate that the costs of policing charged to clubs annually is between £12-15 million.

Prosecutions

Chris Grayling: To ask the Secretary of State for the Home Department how many people aged *(a)* under 10, *(b)* from 10 to 17, *(c)* from 18 to 20 and *(d)* 21 years and over were (i) arrested, (ii) charged and (iii) convicted for (A) violent and (B) non-violent offences in each year since 1998. [315080]

Alan Johnson: The information requested on arrests covering the period from 1999-2000 (when the collection began) to 2007-08 (latest available) is provided in table A.

Data on arrests in 2008-09 are scheduled to be published in April 2010.

Information provided by the Ministry of Justice showing the number of defendants proceeded against at magistrates courts and found guilty at all courts for violent and non-violent offences, broken down by age group, in England and Wales from 1998 to 2008 (latest available) can be viewed in table B.

The court proceedings database held by the Ministry of Justice does not hold information on convictions for persons aged under 10 who are under the age of liability.

Data for 2009 are planned to be published in the autumn 2010.

Information on the offenders dealt with by the Criminal Justice System does not necessarily reflect wider trends for characteristics of perpetrators of crimes, where often an offender will not be apprehended.

Table A: Number of persons arrested for recorded crime (notifiable offences) by age group and type of offence[1, 2], 1999-2000 to 2007-08, England and Wales

Number of arrests[3]

Table A: Number of persons arrested for recorded crime (notifiable offences) by age group and type of offence[1] [2], 1999-2000 to 2007-08, England and Wales

Number of arrests[3]

Year and notifiable offence group	*Aged under 10*	*Aged 10-17*	*Aged 18-20*	*Aged 21and over*	*Age unknown*	*All ages*
Total	163	315,401	223,623	931,650	4,429	1,475,266

[1] Violent offences includes the offence categories of: violence against the person; sexual offences; robbery offences. Other offences includes the offence categories of: burglary; theft and handling stolen goods; fraud and forgery; .criminal damage; drug offences; other offences.

[2] Information on the offenders dealt with by the Criminal Justice System does not necessarily reflect wider trends for characteristics of perpetrators of crimes, where often an offender will not be apprehended.

[3] Figures from 2003-04 to 2005-06 are rounded to the nearest 100 therefore figures for these years may not add up to the totals, subsequent years' figures are unrounded. Additionally, figures for violent and other offences for years previous to 2006-07 may not be accurate due to the summing of rounded figures.

[4] Figures updated since publication of 2004-05 bulletin.

Note:

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Table B: The number of persons found guilty at all courts for offences relating to violent, and non violent offences, in England and Wales, by age group, 1998 to 2008[1] [2] [3] [4]

	1998	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008[5] [6]*
10-17

Non-violent offences	1,173,120	1,112,897	1,131,712	1,057,862	1,126,726	1,194,295	1,252,609	1,199,530	1,143,315	1,136,243	1,094,665
All ages											
Violent offences	47,159	45,630	45,104	46,163	49,803	49,694	51,415	52,820	54,870	55,855	55,129
Non-violent offences	1,410,407	1,352,641	1,368,455	1,293,566	1,362,398	1,431,527	1,486,573	1,422,432	1,358,903	1,352,110	1,300,017

[1] Data given relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Data include the following offence types:

Violent offences:
Violence against the person
Sexual Offences
Robbery
Non Violent offences:
Burglary
Theft and handling stolen goods
Fraud and forgery
Criminal damage
Drug offences
Other indictable offences
Indictable motoring offences
Summary offences (excluding motoring)
Summary motoring offences

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Information on the offenders dealt with by the Criminal Justice System does not necessarily reflect wider trends for characteristics of perpetrators of crimes, where often an offender will not be apprehended.

[5] Excludes Convictions for Cardiff magistrates court for April, July and August 2006.

[6] Includes those cases where sex is not stated.

Reoffenders

Chris Grayling: To ask the Secretary of State for the Home Department what estimate he has made of the number of prolific and priority offenders there were in each of the last 10 years. [317828]

Alan Johnson: The information requested is set out in the table. This shows the total number of offenders who were classified as Prolific and other Priority Offenders for each of the four full years since the Prolific and other Priority Offender programme was launched in September 2005.

Some offenders would have been classified as Prolific and other Priority Offenders during the course of the years shown, and others de-classified during the years shown, in accordance with local selection and de-selection criteria. At any given time, the total number of offenders classified as Prolific and other Priority Offenders is between 10,000 and 11,000 offenders.

The published evaluation of the Prolific and other Priority Offender programme in 2004 showed that the offenders first taken on to the programme in September and October 2004 reduced their convictions by 62 per cent. over their first 17 months on the programme.

Individuals classified as prolific and other priority offenders, by year

Year (April to March)	*Number of PPOs*
2005-06	17,007
2006-07	15,221
2007-08	15,904
2008-09	15,126

Theft: Vehicles

Chris Grayling: To ask the Secretary of State for the Home Department if he will estimate the number of vehicles stolen during robberies and domestic burglaries in *(a)* London, *(b)* each police force area and *(c)* nationally in each year since 1998. [317661]

Alan Johnson: The number of recorded offences where a vehicle has been stolen during robberies and domestic burglaries is given in the table.

The collection of these supplementary data began in 2007-08. Figures are not available prior to this date. These data are normally used for management information only and are not subject to the detailed checks that apply for National Statistics. These data are provisional and may be subject to change.

The Policing Green Paper announced that Sir David Normington, Permanent Secretary to the Home Office, would lead a review of the strategic data collection burden placed by the Home Office on police forces in England and Wales. Sir David's report was published on 16 February.

Recorded offences of domestic burglaries and robberies in which a vehicle is taken[1]

Written Answers to Questions

Monday 1 March 2010

WALES

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Wales what the estimated *(a)* amount and *(b)* cost was of energy used in his Department in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317234]

Mr. Hain: The Wales Office holds records on energy usage since 2006-07; on the cost of electricity from 2002-03; and on the cost of other fuels since 2005-06. The available information is given in the following tables. Figures before these periods are not held centrally and can be compiled only at disproportionate cost.

	Energy used	
	Electricity (kwh)	*Other fuels (kw)*
2006-07	65,233	105,430
2007-08	69,780	58,980
2008-09	68,291	74,080

	Estimated cost	
	Electricity (£)	*Other fuels (£)*
2002-03	14,440.37	—
2003-04	9,180.72	—
2004-05	4,368.05	—
2005-06	4,132.43	8,505.35
2006-07	8,054.06	15,586.45
2007-08	4,007.14	13,746.23
2008-09	7,415.72	8,531.26

In 2003-04 and 2004-05, 10 per cent. of the Department's electricity was derived from renewable sources. Since 2005-06 this has risen to 100 per cent.

Disabled

Mr. Harper: To ask the Secretary of State for Wales how many and what proportion of staff in his Department are disabled; and what the average salary in his Department is of *(a)* full-time disabled staff, *(b)* full-time non-disabled staff, *(c)* part-time disabled staff and *(d)* part-time non-disabled staff. [317899]

Mr. David: The Wales Office is a small Department and in the interests of maintaining confidentiality we are unable to disclose the figures requested.

SCOTLAND

Departmental Internet

Mr. Heald: To ask the Secretary of State for Scotland how many designs for its website his Department has commissioned since 2005. [318643]

Ann McKechin: Since 2005 there have been no redesigns of the Scotland Office website.

Departmental Theft

Mr. Watson: To ask the Secretary of State for Scotland how many thefts from his Department have been recorded in the last two years. [318997]

Ann McKechin: No thefts have been reported or recorded in the last two years.

HOUSE OF COMMONS COMMISSION

Departmental Energy

Dan Rogerson: To ask the hon. Member for North Devon, representing the House of Commons Commission what steps the House of Commons Commission plans to take to enable the House to participate in the Earth Hour event on 27 March 2010. [319087]

Nick Harvey: The Commission has decided that the House will participate in campaigns only in exceptional circumstances and there are therefore no plans for the House to participate in the Earth Hour event on 27 March 2010. The event is understood to be taking place at 8.30 pm on a Saturday evening, so the potential for significant reductions in the House's emissions during the event will be very limited. An action plan and targets for reducing the House's carbon dioxide emissions are currently being drawn up.

Members: E-mail

Mr. Maude: To ask the hon. Member for North Devon, representing the House of Commons Commission with reference to the answer of 2 March 2009, *Official Report*, column 1211W, and pursuant to the answer of 21 January 2010, *Official Report*, column 434W, on Members: email, whether Pretty Good Privacy (PGP) encryption is now compatible with Parliament's current version of VPN (remote access) software; what methods of email encryption are compatible with the PICT IT system; whether *(a)* S/MIME and *(b)* Steganos can be used on hon. Members' computers; and whether hon. Members and their staff can choose to install PGP encryption software on their computers without PICT exercising its right to remove it. [318316]

Nick Harvey: The House of Commons Commission does not release information relating to software configuration. For more information regarding Members' rights to install software on parliamentary computers I refer the right hon. Member to the answer given to him on 2 March 2009, *Official Report*, column 1211W.

Members and their staff may install their own software on their parliamentary computers. Members are responsible for the licensing and maintenance of any software that they install and, as the conditions of supply provide, PICT reserves the right to remove any software that is found to interfere with the proper operation of the hardware concerned, or the parliamentary network.

Members: Expenses

Mr. Dai Davies: To ask the hon. Member for North Devon, representing the House of Commons Commission what plans the House of Commons Commission has for the office space presently occupied by staff of the Department of Resources dealing with allowances of hon. Members following the transfer of such functions to the Independent Parliamentary Standards Authority. [319206]

Nick Harvey: The staff who will transfer to the Independent Parliamentary Standards Authority currently occupy space on the third floor of 7 Millbank. The whole of the third floor will be freed up later in the year when other staff in the Department of Resources move to accommodation in Tothill Street. This will begin a series of moves which will involve moving Department of Information Services staff from 1 Derby Gate into 7 Millbank, and will culminate in the conversion of 1 Derby Gate into accommodation for use by Members and their staff.

LEADER OF THE HOUSE

Departmental Internet

Mr. Heald: To ask the Leader of the House how many designs for its website her Office has commissioned since 2005. [318646]

Barbara Keeley: I refer the hon. Member to the reply given on 25 January 2010, *Official Report,* column 534W, to the hon. Member for Welwyn Hatfield (Grant Shapps). In addition to that reply, no designs for the Leader of the House of Commons website have been commissioned since 2007.

NORTHERN IRELAND

Departmental Internet

Mr. Heald: To ask the Secretary of State for Northern Ireland how many designs for its website his Department has commissioned since 2005. [318645]

Paul Goggins: During this period, the Northern Ireland Office (NIO) website was redesigned in 2007.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Drugs

Lindsay Roy: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to end the illegal drugs trade in Afghanistan; and if he will make a statement. [319543]

Mr. Ivan Lewis: UK support is focused on building Afghan counter-narcotics law enforcement capacity, strengthening Afghan institutions, and providing alternative livelihoods for farmers. We are seeing progress. The number of narco barons being arrested and convicted, often by Afghan institutions mentored by UK experts, is increasing, This year, in Helmand, Governor Mangal has overseen the distribution of wheat seed to over 40,000 households in the 'Food Zone' and is overseeing the distribution of seed for summer crops to 27,000 households.

There have been dramatic falls in opium cultivation in Afghanistan in recent years—19 per cent. in 2008 and a further 22 per cent. in 2009. Although we cannot be complacent, we believe farmers are at least in part responding to improvements in governance and security.

The UK remains committed to the fight against the Afghan drugs trade, as a key component of our Afghan counter-insurgency and state-building effort. The drugs trade creates and funds the corruption which undermines the legitimacy of the Afghan state and provides a critical source of revenue for the Taliban.

Africa: Politics and Government

Lindsay Roy: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the political situation in the Great Lakes region of Africa. [319454]

Mr. Ivan Lewis: Levels of conflict in the eastern Democratic Republic of Congo (DRC) have dropped since late 2008, and improved relations between the DRC and Rwandan Governments have contributed to a stabilisation of the regional situation. However, violence, human rights abuses and displacement remain prevalent in eastern DRC in particular. The Government continue to work closely with the Governments in the region, as well as the UN and partners in the international community, to address these challenges.

British Nationality: Convictions

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions his Department has made representations to a foreign government on behalf of a UK citizen convicted of crimes involving *(a)* drugs, *(b)* sexual offences, *(c)* violence and *(d)* computers in each of the last three years. [318590]

Chris Bryant: We will consider making representations to the local authorities, with the permission of the individual concerned, in any case where a British national detainee has not been treated in line with internationally-accepted standards. This may include cases where the trial does not follow internationally-recognised standards, or where there is a justified complaint about mistreatment or discrimination. We will make representations irrespective of the nature of the charges: our aim is to treat everyone in detention the same, no matter what they are being held for. However, we do not keep records in a way which can be readily searched to extract an overall figure for representations made on behalf of British nationals convicted of crimes overseas.

Colombia: Political Prisoners

Mrs. Moon: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 23 February 2010, *Official Report*, column 416W, on Colombia: political prisoners, if he will make representations to the Government of Colombia on the fate of human rights defender Carmelo Agamez Berrio. [319463]

Chris Bryant: I have asked our embassy in Bogota to raise Carmelo Agamez Berrio's case with the Colombian Vice President's Office.

Commonwealth: Diplomatic Service

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* Canadians, *(b)* Australians, *(c)* New Zealanders and *(d)* Indians used UK consular facilities in absence of representation of their country in *(a)* each of the last three years and *(b)* 2010 to date. [319583]

Chris Bryant: From April 2008 we do not have figures available for third country nationals assisted by our missions overseas. Prior to this, our overseas posts were asked to provide, as part of an annual survey, the number of assistance cases handled, including how many cases involved unrepresented commonwealth nationals. These figures were not broken down by nationality. The figures for financial years 2006-07 and 2007-08 are as follows:

	Number
2006-07	
Total assistance cases	34,874
of which:	
unrepresented Commonwealth nationals	200
2007-08	
Total assistance cases	25,092
of which:	
unrepresented Commonwealth Nationals	155

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319093]

Chris Bryant: The Foreign and Commonwealth Office has arranged to switch off the lights in its UK offices, and has encouraged its overseas network to follow suit, subject to local operational concerns.

Departmental Internet

Mr. Heald: To ask the Secretary of State for Foreign and Commonwealth Affairs how many designs for its website his Department has commissioned since 2005. [318651]

Chris Bryant: The Foreign and Commonwealth Office has commissioned two designs for its departmental website since 2005. The design was changed in March 2008 and again in October 2009.

Departmental Plants

David T.C. Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs how much *(a)* his Department and *(b)* its agencies has spent on pot plants in 2009-10 to date. [319211]

Chris Bryant: Since April 2009 there has been no identifiable spend on the purchase of pot plants within the Foreign and Commonwealth Office.

Diplomatic Service: Manpower

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made an assessment of the potential effects on *(a)* security and *(b)* levels of fraud in respect of his Department's operations of the replacement of management officers in UK overseas missions as part of the Corporate Services Programme; and if he will make a statement. [319446]

Chris Bryant: The localisation of management slots under the Corporate Services Programme has been extensively discussed with relevant departments at home and overseas. We are satisfied that the implications for our security and incidence of fraud remain manageable. We continue to work with all our missions overseas to support them in ensuring the right controls are in place to handle risk effectively.

Government Hospitality: Wines

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 22 February 2010, *Official Report*, column 216W, on Government hospitality: wines, at which events between 25 November 2009 and 25 December 2009 wine from the Government wine cellar was served; and which of those events was attended by the Minister for Europe. [319372]

Chris Bryant: Between 25 November 2009 and 25 December 2009 Government Hospitality (GH) organised the following events at which wines from the GH cellar were used:

Date	*Event*	*Host Department*
25 November	Dinner for Kids Task Force	Department for Children Schools and Families
25 November	Dinner for Chinese Transport Minister	Department of Transport (DoT)
26 November	Lunch for European Ambassadors	Foreign and Commonwealth Office (FCO)
26 November	Reception for COI	Government Equalities Office
30 November	Reception for Asia Task Force	FCO

Date	*Event*	*Host Department*
30 November	Reception for Corporate Alliance	Attorney-General's Office
3 December	Reception for Global Health Security	Department of Health (DoH)
3 December	Dinner for European Parliament Transport Committee	DoT
3 December	Dinner for Global Health Security	DoH
6 December	Dinner for Chinese Deputy Foreign Minister	FCO
7 December	Dinner for Chinese Deputy Foreign Minister	FCO
8 December	Reception for FCO Stakeholders	FCO
8 December	Dinner for FCO Ministerial Team	FCO
9 December	Reception for London Diplomatic Science Club	Department for Business Innovation and Skills
9 December	Reception for Overseas Territories Consultative Council	FCO
10 December	Dinner for London Business School	HM Treasury
11 December	Lunch for GH Advisory Committee	FCO
14 December	Reception for Hon CBE Presentation	Department for Energy and Climate Change

I hosted the lunch for European Union Ambassadors on 26 November and the Reception for the Overseas Territories Consultative Council on 9 December 2009. I also attended the reception for FCO Stakeholders and the dinner for the FCO ministerial team on 8 December.

India: Terrorism

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the *(a)* dates and *(b)* location of each terrorist attack in India in the last three years; how many casualties were sustained in each such attack; and if he will make a statement. [318681]

Mr. Ivan Lewis: We do not have detailed records of all terrorist incidents in India for the period requested. However the significant terrorist incidents (for which we have information) since February 2007 are as follows:

On 13 February 2010, a bomb exploded in Pune, Maharashtra. Nine people were killed and up to 53 were injured.

On 16 October 2009, a bomb exploded in the town of Margao, Goa, killing one person.

From 26-29 November 2008, terrorists attacked a number of sites in Mumbai, including luxury hotels, a railway station and a restaurant. Over 190 people were killed and more than 325 were injured. British nationals were among the casualties.

On 30 October 2008, 11 bombs exploded in Assam. Areas affected were Guwahati and the Barpeta, Bongaigoan and Kokrajhar districts. 77 people were killed and over 300 were injured.

On 21 October 2008, a bomb exploded in Imphal, Manipur killing 17 people and injuring many others.

On 27 September 2008, a bomb exploded in New Delhi. Two people were killed and 24 were injured.

On 13 September 2008 five bombs exploded in New Delhi, 30 people were killed and 90 were injured.

On 26 July 2008, a series of bombs exploded in Ahmadabad, Gujarat and the surrounding area resulting in up to 49 fatalities and over 100 injured.

On 25 July 2008 there were a series of bomb blasts in Bangalore, South Eastern India resulting in at least two fatalities and multiple injuries.

On 13 May 2008, there were a series of bomb blasts in Jaipur, western India, resulting in 60 fatalities and 200 casualties

On 13 December 2007, a train travelling from Dibrugarh to Guwahati was the target of a bomb blast, which resulted in five deaths.

On 23 November 2007, there were a series of explosions in the state of Uttar Pradesh resulting in at least 13 fatalities with multiple injured.

On 26 September 2007 a number of bombs were discovered in the Andheri suburb of the city of Mumbai near areas where large crowds gathered to welcome home the returning Indian cricket team following their victory at the Twenty20 World Championship tournament in South Africa.

On 25 August 2007 at least 40 people were killed and 56 injured when two bombs exploded in Hyderabad.

On 19 February 2007 explosions occurred in two carriages of the Samjhauta Express, travelling from Delhi to Lahore. 66 people died and over 50 passengers were injured.

Accurate records of casualties incurred are often difficult to obtain. Therefore in many cases we can only provide estimates. The UK is working closely with the Indian authorities to address the terrorist threat to India and the region.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to support the Government of India in combating terrorism in the subcontinent; and if he will make a statement. [318682]

Mr. Ivan Lewis: The UK works with India to reduce the risk to India and to the UK and its interests overseas from international terrorism, through a range of operational and technical co-operation on counter-terrorism. We are closely engaged with India on tackling terrorism and developing our CT relationship, particularly in light of the devastating attacks in Mumbai in November 2008.

At my right hon. Friend the Prime Minister's Summit in January 2008, the UK and India agreed to co-operate on security for major sporting events, particularly on preparations for the Commonwealth Games in Delhi this year. Indian officials visited the UK in July 2009 where a number of areas for co-operation were agreed, including assistance on crowd control and venue security management. A UK team subsequently travelled to Delhi in September for a Commonwealth Games security conference in Delhi. UK Assistant Commissioner of the Metropolitan Police, John Yates, visited Delhi in January 2010 to discuss security preparations for the Games and offer UK support.

Indonesia: Christianity

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations his Department has made to the government of Indonesia on the treatment of Christians in Jakarta. [319653]

Mr. Ivan Lewis: In general, there is a high degree of religious freedom in Indonesia, including for those practising Christianity.

We are aware of problems surrounding the forcible closure of and occasional attacks on places of religious worship, both Christian and Islamic. Our ambassador to Jakarta raised freedom of religion most recently when he met the chair of the Indonesian Parliament's Commission III on Law, Human Rights and Internal Security on 1 December 2009.

We, along with our EU partners, raise human rights concerns with the Indonesian Government and have pressed the authorities to ensure the rights of all religious minorities. We will continue to call for religious tolerance across Indonesia.

Iran: Politics and Government

Mr. David Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the political situation in Iran; and if he will make a statement. [318946]

Mr. Ivan Lewis: The political situation in Iran remains unsettled and many Iranians continue to believe that their political rights are not being respected. The Iranian authorities continue to clamp down on civil liberties and legitimate protest, and intimidate demonstrators, including using the death penalty against those accused of political dissent.

These problems are entirely of the Iranian government's own making and suggestions that others, such as the UK, are responsible are both disingenuous and wrong.

Iran: Sanctions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 26 January 2010, *Official Report,* columns 836W, on the Iran Refined Petroleum Sanctions Bill, what discussions he has had with *(a)* his EU counterparts, *(b)* the High Representative and *(c)* the European Commission on the proposed extraterritorial legislation; and whether a common position has been agreed. [318804]

David Miliband: The EU's opposition to extraterritorial legislation has been made clear on many occasions. There has been regular dialogue with my EU counterparts, including the High Representative's office on this matter, although as any legislation has yet to be finalised, there has been no EU common position adopted.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether sales of refined petroleum products sold to Iran by companies registered in the UK or with headquarters in the UK will be affected by the US-Iran Refined Petroleum Sanctions Bill; and what guidance his Department has issued to UK companies on the matter. [318806]

David Miliband: We have been closely monitoring progress of different draft Iran sanctions Bills through the House of Representatives and Senate. The two Houses of Congress have not agreed a final version to send to the President. As this legislation is yet to be finalised, it is too early to determine the extent of the effect it may have on UK companies. The Department for Business, Innovation and Skills provides clear guidance for exporters on extraterritorial legislation.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 26 January 2010, *Official Report*, column 836W, on the Iran Refined Petroleum Sanctions Bill, what concerns he has about the use of extraterritorial legislation in respect of Iran's nuclear programme. [318807]

David Miliband: The UK and the US are united in their determination to address the challenge posed to the international community by Iran's nuclear ambitions. We are in constant dialogue with the US Administration to ensure that all our efforts are targeted on that rather than interrupting the sovereign right of nations to regulate activities within their own territory and interfere with the freedom of countries to conduct their own independent economic policies.

Members: Correspondence

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to reply to the letter of 6 November 2010 from the hon. Member for Woking concerning his constituent Mr. Brett. [319788]

Chris Bryant: We did not originally receive the hon. Member for Woking's letter of 6 November 2009, but have now had a copy faxed to us from his parliamentary office and will reply as soon as possible.

Overseas Residents: Death

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance is provided by *(a)* British consulates and *(b)* his Department to assist the next of kin of persons who have died whilst working overseas; and if he will make a statement. [319757]

Chris Bryant: When we are aware of the death of any British national abroad we will try to contact the person's next of kin as soon as possible. If the next of kin is in the UK we will ask the UK police to inform them. If they are overseas, our staff will try to contact them. We provide information about funeral options and on returning bodies and belongings to the UK. We provide a list of local and international funeral directors. While we cannot pay expenses, we can advise on how best to transfer money from the UK to pay any necessary costs. We advise families how to register a death and put them in touch with other organisations that offer help and support.

We also provide our publication 'Guide for bereaved families'

http://www.fco.gov.uk/resources/en/pdf/2855621/bereaved-families

which brings together information that may be useful to families and friends of British nationals who die overseas.

Pakistan: Children

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has *(a)* received recent representations on (i) child labour and (ii) access to the justice system for (A) minority groups and (B) those in poverty in Pakistan and *(b)* had recent discussions with the Government of Pakistan on child labour in that country; and if he will make a statement. [318617]

Mr. Ivan Lewis: The UK is committed to working with the Government of Pakistan to address the challenges that are faced surrounding the issue of child labour. Together with our EU partners, the UK regularly raises child labour and has lobbied the Government of Pakistan to implement existing legislation which protects children from such abuse. The most recent EU demarche on this subject was in December 2009. The issue of child labour will also form part of the forthcoming EU-Pakistan Human Rights dialogue.

Peacekeeping Operations: Human Rights

Stephen Pound: To ask the Secretary of State for Foreign and Commonwealth Affairs which UN peacekeeping missions *(a)* do and *(b)* do not have a mandate to monitor human rights. [318503]

Chris Bryant: The following UN Peacekeeping missions are specifically mandated to monitor human rights:

The African Union-United Nations Hybrid Operation in Darfur (UNAMID)

The United Nations Mission in Sudan (UNMIS)

The United Nations Organization Mission in the Democratic Republic of the Congo (MONUC)

The United Nations Mission in the Central African Republic and Chad (MINURCAT)

The United Nations Stabilization Mission in Haiti (MINUSTAH)

The United Nations Mission in Liberia (UNMIL)

The United Nations Operation in Côte d'Ivoire (UNOCI)

The United Nations Integrated Mission in Timor-Leste (UNMIT)

The following UN Peacekeeping missions are not specifically mandated to monitor human rights:

The United Nations Interim Force in Lebanon (UNIFIL)

The United Nations Mission for the Referendum in Western Sahara (MINURSO)

The United Nations Disengagement Observer Force (UNDOF)

The United Nations Peacekeeping Force in Cyprus (UNFICYP)

The United Nations Truce Supervision Organization (UNTSO)

The United Nations Military Observer Group in India and Pakistan (UNMOGIP)

In Resolution 1244 the UN Security Council mandated the protection and promotion of human rights in Kosovo. While much of this work has now passed from the United Nations Interim Administration Mission in Kosovo (UNMIK) to local and other international institutions, the UN Secretary General continues to routinely report on human rights.

Additionally all UN missions provide regular in-country reporting which may include monitoring of human rights. Significant progress has been made in integrating the UN's human rights work: for example all resident co-ordinators of UN country teams must now receive human rights training.

Sri Lanka: Internally Displaced Persons

Mr. Bain: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the proposed creation of a UN expert panel to investigate allegations of abuse of internally displaced persons by the Sri Lankan army. [318583]

Mr. Ivan Lewis: We are not aware of any specific proposals for the creation of a UN expert panel to investigate allegations of abuse of internally displaced persons by the Sri Lankan army. We support the EU's call for an independent inquiry into allegations of violations of international law by both sides in the recent conflict in Sri Lanka. This could play an important role towards genuine national reconciliation. We continue to support the work of the UN in this regard, and have urged the Government of Sri Lanka to work constructively with them.

Sweden: Anti-Semitism

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on anti-Semitic hate crimes in Malmö; what recent discussions he has had with the government of Sweden on anti-Semitism in Sweden; and if he will make a statement. [318687]

Chris Bryant: While our embassy in Stockholm monitors the domestic scene in Sweden closely, they have, to date, not seen specific reporting on this issue nor have representations been made to our embassy in Stockholm.

ELECTORAL COMMISSION COMMITTEE

Constituency Organisation: Regulation

Mr. Maude: To ask the hon. Member for South-West Devon, representing the Speaker's Committee on the Electoral Commission whether the Electoral Commission undertakes impact assessments of its regulatory policies on small constituency associations. [318117]

Mr. Streeter: The Electoral Commission informs me that it is mindful of the likely impact of its regulatory work on all those it regulates, including small parties and constituency associations staffed by volunteers. The Commission further informs me that when it brings forward substantive regulatory policy proposals that have not been considered in a previous impact assessment, it prepares an initial impact assessment and invites comments on this.

DEFENCE

Afghanistan: Peacekeeping Operations

Gordon Banks: To ask the Secretary of State for Defence (1) what reports he has received of the alleged killing by NATO forces of 10 people including eight schoolchildren in the village in Ghazi Khan, Narang District in the eastern province of Kunar, Afghanistan in late December 2009; [318431]

(2) what discussions he has had with NATO allies on the reported killing by NATO forces of 10 people including eight schoolchildren in the village in Ghazi Khan, Narang District in the eastern province of Kunar, Afghanistan in late December 2009; [318432]

(3) what discussions he has had with representatives of the Government of Afghanistan on the reported killing by NATO forces of 10 people including eight

schoolchildren in the village in Ghazi Khan, Narang District in the eastern province of Kunar, Afghanistan in late December 2009. [318433]

Mr. Bob Ainsworth: The International Security Assistance Force, of which the UK is an integral part, is deeply saddened by any incident involving civilian deaths. However, this incident occurred outside of the UK Area of Operations and no UK troops were involved. In light of this, and the ongoing investigations into the incident, it is not appropriate for me to comment further.

Miss McIntosh: To ask the Secretary of State for Defence what proportion of his Department's budget has been spent on Afghanistan in the last 12 months; and if he will make a statement. [318696]

Mr. Bob Ainsworth: The net additional costs incurred on military operations in Afghanistan (Operation Herrick) are met by the Reserve and are in addition to the defence budget. The costs that the Department would have incurred regardless of the operation taking place, such as wages and salaries, are not included. Savings on activities that have not occurred because of the operation—for example training exercises—are taken into account in arriving at the net figures. The costs of operations in Afghanistan over the last 12 months fall into two financial years, as set out in the table:

£ million

Resource Type	*FY2008-09* *Final outturn*	*FY2009-10* *Estimate (as per winter supplementary estimates)*
Total resource DEL	1,655	2,209
Total capital DEL	968	1,545
Total all DELs	2,623	3,754

Armed Forces: Training

Angus Robertson: To ask the Secretary of State for Defence how many of those who completed a course at the Defence Academy in the last five years *(a)* are serving in the armed services and *(b)* are working as civilian staff for his Department. [319260]

Mr. Kevan Jones: The information requested is not held centrally and could be provided only at disproportionate cost.

Colombia: Military Aid

Mrs. Moon: To ask the Secretary of State for Defence pursuant to the answer of 11 January 2010, *Official Report*, column 742W, on Colombia: military aid, how many UK service personnel are assigned to conducting counter narcotics capacity building activities in Colombia. [317580]

Bill Rammell: I am withholding the information as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Defence: Public Expenditure

Lindsay Roy: To ask the Secretary of State for Defence what proportion of gross domestic product is spent on defence. [319546]

Mr. Bob Ainsworth: An estimated 2.6 per cent. of UK gross domestic product was spent on defence in the financial year 2008-09.

Departmental Complaints

Norman Baker: To ask the Secretary of State for Defence whether his Department has a procedure for *(a)* recording and *(b)* investigating complaints from members of the public. [319188]

Mr. Kevan Jones: Yes. The Ministry of Defence (MOD) has a complaints handling procedure that follows the Parliamentary and Health Services ombudsman best practice guidance.

Details can be found on the MOD website at the following link:

http://www.mod.uk/DefenceInternet/Help/ModComplaintsProcedure.htm

Departmental Correspondence

Norman Baker: To ask the Secretary of State for Defence whether his Department has standards of service for responding to correspondence from *(a)* members of the public and *(b)* hon. Members. [319187]

Mr. Kevan Jones: The Ministry of Defence (MOD) follows the Cabinet Office guidelines for answering correspondence from members of the public and hon. Members. The Cabinet Office target is for ministerial correspondence to be answered within 20 working days. However, the MOD has undertaken to respond to 90 per cent. of letters from MPs and Peers within 15 working days. The MOD also aims to respond to all correspondence from members of the public within 15 working days.

The Cabinet Office publishes on an annual basis, a report on Departments' and agencies' performance on handling ministerial correspondence, and the report for 2009 will be published once figures have been collated.

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Defence what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319091]

Mr. Kevan Jones: Ministry of Defence establishments will be encouraged to participate in the Earth Hour event on 27 March 2010, subject of course to operational and security considerations.

Departmental Housing

Angus Robertson: To ask the Secretary of State for Defence how much his Department received from the sale of housing stock in Scotland in each of the last five years. [319353]

Mr. Kevan Jones: The Ministry of Defence has received the following receipts from the sale of surplus housing stock in Scotland in each of the last five financial years:

Financial year	*Number of service families accommodation sold*	*Receipts received for service families accommodation sold (£ million)*
2005-06	238	14.9
2006-07	242	21.0
2007-08	107	16.0
2008-09	407	23.4
2009-10	[1]34	[1]4.6

[1] To date.

Departmental Internet

Mr. Heald: To ask the Secretary of State for Defence how many designs for its website his Department has commissioned since 2005. [318654]

Mr. Kevan Jones: The Ministry of Defence (MOD) and the armed forces collectively maintain four corporate websites. There have been the following designs commissioned across the four sites since 2005:

The MOD corporate website was completely redesigned in 2005-06 and re-launched on 1 February 2006. A series of minor design enhancements were made between June 2007 and March 2008:

www.mod.uk

The Royal Navy website was redesigned in late 2005 and re-launched on 6 February 2006. An additional refresh was carried out in 2007:

www.royalnavy.mod.uk

The British Army website was redesigned in 2008:

www.army.mod.uk

The Royal Air Force internet site was redesigned in financial year 2006-07:

www.raf.mod.uk

Information on designs commissioned for MOD websites other than the four corporate sites is not held centrally and could be provided only at disproportionate cost.

Departmental Public Consultation

Norman Baker: To ask the Secretary of State for Defence what guidelines his Department uses on public consultation; and whether those guidelines are published on his Department's website. [319054]

Mr. Kevan Jones: The Ministry of Defence (MOD) is committed to following best practice in conducting public consultations, and therefore follows the Government's Code of Practice on Consultation, which first came into effect from 1 April 2004.

The MOD's external website provides a link to the most recent version of the code, which is now displayed on the website of the Department for Business, Innovation and Skills.

Met Office

Nick Harvey: To ask the Secretary of State for Defence whether the Met Office Review Group continues to meet. [319152]

Mr. Kevan Jones: The Met Office Review Group continues to meet on a regular basis.

Nick Harvey: To ask the Secretary of State for Defence when his Department last met the Shareholder Executive to discuss the future of the Met Office; and when he expects the next such meeting to take place. [319153]

Mr. Kevan Jones: MOD officials met with the shareholder executive and discussed the future of the Met Office on 23 February 2010. MOD officials and the shareholder executive meet on a regular basis to discuss the future of the Met Office.

Nick Harvey: To ask the Secretary of State for Defence if he will meet representatives from the private weather sector to discuss the future of the Met Office. [319154]

Mr. Kevan Jones: The Secretary of State for Defence has no current plans to meet representatives from the private weather sector to discuss the future of the Met Office. However, Shareholder Executive officials have met private sector weather companies as part of the Met Office Operational Efficiency Programme review.

Nick Harvey: To ask the Secretary of State for Defence whether he has made a recent estimate of the contribution of the private weather sector to the economy. [319155]

Mr. Kevan Jones: The Secretary of State for Defence has not made a recent estimate of the contribution of the private weather sector to the economy.

Nick Harvey: To ask the Secretary of State for Defence what business models the Met Office Review Group is considering for the Met Office. [319156]

Mr. Kevan Jones: The recommendations of the Operational Efficiency Programme Asset Portfolio Document published in December 2009 outlined that the Met Office should pursue a range of value enhancing opportunities in terms of commercial business growth, improvement to its business model and efficiency through cross-government collaboration. There remains an option in the medium term that status should be kept under review as conditions and opportunities change.

Ministry of Defence Police and Guarding Agency

Mr. Drew: To ask the Secretary of State for Defence pursuant to the answer of 2 February 2010, *Official Report*, column 209W, on the Ministry of Defence Guarding Service Agency, if he will ensure that the Ministry of Defence Police remains part of the Ministry of Defence Police and Guarding Agency. [318618]

Mr. Kevan Jones: The agency status of the MOD Police and Guarding Agency is currently under review. Any changes to the structure of the agency would require ministerial agreement and also consultation with the trade unions and staff associations.

Trident

Norman Baker: To ask the Secretary of State for Defence whether, as part of the programme to develop a successor to the Trident nuclear weapons system, his Department is carrying out any studies into the feasibility of using Astute class submarines as a platform for the launch of nuclear armed cruise missiles. [319193]

Mr. Quentin Davies: No. The 2006 White Paper "The Future of the United Kingdom's Nuclear Deterrent" (Cm6994) concluded that a submarine launched ballistic missile system was the most cost-effective replacement for our existing nuclear deterrent. Cruise missiles have a number of disadvantages compared to ballistic missiles including smaller range and payload and increased vulnerability, and we are planning to replace the Vanguard class of SSBN by a new "successor" class of ballistic missile submarines.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs how many performance reviews were undertaken in respect of staff of *(a)* his Department and *(b)* its agencies in each of the last five years; in how many cases performance was rated as unsatisfactory or below; how many staff left as a direct result of such a rating; and what percentage of full-time equivalent staff this represented. [313836]

Dan Norris: DEFRA and its Executive Agencies have undertaken annual staff performance reviews for all permanent staff over the last five financial years. These comprise formal reviews at mid-year and end-year and informal reviews on an ad hoc basis. Staff appraisal information is held as individual records; this means that collated data cannot be provided without incurring disproportionate cost.

A review of 'unsatisfactory' or similar rating does not directly lead to dismissal: DEFRA and its Executive Agencies have a specific process in place to manage under or poor performance which can be implemented at any time of the year and is not necessarily triggered by the performance marking.

The number of staff dismissals in DEFRA and its Executive Agencies, due to underperformance, over the last five years is in the table and also expressed as a percentage of FTE staff.

	Number	*Percentage*
2004-05	5	0.04
2005-06	6	0.04
2006-07	10	0.07
2007-08	[1]—	[1]—
2008-09	29	0.26

[1] Suppressed on grounds of confidentiality

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of staff of *(a)* his Department and *(b)* its agencies managed out in the last five years who remain working in the public sector. [313856]

Dan Norris: The term 'managed out' is not used within the civil service, so we have considered this question as applying to redundancies.

Neither DEFRA nor its agencies record whether staff who have been made redundant have remained working in the public sector. We are therefore unable to provide the estimate requested.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on *(a)* new furnishings, *(b)* works of art and *(c)* new vehicles in each of the last two years. [312428]

Dan Norris: The Department spend was as follows:

£

	New furnishings	*Works of art*	*New vehicles*
2007-08	117,190	Nil	170,078.65
2008-09	1,593,976	23,236	714,327.51

The notable increase in furnishings for the 2008-09 year includes major new build and refurbishment projects throughout the DEFRA estate including:

Lion House, Alnwick

Dragonfly House, Norwich

Foss House, York

Refresh of the London Estate (smart-working programme)

Various Animal Health refurbishments.

Delivery and payment for new vehicles in 2007-08 was delayed into 2008-09, hence the increase in total spend.

Departmental Travel

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to the public purse of international travel undertaken by his Department has been since May 2007. [318009]

Dan Norris: From information drawn from the core Department's central booking system, the cost of international travel, which includes air, rail and hotels, is as follows:

	£
2007-08	2,130,227
2008-09	1,602,431
2009-10 (April to November 2009)	1,007,791

The cost of international travel booked outside the central booking services could be determined only at disproportionate cost.

Departmental Written Questions

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what average time his Department took to answer questions for *(a)* ordinary written answer and *(b)* written answer on a named day in the last 12 months. [313666]

Dan Norris: It is not possible to provide an average time taken to answer parliamentary questions. During the period 1 January to 31 December 2009 DEFRA received 562 named day questions, 327 of which were answered on the named day and 2,387 ordinary written questions, 2,148 of which were answered within 10 days.

The Department strives to provide hon. Members with answers to all parliamentary questions as quickly as it can.

With effect from the current Session of Parliament, each department will provide the Procedure Committee with sessional statistics on the time taken to answer written questions. This implements recommendation 24 of the third report from the Procedure Committee, Session 2008-09.

Foxes: Urban Areas

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what powers local authorities have to manage the number of foxes in urban areas. [318488]

Huw Irranca-Davies: There is no statutory duty on local authorities, or anyone else, to control foxes in their areas. In so far as authorities are owners and occupiers of property, they have the same powers to control foxes as any other owner or occupier. They also have a general discretionary power under the Local Government Act 2000 that enables them to take any action to promote social, economic or environmental well-being as long as there is no specific statutory prohibition.

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what assistance his Department provides to local authorities to tackle problems caused by urban foxes. [318489]

Huw Irranca-Davies: Natural England has published an advisory leaflet on urban foxes that describes a number of different approaches to control that are suitable in urban situations. The leaflet is available on the Natural England website or by contacting its Wildlife Management and Licensing Service.

If a local authority requested advice from DEFRA, we would recommend non-lethal methods to resolve fox problems (as territories made vacant by culling resident foxes are rapidly colonised by new individuals) and suggest the authority seeks further technical advice from a wildlife management adviser in Natural England if required.

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs how many complaints regarding urban foxes his Department received in each year of the last five years. [318490]

Huw Irranca-Davies: DEFRA occasionally receives complaints regarding urban foxes among a large quantity of correspondence about foxes more generally. This information has been held only since 2007 and it would not be reasonable or cost effective to undertake a manual search of our records to distinguish those cases that are specifically complaints about urban foxes.

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are in place to prevent instances of rabies among urban foxes. [318491]

Huw Irranca-Davies: The UK has strict controls on importing rabies susceptible animals from other countries—six-months quarantine for some cases, or vaccination followed by a six-month waiting period for certain travelling pets. These controls offer good protection against a rabies outbreak, whether in domestic animals, livestock or wildlife, including urban foxes.

DEFRA, with the Food and Environment Research Agency and other partners, maintains contingency planning arrangements for a rabies outbreak in wildlife, which are currently being reviewed and updated. Measures to tackle the disease in urban foxes would include targeted vaccination programmes, although specific control measures would be determined by expert veterinary and other advice in response to any rabies incident.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to reply to the email from the hon. Member for West Worcestershire, dated 11 January 2010, on litter and fly-tipping. [319458]

Dan Norris: I replied to the hon. Member for West Worcestershire on 22 January and have arranged for a copy of the response to be sent to him.

Parrots: Animal Welfare

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 23 February 2010, *Official Report*, column 394W, on parrots: animal welfare, if he will bring forward proposals to establish minimum cage sizes and standards for parrots. [319256]

Jim Fitzpatrick: We consider that the requirements of the Animal Welfare Act 2006 to provide for the welfare need of animals, including a suitable environment, are sufficient to ensure the proper welfare of pet parrots. Therefore we have no plans to bring forward further proposals.

Renewable Energy: Waste

Mr. Leech: To ask the Secretary of State for Environment, Food and Rural Affairs (1) on what dates the joint working group on energy from waste policy has met; [318392]

(2) what consideration the joint working group on energy from waste policy has given to end-of-waste fuels. [318393]

Dan Norris: The Energy from Waste Project Board held its first meeting on 27 January 2010.

The project is intended to provide clarity and guidance to those in local authorities and industry involved in waste management. In particular we shall be developing a more explicit hierarchy of energy recovery, seeking to define more clearly what constitutes "the right energy from the right waste". End-of-waste fuels are one of the materials the project will consider.

Mr. Leech: To ask the Secretary of State for Environment, Food and Rural Affairs when the three month period for consideration of comments made on the draft end-of-waste protocol under Article 8(2) of the Technical Standards Directive (98/34/EC) will conclude; and if he will make a statement. [318394]

Dan Norris: On 23 and 26 November 2009 the European Commission and Austria respectively commented under article 8(2) of the technical standards directive on the draft end-of-waste protocol for fuel produced from waste lubricating oil that the UK notified under article 8(1) of the directive. The UK responded to both sets of comments on 15 February 2010. In doing so, it was confirmed that the UK intended to adopt the end-of-waste protocol on the basis notified to the Commission on 27 August 2009 and that the UK would communicate the definitive text to the Commission in compliance with article 8(3) of the directive. The Environment Agency expects to publish the definitive text before the end of March 2010.

Sky Lanterns

Mr. Boswell: To ask the Secretary of State for Environment, Food and Rural Affairs what information his Department has collated on the risks posed by air-released Chinese lanterns for *(a)* grazing livestock and *(b)* ripening crops; and if he will make a statement. [318578]

Jim Fitzpatrick: DEFRA has made no formal assessment of the risks posed by air-released Chinese lanterns. However, we recognise there has been concern among farmers and livestock keepers about the effect of these lanterns on grazing livestock. Anecdotal evidence suggests that while few animals have been affected, the impacts can be severe.

We are not aware of evidence that Chinese lanterns have caused damage to ripening crops, but we appreciate concern over potential risks including fire, contamination, and litter.

We will be working with interested parties to consider how the risks may be mitigated.

Veterinary Services: Complaints

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 22 February 2010, *Official Report*, column 49W, on veterinary services: complaints, if he will *(a)* invite the group Rights 4 Pets (PrOtEcT) vets to participate in the meeting on 2 March 2010 and *(b)* meet that group to discuss its representations on the investigation of complaints against veterinary surgeons. [319020]

Jim Fitzpatrick *[holding answer 26 February 2010]*: I am meeting representatives of the Action Group Against the Disciplinary Committee of the Royal College of Veterinary Surgeons on 2 March 2010. Rather than invite the Rights 4 Pets group to this meeting at this late stage, I would be happy to meet the group on a separate occasion to discuss their concerns.

TRANSPORT

Airports: Sales

Mr. MacNeil: To ask the Minister of State, Department for Transport (1) what progress has been made on the sale of *(a)* Glasgow and *(b)* Edinburgh airports by BAA; when each such sale is expected to be completed; and if he will make a statement; [3195[illegible]]

(2) when he last met representatives from *(a)* BAA and *(b)* the Competition Commission to discuss the sale of (i) Edinburgh and (ii) Glasgow airport. [319596]

Paul Clark: The Competition Commission's market inquiry into BAA's ownership of seven UK airports included a recommendation that BAA should sell one of either Edinburgh or Glasgow airports. I have had no meetings with either BAA or the Commission on this matter. The Commission's decisions are currently the subject of legal process and it would not therefore be appropriate to comment further at this time.

Bus Services: Concessions

Hugh Bayley: To ask the Minister of State, Department for Transport how much the Government has spent on concessionary bus travel for pensioners *(a)* in England and *(b)* in the City of York in each year since such schemes were introduced. [318579]

Mr. Khan: Before 1 April 2008, funding for the statutory minimum bus concession was provided exclusively through the formula grant system. Formula grant is an unhypothecated block grant and as such it is not possible to identify how much formula grant has been allocated to local authorities for any particular service, such as concessionary travel.

When the statutory minimum concession increased from half-fare to free fare in April 2006, additional funding of £350 million in 2006-07 and £367.5 million in 2007-08 was added to formula grant to fund the additional burden to local authorities.

From April 2008, the Department for Transport has provided additional special grant funding to local authorities to cover the extra costs of providing England-wide travel of:

(a) £212 million in 2008-09 and £217 million in 2009-10 to the whole of England;

(b) £1,112,199 in 2008-09 and £1,138,431 in 2009-10 to the City of York council.

The Department for Communities and Local Government (CLG) continues to provide the bulk of concessionary travel funding to local authorities through formula grant.

The following table shows how much was spent on concessionary travel by all local authorities in England and by the City of York council since 2000, when the Government first introduced a statutory minimum bus concession. These figures include spending on both older and disabled travel concessions and include any discretionary enhancements offered by local authorities.

£ million

	2000-01	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
England	468	487	487	510	539	532	783	873	990
City of York council	0.853	1.078	1.130	1.171	2.098	1.891	2.942	3.258	4.579

Departmental Empty Property

Sarah Teather: To ask the Minister of State, Department for Transport pursuant to the answer to the hon. Member for Harrogate and Knaresborough of 5 January 2010, *Official Report*, column 90W, on departmental buildings, what the *(a)* book value and *(b)* estimated annual rental value is of vacant residential properties owned by the Highways Agency. [315966]

Chris Mole: Property owner-occupiers who are unable to sell their homes because they are directly affected by a proposed Highways Agency road scheme (i.e. likely to have land acquired in the future) and are unable to sell it at a normal market price because of the scheme, can serve a blight notice on the Highway's Agency under the blight provisions of the Town and Country Planning Acts. If the notice is accepted, the agency has to purchase the property in advance of its operational requirement. These properties cannot be sold immediately because any new owner would be able to serve another blight notice on the agency requiring it to purchase the property again. The properties could also not be sold at a normal market value. These properties are therefore held by the agency while the scheme is in the major projects programme and the route is protected from development. In some cases this can be for a number of years.

The potential annual rental income from the Highways Agency's residential properties would be £3.4 million, if all the properties were let and in good tenantable condition. The net book value of the agency's properties that are currently let is £67.3 million; the net book value of the empty properties is £22.9 million. This valuation takes into account current condition and the effect of the planned road improvement on the property.

The values and potential rental income are broken down in more detail in the following table.

		£
	Net book value	*Potential annual rental income*
Beyond economic repair	1,335,200	97,200
In sale process	8,282,000	258,504
Currently under repair/refurbishment	5,377,000	225,900
Seeking tenants	1,515,000	58,380
Awaiting demolition	362,500	23,400
Held vacant for consideration for refurbishment next financial year	6,045,000	248,940
Total for empty properties	22,916,700	912,324
Total for occupied properties	67,258,250	2,534,787
Total	90,174,950	3,447,111

Departmental Housing

Sarah Teather: To ask the Minister of State, Department for Transport what recent estimate he has made of the *(a)* potential annual rental and *(b)* total book value of (i) empty and (ii) occupied residential properties owned by his Department. [313740]

Chris Mole: Information in respect of the Driving Standards Agency and the Highways Agency is provided as follows.

The Driving Standards Agency owns the freehold of the land for its Bournemouth Driving Test Centre. Above the centre are two residential flats. Both are occupied. The Driving Standards Agency receives a peppercorn rent of £20 per annum in total. The occupiers of the flats each own the leasehold of their flat.

Property owner-occupiers who are unable to sell their homes because they are directly affected by a proposed Highways Agency road scheme (i.e. likely to have land acquired in the future) and are unable to sell it at a normal market price because of the scheme, can serve a blight notice on the Highway's Agency under the blight provisions of the Town and Country Planning Acts. If the notice is accepted, the agency has to purchase the property in advance of its operational requirement. These properties cannot be sold immediately because any new owner would be able to serve another blight notice on the agency requiring it to purchase the property again. The properties could also not be sold at a normal market value. These properties are therefore held by the agency while the scheme is in the major projects programme and the route is protected from development. In some cases this can be for a number of years.

The potential annual rental income from the Highways Agency's residential properties would be £3.4 million, if all the properties were let and in good tenantable condition. The net book value of the agency's properties that are currently let is £67.3 million; the net book value of the empty properties is £22.9 million. This valuation takes into account current condition and the effect of the planned road improvement on the property.

The values and potential rental income are broken down in more detail in the following table.

		£
	Net book value	*Potential annual rental income*
Beyond economic repair	1,335,200	97,200
In sale process	8,282,000	258,504
Currently under repair/refurbishment	5,377,000	225,900
Seeking tenants	1,515,000	58,380
Awaiting demolition	362,500	23,400

	Net book value	£ *Potential annual rental income*
Held vacant for consideration for refurbishment next financial year	6,045,000	248,940
Total for empty properties	22,916,700	912,324
Total for occupied properties	67,258,250	2,534,787
Total	90,174,950	3,447,111

Government Car and Despatch Agency

Mr. MacNeil: To ask the Minister of State, Department for Transport how many driving offences of each type were committed by drivers of the Government Car and Despatch Agency while on duty in each of the last three years. [319168]

Paul Clark: The Government Car and Despatch Agency does not hold information on driving offences.

The agency conducts an annual inspection of all driving licences of its drivers. Any driver with six or more points on his or her licence is reminded that the maintenance of a valid licence is a requirement of the job.

Hackney

Ms Abbott: To ask the Minister of State, Department for Transport if he will set out, with statistical evidence relating as closely as possible to Hackney, North and Stoke Newington constituency, the effects on that constituency of his Department's policies since 1997. [318375]

Mr. Khan: The Department for Transport (DFT) does not routinely hold transport statistics on a parliamentary constituency basis. The Department provides Transport for London (TfL) with a block grant to fund transport delivery in London. This grant has more than doubled in the last nine years, rising to almost £3 billion in 2009-10. Drawing on these and other resources, the Mayor is responsible for publishing and, through TfL, implementing a transport strategy for London, while the boroughs are required to publish local implementation plans which set out how they will contribute to the Mayor's strategy.

The additional funding that has been made available has helped deliver 1,089 million passenger journeys on the tube in 2008-9, the highest ever. London Underground's scheduled service is now its largest ever, and in 2008-09 96.4 per cent. was run, the best annual result for 14 years.

Bus services in London have also improved. 2,247 million passenger journeys were made in 2008-09 and patronage grew by almost 47 per cent. between 1997-98 and 2007-08.

Rail routes serving Hackney, North and Stoke Newington have also improved. Served by National Express East Anglia, this franchise has seen punctuality increase from 85 per cent. to 91 per cent. since 2004, over 450 carriages have been refurbished and many stations have been upgraded.

On the roads, national targets to reduce the number of people killed or seriously injured by 40 per cent. and reduce the number of "slight" casualties by 10 per cent. (compared to the period 1994-98) by 2010 were largely exceeded by TfL by 2004, leading to TfL setting themselves new targets of 50 per cent. and 25 per cent. respectively.

There have also been improvements to cycling across London. In May 2010 TfL will launch its cycle hire scheme and construction of the cycle superhighways is now under way; one route will run from Tottenham to the City through Hackney. TfL report that cycling now accounts for 2 per cent. of trips in London compared to 1.2 per cent. in 2000, and between 2000-01 and 2007-08 TfL's automatic cycle counters reported an increase in cyclists of 91 per cent.

Motor Vehicles: Lighting

Mrs. Ellman: To ask the Minister of State, Department for Transport what research *(a)* his Department and *(b)* its agencies have undertaken on the effectiveness of (i) halogen and (ii) bi-xenon headlights. [318636]

Paul Clark: The Department for Transport has commissioned two studies related to the effectiveness of halogen and bi-xenon headlights.

TRL carried out a review of existing research on gas discharge (i.e. bi-xenon) headlights in 1994 to assist in the development of European regulations on the subject.

In 2000, ICE ergonomics at Loughborough University studied headlight glare and driver vision to help establish a basis against which future headlamp performance requirements might be assessed.

Railway Network

Norman Baker: To ask the Minister of State, Department for Transport how many new miles of railway track have been *(a)* brought into use and *(b)* laid at each location since 1997. [319072]

Chris Mole *[holding answer 26 February 2010]:* The Department for Transport does not hold information on when and where railway track has been added to or taken away from the national network.

This is an operational matter for Network Rail as the owner and operator of the national rail network. The hon. Member should contact Network Rail's chief executive at the following address for a response to this question:

Iain Coucher
Chief Executive
Network Rail
Kings Place
90 York Way
London, N1 9AG.

Railways

Mr. Ellwood: To ask the Minister of State, Department for Transport pursuant to the answer of 22 February 2010, *Official Report*, columns 199-201W, on railways, if he will have discussions with the Association of Train Operating Companies on amending National Rail Conditions of Carriage to permit surfboards to be transported on trains. [319691]

Chris Mole: Wider discussions are already taking place between the Department for Transport and the Association of Train Operating Companies about the National Rail Conditions of Carriage. At the same time a general review of the Conditions of Carriage is under way to ensure that they are in accordance with current consumer law.

The Association of Train Operating Companies has reviewed in particular the table in Section II Appendix B relating to the carriage of specified articles, including surfboards. The outputs of this review will be a proposal from the Association of Train Operating Companies on behalf of their members for the approval of the Secretary of State.

Roads: Flooding

Sarah Teather: To ask the Minister of State, Department for Transport how much his Department has spent on repairs to flood-damaged roads and related infrastructure in each of the last five years. [318661]

Mr. Khan: Following the 2007 summer floods this Department allocated £41 million funding to 10 local authorities to assist them to repair damage to their local highways caused by flooding. In 2009 this Department allocated £2.6 million to Northumberland to assist them repair damage to their highways caused by flooding.

This Department is currently working with Cumbria county council to assist them to identify the full damage to their highways network caused by flooding in November. To date, the authority have been allocated £4.6 million to cover the costs of establishing a temporary road bridge in Workington over the River Derwent to replace those damaged or destroyed. In addition the Army erected a temporary footbridge also over the River Derwent in Workington at a cost to the Government of £1 million.

This Department has agreed to contribute £30,000 towards the costs of short-term project management for Cumbria county council to develop their transport infrastructure recovery plan.

Because of the closure of the road bridges in Workington a temporary rail station at North Workington has opened and additional rail services have been put in place to allow transport across the River Derwent. The estimated cost to this Department of funding the additional rail services until May 2010 is £1.2 million.

PRIME MINISTER

Binyam Mohamed

David Davis: To ask the Prime Minister if he will publish the report on Binyam Mohamed which the Intelligence and Security Committee has made to him. [318917]

The Prime Minister: This will be published alongside the Intelligence and Security Committee's views on the consolidated guidance to intelligence officers and service personnel on standards during the detention and interviewing of detainees overseas.

Bullying

Mr. Maude: To ask the Prime Minister with reference to the answer of 1 September 2009, *Official Report*, column 1815W, on Civil Service: bullying, how many complaints of bullying in the workplace have been made by Downing Street employees in each year since 2007. [318322]

The Prime Minister: I refer the right hon. Member to the press briefing given by the official spokesman on 22 February 2010. A transcript of this is available on the No. 10 website at:

http://www.number10.gov.uk/Page22576

Departmental Internet

Mr. Heald: To ask the Prime Minister how many designs for its website his Office has commissioned since 2005. [318644]

The Prime Minister: My Office has commissioned one design for its website since 2005.

Detainees

Mr. Hague: To ask the Prime Minister with reference to the statement of 18 March 2009, *Official Report*, columns 55-56WS, on detainees, when he expects to publish guidance to intelligence officers and service personnel on standards during the detention and interviewing of detainees overseas; and for what reason its publication has been delayed. [318802]

The Prime Minister: The Government remain committed to publishing the guidance as soon as the views of the Intelligence and Security Committee have been received.

Mr. Hague: To ask the Prime Minister with reference to the statement of 18 March 2009, *Official Report*, columns 55-56WS, on detainees, whether the Intelligence Services Commissioner has conducted his first annual review of compliance with the guidance to intelligence officers and service personnel on standards during the detention and interviewing of detainees overseas; and if he will make a statement. [318803]

The Prime Minister: Sir Peter Gibson's role in monitoring compliance with the guidance will commence when the consolidated guidance is published and in operational use.

Electoral Systems: Referendums

Mr. Dai Davies: To ask the Prime Minister if he will consider the merits of including in any referendum held on electoral reform questions to include public support for *(a)* the Lisbon treaty and *(b)* Trident replacement. [319669]

The Prime Minister: I have no plans to do so.

HEALTH

Autism

Mr. Streeter: To ask the Secretary of State for Health what account will be taken of the mental health needs of adults with autism in the forthcoming adult autism strategy. [318965]

Phil Hope: The autism strategy aims to ensure that mainstream public services become more inclusive of people with autism. This will mean ensuring that individuals' needs—including mental health needs—are assessed and that people with autism get the right kind of support to address their assessed needs.

Derek Wyatt: To ask the Secretary of State for Health when he expects to publish the delivery plan for the adult autism strategy. [318973]

Phil Hope: The delivery plan, scheduled for publication in March 2010, will set out in more detail the timescale for delivery in the first year. Further delivery plans will be prepared for the second and third years of the strategy.

Derek Wyatt: To ask the Secretary of State for Health whether he has commissioned an autism prevalence study; and if he will make a statement. [319257]

Phil Hope: The NHS Information Centre (IC) issued invitations to tender to short list potential providers, to deliver much clearer information on the prevalence of autism in the population.

The procurement exercise is now nearing its conclusion and the NHS IC is looking to award the contract by the end of the month. The Department hopes to publish the findings in spring 2011.

David Howarth: To ask the Secretary of State for Health pursuant to the answer of 10 February 2010, *Official Report,* columns 1042W, on autism, when he plans to publish the delivery plan for the adult autism strategy to be produced under section 1 of the Autism Act 2009. [319640]

Phil Hope: The delivery plan, scheduled for publication in March 2010, will set out in more detail the timescale for delivery in the first year. Further delivery plans will be prepared for the second and third years of the strategy.

Blood: Contamination

David Davis: To ask the Secretary of State for Health how many people there are with bleeding disorders infected with *(a)* hepatitis C and *(b)* HIV as a result of being treated with contaminated blood products. [318623]

Gillian Merron: Based on historical data on clotting factor exposure, the United Kingdom Haemophilia Centre Doctors' Organisation estimates that there were 2,807 patients with bleeding disorders still living on 31 March 2009, who had been exposed to hepatitis C through contaminated blood products. Of these, around 15 per cent. would be expected to have cleared the virus naturally.

Source:

UK Haemophilia Centres Doctors' Organisation Annual Report 2009 and Bleeding Disorder Statistics for the Financial Year 2008-09 (September 2009), table 15.

The number of patients with bleeding disorders infected with HIV, who were still living on 31 March 2009, is 346.

Source:

The Macfarlane Trust Annual Financial Report for the Year Ending 31 March 2009.

Care UK: Greater Manchester

Paul Rowen: To ask the Secretary of State for Health how many patients have been assessed and treated by the Greater Manchester clinical assessment and treatment centre operated by Care UK since its inception. [319687]

Mr. Mike O'Brien: Since service commenced in February 2009, 24,596 patients have been discharged by the Greater Manchester clinical assessment and treatment service.

Paul Rowen: To ask the Secretary of State for Health whether he has made an estimate of the cost to the public purse *(a)* per annum and *(b)* per patient of treatment of each type at the clinical assessment and treatment service operated by Care UK in Greater Manchester. [319833]

Mr. Mike O'Brien: The estimated per annum cost of treatment of each type undertaken by the Greater Manchester clinical assessment and treatment service (CATS) is shown in table 1 as follows.

Table 1. Estimate of cost per annum of treatment of each type

£

Treatment type	*Year 1*[1]	*Year 2*	*Year 3*	*Year 4*	*Year 5*	*Year 6*	*Year 7*
Clinical Triage	968,323	1,482,222	1,521,951	1,514,881	1,505,759	1,544,764	1,585,301

[1] Year 1 shows actual costs; subsequent years are nominal contract values.

[2] Includes direct access activities performed as non-contracted activity.

The cost of treatment per patient for each treatment type is shown in table 2 as follows.

Table 2. Estimate of cost of treatment per patient by treatment type[1]

Treatment type	*Estimated cost*[1] *(£)*
Clinical Triage	18.36
Direct Access Diagnostics	233.84
Direct Access General Surgery	549.36
Direct Access Gynaecology	—
Direct Access Time Limited Therapy	239.64
Direct Access Urology	—
Ear, Nose and Throat	233.89
General Surgery	339.84
Gynaecology	308.21
Musculoskeletal	336.01
Time Limited Therapy	259.77
Urology	343.82

[1] The costs shown are per patient. A patient may have multiple procedures during their treatment pathway.

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Health what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319094]

Phil Hope: The Department will be alerting its staff to the Earth Hour as part of our wider sustainable development communications. However, since it occurs on a Saturday evening when most of our buildings have very low occupancy levels, we have no plans to mark it across our estate. In line with our standing practice, lighting will be dimmed in all our buildings and only lit where it is absolutely essential.

Departmental Finance

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many arm's length bodies for which his Department is responsible there have been at the start of each financial year since 1997-98; how many staff each such body employed in each year; and what the annual budget was of each such body in each year. [318182]

Phil Hope: The details requested are available in published documents, including the "Annual Reports and Accounts" of the individual non-departmental public bodies, special health authorities and executive agencies.

The Cabinet Office published a detailed overall public bodies document, covering the whole of central Government, for each of the financial years 1997-1998 to 2005-2006. The documents are available from the civil service website at:

www.civilservice.gov.uk/about/resources/ndpbs.aspx

These publications list the Department's executive non-departmental public bodies and special health authorities, and provide details of funding, expenditure and staff employed. The Department's annual "Departmental Reports" also list its agencies for each year. These documents are available from the Department's website:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/AnnualReports/index.htm

From 2006-07 onwards, the Cabinet Office has published an overall summary public bodies document, without the previous level detail. However, the Department has published its own public bodies document annually containing this detailed information. Copies of the Department's public bodies documents for 2007, 2008 and 2009 have been placed in the Library. "Public Bodies 2007, 2008 and 2009" are also available from the following website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_113099

Departmental Internet

Mr. Heald: To ask the Secretary of State for Health how many designs for its website his Department has commissioned since 2005. [318650]

Phil Hope: The Department's website was re-designed once in this period, in February 2008.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Health how many layers of management reporting from the most senior to the most junior there are in his Department and each of its agencies; how many officials are employed in each such layer; and how much was spent on salaries and associated employment costs of staff at each such layer in the latest year for which information is available. [312819]

Phil Hope: The Department and its agencies use grading structures which do not necessarily exactly equate to management layers. Within the Department and its agencies there are 11 separate grades. Details of each grade, full-time equivalent staff, and annual pay bill costs for the core Department and its agencies are given in the following tables.

Core Department of Health

The following figures given are for equivalent numbers of full-time staff (FTE) and are a 'snapshot', reported to the Office for National Statistics (ONS) as at 31 March 2009.

Grade	*FTE as at 31 March 09*
Permanent Secretary	3.0
Director General	14.0
Director	53.7
Deputy Director and equivalents	184.9
Grade 6	252.8
Grade 7	450.8
SEO	367.1
Fast Stream	61.0
HEO	302.6
EO	382.2
AO	114.1
Miscellaneous[1]	72.4
Total	2,258.5

[1] The miscellaneous category includes spot rate staff, fee paid staff, Ministers, special advisers and miscellaneous grades.

The staff figures have been published by ONS and can be found in the Civil Service Statistics 2009 (Table 11) on the following website:

www.statistics.gov.uk/StatBase/Product.asp?vlnk=2899

The pay bill figures as follows are for the full financial year 2008-09 and the following table was also part of the Department's Resource Accounts for 2008-09.

The overall pay bill for each grade in the table includes: salary, employer's national insurance contribution, employer's superannuation contribution, non-consolidated performance-related payments, allowances and, where appropriate, overtime.

Grade	*2008-09 Pay bill (£000)*
Permanent Secretary	659
Director General	2,260
Director	9,848
Deputy Director and equivalents	23,093
Grade 6	22,783
Grade 7	31,327
SEO	17,569
Fast Stream	2,652
HEO	12,223
EO	12,804
AO	3,381
Miscellaneous	2,478
Total	141,077

Please note that there are compositional differences between the two data sets presented above: ONS numbers provided for staff full-time equivalents (FTE) give the best measure of how many people work at the Department and at what level. Some individuals working within the Department are not on payroll, for example they are secondees in. The second table includes payroll costs of secondments and loans out (but not income associated with secondments out), whereas secondments and loans out are excluded in the ONS definitions for staff numbers. Additionally, payroll costs are for the whole year while ONS figures are snapshot.

Medicines and Healthcare products Regulatory Agency (MHRA)

The following table has been produced by the Medicines and Healthcare products Regulatory Agency's (MHRA) finance division in accordance with the principles used to publish the MHRA's 2008-09 accounts.

Grades	*Average FTE*	*Annual salary and associated employment costs (£000)*
Director General	2	387
Director	5	884
Deputy Director	101	11,572

Departmental Publications

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether the copyright on the Platt Review on the establishment of a social care journal is owned by his Department. [318222]

Phil Hope: Copyright for the Raising the Status of Social Care report in 2007 rests with Dame Denise Platt CBE.

General Practitioners: Pay

Mr. Amess: To ask the Secretary of State for Health what the *(a)* median and *(b)* mean salary of a GP in each region was in (i) nominal and (ii) real terms in each year since 1997. [318690]

Mr. Mike O'Brien: The information is not fully available in the format requested.

Average (mean) information before 2004-05 at strategic health authority (SHA) and Government office regional (GOR) level and before 2001-02 at England level is unavailable.

Median information is unavailable at SHA/GOR and England levels.

Such data as are available have been combined into a table, which has been placed in the Library.

Health Services: Channel Islands

Andrew Mackinlay: To ask the Secretary of State for Health how many individuals from *(a)* Guernsey and *(b)* Jersey have had emergency admission and received treatment from an NHS hospital since the cancellation of the reciprocal health agreement between the Channel Islands and the UK on 1 April 2009; and how many such individuals (i) have been charged the costs of treatment and hospitalisation, (ii) have been billed for costs of treatment and hospitalisation but have yet to make payment, (iii) were exempt from charges by virtue of (A) being in receipt of a UK state pension and having lived in the UK for 10 continuous years, (B) being a spouse or civil partner visiting the UK with an exempt UK state pensioner and (C) being a child visiting the UK with an exempt UK state pensioner; and if he will make a statement. [319359]

Gillian Merron: This information is not held centrally.

Andrew Mackinlay: To ask the Secretary of State for Health by what method costs have been recouped in respect of charges incurred in emergency hospital admission and treatment of visitors to *(a)* the UK and *(b)* England from (i) Guernsey and (ii) Jersey since the cancellation of the reciprocal health agreement between the Channel Islands and the UK health services on 1 April 2009; and if he will make a statement. [319361]

Gillian Merron: This information is not held centrally. It is for individual trusts to decide how charges are recouped in terms of methodology. This will depend on the circumstances of individual cases.

Andrew Mackinlay: To ask the Secretary of State for Health how much has been recouped in charges from visitors from Guernsey and Jersey since the cancellation on 1 April 2009 of the reciprocal health agreements between the Channel Islands and the UK consequent upon their emergency admission and receipt of treatment in UK NHS hospitals; and if he will make a statement. [319696]

Gillian Merron: This information is not recorded centrally.

Health Services: Feltham

Alan Keen: To ask the Secretary of State for Health how much has been spent on NHS healthcare in Feltham and Heston constituency in each year since 1997. [318597]

Mr. Mike O'Brien: The following table shows the amount spent on healthcare services by Hounslow Primary Care Trust (PCT) from 2002-03 to 2008-09, which are the only years for which information is available by organisation.

Hounslow PCT—purchase of healthcare 2002-03 to 2008-09

£000

	Primary healthcare	*Secondary healthcare*	*Other healthcare*	*Total healthcare*
2008-09	77,753	219,184	0	296,937
2007-08	74,844	211,213	209	286,266
2006-07	74,258	201,055	1,020	276,333
2005-06	64,351	197,277	210	261,838
2004-05	56,090	206,485	8,093	270,668
2003-04	51,332	182,177	236	233,745
2002-03	37,303	160,932	1,263	199,498

GP Practice Nurses	*	*	*	*	*	*	*	*	*	*	*	*

"*" = Denotes not applicable.

[1] Data exclude Medical Hospital Practitioners and Clinical Assistants, most of which are GPs working part-time in hospitals.

[2] In 2006 GP Practice Nurse headcount data for Hounslow PCT were estimated using the national average ratio of full-time equivalent (FTE) to headcount.

Notes:

1. Workforce data are not available by constituency. Feltham and Heston constituency is contained within and serviced by Hounslow PCT and West Middlesex University Hospital NHS Trust.
2. Hounslow PCT was formed in 2002. It is not possible to accurately map workforce figures for this organisation prior to the formation of the PCT.

Data Quality:

The NHS Information Centre for health and social care seeks to minimise inaccuracies and the effect of missing and invalid data but responsibility for data accuracy lies with the organisations providing the data. Methods are continually being updated to improve data quality where changes impact on figures already published. This is assessed but unless it is significant at national level figures are not changed. Impact at detailed or local level is footnoted in relevant analyses.

The NHS Information Centre for health and social care Non-medical Workforce Census

Health Services: Greater Manchester

Paul Rowen: To ask the Secretary of State for Health whether he has made an estimate of the average unit cost per patient of *(a)* orthopaedic, *(b)* ear, nose and throat and *(c)* gynaecology and urology (i) assessment and (ii) treatment by (A) NHS hospitals and (B) the clinical assessment and treatment service operated by Care UK in Greater Manchester. [319834]

Mr. Mike O'Brien: The Department does not hold the information in the format requested. We will arrange for the information to be prepared and a table will be placed in the Library as soon as possible.

Health Services: Isle of Man

Andrew Mackinlay: To ask the Secretary of State for Health (1) what discussions he has had with his counterpart in *(a)* Scotland, *(b)* Northern Ireland and *(c)* Wales on the modalities of and method for (i) recording and (ii) collecting charges from visitors from the Isle of Man who are detained and in receipt of emergency treatment in hospitals in (A) England, (B) Scotland, (C) Wales and (D) Northern Ireland consequent on the cancellation of the reciprocal health agreement between the Isle of Man and each UK health service with effect from 1 April 2010; and if he will make a statement; [319357]

(2) by what means he proposes to identify those visitors from the Isle of Man who are exempt from charges by virtue of *(a)* being in receipt of a UK state pension and having lived in the UK for 10 continuous years, *(b)* being a spouse or civil partner visiting the UK with an exempt UK state pensioner and *(c)* being a child visiting the UK with an exempt UK state pensioner following the cancellation of the reciprocal health agreement; and if he will make a statement; [319358]

(3) by what means it is proposed to *(a)* identify and *(b)* collect charges from visitors from the Isle of Man who are hospitalised whilst in the UK following the cancellation of the reciprocal health agreement on 1 April 2010; and if he will make a statement. [319360]

Gillian Merron: Under the national heath service (Charges to Overseas Visitors) Regulations 1989, as amended, trusts have a legal duty to identify and charge those overseas visitors to the United Kingdom who are not exempt from charges, and to make and recover from them charges for their treatment.

The Department has produced comprehensive guidance for the NHS to use when implementing these regulations, and most trusts have an Overseas Visitors Manager in post to oversee this. Trusts are advised to ask baseline questions to each patient to quickly identify if they have not lived lawfully in the UK for the past 12 months, and if they have not, to then interview them to establish if charges apply. It is a matter for individual trusts how they collect any charges that are due. The Department is contacting every trust informing them of the need to treat residents of the Isle of Man as overseas visitors from 1 April 2010 following the termination of the reciprocal healthcare agreement.

Following discussions with departmental officials, the Devolved Administrations are putting in place their own arrangements in order to inform their organisations of the changing circumstances.

Hospitals

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many *(a)* general acute hospitals, *(b)* multi-service hospitals, *(c)* short-term non-acute hospitals, *(d)* long-stay hospitals, *(e)* specialist hospitals and *(f)* community hospitals there were in England according to the most recent Estates Return Information Collection data in each financial year from 1997-98 to 2008-09. [318186]

Mr. Mike O'Brien: The available information is shown in the following table but comes with a heavy caveat that definitions have changed over the years and a new category of 'Community Hospitals' has been introduced. These changes will have a significant effect on the numbers in categories and direct comparison year on year therefore will not be valid.

	Number of sites						
	General acute hospitals	*Multiservice hospitals*	*Short-term non-acute hospitals*	*Long-stay hospitals*	*Specialist hospitals*	*Community hospitals*	*Total*
2000-01	392	—	390	394	—	—	1,176
2001-02	335	165	384	400	161	—	1,445
2002-03	312	209	376	426	192	—	1,515
2003-04	280	231	397	364	176	—	1,448
2004-05	290	221	414	331	170	—	1,426
2005-06	277	237	413	343	168	—	1,438
2006-07	270	139	252	295	174	404	1,534
2007-08	258	135	229	294	161	402	1,479
2008-09	274	135	219	273	185	428	1,514

Data on national health service sites were not collected by the estates related information collection before 2000-01. Data on multi-service hospitals and specialist hospitals were not collected before 2001-02 and community hospital data were not collected before 2006-07. With the introduction of additional categories, hospitals in one category may have been moved to another.

Until 2003-04, the provision of these data was mandatory for all NHS organisations. From 2004-05 onwards, provision of these data was mandatory for NHS organisations but voluntary for NHS foundation trusts, therefore, the data for this period may be incomplete.

The data are presented as provided by the NHS and have not been amended centrally. Any inherent errors in the data will not have been corrected and questions regarding their accuracy should be addressed to the organisations concerned.

Since 2000, 118 new hospital schemes have opened.

Modernising Scientific Careers Programme

Norman Lamb: To ask the Secretary of State for Health who will be responsible under the Modernising Scientific Careers programme for *(a)* funding and *(b)* delivering audiology training courses. [318254]

Ann Keen: Higher education institutions in partnership with strategic health authorities and service providers will provide the new education and training programmes.

NHS: United Health Group

Jim Cousins: To ask the Secretary of State for Health what contracts the NHS has with the United Health Group and its subsidiaries. [318827]

Mr. Mike O'Brien: This information is not held centrally.

Sexually Transmitted Diseases: Health Services

Sarah Teather: To ask the Secretary of State for Health how many sexual health clinics in each primary care trust have obtained accreditation under his Department's "You're Welcome" scheme. [318585]

Gillian Merron: The following table outlines how many sexual health services in each primary care trust (PCT) have "You're Welcome" accreditation, and how many have met the criteria but are awaiting accreditation.

PCT	*Number of "You're Welcome" accredited sexual health clinical services*	*Number of sexual health clinical services meeting the "You're Welcome" criteria and awaiting accreditation*
Barnet	—	1
Blackburn and Darwen	1	—
Blackpool	1	—
Bolton	1	—

PCT	*Number of "You're Welcome" accredited sexual health clinics/ services*	*Number of sexual health clinics/ services meeting the "You're Welcome" criteria and awaiting accreditation*
Bradford and Airedale	3	—
Greenwich	—	6
Lambeth	2	1
Liverpool	1	—
Manchester	1	—
Middlesbrough	1	—
Milton Keynes	1	—
Northumberland	2	—
Newcastle	1	—
Oldham	1	—
Portsmouth	1	—
Stockport	1	—
Westminster	1	1

Spectacles: Irlen Syndrome

Mr. Sanders: To ask the Secretary of State for Health if he will bring forward proposals to provide the spectacles required by *(a)* children and *(b)* those on low incomes who have Irlen syndrome at no cost to the recipient. [318663]

Ann Keen: Optical vouchers to help with the purchase of glasses or contact lenses with a prescription power are available to children and to those on low incomes or in receipt of benefits.

Where a child experiences symptoms associated with descriptions of Meares Irlen syndrome the child's parents or carer should discuss the problem with the school and consult an optometrist to ensure that they do not overlook the possibility of refractive error or eye disease underlying the difficulty. If, after a sight test (and supply of glasses if necessary), a child is still experiencing difficulties then a wider assessment is called for.

The best interests of children are likely to be served by a scheme of assessment and treatment, provided in agreement between local health and education services, which takes into account the full range of possible ways of helping children with the symptoms associated with descriptions of Irlen syndrome.

INTERNATIONAL DEVELOPMENT

Bangladesh: Floods

Mr. Bain: To ask the Secretary of State for International Development what the outcomes were of his recent discussions with the government of Bangladesh, with particular reference to the £60 million of Government funding for mitigation of the impact of global warming in Bangladesh. [318611]

Mr. Thomas: Officials of the Department for International Development (DFID) are in regular contact with representatives of the Government of Bangladesh. A senior official represented DFID at the Bangladesh Development Forum meeting, held in Dhaka on 15 and 16 February. During this meeting the Government of Bangladesh confirmed their wish to establish a Multi-Donor Trust Fund for Climate Change. Decisions on how the fund will be allocated will be led by the Government of Bangladesh, which will also be responsible for implementing projects supported by the fund. The World Bank will provide technical advice and financial management. The UK, the European Union and Denmark will provide grants to the fund.

Bangladesh: Overseas Aid

Derek Wyatt: To ask the Secretary of State for International Development to what projects and programmes he has allocated funding for the development of micropayment transaction systems in Bangladesh in the last five years. [318912]

Mr. Michael Foster: The Department for International Development (DFID) has funded the £13.4 million Remittances and Payments Partnership (RPP) project since 2006. RPP is helping to modernise Bangladesh's payment systems, including supporting the legal framework for micropayment transactions and reducing the costs of remittances for the poor. A challenge fund under RPP has supported both piloting and scaling up of innovative micropayment transaction systems.

DFID has not supported any other such projects or programmes in Bangladesh in the last five years.

Derek Wyatt: To ask the Secretary of State for International Development how much funding the *(a)* Grameen bank and *(b)* Bangladesh Rural Advancement Committee has received for the purposes of developing a micropayment transaction system in the last five years. [318913]

Mr. Michael Foster: The Department for International Development (DFID) has not provided any funding to either Grameen Bank or BRAC to develop micropayment transaction systems in the last five years.

Derek Wyatt: To ask the Secretary of State for International Development whether he has had recent discussions with *(a)* Muhammad Yunus and *(b)* Grameen bank on micropayment transactions in Bangladesh. [318914]

Mr. Michael Foster: The Department for International Development (DFID) has had no such recent discussions with Professor Yunus or with Grameen Bank.

DFID, together with the Consultative Group to Assist the Poor (CGAP), recently organised a conference on "Expanding Financial Services in Bangladesh" to which Grameen Bank was invited along with other banks and micro-finance lenders. Discussions at the conference focused on how to reach those without bank accounts and improve payment systems in Bangladesh, particularly using mobile telephones.

Departmental Advertising

Mr. Weir: To ask the Secretary of State for International Development how much *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible spent on advertising in 2009. [318835]

Mr. Michael Foster: The Department for International Development (DFID) works in over 100 countries across the world and advertising can play a significant role in achieving development programme objectives including the promotion of health issues. It is not possible to disaggregate these costs from development programme expenditure without incurring disproportionate costs.

The Commonwealth Scholarship Commission spent £5,888.90 on advertising in 2009. DFID is not responsible for any executive agencies.

Departmental Carbon Emissions

Mr. Weir: To ask the Secretary of State for International Development what estimate he has made of the amount of carbon dioxide emissions from his Department's buildings in each year since 2005. [318834]

Mr. Michael Foster: The Department for International Development (DFID) records and reports its environmental performance on a financial year basis. Data on energy use on the UK estate, and the corresponding carbon emissions, is reported in accordance with the "Sustainable Operations on the Government Estate" targets and is available on the websites of the Office of Government Commerce (OGC) and the Sustainable Development Commission (SDC).

The carbon dioxide emissions from our UK estate since 2005 were as follows:

	Tonnes
2005-06	4,574
2006-07	4,607
2007-08	4,387
2008-09	3,945

Departmental Energy

Dan Rogerson: To ask the Secretary of State for International Development what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319096]

Mr. Michael Foster: The Department for International Development (DFID) will participate in the Earth Hour event, and take action to ensure that all non-essential lighting in our UK offices is turned off during this time. We will also be actively encouraging our overseas offices to take whatever action they can, depending on local circumstances.

Departmental Internet

Mr. Heald: To ask the Secretary of State for International Development how many designs for its website his Department has commissioned since 2005. [318648]

Mr. Michael Foster: Since 2005, the Department for International Development (DFID) has commissioned one new design, preceded by a simple refresh which enabled feedback to be gathered and inform the new design.

Developing Countries: Water

Mr. Moore: To ask the Secretary of State for International Development whether he plans to attend UNICEF's high level meeting on water and sanitation in April 2010; and if he will make a statement. [318580]

Mr. Michael Foster: This is a very important event and the Department for International Development (DFID) has been working closely with UNICEF to help ensure it is a success. I hope that the Secretary of State or I will be able to attend. If, however, for unavoidable reasons this is not possible, we will ensure that DFID is represented at a high level.

Haiti: Earthquakes

Mr. Jenkin: To ask the Secretary of State for International Development how much his Department has spent on relief and deployments to Haiti since the earthquake on 12 January 2010. [319430]

Mr. Michael Foster: Since the earthquake on 12 January 2010, the Department for International Development (DFID) has allocated £20 million for relief and recovery in Haiti.

Overseas Aid

Mr. Bain: To ask the Secretary of State for International Development whether he has made an assessment of the merits of taking steps to assist developing countries to follow the procurement and contracting procedures set by the World Bank in respect of access to aid. [318610]

Mr. Thomas: The World Bank offers assistance to help developing countries understand and use its procurement systems. No requests have been made by the World Bank or developing countries for assistance from the Department for International Development (DFID) and we have not carried out an assessment.

Sri Lanka: EU External Trade

Mr. Dismore: To ask the Secretary of State for International Development what his Department's policy is on the suspension of Sri Lanka's GSP+ trade preference scheme status; and if he will make a statement. [31[illegible]]

Mr. Michael Foster: The Department for International Development (DFID) fully supports the EU's decision to remove GSP+ trade preferences from Sri Lanka. Failure to implement core human rights conventions in Sri Lanka is unacceptable and the European Commission's report into these failures made the decision a straightforward one. I understand the importance of GSP+ to the Sri Lankan economy and I hope the EU's decision will encourage the government to take necessary action to implement its human rights obligations under GSP+.

The Foreign Secretary released a written ministerial statement to Parliament on 23 February 2010, *Official Report*, columns 36-38WS, outlining recent developments in the political and humanitarian situation in Sri Lanka, including the UK position on GSP+.

Sudan: Non-Governmental Organisations

Angus Robertson: To ask the Secretary of State for International Development which non-governmental organisations his Department is funding to conduct aid work in *(a)* Sudan and *(b)* Iraq; and how much each such organisation has been allocated for work in each country for 2009-10. [318797]

Mr. Michael Foster: Details of the Department for International Development's (DFID) bilateral aid delivered by non-governmental organisations (NGOs) in recipient countries are published annually in "Statistics on International Development", which is available in the House Library or online at:

www.dfid.gov.uk.

Final data for 2009-10 is not yet available and will be published in the 2010 edition of "Statistics on International Development".

Following is a list of NGOs DFID is currently funding to conduct working in Sudan and Iraq in 2009-10. In addition to the direct funding to NGOs, DFID also provides support to a number of pooled funds through which NGOs can access funding; it is not possible to break down the recipients of these funds.

Sudan

Medair
Tear Fund
GOAL
Malaria Consortium
Red R

Iraq

International Red Cross
BBC World Service Trust
Care International
Christian Aid
Help Age International
Mines Advisory Group
Save the Children.

HOME DEPARTMENT

Al-Qaeda

Chris Grayling: To ask the Secretary of State for the Home Department how many *(a)* individuals and *(b)* asylum seekers resident in the UK are on the UN list of those belonging to or associated with al-Qaeda. [317773]

Alan Johnson: The latest UN Consolidated List of individuals who are associated with al-Qaeda is available on the UN Security Council Sanctions Committees' website at:

http://www.un.org/sc/committees/1267/consolist.shtml

We do not provide information that might identify those who have sought asylum in the United Kingdom, for obvious reasons.

Anti-terrorism Control Orders

Mr. Dismore: To ask the Secretary of State for the Home Department pursuant to the answer of 10 February 2010, *Official Report*, column 1053W, on control orders, if he will set out the working practices which allow judges and special advocates to access closed judgments; and if he will make a statement. [318762]

Mr. Hanson *[holding answer 25 February 2010]:* There are no restrictions on judges accessing closed judgments unless there are exceptional circumstances.

Practical arrangements have been developed to enable special advocates to see closed judgments in cases in which they are not instructed. The Special Advocates Support Office (SASO) maintains a library and database of all closed judgments. If a special advocate wishes to see a closed judgment he or she directs a request to the SASO, giving reasons why he or she needs to see it.

SASO will provide the judgment as long as adequate justification is provided. SASO keep a record of to whom and when judgments have been provided and notify the Home Office of the details via the Treasury Solicitor's Department. Once a special advocate has seen a closed judgment in a case in which he or she is not instructed, he or she will be prevented from acting in any related cases unless the individual in that case indicates in advance that they do not wish to meet with the special advocate.

Arrest Warrants

Mr. Davey: To ask the Secretary of State for the Home Department what the average time taken to secure the transfer to UK jurisdiction of an alleged criminal from each member state of the European Union was *(a)* in each of the last three years before and *(b)* after the entry into force of the provisions of the European Arrest Warrant; and if he will make a statement. [317727]

Meg Hillier: Prior to 1 January 2004, extradition requests from prosecutors in England and Wales to other jurisdictions were sent via the Home Office. Since 1 January 2004, when the European arrest warrant (EAW) came into force, the Serious Organised Crime Agency (SOCA) and the Crown Office and Procurator Fiscal Service (for EAWs concerning Scotland) are the designated authorities for the receipt and transmission of EAWs in the UK.

(a) To collate this data would involve a manual examination of all records from 2001 onwards and would incur disproportionate cost. However, in "The Law on Extradition: A Review", published by the Home Office in March 2001 the then Home Secretary explained that in 2000, surrenders to the UK of persons who did not consent to extradition took an average of 10 months to complete. This does not include those surrendered to Scotland or Northern Ireland.

(b) It is not possible from SOCA current systems to provide data broken down into the time taken to secure transfer to UK jurisdiction of an alleged criminal from each member state of the European Union therefore an average time cannot be calculated. This would require a manual examination of all files and incur disproportionate cost.

However, a report by the European Commission published in May 2009 found that contested EAWs executed by EU member states had taken an average of 43 days to complete.

Asylum

Andrew Stunell: To ask the Secretary of State for the Home Department how many people of each country of origin were *(a)* granted and *(b)* refused asylum in each quarter of (i) 2007, (ii) 2008 and (iii) 2009; and if he will make a statement. [317198]

Mr. Woolas: Due to the quantity of data requested, the full response has been placed in the Library.

The data have previously been published on the Home Office website as provisional data in the following publications:

Control of Immigration: Quarterly Statistical Summary (Q2 2008 to Q3 2009)

Quarterly Asylum Statistics (Q1 2007 to Q1 2008).

Data for Q1 2007 to Q4 2008, in the tables placed in the Library, have been updated from the provisional data contained in the above publications to reflect the latest available figures, as a result of data cleansing and updating of the administrative database. Data for 2008 remains provisional.

Provisional data for quarter four 2009 will be available in the Control of Immigration: Quarterly Statistical Summary Q4 2009, due to be published on 25 February 2010. These will be available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Biometrics: Post Offices

Chris Grayling: To ask the Secretary of State for the Home Department which post office branches are equipped to allow customers to enrol their biometrics; and which post office branches are planned to be equipped to allow customers to enrol their biometrics in each of the next five years. [318771]

Alan Johnson *[holding answer 25 February 2010]:* The UK Border Agency has entered into contract with Post Office Ltd. for a pilot scheme to enrol biometrics for migrants who are required to apply for an identity card. 17 post offices are taking part in the pilot as follows:

Battersea
Beckenham
Camden
Earls Court
Old Street (London EC1)
Beeston
Bracknell
Cambridge
Durham
Kingstanding (Birmingham)
Middleton (Manchester)
Oxford
Redditch
Romsey
Stamford
South Shields
Union Street (Aberdeen).

The contract allows for a further eight post offices to be added in 2010-11 but to date no decision has been made on extending the contract.

An Official Journal of the European Union (OJEU) notice was published in December 2009, which notified the market of the Identity and Passport Service's (IPS) intention to commence a competition to award the biometric enrolment concession to potential partners. The outcome of this competition will determine who will provide these services, and how many biometric enrolment outlets will be provided across the UK. IPS's current arrangement with the Post Office does not involve biometric enrolment.

Crime Prevention: Finance

Mr. Maude: To ask the Secretary of State for the Home Department how much his Department spent on preventing *(a)* re-offending and *(b)* antisocial behaviour in 2008-09; and how much it plans to spend for each such purpose in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [318113]

Mr. Alan Campbell: The Home Office spent £145,700,000 in 2008-09 in England and plans to spend £155,000,000 in 2009-10 in England and Wales on specific programmes to prevent re-offending including the Drugs Intervention Programme, Integrated Offender Management and Prolific and other Priority Offender (PPO) Programme. Spending on specific programmes to prevent anti-social behaviour was £818,000 in 2008-9 and planned to be £1,977,000 in 2009-10.

A number of specific and individual Home Office grants have now been combined into area based grant (ABG), which is allocated to local authorities on a three-year basis to maximise stability and certainty. The receiving authorities have flexibility to use ABG as they see fit to deliver local, regional and national priorities in their respective areas. The position in Wales is slightly different, whereby the funding for community safety partnerships has been consolidated into the crime reduction and antisocial behaviour national resource grant. In both England and Wales, it is for local partnerships to agree how the grants received should be allocated against locally determined priorities, including antisocial behaviour.

Final allocations for 2010-11 have yet to be confirmed, and budgets for 2011-12 will be the subject of a future allocations exercise.

Crime: Foreigners

Andrew Rosindell: To ask the Secretary of State for the Home Department how many foreign nationals given leave to remain in the UK since 1997 have been convicted of a serious crime. [316012]

Mr. Woolas: Identifying the number of foreign nationals given leave to remain since 1997 who have also been convicted of a serious crime, can be achieved only by reviewing individual case files, this would be at disproportionate cost.

The UK Border Agency removed or deported approximately 11,000 foreign national offenders in 2008 and 2009. Of these, less than 0.002 per cent. had at some stage previously been granted indefinite leave to remain and subsequently been convicted of a serious crime such as manslaughter or rape.

The information provided is internal management information and, as such, subject to change.

Crimes of Violence: Bookmakers

Mr. Binley: To ask the Secretary of State for the Home Department what recent discussions he has had with representatives of police forces on the incidence of attacks on bookmakers. [318679]

Mr. Hanson: The Government take tackling all forms of robbery seriously. Following a number of robberies of bookmakers in November and December 2009 my officials have made contact with Northamptonshire Police and other forces who have confirmed that these serious offences are being dealt with as a matter of priority.

Disabled Departmental Staff

Mr. Harper: To ask the Secretary of State for the Home Department how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317897]

Mr. Woolas: Table 1 provides information for the Home Office and its agencies on the numbers and proportion of staff who are disabled. Table 2 provides the median average salaries of disabled and non-disabled staff.

The information provided is based on data collated by the Office of National Statistics for 31 March 2009.

Table 1: Headcount and proportion of disabled staff in the Home Office[1]

Department	*Disabled*	*Disabled employees as percentage of known disability status*
Home Office		
Home Office (excl. agencies)[2]	120	4.5
UK Border Agency	1,020	6.0
Criminal Records Bureau	20	3.0
Identity and Passport Service[3]	—	—

[1] Numbers are rounded to the nearest 10.

[2] Includes Government office for the regions employees.

[3] The Identity and Passport Service declarations are extremely low so their data have not been included.

Table 2: Median earnings by disability[1,2]

	Full-time		*Part-time*	
Department	*Disabled staff*	*Non-disabled*	*Disabled staff*	*Non-disabled*
Home Office				
Home Office (excl agencies)	26,750	32,220	18,380	25,360
UK Border Agency	21,840	21,840	20,550	21,320
Criminal Records Bureau	17,420	19,830	[1]—	17,560
Identity and Passport Service[3]	[3]—	[3]—	[3]—	[3]—

[1] Numbers are rounded to the nearest 10, numbers less than five are represented by "[1]—".

[2] Salaries in this table represent the full-time equivalent salaries of employees rounded to the nearest 10.

[3] The Identity and Passport Service declarations are extremely low so their data have not been included.

Departmental ICT

Mr. Maude: To ask the Secretary of State for the Home Department what the cost had been of the Heavy Hitter Programme Delivery Director service deployed in his Department on the latest date for which figures are available; on which IT projects each consultant contracted under that service worked; and what payments have been made to each such consultant for work undertaken in connection with the programme. [318110]

Mr. Woolas: The Home Office has no involvement in the Heavy Hitter programme. Previous involvement in this programme was based in parts of the Home Office that transferred to the Ministry of Justice on its establishment in 2007.

Departmental NDPBs

Bob Spink: To ask the Secretary of State for the Home Department for how many non-departmental public bodies his Department is responsible. [314256]

Mr. Woolas: Information on the number of non-departmental public bodies (NDPBs) sponsored by my Department is published in the annual Cabinet Office report—Public Bodies. Public Bodies 2008 is available online at:

www.civilservice.gov.uk/ndpb

Copies have been placed in the Libraries of the House. Public Bodies 2009 will be published shortly.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for the Home Department how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last three years. [316462]

Mr. Woolas: 15 employees within the Home Department (excluding its agencies) had five or more periods of sickness absence of less than five days in two or more years between June 2007 and September 2009. At September 2009 3,033 staff were employed by the Home Department (excluding its agencies).

The Department has not been able to analyse three full years' data as data are available only from 1 July 2007 to 30 September 2009 (2.25 years).

Deportation

Chris Grayling: To ask the Secretary of State for the Home Department how many deportations have not been completed in the last five years. [317582]

Alan Johnson: Since 2007, approximately 3,500 removal directions have been initially unsuccessful (incomplete). The reason for this will vary but will include for example the late lodging of a judicial review or a claim for asylum or the receipt of further representations requiring consideration prior to removal. Where such an initial direction has not been completed, the UKBA has, in over 95 per cent. of cases, already reset the removal direction and removed the person.

Accurate figures relating to before 2007 are not available electronically and could only be obtained by investigating individual case-files. This would incur a disproportionate cost.

This information is taken from internal management information systems and is subject to change.

Entry Clearances

David Davis: To ask the Secretary of State for the Home Department what estimate his Department has made of the cost to businesses of the removal from eligibility for the visa waiver scheme of those who have previously been arrested. [318227]

Mr. Woolas: An estimate of cost to the business will be achieved only at disproportional cost.

Ms Abbott: To ask the Secretary of State for the Home Department what percentage of entry clearance applications for settlement in the United Kingdom submitted to the British consulate in Tel Aviv were granted prior to the transfer of the processing of such applications to the British embassy in Istanbul; what percentage of applicants were of *(a)* a Jewish and *(b)* a non-Jewish background; and if he will make a statement. [318460]

Mr. Woolas: Prior to the transfer of processing entry clearance applications to the British embassy in Istanbul on 7 April 2008, 98 per cent. of entry clearance applications for settlement made at the British consulate in Tel Aviv were granted in the financial year of 2007-08.

A breakdown of this figure to show comparisons for applicants with Jewish and non-Jewish backgrounds is not captured in our database.

Ms Abbott: To ask the Secretary of State for the Home Department what percentage of applications for entry clearance to the United Kingdom submitted to the British consulate in Tel Aviv between June 2008 and May 2009 and processed by the British embassy in Istanbul was granted; how many such applications there were; what percentage of applicants were of *(a)* a Jewish and *(b)* a non-Jewish background; and if he will make a statement. [318461]

Mr. Woolas: Between June 2008 and May 2009, 1,559 applications for entry clearance were submitted to the British consulate in Tel Aviv and processed by the British embassy in Istanbul. 84 per cent. of these applications were granted.

A breakdown of this figure to show comparisons for applicants with Jewish and non-Jewish backgrounds is not captured in our database.

Entry Clearances: Overseas Students

Damian Green: To ask the Secretary of State for the Home Department what estimate he has made of the number of current Tier 4 sponsors in each category who will be accepted onto the new Highly Trusted Sponsor List. [317154]

Mr. Woolas: It is not possible to estimate of the number of current Tier 4 sponsors in each category who will be accepted onto the Highly Trusted Sponsor List as the criteria is still being finalised. The criteria will be published in advance of 6 April implementation.

Immigration Controls

Mr. Oaten: To ask the Secretary of State for the Home Department when he plans to publish the Government's response to the Migration Advisory Committee's report on Tier 1 of the points-based immigration system. [315508]

Mr. Woolas *[holding answer 4 February 2010]:* The Government will respond to the Migration Advisory Committee review of Tier 1 shortly.

Islam

David Davis: To ask the Secretary of State for the Home Department what his most recent estimate is of the number of radicalised Muslims resident in the UK. [318226]

Mr. Hanson: Radicalisation may cover a range of beliefs and attitudes. It is not possible to provide this information. Our Prevent strategy supports individuals who are vulnerable to recruitment to violent extremism or terrorism, building on existing multi-agency support mechanisms at a local level.

David Davis: To ask the Secretary of State for the Home Department what estimate his Department has made of the number of radicalised Muslims resident in the UK in each year since 1997. [318334]

Mr. Hanson: Radicalisation may cover a range of beliefs and attitudes and it is not possible to provide the information requested. Our Prevent strategy supports individuals who are vulnerable to being drawn into violent extremism and terrorism, building on existing multi-agency support mechanisms at a local level.

Members' Correspondence

Sir John Stanley: To ask the Secretary of State for the Home Department when he expects to reply to the letters sent to him on 10 November and 2 December 2009 by the right hon. Member for Tonbridge and Malling on his constituent Mr. Ryan Baird and Mr Baird's family. [311941]

Mr. Woolas *[holding answer 21 January 2010]:* I wrote to the hon. Member on 9 February 2010 in response to his letters of 10 November 2009 and 2 December 2009.

Police: Avon and Somerset

John Penrose: To ask the Secretary of State for the Home Department how many police officers were employed by Avon and Somerset Constabulary of each (a) grade and (b) sex at the start of each year since 1997; and whether the appointment was (i) full- and (ii) part-time in each such case. [318496]

Mr. Hanson: The available data are provided in the tables.

This and other related data are published annually as part of the annual Police Service Strength Home Office Statistical Bulletin. The latest bulletin can be found at:

http://www.homeoffice.gov.uk/rds/policeorg1.html

and bulletins for this and previous years are deposited in the Library of the House.

Police officer strength, by rank, in Avon and Somerset, as at 31 March, 1997 to 2009[1, 2, 3]

[1] Figures for 1997 to 2002 are not comparable with figures for 2003 to 2009. Figures for 1997 to 2002 exclude officers on career breaks or maternity/paternity leave, while figures for 2003 to 2009 include officers on maternity/paternity leave. The Police Numbers Task Force (2001) recommended that a clear presentation was made of the numbers of staff employed by police forces including those seconded into the force and those on any type of long or short term absence. These new calculations were first used in 2003, and are not comparable with data prior to March 2003. Total figures for 1997 to 2002 are shown as full-time equivalent (rounded to the nearest whole number), while total figures for 2003 to 2009 are shown as headcount.

[2] Full-time and part-time figures are shown as headcount.

[3] Part-time, full-time and headcount figures broken down by rank are not available for 1997 to 2002. Therefore total figures have been shown as full-time equivalent. Total part-time figures are available for this period.

[4] In 1997 to 2002 figures for Chief Superintendents and Superintendents were combined. These have been shown under Superintendent. For 2003 to 2009 these figures have been shown separately.

[5] Not available.

[6] Not applicable.

Police officer strength, by gender, in Avon and Somerset, as at 31 March, 1997 to 2009[1, 2, 3]

	Male			Female			Total		
	Full-time	Part-time	Total	Full-time	Part-time	Total	Full-time	Part-time	Total
1997	[4]—	1	2,622	[4]—	24	367	[4]—	25	2,989
1998	[4]—	0	2,586	[4]—	39	390	[4]—	39	2,976

2007	2,647	12	2,659	669	160	829	3,316	172	3,488
2008	2,593	10	2,603	694	171	865	3,287	181	3,468
2009	2,536	12	2,548	681	197	878	3,217	209	3,426

[1] Figures for 1997 to 2002 are not comparable with figures for 2003 to 2009. Figures for 1997 to 2002 exclude officers on career breaks or maternity/paternity leave, while figures for 2003 to 2009 include officers on maternity/paternity leave. The Police Numbers Task Force (2001) recommended that a clear presentation was made of the numbers of staff employed by police forces including those seconded into the force and those on any type of long or short term absence. These new calculations were first used in 2003, and are not comparable with data prior to March 2003. Total figures for 1997 to 2002 are shown as full-time equivalent (rounded to the nearest whole number), while total figures for 2003 to 2009 are shown as headcount.

[2] Full-time and part-time figures are shown as headcount.

[3] Full-time and headcount figures broken down by gender are not available for 1997 to 2002. Therefore total figures have been shown as full-time equivalent.

[4] Not available.

Police: Pay

Mr. Amess: To ask the Secretary of State for the Home Department what the *(a)* median and *(b)* mean salary of a police constable in each constabulary was in (i) nominal and (ii) real terms in each year since 1997. [318689]

Mr. Hanson: This information is not held centrally.

Police: Recruitment

Mr. Arbuthnot: To ask the Secretary of State for the Home Department how many police officers were recruited in each month of the last two years. [318910]

Mr. Hanson *[holding answer 26 February 2010]:* The available data are provided in the table. Figures are not collated on a monthly basis. Therefore, quarterly figures have been provided.

The total number of joiners on an annual basis and other related data are published annually as part of the annual Police Service Strength Home Office Statistical Bulletin. The latest bulletin can be found at:

http://www.homeoffice.gov.uk/rds/policeorg1.html

and bulletins for this and previous years are deposited in the Library of the House.

Police officer joiners, England and Wales, 2007-08 and 2008-09

Financial year	*Quarter*	*Total*
2007-08	Q1	1,416
	Q2	1,921
	Q3	1,923
	Q4	2,721
	Total	7,981
2008-09	Q1	1,960
	Q2	2,441
	Q3	2,175
	Q4	3,297
	Total	9,873

Notes:

1. Quarterly figures are provisional and have not been verified by forces.
2. Figures include the following types of joiners: 'Standard Direct', 'Rejoining', 'Previously Special Constable' and 'Transfer'.
3. This table contains full-time equivalent figures for the 43 forces of England and Wales. They have been rounded to the nearest whole number.

Reoffenders

Chris Grayling: To ask the Secretary of State for the Home Department how many persistent and prolific offenders have been identified in *(a)* total and *(b)* each police force area in each of the last five years. [317767]

Alan Johnson: The information requested is set out in the table. This shows the total number of offenders, by police force area, who were classified as prolific and other priority offenders in each of the years since the prolific and other priority offender programme was launched in September 2004. The table shows the total number of offenders who had been classified during each full 12-month period. Some offenders would have been classified as prolific and other priority offenders during the course of the years shown, and others de-classified during the years shown, in accordance with local selection and de-selection criteria. At any given time, the total number of offenders classified as prolific and other priority offenders across England and Wales is between 10,000 and 11,000 offenders.

The published evaluation of the prolific and other priority offender programme in 2004 showed that the offenders first taken on to the programme in September and October 2004 reduced their convictions by 62 per cent. over their first 17 months on the programme.

Table: Number of prolific and other priority offenders 2005-06 to 2008-09

Police force area	*2005-06*	*2006-07*	*2007-08*	*2008-09*

Terrorism

Gregory Barker: To ask the Secretary of State for the Home Department how many Irish people extradited to the UK from the US were subsequently convicted of an offence related to terrorism in the last 30 years. [317189]

Meg Hillier: Neither the Home Office nor any other agency involved in the extradition process has extradition records dating back 30 years. From an inspection of surviving records, however—some of which go back to 1994—no trace can be found of any such cases.

Terrorism: Stop and Search

Mr. Evans: To ask the Secretary of State for the Home Department (1) how many people under the age of 21 years have *(a)* been stopped by the police whilst taking photographs and *(b)* subsequently had photography equipment seized in connection with terrorism offences in the last 12 months; [315434]

(2) how many people under the age of 21 years have been stopped by the police in connection with terrorism offences in the last five years. [315435]

Mr. Hanson: The Home Office does not hold statistics which are recorded in this way. However, the Home Office does collate statistics on the number of terrorism arrests and convictions and these are included in a Bulletin published for the first time on 13 May 2009 (Statistics on Terrorism Arrests and Outcomes Great Britain 11 September 2001 to 31 March 2008). The first edition of the Bulletin is available at:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb0409.pdf

The second issue of the Bulletin was published on 26 November 2009 and is available via the following link:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb1809.pdf

The third issue of this bulletin was published on 25 February 2010.

UK Border Agency

Dr. Evan Harris: To ask the Secretary of State for the Home Department how many individuals' files were recorded as temporarily lost by the UK Border Agency as of 1 January 2010. [318280]

Mr. Woolas: By definition, the exact number of lost files cannot be known however the total number of the agency's case files which are not currently recorded with a clear location is less than 0.18 per cent. of the overall file holding.

UK Border Agency: Empty Property

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Monmouth of 7 January 2010, *Official Report,* column 528W, on UK Border Agency: empty property, how many empty *(a)* dwellings and *(b)* business premises for which the UK Border Agency is responsible were empty in 2008-09. [314958]

Mr. Woolas: The information requested is as follows:

(a) In 2008-09 the UK Border Agency had contracts with 18 suppliers providing accommodation for asylum seekers. The Agency only pay for asylum accommodation on a per person per night basis and do not have any liability for empty dwellings.

(b) In 2008-09 the Agency had in the region of 200 properties of which five were empty once occupation had ended or six if separate floors of one are counted individually. Of the six properties two leases have already ended, two will expire within the next three months and one has lease expiry in 18 months. Overall the Agency has benefited from reduced property, IT and productivity gains from rationalisation that outweigh the costs on these buildings.

Vetting: Radicalism

David Davis: To ask the Secretary of State for the Home Department on how many occasions applications for employment in *(a)* the Home Office, *(b)* the Metropolitan Police, *(c)* MI5 and *(d)* MI6 have not passed vetting procedures due to (i) suspected al-Qaida sympathies and (ii) other suspected extremist views in each year since 1997. [318338]

Mr. Hanson: The Home Office does not hold a central record of the number of applications for employment that have not passed beyond vetting procedures and it would be of disproportionate cost to assemble such a record.

The Metropolitan Police is responsible for its own vetting, I understand that the Metropolitan Police do not hold a central record and that it would be of disproportionate cost to assemble such a record.

In relation to the Security Service (MI5) and the Secret Intelligence Service (MI6), the policy of successive Governments is not to answer questions of detail about them.

WORK AND PENSIONS

Cold Weather Payments

Gordon Banks: To ask the Secretary of State for Work and Pensions if she will take steps to reduce the time taken to make cold weather payments to *(a)* recipients who use prepayment meters and *(b)* other recipients of such payments. [310547]

Helen Goodman: The overwhelming majority of cold weather payments are paid automatically. When the Department for Work and Pensions is notified of a qualifying cold weather period a computer scan is run over the following weekend. Payments are made into customer's bank accounts on the following Wednesday. The only exception to this is where the Department is notified on a Friday. In these cases the scan will not be run on the weekend immediately following but will be picked up the next weekend. This is considered a reasonable period to prevent hardship.

Council Tax Benefits

Mr. Flello: To ask the Secretary of State for Work and Pensions when she expects to rename council tax benefit as council tax rebate. [318808]

Helen Goodman: I refer the hon. Member to the written answer I gave on 11 January 2010, *Official Report,* column 652W, to my right hon. Friend the Member for Enfield, North (Joan Ryan).

Employment Tribunals Service

Grant Shapps: To ask the Secretary of State for Work and Pensions how many employment tribunals relating to her Department were held in each of the last five years; and what the cost to her Department was of such tribunals in each such year. [309938]

Jonathan Shaw: Because employment litigation for the DWP is conducted both in-house and by agents acting on behalf of the Department, the information requested is not readily available and could be obtained only at disproportionate cost.

Future Jobs Fund

Margaret Moran: To ask the Secretary of State for Work and Pensions how many jobs have been created under the Future Jobs Fund by social enterprises. [315108]

Jim Knight: We have only collected details of the number of social enterprise jobs we have agreed to fund in September to November 2009, covering the first six months of funding. In this period we have agreed to fund 1,200 jobs in Social Enterprises through the Future Jobs Fund.

Leasehold: Service Charges

Justine Greening: To ask the Secretary of State for Work and Pensions what forms of financial support her Department offers to low income lease holders facing major works service charges; what criteria are used to assess eligibility for such support; and what the total monetary value was of such support granted to each local authority in *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10 to date. [318218]

Helen Goodman: Leaseholders who are responsible for meeting major service charges under the terms of a long lease may receive assistance by way of Support for Mortgage Interest. Help may be provided towards certain service charges related to the fabric of the accommodation or towards the mortgage interest on a loan taken out to meet specific loans for repairs and improvements, provided they are entitled to an income related benefit such as income support, income-based jobseeker's allowance, income-related employment and support allowance and state pension credit.

The total monetary value for service charges are not recorded on the Department's computer system in a way which allows the information requested to be readily made available.

Maximus Employment and Training UK: Employment

Mr. Huhne: To ask the Secretary of State for Work and Pensions what the rate of employment has been among people undertaking programmes provided under contract to her Department by Maximus Employment and Training UK in Eastleigh since the inception of each such contract. [317015]

Jim Knight: Maximus Employment and Training UK has delivered progress2work provision in Eastleigh since 1 June 2009, on behalf of the Department for Work and Pensions. Progress2work is a service for people who are recovering from misusing drugs and can give the extra support needed to get back into work.

Data are not made publicly available by individual provider, nor by individual location.

Miners: Hemsworth

Jon Trickett: To ask the Secretary of State for Work and Pensions how much funding her Department has provided in assistance for ex-miners in Hemsworth constituency in the last 12 months; and if she will make a statement. [316748]

Helen Goodman: The information requested is not available.

New Deal Schemes

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of *(a)* primary contracted and *(b)* sub-contracted employment support providers have withdrawn/providing employment support services under the Flexible New Deal in each of the smallest geographical units for which figures are available since the programme's inception; and if she will make a statement. [307819]

Jim Knight: Since the Flexible New Deal Phase 1 contracts went live on 5 October 2009, none of the prime providers have withdrawn from delivery. In addition, the Department has not been informed of the withdrawal of any of their sub-contractors.

Occupational Pensions: Regulation

John Penrose: To ask the Secretary of State for Work and Pensions what assessment she has made of the compatibility of the penalty regime for employers in the Pensions Act 2008 with the recommendations of the Hampton Review of Regulation. [318495]

Angela Eagle: The Government's development of the penalty regime for employers in the Pensions Act 2008 included a thorough assessment of its compatibility with the recommendations of Sir Philip Hampton's 2005 review, 'Reducing administrative burdens: effective inspection and enforcement'. Equal consideration was also given to the penalty principles set out by Professor Richard B. Macrory when building on Hampton's work specifically in the context of sanctions in his report 'Regulatory Justice: Making Sanctions Effective' (November 2006). We believe the regime of fixed and escalating penalties in the 2008 Act is fully compatible with the recommendations and principles of both the Hampton and Macrory reports.

Pensioners: Poverty

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions (1) what recent steps her Department has taken to eradicate pensioner poverty; [319024]

(2) what representations she has received on the establishment of a formal target for the eradication of pensioner poverty. [319025]

Angela Eagle: Our strategy since 1997 has been to rget help on the poorest pensioners while providing a lid foundation of support for all.

We have a good track record of reducing pensioner overty. In 2007-08 there were 900,000 fewer pensioners relative poverty than in 1998-99 (measured as below) per cent. of contemporary median income after ousing costs). Today's pensioners are less likely to be ving in relative poverty after housing costs than the opulation as a whole.

In 1997, the poorest pensioners, who received Income upport, lived on around £69 a week (equivalent to £98 week in today's prices). Today pension credit ensures at no pensioner needs to live on less than £130 a week r £198.45 a week for couples). This represents an icrease in income by almost a third in real terms. And any of those on pension credit will also be entitled to dditional support through housing benefit and council ax benefit.

The Pension, Disability and Carers Service continue o promote take-up of benefits for those entitled. This nvolves data matching to identify entitled non-recipients, ome visits for vulnerable customers, targeted local arketing and media campaigns, a simple claim process nvolving telephones as well as paper claims and ever loser working with partner organisations. The Department s also looking at innovative ways of using information hat we already hold to make payments of pension redit more automatically to entitled non-recipients.

In the Pensions Act 2007, we made a commitment to ontinue to uprate the pension credit standard minimum guarantee at least in line with average earnings over the ong-term. The Institute for Fiscal Studies (IFS) has commented that without this, it is likely there would be ignificant increases in pensioner poverty in the future.

We have also made a commitment to re-link the uprating of the basic state pension to average earnings. Our objective, subject to affordability and the fiscal position, is to do this in 2012, but in any event by the end of the next Parliament at the latest. This will benefit almost 12 million pensioners.

The Government use a basket of three key thresholds of income, after housing costs, to measure pensioner poverty. The most commonly used figures relate to those with incomes below 60 per cent. of contemporary median income, after housing costs. However, the Department does not have a commitment to eradicate pensioner poverty in the same way it does for child poverty.

The Work and Pensions Select Committee report on its inquiry into tackling pensioner poverty, which was published in July 2009, recommended that the Government should make its commitment to tackling pensioner poverty explicit and formally commit to eradicating pensioner poverty.

After fully considering this recommendation we do not believe that establishing a formal target for the eradication of pensioner poverty would be the right approach. It is entirely right that the Government should commit itself to the eradication of child poverty, but the context for pensioners is not the same. Pensioners' incomes are affected by the work, caring and saving that they have undertaken during their working lives. The Government believe that this "something for something" contributory principle, whereby people are rewarded for their positive engagement with society during their lives is a critical component of our system of support for older people. Through our pension reform we are putting in place a framework which will enable people to build up a decent pension from the state and provide a foundation for further saving. We need to make sure that our policies balance cost, poverty alleviation and maintaining incentives to save.

We believe that our reforms will achieve this balance and that our published Public Service Agreement, which explicitly commits to "Tackle poverty and to promote greater independence and well-being in later life", is the right framework for tackling pensioner poverty and we will continue to report progress against this indicator.

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions (1) what estimate she has made of the number of pensioners resident in Coventry South constituency to have been lifted out of poverty since 1997; [319027]

(2) what estimate she has made of the number of pensioners lifted out of poverty in the UK since 1997. [319028]

Angela Eagle: The Government use a basket of three key thresholds of income, after housing costs, to measure pensioner poverty. The most commonly used figures relate to those with incomes below 60 per cent. of contemporary median income, after housing costs.

Estimates of the number of pensioners who have been lifted out of poverty are not available, as each year different households are surveyed to produce low income statistics that are published in the Households Below Average Income series. However, information is available about the net change in the number of pensioners with incomes below 60 per cent. of contemporary median income.

These figures only allow a breakdown of the overall numbers in poverty at Government Office Region level. Therefore, information is available for the West Midlands Government Office Region, but not available for the Coventry South constituency. Three-year averages are used to report regional statistics as single-year estimates are subject to volatility. Figures are quoted to the nearest 100,000.

In the three-year period 1997-98 to 1999-2000 there were around 300,000 pensioners in the West Midlands with incomes below the 60 per cent contemporary median (equivalent to 28 per cent of pensioners in the region). The latest information relates to the period 2005-06 to 2007-08 in which there were around 200,000 pensioners in poverty (18 per cent).

Since 1997-2000, there has been a reduction of around 100,000 pensioners in the West Midlands Government Office Region with incomes below 60 per cent. of the contemporary median income. This equates to a 10 percentage point reduction in pensioner poverty.

At a national level, we do not need to use the three-year averages and can use the individual yearly figures. However, figures for 1997-98 cover Great Britain only, as Northern Ireland data did not become available until the following year.

In 1997-98 there were around 2.9 million pensioners in poverty in Great Britain, which equates to around 29 per cent. of all pensioners. The 2007-08 UK figures show that around 2.0 million pensioners were in poverty, equating to around 18 per cent.

Between 1997-98 and 2007-08 the number of pensioners with incomes below 60 per cent of the contemporary median income reduced by around 900,000.

Pensions

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to paragraph 5.55 of Budget 2009, whether the 2.5 per cent. uprating of the basic state pension applies to recipients who deferred claiming their basic state pension at retirement age. [318070]

Angela Eagle: The proposed 2.5 per cent increase in the rate of the basic State Pension from April 2010 will not be applied to increments payable to those recipients who have deferred their State Pension. The Retail Prices Index showed that prices had fallen for the 12 months ending in September 2009. Given this evidence the Government have decided to maintain the value of increments at 2009-10 rates.

People with increments who deferred their State Pension for at least one year since 2005 get a State Pension that is 10.4 per cent. higher than if they had not deferred. They will also benefit from the 2.5 per cent. increase in the basic State Pension announced at the pre-Budget report. We are writing to every individual in receipt of State Pension with an uprating notification which clearly states that, while basic State Pension is increasing by 2.5 per cent., increments and additional pension are not.

In addition, the increase in the basic State Pension will be reflected in the value of increments being accrued by those who are currently deferring their State Pension.

Unemployment: Lone Parents

Paul Holmes: To ask the Secretary of State for Work and Pensions how many lone parents claimed jobseeker's allowance in each year since 1996. [316637]

Helen Goodman: From 24 November 2008, subject to certain exemptions and conditions, most lone parents with older children are no longer entitled to income support if they are only claiming it because they are a lone parent. Instead those able to work may claim jobseeker's allowance. These changes are being introduced for most lone parents in three stages. For those with a youngest child aged 12 or over, the change applies from 24 November 2008; for those with a youngest child aged 10 or over, from 26 October 2009; and for those with a youngest child aged seven, or over from 25 October 2010.

The available information is in the table.

Number of lone parent claimants of jobseeker's allowance in Great Britain: April 2005-November 2009

	Number
April 2005	6,985
May 2005	6,930
June 2005	6,995
July 2005	7,090
August 2005	7,135
September 2005	7,230
October 2005	7,045
November 2005	7,100
December 2005	7,170
January 2006	7,790
February 2006	8,010
March 2006	8,050
April 2006	7,780
May 2006	7,860
June 2006	7,900
July 2006	7,825
August 2006	7,855
September 2006	8,150
October 2006	7,915
November 2006	7,810
December 2006	7,705
January 2007	7,885
February 2007	7,985
March 2007	7,975
April 2007	7,790
May 2007	7,580
June 2007	7,565
July 2007	7,540
August 2007	7,570
September 2007	7,585
October 2007	7,105
November 2007	6,510
December 2007	6,105
January 2008	6,415
February 2008	6,625
March 2008	6,850
April 2008	7,180
May 2008	7,260
June 2008	7,530
July 2008	7,770
August 2008	8,445
September 2008	8,915
October 2008	9,365
November 2008	10,385
December 2008	12,225
January 2009	14,660
February 2009	17,670
March 2009	21,095
April 2009	25,965
May 2009	30,830
June 2009	33,000
July 2009	34,835
August 2009	40,775
September 2009	45,425
October 2009	48,040

Number of lone parent claimants of jobseeker's allowance in Great Britain: April 2005-November 2009

	Number
November 2009	50,265

Notes:

1. Claimant Count: A monthly count of jobseeker's allowance claimants in Great Britain. Totals exclude non-computerised clerical claims.
2. Some jobseeker's allowance claimants have their marital status coded as "not known". Such claimants who are claiming child benefit for at least one child aged under 16 may be lone parents but are not recorded as such in the above table.
3. These volumes may be subject to retrospective changes as and when DWP receive updated child benefit data.
4. Identification of lone parents claiming JSA:

The preferred source of numbers on JSA is the Claimant Count which is produced on a monthly basis by the Office for National Statistics (ONS) via the NOMIS website:

www.nomisweb.co.uk

DWP are providing a breakdown of this headline number so we can identify the number of lone parents claiming JSA following the roll out of lone parent obligations. This is done using marital status information from the claimant count data alongside HMRC child benefit data. Specifically looking at whether a JSA claimant has their marital status recorded as "single"; "widowed"; "divorced" or "separated", and has an open child benefit claim for at least one child aged under 16, at the 'count date' (second Thursday of each month).

5. Data are not available prior to the introduction of these new statistics.

Experimental statistics: The new statistics will be labelled as an 'experimental' breakdown to the National Statistic status JSA Claimant Count. This label will remain until we are confident that we have a stable methodology and we have given users a chance to comment on the statistics.

Source:

ONS Claimant Count data and HMRC Child Benefit data.

Winter Fuel Payments: Aberdeenshire

Mr. Salmond: To ask the Secretary of State for Work and Pensions how many *(a)* households and *(b)* individuals have received winter fuel payments in Banff and Buchan constituency since 1 November 2009. [319347]

Angela Eagle: Information on winter fuel payments in Banff and Buchan for winter 2008-09 (the last year for which information is available) is held in the House of Commons Library.

Winter Fuel Payments: Angus

Mr. Weir: To ask the Secretary of State for Work and Pensions how many *(a)* households and *(b)* individuals in Angus constituency have received a winter fuel payment since 1 November 2009. [318800]

Angela Eagle: Information on winter fuel payments in Angus for winter 2008-09 (the last year for which information is available) is held in the House of Commons Library.

Winter Fuel Payments: Dundee

Stewart Hosie: To ask the Secretary of State for Work and Pensions how many *(a)* households and *(b)* individuals in the Dundee East constituency have received winter fuel payments since 1 November 2009. [319602]

Angela Eagle: Information on winter fuel payments in Dundee, East for winter 2008-09 (the last year for which information is available) is held in the House of Commons Library.

Winter Fuel Payments: Greater London

Lynne Featherstone: To ask the Secretary of State for Work and Pensions how many *(a)* households and *(b)* individuals in each London borough have received winter fuel payments since 1 November 2009; and if she will make a statement. [319059]

Angela Eagle: Information on winter fuel payments in each London borough for winter 2008-09 (the last year for which information is available) is held in the House of Commons Library.

Winter Fuel Payments: Moray

Angus Robertson: To ask the Secretary of State for Work and Pensions how many *(a)* households and *(b)* individuals resident in Moray constituency have received winter fuel payments since 1 November 2009. [319673]

Angela Eagle: Information on winter fuel payments in Moray for winter 2008-09 (the last year for which information is available) is held in the House of Commons Library.

CULTURE, MEDIA AND SPORT

Online Gaming Industry

Mr. Flello: To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of the contribution of the online betting and gaming industry to the economy. [318857]

Margaret Hodge: We have not made any formal assessment of the contribution of the online betting and gaming industry to the economy.

However the Government do recognise the many ways in which the industry contributes to the UK economy through taxation, employment, sponsorship and consumer choice.

Departmental Official Hospitality

Mr. MacNeil: To ask the Secretary of State for Culture, Media and Sport (1) how many receptions he has hosted for representatives of print and broadcast media since October 2008; how much each such reception cost; and how many people attended each such reception; [319148]

(2) how many receptions he plans to host for representatives of print and broadcast media in 2010. [319149]

Mr. Bradshaw: I have held three receptions for journalists covering the Department's sectors since October 2008. The costs of these were £1,864.54, £1,251.25 and £1,431.70. Approximately 50 people attended each event.

No receptions are currently planned, but will be considered over the course of the year as part of normal departmental business.

Gaming Machines: Taxation

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport whether he has plans to alter the tax arrangements which apply to stakes without prizes gaming machines. [319831]

Mr. Bradshaw: The Department has regular discussions with HM Treasury about a range of gambling issues. Plans relating to taxation are a matter for my right hon. Friend, the Chancellor of the Exchequer.

Horserace Totalisator Board

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what recent progress has been made in preparations for the sale of the Tote; and if he will make a statement. [319830]

Mr. Bradshaw: The Government are preparing for the sale of the Tote in line with my right hon. Friend the Prime Minister's announcement on 12 October 2009.

The current intention is that a sale process would start in summer 2010 and be completed around March 2011.

ITV: Local Broadcasting

Alun Michael: To ask the Secretary of State for Culture, Media and Sport what discussions he has had on ITV's proposals for regional news. [318852]

Mr. Bradshaw: I have had a number of discussions with ITV and other interested organisations during the past year on the future of regional news on Channel 3 and the Government's policy objective to secure this news through independently funded news consortia.

Listed Events Review

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what account will be taken of the BBC Strategic Review in assessing the results of the consultation on the David Davies Review of Listed Events. [319787]

Mr. Bradshaw: I will consider all relevant issues emerging from the consultation before reaching a final decision.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 8 February 2010, *Official Report*, column 665W, on sports: television, whether he has plans to commission independent advice for the purposes of his economic impact assessment. [319837]

Mr. Bradshaw: The evidence received in response to the Government's statutory consultation on Free-to-Air Listed Events will form the basis of an economic impact assessment. The Government are in the process of commissioning an independent economic consultancy to take forward this work.

Radio Frequencies

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what recent representations he has received on the frequency to be used by commercial radio stations following digital switchover; and if he will make a statement. [319201]

Mr. Bradshaw: My Department has held two local radio summits with the commercial radio representative body, RadioCentre, and is in discussion with broadcasters from across the UK to consider the impact of Digital Radio Switchover on local commercial radio stations.

Scottish Television

Mr. Bain: To ask the Secretary of State for Culture, Media and Sport whether he has undertaken an assessment of the likely effects of reclassification of Scottish Television as an independent producer on the provision of public service broadcasting by the existing Scottish independent sector. [318614]

Mr. Bradshaw: The Government recently undertook a public consultation exercise on the potential reclassification of production companies owned by Channel 3 licence holders. This included an assessment of the impact of the proposal, including the impact on the independent sector. The Government are currently assessing the responses to the consultation.

Sports: Young People

Mr. Goodwill: To ask the Secretary of State for Culture, Media and Sport what his policy is on the participation of young people in competitive sport. [318859]

Mr. Bradshaw: The annual School Sport Survey has shown a steady rise in the number of young people taking up competitive sport since 2003.

69 per cent. of pupils are now involved in intra-school competition compared to 22 per cent. in 2003/04; while 44 per cent. of pupils are now involved in inter-school competition compared to 33 per cent. in 2003/04.

Competitive sport is central to our PE and Sport Strategy for Young People and will also be enshrined in law as universal access to regular competitive sport is part of our new Pupil Guarantee.

OLYMPICS

Olympic Legacy: West Midlands

6. **Mr. Jim Cunningham:** To ask the Minister for the Olympics what legacy is expected for the west midlands and Coventry from the London 2012 Olympics. [318884]

Tessa Jowell: Coventry South, the West Midlands and the whole of the UK will benefit from the sporting, economic and social opportunities created by the 2012 Games.

Three companies based in Coventry have secured contracts to supply goods or services within the London 2012 supply chain and 45 businesses registered in the West Midlands have won work supplying the Olympic Delivery Authority. 19 projects in the West Midlands have been awarded the Inspire Mark, for high-quality projects inspired by the Games.

Estimated Government Expenditure

7. **Andrew Selous:** To ask the Minister for the Olympics what her most recent estimate is of Government expenditure on hosting the London 2012 Olympics. [318885]

Tessa Jowell: The £9.325 billion funding package that I announced in March 2007 remains unchanged.

The most recent estimate of the anticipated final cost was £7.262 billion, as reported in the London 2012 Olympic and Paralympic Games Annual Report which was published in early February.

ENERGY AND CLIMATE CHANGE

Climate Change: International Co-operation

Mr. Bain: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Congleton of 7 January 2010, *Official Report*, column 628W, on climate change: Copenhagen, what his most recent assessment is of the likelihood of effective global action to limit climate change; and if he will make a statement. [318584][1]

Joan Ruddock: Since Copenhagen, we have seen support for the Copenhagen Accord grow. As of 22 February 2010, 69 countries had listed targets/actions in the Accord to limit their greenhouse gas emissions. These countries account for nearly 90 per cent. of global emissions. This willingness of many countries to take substantial domestic action, demonstrates that—with ambition—the international community has the opportunity to come together to tackle dangerous climate change effectively.

But there is still more to do. We must continue to encourage these countries to deliver the most ambitious end of their offers if we are to deliver our goal of limiting global warming to 2 degrees Celsius. And we will continue to campaign for countries to include these offers in a comprehensive legally binding treaty.

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Energy and Climate Change what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319084]

Joan Ruddock: The Department supports Earth Hour. Both of our premises (in London and Aberdeen) will participate. We will also support Earth Hour through our website and social networking activities and will encourage staff to participate as individuals.

Departmental Internet

Mr. Heald: To ask the Secretary of State for Energy and Climate Change how many designs for its website his Department has commissioned since its inception. [318653]

Joan Ruddock: The Department of Energy and Climate Change has commissioned one design for its website since inception. The design is that used by the Department's official corporate website which was launched on 23 February 2009:

http://www.decc.gov.uk/

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Energy and Climate Change how many employees in his Department are in transition prior to being managed out; how long on average the transition window between notification and exit has been in his Department and its predecessors in each of the last five years; what estimate he has made of the salary costs of staff in transition in each such year; and what proportion of employees in transition were classed as being so for more than six months in each year. [313246]

Joan Ruddock: The Department of Energy and Climate Change was formed on the 3 October 2008. To date, no staff have been placed in transition prior to being managed out.

Departmental Public Relations

Pete Wishart: To ask the Secretary of State for Energy and Climate Change what public relations companies have had contracts with *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible since his Department was established. [317365]

Joan Ruddock: The Department of Energy and Climate Change has had contracts with Munro and Forster in 2008-09 and with The Forster Company in 2009-10, both of whom worked on the ACT ON CO_2 campaign.

DECC also has a contract with Kreab Gavin Anderson to provide expert advice on the impact of proposed policy changes on renewable finance and investment prospects, as well as a range of briefing, seminars, meetings and wider awareness raising with investors and trade media, on developments in renewable energy policy.

The Energy Saving Trust has had contracts with the following public relations companies: Positif Politics Ltd., Strategem and Weber Shandwick Public Affairs.

The Carbon Trust has had contracts with the following public relations agencies: Fishburn Hedges PR, Octopus Communications and Brands2Life, as well as Golley Slater PR in Wales and Smarts PR in Scotland.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Energy and Climate Change how many staff in his Department have had five or more periods of sickness absence of less than five days since its inception. [316466]

Joan Ruddock: The Department encourages a culture where good attendance is expected and valued. However, it recognises from time to time absences for medical reasons may be unavoidable. The Department aims to treat its staff who are ill with sympathy and fairness and where possible provide them with support which will enable them to recover their health and return to work.

No staff have had five or more periods of sickness absence of less than five days since the Department's inception in October 2008.

Departmental Travel

Stewart Hosie: To ask the Secretary of State for Energy and Climate Change what the cost of international travel by Ministers and officials in his Department has been since May 2009. [316793]

---

[1] [*Official Report, 4 March 2010, Vol. 506, c. 15-16MC.*]

Joan Ruddock: Since May 2009 a total of £588,743 was spent on international travel by Ministers and officials.

Electricity

Mr. Drew: To ask the Secretary of State for Energy and Climate Change how much electricity has been supplied to *(a)* Stroud district and *(b)* Gloucestershire since 2003. [318976]

Mr. Kidney: Annual electricity consumption statistics for Stroud and the Gloucestershire area are available for the years 2005 to 2008 and are shown in the following table. The statistics include both domestic and non-domestic consumption and, as they are supplied to DECC by electricity suppliers, they are therefore a measure of the electricity supplied from the national grid.

	Annual electricity consumption (GWh) in:	
	(a) Stroud	*(b) Gloucestershire*[1]
2005	563.6	3,207.7
2006	586.8	3,301.3
2007	578.1	3,212.8
2008	569.7	3,144.0
Total (2005-08)	2,298.3	12,865.9

[1] Gloucestershire is defined here as comprising of the following local authorities: Cheltenham, Cotswold, Forest of Dean, Gloucester, Stroud and Tewkesbury.

Similar data are also available for 2003 and 2004. However there are methodological differences in the production of the datasets before 2005 and therefore the data for 2003 and 2004 are not directly comparable with the later datasets. The changes in methodology were recognised as improvements and as such the statistics from 2005 are classified as National Statistics. Details of all methodologies used to compile the statistics can be found at:

http://www.decc.gov.uk/en/content/cms/statistics/regional/regional.aspx

Electricity: Prices

Sir Peter Viggers: To ask the Secretary of State for Energy and Climate Change what obligation electricity suppliers have to customers in respect of price when supplying electricity under Tariff B. [312841]

Mr. Kidney: Setting of prices, including the level of differential between peak and off-peak charges on an Economy 7 type tariff, is a commercial decision for the company concerned. It is for Ofgem to consider whether pricing is appropriate, and it can take action if it decides that it is not.

Gas and electricity suppliers currently have up to 65 working days to notify their customers that a price increase has taken place. We think it is unacceptable for customers to be informed of price rises so late. Ofgem has committed to consulting on the matter before Easter. We have also amended the Energy Bill during its passage through the House of Commons to include powers for the Government to set the period within which energy companies must inform customers of changes to their tariffs should Ofgem be unable to address the issue in a timely fashion.

Energy Saving Trust: Public Relations

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Wealden of 8 December 2009, *Official Report*, column 323W, on the Energy Saving Trust: advertising, how much the Energy Saving Trust spent on external public relations services in each of the last three years; and whether it has contracted the services of public affairs companies during that period. [315496]

Joan Ruddock: The EST have spent the following on external public relations services in each of the last three years and have contracted the services of public affairs companies during that period.

	Total (£)
2006-07	247,118
2007-08	104,791
2008-09	209,109

Government Departments: Carbon Emissions

Mr. Maude: To ask the Secretary of State for Energy and Climate Change how many tonnes of equivalent carbon dioxide were offset by each member of the Government Carbon Offsetting Fund, according to outturn figures, in *(a)* 2007-08 and *(b)* 2008-09 in respect of (i) domestic, (ii) short haul and (iii) long haul flights. [318345]

Joan Ruddock: The total figures for the Government Carbon Offsetting Facility are available on the DECC website at:

http://www.decc.gov.uk/en/content/cms/what_we_do/lc_uk/co2_offsetting/gov_offsetting/gov_data/gov_data.aspx

The following table breaks these data down by domestic, short-haul and long-haul flights where DECC holds these data.

Where the total number of certified emissions reductions (CERs) purchased is higher than the sum of the domestic, short-haul and long-haul flights data, this is due to offsetting of other travel such as rail and road travel. One CER is equivalent to one tonne of carbon dioxide equivalent.

Government Carbon Offsetting Facility—Phase 1 (April 2007 to March 2009): Purchases of Certified Emissions Reductions (CERs)

	CERs purchased under GCOF I by domestic, short-haul and long-haul						*Total CERs purchased*		
	Domestic		*Short-haul*		*Long-haul*				
Public sector organisation	*2007-08*	*2008-09*[1]	*2007-08*	*2008-09*[1]	*2007-08*	*2008-09*[1]	*2007-08*	*2008-09*[1]	*Total*
British-American Parliamentary Group (BAPG)	—	—	—	—	42.95	75.24	42.95	75.24	118.19

Government Carbon Offsetting Facility—Phase I (April 2007 to March 2009): Purchases of Certified Emissions Reductions (CERs)

	CERs purchased under GCOF I by domestic, short-haul and long-haul						*Total CERs purchased*		
	Domestic		*Short-haul*		*Long-haul*				
Public sector organisation	*2007-08*	*2008-09[1]*	*2007-08*	*2008-09[1]*	*2007-08*	*2008-09[1]*	*2007-08*	*2008-09[1]*	*Total*
Cabinet Office (including No. 10 Downing street; 2006-07 Figures also include figures for 2005-06)	50.85	[2]—	3,386.95	[2]—	914.27	[2]—	4,352.07	4,500.00	8,852.07

Government Carbon Offsetting Facility—Phase I (April 2007 to March 2009): Purchases of Certified Emissions Reductions (CERs)

Public sector organisation	CERs purchased under GCOF I by domestic, short-haul and long-haul						Total CERs purchased		
	Domestic		Short-haul		Long-haul				
	2007-08	2008-09[1]	2007-08	2008-09[1]	2007-08	2008-09[1]	2007-08	2008-09[1]	Total
Ministry of Defence (MOD)	411.13	673.32	3,667.64	4,042.19	12,794.58	19,591.30	16,873.35	24,306.82	41,180.17
Ministry of Justice (MOJ) (including Department for Constitutional Affairs)	434.36	599.64	296.53	168.21	652.91	622.20	1,495.97	1,509.18	3,005.15
Northern Ireland Office (NIO)	552.40	582.53	27.71	18.64	59.54	49.48	639.64	650.65	1,290.29
Royal Household (RH)	[2]—	[2]—	[2]—	[2]—	[2]—	[2]—	5,452.47	4,688.00	10,140.47
Sustainable Development Commission (SDC)	[2]—	[2]—	[2]—	[2]—	[2]—	[2]—	151.36	151.36	302.72
The Rent Service (TRS)	—	—	—	—	—	—	—	—	—
Transport for London (TFL)	15.13	4.38	316.24	165.91	540.67	463.35	872.04	633.65	1,505.69
Valuation Office Agency (VOA)	18.60	50.15	2.83	2.19	11.97	30.08	33.40	82.42	115.82
	—	—	—	—	—	—	113,062.53	98,337.87	211,400.40

[1] Payments made for 2008-09 were based on estimates to be reconciled with actual data published as part of the SDiG report. Any remaining differences will be purchased through GCOF II. This explains the difference between figures in 2008-09 and those published for the Cabinet Office at:
www.cabinetoffice.gov.uk/media/225313/cabinetoffice2009.pdf_p106

[2] Only total purchase of CERs known.

[3] No flights offset—only road travel.

Notes on why total CERs purchased are sometimes different to sum of domestic, short-haul and long-haul flight emissions:

1. DEFRA, ECGD and DFID have purchased CERs to offset road and rail travel as well as air travel.
2. MOJ data broken down for air travel where possible. Some agencies of MOJ have estimated totals.
3. MPS total less than sum of domestic, short-haul and long-haul flights due to use of separate emissions factors for total.

Mr. Bain: To ask the Secretary of State for Energy and Climate Change which Departments *(a)* are and *(b)* are not on target to stay within their allocated carbon budget for 2009-10; and what assessment he has made of the reasons for which such budgets are likely to be exceeded. [318616]

Joan Ruddock: In common with UK carbon budgets, departmental carbon budgets are for five-year periods (2008-12, 2013-17 and 2018-22). We will be reporting on progress towards meeting the budgets in October in our response to the annual report from the Committee on Climate Change.

Housing: Energy

Jim Cousins: To ask the Secretary of State for Energy and Climate Change what steps his Department has taken to assist low income homeowners resident in properties without cavity walls to make their houses more energy efficient. [318814]

Mr. Kidney: Since 2002, through the Government's flagship tool for delivering household energy and carbon savings, the Carbon Emissions Reduction Target (CERT) and its predecessors, over 6 million households have been helped with insulation measures with almost three million of these in a priority group of vulnerable households. Between April 2008 and June 2009 over 22,000 households received solid wall insulation measures. We are currently revising some of the delivery schemes (principally CERT) to ensure that household insulation work continues at increased rates to reach the target by December 2011.

The Department and National Energy Action (NEA) has begun a piloting exercise of external wall insulation for 100 park home properties. The pilot is expected to be completed in 2010. The pilot will assess the effectiveness of the insulation products against a variety of criteria, including cost of installation, energy savings and customer satisfaction.

The Government's Household Energy Management strategy, to be published shortly, will discuss how we are to meet our ambitious energy efficiency targets, including the delivery of measures such a solid wall insulation, and the need to address delivery in a fair way that takes account of the needs of the vulnerable and fuel poor.

Microgeneration: Certification

David T.C. Davies: To ask the Secretary of State for Energy and Climate Change what proportion of the inspection requirement for the purposes of accreditation by BRE under the microgeneration certification scheme is based on paperwork. [318133]

Joan Ruddock: The proportion of time spent on inspection requirements for the Microgeneration Certifications Scheme (MCS) installer scheme varies from assessment to assessment, depending on the level and standard of quality management systems already in place.

BRE Global, along with other MCS certification bodies, look for evidence that an installer company meets MCS 001 which includes requirements to assess the Installation Quality Control (IQC). Written procedures, which need to be systematically followed in each installation, ensure that all MCS installations meet consistent standards.

MCS installer standards also require a certification body, such as BRE, to inspect an installation, e.g. a small wind turbine, to determine the competency of the installer company.

All the requirements of the MCS scheme for installer companies are set out at:

http://www.microgenerationcertification.org/Product+Manufacturers+and+Installers/Installers

David T.C. Davies: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the average cost to a microgeneration scheme installer of complying with the standards required by the microgeneration certification scheme. [318134]

Joan Ruddock: It is not possible to provide a meaningful average cost for MCS certification of installer companies, as the costs for installer companies to become certificated under the Microgeneration Certification Scheme (MCS) are dependent on a number of factors.

Costs for installer companies relate to the fixed rates of the certification body undertaking the assessment; the number of technologies being assessed; the cost of training requirements and the amount of work a company needs to do to put in place quality control procedures.

There are additional costs relating to mandatory membership of an MCS consumer code which meets OFT requirements. There is also an annual MCS administration fee (£100). To ensure the ongoing robustness of the scheme and that standards are maintained, MCS installer companies are also subject to annual surveillance visits.

The fees charged by MCS certification bodies are published on their respective websites. For contact details of all MCS certification bodies see:

http://www.microgenerationcertification.org/Certification+Bodies

Stress

Grant Shapps: To ask the Secretary of State for Energy and Climate Change if he will place in the Library a copy of the advice issued to staff of his Department on stress recognition and management. [314522]

Joan Ruddock: DECC is finalising its own HR policies including stress recognition and management. Once DECC's policy is finalised, a copy will be placed in the Libraries of the House.

Stroud Transition Train Group: Finance

Mr. Drew: To ask the Secretary of State for Energy and Climate Change how much funding his Department has allocated to the Stroud Transition Train Group to date; over what period such funding has been provided and for what purpose; and what mechanism is in place for monitoring and evaluating its effectiveness. [318901]

Joan Ruddock: The Department does not fund Stroud Transition Train Group.

Uranium: Mining

Paul Flynn: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 5 February 2010, *Official Report*, column 620, on uranium: mining, which respondents' concerns over the impact of uranium mining abroad led to him seeking further information on the safety of uranium mining; from which organisations and sources he sought further information; whether the contract placed with Integrated Decision Management followed a competitive tendering process; and what qualifications Integrated Decision Management demonstrated to show suitability to provide technical advice on this matter. [319166]

Mr. Kidney: All responses to the Government's consultation on the Nuclear Industry Association's application for the Regulatory Justification of new nuclear power station designs have been placed on the Department's website at:

http://www.decc.gov.uk/en/content/cms/consultations/open/nuclear/nuclear.aspx

The further consultation on my right hon. Friend the Secretary of State's proposed decisions that the AP1000 and EPR nuclear power station designs are Justified under the terms of the Justification of Practices Involving Ionising Radiation Regulations 2004 sets out the further information on the safety regime for uranium mining which he took into account.

The placing of a contract with Integrated Decision Management followed a competitive tendering process in which they and their partners the National Nuclear Laboratory demonstrated the ability to supply specialist technical support to help with the Regulatory Justification process.

Warm Front Scheme

Paul Holmes: To ask the Secretary of State for Energy and Climate Change what estimate his Department has made of the average waiting time for the installation of *(a)* heating and *(b)* insulation under the Warm Front Scheme in (i) Chesterfield constituency, (ii) Derbyshire and (iii) England in each year since the scheme's inception. [319695]

Mr. Kidney: The following table provides information as to the average waiting time (in days) for the installation of *(a)* heating and *(b)* insulation measures under the Warm Front Scheme in (i) Chesterfield constituency, (ii) Derbyshire (iii) England in each year since eaga became the Scheme manager for this region.

	Waiting times for heating measured in days		
	Chesterfield	*Derbyshire*	*England*
2005-06	—	—	67.70
2006-07	—	—	74.48
2007-08	—	—	63.83
2008-09	—	—	57.24
2009-10	34.26	35.20	44.72

	Waiting times for insulation measured in days		
	Chesterfield	*Derbyshire*	*England*
2005-06	—	—	30.88
2006-07	—	—	29.46
2007-08	—	—	32.74
2008-09	—	—	23.34
2009-10	10.76	13.21	17.37

Note:
Waiting time data at a constituency and regional level is retained for 12 months only.

Warm Front Scheme: Essex

Bob Spink: To ask the Secretary of State for Energy and Climate Change how much has been spent on the Warm Front programme in *(a)* Essex and *(b)* Castle Point in each year since its inception; and what recent steps his Department has taken to (i) encourage take-up of energy efficiency measures and (ii) reduce the level of fuel poverty in Castle Point constituency. [318079]

Mr. Kidney: The following table shows how much has been spent in *(a)* Essex and *(b)* Castle Point through Warm Front under the present phase of the scheme which began in 2005.

£

	Essex	*Castle Point*
2005-06	2,000,189.00	177,491.43
2006-07	6,182,784.13	598,284.01
2007-08	9,468,843.84	1,276,872.33
2008-09	12,165,333.14	1,695,775.39
2009-10[1]	8,274,213.56	1,039,361.96
Total	38,091,363.67	4,787,785.12

[1] Data run to 31 January 2010.

The Government have a strong package of measures to encourage the take-up of energy efficiency measures and help reduce fuel poverty among vulnerable households:

The ACT ON CO_2 campaign encourages energy efficiency in the home through the use of advertising (broadcast, online and press), digital media, outreach events, PR and partnerships with appropriate commercial organisations. Typically this promotion encourages a range of behaviours from simple actions like turning down thermostats, turning off electrical appliances fully and using energy efficient light bulbs to more substantial measures like loft and cavity wall insulation. The current burst of advertising on insulation launched on 11 January and will run to mid-March 2010.

Schemes such as Warm Front, Carbon Emissions Reduction Target (CERT), Community Energy Saving Programme (CESP), and the Decent Homes Standard reduce the demand for energy by improving home energy efficiency.

CERT requires energy suppliers to meet at least 40 per cent. of their obligation by promoting and installing measures in the homes of a priority group of vulnerable consumers in receipt of qualifying benefits or people aged over 70 years. Measures are only reported at a GB level and details for the work carried out in Essex and Castle Point are therefore not available.

A regulatory framework has been introduced that: promotes competition as the main driver to ensure downward pressure on prices for consumers; improves licence conditions; and strengthens Ofgem's powers through the Energy Bill.

Measures such as the winter fuel payments and cold weather payments—alongside the wider tax and benefit system and through benefit entitlement checks (BECs) under the Warm Front Scheme—have raised real incomes. Since 2005, Warm Front has carried out almost 900 BECs in Castle point, identifying eligibility for a previously unclaimed benefit in over 350 households—leading to an average increase of £31.09p in weekly income.

We have also introduced legislation to implement mandated social price support schemes once the current voluntary agreement with suppliers comes to an end in 2011. These schemes will provide more of the most vulnerable consumers with help towards their energy costs. We have said that we are minded to focus the majority of the additional resources on older pensioner households on the lowest incomes as these households tend to have a high incidence of fuel poverty—over 50 per cent. of fuel poor households have a person over 60 living in them; their circumstances are relatively stable; and they are at the greatest risk of excess winter deaths.

The fuel poverty review which was announced in January 2009, has been looking across all three drivers of fuel poverty (income, energy prices and energy efficiency) and particularly the key issue of how we can more effectively identify and target assistance at the most vulnerable households.

Bob Spink: To ask the Secretary of State for Energy and Climate Change how many applications from residents of *(a)* Essex and *(b)* Castle Point for (i) heating, (ii) insulation and (iii) heating and insulation measures under the Warm Front scheme were approved in each of the last three years. [318080]

Mr. Kidney: The following table provides information as to how many applications were approved in *(a)* Essex and *(b)* Castle Point for (i) heating, (ii) insulation and (iii) heating and insulation measures under the Warm Front scheme for the previous three years and up to 31 January for the current year.

	2006-07	*2007-08*	*2008-09*	*2009-10*[1]	*Total*
Essex					
Heating	1,442	1,806	1,848	1,814	7,863
Insulation	3,209	3,454	4,069	1,814	14,476
Heating and insulation	1,505	1,991	2,212	1,545	8,267
Castle Point					
Heating	166	268	285	213	923
Insulation	451	312	281	186	1,332
Heating and insulation	213	266	227	169	940

[1] Up to 31 January 2010.

Bob Spink: To ask the Secretary of State for Energy and Climate Change how many households in *(a)* Essex and *(b)* Castle Point have received assistance under the Home Energy Efficiency scheme since the inception of that scheme. [318081]

Mr. Kidney: The operating name of the Home Energy Efficiency Scheme in England is Warm Front.

The following table shows how many households in *(a)* Essex and *(b)* Castle Point have received assistance from Warm Front under the present phase of the Scheme (since 2005).

	Essex	*Castle Point*
2005-06	3,487	216
2006-07	7,022	881
2007-08	8,499	776
2008-09	9,809	968
2009-10[1]	6,399	693
Total	35,216	3,534

[1] Up to 31 January 2010.

Prior to 2005 these regions were under the control of a different Scheme Manager. The data retained by the present administrator are not sufficient to provide a consolidated response.

Wind Power

Mr. Lancaster: To ask the Secretary of State for Energy and Climate Change what the total output of UK's off-shore wind turbines, expressed as a proportion of their load factor, was in each week in January 2010. [318167]

Mr. Kidney: Total output figures for offshore wind are available only on an annual basis. The most recent data are for 2008, when offshore wind generation was 1,305 GWh. Data for wind generation as a whole, by major power producers, are collected monthly, with the latest data showing December 2009's generation as 572 GWh.

Load factors are defined as the average hourly quantity of electricity supplied during the year, expressed as a percentage of the average output capability at the beginning and end of the year. As such, these are only calculated on an annual basis, with the latest data for 2008 showing a load factor of 34.9 per cent.

TREASURY

Banks

Mr. Fallon: To ask the Chancellor of the Exchequer whether his Department has agreed any instrument or facility whereby an investment bank has been authorised to trade in the securitisation of future public revenues not otherwise reported to Parliament. [318195]

Sarah McCarthy-Fry *[holding answer 24 February 2010]:* No such agreement has been entered into by the Department.

Banks: Redundancy

Jim Cousins: To ask the Chancellor of the Exchequer (1) how many jobs in each *(a)* region and *(b)* county have been lost in total in Northern Rock and Bradford and Bingley since the Government acquired its stake in each; [318821]

(2) how many jobs in each *(a)* region and *(b)* county were lost in those banks in which UK Financial Investments Ltd. has a stake were lost in the last 12 months; [318822]

(3) how many jobs have been relocated offshore by Lloyds Banking Group in the period since the Government acquired its stake in the bank; and what discussions have taken place between *(a)* his Department and *(b)* UK Financial Investments Ltd. with Lloyds Banking Group on that matter. [318823]

Sarah McCarthy-Fry: The Government's investments in the Royal Bank of Scotland, Lloyds Banking Group, Northern Rock plc, Northern Rock (Asset Management) plc, and Bradford and Bingley plc are managed on a commercial and arm's-length basis by UK Financial Investments Limited.

Decisions about business operations remain the responsibility of the directors of those banks. It is a matter for each company's management to release specific business updates or provide any required disclosures in their audited annual report and accounts.

Business: Government Assistance

Mr. Binley: To ask the Chancellor of the Exchequer how many businesses have used the HM Revenue and Customs Business Payment Support Scheme in the last 12 months. [316858]

Mr. Timms: Since its introduction on 24 November 2008 the Business Payment Support Service (BPSS) has agreed around 292,000 Time To Pay arrangements (TTP) in the UK with businesses to spread tax payments of about £5 billion over an agreed period.

This has helped to support more than 160,000 businesses, the vast majority of whom are small and medium sized. Over 90 per cent. of the value of arrangements is being paid on time.

Between 1 February 2009 and 31 January 2010, 229,000 TTP agreements were made with customers via the BPSS.

Child Benefit

Mr. Evans: To ask the Chancellor of the Exchequer how many young people there are with non-resident parents who are legal migrants to the UK and who claim child benefit. [302375]

Mr. Timms: For information on awards of child benefit in respect of children living in other member states, I refer the hon. Member to the answer given to my hon. Friend the Member for Bassetlaw (John Mann) on 13 October 2009, *Official Report*, column 787W.

Departmental ICT

Mr. Hurd: To ask the Chancellor of the Exchequer how much *(a)* his Department, *(b)* HM Revenue and Customs, *(c)* the Valuation Office Agency and *(d)* his Department's other agencies spent on font licensing in the last three years. [315284]

Sarah McCarthy-Fry: Spending on font licensing in the last three years was £14,268 for HM Treasury, £240 for HM Revenue and Customs and nil for the Valuation Office Agency and Debt Management Office.

Departmental Internet

Mr. Heald: To ask the Chancellor of the Exchequer how many designs for its website his Department has commissioned since 2005. [318641]

Sarah McCarthy-Fry: No designs for the Department's website have been commissioned since 2005.

Departmental Plants

David T.C. Davies: To ask the Chancellor of the Exchequer how much *(a)* his Department and *(b)* its agencies has spent on pot plants in 2009-10. [319196]

Sarah McCarthy-Fry: Information on spending in the current financial year will be available once the financial year has been completed and the Treasury's Resource Account has been audited by the Comptroller and Auditor General.

Government Departments: Personal Records

Jim Cousins: To ask the Chancellor of the Exchequer what steps have been taken to implement a cross-government change of circumstances service and a cross-government identity management system. [318844]

Mr. Byrne: Steps to implement a cross-government change of circumstances service and a cross-government identity management system were set out in the Government's document "Putting the Frontline First: Smarter Government", page 24. This was published in December 2009 and is available at:

www.hmg.gov.uk/frontlinefirst.aspx

Income Tax

Pete Wishart: To ask the Chancellor of the Exchequer what the collection rate of income tax was in *(a)* Scotland and *(b)* the UK in each year since 2007. [317920]

Mr. Timms: Collection rates are normally calculated as the amount collected as a proportion of the amount billed (or charged). The balance will be either still being collected or will have been written-off as a loss. The majority of income tax is either deducted at source (i.e. via PAYE) or self-assessed via income tax self assessment (ITSA), so is never actually billed or charged and as such a collection rate measurement is not appropriate.

HM Revenue and Customs does publish figures on revenue losses in its Trust Statement which form part of its published accounts, available at:

http://www.hmrc.gov.uk/about/reports.htm

Inheritance Tax: Castle Point

Bob Spink: To ask the Chancellor of the Exchequer how much revenue accrued to the Exchequer from inheritance tax on estates in Castle Point constituency in the last five years. [318099]

Mr. Timms: HM Revenue and Customs (HMRC) estimate that around £400 million was received in inheritance tax receipts for the Government office region of east of England in 2007-08.

Information for other years or at a sub-regional level is currently available only at disproportionate cost because:

Inheritance tax data are based on a UK wide sample of cases which is designed to produce national level figures. The size of the sample means that HMRC cannot currently reliably estimate the number of taxpayers below a regional level; and

Postcodes are frequently missing from inheritance tax returns, and while the completion rate has improved to the point where analysis of the tax receipts on a regional basis can be carried out for 2007-08 this is not possible for earlier years.

Inheritance Tax: Na h-Eileanan an Iar

Mr. MacNeil: To ask the Chancellor of the Exchequer how much revenue accrued to the Exchequer from inheritance tax on estates in Na h-Eileanan an Iar constituency in the last five years. [318931]

Mr. Timms: HM Revenue and Customs' Inheritance Tax receipts from Scotland are published by the Scottish Executive in Table 4.2 of their Government Expenditure and Revenue Scotland report, available at:

http://www.scotland.gov.uk/Publications/2009/06/18101733/6

Information for other years or at a sub-regional level is currently available only at disproportionate cost because:

Inheritance tax data are based on a UK wide sample of cases which is designed to produce national level figures. The size of the sample means that HMRC cannot currently reliably estimate the number of taxpayers below a regional level; and

Postcodes are frequently missing from inheritance tax returns, and while the completion rate has improved to the point where analysis of the tax receipts on a regional basis can be carried out for 2007-08 this is not possible for earlier years.

Members: Correspondence

Mr. Baron: To ask the Chancellor of the Exchequer when he plans to respond to the letter of 18 December 2009 from the hon. Member for Billericay on his constituent Mrs Dunne. [318967]

Sarah McCarthy-Fry: A reply was sent to the hon. Member on 23 February 2010.

Mortgages

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer with reference to the answer to the hon. Member for Bromley and Chislehurst of 11 January 2009, *Official Report*, column 709W, on mortgages, what assessment has been made of the effect of the European Commission proposals on *(a)* the level of access by first time buyers to mortgages and *(b)* the maximum loan to value mortgage permitted for residential mortgages. [319318]

Sarah McCarthy-Fry: The Tripartite Authorities continue to engage in European proposals concerning mortgage markets and are themselves exploring changes to mortgage regulation at a UK level. The FSA issued a Discussion Paper in October 2009 reviewing the current regulations. Chapter 3 discusses prudential measures, and Chapter 4 considers product regulation. The paper is available online at:

www.fsa.gov.uk/pubs/discussion/dp09_03.pdf

Mortgages: Government Assistance

Angus Robertson: To ask the Chancellor of the Exchequer (1) how many applications have been made to the Homeowner Mortgage Protection Scheme in 2010; [318831]

(2) how many homeowners are participating in the Homeowner Mortgage Protection Scheme. [318832]

John Healey: I have been asked to reply.

For management information on Homeowners Mortgage Support I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 16 December 2009, *Official Report*, column 1297W.

Stewart Hosie: To ask the Chancellor of the Exchequer how many homeowners in Dundee East constituency are in receipt of assistance under the Homeowner Mortgage Protection Scheme. [319599]

John Healey: I have been asked to reply.

For management information on Homeowners Mortgage Support I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 16 December 2009, *Official Report*, column 1297W. This information is not monitored at constituency level.

Public Sector: Construction

Mr. Rooney: To ask the Chancellor of the Exchequer (1) what steps the Office of Government Commerce is taking *(a)* to monitor compliance by public sector construction clients with the Common Minimum Standards, *(b)* to ensure that supply team workforces have

Construction Skills Certification Scheme cards and *(c)* to exclude from tendering companies which are not compliant with the Construction Skills Certification Scheme; [319832]

(2) what recent estimate he has made of the number of public sector construction clients who do not *(a)* adhere to the Common Minimum Standards and *(b)* by contract require their contractors to ensure that their employees have Construction Skills Certification Scheme cards. [319819]

Ian Pearson: The Common Minimum Standards (CMS) summarise Government policy affecting the procurement of built environments. Government do not centrally monitor procuring organisations' implementation of that policy. One of the standards is for clients to include a contract clause requiring individuals in their supply teams to be registered on the Construction Skills Certification Scheme (CSCS), a trade body run by CSCS Ltd., or to be able to prove their competence in some other appropriate way.

CSCS is managed under contract by CITB-ConstructionSkills, a sector skills body. The rules and scheme criteria are set by the scheme's owners and Government have no involvement.

Revenue and Customs

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what the objectives are of the *(a)* pensions simplification, *(b)* tax credits, *(c)* taxpayer understanding, *(d)* web convergence, *(e)* integrated customer management, *(f)* data quality and *(g)* customer foundations change and improvement programme under HM Revenue and Customs' Departmental Transformation Programme. [316944]

Mr. Timms: The information requested is as follows:

Pensions Simplification

This programme was part of the Government's agenda to reform pensions to encourage more people to save for their retirement, and to reduce the compliance costs of the pensions industry. The programme successfully delivered an online service in two phases. The first was completed in April 2006 and provided online registration for new pension schemes. The second, in April 2007, delivered an online service to file pension scheme returns.

Tax Credits

This programme was established to deliver targeted service improvements, to help customers get their claim right and improve the customer experience. It is still in progress.

Taxpayer Understanding

This was a research project to gain a detailed understanding of customer behaviour. This programme was originally a strand from the Customer Foundations programme and closed in March 2008.

Web Convergence

This programme was developed to transform the Department's website to converge content with the cross-Government portals, Directgov and Businesslink. The Businesslink Convergence programme is still in progress, and due to complete by April 2011.

Integrated Customer Management

This programme was designed to deliver services and processes structured around the customer to improve efficiency, compliance and the customer experience; it was closed in February 2007.

Data Quality

This programme was designed to improve data integrity and facilitate the merger of data in legacy systems; it was closed in March 2007.

Customer Foundations Change and Improvement (also known as Customer Foundations)

This programme was developed to help drive organisational and operational change, to deliver transformed services to customers, reduce cost and improve compliance. The programme ran from October 2006 and closed in March 2007.

Revenue and Customs: Manpower

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer how many *(a)* staff and *(b)* consultants were employed in each business unit of HM Revenue and Customs in (i) 2006, (ii) 2007 and (iii) 2008. [313938]

Mr. Timms: The information requested is in the following table.

HM Revenue and Customs' reorganisation of its business units and transfers of staff and responsibilities between units means that staff numbers over a period may not be directly comparable.

	2006		*2007*		*2008*	
Directorate	*Headcount*	*Full-time equivalent*	*Headcount*	*Full-time equivalent*	*Headcount*	*Full-time equivalent*

Information on the number of individual consultants employed is not held centrally by the Department and could be provided only at disproportionate cost.

Revenue and Customs: Standards

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer (1) what accuracy statistics are recorded by the HM Revenue and Customs Quality Monitoring Exercise each month; [312148]

(2) what accuracy statistics his Department's Quality Monitoring Exercise records each month. [312149]

Mr. Timms: The following accuracy statistics are collated internally by HM Revenue and Customs (HMRC) on a monthly basis as part of the quality monitoring exercise in relation to self assessment.

Sample checks are made:

to record whether the self assessment return has been correctly recorded on the Department's systems on the right date and on the right record;

to establish that the tax bill is correct, that any necessary corrections have been made and any repayment has been made in the right amount to the right person at the right address;

to establish that any claims to adjust payments on account have been processed accurately and on time;

that any balancing payments have been correctly dealt with;

to establish that the code number for the current year and subsequent year is correct;

to ensure the Department's procedures have been followed to correct obvious errors; and that the Department's systems have been updated with any changes reflected in the return.

The following accuracy statistics are collated internally by HMRC as part of the quality monitoring exercise in relation to pay-as-you-earn.

Sample checks are made to record whether:

the code number for the current year and subsequent year is correct;

the liability reviewed for any earlier year is correct;

any tax calculation issued is correct;

any payable order has been issued in the correct amount and issued to the right person at the right address; and

the Department's systems accurately reflect known taxpayer details.

State Retirement Pensions

Steve Webb: To ask the Chancellor of the Exchequer with reference to the answer of 9 September 2009, *Official Report*, column 1929W, on state retirement pensions, how many *(a)* men and *(b)* women who reached state pension age between 6 April 2008 and 5 April 2009 have taken up the option of buying back one or more years of class 3 national insurance contributions under the measures contained in the Pensions Act 2008 to date; and how much has been paid back in contributions by such individuals to date. [319540]

Sarah McCarthy-Fry: The information request is provided in the table:

	Total	*NI contributions (£)*
Men	130	217,900
Women	893	1,492,741

Tax Allowances

Mr. Clappison: To ask the Chancellor of the Exchequer what estimate he has made of *(a)* the revenue to be raised consequent upon the withdrawal of personal allowances on incomes between £100,000 and £112,950 and *(b)* the number of taxpayers who will be affected by this change. [312364]

Mr. Timms: The Exchequer effect of the announced changes can be found in the Budget Report 2009 in 'Table 1.2 Budget 2009 policy decisions' and in 'Table A2 Other measures announced since Budget 2008'.

http://www.hm-treasury.gov.uk/d/Budget2009/bud09_chapter1_237.pdf

http://www.hm-treasury.gov.uk/d/bud09_chaptera_307.pdf

The announced changes are expected to affect the top 2 per cent. of tax payers in 2010-11.

Taxation: Gambling

Mr. Greenway: To ask the Chancellor of the Exchequer how much betting tax was paid by *(a)* gambling operators and *(b)* the National Lottery in each of the last three years. [318685]

Sarah McCarthy-Fry: Information about betting and gaming taxes revenue collected by HMRC is available at:

https://www.uktradeinfo.com/index.cfm?task=bullbett

The following table shows figures for revenue collected from betting duty in each of the last three years:

	£ 000
	Total betting
2007	418,459
2008	412,098
2009	353,347

Lottery Duty applies to lottery operators and is not a betting tax.

VAT

Dr. Cable: To ask the Chancellor of the Exchequer if he will make an assessment of the effects on small and medium-sized enterprises of increasing the value added tax registration threshold to £200,000; and if he will make a statement. [305762]

Mr. Timms: The UK has one of the highest VAT registration thresholds in the European Union. Under existing agreements any increase is limited to maintaining the value of the threshold in real terms.

Changing the registration threshold to £200,000 would have significant effects on competition between registered and unregistered businesses, on burdens on businesses and HM Revenue and Customs and on revenues.

VAT: Alcoholic Drinks

Stewart Hosie: To ask the Chancellor of the Exchequer if he will take steps to prevent value added tax being reclaimed by retailers in relation to loss-leading on marketing promotions of alcohol products. [319352]

Mr. Timms *[holding answer 26 February 2010]*: I refer the hon. Member to the answer given to him on 3 February 2010, *Official Report*, column 371W. Businesses are entitled to reclaim the value added tax on costs that relate to their business activities. There are therefore no grounds on which to take steps to prevent value added tax being reclaimed by retailers in relation to marketing promotions of alcohol products, even if those are loss leading within the wider context of their business activities.

Mortgages: Government Assistance

Mr. MacNeil: To ask the Chancellor of the Exchequer how many homeowners are in receipt of assistance under the Homeowner Mortgage Protection Scheme in Na h-Eileanan an Iar constituency. [318932]

John Healey: I have been asked to reply.

For management information on Homeowners Mortgage Support I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 16 December 2009, *Official Report*, column 1297W.

JUSTICE

Crime: Convictions

Chris Grayling: To ask the Secretary of State for Justice pursuant to the answer of 4 February 2010, *Official Report*, columns 488-89W, on crime: convictions, what the equivalent figures are for each year between 1997 and 2006. [319825]

Claire Ward: The available information from 1997 to 2008 (latest available), is shown in tables 1 to 15 which have been placed in the Library of the House.

The Court Proceedings Database holds information on defendants proceeded against, found guilty and sentenced for criminal offences in England and Wales. Specific information on the circumstances of an offence are not held centrally and it is therefore not possible to identify whether an offence arising from tackling an intruder occurred in a residential or retail property.

Cautions and court proceedings data for 2009 are planned to be published in the autumn, 2010.

Custodial Treatment

Chris Grayling: To ask the Secretary of State for Justice how many people in receipt of a custodial sentence for *(a)* sexual offences, *(b)* murder and *(c)* offences related to terrorism are absent without authorisation from prisons. [317763]

Maria Eagle: There are three main types of unapproved absence: (a) escapes, which involve a prisoner absenting himself from prison custody without lawful authority by overcoming a physical security restraint such as fences, locks, bolts and bars, a secure vehicle or handcuffs; (b) absconds, where a prisoner absents himself from prison custody without lawful authority and without overcoming physical security restraints (usually from open prisons); and; (c) recalls from temporary release licence following breach before being taken into police or prison custody. Additionally a small number of releases in error occur as a result of administrative error.

The following table shows a breakdown of prisoners with *(a)* sexual offences, *(b)* murder and *(c)* offences related to terrorism who are still absent without authorisation from prisons from 1 April 2004 until 31 March 2009.

Breakdown of prisoners by main index offence who are absent from prisons without authorisation since 1 April 2004 until 31 March 2009

Type of absence	*Sexual offence*	*Murder*	*Offence related to terrorism*
Escape	0	0	0
Abscond	0	2	0
Temporary release recall	0	1	0
Release in error[1]	0	0	0

[1] Release in error data available only from 1 January 2005.

These figures have been drawn from live administrative data systems which may be amended at any time. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

There is no category of "offence related to terrorism" but we have interpreted it as referring to those convicted of offences under terrorism legislation, or those convicted of other offences (e.g. conspiracy to murder, or explosives-related offences) where the police and prosecution are satisfied that the acts related to terrorism and have prosecuted the case as such.

Departmental Internet

Mr. Heald: To ask the Secretary of State for Justice how many designs for its website his Department and its predecessor have commissioned since 2005. [318647]

Mr. Wills: Two designs have been commissioned for the Ministry of Justice website in the period since 2005:

www.justice.gov.uk

The first design was the creation of the first Ministry of Justice website in May 2007, and the second was a refresh, delivered in April 2009.

For further details regarding both designs I refer the hon. Member to the answer I gave the hon. Member for Monmouth (David T. C. Davies) on 13 January 2010, *Official Report*, column 1010W and the answer given by my hon. Friend the Parliamentary Under-Secretary of State for Justice (Bridget Prentice) to the hon. Member for Eddisbury (Mr. O'Brien) on 23 April 2008, *Official Report*, column 2111W.

Explosives: Crimes of Violence

Chris Grayling: To ask the Secretary of State for Justice (1) how many people have been convicted for possessing explosives with intent to cause violence in England and Wales in each year since 1998; [317660]

(2) how many people have been convicted of possessing explosives without a valid certificate or licence in England and Wales in each year since 1998. [317776]

Claire Ward: The number of persons found guilty at all courts in England and Wales for offences relating to possession of explosives with intent to endanger life is given in the following table from 1998 to 2008 (latest available).

Convictions for offences of possessing explosives without a valid licence are part of a miscellaneous group of Explosives Acts offences, including the 1875 and 1923 Acts, which cannot be separately analysed. For information, defendants found guilty for offences within this miscellaneous group are given in the table.

Data for 2009 are planned for publication in the autumn, 2010.

The number of persons found guilty at all courts for selected explosives offences, England and Wales, 1998 to 2008[1,2]

Offence description	*Statute*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*[3]
Possession etc. of explosives with intent to endanger life	Explosives Substances Act 1883—section 3 (in part)	2	—	—	—	7	4	—	1	4	6	3

The number of persons found guilty at all courts for selected explosives offences, England and Wales, 1998 to 2008[1,2]

Offence description	*Statute*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*[3]
Offences against Explosives Acts; Offences against orders made under the Emergency Laws; Offences against restrictions relating to the manufacture of fireworks	Explosives Acts 1875 and 1923 (except S.80 of the Explosives Act 1875) and Orders in Council and Rules thereunder; Orders made under the Emergency Laws (Miscellaneous Provisions) Act 1953—S.3; Fireworks Act 1951—SS.1(4), 2(5), 5(4) and 6	13	14	8	4	13	7	19	15	4	2	—

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Excludes convictions for Cardiff magistrates court for April, July and August 2008.

Justice Statistics Analytical Services—Ministry of Justice.

Firearms and Drugs: Crime

Chris Grayling: To ask the Secretary of State for Justice how many people attempting to enter the UK were convicted of offences related to the importation and possession of *(a)* firearms and *(b)* drugs in each year since 1998; and how many of these offenders received the maximum prison sentence or highest fine applicable in each year. [318698]

Claire Ward: The number of persons found guilty at all courts in England and Wales for offences of attempting to enter the UK, from 1998 to 2008 (latest available) is given in the table.

Data given in the table are on the principle offence basis which relates to persons for whom these offences were the principal offences for which they were dealt with. For example, when a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

The Court Proceedings Database holds information in relation to the offence as stipulated by law. From this information it is not possible to ascertain at what point an offence was committed. It is therefore not possible to separately identify those offences that were committed at the time of attempting to enter the UK.

Data for 2009 are planned for publication in autumn, 2010.

Number of persons proceeded against at magistrates courts and found guilty at all courts for offences of attempting to enter the UK, England and Wales, 1998 to 2008[1,2,3]

Offence		*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Entering UK in breach of deportation order	Proceeded against	5	6	2	2	8	10	7	9	7	10	13
	Found guilty	4	5	2	1	7	7	7	6	7	6	11
Entering UK without leave	Proceeded against	16	17	19	31	46	51	30	43	75	42	7
	Found guilty	7	15	14	24	36	39	24	33	63	26	7
Total	Proceeded against	21	23	[illegible]	33	54	61	37	52	82	52	20
	Found guilty	11	20	16	25	43	46	31	39	70	32	18

[1] Statistics given are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Excludes convictions for Cardiff magistrates court for April, July and August 2008.

Justice Statistics Analytical Services—Ministry of Justice

HM Courts Service: Debt Collection

John McDonnell: To ask the Secretary of State for Justice how many court enforcement officers HM Courts Service employed in each quarter since January 2005. [318916]

Bridget Prentice: Currently the total number of civilian enforcement officers (CEOs) employed by HMCS is 497. HMCS are unable to provide the number of CEOs employed in previous years' quarters without incurring a disproportionate cost as the specific information relating to CEOs cannot easily be extracted from information held on total numbers of employees.

Human Trafficking

Chris Grayling: To ask the Secretary of State for Justice how many people were convicted of offences related to *(a)* drug trafficking, *(b)* people trafficking, *(c)* firearm trafficking and *(d)* wildlife crimes committed while attempting to enter the UK in each year since 1998. [317657]

Claire Ward: The number of persons found guilty at all courts for offences related to drug trafficking, people trafficking, firearm trafficking and endangered species trafficking, England and Wales, 1998 to 2008 (latest available) is shown in the following table. Information available centrally through the Court Proceedings Database holds information in relation to the offence as stipulated by law. From this information it is not possible to ascertain at what point an offence was committed.

Data for offences under the 'Control of Trade in Endangered Species (Enforcement) Regulations 1997' are part of a miscellaneous group of offences for which 2008 data are not yet separately available. I will write to the hon. Member when these data become available.

Data for 2009 are planned for publication in the autumn, 2010.

Number of defendants found guilty at all courts for offences related to drugs trafficking, people trafficking, firearms trafficking, and endangered species trafficking, England and Wales, from 1998 to 2008[1,2,3]

Justice Statistics Analytical Services—Ministry of Justice.

Human Trafficking: Victims

Mr. Steen: To ask the Secretary of State for Justice what mechanisms are in place to ensure that first responder agencies in human trafficking cases have access to the assistance for victims as required under Article 12 of the Council of Europe Convention on Action against Trafficking in Human Beings. [318970]

Claire Ward: Article 12 of the Council of Europe Convention on Action against Trafficking in Human Beings requires that the assistance measures detailed in its sections (1) and (2) are provided to individuals identified as victims to a 'reasonable grounds' standard of proof. Access to this type of assistance is therefore provided to identified victims of trafficking through support providers.

From 2003 to 2009 the Government invested £5.8 million in the POPPY Project to provide specialist accommodation and support to victims of trafficking for sexual exploitation. A further investment of £3.9 million over the current and next financial year funds specialist accommodation and support for victims of all forms of human trafficking.

To assist in the identification of potential victims of human trafficking and to ensure that they receive the best possible treatment from the outset, the Office for Criminal Justice Reform has published a new toolkit, which provides advice and support to frontline practitioners who may come into contact with victims.

Juries

Justine Greening: To ask the Secretary of State for Justice (1) how many people have been required for jury service *(a)* nationally and *(b)* in each London borough in each of the last 10 years; [318602]

(2) how many people have been summoned for jury service *(a)* nationally and *(b)* in each London borough in each of the last 10 years; [318603]

(3) how many people summoned for jury service were disqualified for each reason *(a)* nationally and *(b)* in each London borough in each of the last 10 years; [318604]

(4) how many people have been summoned for jury service *(a)* once, *(b)* twice, *(c)* three and *(d)* four times (i) nationally and (ii) in each London borough in each of the last 10 years; [318605]

(5) how many people of those summoned have declined to carry out their jury service for each reason *(a)* nationally and *(b)* in each London borough in each of the last 10 years. [318606]

Bridget Prentice: The following table shows, on a national level basis for each calendar year from 2000 to 2008, the following:

(a) how many people have been required for jury service

(b) how many people have been supplied to the court for jury service

(c) how many people have been deferred from the original date they were summoned for jury service

(d) how many people have been excused from jury service

(e) how many people have been disqualified from jury service.

Information for each London borough is not held centrally as the data cannot be extracted in this way by the computer system.

The Ministry of Justice are also unable to provide information on how many people have been summoned for jury service more than once. This is because jurors are selected on a completely random basis using the electoral voting registers supplied annually by each local authority. As the electoral registers are updated annually and due to the randomness of jury selection there is potential for some members of the public to be called for jury service more than once while some may never be called.

Members of the public summoned for jury service cannot decline to carry out jury service. However, a juror can apply to defer their jury service to a more suitable date within the forthcoming 12-month period if the original date is not convenient. Jurors can apply to be excused from jury service but their application must show good cause why they should be excused from attending.

Calendar year end

Lockerbie: Bombing

Daniel Kawczynski: To ask the Secretary of State for Justice (1) if he will make representations to the Cabinet Secretary for Justice in the Scottish Executive for the publication in full of all medical records held in respect of Abdelbaset al-Megrahi; [319697]

(2) what recent discussions he has had with the Cabinet Secretary for Justice in Scotland on the present medical condition of Abdelbaset al-Megrahi; [319698]

(3) what recent discussions he has had with the Cabinet Secretary for Justice in Scotland on the number of medical records which were considered on the decision to release Abdelbaset al-Megrahi on compassionate grounds; [319699]

(4) what recent discussions he has had with the Cabinet Secretary for Justice in Scotland on the fulfilment by Abdelbaset al-Megrahi of the conditions attached to his release since returning to Libya. [319700]

Mr. Straw: The decision to release Abdelbaset al-Megrahi on compassionate grounds is a matter solely for the Scottish Government. It is for the Scottish Cabinet Secretary for Justice to determine whether it would be appropriate to publish the medical records of Mr. al-Megrahi.

As the release of Mr. al-Megrahi is a matter for the Scottish Government, I have not discussed with the Cabinet Secretary for Justice, Mr. al-Megrahi's medical records, his current medical condition, or the conditions attached to his release.

Magistrates' Courts: Fines

John McDonnell: To ask the Secretary of State for Justice how much was *(a)* imposed and *(b)* enforced in financial penalties by magistrates' courts in England and Wales in each quarter since January 2005. [318915]

Bridget Prentice: The total amount imposed in financial penalties by magistrates courts in England and Wales in each quarter since January 2005 is:

Quarter ending	*Amount imposed (£)*
March 2005	72,010,873
June 2005	79,093,537
September 2005	76,827,681
December 2005	75,844,360
March 2006	44,796,975
June 2006	52,798,386
September 2006	73,267,726
December 2006	72,474,846
March 2007	79,821,484
June 2007	76,769,112
September 2007	79,380,472
December 2007	76,605,090
March 2008	78,114,419
June 2008	77,379,483

Quarter ending	*Amount imposed (£)*
September 2008	86,721,586
December 2008	83,070,066
March 2009	86,955,209
June 2009	85,036,294
September 2009	87,865,353
December 2009	87,865,476

HMCS systems do not identify how much was collected in respect of financial penalties imposed in just the magistrates courts and can provide only the total collected in respect of all financial penalties i.e. financial penalties imposed in the magistrates courts, crown courts and unpaid fixed penalty notices and penalty notices for disorder which are transferred into HMCS for enforcement. The total amount collected in respect of all financial penalties in England and Wales in each quarter since January 2005 is:

Quarter ending	*Amount collected (£)*
March 2005	53,291,430
June 2005	57,675,258
September 2005	56,145,793
December 2005	60,742,717
March 2006	58,742,427
June 2006	57,723,587
September 2006	66,590,832
December 2006	58,329,155
March 2007	62,139,086
June 2007	64,707,934
September 2007	64,143,607
December 2007	64,439,257
March 2008	62,820,865
June 2008	63,593,020
September 2008	64,649,201
December 2008	59,572,433
March 2009	58,705,830
June 2009	60,469,348
September 2009	62,260,160
December 2009	69,790,096

It should be noted that financial penalties can be collected in a different period from which they were imposed in.

National Offender Management Service: Consultants

Mr. Grieve: To ask the Secretary of State for Justice how much (a) the National Offender Management Service (NOMS) spent on external consultancy fees and (b) his Department spent on external consultancy fees related to NOMS in each of the last three years. [317128]

Mr. Straw: The Office of Government Commerce (OGC) collates data on consultancy expenditure as part of its Consultancy Value Programme which assists departments in driving greater value from Government's use of consultants. The Ministry's expenditure on consultancy for 2007-08 is reported as £56 million and can be found from the link:

http://www.ogc.gov.uk/professional_services_consultancy_value_programme.asp

The 2008-09 data collection and analysis exercise has recently concluded, giving a finalised figure of £49.7 million. This will be posted on the OGC website in due course. A small element of this finalised figure represents an estimate based on average spend per commission where the data provided by business areas was incomplete.

Both the 2007-08 and 2008-09 figures reflect expenditure by the Ministry of Justice headquarters, HM Courts Service, HM Courts Service Estates, Tribunals Service, and the National Offender Management Service (except for the Probation Service). Refinements in the methodology for classifying expenditure in accordance with OGC taxonomy means that the 2007-08 and 2008-09 figures are not directly comparable at a detailed level.

Within the totals for each year, the National Offender Management Service accounts for £5 million in 2007-08, excluding payments to Treasury Solicitors which were included in the £56 million total, and £1.35 million in 2008-09.

The Ministry was established in May 2007 so data is not available prior to 2007-08 for the Department in its current form.

NOMS receives a delegated budget from the Ministry in order to conduct its business. NOMS have to meet its own consultancy fees from this delegated budget.

Office for Legal Complaints

Mr. Djanogly: To ask the Secretary of State for Justice what the running costs of the Office of Legal Complaints have been in each month since its inception; and what estimate he has made of its likely running costs in its first year of operation. [319076]

Bridget Prentice: The Office for Legal Complaints is currently in the process of setting up the Legal Ombudsman Scheme, which is expected to be in operation in the autumn of 2010, and has spent £1,643,000 of its implementation budget since 1 July 2009, when it was established. This represents an average cost of £235,000 per month.

The running costs of the Legal Ombudsman Scheme in its first year of operation are anticipated to be in line with its forecast budget of £19.9m per annum.

Mr. Djanogly: To ask the Secretary of State for Justice whether the Office for Legal Complaints has installed an IT system to be used to manage its complaints process. [319077]

Bridget Prentice: No IT system for managing the complaints system has been installed yet. The Office for Legal Complaints has completed a tendering process for the installation of a case management system and supporting infrastructure. An announcement of the successful outcome of this process is expected to be made shortly.

Mr. Djanogly: To ask the Secretary of State for Justice what progress has been made on the acquisition of the premises of the Office of Legal Complaints. [319078]

Bridget Prentice: The Office for Legal Complaints announced its permanent location on Tuesday 23 February. It will be located in the centre of Birmingham in Baskerville House.

As required under the Legal Services Act 2007 any commitments for premises undertaken by the OLC within its first five years must be approved by the Lord Chancellor. Ministerial approval for the OLC's preferred premises was given on 10 February.

Paedophilia

Margaret Moran: To ask the Secretary of State for Justice what recent guidance his Department has issued on the publication of images of convicted paedophiles; and if he will make a statement. [318525]

Maria Eagle: The Ministry of Justice has not issued guidance on the publication of images of convicted criminals. However, the Child Exploitation and Online Protection (CEOP) Centre's Most Wanted website was launched in November 2006 in partnership with Crimestoppers. That website contains photographs of convicted child sexual offenders who are wanted because they have breached the notification requirements. The Home Department has indicated that, to date, 15 of the 20 offenders whose photographs have been posted on the website have been located.

The photographs and details of child sexual offenders who have failed to comply with their notification requirements and have gone missing are included on the website only following the exhaustion of all lawful means to identify their whereabouts and a comprehensive risk assessment by the responsible police force in respect of the impact on victims, the individual offenders, their family and the community. CEOP and police forces comply with Standard Operating Procedures drawn up in consultation with the Home Office, ACPO and Crimestoppers.

Prison Accommodation

Mr. Grieve: To ask the Secretary of State for Justice what estimate he has made of *(a)* prison capacity and *(b)* the prison population in each of the next 12 months; and on what assumptions such estimates are based. [317693]

Mr. Straw: By the end of 2009 the total useable operational capacity of the prison estate was 85,986.

The Ministry of Justice aims to increase prison capacity to 96,000 places by 2014 through the prison capacity programme. These places are being provided through the building of new prisons as well as expansion of existing ones and more effective use of the estate. Over 3,600 new places will be delivered in 2010 and around 1,400 new places in 2011.

Capacity estimates are subject to change due to the number of existing prison places which may need to be taken out of use in the future for maintenance purposes. The precise numbers and delivery timings of new prison places will also depend on construction schedules and prioritisation within the prison estate.

The Ministry of Justice produces annual projections of the prison population, most recently in August 2009. These project the prison population under three different scenarios, based on different assumptions about future sentencing trends: the medium scenario assumes no increases or decreases in custody rates or determinate sentence lengths. The high/low scenarios reflect a 1 per cent. annual increase/decrease in custody rates and a 0.5 per cent. increase/decrease in the average (determinate) custodial sentence lengths.

Other impacts included in the projections, such as those of legislation and processes, are applied equally to all scenarios. These cover the anticipated effect of policy and process initiatives that have agreed implementation timetables. These assumptions and anticipated effects have remained unchanged since last year projections.

The requested information is shown in the following table:

Monthly values of projected prison population for high, medium and low scenarios February 2010-February 2011

	High	*Medium*	*Low*
February 2010	83,600	83,100	82,500
March 2010	84,800	84,200	83,500
April 2010	85,000	84,400	83,600
May 2010	85,000	84,300	83,400
June 2010	85,700	84,900	83,900
July 2010	86,600	85,700	84,700
August 2010	86,400	85,500	84,400
September 2010	86,700	85,700	84,400
October 2010	86,800	85,700	84,400
November 2010	87,300	86,100	84,800
December 2010	85,600	84,400	82,900
January 2011	86,500	85,200	83,600
February 2011	86,800	85,400	83,700

Notes:

1. All numbers rounded to the nearest hundred and are end of month figures.

2. The prison population is influenced by diverse factors that can mean that the actual future prison population may not be the same as that projected:

changes in sentencer behaviour, policy decisions and the criminal justice process, which can respond to a multitude of environmental factors such as high profile criminal cases and public debate;

implementation of new policies and processes without a timetable, or for which a quantitative assessment of the impact is currently not possible;

unknown future policy, process and political changes.'

More details on the projections may be found in the latest published bulletin, "Prison Population Projections 2009-2015" Ministry of Justice Statistics Bulletin, 28 August 2009. This is available at the following webpage:

http://www.justice.gov.uk/publications/prisonpopulation.htm

Prison Sentences

Chris Huhne: To ask the Secretary of State for Justice how many people were sentenced to a prison term in each year since 1997; and how many of those people received sentences of *(a)* less than three months, *(b)* three to six months, *(c)* six to 12 months and *(d)* over one year. [319822]

Claire Ward: The requested information is shown in the tables.

The information is taken from Sentencing Statistics 2008, table 2.3, available via the following link:

http://www.justice.gov.uk/publications/sentencingannual.htm

Persons sentenced to immediate custody at all courts by length of sentence, 1997 to 2008, England and Wales

	Number and percentage of persons given immediate custody and sentence length					
All offences	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*
Total persons sentenced	1,373,378	1,456,776	1,397,786	1,414,188	1,338,522	1,410,504
Number given immediate custody	93,841	100,566	105,323	106,187	106,273	111,607
Percentage given immediate custody	6.8	6.9	7.5	7.5	7.9	7.9
Up to and including three months	35,054	39,427	43,059	41,585	40,884	42,542
Over three months and up to and including six months	22,217	24,314	26,203	28,514	29,030	29,419
Over six months and less than 12 months	5,808	5,963	5,573	6,419	6,337	6,590
12 months	5,641	5,837	5,677	5,316	5,019	5,130
Over 12 months[1]	25,121	25,025	24,811	24,353	25,003	27,926

	Number and percentage of persons given immediate custody and sentence length					
All offences	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Total persons sentenced	1,479,812	1,536,826	1,473,275	1,412,940	1,406,788	1,353,937
Number given immediate custody	107,670	106,322	101,236	96,017	95,206	99,525
Percentage given immediate custody	7.3	6.9	6.9	6.8	6.8	7.4
Up to and including three months	40,754	39,707	37,100	34,712	34,427	35,747
Over three months and up to and including six months	29,498	28,492	26,756	24,422	23,109	22,329
Over six months and less than 12 months	6,038	6,346	6,462	6,401	6,779	6,920
12 months	4,800	4,811	5,001	4,775	5,059	5,652
Over 12 months[1]	26,580	26,966	25,917	25,707	25,832	28,877

[1] Includes life and indeterminate sentences.

Notes:

1. These figures have been drawn from administrative data systems.
2. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.
3. This data has been taken from the Ministry of Justice Court Proceedings database.
4. This data is presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed.
5. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.

Source:

Justice Statistics Analytical Services, Ministry of Justice

Property: Sales

Grant Shapps: To ask the Secretary of State for Justice how many property transactions took place where the sale price was *(a)* more than £60,000, *(b)* more than £125,000, *(c)* more than £175,000 and *(d)* more than £250,000 in each year since 1997. [318740]

Mr. Wills: Land Registry is able to provide information on the total number of residential properties sold at full value[1] in the requested categories in each year since 1997.

[1] Full value = residential property transactions where the full price has been paid. The figures exclude a number of transactions including Right to Buy sales at a discount, properties sold by way of a gift and properties sold under a compulsory purchase or Court order.

	> £60,000	*> £125,000*	*> £175,000*	*> £250,000*
1997	526,669	136,965	58,179	22,748
1998	555,992	162,900	73,348	27,890
1999	714,629	241,748	113,334	44,883
2000	731,825	285,573	141,665	57,075
2001	885,625	390,666	197,913	77,098
2002	1,059,497	561,588	302,707	118,723

2008	626,892	458,917	303,879	139,478
2009	576,371	429,267	262,712	124,463

Rape: Sentencing

Mr. Grieve: To ask the Secretary of State for Justice what the average *(a)* determinate sentence and *(b)* tariff was for a life or indeterminate public protection sentence for rape in each of the last 10 years. [316327]

Mr. Straw: The available information is provided in the following table. Data on tariffs for life or indeterminate public protection sentences for rape could currently be provided only at disproportionate cost, though I have asked officials for advice on whether future arrangements for the economic collection of this data are feasible.

When calculating average custodial sentence length only determinate custodial sentences are included. This may have the effect of making the average custodial sentence length (ACSL) appear lower for offences where a larger proportion of offenders are given indeterminate sentences.

Average custodial sentence length for rape[1], 1998 to 2008

	1998	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Rape of a female under 16	88.6	91	91.8	95	94.1	97.1	99.8	95.4	93.3	108.2	110.7
Number of determinate sentences	209	224	188	160	208	235	251	208	189	196	198
Number of indeterminate sentences	7	18	10	14	6	12	16	16	26	35	35
Rape of a female over 16	78.7	78.8	81.5	77.9	83.2	85.3	77.7	82.2	79.8	77.9	80.6
Number of determinate sentences	287	231	245	238	258	261	285	292	264	253	278
Number of indeterminate sentences	28	32	26	28	26	27	34	41	112	115	94
Rape of a male under 16	96	76	67.5	79.7	84.4	85.2	84.5	84.5	81.4	88.5	100.2
Number of determinate sentences	12	30	18	19	26	25	22	26	7	12	9
Number of indeterminate sentences	2	2	4	4	4	2	2	2	7	8	4
Rape of a male over 16	60	65	90.5	85.5	73.7	60	100.5	60	77.1	99.6	75.3
Number of determinate sentences	10	6	12	14	7	4	8	12	13	9	9
Number of indeterminate sentences	2	2	0	4	2	2	2	2	6	7	2
Rape of a female under 13 by a male[2]	—	—	—	—	—	—	57	58.8	75.2	73.5	97.7
Number of determinate sentences	—	—	—	—	—	—	4	41	[illegible]	57	92
Number of indeterminate sentences	—	—	—	—	—	—	—	4	21	16	32
Rape of a male under 13 by a male[2]	—	—	—	—	—	—	—	49.8	47.5	50.3	74.8
Number of determinate sentences	—	—	—	—	—	—	—	10	13	18	13
Number of indeterminate sentences	—	—	—	—	—	—	—	—	6	10	9

[1] Average custodial sentence length excludes life/indeterminate sentences.

[2] Enacted as distinct offences by the Sexual Offences Act 2003 from 1 May 2004 with no equivalent offence under the 1956 Act.

Robbery: Convictions

Chris Grayling: To ask the Secretary of State for Justice pursuant to the answer of 8 February 2010, *Official Report*, column 788W, on robbery: convictions, how many people in each age group in each court area were convicted of robbery offences. [319824]

Claire Ward: The number of people found guilty of robbery by age group and Criminal Justice System area, England and Wales 1998 to 2008 (latest available) are shown in tables 1 to 11 which have been placed in the Library of the House.

Youth Justice Board

John McDonnell: To ask the Secretary of State for Justice how much the Youth Justice Board spent on prevention programmes in 2008-09. [318442]

Maria Eagle: For the financial year 2008-09 the Youth Justice Board incurred expenditure of £36,479,000 on prevention programmes.

The data contained in this answer are taken from the published YJB annual accounts.

SOLICITOR-GENERAL

Binyam Mohamed

Mr. Hague: To ask the Solicitor-General (1) how many cases are involved in the Attorney-General's inquiry into matters arising from the case of Binyam Mohamed; and when she expects her inquiries to be completed; [318950]

(2) with reference to the answer to Lord Avebury of 12 March 2009, *Official Report, House of Lords*, columns 1265-6WA, on Binyam Mohamed, when the Attorney-General intends to report to Parliament his assessment of the question of criminal wrongdoing referred to. [319534]

The Solicitor-General: I refer the right hon. Member to the statement I made on 26 March 2009, *Official Report*, column 26WS.

Government Departments: Judicial Review

Mr. Maude: To ask the Solicitor-General how many judicial reviews there were involving Government departments according to records held by the *(a)* Treasury Solicitor and *(b)* Administrative Court Office in each of the last three years; and how many such reviews were upheld in whole or in part in each such year. [318344]

The Solicitor-General: The Treasury Solicitor's Department was instructed in the following number of applications for judicial reviews in each of the last three years:

2007: 4,756
2008: 4,823
2009: 6,293.

Specific data on how many such reviews were upheld in whole or in part in each such year are not maintained by the Treasury Solicitor's Department. The information requested can therefore be provided but only at disproportionate cost.

The Administrative Court Office does not retain the information sought in this question. However, it is able to produce information on cases in which a Government Department is shown as first defendant. Where a Government Department is named as a subsequent defendant this information could be obtained only at disproportionate cost. The figures the Administrative Court Office has for cases where a central Government Department was named as first defendant over the last three years are as follows:

2007: 4,614
2008: 4,877
2009: 6,886.

With regard to the number of these cases where the application was upheld, in whole or in part, this information is not held and, again, could be obtained only at disproportionate cost. However, the Administrative Court Office's case management system can identify the number of cases each year where Government Departments were named as first defendant and where the judicial review was granted following a substantive hearing. These figures are as follows:

2007: 13
2008: 12
2009: 4.

These figures should be treated with considerable caution, since they relate only to the outcome of substantive hearings (not to the outcome of applications at permission stage). A number of cases settle either when permission to apply for judicial review is granted or shortly before the matter is heard substantively.

Newspaper Licensing Agency

Mr. Hurd: To ask the Solicitor-General what payments the Law Officers' Department made to the Newspaper Licensing Agency in each of the last 10 years. [315589]

The Solicitor-General: Payments made by Law Officers' Departments to the Newspapers Licensing Agency are contained in the following table.

	Payments (£)
2000	6,789.47
2001	10,242.39
2002	369.00
2003	8819.4
2004	13,844.12
2005	19,869.02
2006	20,233.83
2007	14,772.98
2008	22,0187.1
2009	26,975.88

Notes:
1. The table shows direct payments to the NLA. Some Law Officers' Departments also pay a fee to the NLA via their cuttings agencies, which act as a collection agency for the licence fees associated with the hard copy cuts provided. It is not possible to quantify these payments over the period requested due to disproportionate cost.
2. The CPS has no record of payment in 2002. It is not possible to provide an explanation for this due to passage of time.
3. Payments in 2008 and 2009 included indemnity payments for previous unlicensed copying or electronic access at the RCPO and AGO respectively.

CHILDREN, SCHOOLS AND FAMILIES

Social Services: Doncaster

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) what *(a)* correspondence and *(b)* reports and reviews on safeguarding in Doncaster have been received by (i) the Director for Children and Learners in the Government Office for Yorkshire and the Humber and (ii) the Children's Services Adviser in the Government Office for Yorkshire and the Humber since 1 January 2004; and on what date each was received; [312792]

(2) what communications his Department has received on safeguarding in Doncaster from *(a)* the Director for Children and Learners in the Government Office for Yorkshire and the Humber and *(b)* the Children's Services Adviser in the Government Office for Yorkshire and the Humber since 1 January 2004; and on what date each was received; [312793]

(3) if he will place in the Library a copy of every item of correspondence between his Department, Ofsted, Doncaster children's services and the Doncaster Safeguarding Children Board, since January 2007; [314491]

(4) if he will place in the Library a copy of the minutes of meetings which *(a)* the Secretary of State, *(b)* Ministers in his Department and its predecessor and *(c)* departmental officials have attended at which safeguarding in Doncaster has been discussed in each year since 2005. [316199]

Dawn Primarolo *[holding answers 25 January and 1 February 2010]:* To supply the information requested would incur disproportionate cost.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) whether any official in *(a)* the Government Office for Yorkshire and the Humber and *(b)* his Department received a copy of Organisation and Management Review of Duty and Assessment and Urban CSSW Teams written by Bron Sanders for Doncaster metropolitan borough council in March 2007; [314490]

(2) whether *(a)* he, *(b)* the Director of Children and Learners in the Government Office for Yorkshire and the Humber and *(c)* the Children Services Improvement Adviser in the Government Office for Yorkshire and the Humber, received a copy of the internal report on safeguarding in Doncaster authored in 2007 by Bron Sanders. [313769]

Dawn Primarolo *[holding answers 28 January and 1 February 2010]:* The report by Bron Sanders on the Organisation and Management Review of Duty and Assessment and Urban CSSW Teams was published by Doncaster metropolitan borough council in April 2009. Neither my Department nor the Government office for Yorkshire and the Humber (GOYH) have found anything in our records which indicates that any Minister or official in DCSF or GOYH received a copy of the report prior to its publication.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) what meetings *(a)* he and his predecessors, *(b)* officials in his Department, *(c)* representatives of the Government office in Yorkshire and the Humber have had with (i) Doncaster councillors, (ii) officers and (iii) representatives of children's services in Doncaster at which safeguarding children was discussed in each year since 2005; [314911]

(2) what meetings *(a)* the Director of Children and Learners and *(b)* the Children Services Improvement Adviser in the Government office of Yorkshire and the Humber have had with (i) Doncaster council, (ii) representatives of his Department and (iii) others on serious case reviews and child protection in Doncaster since 2004. [316196]

Dawn Primarolo *[holding answers 2 and 8 February 2010]:* Since assuming responsibility for supporting and challenging safeguarding performance in LAs in April 2007, Government office for Yorkshire and the Humber (GOYH) officials have met council officials regularly regarding safeguarding and other aspects of children's services.

Following Ofsted's publication of the 2008 APA (Annual Performance Assessment) which rated Doncaster's children's services "inadequate", Ministers and DCSF officials met with the council to discuss the required improvements, and how best to drive them forward. Ministers have since met with the Mayor, council members and council officers over the course of the intervention to discuss the progress of the improvement agenda.

Ministers issued a direction on 12 March 2009, requiring the council to establish an Improvement Board to advise, scrutinise and challenge the council in their improvement planning and work. This has met on a monthly basis, and included officials from DCSF and GOYH in an observer capacity.

Since August 2009, a monthly Performance Challenge meeting chaired by GOYH has run alongside the Improvement Board, and included council members and officers and DCSF officials in its membership; this meeting was designed to provide more detailed scrutiny, challenge and support to specific performance areas.

A new Children's Board (succeeding the Improvement Board), which met for the first time on 29 January 2010, is designed to advise and support the council's and partners' strategic leadership of children's services; DCSF and GOYH representatives attend in an observer capacity.

Safeguarding children and child protection were the primary focus of these meetings; responses to Serious Case Reviews were included in the discussion where relevant.

Special Educational Needs: Inspections

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of Ofsted inspectors of *(a)* primary, *(b)* secondary and *(c)* special schools have (i) professional experience of working with and (ii) undertaken specialist training in inspecting provision for children with (A) physical disabilities and (B) special educational needs. [314477]

Mr. Coaker: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 19 February 2010:

Your recent parliamentary question has been passed to me, as her Majesty's Chief Inspector, for response.

Detailed information about the professional experience of inspectors in relation to special educational needs and physical disability is not held electronically. However, given that almost all education and training settings have pupils and students with special educational needs and disabilities, and that virtually all inspectors of schools have been teachers, it is almost certain that all of these inspectors have professional experience of working with such pupils.

All inspectors are provided with training on inspecting provision for pupils with special educational needs and disabilities. Ofsted has recently prepared a training update for all school inspectors.

HMI have undertaken this training and the material is currently being prepared for the inspection service providers for use with additional inspectors. Fifty-four HMI and 259 additional inspectors who inspect schools have a specialism in special educational needs and disabilities. These numbers include 10 HMI and 102 additional inspectors with a specialism in physical disability. Some of these inspectors have come from specialist backgrounds; for example, they were formerly teachers or headteachers in special schools or mainstream schools that have specially resourced provision, and others have gained expertise through their work as inspectors. Ofsted is currently preparing updated training for all specialist inspectors. This training will be undertaken from the start of the summer term. In addition, an extensive specialist resource pack for inspecting provision for special educational needs in mainstream and special schools is being revised. This material will also be provided for inspectors from the summer term.

Ofsted is committed to making every effort to deploy specialist inspectors to inspect specialist provision in mainstream and special schools.

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and placed in the library in both Houses.

Teachers: Secondary Education

Mr. Soames: To ask the Secretary of State for Children, Schools and Families what the average staff to pupil ratio is in secondary schools in *(a)* Mid Sussex constituency and *(b)* England. [314779]

Ms Diana R. Johnson: The following table provides the pupil:adult ratios for local authority maintained secondary schools in Mid Sussex parliamentary constituency and England, January 2009.

Within school pupil:adult ratio (PAR)[1] in local authority maintained secondary schools. Year: January 2009. Coverage: Mid Sussex parliamentary constituency and England

	PAR
Mid Sussex	11.3
England	10.7

[1] The within school PAR is calculated by dividing the total full-time equivalent (FTE) number of pupils on roll in schools by the total FTE number of all teachers and support staff employed in schools, excluding administrative and clerical staff.

School Census.

COMMUNITIES AND LOCAL GOVERNMENT

Affordable Housing

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many completed transactions there were under Open Market Homebuy during its period of operation. [319276]

John Healey: For the Open Market Homebuy scheme launched on 1 April 2008, provisional estimates indicate that there were 7,919 completed transactions between April 2008 and September 2009. Information on the total number of completions under the scheme will be available in due course.

Affordable Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much the Homes and Communities Agency has spent on acquiring unsold stock for affordable housing in each of the last 12 months; and how many properties have been purchased. [318723]

John Healey: Information on expenditure on all acquisitions for 2009-10 will be available after the end of the financial year.

Affordable Housing: Standards

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much has been spent on bringing temporary social housing up to the Homes and Communities Agency's design and quality standards since the introduction of those standards. [318732]

John Healey: The Homes and Communities Agency's design and quality standards apply to temporary social housing (TSH) in a limited way. Where TSH is provided for units available for between two and 14 years alternative standards apply. For those TSH schemes lasting between 15 and 29 years both internal and sustainability core standards are mandatory while external environmental standards and additional specific standards are incentivised through the grant levels that can be provided.

Information on how much is spent on bringing temporary social housing up to these standards is not collected centrally.

Antisocial Behaviour: Fixed Penalties

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what powers parish council wardens have to issue penalty notices for disorder. [319279]

Barbara Follett: This is a matter for my right hon. Friend the Secretary of State for Justice.

Community Development: Expenditure

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the Neighbourhood Management Pathfinders in each *(a)* local authority and *(b)* lower super output area in each year since 2000. [318211]

Ms Rosie Winterton: The following table shows amounts committed under the Neighbourhood Management Pathfinder programme, which began in 2002-03. Funding is provided as part of local authority area based grant, a non ring-fenced funding stream, therefore we do not hold information on funding at lower super output area level.

Neighbourhood Management Pathfinders	*Region*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*	*2010-11*	*Total*

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the European Regional Development Fund in each *(a)* local authority and *(b)* lower super output area in each year since 2000. [318213]

Ms Rosie Winterton: European Regional Development Fund grants are paid to a wide range of public and private sector applicants. Furthermore, they are not restricted to either local authority or lower super output areas and may cover the whole or part of an ERDF programme area, including several local authorities.

It would therefore be a disproportionate cost to my Department to produce this information for each local authority and lower super output area.

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the Single Regeneration Budget in each *(a)* local authority and *(b)* lower super output area in each year since 2000. [318215]

Ms Rosie Winterton: The SRJB was allocated to Government offices (GOs) and regional development agencies (RDAs) giving them the authority, freedom and flexibility to best determine the local needs and options through a bidding process. Information is therefore not available for how this was applied to each local authority or each lower super output area (LSOA).

The table shows total SRB expenditure for the six rounds of the programme was £5.7 billion.

GO/RDA	*SRB (£ million)*
East of England	136.7
East Midlands	283.8
London	1,519.60
North East	650.2
North West	1,085.50
South East	349.4
South West	168.1
West Midlands	630.6
Yorkshire/Humberside	879.5
Total	5,703.40

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the Land and Property Programme in each *(a)* local authority and *(b)* lower super output area in each year since 2000. [318217]

Ms Rosie Winterton: The Land and Property Programme funding was allocated to eligible local authorities giving them the authority, freedom and flexibility to best determine the local needs and options. Information is therefore not available on how this was applied to each Lower Layer Super Output Area (LSOA).

I have placed in the Library of the House, a table which records the allocation for each local authority area in England from 2000-01 to 2008-09.

Council Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government what percentage of the funding announced for the Local Authority New Build scheme *(a)* at the Budget 2009 and *(b)* in the Housing Pledge is to be financed through (i) grants and (ii) borrowing. [318719]

John Healey: The funding announced under the Local Authority New Build programme is 50.3 per cent. grant and 49.7 per cent. prudential borrowing. This is close to the 50:50 that was anticipated when the programme was first launched. Local Authority New Build is a single programme. Funding was first announced in the Budget 2009 and significantly increased by the Housing Pledge.

Council Housing: Greater London

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government how much and what proportion of the housing stock owned by each London borough was empty in each of the last five years; for what average length of time such properties were empty in each borough in each such year; and if he will make a statement. [319056]

Barbara Follett: A table (table 1) showing estimates of the number of empty dwellings owned by each of the London boroughs and the length of time they were empty at 1 April in each of the last five years has been placed in the House Library.

Another table (table 2) showing estimates of vacant local authority stock in each London borough as a proportion of local authority dwelling stock at 1 April in the same years has been placed in the House Library.

Council Tax: Statistics

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government when his Department plans to publish its statistical release on council tax levels set by local authorities in England 2010-11; and whether the UK Statistics Authority will have a role in preparation of the statistics. [319123]

Barbara Follett: A statistical release containing details of the level of council tax set by local authorities in England 2010-11 will be published on the Communities and Local Government website at 09:30 on Wednesday 24 March 2010. This date has been publicised on both the UK National Statistics website at:

http://www.statistics.gov.uk/hub/release-calendar/index.html

and the Communities and Local Government website at:

http://www.communities.gov.uk/corporate/researchand statistics/statistics/publicationschedule

The UK Statistics Authority is an independent body and will have played no part in the production of these statistics, except that the statistical release is produced subject to their guidelines.

Council Tax: Tax Rates and Bands

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government which billing authority has the lowest Band D council tax level. [319142]

Barbara Follett: In 2009-10, Broxbourne has the lowest Band D council tax level in England.

This information can be found in Table 8 of the statistical release council tax levels set by local authorities in England: 2009-10 (Revised) that is available on the Communities and Local Government website at

http://www.communities.gov.uk/publications/corporate/statistics/counciltax200910update

Council Tax: Valuation

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether there is any limit to the number of years an alteration to a valuation banding can be backdated and the residents be refunded in the case of an incorrect council tax banding. [319319]

Barbara Follett: The Council Tax (Administration and Enforcement) Regulations 1992 (regulations 17-31) set out the way in which billing authorities must administer council tax bills and issue demand notices requiring payment. Regulation 31(4) provides that any amount of council tax overpaid shall be repaid to the taxpayer, or credited against subsequent liability of that person.

No limit is stated in the regulations regarding the period of back payment. However, when correcting an inaccuracy in a council tax valuation list, the extent to which an alteration can be backdated will depend on the circumstances of the case. No backdating can be before the date on which the dwelling first appeared in a valuation list.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Brentwood and Ongar of 15 May 2006, *Official Report*, column 766W, on the Valuation Office Agency, whether any changes have been made to *(a)* his Department's policy on refunding householders following an erroneous council tax valuation and *(b)* the maximum liability of a local authority to refund over-payments of council tax attributable to incorrect banding. [319648]

Barbara Follett: A person who has overpaid council tax is entitled to have the overpayment refunded. There has been no decision to change this, nor to limit the liability of a local authority to make such refunds where practicable.

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Communities and Local Government what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319089]

Barbara Follett: Communities and Local Government's Sustainable Operations Policy requires all equipment to be switched off when not in use. We are ensuring that this is being done by fitting timers and sensors to all non-networked equipment, using a centralised Building Energy Management System (BEMS), and conducting an ongoing energy efficiency awareness campaign.

However, the Department does not intend to specifically participate in Earth Hour's switch off. CLG's office lighting system is 15 years old and has reached the end of its useful life. Consequently, a proportion of its movement sensors have failed and some lights no longer switch off automatically. To address this, the Department is undertaking a comprehensive office lighting upgrade which is expected to achieve over 50 per cent. savings in lighting energy. Full participation in Earth Hour's switch off before the completion of this replacement project would involve initiating a total building power shutdown and this would be disproportionately expensive.

Departmental Legislation

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government which provisions of the *(a)* Commonhold and Leasehold Reform Act 2002, *(b)* Homelessness Act 2002, *(c)* Local Government Act 2003, *(d)* Housing Act 2004, *(e)* Planning and Compulsory Purchase Act 2004, *(f)* Planning-gain Supplement (Preparations) Act 2007, *(g)* Planning Act 2008, *(h)* Housing and Regeneration Act 2008 and *(i)* Local Democracy, Economic Development and Construction Act 2009 have not been commenced. [319289]

Barbara Follett: Please see the following information about the commencement of the Acts referred to in *(a)* to *(i)*. The information relates to provisions which apply to England, or England and Wales, but does not include provisions where the responsibility for commencement lies with Welsh Ministers. It also excludes some provisions which have been included in Commencement Orders but are not yet in force.

(a) Commonhold and Leasehold Reform Act 2002

Not commenced—

Sections 121, 122 (partially), 123-124, schedule 8, sections (partially), 154, 156 (partially), 157 (partially) and schedule (partially).

(b) Homelessness Act 2002

All provisions in force.

(c) Local Government Act 2003

Not commenced—

Sections 68, 69, 90 (partially)

Schedule 8 (partially)

(d) Housing Act 2004

Not commenced—

Section 265 and schedules 15 (partially), 16 (partially).

(e) Planning and Compulsory Purchase Act 2004

Not commenced—

Sections 45, 46 to 48 (repealed), 50, 51

Schedule 6 paragraphs 4 to 6 (paragraph 5 repealed), 1 16(3), 27

Schedule 7 paragraphs 1,19(3) and (4)

Schedule 9—the repeal of sections 73, 83, 106-106B and 2 of, and schedules 1 (Wales) and 7 to, the Town and Count Planning Act 1990; the repeal of section 10(2) of the Planni (Listed Buildings and Conservation Areas) Act 1990; the repe of section 17 of the Planning and Compensation Act 1991.

(f) Planning-gain Supplement (Preparations) Act 200

All provisions in force.

(g) Planning Act 2008

Not commenced—

Sections 14 (partially), 27-30, 153 (partially), 186, 18 190 (partially), 192 (partially), 193, 196 (partially), 206 (partially 224 (partially), 238 (partially)

Schedules 6 (partially), 8, 9 (partially), 10 (partially), 13 (partially

(h) Housing and Regeneration Act 2008

Not commenced—

Sections 4 (partially), 19 (partially), 31, 32 (partially), 33 (partially 35, 56 and schedule 8 (partially), 57 (partially), 58 (partially 60-63, 64 (partially), 68-71 (partially), 73-80 (partially), sectio 94, sections 95 to 98 (partially), sections 106 to 111, sections 11 to 113 (partially), section 115, sections 116 to 117 (partially section 118, section 119 (partially), section 120 to 126, section 12 (partially), sections 128 to 130, section 131 (partially), section 132 to 143, section s 144 to 145 (partially),sections 146 to 17 section 174 (partially), sections 175 to 191, section 198 (partially) sections 199 to 101, section 102 (partially), sections 203 to 21 section 212 (partially), section 213, sections 214 to 215 (partially) sections 217 to 227, section 228 (partially), sections 229 to 23 section 234 (partially), sections 235 to 239, section 240 (partially) sections 241 to 243, section 244 (partially), sections 245 to 27 sections 275 to 276 (partially), section 277 and schedule 9 (partially) sections 278 to 296 and schedule 10, section 299 and schedule 1 (partially), section 303 and schedule 12 (partially), section 31 and schedule 15 (partially), section 316 (partially), section 31 section 321 and schedule 16 (partially).

(i) Local Democracy, Economic Development an Construction Act 2009

Not commenced—

Sections 1-22, 34-54, 138-145

Schedule 7 (partially).

Departmental Manpower

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 19 January 2010, *Official Report*, column 285W, on departmental manpower, when each of the three policy advisers on fixed term contracts was appointed; which appointments were subject to open competition; and if he will list the names of each. [317812]

Barbara Follett: The policy adviser, Strategy Performance Division was appointed in June 2009 through limited competition.

The senior policy adviser, Cohesion and Faiths Division was appointed in January 2003 following a secondment.

The policy adviser, Housing Supply Division was appointed in April 2009 through limited competition.

Under the Civil Service Recruitment principles, there is no automatic requirement to advertise fixed term contracts publicly.

I am unable to provide the names of those employed as these individuals are not members of the senior civil service. Information, including names, on senior officials can be found in the Civil Service Yearbook.

Departmental Marketing

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much *(a)* his Department and its agencies and *(b)* companies contracted by his Department and its agencies have spent on celebrity endorsements and appearances relating to projects sponsored by his Department in each of the last three years. [319126]

Barbara Follett: The Department's central Communication Directorate incurred the following fees for the use of celebrities over the last three financial years, either directly or through contracted companies:

2007-08: £200,000 for work on the Fire Kills public safety campaign

2008-09: £211,500 for work on the Fire Kills public safety campaign and the REACH BME role models campaign

2009-10: (To February 2010) - £27,500 for work on the Fire Kills public safety campaign and the Ordinary People, Extraordinary Career Fire and Rescue Service recruitment campaign

These costs exclude fees paid to celebrities or other publicly known individuals, who worked for the Department as voice over artists or in another capacity to which their celebrity status was not relevant to the work conducted.

They include fees paid to celebrities or other publicly known individuals for a range of activity not strictly defined as 'endorsements or appearances' where the individual's public status was of perceived benefit to the Department.

Information relating to use of celebrities by the Department's agencies could be provided only at disproportionate cost.

Departmental Paper

Martin Horwood: To ask the Secretary of State for Communities and Local Government what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320033]

Barbara Follett: Suppliers are appointed through our stationery contract with Banner Business Services and the Buying solutions paper framework contract—Antalis, Ebb, Howard Smith, McNaughton, Premier Paper, Robert Home, The Paper Company, Xerox.

Brands currently used—9 Lives, Revive, Greencoat, Cocoon, Oxygen, Evolve Business, and Cyclus. Some of these are common products, available under different brand names from different suppliers.

Within those brands it is our policy to only use products which are 100 per cent. post consumer waste if uncoated, or 75 per cent. post consumer waste if coated in line with DEFRA policy guidelines.

Departmental Pay

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Weybridge of 29 January 2010, *Official Report*, columns 1136-37W, on departmental manpower, what the average salary is of an employee in each of the pay ranges between 3(EO) and Director. [319321]

Barbara Follett: In Communities and Local Government the average salary in each pay range from pay range 3 (EO) to director is shown in the following table:

Pay range	*Average salary (£)*
3 (executive officer)	28,240
4 (higher executive officer)	32,103
5 (senior executive officer)	38,826
6 (grade 7)	49,739
7 (grade 6)	61,433
SCS1	71,260

Departmental Plants

David T. C. Davies: To ask the Secretary of State for Communities and Local Government how much *(a)* his Department and *(b)* its agencies has spent on pot plants in (i) 2007-08, (ii) 2008-09 and (iii) 2009-10. [319198]

Barbara Follett: The maintenance of pot plants for the Department for Communities and Local Government and its agencies is contained within the overall scope of existing Integrated Facilities Management contracts and therefore not separately identifiable.

The cost of pot plants procured within the specified period is:

	£
(i) 2007-08	725.25
(ii) 2008-09	0
(iii) 2009-10	0

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Communities and Local Government how many staff in his Department have had five or more periods of sickness absence of less than five days since its inception. [316468]

Barbara Follett: Information on sickness absence for 2004, 2005, 2006-07 for the Department for Communities and Local Government can be found on the civil service website:

http://www.civilservice.gov.uk/about/resources/sickness/sickness.aspx

For the periods 2008-09 and 2009-10, Communities and Local Government has been monitoring absence figures on a quarterly basis and details will be published shortly on the Department's external website and as annual figures in our forthcoming departmental report.

Departmental Temporary Employment

Grant Shapps: To ask the Secretary of State for Communities and Local Government which companies were contracted by his Department for the provision of temporary staff in each of the last three years; how many temporary staff were employed by his Department in each such year; and what the monetary value was of contracts with each such company in each such year. [317994]

Barbara Follett *[holding answer 22 February 2010]*: The Department has used several suppliers over the last three years for the provision of temporary and agency staff. The monetary value of individual contracts could be disaggregated only at a disproportionate cost.

Details of the Department's staffing levels are published each year in its annual report and resource accounts, copies of which can be found on the Department's external website:

http://www.communities.gov.uk

Departmental Training

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much his Department spent under each budgetary heading on the seminar held at the City Inn, Westminster on An Introduction to Strategic Communications; which *(a)* Ministers, *(b)* officials and *(c)* guests attended; and if he will place in the Library a copy of the agenda and each handout from the meeting. [318749]

Barbara Follett: The training course in question was part of the current learning and development programme for junior members of the Communication Directorate in this Department. There was no ministerial involvement in this training module. The costs associated with obtaining the training from the provider are commercially confidential, as are the materials used for the module. The cost of accommodating the two training modules was £2,000 excluding VAT.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Welwyn Hatfield of 26 January 2010, *Official Report*, columns 737W, on domestic waste, whether his Department has issued guidance to local authorities on the counting of efficiency savings made as a consequence of moving from weekly to alternate weekly collections of household waste. [319108]

Barbara Follett: I refer the hon. Member to the answer given by my right hon. Friend the Member for Wentworth (John Healey) the then Minister for Local Government on 14 January 2009, *Official Report*, column 779W, to the hon. Member for Brentwood and Ongar (Mr. Pickles).

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 19 January 2010, *Official Report*, column 290W, on local government: cost effectiveness, what proportion of the £550 million of efficiency savings he expects to come from more efficient waste collection. [319214]

Barbara Follett: The pre-Budget report sets out a number of areas where local government will be able to find significant efficiencies by 2012-13. It is for individual local authorities to make efficiencies based on local priorities and use of resources. Waste collection is an example of how they may do this.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government which local authorities had reported the implementation of alternate weekly collection of household waste as the source of an efficiency saving in the annual efficiency returns submitted to his Department on the latest date for which figures are available. [319233]

Barbara Follett: The Department does not collect information from councils about the value of efficiencies broken down by individual service sectors. Since 2008, councils have been required to report only the net total of current cash-releasing value for money gains that have been in effect since the start of the 2008-09 financial period.

In the 2004 spending review period which ended in 2007-08, councils were required to submit Annual Efficiency Statements, which included a breakdown by service area of efficiency savings. These categories included waste.

The most recent information available from Annual Efficiency Statements is for 2007-08 and I refer the hon. Member to the answer given by my right hon. Friend the Member for Wentworth (John Healey) the then Minister for Local Government to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 29 October 2008, *Official Report*, column 1155W, on waste disposal.

Government Office for London: Buildings

Justine Greening: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 7 January 2010, *Official Report*, column 505W, on Government Office for London: location, what the cost to his Department will be of *(a)* surrendering the lease on Riverwalk House before it expires in 2011 and *(b)* any empty property rates owed on Riverwalk House. [318325]

Ms Rosie Winterton: The Department for Communities and Local Government do not intend to surrender the lease at Riverwalk House prior to the lease expiry. There are no empty property rates owing for the facility.

Homes and Communities Agency

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the job title is of each head of functions at the Homes and Communities Agency. [318750]

John Healey: The following list gives the job title of each head of function at the Homes and Communities Agency:

Head of Corporate Performance and Programme Management
Head of Corporate Assurance
Head of Finance
Head of Human Resources and Organisational Development
Head of Information Technology
Head of Legal Services
Head of Investment Analysis
Head of Investment Programmes
Head of Markets and Renewal
Head of New Business and Economics
Head of Private Finance
Company Secretary
Head of Communications
Head of Policy and Performance
Head of Academy Operations
Head of Strategy and External Relations

Homes and Communities Agency Academy

Grant Shapps: To ask the Secretary of State for Communities and Local Government what *(a)* training schemes and *(b)* courses the Homes and Communities Agency Academy provides. [319688]

Mr. Ian Austin: Continually updated information on the range of training schemes and courses offered by the Homes and Communities Agency skills and knowledge team is available on the website at this address:

http://skills.homesandcommunities.co.uk/courses

Training schemes and courses are only developed in response to market demand, and where it is evident that a gap in the market exists in relation to other service providers.

Homes and Communities Agency: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) with reference to page 27 of the Homes and Communities Agency's Corporate Plan for 2009, from which programmes he expects the Agency to make capital efficiencies; how much will be saved from each programme; and if he will make a statement; [319258]

(2) with reference to page 28 of the Homes and Communities Agency's Corporate Plan 2009, from which programme the Agency expects to make programme efficiencies; how much will be saved from each programme; and if he will make a statement. [319204]

John Healey: Of the £108 million reprioritisation in 2009-10, £50 million is being found from making efficiencies within the national affordable housing programme, and £30 million comes from the Community Infrastructure Fund. £2 million is being found from the Property and Regeneration programme and £26 million comes from recycled receipts from the former Derelict Land Grant programme.

For 2010-11, a further £50 million will be found from efficiencies within the national affordable housing programme. The remaining £25 million of efficiencies will be identified at a later stage, following an assessment of performance and delivery options for 2010-11.

Housing: Construction

Lindsay Roy: To ask the Secretary of State for Communities and Local Government what steps he is taking to increase the environmental standards to which new houses are built. [319453]

Mr. Ian Austin: The Government have taken a number of steps to increase the environmental standards of new homes by reducing carbon emissions, the risk of flooding from surface water run-off and improving water efficiency. Specific measures include:

1. Setting a target for all new homes to be zero carbon from 2016 by raising energy efficiency standards under Part L of the Building Regulations with interim steps in 2010 and 2013. This regulatory approach to achieving a step change in the carbon footprint is supported by other, non-regulatory measures including:

The Code for Sustainable Homes—a voluntary set of standards for assessing the sustainability of new homes and whose highest level (level 6) requires zero carbon;

Exemplar programmes, including zero carbon Eco towns and also the Homes and Communities Agency's Carbon Challenge which is taking forward developments built to level 6 of the Code for Sustainable Homes;

Financial support for the Zero Carbon Hub, a delivery body established by industry to overcome the practical barriers to delivery of zero carbon homes;

Stamp duty land tax exemption for zero carbon homes.

Clarifying the role of local planning in supporting the zero carbon policy through the Planning Policy Statement on climate change.

2. Introducing water efficiency targets at 125 litres per person per day into Part G of the Building Regulations in line with standards set in the Code for Sustainable Homes at level 1 and 2.

3. National Planning Policy Statements also allows local authorities to set higher than national standards into local planning policy. This means that as long as the local circumstances justify it, and does not make house-building unviable, local authorities:

could set a code level standard for new housing development in particular locations.

should require new development to be planned to make good use of opportunities for decentralised and renewable and low-carbon energy—planning policies should support innovation and investment in sustainable buildings.

Mr. Rooney: To ask the Secretary of State for Communities and Local Government what steps he is taking to raise awareness of the Construction Skills Certification Scheme among local government procurement officers. [319689]

Barbara Follett: Local authorities are responsible for their own procurement decisions. In doing so, they will have regard to good practice, including where relevant the use of construction industry competency card schemes.

Housing: Energy

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what representations the Energy Saving Trust has made to his Department on the *(a)* level of council tax on and *(b)* sale or rent of properties with an energy efficiency rating of F or G. [319268]

Barbara Follett: No representations have been received by this Department about *(a)* the level of council tax on and *(b)* the sale or rent of properties with an energy efficiency rating of F or G.

Local Government Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much he expects to be spent on growth funding in *(a)* 2009-10 and *(b)* 2010-11. [318726]

John Healey: The Department has allocated £272.5 million of Growth Funds in 2009-10 and £184.3 million in 2010-11. Awards for 2010-11 are provisional with the allocations being paid and confirmed in early 2010. We will adopt a policy of only altering provisional allocations in exceptional circumstances, in line with the approach taken in relation to the local government finance settlement. As a single unringfenced block grant, local authorities have the flexibility to prioritise how and when they spend their funding allocations. In addition, £60 million of eco-towns growth funding was announced on 8 February 2010.

A full list of allocations is available on the Department's website:

www.communities.gov.uk/housing/housingsupply/growth areas/supportinggrowthfunding/

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what his policy is on the charging of a district precept and a parish precept for provision of the same services to residents in parished areas. [319288]

Barbara Follett: The issue of precepts is a matter for the major and local precepting authorities as set out in the Local Government Finance Act 1992. There is no requirement for the precept to be broken down against specific services provided.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Meriden of 12 May 2009, *Official Report*, column 721W, on local government finance, how much has been allocated to performance reward grant funding in *(a)* each year since its was introduced, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12. [319310]

Barbara Follett: Since the scheme began in 2000 about £3.04 billion has been allocated by the Treasury to performance reward grant funding. £1.2 billion was allocated to the first round as part of spending review 2000 and £1.5 billion was allocated to the second under comprehensive spending review 2004. A further £340 million was allocated to the current round as part of comprehensive spending review 2007.

Local Government Finance: Oxfordshire

Mr. Cameron: To ask the Secretary of State for Communities and Local Government on what grounds his Department rejected the exceptional circumstances case put to it by West Oxfordshire district council in relation to the rate support grant settlement on 23 December 2009. [317748]

Barbara Follett: The Government consulted on the Formula Grant Settlement for local authorities in England between 26 November 2009 and 6 January 2010. In their representation, West Oxfordshire sought a recalculation of the settlement using the most recent data on their council tax base, instead of the projected data that has been used for all authorities in the calculation of the Government's proposals.

The council tax base projections used in the 2008-09 to 2010-11 Provisional Settlements were calculated in November 2007 and took into account tax base data from October 2005 and 2007. These projections used the latest data available at the time of the three-year settlement's original calculation and were calculated on a consistent basis for all local authorities.

One of the principles of multi-year settlements is the provision of more predictability and certainty in relation to the funding that we provide to local government, so that authorities can plan and manage their budgets better. Reopening the settlement to change data for an authority would undermine this principle as it would also change the distribution of formula grant for all local authorities. For this reason, where a three-year settlement is in operation, we have a clearly stated policy of only changing published provisional local government finance reports under entirely exceptional circumstances. The Government considered all representations received during consultation, including the representation from West Oxfordshire dated 23 December 2009, but concluded that no exceptional circumstances had arisen.

Local Government: Apprentices

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to his Department's press release of 2 February 2010, on apprenticeships, if he will place in the Library a copy of the *(a)* full dataset of the snapshot findings and *(b)* accompanying analysis. [319116]

Barbara Follett: This snapshot of information, voluntarily provided by local authorities, was used to help inform policy. Aggregate information was included in the press notice, 'John Denham Urges Councils to Create 3,000 More Apprenticeships'. The Department has no plans to publish the full data set.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to his Department's press release of 2 February 2010, on apprenticeships, what criteria were used to determine which local authorities would be eligible for local authority green space apprenticeships. [319118]

Barbara Follett: Funding to support the training and employment costs of the first year of each additional apprenticeship was offered to local authorities which met the following criteria:

Had been defined as urban under DEFRA's current (post-April 2009) rural definitions and local authority classifications;

Had already take on apprentices or had put schemes on hold due to financial constraints, but would be ready to restart given this funding;

Would be able to provide any additional funding required to run the schemes for their whole duration.

Local Government: Bank Services

John Mann: To ask the Secretary of State for Communities and Local Government what recent information he has received from *(a)* Bassetlaw district council and *(b)* other local authorities on repayments in respect of losses on investments in Icelandic banks. [313948]

Barbara Follett: The Department does not collect information from local authorities on repayments in respect of losses on investments in Icelandic banks. The Resolution Committee for Landsbanki and Glitnir and the UK administrators of Heritable and Kaupthing, Singer and Friedland Ltd. have published information on likely rates of return. Local authorities are in direct contact with these administrators.

Local Government: Cornwall

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Welwyn Hatfield of 20 January 2010, *Official Report*, column 381W, on local government: Cornwall, what proportion of the £15.64 million of savings is estimated to relate to *(a)* unitary restructuring and *(b)* other factors. [318076]

Ms Rosie Winterton: The budgeted savings are due to unitary restructuring.

Local Government: Cost Effectiveness

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what targets his Department has set for local authorities to make efficiency savings of each type in each of the next three years. [319039]

Barbara Follett: Local Government has a target to achieve at least 4 per cent. efficiency savings in 2010-11. Overall, we expect local authorities to achieve £5.5 billion of cumulative savings in the three years to 2010-11, of which we expect £3.2 billion to be delivered in the current year.

No target has been set for efficiency savings to be delivered in 2011-12 or 2012-13. The 2009 pre-Budget report set out the potential for local government to make £800 million savings by 2012-13, of which: £550 million could come from more efficient waste collection and disposal, reducing the burden of inspection, assessment and reporting requirements from across government, and measures to reduce duplication and inefficiency between different tiers of local government; and £250 million from reducing variations in spend on residential care. Local government is also expected to make a significant contribution towards the £8 billion of Operational Efficiency Programme savings identified for delivery by 2012-13 in the pre-Budget report.

Local Government: Job Evaluation

Mr. Sanders: To ask the Secretary of State for Communities and Local Government what *(a)* financial and *(b)* other assistance his Department provides to local authorities for the purposes of undertaking the job evaluation process. [319420]

Barbara Follett: The Department does not provide financial or other assistance to local authorities for the purposes of undertaking the job evaluation process.

Mr. Sanders: To ask the Secretary of State for Communities and Local Government whether his Department issues guidance to local authorities on responding to requests from local authority staff to *(a)* delay and *(b)* appeal against a result of the job evaluation process. [319421]

Barbara Follett: The Department does not issue guidance on job evaluation processes.

Local Government: National Insurance Contributions

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 January 2010, *Official Report*, column 769W, on national insurance contributions: local government, what the estimated cost to local authorities is of the increase in employer contributions in 2011-12; and whether funding will be allocated to local authorities for the purposes of meeting the cost of that increase. [319317]

Barbara Follett: I refer the hon. Member to the answer I gave to the hon. Member for Bromley and Chislehurst (Robert Neill) on 23 February 2010, *Official Report*, column 492W.

Local Government: Pay

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what requirements there are on local authorities to publish the salaries of *(a)* identified and *(b)* unidentified local government employees. [319272]

Barbara Follett: Local authorities are required to disclose in their Statement of Annual Accounts details of the number of staff earning over £50,000 per annum in £10,000 bandings.

New legislation will come into force on 31 March 2010 which will require local authorities to disclose these details in £5,000 bandings. In addition, for senior officers local authorities will be required to publish detailed remuneration information within their Statement of Annual Accounts, in the following categories:

the total amount of salary, fees or allowances

the total amount of bonuses paid or receivable

the total amount of expenses allowance

the total amount of any compensation

the body's contribution to the person's pension

the total estimated value of any other benefits

'Senior' officers earning over £50,000 pro rata per annum to be listed by job title, except where officers receive over £150,000 in which case they will be named.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many local authority staff earned over *(a)* £50,000 a year and *(b)* £100,000 a year in the most recent period for which figures are available. [319283]

Barbara Follett: The information requested is not held centrally.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what information his Department holds on levels of pay inflation among senior local government officers since 1997. [319284]

Barbara Follett: The information requested is not held centrally.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Communities and Local Government (1) when he expects to reply to the email from the hon. Member for West Worcestershire, dated 18 January 2010, on the Code for Sustainable Homes publication; [319457]

(2) when he expects to reply to the email from the hon. Member for West Worcestershire, dated 26 January 2010, on private tenants. [319459]

Barbara Follett: Replies were sent on 25 February 2010.

Mortgages: Government Assistance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government when his Department next plans to publish its statistical bulletin on *(a)* the Mortgage Rescue Scheme, *(b)* repossessions and *(c)* the Homeowner Mortgage Support Scheme. [319040]

John Healey: Mortgage Rescue Scheme monitoring statistics covering the January to March period are due to be published on the CLG website on Thursday 13 May 2010, as pre-announced on the UK Statistics Authority Publication Hub and the CLG Statistics Publication Schedule. This date coincides with the quarterly release of statistics on arrears and possessions and court activity by the Council of Mortgage Lenders and the Ministry of Justice respectively.

For management information on Homeowners Mortgage Support I refer the hon. Member to the answer I gave the hon. Member for Meriden (Mrs. Spelman) on 16 December 2009, *Official Report*, column 1297W.

Mr. MacNeil: To ask the Secretary of State for Communities and Local Government how many applications were made to the Homeowner Mortgage Protection Scheme by homeowners in 2009; and how many of them have met the eligibility criteria. [319367]

John Healey: For management information on Homeowners Mortgage Support I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 16 December 2009, *Official Report*, column 1297W.

Non-domestic Rates

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the maximum percentage increase in business rates in each individual year of the 2010 to 2015 rating cycle will be as a result of the transitional relief scheme for the 2010 business rates revaluation. [319215]

Barbara Follett: The 2010 Business Rates Transitional Relief scheme limits annual increases in liability resulting from revaluation, before changes in other rate reliefs have been applied to set percentages for each year. The individual caps on increases for each year of the 2010 revaluation for small and large properties is set out in the following table.

Transitional Relief 2010 revaluation (before inflation)

	2010-11	*2011-12*	*2012-13*	*2013-14*	*2014-15*
Upward cap					
Small properties	5	7.5	10	15	15
Large properties	12.5	17.5	20	25	25

Note:

These are year on year caps on increases. Small properties are those whose rateable value for 1 April 2010 is less than £18,000 or less than £25,500 in Greater London.

The five-yearly business rates revaluations make sure that each business pays its fair contribution and no more by ensuring that the share of the national rates bill paid by any one business reflects changes over time in the value of its property relative to others. The 2010 Revaluation will not raise a single extra penny for Government Over a million properties will see their business rate liabilities come down as a result of revaluation. Our £2 billion transitional relief scheme to limit the impact on the minority with bill increases will ensure that in 2010-11 no business property sees its rates bill increase by more than 11 per cent. (after inflation) as a result of the revaluation, with maximum increases capped at just 3.5 per cent. (after inflation) for small properties. That is on top of the wider support available to help ease business pressures including discounted rate bills for small businesses and deferring tax payments.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the minimum percentage reduction in business rates in each year of the 2010-15 rating cycle is to be as a result of the downward phasing element of the transitional relief scheme for the 2010 business rate revaluation. [319261]

Barbara Follett: The 2010 Business Rates Transitional Relief scheme limits annual increases in liability resulting from revaluation, before changes in other rate reliefs are applied by set percentages for each year. This relief is funded by limiting annual reductions in bills due to the revaluation. The individual caps on reductions for each year of the 2010 revaluation for small and large properties is set out in the following table.

Transitional Relief 2010 revaluation (before inflation)

Percentage

	Downward cap	
	Small properties	*Large properties*
2010-11	20	4.6
2011-12	30	6.7
2012-13	35	7
2013-14	55	13
2014-15	55	13

Note:

These are year on year caps on reductions. Small properties are those whose rateable value for 1 April 2010 is less than £18,000 or less than £25,500 in Greater London.

The five-yearly Business Rates Revaluations make sure each business pays its fair contribution and no more by ensuring that the share of the national rates bill paid by any one business reflects changes over time in the value of its property relative to others. The 2010 Revaluation will not raise a single extra penny for Government.

Over a million properties will see their Business Rate liabilities come down as a result of revaluation. Our £2 billion Transitional Relief scheme to limit the impact on the minority with bill increases will ensure that in 2010-11 no business property sees its rates bill increase by more than 11 per cent. (after inflation) as a result of the revaluation, with maximum increases capped at just 3.5 per cent. (after inflation) for small properties. That is on top of the wider support available to help ease business pressures including discounted rate bills for small businesses and deferring tax payments.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what timetable he has set for the publication of data on the take-up rate of small business rate relief; and how many local authorities provided data for the survey. [319267]

Barbara Follett: The report "Small Business Rate Relief—Improving Evidence on Eligibility and Take-up" was published on 9 December 2009 and it estimates that of the approximately 1.2 million non-domestic properties in England which fall below the current rateable value (RV) thresholds for SBRR, around 575,000 are occupied by eligible small businesses. This report has been validated by an independent peer review and is available at:

http://www.communities.gov.uk/publications/localgovernment/smallbusinessmethod

New experimental statistics on the number of hereditaments claiming SBRR were published on the Communities and Local Government website on 25 February 2010. The statistical release, entitled "Number of Hereditaments Benefiting from Small Business Rate Relief and the Number of Empty Hereditaments: Experimental Statistics" is available at:

http://www.communities.gov.uk/publications/corporate/statistics/sbrrfeb2010

All billing authorities provided data on the number of hereditaments claiming SBRR; further information concerning the validation of these data is available in the 'data quality' section of the above statistical release.

In the light of these new statistics we have updated the published estimate of take-up. Local authorities estimated that 462,000 hereditaments were benefiting from SBRR on 31 December 2008. By applying that figure to the estimated 575,000 properties on the 2005 rating list occupied by eligible small businesses, it is estimated that around 80 per cent. of those eligible were claiming SBRR in 2008-09—see table 1 as follows:

Table 1: Take-up of SBRR—numbers claiming

	2006-07	2007-08	2008-09
Number of hereditaments actually claiming SBRR (Thousand)	396	433	462
Number of hereditaments estimated to be occupied by eligible small businesses (Thousand)	575	575	575
Percentage of estimated eligible actually claiming	69	75	80

Relief granted to small businesses has been increasing since SBRR was introduced—from £202 million in 2005-06 to £298 million in 2008-09. This represents a real terms increase of 34 per cent. Furthermore in 2008-09, 92 per cent. of the total relief that would be paid if all those estimated to be eligible were to claim, was actually being paid—see table 2 as follows:

Table 2: Take-up of SBRR 2005-06 to 2008-09—relief

	2005-06	2006-07	2007-08	2008-09
Total relief that would be paid out if all properties estimated to be occupied by eligible small businesses were to claim[1] (£ million)	295	300	315	325
Relief actually claimed (£ million)	202	237	259	298
Percentage take-up[2]	69	78	83	92

[1] For details of how this estimate was made please see the paper "Small Business Rate Relief—Improving Evidence on Eligibility and take-up: Methodology."

[2] Percentage of total relief, which would be paid if all eligible small businesses claimed it, that was actually paid.

The Government have already removed the requirement for small businesses to reapply for the relief annually, and are taking further action to maximise take-up by removing the requirement to reapply at revaluation. This will reduce considerably the administrative burden on both small businesses and local authorities.

Non-domestic Rates: Squatting

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether empty and incomplete dwellings illegally occupied by squatters are liable for empty property business rate *(a)* discounts and *(b)* exemptions. [319224]

Barbara Follett: Owners of empty dwellings may become liable to council tax but not empty property rates. Squatters occupying a dwelling that is shown in a council tax list will be liable for council tax in the same way as any other person occupying a dwelling. Incomplete dwellings are not liable to council tax unless they have been entered in a valuation list because they are deemed to be complete as a result of a completion notice; or, despite not being complete, have become dwellings by virtue of being occupied as living accommodation.

Opencast Mining: Health Hazards

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what research his Department and its predecessors have conducted on the effects on public health of opencast mining since 1997. [319303]

Mr. Ian Austin: We have conducted one piece of research. In 1999 the University of Newcastle-upon-Tyne prepared a report "Do Particulates from Opencast Coal Mining Impair Children's Respiratory Health?" for the Department of Health and the Department of the Environment, Transport and the Regions.

The findings of this report were fed into the Government's policy on dust from mineral workings and associated operations, which is set out in Annex 1 to Minerals Policy Statement 2 "Controlling and Mitigating the Environmental Effects of Minerals extraction in England". This annex was published in 2005.

Political Impartiality

Robert Neill: To ask the Secretary of State for Communities and Local Government whether his Department has granted requests from its employees for permission to stand as a candidate in local government elections due to take place in 2010. [317802]

Barbara Follett: Information relating to requests from employees for permission to stand as a candidate in local government elections is not held centrally and could be provided only at disproportionate cost.

Public Houses: Government Assistance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government (1) what steps his Department has taken to assist public houses to avoid closure; [319141]

(2) what the responsibilities are of the Minister for Housing and Planning in relation to public houses. [319122]

John Healey: Ministers recognise the important role pubs can play in maintaining community life and there is concern across Government about the number of community pubs that have been forced to close during the recession. The Department of Communities and Local Government is working with a range of Government Departments to develop a package of measures to support community pubs.

Government action cannot sustain pubs that are fundamentally unviable but it is right to do everything possible to support those pubs that play an important community role. We will announce this package shortly.

Right to Buy Scheme

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if he will increase the thresholds at which Right to Buy discounts are capped. [319277]

John Healey: We have no plans to change the current Right to Buy discount limits.

Social Rented Housing

Margaret Moran: To ask the Secretary of State for Communities and Local Government what guidance his Department has issued to *(a)* the Homes and Communities Agency, *(b)* the Tenant Services Authority and *(c)* registered social landlords on local supply chain procurement in the last 12 months. [318530]

John Healey: The Office of Government commerce is responsible for issuing general guidance to the public sector on procurement.

Supporting People Programme

Margaret Moran: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 2 February 2010, *Official Report*, column 255W, on supporting people programme, what representations he has received from *(a)* local authorities and *(b)* registered social landlords on non-renewal of supporting people contracts. [318401]

Barbara Follett: The Department has continual engagement with a wide range of stakeholders, including local authorities and representatives of registered social landlords about the Supporting People Programme. While this may include issues concerning commissioning and contracts, it is for local authorities to make decisions about the renewal of contracts for the Supporting People Programme based on their strategic assessments of their areas' particular needs.

Written Questions: Government Responses

Grant Shapps: To ask the Secretary of State for Communities and Local Government when he plans to answer Question 314659 on intentionally homeless households with children, tabled on 27 January 2010. [319826]

Mr. Ian Austin: I replied to the hon. Member's question on 24 February 2010, *Official Report*, columns 613-4W.

BUSINESS, INNOVATION AND SKILLS

Adult Education: Grants

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the answer of 21 July 2009, *Official Report*, column 1675W, on adult learning grants, what the average duration of claims for adult learning grants is amongst each age group; what the cost was of paying the adult learning grant to each age group in 2008-09; what the *(a)* mean and *(b)* median annual payment of the adult learning grant was in 2008-09 for each age group; and if he will make a statement. [318434]

Kevin Brennan: Data requested are provided for the 2008/09 academic year. This complements the data provided in my answer to the hon. Member on 21 July 2009, *Official Report*, column 1675W, which was also for the 2008/09 academic year.

2008/09 ALG recipients

			Annual payment (£)	
Age groups	*Average claim duration (weeks)*	*Total cost (£)*	*Mean*	*Median*
19 to 25	32.20	17,478,690	674.8529	720
26 to 30	31.58	1,105,200	697.7273	750
31+	31.74	2,121,870	736.5047	810

Apprentices: Leeds

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills what recent estimate he has made of the number of small and medium-sized businesses in Leeds North West constituency which are employing apprentices. [319500]

Kevin Brennan: Information is not currently available on the size of the employer for apprentices. For the 2009-10 academic year, this information will become available on the Individualised Learner Record (ILR) when a unique employer identifier will have to be provided by all employers of apprentices.

We can provide an estimate of the size of employers, nationally, that offer and have recruited apprentices from the National Employers Skills Survey (NESS). These data are based on repeated surveys of up to 79,000 employers across all business sectors in England.

Table 2 shows information from the published 2007 National Employer Skills survey[1] on the number of organisations that had any staff undertaking an apprenticeship in the 12 months prior to interview, by size of employer.

Table 2: Percentage of employers that had any staff undertaking an apprenticeship in the last 12 months (NESS 2007)

	All employers	Number of employees or employer					
		2-4	5-24	25-99	100-199	200-499	500+
Employers that had any staff undertaking an apprenticeship over the previous 12 months (NESS 2007) (%)	8	5	10	15	18	25	33

[1] http://readingroom.lsc.gov.uk/lsc/National/nat-nessurvey2007mainreport-may08.pdf accessed on 4 February 2010.

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills how many modern apprenticeships have been started in Leeds North West constituency since 1997. [319502]

Kevin Brennan: Table 1 shows the number of Apprenticeship starts in Leeds North West parliamentary constituency from academic year 2003-04 onwards, the earliest year for which comparable data is available.

Table 1: Apprenticeship programme starts in Leeds North West parliamentary constituency, 2003-04 to 2008-09

	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09
Leeds North West Parliamentary Constituency	190	160	160	190	240	220

Notes:
1. Figures for Leeds North West Parliamentary Constituency are rounded to the nearest 10.
2. Figures are based upon home postcode of the learner.
3. Figures include Apprenticeships, Advanced Apprenticeships and Higher Level Apprenticeships.

Source:
Individualised Learner Record

Information on the number of Apprenticeship starts by Parliamentary Constituency, Local Authority, Government Office Region and for England is published in a quarterly statistical first release (SFR). The latest SFR was published on 17 December, and re-issued on 21 January to include provisional national estimates of the number of apprenticeship starts and achievements in the first quarter of 2009-10:

http://www.thedataservice.org.uk/statistics/sfrdec09

Apprentices: Pay

David Davis: To ask the Minister of State, Department for Business, Innovation and Skills (1) what the average starting salary is for students who have completed an apprenticeship through the National Apprenticeship Service; [318237]

(2) what the average annual earnings are for students undertaking an apprenticeship through the National Apprenticeship Service. [318238]

Kevin Brennan: Data on salaries of apprentices completing an apprenticeship framework are not available.

A survey of the pay of apprentices "Apprenticeship Pay: 2007 Survey of Earnings by sector"—DIUS Research Report 08 05, showed that the average net pay for an apprentice in England in 2007 was £170 per week. The report is available at:

http://www.dius.gov.uk/research_and_analysis/apprenticeship_pay

Broadband: South West

Linda Gilroy: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to facilitate the provision in the South West of the access to broadband internet services as outlined in the Digital Britain report. [318865]

Mr. Timms: Since the publication of the Digital Britain Report, the Department has been working to ensure the delivery model for the Universal Service Commitment and the Next Generation project is appropriate. We hope to undertake the procurement exercise for the Universal Service Commitment by the autumn. This will help bring broadband access of 2 Mbps to every area in the UK by 2012, including the south-west.

We are aiming to legislate for the Landline Duty in the Finance Bill, and are currently consulting on the use of the Next Generation Fund in order to incentivise the market to deliver next generation broadband to 90 per cent. of UK households by 2017.

Business: Government Assistance

Mr. Prisk: To ask the Minister of State, Department for Business, Innovation and Skills how much was spent on the (*a*) Accessing International Markets, (*b*) Grant for Business and Investment, (*c*) Export Credit Insurance, (*d*) Maximising Foreign Direct Insurance, (*e*) Developing Your International Trade Potential, (*f*) Business Collaboration Networks, (*g*) Business Premises, (*h*) Business Growth Specialist Facilities and Environments, (*i*) Starting a Business, (*j*) Intensive Start-up Support, (*k*) Starting a High Growth Business, (*l*) Manufacturing Advisory Service, (*m*) Designing Demand; (*n*) Innovation Advice and Guidance, (*o*) Coaching for High Growth, (*p*) Small Loans for Business, (*q*) Understanding Finance for Business, (*r*) Finance for Business, (*s*) Collaborative Research and Development, (*t*) Networking for Innovation, (*u*) Knowledge Transfer Partnerships, (*v*) Innovation Vouchers, (*w*) Low Carbon Energy Demonstration, (*x*) Improving Your Resource Efficiency and (*y*) Grant for Research and Development scheme in (i) 2007-08 and (ii) 2008-09; and how many businesses have received assistance from that scheme in each of those years. [302098]

Mr. McFadden: These questions are currently under consideration by the regional development agencies following a Freedom of Information (FOI) request from the hon. Member for Hertford and Stortford. He will be notified when the FOI has been answered and copies of the responses will be placed in the Libraries of the House.

Departmental Manpower

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Innovation and Skills how many performance reviews were undertaken in respect of staff of (*a*) his Department and (*b*) its predecessors in each of the last five years; in how many cases performance was rated as unsatisfactory or below; how many staff left as a direct result of such a rating; and what percentage of full-time equivalent staff this represented. [313830]

Mr. McFadden: The Department for Business, Enterprise and Regulatory Reform (BERR) ceased to exist on 5 June 2009 when the Department for Business, Innovation and Skills (BIS) was created from the merger of BERR and the Department of Innovation, Universities and Skills (DIUS). Each Department had a separate staff appraisal system.

The number of staff performance reviews undertaken for former staff in BERR is shown in the following table:

	Number of staff performance reviews undertaken	*Number of cases where performance was rated as unsatisfactory or below*
1 April 2004 to 31 March 2005	4,316	[1]—
1 April 2005 to 31 March 2006	4,382	[1]—
1 April 2006 to 31 March 2007	3,377	[1]—
1 April 2007 to 31 March 2008	2,938	0
1 April 2008 to 31 March 2009	2,798	0

[1] The total is less than five and has been suppressed on the grounds of confidentiality.

The number of staff performance reviews undertaken for former staff in DIUS for the period 1 April 2008 to 31 March 2009 is 753. BIS does not have access to information on the number of cases where performance was rated as unsatisfactory or below in DIUS, nor how many staff left as a direct result.

The BIS performance appraisal system involves the individual (jobholder) and line manager engaging in a continuous dialogue throughout a reporting year. Performance and development objectives are agreed at the start of a reporting year. There are informal and formal opportunities to discuss progress and challenges with a written record of outcomes agreed at the end of the reporting year.

It is the responsibility of line managers to manage and maintain the performance of their staff at, or above, an acceptable standard. Where it is believed that an individual's performance has reached a level that is unacceptable, then the situation is managed in accordance with the Department's poor performance procedures and guidance.

The Civil Service Management Code sets outs regulations and instructions to Departments and agencies regarding the terms and conditions of service of civil servants and the delegations which have been made by the Minister for the Civil Service under the Civil Service (Management of Functions) Act 1992 together with the conditions attached to those delegations.

It is a requirement under the code that all staff are subject to performance reviews and that Departments and agencies must have procedures in place to deal with inefficiency/poor performance.

6.2.1 of the code deals with staff in the delegated grades; 6.2.5, non-delegated (i.e. the SCS). The code is available at:

http://www.civilservice.gov.uk/about/resources/csmc/index.aspx

Departmental Official Hospitality

John Mason: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department spent on Ministerial hospitality in (*a*) 2004-05, (*b*) 2005-06, (*c*) 2006-07 and (*d*) 2007-08, expressed in current prices. [316838]

Mr. McFadden: The amounts spent on ministerial hospitality are as follows:

	£
2004/05	17,071.11
2005/06	17,102.17
2006/07	6,282.69
2007/08	17,194.12

The above costs principally relate to conferences and receptions for key stakeholders.

Departmental Recruitment

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills how many job vacancies in his Department and its agencies were filled through external recruitment in the last 12 months. [315289]

Mr. McFadden: There were 34 job vacancies that were filled through external recruitment in the last 12 months. This number includes all types of payroll vacancies apart from those recruited on short-term casual contracts as this data is not collated centrally.

The Department of Business Innovation and Skills was formed in June 2009. The data we have provided relate to 1 April 2009 to March 2010 financial year which includes the former Department for Business Enterprise and Regulatory Reform (BERR) only. We do not have data relating to the former Department for Innovation, Universities and Skills (DIUS) as their external recruitment was delivered by another Government Department.

I have approached the chief executives of the Insolvency Service, Companies House, the National Measurement Office and the Intellectual Property Office and they will respond to the hon. Member directly.

Letter from Tim Moss:

I am replying on behalf of Companies House to your Parliamentary Question tabled 29 January 2010, UIN 315289, to the Minister of State for Business, Innovation and Skills.

Companies House filled 23 job vacancies through external recruitment in the last 12 months.

Letter from Stephen Speed:

The Minister of State, for the Department Business, Innovation and Skills (BIS) has asked me to reply to you directly in respect of your question how many job vacancies in his Department and its agencies were filled through external recruitment in the last 12 months.

In the Insolvency Service, 273 job vacancies were filled through external recruitment during the last 12 months.

Letter from Sean Dennehey, dated 4 February 2010:

I am responding in respect of the Intellectual Property Office to your Parliamentary Question tabled 29 January 2010, to the Minister of State, Department for Business, Innovation and Skills.

Since 1 February 2009 the Intellectual Property Office has carried out 23 external recruitment exercises for 26 vacancies.

Letter from Peter Mason, dated 4 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question tabled on 29 January 2010 asking the Minister of State, Department for Business, Innovation and Skills, asking how many job vacancies were filled through external recruitment in the last 12 months.

We have filled four vacancies following external recruitment exercises during this period, in all cases following an unsuccessful attempt to fill the post by advertising within the Civil Service.

Departmental Theft

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills how many thefts from his Department have been recorded in the last two years. [318986]

Mr. McFadden: During the period 1 January 2008 to 31 December 2009, 207 items were reported as missing on this Department's and its predecessors central London estate. The Department records items as missing as it is not always possible to prove theft as the reason for the loss of items and many items reported are subsequently found.

The figure includes small, low value personal items.

Departmental Travel

Mr. Watson: To ask the Minister of State, Department for Business, Innovation and Skills if he will publish the travel guidance issued to staff of each of his Department's agencies and non-departmental public bodies. [314926]

Mr. McFadden: I have approached the chief executives of the Insolvency Service, Companies House, the National Measurement Office and the Intellectual Property Office and they will respond to my hon. Friend directly.

Travel guidance issued to the staff of the Department's non-departmental public bodies (NDPBs) is not held centrally and could be provided only at disproportionate cost.

For travel guidance issued to NDPB staff, the chief executive of each body should be contacted. A list of the Department's NDPBs can be found at the following link, under BERR's and DIUS's public bodies directories 2009:

http://www.berr.gov.uk/aboutus/corporate/performance/annual-spending/page27140.html

Letter from Gareth Jones, dated 26 February 2010:

I am replying on behalf of Companies House to your Parliamentary Question tabled 28 January 2010, UIN 314926 to the Minister of State for Business, Innovation and Skills.

Companies House follows the Department for Business, Innovation and Skills published guidelines for its own travel guidance issued to staff.

Letter from Stephen Speed, dated 26 February 2010:

The Minister of State, for the Department of Business, Innovation and Skills (BIS) has asked me to reply to your question if he will publish the travel guidance issued to staff of each of his Department's agencies and non-departmental public bodies.

Travel guidance is in the Insolvency Service staff handbook (Employment Matters) and this is published on the Intranet. It is planned that this will also be published on the Insolvency Service's Internet site within the next six weeks in accordance with the Freedom of Information publishing requirements.

Letter from Peter Mason, dated 26 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question tabled on 28 January asking the Minister of State, Department for Business, Innovation and Skills, about the travel guidance issued to staff in the Department's agencies and non-departmental public bodies.

Please find attached the travel guidance issued to NMO staff.

NMO Guidance on Managing and Authorizing Staff Travel

Managing and authorising staff travel

The nature of the Agency's work means that there is a need for some staff to undertake business travel on occasions.

Given the substantial impact that travel costs have on the Agency's budget, and to minimise environmental damage through CO_2 emissions, business travel should be kept to a minimum.

Budget Holders, line managers, staff and finance all have a role to play and this section sets out these roles.

Budget Holders

The role of Budget holders, in particular Business Team Managers, is to make sure that:

budget estimates for travel and subsistence are based on a critical and realistic assessment of need,

line managers work within the budget ceiling

there is flexibility in the allocation of funds between line managers

regular information is made available to enable effective management of staff travel.

staff take full advantage of the services and discounts available from departmental travel providers.

Line managers

Line managers are responsible for:

day-to-day authorisation of travel requests (where they have specific delegated authority)

day-to-day approval of claims

keeping the cost of travel and subsistence within their delegated authorities

deciding who carries out particular tasks involving travel communicating the need to plan travel responsibly and minimise travel costs.

As part of their role line managers need to consider whether travelling is really necessary to meet specific work objectives.

If travel is absolutely necessary, particular attention should be paid to:

the number and grades of staff travelling

the frequency and duration of travel.

Line managers are responsible for deciding who carries out specific travel-related activities, and should ensure that travel is conducted by the most suitable method available, with consideration for the cost incurred and the environmental impact.

Line managers should use the information on claim forms to check:

the agreed method of travel was used

allowances claimed are correct and comply with departmental rules

overall costs (in time and money) were kept to a minimum.

Line managers must make sure that staff:

inform them of the purpose and details of all visits in advance of booking travel, to help control costs

plan travel efficiently, for instance arranging a full day's appointments in one location

rather than visit on two successive part-days

plan itineraries to reduce costs and/or mileage

book early to secure whatever cheaper fares are available and take advantage of offers available through recognised booking agents and operators

Travellers and travel bookers

Travellers and travel bookers must make sure that any staff travel arrangements make the best overall use of official time, fares and subsistence. It is the responsibility of the traveller to ensure that they have adequate funds, the correct form is completed (with receipts attached) and to obtain authorisation before submitting to finance for payment. Payment may be delayed if the form is not completed adequately.

In order to choose the most appropriate method of travel, travellers should bear in mind the following:

Staff who would normally qualify for first-class rail travel should consider travelling second class where the dearer fare offers no practical advantage, eg for short journeys and for longer journeys on routes which are known not to be crowded.

For staff required to travel 6500 miles or more by car each year it is as cheap to provide a lease car as to pay standard rate mileage allowance. For staff with an annual mileage of 9000 miles and above, a lease car can provide savings of up to a third.

Self-drive hire as a short-term measure may sometimes be the most economical option.

Taxis can be cost-effective for short journeys. Used discriminately, they can save much official time, especially with more than one person travelling. However, travellers should make sensible choices based on comparisons with available public transport before opting for travel by taxi.

Car sharing will substantially reduce travel costs.

For longer journeys travel by air is usually cheaper, taking into account savings in travelling time and overnight subsistence. Similarly, overnight sleeper services can cut travel costs.

Where there is a need to work on a Journey rail travel offers advantages which may outweigh the savings from cheaper forms of travel

All staff should try and share examples of best practice.

Finance

It is the responsibility of the Finance team to:

check that claims follow guidance and that they have received all the necessary documentation required to make payment and to enable the correct Business Team and service to be charged and follow up any insufficient documentation;

keep records for audit purposes; and

make payment.

Letter from John Alty, dated 1 March 2010:

I am responding in respect of the Intellectual Property Offic to your Parliamentary Question tabled 28 January 2010, to th Minister of State, Department for Business, Innovation an Skills.

The Intellectual Property Office (IPO) is a Trading Fund an Executive Agency of the Department for Business, Innovatio and Skills. The IPO publishes its travel guidance to staff via it staff handbook, on its internal intranet site.

Early Retirement

David Simpson: To ask the Minister of State Department for Business, Innovation and Skills wha estimate he has made of the number of *(a)* males and *(b)* females who have taken involuntary earl retirement in the last 12 months. [313647

Mr. McFadden: The Department for Business Innovation and Skills (BIS), estimates that five people in the Department have taken involuntary early retirement in the last 12 months but further details cannot be given on the grounds of confidentiality.

Flexible Working: Carers

Mr. Burstow: To ask the Minister of State, Department for Business, Innovation and Skills how many people have applied to their employer for flexible working arrangements to assist them with their caring responsibilities in the last 12 months; and if he will make a statement. [317336]

Mr. McFadden: The new employment rights introduced in April 2003 gave parents of children under six and disabled children under 18 the right to request flexible working; this was extended to carers in April 2007 and parents of children aged 16 and under in April 2009. There are no requirements for either employers or employees to notify the department when requests are made to work flexibly. The department does not have the requested information for the past 12 months, nor does the department have evidence on the number of requests accepted or rejected by carers since 2007.

However, the department conducts periodic sample surveys to estimate the proportions of employees making requests to change their regular working hours and the proportion of such requests accepted or rejected. The most recent employee survey (Third Work Life Balance Employees' Survey) was conducted in 2006, before the implementation of the extension of the right to request to carers. Table 1 presents the findings from the 2006 Survey.

Employees with parental responsibilities (defined as having dependent children aged under 19): in 2006, 20 per cent. of working parents (employees with dependent children undue nine years old) had made a request to change their regular working pattern during the previous two years, and 80% of requests had been accepted.

Employees with adult caring responsibilities (defined as looking after sick, disabled or elderly adults): in 2006, 26 per cent. of employees with adult caring responsibilities had made a request to change their working pattern, with 79 per cent. of requests accepted (11 per cent. rejected).

Table 1: Request made to employer to change how they work at some point over previous two years, employees; Outcome of request by parental status and adult caring responsibilities

(percentage)

	Request made to change how regularly worked during the previous two years[1]	*Requests accepted by employer*[2] *(fully and partially)*	*Request declined by employer*[3]
All employees	17	78	17
Employees with dependent children[4]	20	80	17
Adult carers[5] (employees)	26	79	11

[1] Over the last two years, have you approached your current employer to make a request to change how you regularly work for a sustained period of time

[2] Was your request to change the way you regularly work agreed to?

[3] Not all requests had an outcome by the time of the survey

[4] Parental status is defined in the survey as having dependent children aged 18 or less.[5] Adult carers are defined as people who look after adults who are sick, disabled or elderly, whether they live with the carer or not

Source:

Third Work-Life Balance Survey 2006. (2,081 employees across Great Britain)

Fujitsu: Industrial Disputes

Mr. Benyon: To ask the Minister of State, Department for Business, Innovation and Skills whether his Department has received representations on the recent dispute between Fujitsu and Fujitsu employees on redundancies, levels of pay and company pensions policy. [314710]

Mr. McFadden: The Department has received a small number of letters about the rationalisation programme announced by Fujitsu Services last August, and the related dispute with some of its employees. The resolution of a dispute is a matter for the parties concerned, with the assistance of ACAS available, where both parties request their intervention.

Further and Higher Education: Admissions

Mr. Frank Field: To ask the Minister of State, Department for Business, Innovation and Skills how many places there were in *(a)* further and *(b)* higher education institutions in academic year 2008-09. [319177]

Mr. Lammy *[holding answer 26 February 2010]:* In 2008/09 academic year (provisional), 4,756,600 learners participated in Learning and Skills Council funded learning (excluding Higher Education and school sixth forms).[1]

In 2008/09 there were 2,005,845 students enrolled at English Higher Education Institutions (including the Open University).[2]

Sources:

[1] Individualised Learner Record. Includes participation in further education provision, Apprenticeships, Train to Gain, Adult Safeguarded Learning and University for Industry.

[2] Higher Education Statistics Agency (HESA) Student Record

Further Education: Finance

Mr. Hoyle: To ask the Minister of State, Department for Business, Innovation and Skills if he will take steps to simplify the arrangements for funding of colleges; and if he will make a statement. [319159]

Kevin Brennan: As set out in "Skills for Growth" (November 2009), the Government are committed to simplifying the further education (FE) and skills landscape. We will reduce the number of separate publicly-funded agencies, and the funding and monitoring of FE colleges will be undertaken through a simpler and lighter touch approach.

From April 2010, the Skills Funding Agency will have responsibility for allocating and delivering funding to colleges to support the training of adults (aged 19 and over). Each college and training organisation funded through the Skills Funding Agency will have a single contact point through their account manager.

From 2010/11 academic year there will be greater flexibility for colleges and training organisations in managing post 19 funding within budget streams.

Government Car and Despatch Agency

Grant Shapps: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department paid to the Government Car and Despatch Agency in each of the last five years; how much it has spent on such payments in 2009-10; and what proportion of such payments was made in respect of the Government Car Service. [316421]

Mr. McFadden: This Department and its predecessors have paid the following amounts to the Government Car and Despatch Agency for the use of the Government Mail Service:

	£000
2004/05	271.7
2005/06	256.7
2006/07	235.2
2007/08	283.9
2008/09	276.9
2009/10[1]	241.5

[1] To end January.

Costs of ministerial cars are reported annually to Parliament by my noble Friend the Secretary of State for Transport through written ministerial statement and are available in the Libraries of the House.

Hotels

Anne Main: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department spent on hotel accommodation for *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in each of the last five years. [305672]

Mr. McFadden: Following a machinery of government change the Department for Business, Innovation and Skills was formed in June 2009. The following figures relate to the Departments before the merger.

The amount spent by the Department for Business, Enterprise and Regulatory Reform on hotel accommodation for in each of the last five years was:

	£
2004/05	881,845
2005/06	959,798
2006/07	929,210
2007/08	1,051,965
2008/09	1,769,921

The figures include Department of Trade and Industry spend until it was disbanded in June 2007.

The amount spent by the Department of Innovation, Universities and Skills on hotel accommodation since it was formed in 2007 was:

	£
July 2007 to March 2008	106,608
2008/09	256,885

Travel by Ministers, civil servants and special advisers are undertaken in accordance with the Ministerial Code and the Civil Service Management Code respectively.

The Department does not separately record overnight accommodation from that of officials—to provide this information would entail disproportionate costs.

Cabinet Office provides an annual list of overseas travel over £500 undertaken by Ministers. These can be accessed at

http://www.cabinetoffice.gov.uk/propriety_and_ethics/ministers/travel_gifts.aspx

The list for 2008-09 was published on 16 July. This and earlier lists are available in the Libraries of the House.

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills how many separate bookings for stays at five star or above hotels were made through the Expotel contract by his Department in the last year for which figures are available; and at what cost. [315262]

Mr. McFadden: Following a machinery of government change the Department for Business, Innovation and Skills was formed in June 2009. The following figures include former BERR and DIUS before the merger.

The number of bookings for stays at five star and above hotels made through the Expotel contract for the period January to December 2009

Number of bookings	*Cost (£)*
297	43,070

Note:
Figures include overseas bookings

Wherever possible Expotel will book accommodation within indicative rates set by the Department; this may include five star hotels which have special offers available and fall within these rates.

All expenditure incurred is in accordance with the principles of Managing Public Money and the Treasury handbook.

Insolvency

Dr. Cable: To ask the Minister of State, Department for Business, Innovation and Skills what record *(a)* his Department and *(b)* its agencies keep of fees paid to insolvency practitioners. [315180]

Mr. McFadden: The Department does not record details of the fees paid to insolvency practitioners.

I have approached the chief executives of the Insolvency Service, Companies House, the National Measurement Office and the Intellectual Property Office and they will respond to the hon. Member directly.

Letter from Gareth Jones, dated 8 February 2010:

I am replying on behalf of Companies House to your Parliamentary Question tabled 28 January 2010, UIN 315180, to the Minister of State for Business, Innovation and Skills.

Companies House has no record of any fees paid to Insolvency Practitioners.

Letter from Peter Mason, dated 15 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question tabled 29 January 2010, to the Minister of State, Department for Business, Innovation and Skills asking what record is kept of fees paid to insolvency practitioners.

The nature of the National Measurement Office's business, and that of its predecessor the National Weights & Measures Laboratory, means that there should be no need to pay any fees to insolvency practitioners, and there are no records of us having done so. Should there be occasion to pay such fees we would expect to register them separately in our accounting records through the creation of a new account code.

Letter from Stephen Speed, dated 2 February 2010:

The Minister of State, for the Department of Business, Innovation and Skills (BIS) has asked me to reply to your question what record (a) his Department and (b) its agencies keeps of fees paid to insolvency practitioners.

In corporate insolvencies, the officeholder is required to file receipts and payments accounts or statement of accounts with the Registrar of Companies. In Individual Voluntary Arrangements, the Supervisor is required to send a final receipts and payments account to the Secretary of State.

This information is not extracted or collated into a central record.

Letter from Sean Dennehey, dated 2 February 2010:

I am responding in respect of the Intellectual Property Office to your Parliamentary Question tabled 29 January 2010, to the Minister of State, Department for Business, Innovation and Skills.

The Intellectual Property Office maintains records of all payments and has paid no fees to insolvency practitioners.

Paid Leave: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what recent estimate he has made of the number of residents of *(a)* Essex and *(b)* Castle Point who qualify for paid leave entitlements. [318108]

Mr. McFadden: All workers resident in *(a)* Essex and *(b)* Castle Point qualify for paid annual leave entitlements. The statutory minimum as set out in the working time regulations is at least 5.6 weeks.

Numbers of workers resident in *(a)* Essex and *(b)* Castle Point are not available. However, according to the Annual Business Inquiry Employee Analysis by the

Office for National Statistics, there were a total of 517,900 employees who worked in Essex and 19,300 in Castle Point (but did not necessarily live there) in 2008, who would all qualify for paid annual leave entitlement.

Maternity Leave: Feltham

Alan Keen: To ask the Minister of State, Department for Business, Innovation and Skills how many and what percentage of women resident in Feltham and Heston constituency have taken 26 weeks maternity leave since 1997. [316698]

Mr. McFadden: From April 2007 all employed mothers are entitled to 52 weeks maternity leave, of which 39 may be paid. Employers are not required to record or report the uptake of maternity leave to the Government. No figures are available at the constituency level.

The most recent estimates of take-up of maternity leave are based on the DWP 'Maternity Rights and Mothers' employment decisions in Britain: Survey of Mothers' (2007). In 2006, when mothers included in the study went on maternity leave, the statutory entitlement to ordinary maternity leave (OML) was 26 weeks, while mothers who had worked for their employer for a qualifying period of 26 weeks were also entitled to additional maternity leave (AML) of 26 weeks. For mothers taking maternity leave in 2006:

84 per cent. took 26 weeks or more maternity leave;

35 per cent. took exactly 26 weeks maternity leave;

46 per cent. of mothers took between 27 and 52 weeks and only 3 per cent. were off for more than 52 weeks;

16 per cent of mothers took less than the statutory minimum entitlement (i.e. 26 weeks in 2006).

The next 'Maternity Rights' survey will be based on mothers who took maternity leave starting in summer 2008. It is due to report in 2010.

Members: Correspondence

Sir Michael Spicer: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to respond to the email from the hon. Member for West Worcestershire of 23 November 2009 on the future of Cadbury. [319249]

Mr. McFadden *[holding answer 26 February 2010]:* I apologise to the hon. Member for the delay. My colleague the Parliamentary Under-Secretary of State for Business and Regulatory Reform has responded today, as the matter falls within his portfolio.

Minimum Wage: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of people in *(a)* Essex and *(b)* Castle Point who have been paid at the rate of the national minimum wage since its introduction. [318105]

Mr. McFadden: Data for earnings are not available at the county or constituency level because of small sample sizes at these levels in the Annual Survey of Hours and Earnings (ASHE).

Due to rounding in the conversion of payroll data into hourly wage rates and small sample sizes for 16 to 17 and 18 to 21-year-olds in ASHE, it is not possible at the regional level to infer the number of employees earning exactly at the national minimum wage (NMW) with sufficient certainty. However it is possible to estimate the number who were paid at or below the NMW.

At the Government office region level the most recent figure from BIS analysis of the 2009 ASHE indicates the number of jobholders who were paid at or below the NMW in April 2009 in the east of England region was 64,000.

Music: Copyright

Mr. Maude: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the Government response to the consultation on changes to exemptions from public performance rights in sound recordings and performers' rights, and pursuant to the answer to the hon. Member for Ruislip Northwood of 1 February 2010, *Official Report*, column 101W, on religious practice: buildings, whether recorded music used in divine service such as funerals, baptisms and weddings by *(a)* the Church of England and *(b)* places of religious worship certified by the Registrar General under the Places of Religious Worship Act 1855 will require a public performance licence under the proposed Option 1 changes; and what role he has played in the consideration of these changes. [318314]

Mr. Lammy: The proposed changes to the current charitable statutory exemptions for the public performance of recorded and broadcast music will apply to music used in divine worship by the Church of England or places of worship as certified. However, as part of this process, Phonographic Performance Limited (PPL), the organisation who license the public performance and broadcast of sound recordings, have agreed to implement a voluntary exemption for the use of broadcast and recorded music not only as part of divine worship anywhere but also for all religious ceremonies, civil ceremonies and civil partnership ceremonies; domestic/family occasions such as wedding parties; residential homes/hospices (not including staff areas); hospital wards and medical therapy.

The Government fully consulted on this matter, taking into account legal advice and an impact assessment prepared by Europe Economics, and negotiated a number of safeguards including a system of joint licensing, a code of practice and an independent complaints ombudsman. I have been involved at all key stages of the consultation and officials have kept me informed throughout. I considered this matter extensively before writing to the Economic Development Committee on 2 July 2009 for clearance. I received clearance for the publication of the Government response and the proposed repeal of the charitable exemptions on 24 July 2009.

Qualifications: North East

Jim Cousins: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of the working age population in *(a)* Newcastle upon Tyne Central constituency, *(b)* Newcastle upon Tyne, *(c)* Tyne and Wear and *(d)* the North East region (i) had no qualifications, (ii) were qualified to level 2 and (iii) were qualified to level 4 in (A) 2001 and (B) each year since 2004. [318809]

Kevin Brennan: The table shows the proportion of the working age population in Newcastle upon Tyne, Tyne and Wear Local Education Authority, and the North East region qualified to at least level 4, 3, 2, below Level 2 and with no qualifications.

These estimates are taken from the Annual Population Survey (APS). The APS sample is not large enough to provide estimates for smaller geographies such as constituencies, but it is suitable for Local Education Areas estimates. However, please note that these estimates are subject to sampling variability and should therefore be treated with caution and viewed in conjunction with their Confidence Intervals (CIs), which indicate how accurate an estimate is. For example, a CI of +/- 2.7 percentage points (pp) means that the true value is between 2.7pp above the estimate and 2.7pp below the estimate.

Estimates of qualification levels in regions and local areas from 2000 to 2008 are published on the Further Education Data Service website at:

http://www.thedataservice.org/uk/NR/rdonlyres/AC4DC94B-54F2-4F31-A7FF-E4E08C2210C4/0/TABLESFORWEBAPSsupplementarytablesbrokendownbylocallevelrevised25Aug.xls

The 2009 estimates are due to be published in July this year.

Table 1: Highest qualification of population aged 16 to 59/64 (percentages)

Proportion with highest qualification level at:	*Area*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*	*2008 95 per cent Confidence Interval (percentage points)*
Level 4 or above	North East	18.5	19.4	20.8	21.9	21.4	22.7	24.3	23.9	+/- 0.8

Skilled Workers: Construction

Mr. Rooney: To ask the Minister of State, Department for Business, Innovation and Skills what steps he is taking to promote the Construction Skills Certification Scheme. [319690]

Ian Lucas: The Construction Skills Certification Scheme (CSCS) is an industry initiative. The Government welcome the scheme's aims which are to improve competence and good health and safety practice in the construction industry, and to encourage the achievement of relevant formal qualifications by industry employees. The construction pages on the Department's website refer to the work of the CSCS and equivalent schemes and provides a link to the CSCS website. That said, the Government have no role in setting the scheme's rules, and do not undertake promotional activity for the scheme.

Snow and Ice

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the costs to his Department arising from the severe weather conditions in the period 4 to 18 January 2010; and if he will make a statement. [313581]

Mr. McFadden: This Department considers that it had only notional costs arising from the severe weather conditions for the period from 2 January to 18 January 2010, and has not made any calculations.

CABINET OFFICE

Census

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 2 February 2010, *Official Report*, column 310W, on Census: training, what the provisional number of specialist field staff is who will be trained to caution people under the Police and Criminal Evidence Code of Practice for Interview provisions. [318303]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck:

As the Director General for the Office for National Statistics, I have been asked to reply to your recent question asking pursuant to the Answer of 2 February 2010, Official Report, column 310W, on Census: training, what the provisional number of specialist field staff is who will be trained to caution people under the Police and Criminal Evidence Code of Practice for Interview provisions. (318303)

The provisional number of specialist field staff who will be trained to caution people under the Police and Criminal Evidence Code of Practice for Interview provisions is 60, although this number is currently under review.

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 27 January 2010, *Official Report*, column 796, on the 2011 census, if she will place in the Library the evidential basis for the statement that the value of the Census is £700 million; and by what methodology such evidence was gathered. [318329]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated February 2010:

As the Director General for the Office for National Statistics (ONS) I have been asked to reply to your recent question asking pursuant to the answer of 27 January 2010, *Official Report*, column 796, on the 2011 Census, whether the evidential basis for the statement that the value of the census is £700 million will be placed in the Library; and by what methodology such evidence was gathered. (318329)

The quantified benefit of the census is currently estimated to be £750 million. However, this is considered to be a very significant under-estimate. A full business case for the 2011 Census has been produced and scrutinised by HM Treasury and the Office of Government Commerce. It is due to be published this Spring and will be available on the Office for National Statistics (ONS) website. The business case clearly demonstrates the unique value of the census, and that the benefits of having the information far outweigh the costs of its collection and processing and formed the basis for the Minister's statement.

ONS provided further information on this point to the Lord's Committee on the Merits of Statutory Instruments in October 2009 when the Committee examined the Draft Census (England and Wales) Order 2009, which was included in their 29th Report of Session 2008-2009 (Appendix 1) published on 5 November 2009. The relevant sections of this stated that:

A wide range of users rely heavily on census results for a countless range of purposes. The six broad purposes for which they use census data are:

resource allocation;

targeting investment;

service planning;

policy making and monitoring;

academic and market research; and

as a benchmark for other National Statistics.

Extensive work has been undertaken to quantify the benefits of the census in financial terms. For example, if census data were not available, the £82 billion allocated each year by the Department of Health to each Primary Care Trust (PCT), would be based on data using existing information available within the NHS. Detailed analysis has shown that using such lower quality data sources would result in over £800 million being misallocated per year, with some individual PCTs gaining, or losing, to the tune of millions of pounds. Clearly, the net cost to HM Treasury of such misallocation would be zero, but the costs to society would be significant, resulting in significant discrepancies in the services available in different areas. Clearly, attributing a financial value to this cost to society is very difficult, but using standard economic methods that work on the premise that "a pound in your pocket is worth more if you're poor than if you're rich," a cost to society of £600 million over the decade has been estimated. Adding in similar quantified benefits for funding allocations to local authorities from the Department for Communities and Local Government, and private sector benefits (assessed through improved decision making about the location of retail stores and the use of census data by market researchers) the quantified benefits of the census amount to over £750 million over the decade between censuses.

Furthermore these quantified benefits relate to only three of the six types of use of census data. When considering that over 500 organisations responded to the census topics consultation, that there are a further three very significant key uses of census data and that the Online Neighbourhood Statistics Service (just one route of access to census data) has over 100,000 hits per month, the unquantified benefits will be very substantial.

The quantified discounted benefit of circa £750 million is therefore considered to be a very significant under-estimate.

Charities: Registration

Peter Bottomley: To ask the Minister for the Cabinet Office what categories of charity are exempt from registration. [319672]

Angela E. Smith: Within England and Wales, three categories of charity are not currently required to register with the Charity Commission:

Small charities with an annual income of below £5,000.

Excepted charities with an income below £100,000 are regulated by, but not registered with, the Charity Commission (although there is provision in the Charities Act 2006 for them to register voluntarily). The main groups of these charities are Parochial Church Councils, churches from certain Christian religious denominations, local scout and guide groups, and armed forces service non-public funds. Exception is conferred by Order of the Commission or the Secretary of State.

Exempt charities, which are not registered with the Charity Commission and are currently not subject to the regulatory jurisdiction of the Charity Commission. Examples of such charities include universities, Boards of Trustees of certain museums and galleries, Kew Gardens, and charitable Industrial and Provident Societies. Most categories of exempt charities are defined by Schedule 2 to the Charities Act 1993 ("the 1993 Act"). In a few cases, exempt status has been conferred on some charities by other Acts of Parliament.

The Charities Act 2006 contains provisions to improve the regulation of exempt charities as charities. Some groups of exempt charities will remain exempt but with an existing "principal regulator" promoting charity law compliance. Other groups of exempt charities will cease to be exempt and will become excepted charities.

Civil Servants: Recruitment

Mr. Maude: To ask the Minister for the Cabinet Office how many job vacancies were advertised on the Civil Service Online service in the last 12 months; and how many such vacancies were advertised on the *(a)* public and *(b)* internal part of that site. [318123]

Angela E. Smith: Government Departments and executive agencies have delegated responsibility for recruitment advertising Departments and agencies determine whether a vacancy should be advertised internally within the civil service or externally.

During the period 22 February 2009 and 21 February 2010 a total of 15,482 vacancies have been advertised on the Civil Service Online service, of which 9,860 vacancies have been advertised to the public and 5,622 have been advertised internally on the site.

Civil Servants: Redundancy Pay

Mr. Fallon: To ask the Minister for the Cabinet Office for what reasons the Defence Police Federation has not been consulted on proposed changes to the Civil Service Compensation Scheme. [318479]

Tessa Jowell: My statement of 3 February, *Official Report*, column 11WS-13WS, announced changes to the Civil Service Compensation Scheme and the process which led up to those changes. The Cabinet Office invited comments on its original proposals in July 2009 and received responses from the Defence Police Federation as well as from over 18,000 civil servants, unions, employers and others; the points made in all these submissions were considered in drawing up the Government's revised reforms. The Cabinet Office has also held discussions at a national level with the Council of Civil Service Unions (CCSU) in line with established practice. The Secretary of State for Defence wrote to the General Secretary of the Defence Police Federation in September 2009 proposing he discuss with the Secretary of the CCSU involving the Federation in national consultations (while recognising that the Federation is an independent staff association rather than a trade union).

Departmental Energy

Dan Rogerson: To ask the Minister for the Cabinet Office what steps *(a)* her Department and *(b)* the Prime Minister's Office has plans to take to participate in the Earth Hour event on 27 March 2010. [319179]

Angela E. Smith: The Prime Minister's Office is an integral part of Cabinet Office.

The Cabinet Office will be participating in the Earth Hour event on 27 March 2010.

Departmental Leave

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer to the hon. Member for Ruislip Northwood of 2 February 2010, *Official Report*, column 312W, on civil servants: leave, what the standard allocation of days leave was for a civil servant in the Cabinet Office, in terms of *(a)* annual leave, *(b)* bank holidays and *(c)* privilege days in 2008-09. [318304]

Angela E. Smith: The leave allowance for all civil servants in the Cabinet Office is *(a)* annual leave 30 days, *(b)* bank holidays eight days and *(c)* privilege days two and a half days.

Departmental Pay

Mr. Maude: To ask the Minister for the Cabinet Office how many Downing Street staff received a bonus payment in *(a)* 2006-07, *(b)* 2007-08 and *(c)* 2008-09. [318247]

Angela E. Smith: The Prime Minister's Office is an integral part of the Cabinet Office.

I refer the right hon. Member to the answer given to the hon. Member for Welwyn Hatfield (Grant Shapps) on 10 February 2010, *Official Report*, column 1061W, and to the hon. Member for Upper Bann (David Simpson) on 2 July 2007, *Official Report*, column 901W.

Departmental Public Expenditure

Mr. Harper: To ask the Minister for the Cabinet Office how much was spent on the *(a)* buildings and *(b)* insurance of buildings and staff of the Leader of the House's Office in each of the last four years. [317268]

Angela E. Smith: The Office of the Leader of the House of Commons occupies space in 26 Whitehall and forms an integral part of the Cabinet Office estate. It is not possible to separately identify building costs attributed solely to the Leader's office.

The Cabinet Office acts as its own insurer.

Departmental Publications

Mr. Hands: To ask the Minister for the Cabinet Office what the cost to the public purse was of *(a)* printing, *(b)* distributing and *(c)* producing the text of document Putting the frontline first: smarter Government; and what the cost to the public purse was of the promotion of that document. [319144]

Angela E. Smith: The total printing and production costs of Smarter Government were £37,292 including the distribution of hard copies to Parliament and the Stationery Office. A bespoke multimedia website was also designed at a cost of £6,972.54. The content was produced internally by civil servants, and it is not possible to disaggregate this cost from the cost of other work undertaken by these officials. The only promotion costs incurred were the printing of two banners at £792.

Departmental Security

David Davis: To ask the Minister for the Cabinet Office what security measures her Department plans to put in place in respect of its internal cloud computing system. [318240]

Angela E. Smith: Cabinet Office does not have an internal cloud computing system. Information Communication Technology (ICT) provision for the Cabinet Office is via the Government Flex system which provides a suite of conventional services that meet the security requirements of the Cabinet Office.

As part of the Government ICT Strategy published in January 2010, the Cabinet Office is developing the high level vision and design for a future Government Cloud (G-Cloud). The security measures necessary to appropriately secure the G-Cloud are part of this on-going design work.

Employment: Lancashire

Mr. Hoyle: To ask the Minister for the Cabinet Office (1) how many people are employed in the manufacturing sector in *(a)* Chorley and *(b)* Lancashire; [319340]

(2) how many people are employed in the agricultural sector in *(a)* Chorley and *(b)* Lancashire. [319341]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your Parliamentary Questions asking how many people are employed in the manufacturing sector in (a) Chorley and (b) Lancashire; and how many people are employed in the agricultural sector in (a) Chorley and (b) Lancashire. I am replying in his absence. (319340 & 319341)

The Office for National Statistics (ONS) compiles employment statistics for local areas from the Annual Population Survey following International Labour Organisation (ILO) definitions. Unfortunately the sample size does not support analyses of employment by industry for the requested geographies.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at

http://www.nomisweb.co.uk

Government Departments: Information Officers

Mr. Maude: To ask the Minister for the Cabinet Office how many marketing and communications staff were employed in the Civil Service in each of the last 10 years. [318126]

Tessa Jowell: This information is not collected centrally. Each Government Department, agency and NDPB is responsible for its own communications staff structures, and each Secretary of State is responsible to Parliament.

Government Departments: Telephone Services

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 2 February 2010, *Official Report*, column 317W, on Government departments: telephone services, if she will place in the Library a full copy of the survey data and report; and what the timetable is for the publication of the summary of results. [318305]

Angela E. Smith: The survey data is currently being validated by Departments and when that is completed a report will be made available. The summary of results is to be included in the next set of documents to be loaded onto the Cabinet Office website.

Lobbying: Regulation

Mr. Maude: To ask the Minister for the Cabinet Office whether her Department's review of the regulation of lobbying included an assessment of membership of the Association of Professional Political Consultants, the Public Relations Consultants Association and the Chartered Institute of Public Relations. [318342]

Angela E. Smith: I refer the right hon. Member to the debate on lobbying in Westminster Hall on 7 January 2010. Membership of the relevant bodies concerned is a matter for the relevant bodies.

Opposition Policies

Mr. Maude: To ask the Minister for the Cabinet Office if she will place in the Library a copy of the guidance note on costing Opposition policies; and on what date that guidance was last updated. [318252]

Tessa Jowell: Guidance on costing the policies of Opposition parties is a long-standing convention that has been followed by successive Governments. The guidance is set out in Volume 1 of the "Directory of Civil Service Guidance". A copy will be placed in the Libraries of the House.

Population

Chris Huhne: To ask the Minister for the Cabinet Office what the population density was of *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland in (i) 1960, (ii) 1970, (iii) 1980, (iv) 1990, (v) 2000 and (vi) 2010; and what estimate she has made of the population density in each of those areas in (A) 2020, (B) 2030 and (C) 2050. [319821]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your question asking what the population density was of (a) England, (b) Scotland, (c) Wales and (d) Northern Ireland in (i) 1960, (ii) 1970, (iii) 1980, (iv) 1990, (v) 2000 and (vi) 2010; and what estimate has been made of the population density in each of those areas in (A) 2020, (B) 2030 and (C) 2050. (319821)

The attached table shows population density, calculated for each mid-year, as requested. Figures for 1960 to the year 2000 are derived using mid-year population estimates and the relevant land area. Figures for 2010 to 2050 are derived using 2008-based national population projections and assume land areas for the UK constituent countries remain constant into the future.

Population density for constituent countries of the United Kingdom for selected years

Persons per sq km

	1960[1]	1970[1]	1980[1]	1990[1]	2000[1]	2010[2]	2020[2]	2030[2]	2050[2]
England	[3]...	353	359	366	378	401	430	459	504
Wales	[3]...	131	136	138	140	145	153	160	168
Scotland	66	67	67	65	65	67	69	71	71

Population density for constituent countries of the United Kingdom for selected years

Persons per sq km

	1960[1]	1970[1]	1980[1]	1990[1]	2000[1]	2010[2]	2020[2]	2030[2]	2050[2]
Northern Ireland	105	113	113	118	124	133	141	147	153

[1] Population densities are derived using mid-year population estimates and the relevant land area.

[2] Population densities are derived using 2008-based population projections, assuming constant land area for the UK constituent countries into the future.

[3] Population estimates for 1960 are not available, separately for England and Wales.

Office for National Statistics, General Register Office for Scotland and Northern Ireland Statistics and Research Agency

Self-employed: Milton Keynes

Mr. Lancaster: To ask the Minister for the Cabinet Office how many people were recorded as self-employed in Milton Keynes in each year since 1997. [319009]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your Parliamentary Question asking how many people were recorded as self-employed in Milton Keynes in each year since 1997. I am replying in his absence. (319009)

The Office for National Statistics (ONS) compiles employment statistics for local

areas from the Annual Population Survey (APS) and its predecessor the Annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions.

Table 1 shows the number of self-employed persons resident in Milton Keynes for the 12 month periods ending in February 1998 to 2004 from the Annual LFS and for the

12 month periods ending in March 2005 to 2009 from the APS. The latest available estimate, for the 12 months ending June 2009 from the APS, has also been included.

As with any sample survey, estimates from the APS and Annual LFS are subject to a margin of uncertainty. A guide to the quality of the estimates is given in table 1.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at

http://www.nomisweb.co.uk

Table 1: Number[1] of self-employed persons resident in Milton Keynes

	Thousand
February 1998	13
February 1999	10

March 2007	12
March 2008	10
March 2009	12
June 2009	***11

[1] Coefficients of Variation have been calculated as an indication of the quality of the estimates. See Guide to Quality below

Guide to Quality:

The Coefficient of Variation (CV) indicates the quality of an estimate, the smaller the CV value the higher the quality. The true value is likely to lie within +/- twice the CV—for example, for an estimate of 200 with a CV of 5% we would expect the population total to be within the range 180-220

KEY Coefficient of Variation (CV)(%) Statistical Robustness

* $0 \leq CV < 5$ Estimates are considered precise

** $5 \leq CV < 10$ Estimates are considered reasonably precise

*** $10 \leq CV < 20$ Estimates are considered acceptable

**** $CV \geq 20$ Estimates are considered too unreliable for practical purposes

Annual Population Survey/Annual Labour Force Survey

Social Mobility

Mr. Sanders: To ask the Minister for the Cabinet Office (1) what assessment she has made of the effect on individual social mobility of previous criminal convictions; [318752]

(2) if she will take steps to increase the level of social mobility for those with previous convictions. [319419]

Angela E. Smith: The Government are committed to building fairer chances for everyone to succeed in the new economy by boosting social mobility in the U.K. The Government's approach to social mobility takes a holistic view and considers the early years support, schooling, training and academic study, family life and community empowerment, all as being very important in shaping aspirations and achievements of individuals. While those who have criminal convictions have not been the specific focus of this work, the Government's approach aims to support everyone to achieve their potential.

Teenage Pregnancy

Tim Loughton: To ask the Minister for the Cabinet Office how many pregnancies of girls aged between 15 and 19 years there were in England in each year since 1987. [319363]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Dennis Roberts:

The Director General for the Office for National Statistics has been asked to reply to your recent question asking the Minister for the Cabinet Office, how many pregnancies of girls aged between 15 and 19 years there were in England in each year since 1987. I am replying in his absence. (319363).

Figures on conceptions are estimates based on the number of live births, stillbirths or legal abortions. They do not include miscarriages and illegal abortions.

The table attached provides the number of conceptions among girls aged 15 to 19 years in England in each year from 1992 to 2008 (the most recent year for which figures are available). Comparable figures for 1987 to 1991 are not readily available.

Conceptions[1] to women aged 15 to 19 years[2] in England[3], 1992-2008[4]

Number of conceptions

	Age at conception					
	15	*16*	*17*	*18*	*19*	*Total*
1992	4,870	11,148	17,269	23,627	28,853	85,767
1993	4,786	10,322	16,371	21,948	26,255	79,682
1994	5,103	10,602	15,901	21,192	25,036	77,834
1995	5,435	11,553	16,334	20,973	24,715	79,010
1996	5,984	13,318	19,028	22,581	25,630	86,541
1997	5,508	13,118	19,638	24,048	25,410	87,722
1998	5,612	12,820	20,414	26,213	27,822	92,881
1999	5,281	12,477	19,362	24,888	28,311	90,319
2000	5,472	12,323	18,757	24,518	28,263	89,333
2001	5,241	12,232	18,759	24,169	27,488	87,889
2002	5,275	12,672	19,283	24,330	27,529	89,089
2003	5,466	12,485	19,510	24,983	28,071	90,515
2004	5,205	12,779	19,633	25,647	29,815	93,079
2005	5,435	12,531	19,800	26,287	30,110	94,163
2006	5,401	12,301	19,539	26,768	30,862	94,871
2007	5,571	12,795	19,853	27,181	32,351	97,751
2008	5,219	12,209	19,434	26,746	31,340	94,948

[1] Figures on conceptions are estimates based on the number of live births, stillbirths or legal abortions. They do not include miscarriages and illegal abortions.

[2] Age at estimated date of conception.

[3] Women usually resident in England. Based on boundaries as of 2009.

[4] Figures for 2008 are provisional.

Unemployment

Mr. Clappison: To ask the Minister for the Cabinet Office pursuant to the answer of 22 February 2010, *Official Report*, columns 167-68W, on unemployment, how many economically inactive people of working age wanted employment in *(a)* each of the last 10 years and *(b)* each of the last eight quarters. [318949]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your Parliamentary Question asking how many economically inactive people of working age wanted employment in (a) each of the last ten years and (b) each of the last eight quarters. I am replying in his absence. (318949)

Estimates of economic inactivity are available from the Labour Force Survey (LFS). In accordance with the International Labour Organization (ILO) definition, people are classed as economically inactive if they are neither in employment nor unemployed.

The estimates provided in the attached table are for economically inactive people of working age who wanted a job. They comprise those who have not been looking for work in the last four weeks, but who say they would like a regular paid job, plus those who have been looking for work but who were unable to start within two weeks. The estimates have been seasonally adjusted.

These estimates are published in Table 13 of the monthly Labour Market Statistical Bulletin.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty. Indications of the sampling variability of LFS aggregate estimates are provided in the Statistical Bulletin.

Economically inactive people of working age[1] who want a job[2], United Kingdom, seasonally adjusted

	Total (thousand)
October to December quarter	
2000	2,228
2001	2,260
2002	2,243
2003	2,123
2004	2,014
2005	2,062
2006	2,095
2007	2,096
Latest eight quarters	
2008	
January to March	2,144
April to June	2,168
July to September	2,129
October to December	2,103
2009	
January to March	2,082
April to June	2,144
July to September	2,251
October to December	2,326

[1] Men aged 16 to 64 and women aged 16 to 59.

[2] Those who had not been looking for work in the four weeks prior to interview but who said they would like a regular paid job, plus those who had been looking for work but had been unable to start within two weeks.

Source:

ONS Labour Force Survey

Mr. MacNeil: To ask the Minister for the Cabinet Office how many people in *(a)* Na h-Eileanan an Iar constituency and *(b)* the UK were unemployed on the latest date for which figures are available. [319017]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your Parliamentary Question asking how many people in (a) Na h-Eileanan an Iar constituency and (b) the UK were unemployed on the latest date for which figures are available. I am replying in his absence. (319017)

The Office for National Statistics (ONS) compiles unemployment statistics for local areas from the Annual Population Survey, following International Labour Organisation (ILO) definitions. However, due to small sample size, no reliable estimate is available for Na h-Eileanan an Iar.

As an alternative, the number of people aged 18 and over claiming Jobseeker's Allowance in January 2010 was (a) 605 people in Na h-Eileanan an Iar constituency and (b) 1.65 million in the United Kingdom (source: Jobcentre Plus administrative system).

National and local area estimates for many labour market statistics, including employment and unemployment, are available from the NOMIS website at:

http://www.nomisweb.co.uk

Voluntary Organisations: Finance

Mr. Maude: To ask the Minister for the Cabinet Office how much her Department plans to spend on the *(a)* V, *(b)* Generations Together, *(c)* Volunteer Management, *(d)* Access to Volunteering, *(e)* Youth Volunteering, *(f)* Volunteer Brokerage, *(g)* Capacitybuilders, *(h)* Futurebuilders and *(i)* other youth programmes in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [318129]

Angela E. Smith: The Cabinet Office has budgeted to spend the following amounts:

£ million

	2009-10	*2010-11*
(a) v	[1]38.1	[1]39
(b) Generations Together	1	1.5
(d) Access to Volunteering	0.65	1.25
(e) Youth Volunteering—Strategic Partners	1.06	1.06
(g) Capacitybuilders[2] and *(c)* Volunteer Management	[3]39.4	[4]32.2
(h) Futurebuilders[2]	53.8	48.4

[1] And up to £15 million through the v match fund, funded from a draw down on the HM Treasury Reserve.

[2] Including Modernisation Fund.

[3] Of which £0.9 million has been allocated to the Volunteer Management programme.

[4] Of which £2.2 million has been allocated to the Volunteer Management programme.

The current spending review period covers from 2008-09 to 2010-11. The Cabinet Office has therefore made no allocations to these programmes beyond March 2011.

There are no further funded youth programmes *(i)*, beyond the allocations to v and the youth volunteering strategic partners.

The Volunteer Brokerage scheme *(f)* is delivered by the Department for Work and Pensions.

Mr. Maude: To ask the Minister for the Cabinet Office how much her Department plans to spend on assistance for *(a)* youth and *(b)* other volunteering and community service in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [318130]

Angela E. Smith: The Cabinet Office has budgeted to spend the following amount on youth volunteering:

(i) 2009-10—£39.16 million (and up to £15 million through the v Match Fund).

(ii) 2010-11—£40.06 million (and up to £15 million through the v Match Fund).

The Cabinet Office has budgeted to spend the following amount on other volunteering and community service:

(i) 2009-10—£9 million.

(ii) 2010-11—£11.6 million.

The current spending review period covers from 2008-09 to 2010-11. The Cabinet Office has therefore made no allocations to these programmes beyond March 2011.

Written Answers to Questions

Tuesday 2 March 2010

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Jim Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs how many single payments were made in each of the last three years for which figures are available; how many such payments were monitored; and in how many cases reductions were made. [318843]

Jim Fitzpatrick *[holding answer 1 March 2010]:* The number of farmers who received payments under the single payment scheme (SPS) in England in respect of each scheme year is set out in the following table:

Farmers

SPS Scheme year	*Number*
2006	106,979
2007	104,589
2008	104,844

Latest figures show that, as at 23 February 2010 over 98,000 farmers have received payment for the 2009 scheme year, the payment window for which closes on the 30 June.

There are a number of farmers who have not received a payment because their claim is still undergoing the necessary validation checks. Some of these claims may result in no payment being due to the claimant once eligibility checks have been carried out.

All claims undergo validation as part of the Rural Payment Agency's regular processes and in addition a minimum of 5 per cent. are inspected, physically or remotely, as required by the EU. For cross compliance purposes, each of the four competent control authorities inspect at least 1 per cent. of farmers receiving payments that are conditional on meeting the cross compliance requirements for which they have responsibility. RPA uses existing cattle and sheep inspection regimes to partly satisfy this obligation.

The number of SPS claims which have been reduced is set out in the following table:

Reductions

SPS Scheme year	*Number*
2006	12,921
2007	13,719
2008	7,748

This includes a very substantial number of minor over-declarations of areas as well as more significant breaches of the scheme rules where we have to apply sanctions.

Jim Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs at which locations the Single Payment Scheme is administered; how many people administer the scheme at each such location; and whether he has any proposals to reduce the number of *(a)* locations and *(b)* staff. [318845]

Jim Fitzpatrick *[holding answer 1 March 2010]:* The Rural Payments Agency (RPA) currently operates from six main offices and there are no plans to reduce that number. RPA reviews, and will continue to review, its operations and resources regularly to ensure customer service is delivered effectively and efficiently. It is anticipated that RPA will reduce the number of staff employed at each office during the 2010-11 year.

Claims under the Single Payment Scheme are currently processed at RPA's offices in Exeter, Northallerton, Newcastle, Workington and Carlisle. Plans have recently been announced to transfer SPS processing from Newcastle to the Workington, Carlisle and Northallerton offices.

Staff at RPA's Reading office no longer process SPS claims but are involved in different aspects of administering the scheme.

At the end of January 2010 the number of full-time equivalent staff involved in administering the Single Payment Scheme is:

Staff

Location	*Number*
Reading	147.51
Exeter	201.85
Northallerton	385.67
Newcastle	232.89
Workington	244.03
Carlisle	259.53
Total	1,471.48

Note: These figures do not include Inspectorate or Finance staff.

RPA operates a flexible resourcing model and staff reductions are usually achieved through the reductions of temporary and fixed term appointments with regular consultation taking place with people and trade unions on any planned staff reductions.

Dangerous Dogs Act 1991

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many dogs have been seized under the provisions of the Dangerous Dogs Act 1991 in each of the last five years. [319984]

Jim Fitzpatrick: Figures for the number of dogs seized under the Dangerous Dogs Act 1991 are not collected centrally.

Departmental Paper

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320039]

Dan Norris: From information held centrally the Department's contracted suppliers for (i) and (ii) are The Paper Company and Banner Business Supplies Ltd.

From information held centrally the only brands for (i) and (ii) that could be identified are 100 per cent. recycled (Post Consumer Waste) Evolve Office and Evolve Business A4 80gsm copier paper.

In the financial year 2008-9 Core DEFRA purchased a total of 45,124 reams of white A4 80gsm copier paper at an average purchase price of £2.09 excluding VAT.

DEFRA's procurement policy requires use of recycled paper and paper products that meet the Quick Wins targets set by the Government in October 2003. The only exceptions to these standards would be where recycled paper or recycled products are not available for a specific process e.g. security paper. DEFRA is giving active consideration to achieving the 100 per cent. target for all paper it buys except in cases of specific process need.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs how many households in England had *(a)* black sack and *(b)* wheeled containers for residual waste in each year since 2000. [319620]

Dan Norris: The following table shows the number of dwellings in England that received a black bag or wheeled bin collection for residual waste from 2005-06 to 2008-09.

	Number of dwellings	
	Black sacks ( )	*Wheeled bins*
2008-09	2,928,662	14,893,442
2007-08	3,235,010	14,322,766
2006-07	3,581,016	13,611,652
2005-06	3,548,163	12,702,631

Source:
WasteDataFlow

For the years 2000-01 to 2003-04 the only data available shows the percentage of dwellings in England that received black bag or wheeled bin collection. For each local authority, all of its households were classified using the method of containment that was provided to more than 50 per cent. of households in that authority, hence these figures are subject to some uncertainty. The dwelling stock data for England for those years is provided.

	Percentage of dwellings		
	Black sacks	*Wheeled bins*	*Dwelling stock (31 March of financial year)*
2003-04	23	58	21,636,000
2002-03	25	55	21,481,000
2001-02	21	52	21,337,000
2000-01	26	51	21,207,000

Sources:
Municipal Waste Management Survey, Department for Communities and Local Government website (Table 109)

Data for 2004-05 is not available due to the introduction that year of WasteDataFlow and there only being a 50 per cent. response rate from local authorities.

Local Government: Statistics

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what datasets not in the national indicator set *(a)* his Department and *(b)* the Environment Agency regularly collects from local authorities. [319623]

Dan Norris: I refer the hon. Member for Peterborough to the answer given in response to the same question that he asked on 4 February 2010, *Official Report*, column 452W.

Members: Correspondence

Miss Widdecombe: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to reply to the letters of 20 November 2009 and 22 January 2010 from the right hon. Member for Maidstone and The Weald. [319542]

Jim Fitzpatrick *[holding answer 1 March 2010]:* Unfortunately we can find no record of having received the right hon. Member's letter of 20 November 2009.

A reply to her letter of 22 January 2010 is being prepared, and will be sent shortly. I apologise for the delay in responding.

Rural Payments Agency: Location

Jim Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs at which locations the Rural Payments Agency has had offices in each year since 2005; and how many staff the agency employed at each such office in each such year. [318846]

Jim Fitzpatrick *[holding answer 1 March 2010]:* The following table shows the number of full-time equivalent staff the Rural Payments Agency (RPA) has directly employed in each of its locations since 2005. Numbers reported are as at 31 March in each financial year and are in line with the agency's 'Annual Civil Service Employment Survey' return to the Office for National Statistics which is published as part of the annual civil service statistics report.

Location	*2005*	*2006*	*2007*	*2008*	*2009*
RPA main offices					
Carlisle	353.51	401.78	399.74	395.57	393.76
Exeter	429.78	311.25	415.41	440.68	383.38
Newcastle	476.32	459.49	517.44	405.80	451.03
Northallerton	432.89	360.59	484.09	477.80	506.63
Reading	721.81	639.90	637.34	578.74	566.04
Workington	447.31	526.15	765.14	691.52	631.52
RPA outstations	490.89	278.61	370.45	356.84	336.53
Total	3,352.51	2,977.77	3,589.61	3,346.95	3,268.89

These figures include part-time and full-time employees of the agency and do not include agency staff and contractors.

The outstations are generally shared premises with DEFRA and/or other Government Departments and are located across the United Kingdom. The number of outstations is currently 48 but has varied from 33 and 56 between 2005 and 2009 with the merger of the Horticultural Market Inspectorate into RPA in April 2006.

Jim Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs if he has any proposals to reduce the number of *(a)* Rural Payments Agency offices and *(b)* staff employed at each such office. [318847]

Jim Fitzpatrick *[holding answer 1 March 2010]*: The Rural Payments Agency (RPA) currently operates from six main offices and there are no plans to reduce that number.

RPA reviews, and will continue to review, its operations and resources regularly to ensure customer service is delivered effectively and efficiently. It is anticipated that RPA will reduce the number of staff employed at each office during the 2010-11 year.

Plans have recently been announced to transfer SPS processing from Newcastle to the offices at Northallerton, Carlisle and Workington.

RPA operates a flexible resourcing model and staff reductions are usually achieved through the reductions of temporary and fixed term appointments with regular consultation taking place with people and trade unions on any planned staff reductions.

Waste Disposal: EU Action

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions his Department had with the European Commission on proposals to establish an EU waste implementation agency. [319624]

Dan Norris: The European Commission invited member states, industry stakeholders and non-governmental organisations to attend informal workshops on the possibility of establishing a waste implementation agency on 2 April and 14 September 2009.

DEFRA officials attended both workshops. The Commission, via consultants, also invited member states to respond to an informal questionnaire on the feasibility of establishing such an agency. The UK responded to that questionnaire in April 2009.

Waste Improvement Network: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has given to the Waste Improvement Network in each year since the network's inception; and how much it plans to contribute in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [319666]

Dan Norris: Communities and Local Government (CLG) and DEFRA have funded the Waste Improvement Network (WIN) as detailed in the table over a five-year period:

	Funding Source	*£*
2006-07	CLG (through Regional Improvement and Efficiency Partnerships funding - RIEP)	89,700
2007-08	DEFRA (direct grant)	100,000
2008-09	DEFRA (direct grant)	85,000
2009-10	85% DEFRA (direct grant), 15% CLG (through RIEP funding)	100,000
2010-11	85% DEFRA (direct grant), 15% CLG (through RIEP funding)	100,000

No budget has been set for 2011-12.

NORTHERN IRELAND

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Northern Ireland what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319098]

Paul Goggins: The Northern Ireland Office (NIO) participated in Earth Hour 2009 by asking the management in each of its buildings to take every possible step to ensure that no unnecessary lighting was left on. This is our aim at all times.

The NIO have appointed a Green Champion who intends to issue a similar message for this year's Earth Hour event which takes place on 27 March 2010 at 8.30 pm.

CULTURE, MEDIA AND SPORT

Digital Broadcasting: Northern Ireland

Christopher Fraser: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the cost to the public purse of improving digital coverage in Northern Ireland before the digital switchover; and from what budget that cost will be met. [319473]

Mr. Bradshaw: As set out in the recently published Digital Britain White Paper, the Government recognise that building out a digital audio broadcasting (DAB) infrastructure which meets the needs of broadcasters, multiplex operators and listeners, including improving the quality of the signal, will require additional investment. However, the digital radio upgrade programme, alongside the proposals on co-location and licence-renewals, will offer significant cost-savings for commercial broadcasters, some of which must support investment in improving coverage.

In areas where the BBC's need to deliver universal access is not matched by the economic realities of the local commercial market, the BBC will need to bear a significant portion of the costs. The full cost cannot be left to the BBC alone. Where possible, the BBC and national commercial multiplex operators should work together to ensure that any new transmitters benefit both BBC and commercial multiplexes. Partnerships between the BBC and commercial local multiplex operators will be even more important at a local DAB level.

We will work with the BBC, transmission providers and Ofcom to agree a plan for the extension and improvement of local DAB coverage, and where the cost would most appropriately fall.

Christopher Fraser: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the proportion of households in Northern Ireland with access to *(a)* national DAB services from the BBC and *(b)* commercial DAB services provided at (i) national and (ii) local level; [319474]

Mr. Bradshaw: DAB coverage is principally measured by population rather than geographic area. Approximately 90 per cent. of the UK population currently have some access to DAB services on at least one multiplex.

DAB coverage in Northern Ireland is estimated at around 87 per cent. of the population. Listeners in Northern Ireland can access up to 23 DAB stations, including the 11 national BBC stations plus BBC Radio Ulster/Foyle, four national commercial stations (Classic FM, talkSPORT, BFBS and Amazing Radio), and six local commercial stations.

In Northern Ireland, the BBC national multiplex was extended in April 2009, with a new transmitter installed at Armagh, adding coverage for an estimated 80,000 people, improving reception for around 200,000 more in the area. The other four transmitter sites in Northern Ireland are at Divis, Brougher Mountain, Limavady and Sheriff's Mountain in Derry/Londonderry.

Christopher Fraser: To ask the Secretary of State for Culture, Media and Sport whether he plans to expand digital capacity in Northern Ireland to allow stations currently available on analogue to provide digital services before the digital switchover. [319476]

Mr. Bradshaw: The Government have tabled an amendment to the draft Digital Economy Bill which would allow the existing national commercial multiplex to extend its coverage into Northern Ireland. This would double the capacity available for digital commercial services in Northern Ireland.

Christopher Fraser: To ask the Secretary of State for Culture, Media and Sport whether he has made an estimate of the number of local commercial radio stations in Northern Ireland without a digital migration pathway. [319477]

Mr. Bradshaw: No specific assessment has been made of the impact of the radio provisions set out in the draft Digital Economy Bill on local commercial stations remaining on FM after the digital radio switchover. However, my Department is in regular dialogue with the industry with the specific purpose of ensuring that local radio can continue to thrive on FM after the digital radio switchover.

Listed Events Review

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what representations he has received from Ofcom in respect of the David Davies review of listed events. [319786]

Mr. Bradshaw *[holding answer 1 March 2010]:* The Government's statutory consultation on free-to-air listed events has been extended until 19 March. A response from Ofcom has not as yet been received. Subject to any issues relating to confidentiality, responses to the consultation will be published on the Department's website in due course.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 8 February 2010, *Official Report*, column 664W, on sports: television, what mechanisms will be used to resolve differences of opinion over the market value of listed events. [319838]

Mr. Bradshaw *[holding answer 1 March 2010]:* The David Davies review of listed events acknowledged the potential impact of listing on the market value of the broadcasting rights to an event. The Government's statutory consultation invites sporting bodies to submit evidence of such impact. Where credible evidence is provided, I will take it into account in assessing the overall economic impact on the sport in the event of a particular event being listed.

Olympic Games 2012: Culture

Sir Nicholas Winterton: To ask the Secretary of State for Culture, Media and Sport what the budget is for the Cultural Olympiad. [318853]

Margaret Hodge *[holding answer 1 March 2010]:* The major projects and the UK-wide cultural festival of the Cultural Olympiad provide opportunities across the UK to celebrate the best of British culture. Facilitated by the London Organising Committee of the Olympic and Paralympic Games, projects are delivered and funded in partnership with a range of public and private partners for example the Olympic Lottery Distributor, national Arts Councils and the Legacy Trust UK.

Approximately £72 million has been invested in funding and facilitating the Cultural Olympiad's major projects (three of which have been launched already) and the UK wide cultural festival. In addition to this funding, nearly 150 self-funded cultural projects have already been awarded the London 2012 Inspire Mark.

Public Libraries

Mr. Stewart Jackson: To ask the Secretary of State for Culture, Media and Sport what timetable he has set for the proposed ending of the statutory requirement on local authorities to provide a comprehensive and efficient library service. [319730]

Margaret Hodge: There are no plans to end the statutory requirement on local authorities to provide a comprehensive and efficient library service. It is this statutory basis which has protected and sustained the vital role of libraries in our communities.

HOUSE OF COMMONS COMMISSION

Members: Expenses

Mr. Hands: To ask the hon. Member for North Devon, representing the House of Commons Commission how much was paid to Detica as part of the investigation into the leaking of hon. Members' expenses files in 2009. [318945]

Nick Harvey: No payment has been made to date for a specific piece of work in connection with the internal inquiry into the unauthorised disclosure of information on Members' allowances.

Parliament: Energy

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how many annunciator screens have been replaced for each reason in the last 12 months; and at what cost those screens were replaced. [319052]

Nick Harvey: It is not possible to identify the number in House of Commons areas but 32 faulty television sets carrying the annunciator have been replaced across the estate, including House of Lords areas, in the last 12 months, the House of Commons share of the cost being some £5,250.

OLYMPICS

Olympic Games: Canada

Mr. Hunt: To ask the Minister for the Olympics how much the Government Olympic Executive spent on travel for *(a)* officials and *(b)* Ministers to the Vancouver 2010 Winter Olympics. [318969]

Tessa Jowell *[holding answer 1 March 2010]:* GOE has not yet received all the invoices for officials' costs.

Details of ministerial travel costing over £500 are published annually and include the cost, destination and purpose of the trip. It also provides information on the number of officials who accompany Ministers, and their costs are included in this return. The most recent list was published in July 2009 and the details of attendance at the Vancouver 2010 Winter Olympic games will be included in the 2010 return.

SCOTLAND

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for Scotland how many of his Department's officials were classified as working in *(a)* England and *(b)* Scotland in each of the last three years; how many are so classified in 2010 to date; and how much his Department spent on staff salaries in each quarter of 2009. [319586]

Ann McKechin: The Scotland Office does not classify staff as working in England or Scotland. The Office has staff in London and Edinburgh, some of whom travel regularly between London and Scotland as business needs demand. Scotland Office annual reports, which are available on our website, provide staffing information. Expenditure on staff salaries is not available in the form requested.

TRANSPORT

A12: Safety

Mr. Burns: To ask the Minister of State, Department for Transport what plans he has to *(a)* upgrade, *(b)* improve safety and *(c)* relieve congestion on the A12 between its junction with the M25 and Witham; and if he will make a statement. [319082]

Chris Mole: Following the then Secretary of State for Transport's announcement in November 2008 that the Department for Transport would invest up to £60 million in introducing new traffic management measures to improve safety, reduce delays and tackle congestion along 54 miles of the A12, the Highways Agency has begun to implement a programme of schemes to do this.

The Department for Transport has recently commissioned consultants to undertake the London to Haven ports national networks study. This is to understand and identify measures to address the issues on the strategic routes between London and the Haven ports, including the A12.

Aviation: Public Lavatories

Mr. Greg Knight: To ask the Minister of State, Department for Transport if he will make it a legal requirement for commercial passenger airlines to provide free lavatory facilities for passengers on all international flights using UK airports. [319702]

Paul Clark: There is no international requirement for airlines to provide lavatory facilities for passengers. Airlines do however provide these facilities for free. We are not aware of any airlines who are not currently doing this.

Therefore we see no reason for regulatory intervention at present.

Bus Services: Concessions

Mr. Hoyle: To ask the Minister of State, Department for Transport how much his Department has spent on national concessionary bus travel for pensioners since the scheme's introduction in *(a)* Chorley, *(b)* Lancashire and *(c)* England. [319338]

Mr. Khan: From April 2008, the Department for Transport has provided additional special grant funding to local authorities to cover the extra cost of providing the extension to the concession; which now guarantees free off-peak local bus travel across England to all eligible older and disabled residents:

(a) £275,041 in 2008-09 and £281,528 in 2009-10 to Chorley borough council;

(b) A total of £5,608,371 in 2008-09 and £5,740,644 in 2009-10 to all of the travel concession authorities (TCAs) in the county of Lancashire (which includes Blackburn with Darwen council borough council and Blackpool council);

(c) A total of £212 million in 2008-09 and £217 million in 2009-10 to the whole of England.

The Department for Communities and Local Government continues to provide the bulk of concessionary travel funding to local authorities through formula grant. Before 1 April 2008, funding for the statutory minimum bus concession was provided exclusively through the formula grant system.

The Department for Transport did however provide £31 million of grant to England in 2007-08 for the cost of producing and issuing the new England-wide bus passes to all those eligible, of which a total of £1,121,352 went to the TCAs of Lancashire; this includes Chorley's allocation of £69,004.

Bus Services: Greater Manchester

Graham Stringer: To ask the Minister of State, Department for Transport what estimate he has made of the contribution which will be made from the public purse to the Greater Manchester cross-city bus travel scheme in the next 12 months. [319434]

Mr. Khan *[holding answer 1 March 2010]*: Officials are currently assessing the business case and a decision on whether to grant initial funding approval will be made in due course.

Dartford-Thurrock Crossing: Tolls

Mr. Evans: To ask the Minister of State, Department for Transport what plans he has to introduce a facility for payment of tolls by credit or debit card at the Dartford-Thurrock river crossing. [319789]

Chris Mole: The Department for Transport is committed to improving the levels of service experienced by users of the Dartford crossing.

In April 2009, the Department published its initial analysis of the current and possible future capacity constraints at the Dartford-Thurrock river crossing. On the basis of the findings and conclusions of the analysis, we announced further work to investigate what can be done in the short to medium term to improve the level of service provided by the existing crossing. This includes looking into ways to increase efficiency through the use of new technology.

The introduction of payment by credit or debit cards could be considered if it were demonstrated that this would be both cost effective and would not adversely impact on transaction times.

Driving Under Influence: Accidents

Mr. Don Foster: To ask the Minister of State, Department for Transport how many and what proportion of road deaths in each local authority area involved at least one driver with a blood alcohol level in excess of the legal limit in each of the last five years for which figures are available. [320048]

Paul Clark: The information requested is not available by local authority area.

However, further information about alcohol-related accidents can be found in the Drink drive articles, in 'Reported Road Casualties Great Britain', at:

http://www.dft.gov.uk/pgr/statistics/datatablespublications/accidents/casualtiesgbar/

East Coast Railway Line

John Mann: To ask the Minister of State, Department for Transport how many fewer train services will run on the east coast main line to and from *(a)* Retford and London and *(b)* Retford and Leeds in the next timetable period compared to current service levels; and how many more train services will run to and from London and Leeds over the same periods. [318897]

Chris Mole: The Government have not specified, and does not expect, any changes to the current east coast main line train services at Retford to take place for the next timetable period, commencing in May 2010. The rail industry is developing a new east coast main line timetable for introduction in May 2011.

EC Transport Policy

Mr. Greg Knight: To ask the Minister of State, Department for Transport how many other nations shared the UK position at the meeting of EU Transport Ministers on 12 February 2010 in La Coruña, Spain that the European Commission action plan on urban mobility should not lead to further legislation; and if he will make it his policy that UK cities and regions will retain the freedom to implement locally relevant solutions. [319705]

Mr. Khan: A significant number of member states shared the UK position by supporting the action plan, but making clear that it should not lead to any new legislation and that the principle of subsidiarity should be respected. Twelve other Ministers explicitly made this point during their interventions.

It is Government policy that cities and regions should have the freedom to implement locally relevant solutions.

Immobilisation of Vehicles

Mr. Greg Knight: To ask the Minister of State, Department for Transport how many vehicles were impounded for unpaid vehicle excise duty in each of the last three years. [319703]

Paul Clark: The following table shows the number of vehicles impounded for unpaid vehicle excise duty in the United Kingdom for each of the last three years.

	Number of vehicles impounded
2007	73,798
2008	63,059
2009	56,604
Total	193,461

Metronet

Mr. Touhig: To ask the Minister of State, Department for Transport (1) what assessment his Department has made of the performance of Metronet against its objectives since its transfer to Transport for London; and what recent discussions his Department has had over its long-term future; [318148]

(2) what recent assessment his Department has made of the performance of Tube Lines against its objectives. [318150]

Mr. Khan: When the London Underground public private partnership (PPP) was established in 2003, performance measurements were put in place to enable London Underground to assess the performance of Metronet and Tube Lines. The performance reports are available on Transport for London's (TfL) website. My officials meet regularly with TfL, London Underground and Tube Lines to discuss a range of issues, including performance.

My written ministerial statement of 29 October 2009, *Official Report*, column 28W, set out new contracting and scrutiny arrangements for the ex-Metronet investment programme. I expect members of the new TfL independent advisory panel to be appointed shortly from a shortlist agreed with the Secretary of State.

Parking: Disabled

Mr. Sanders: To ask the Minister of State, Department for Transport what mechanism is available to enable disabled people to challenge service providers who do not meet the requirements of the Disability Discrimination Act 2005 in respect of the adequacy of the provision of parking spaces reserved for use by people with disabilities. [318928]

Mr. Khan: Part 3 of the Disability Discrimination Act 2005 enables disabled people to challenge service providers to improve the services they offer to disabled people. Disabled people who think they may have been discriminated against can contact the Equality and Human Rights Commission for information on what they need to do.

Railways: Overcrowding

Mr. Burns: To ask the Minister of State, Department for Transport what progress has been made on reducing levels of overcrowding on the passenger rail service between Chelmsford and London Liverpool Street; and if he will make a statement. [319083]

Chris Mole: The Department for Transport and National Express East Anglia entered into a deed of amendment to the National Express East Anglia franchise agreement on 1 April 2009. As part of this agreement, from 14 December 2009, nine services a day between Chelmsford and London Liverpool Street have been extended by four carriages, providing essential new capacity during the morning and evening peaks on the Great Eastern main line.

In addition to this, additional and lengthened Great Eastern Mainline services are due to be introduced in December 2010 and May 2011. The precise calling pattern for these services is due to be finalised between National Express East Anglia and Network Rail in mid-March 2010.

Railways: Rugby

Jeremy Wright: To ask the Minister of State, Department for Transport if he will encourage train operating companies to increase the provision of rail services between Rugby and Scotland and the north-west of England; and if he will make a statement. [319381]

Chris Mole: The existing west coast franchise is due to end in March 2012. Consultation on the detail of the next west coast franchise will commence 15 to 18 months beforehand. Train operating companies and stakeholders are free to come forward with proposals.

Roads: Snow and Ice

Mr. Burns: To ask the Minister of State, Department for Transport what assistance the Government are giving to *(a)* Essex county council and *(b)* other local authorities to repair potholes and damage to road surfaces following the severe weather in the last two winters; and if he will make a statement. [319364]

Mr. Khan: The Department for Transport has published guidance on its emergency capital highway maintenance funding scheme. Authorities, including Essex county council, may submit a claim for emergency funding to repair damage to their roads which they consider was caused by the recent severe weather. The Department will carefully consider claims that are received.

Stagecoach Group: Judicial Review

Mr. Cameron: To ask the Minister of State, Department for Transport what the status is of the judicial review in relation to Stagecoach and concessionary bus fares. [318577]

Mr. Khan: The major issues relating to the judicial reviews by bus operators in the Stagecoach and Go-Ahead groups, concerning the concessionary bus travel scheme, were heard at a preliminary hearing in the High Court from 17-20 November 2009. The court's judgment was handed down on 16 February 2010. The judge declined the operators' request for various declarations that would have fundamentally changed the reimbursement arrangements for concessionary travel.

There were also a number of more technical issues that were included in the original applications for judicial review by Stagecoach and Go-Ahead that were not considered at the November hearing. We are waiting to hear whether the operators decide to pursue these issues in the light of the judgment.

The High Court declined permission for the operators to appeal to the Court of Appeal.

The Secretary of State conceded prior to the hearing that the appeal determinations in 2007-08 should not have specified payment of a fixed amount to the operator in advance of the financial year end. These appeals will be re-determined in due course.

Tube Lines

Mr. Touhig: To ask the Minister of State, Department for Transport what discussions his Department has had with the Mayor of London on the future role of Tube Lines in the maintenance, renewal and upgrading of the London Underground network. [318149]

Mr. Khan: Departmental officials have had no discussions with the Mayor of London on the future role of Tube Lines. Ministers have regular meetings with the Mayor at which a wide range of transport matters are discussed.

Vehicles: Registration

Laura Moffatt: To ask the Minister of State, Department for Transport how many drivers disputed a claim by the Driver and Vehicle Licensing Agency that they had not submitted a statutory off-road notification certificate in the latest period for which figures are available. [319565]

Paul Clark: Information relating to how many drivers disputed a claim by the Driver and Vehicle Licensing Agency that they had not submitted a statutory off-road notification is not held.

Mr. Greg Knight: To ask the Minister of State, Department for Transport how many vehicles built before 1 January 1973 there were registered in the UK in *(a)* 1997, *(b)* 2003 and *(c)* 2009. [319704]

Paul Clark: The following table gives the number of vehicles (rounded to the nearest hundred vehicles) licensed in Great Britain on 31 December 1997, 2003 and 2008 which were manufactured before 1 January 1973.

As at 31 December each year	*Known to be manufactured before 1 January 1973*
1997	523,500
2003	493,800
2008	473,100

There are a number of vehicles known to be used before their date of first registration in Great Britain whose date of manufacture is unknown. At 31 December 2008 there were 51,000 such vehicles. It is likely that the large majority of these are modern imported vehicles, but a small proportion may have been manufactured before 1973.

Data are not yet available for vehicles licensed on 31 December 2009.

The Department does not hold data on vehicles licensed in Northern Ireland.

TREASURY

Child Benefit: Glasgow

Mr. Bain: To ask the Chancellor of the Exchequer how many parents and guardians in Glasgow North-East constituency have received child benefit since 2004. [319972]

Mr. Timms: Information on the number of households benefiting from child benefit, by each parliamentary constituency, from 2004 to 2007 is published in the HMRC publication "Child Benefit Statistics. Geographical Analyses,August 2007", available at:

http://www.hmrc.gov.uk/stats/child_benefit/chb-geog-aug07.pdf

A breakdown of this information by parents and guardians is not available, as HMRC does not hold this information.

Community Infrastructure Levy

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer whether his Department has classified community infrastructure levy as a form of taxation. [319631]

Mr. Timms: The independent Office for National Statistics (ONS) will decide on the classification of the community infrastructure levy (CIL) in line with European statistical guidance. The ONS will consider the classification of the CIL once regulations to implement CIL are approved by Parliament.

Departmental Energy

Dan Rogerson: To ask the Chancellor of the Exchequer what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319102]

Sarah McCarthy-Fry: HM Treasury supported the World Wide Fund for Nature's 'Earth Hour' initiative in 2009, and this year will also be encouraging staff to switch off non-essential electrical equipment and lights on 27 March.

Departmental Pay

Dr. Cable: To ask the Chancellor of the Exchequer pursuant to the answer of 7 January 2010, *Official Report*, column 563W, on departmental pay, how many and what proportion of staff of his Department received both an annual performance bonus and an in-year bonus in 2008-09; what the largest combined bonus payment to an individual was; what proportion of staff received no bonus; and who was responsible for awarding such bonuses. [313131]

Sarah McCarthy-Fry: Non-consolidated awards are paid in two circumstances. First, performance awards are those linked to the annual staff appraisal system. Directorates are responsible for setting up performance review teams to award non-consolidated awards as part of the appraisal process.

Secondly, special bonuses are those paid to recognise exceptional performance for specific contributions or pieces of work during the year or situations outside the normal expectations of the post. Directorates are also responsible for the award of special bonus awards.

In 2008-09, 15 per cent. of full-time equivalent staff in post (191 individuals) were paid both a performance award and a special bonus, with the largest combined bonus payment to an individual being £14,000, with 39 per cent. of staff in post receiving neither a performance award nor a special bonus.

The permanent secretary is responsible for awarding bonuses, with the exception of his own, which is the responsibility of the Cabinet Secretary.

Departmental Theft

Mr. Watson: To ask the Chancellor of the Exchequer how many thefts from his Department have been recorded in the last two years. [318991]

Sarah McCarthy-Fry: The numbers of thefts from the Department recorded in the last two calendar years are four in 2008 and six in 2009.

Empty Property

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer what definition of the term *(a)* actual and *(b)* vacant is used for the purposes of property returns for the e-PIMS database; and what proportion of central Government property is recorded on that database. [319805]

Ian Pearson: The definitions of the terms vacant and actual are only used in the context of vacant space recorded on e-PIMS. Space that is vacant remains the responsibility of the owning department. Actual vacant space refers to space that is currently available, as opposed to potential vacant space (that might become available in the future but no specific date has been identified) or future vacant space (that is planned to be available at a specific date).

100 per cent. of property records within the mandated estate are entered on e-PIMS.

Excise Duties: Alcoholic Drinks

Dr. Fox: To ask the Chancellor of the Exchequer how much revenue has accrued to the Exchequer from duty on sales of cider in each year since 2005. [319517]

Sarah McCarthy-Fry: Historical receipts of duty collected from cider can be found in table 2 of the HM Revenue and Customs Beer and Cider Duties Bulletin, available at:

https://www.uktradeinfo.com/index.cfm?task=bullbeer

Government Departments: Carbon Emissions

Mr. Amess: To ask the Chancellor of the Exchequer what progress has been made against the 2006 target to reduce carbon emissions from road vehicles used for Government administrative operations by 15 per cent. by 2010-11 relative to 2005-06 levels. [319344]

Ian Pearson: Government have a target to reduce carbon emissions from road vehicles used for administrative purposes by 15 per cent. by 2010 relative to a 2005-06 baseline. Overall the Government are on track to achieve this target, the current overall reduction against the baseline year is 17 per cent. Data supporting this delivery figure have been supplied by Departments and published. The latest assessment of Government's performance against this target was published by the Office of Government Commerce (OGC) on 18 December 2009, and is available on the OGC website:

http://www.ogc.gov.uk/sustainability_programme_progress.asp

Inheritance Tax: Dundee

4

Stewart Hosie: To ask the Chancellor of the Exchequer what revenue accrued to the Exchequer from inheritance tax levied on estates in Dundee, East constituency in the last five years. [319568]

Mr. Timms: The information is not currently available at a constituency level. Inheritance tax data are based on a UK-wide sample of cases which is designed to produce national level figures and the size of the sample means that HMRC cannot reliably estimate tax receipts below a regional level.

Inheritance Tax: Housing

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer on how many estates in the UK inheritance tax was paid in each year since 1996. [319664]

Mr. Timms: The number of estates on which UK inheritance tax was paid is available at:

http://www.hmrc.gov.uk/stats/tax_receipts/table1-4.xls

Inheritance Tax: Leeds

Greg Mulholland: To ask the Chancellor of the Exchequer how much revenue accrued to the Exchequer from inheritance tax on estates in Leeds, North-West constituency in the last five years. [319490]

Mr. Timms: The information is not currently available at constituency level. Inheritance tax data is based on a UK wide sample of cases which is designed to produce national level figures and the size of the sample means that HMRC cannot reliably estimate the number of taxpayers below a regional level.

Insurance: Buildings

Peter Bottomley: To ask the Chancellor of the Exchequer if he will bring forward proposals to give the Financial Services Authority the power to consider cases of unreasonable buildings insurance premiums charged by freeholders of rented or leasehold property. [319671]

Sarah McCarthy-Fry: Remedies already exist for leaseholders to establish whether or not the insurance premium they are asked to pay or contribute towards by way of service charges is reasonable.

Where a leaseholder considers that a freeholder has overcharged in respect of the building insurance premium (or their contribution towards it), they have a right to take the case to a leasehold valuation tribunal for a determination of the reasonableness of the insurance.

Leave

Mr. Amess: To ask the Chancellor of the Exchequer what the average number of contracted days' paid holiday was in the *(a)* public and *(b)* private sector on each industrial category in the most recent year for which information is available. [318634]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking what the average number of contracted days' paid holiday was in the (a) public and (b) private sector by industrial category in the most recent year for which information is available. (318634)

The latest available estimates of average paid holiday entitlement per year are provided in the attached table. The estimates are derived from data collected in the Labour Force Survey (LFS) in Q4 2009. The distinction between public and private sector is based on the respondent's understanding of the organisation for which they work.

As with any sample survey, the estimates provided are subject to a margin of uncertainty.

Paid holiday entitlement for employees by sector. Three months ending December 2009. United Kingdom, not seasonally adjusted

	Average paid holiday entitlement (days per year)[1]
Public sector[2] Total	29
Private Sector Total	21
Private Sector by main industry[3] sector	
Agriculture, forestry and fishing	19
Energy and water	25
Manufacturing	22
Construction	21
Distribution, hotels and restaurants	18

Paid holiday entitlement for employees by sector. Three months ending December 2009. United Kingdom, not seasonally adjusted

	Average paid holiday entitlement (days per year)[1]
Transport and communication	23
Banking, finance and other business services	22
Public administration, education and health	22
Other services	18
Total[4]	23

[1] Excludes public holidays

[2] Includes nationalised industry or state corporation, central Government, civil service, local government or council (incl. police, fire services and local authority controlled schools or colleges), university or other grant funded educational establishment, health authority or NHS trust and armed forces.

[3] According to the Standard Industrial Classification (SIC) 1992

[4] Includes those whose type of employer was not known.

ONS Labour Force Survey

Non-Domestic Rates: Garages and Petrol Stations:

Robert Neill: To ask the Chancellor of the Exchequer how many petrol retail stations were on the Valuation Office Agency's rating list in 1997; and how many there are on the 2010 rating list. [317803]

Ian Pearson: As the hon. Member will be aware, there have been some significant changes in the structure of petrol retailing over the past 15 years. Petrol filling stations in the 1995 rating lists were identified using Valuation Office Agency (VOA) Special Category (SCAT) code 222.

As at 1 April 1997 there were 11,870 in England and 1,050 in Wales.

In the draft 2010 rating lists petrol filling stations are under SCAT 209.

As at 2 November there were 5,650 in England and 440 in Wales.

Non-Domestic Rates: Retail Trade

Lorely Burt: To ask the Chancellor of the Exchequer what the total rateable value is of hereditaments classified as retail properties; and for how many such properties the rateable value is *(a)* under £5,000, *(b)* between £5,000 and £14,999, *(c)* between £15,000 and £24,999, *(d)* between £25,000 and £49,999, *(e)* between £50,000 and £99,999, *(f)* between £100,000 and £499,999 and *(g)* at least £500,000. [316909]

Ian Pearson *[holding answer 22 February 2010]:* The Valuation Office Agency identifies the various types of property contained in the rating lists by the use of a Specialist (SCAT) code.

These data are consistent with the statistical release titled: "Non-domestic Rateable Values: 2010 Local Ratings Lists—England and Wales", published on 18 December 2009. A copy of the statistical release is available at the following link:

http://www.voa.gov.uk/publications/statistical_releases/VOA_Statistics_Release_Final.pdf

Properties with a 'Retail' SCAT code of 021, 024, 086, 097, 098, 106, 139, 152, 154, 155, 210, 235, 243, 249, 251, 417, 425, 429, 442, 504, 507, 508

	England		Wales		Total

Pension Credit: Leeds

Greg Mulholland: To ask the Chancellor of the Exchequer how many pensioners resident in Leeds, North-West constituency have been contacted as part of his Department's pension credit tax back campaign. [319497]

Sarah McCarthy-Fry: As part of the Taxback campaign announced at Budget 2009, HM Revenue and Customs have contacted all 3.4 million beneficiaries of pension credit to encourage those who are overpaying tax on their bank and building society interest to claim it back and, where eligible, to register to receive future interest payments without tax deducted. The latest information on the number of pension credit beneficiaries (August 2009), shows that there were 3,680 beneficiaries in the Leeds, North-West parliamentary constituency.

Revenue and Customs: Surveillance

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer how many *(a)* requests and *(b)* approvals for authorisation for HM Revenue and Customs to carry out *(a)* property interference, *(b)* intrusive surveillance and *(c)* covert human intelligence sources there have been in each of the last five years. [319632]

Mr. Timms: The Chief Surveillance Commissioner, Sir Christopher Rose, publishes a yearly figure for property interference, intrusive surveillance and covert human intelligence sources for all police forces and other agencies, including HM Revenue and Customs (HMRC), in his annual report to Parliament. Sir Christopher does not break the figure into individual forces or agencies as the sensitivity of the information could lead to criminals assessing the covert capability of each force and agency. This applies equally to HMRC and it is therefore not considered to be in the public interest to make this information available.

Stamp Duty Land Tax

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer what consideration he has given to the merits of restricting firms from using offshore ompanies to avoid stamp duty land tax. [319628]

Mr. Timms: Tax avoidance has the potential to damage he public finances and the provision of public services. HM Revenue and Customs monitors all aspects of tax voidance closely on a continuous basis, advising Ministers ccordingly.

Tax Allowances

Angela Browning: To ask the Chancellor of the Exchequer (1) if he will estimate the cost to the Exchequer in each financial year from 2010-11 to 2013-14 of introducing a transferable personal llowance, limited to the basic rate of income tax, for ll married couples and couples in civil partnerships with children under the age of six; [312934]

(2) if he will estimate the cost to the Exchequer in each financial year from 2010-11 to 2013-14 of ntroducing a transferable personal allowance, limited o the basic rate of income tax, for all married couples and couples in civil partnerships with children under he age of three; [312935]

(3) if he will estimate the cost to the Exchequer in each financial year from 2010-11 to 2013-14 of ntroducing a transferable personal allowance, limited o the basic rate of income tax, for all couples with children under the age of six; [312936]

(4) if he will estimate the cost to the Exchequer in each financial year from 2010-11 to 2013-14 of introducing a transferable personal allowance, limited to the basic rate of income tax, for all couples with children under the age of three. [312937]

(5) if he will estimate the cost to the Exchequer in each financial year from 2010-11 to 2013-14 of introducing a transferable personal allowance, limited to the basic rate of income tax, for all married couples and couples in civil partnerships. [312943]

Mr. Timms *[holding answers 25 and 28 February 2010]:* Due to the complex nature of these questions the following estimates should be treated with caution. These estimates exclude any behavioural response to the change, which could be significant given the magnitude of the change. This has the additional implication of limiting reliable modelling of costs to 2010-11.

The estimated cost in 2010-11 of allowing personal tax allowances to be transferable, limited to the basic rate of income tax, for the specified groups would be:

£0.6 billion for all couples with children under the age of three;

£1.0 billion for all couples with children under the age of six;

£0.5 billion for all married couples and couples in civil partnerships with children under the age of three;

£0.8 billion for all married couples and couples in civil partnerships with children under the age of six;

£4.2 billion for all married couples and couples in civil partnerships.

These estimates have been calculated using HM Treasury's tax and benefit micro-simulation model using Family Resources survey 2007-08 data.

Taxation

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer how many self-assessment forms required clerical action in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009; and for what reasons a self-assessment case may require clerical action. [316950]

Mr. Timms: Information on the circumstances in which clerical action may be required on a self-assessment (SA) return is contained in Her Majesty Revenue and Customs' SA instruction manual, available at:

http://www.hmrc.gov.uk/SA/index.htm

The information requested on how many self-assessment returns required clerical action is available only at disproportionate cost as HMRC's systems do not capture this.

Taxation: Business

Jim Cousins: To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* number of companies which have taken up the three-year carry-back of losses option since its implementation and *(b)* monetary value of trading losses carried forward under section 393 of the Income and Corporation Taxes Act 1988 in (i) 2007-08, (ii) 2008-09 and (iii) 2009-10. [319335]

Mr. Timms: In addition to the unincorporated businesses it has supported, HM Revenue and Customs estimated that approximately 11,000 companies have so far used the temporary extension of loss carry-back for trading losses from one year to three years for losses up to £50,000.

The information requested on the pools of trading losses carried forward are available only at disproportionate cost, as they are not directly available from the 'C7 600 Company Self Assessment Return'.

Valuation Office Agency: Internet

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer on how many occasions the Valuation Office Agency's public website has been offline in the last 12 months. [319634]

Ian Pearson: The Valuation Office Agency's public website has had no unscheduled downtime in the last 12 months. It was offline for scheduled maintenance between 08:00 on 30 May 2009 to 18:00 on 31 May 2009 and 08:00 on 21 November 2009 to 18:00 on 22nd November 2009.

Valuation Office Agency: Manpower

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer how many and what proportion of the Valuation Office Agency's *(a)* staff and *(b)* council tax inspectors are (i) male and (ii) female. [319629]

Ian Pearson: The proportion of the Valuation Office Agency's staff who are male is 55 and 45 are female. Within the generic rating and council tax inspector role, 49 are male and 51 female. These figures are based on data as at 2 February 2010

Valuation Office Agency: North East

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer how many Valuation Office Agency staff in offices in *(a)* the north-east and *(b)* north Lincolnshire worked on the separate rating of port businesses in each year since 1997. [319448]

Ian Pearson: The VOA does not keep records of the number of staff involved in the assessment of separate hereditaments within statutory ports going back to 1997. Staff involved in work on the ports undertake general rating work in other locations and work in other business streams.

VAT: Local Government

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Bromley and Chislehurst of 11 January 2010, *Official Report*, column 783W, on VAT: local government, how much was paid in value added tax refunds to local authorities consequent on judicial rulings in *(a)* 2007-08 and *(b)* 2008-09. [319643]

Mr. Timms: HM Revenue and Customs (HMRC) currently estimates that around £2 million was repaid in 2007-08 to local authorities and around £40 million in 2008-09 in respect of the judgment in Fleming/Conde Nast. HMRC does not routinely collect information on the overall level of refunds to local authorities as a result of litigation rulings.

Welfare Tax Credits: Aberdeenshire

Mr. Salmond: To ask the Chancellor of the Exchequer how many individuals in Banff and Buchan constituency receive tax credits; and what the average weekly level of such credits was in the latest period for which figures are available. [319345]

Sarah McCarthy-Fry: The latest information on the number of households benefiting from tax credits, by each parliamentary constituency, is available in the HMRC snapshot publication "Child and Working Tax Credits Statistics. Geographical Analyses. December 2009", available:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-dec09.pdf

As incomes and entitlements for 2009-10 have yet to be finalised, equivalent information on the average weekly payment is not yet available. The latest information on the average annual payment of tax credits to households, by each parliamentary constituency, is available in the HMRC publication "Child and Working Tax Credits Statistics Finalised annual awards. Geographical analyses 2007-08", available at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-payments-0708.pdf

Welfare Tax Credits: Glasgow

Mr. Bain: To ask the Chancellor of the Exchequer how many people in Glasgow North East constituency have received *(a)* child tax credit and *(b)* working tax credit since 2004. [319971]

Mr. Timms: The latest information on the number of households benefiting from tax credits, by each parliamentary constituency from 2003 to 2009, is available in the HMRC snapshot publication "Child and Working Tax Credits Statistics. Geographical Analyses", available at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

The same information for 2008-09 is not yet available as awards have not yet been finalised. However, estimates of the number of recipient families with tax credits, based on provisional awards, as at 1 December 2009, are available in the HMRC snapshot publication "Child and Working Tax Credits Statistics. Geographical analyses. December 2009", at the same internet address.

HMRC do not produce these statistics separately for child tax credit and working tax credit.

Welfare Tax Credits: Na h-Eileanan an Iar

Mr. MacNeil: To ask the Chancellor of the Exchequer how many people were in receipt of tax credits in Na h-Eileanan an Iar constituency in the latest period for which figures are available; and what the average weekly payment in such credits was in that constituency in that period. [319018]

Sarah McCarthy-Fry: The latest information on the number of households benefiting from tax credits, by each parliamentary constituency, is available in the HMRC snapshot publication "Child and Working Tax Credits Statistics. Geographical Analyses. December 2009", available at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-dec09.pdf

As incomes and entitlements for 2009-10 have yet to be finalised, equivalent information on the average weekly payment is not yet available. The latest available information on the average annual payment of tax credits to households, by each parliamentary constituency, is available in the HMRC publication "Child and Working Tax Credits Statistics Finalised annual awards. Geographical analyses 2007-08", available at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-payments-0708.pdf

WORK AND PENSIONS

Carers' Benefits

Mr. Touhig: To ask the Secretary of State for Work and Pensions in what circumstances an asset owned by a carer in receipt of the carer's allowance may be disregarded for the purposes of an application for income support. [318143]

Jonathan Shaw: Carers are treated in the same way as other income support customers when considering the effect an asset has on income support.

Income support has a lower capital limit of £6,000 (or £10,000 for people permanently living in a care home) above which benefit is reduced and an upper limit of £16,000 above which benefit cannot be paid.

The value of most forms of capital, which includes avings and assets, is counted when calculating entitlement o income support; however, some forms of capital sset are disregarded. Income support rules on treatment f capital are extensive but the most common scenarios re covered as follows.

All personal possessions belonging to an income upport customer are disregarded with the exception of hose acquired by the customer with the intention of educing savings in order to secure entitlement to, or ncrease the amount of, income support.

Certain forms of cash asset are disregarded when alculating entitlement to income support, for example, noney derived from a personal injury compensation ayment that is held in a trust fund. In addition certain other compensation payments are ignored such as payments o the customer made as a result of a person's imprisonment oy the Japanese during the second world war and payments nade to compensate for slave or forced labour during he second world war. Other types of cash asset can also oe ignored; for example, certain lump sum payments for arrears of benefit and payments made by specific trusts and funds that have been set up in order to help people vho have been infected by blood products.

No account is taken of the value of a property that a person occupies as their home, while the value of any second property is normally treated as capital. However, the Government do recognise that there are certain circumstances where it would be impractical and unfair to take the value of a second property into account. An example of this is that, once a property is put up for sale, the value can be ignored for up to 26 weeks, or longer where reasonable steps are being taken to sell it.

Departmental ICT

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how much her Department has allocated for the *(a)* procurement, *(b)* maintenance, *(c)* compliance testing and *(d)* security of information technology systems in 2010-11. [313375]

Jim Knight: The information is not held centrally in the format requested and therefore cannot be provided.

Departmental Internet

Mr. Heald: To ask the Secretary of State for Work and Pensions how many designs for its website her Department has commissioned since 2005. [318638]

Jonathan Shaw: The Department has commissioned one redesign for the DWP Corporate website since 2005. This redesign was launched in June 2009.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what estimate she has made of the proportion of staff of *(a)* her Department and *(b)* its agencies managed out in the last five years who remain working in the public sector. [313845]

Jonathan Shaw: The Department and its agencies do not hold information on the employment of former staff after they leave the Department and no estimate has been made of how many remain working in the public sector.

Departmental Public Expenditure

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how much of the additional £5 billion announced in *(a)* pre-Budget report 2008 and *(b)* the Budget 2009 has been allocated to (i) Jobcentre Plus, (ii) Flexible New Deal, (iii) the Future Jobs Fund, (iv) the Young Persons Guarantee, (v) the six month offer and (vi) other employment-related programmes; [309330]

(2) what estimate she has made of the underspend from planned budgets for the additional £5 billion announced in the *(a)* pre-Budget report 2008 and *(b)* Budget 2009 in respect of expenditure on (i) Jobcentre Plus, (ii) Flexible New Deal, (iii) the Future Jobs Fund, (iv) the Young Persons Guarantee, (v) the six month offer and (vi) other employment-related programmes; [309331]

(3) how much her Department has reallocated consequent on the rate of claimant unemployment at the time of Budget 2009; from what budgets that money has been reallocated; and to which budgets it has been transferred; [309332]

(4) how much of the additional £5 billion announced in the *(a)* pre-Budget report 2008 and *(b)* Budget 2009 has been spent. [309350]

Jim Knight: In the pre-Budget report 2008, and Budget 2009, the Chancellor announced that additional investment of up to £5 billion discretionary spending would be made available as a response to the recession. The following table shows how this £5 billion was allocated:

		£ million
	pre-Budget report 2008	*Budget 2009*
Jobcentre Plus and other corporate expenditure	871	1,005
Employment Providers and Local Authorities (for the administration of Housing Benefit)	461	709
Six month offer	n/a	511
Future Jobs Fund and Young Person's Guarantee	n/a	1,208
Support for Mortgage Interest	135	135

Of the £5 billion additional investment, £2.1 billion is allocated to 2009-10 and £2.9 billion to 2010-11. The precise allocation of this resource within the Department is set out in our three-year business plan, a copy of which is in the House of Commons Library.

The number of people claiming jobseeker's allowance at the end of 2009 was over 450,000 lower than the NAO audited assumption at the time of Budget 2009. If unemployment follows the revised NAO audited assumption set out in the pre-Budget report 2009, benefit expenditure would be around £10 billion lower over the next five years than forecast at Budget 2009. This has also led to savings from the Department's budget and allows us to reprioritise £400 million over the next 18 months to fund the measures set out in "Building Britain's Recovery: Achieving Full Employment".

The Department keeps financial allocations to its programmes under constant review and will publish updated budgets in the revised three-year business plan, which will be published before the end of the current financial year.

Departmental Public Relations

Mrs. May: To ask the Secretary of State for Work and Pensions how much her Department spent on *(a)* communications, *(b)* marketing, *(c)* advertising and *(d)* external public relations in 2009. [317162]

Jonathan Shaw: The DWP communications team has a wide-ranging remit to support the delivery of the Department's objectives. This includes communicating with staff, the public, business and stakeholders on the help and support available throughout the downturn, eligibility for entitlements, pensions, additional help and support as well as encouraging saving for later life. The team works right across the breadth of the Department's responsibilities and includes providing services for Jobcentre Plus and the Pensions, Disability and Carers Service.

Spend information is available for financial years rather than calendar years. Fully audited figures for spend on advertising for 2009-10 are not available at this time. Therefore data supplied is for the 2008-09 financial year.

During 2008-09 financial year a total of £42.283 million was spent by DWP on all communication services. This total covers the spend with external marketing and communication suppliers but does not include internal staff costs and any communications interim personnel. In addition a further £1.735 million was spent on marketing and publicity services through the Department's print and associated services contract with iON during the 2008-09 period. These figures are against overall DWP running costs in 2008-09 of £7.9 billion (0.56 per cent. of overall spend).

Included in this, DWP spent £12.327 million on advertising in this period. All costs are exclusive of VAT, COI fees, advertising rebates and audit adjustments and are for media spend only. They also exclude the cost of creative work, research, production of supporting materials or launch events.

Again, included in the overall figure was a total of £1.2 million was spent by DWP on external public relations during 2008-09.

Departmental Responsibilities

Mr. Harper: To ask the Secretary of State for Work and Pensions how many of her Department's staff at each grade work in the benefit simplification unit; what targets have been set for the unit; what recent progress reports the unit has published; what recommendations the unit has made since its inception; and how many such recommendations have been implemented. [318794]

Jonathan Shaw *[holding answer 25 February 2010]*: The benefit simplification unit has three full-time staff (one SEO and two HEOs) with additional input from a senior civil servant (grade 5) and a grade 7.

Their role is to challenge existing complexity across the benefits system, and to ensure that the move towards a simpler, more transparent system is at the heart of future benefit design and delivery.

Progress on simplification is reported on annually in the departmental report, and the effectiveness of the unit is reflected in the extent to which key performance indicators are met across the Department, where these indicators are partly dependent on the complexity of the system.

Simplification measures—both of benefit rules and ease of customer access—introduced since the unit was set up include:

ignoring all final earnings on new claims to benefit (from October 2007). This got rid of a complex and error-prone part of assessing initial benefit entitlement;

the national roll-out of local housing allowance (April 2008), a major shift in the way housing payments are made in the private rented sector which makes them simpler and speedier to administer;

the introduction of employment and support allowance (October 2008), removed confusion resulting from the availability of two benefits for people who are ill or disabled—incapacity benefit, and income support—by replacing them with one simpler benefit for this client group;

paying all working age benefits on a common payday (to be completed by April 2011) instead of confusingly different paydays;

extending the Rapid Reclaim process since the last claim for jobseeker's allowance and income support from 12 to 26 weeks, providing a speedier service, with less form-filling;

transferring all our benefit internet services to Directgov, the main public services website. Customers can now get advice on what to claim on the benefit adviser and track the progress of claims via the secure Benefit Enquiry service.

Departmental Telephone Services

Harry Cohen: To ask the Secretary of State for Work and Pensions what recent estimate she has made of the proportion of benefit and pension claimants calling her Department's telephone inquiry lines from mobile telephones who are not to be charged for the cost of the call; and if she will make a statement. [317378]

Jonathan Shaw: The Department's policy is that all calls to claim the state pension, jobseekers' allowance, employment support allowance as well as to ask for emergency payments or crisis loans, should be free. These 0800 numbers are already free from land lines, which around 70 per cent. of our callers use. The recent agreement with the five biggest UK mobile providers means that calls from their mobile phone networks to these specific 0800 numbers will now be free to their customers as well.

The Department uses 0845 telephone numbers where its customers call for other reasons, and these are calls that typically that take less time to resolve. The charges that apply to these calls will be set by the customer's telephone or mobile operator.

Where a customer calling our 0800 or 0845 services asks us, or raises concerns over the cost of the call, we will offer to call them back.

Employment and Support Allowance

Mr. Hancock: To ask the Secretary of State for Work and Pensions for what reasons 36 per cent. of employment support allowance cases conducted between October 2008 and February 2009 were closed before their assessment was completed. [318174]

Jonathan Shaw: A detailed breakdown of the information is not available.

There are many reasons why a claim may be closed before the assessment is complete, including people that only need to claim benefit for a short period of time due to a short-term illness or those who claim employment and support allowance completely in error.

As part of the evaluation of employment and support allowance we will be conducting research to examine in more detail those claims that are withdrawn before the assessment is completed.

Mr. Hancock: To ask the Secretary of State for Work and Pensions when she expects a system for the central holding of information relating to personal capability assessment and claims for incapacity benefit to be introduced. [318175]

Jonathan Shaw: We do not expect to develop a system that would track individuals claiming incapacity benefit through the assessment process. Incapacity benefit was replaced by employment support allowance for new claimants in October 2008 and systems have been put in place for the tracking of people who claim employment support allowance. We do not intend to put systems in place for retrospectively tracking the result of assessment for historical claims.

Employment and Support Allowance: Disabled

Mrs. Moon: To ask the Secretary of State for Work and Pensions (1) how many and what proportion of applicants for employment and support allowance have been classified as disabled; [318287]

(2) how many and what proportion of applicants for employment and support allowance who have been diagnosed with Parkinson's disease have been classified as disabled; [318288]

(3) how many and what proportion of applicants for employment and support allowance who were previously in receipt of incapacity benefit have been classified as disabled; [318289]

(4) how many and what proportion of applicants for employment and support allowance who have been diagnosed with Parkinson's disease and who were previously in receipt of incapacity benefit have been classified as disabled; [318290]

(5) what percentage of applicants for employment and support allowance diagnosed with fibromyalgia have been classified as disabled; [318396]

(6) what percentage of applicants for employment and support allowance diagnosed with fibromyalgia who had previously been in receipt of incapacity benefit have been classified as disabled. [318397]

Jonathan Shaw: The information is not available.

Information on whether a claimant is disabled or not is not recorded for the purposes of employment and support allowance.

Employment Schemes

Mrs. May: To ask the Secretary of State for Work and Pensions what job outcome evidence her Department has collected for *(a)* the day one offer, *(b)* the six month offer, *(c)* support for unemployed professionals and executives and *(d)* the Flexible New Deal since that scheme was introduced. [309339]

Jim Knight: Information on job outcomes as a direct consequence of the day one offer, which includes support for unemployed professionals and executives, is not available.

The six month offer has a number of elements including the recruitment subsidy, self-employment credit, work-focused training and volunteering. Official statistics were published on 20 January 2010 which showed that between April 2009 and October 2009:

> 15,530 jobseeker's allowance customers have used the recruitment subsidy;
>
> 5,310 jobseeker's allowance customers have taken up the self-employment credit.

The first statistics on work-focused training were published on 17 February 2010. We are investigating the feasibility of reporting work-focused training job outcomes for future publications of six-month offer statistics. We are also looking into how we can calculate job outcomes for the volunteering offer as part of the official statistics publication.

The flexible new deal started on 5 October and official statistics will be available from autumn 2010.

Employment Schemes: Females

Tom Brake: To ask the Secretary of State for Work and Pensions what steps her Department has taken to help new female claimants of jobseeker's allowance to find long-term employment in the last 12 months. [313526]

Jim Knight: All JSA customers are treated according to their individual circumstances, in keeping with a personalised and professional service and have the same access to the wide range of initiatives to help them return to work.

All departmental policies are subject to an Equality impact assessment and after implementation take up of programmes is monitored, including by gender, for further development of design and delivery.

Employment Schemes: Young People

Mrs. May: To ask the Secretary of State for Work and Pensions (1) in which *(a)* Jobcentre Plus districts, *(b)* local authorities and *(c)* constituencies Future Jobs Fund jobs are not available to young people as part of the young person's guarantee; [317615]

(2) in which *(a)* Jobcentre Plus districts, *(b)* local authorities and *(c)* constituencies not all of the elements of the young person's guarantee are available; and which such elements are (i) available and (ii) not available in each such area. [317616]

Jim Knight: In principle the Young Person's Guarantee, including the Future Jobs Fund, is available in all Jobcentre Plus districts, in all local authorities and in all constituencies, dependent on there being successful bids in these areas. In Scotland and Wales the training element of the young person's guarantee is provided by the devolved Administrations.

Employment: Scotland

Mr. Carmichael: To ask the Secretary of State for Work and Pensions what estimate her Department has made of the number of people seeking employment in the *(a)* engineering industry, *(b)* life sciences sector, *(c)* renewable energy industry and *(d)* construction industry in Scotland. [317737]

Jim Knight: The information is not available, in the format requested.

Future Jobs Fund

Mrs. May: To ask the Secretary of State for Work and Pensions how many accepted Future Jobs Fund bids were initially rejected. [304388]

Jim Knight: Where bidding organisations fail to meet the Future Jobs Fund assessment criteria they are provided with feedback and offered further support from DWP, Jobcentre Plus and the Government Office network to enable them to improve and submit their bids. As a result of this process, so far, 38 of the initially rejected organisations have subsequently successful.

Mrs. May: To ask the Secretary of State for Work and Pensions how many accepted Future Jobs Fund bids are expected to create fewer than 30 jobs. [304391]

Jim Knight: A total of 272 bids to the Future Jobs Fund have been accepted, which will create up to 110,000 Future Jobs Fund jobs.

We encourage partnership bids but would not necessarily rule out bids for fewer than 30 jobs.

So far, 18 of the 272 accepted bids are expected to create fewer than 30 jobs.

Mrs. May: To ask the Secretary of State for Work and Pensions what estimate has been made of the number of jobs each accepted Future Jobs Fund bid will create. [304392]

Jim Knight: To date 255 bids have been successful and the Department for Work and Pensions has agreed to fund around 110,000 jobs.

Margaret Moran: To ask the Secretary of State for Work and Pensions (1) how many social enterprises have participated in the Future Jobs Fund; [315107]

(2) how many jobs created under the Future Jobs Fund have been in *(a)* local authorities and *(b)* third sector organisations. [315105]

Jim Knight: The information is not available in the requested format.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) pursuant to the answer of 2 February 2010 to the hon. Member for South Dorset, *Official Report*, column 258W, on the Future Jobs Fund, of the jobs announced to date for which it is possible to ascertain the location, how many are expected to be created in each local authority area; [317646]

(2) how many of the jobs announced to date are expected to be created in each constituency. [317647]

Jim Knight: Data on the Future Jobs Fund are not collected by local authority or by constituency, and as such the data of how many jobs are to be created in each are not available.

Mr. Hunt: To ask the Secretary of State for Work and Pensions how many jobs in *(a)* the arts and *(b)* the media have been created under the Future Jobs Fund since its inception. [318595]

Mr. Bradshaw: I have been asked to reply.

My Department is working closely with the Secretary of State for Work and Pensions and we have created more than 6,500 job opportunities in the culture and sports sectors under the Future Jobs Fund.

Incapacity Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions what recent estimate her Department has made of the *(a)* number and *(b)* proportion of current claimants of incapacity benefit who are not required to meet any conditions in order to continue to receive the benefit. [317945]

Jonathan Shaw: All recipients of incapacity benefits must meet the conditions of entitlement in order to qualify for benefit.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of off-flows from incapacity benefit have been due to claimants moving into work in each year since 1997. [317946]

Jonathan Shaw: The information requested is not available.

Industrial Injuries Disablement Benefit

John Mann: To ask the Secretary of State for Work and Pensions what the qualifying criteria are for industrial injuries disablement benefit for those with osteoarthritis of the knee. [318242]

Jonathan Shaw: In order to be entitled to industrial injuries disablement benefit (IIDB) in respect of osteoarthritis of the knee a person must satisfy criteria based on occupation and the level of disablement caused by the disease.

The occupational criteria are as follows:

Underground work as a coal miner up to the end of 1985.

If the work was after 1985, a person must have worked underground in one of the following occupations:

face worker working on a non-mechanised coal face; or

development worker; or

face-salvage worker; or

conveyor belt cleaner; or

conveyor belt attendant.

In total at least 10 years must be spent in the occupation. Pre- and post-1985 periods of employment in the relevant occupation can count towards the 10 year total.

If a person satisfies the occupational criteria the case is referred to medical services for advice on the level of disablement. For IIDB purposes, disablement is assessed by making a comparison with a person of the same age and sex whose physical and mental condition is normal. In each case, advice on the assessment of disablement and the likely duration is given by a doctor specially trained in industrial injuries disablement matters.

John Mann: To ask the Secretary of State for Work and Pensions by what means the proportion of disablement is determined for former miners making a claim for industrial injuries disablement benefit in respect of osteoarthritis of the knee. [318259]

Jonathan Shaw: The level of disablement for all customers who claim industrial injuries disablement benefit in respect of diseases and accidents caused by occupation is assessed as a percentage up to 100 per cent. The percentage determines the level of payment.

The customer will normally be asked to attend a medical examination carried out by a trained health care professional appointed by the Secretary of State for Work and Pensions, who will provide the decision-maker with advice on the level of disablement in each case, taking account of all the evidence available and comparing the customers condition as a result of the effects of the prescribed disease or accident with that of a normal healthy person of the same age and sex.

Jobcentre Plus: Expenditure

Steve Webb: To ask the Secretary of State for Work and Pensions how much Jobcentre Plus in each region has spent on *(a)* redundancies and *(b)* recruitment in each month since January 2009; and if she will make a statement. [300692]

Jim Knight: The information is not available in the format requested.

Jobseeker's Allowance

Mrs. May: To ask the Secretary of State for Work and Pensions how many claimants of jobseeker's allowance have been identified through the Labour Market System as being unemployed for 22 out of 24 months in the latest period for which figures are available. [317628]

Jim Knight: The information from the Labour Market System is not currently available.

We are not able to provide alternative information for all current claimants from the jobseeker's allowance databases (rather than the Labour Market System) because this would involve complex data linking and analysis and would be possible only at a disproportionate cost.

New Deal for Lone Parents

Paul Holmes: To ask the Secretary of State for Work and Pensions how many young people aged between 16 and 24 years old in *(a)* Chesterfield, *(b)* Derbyshire and *(c)* England have taken part in the New Deal for Lone Parents in each month since January 2005. [318768]

Jim Knight *[holding answer 25 February 2010]*: The information is in the following yearly table:

	Chesterfield constituency	*Derbyshire*	*England*
2005

New Deal for Partners

Paul Holmes: To ask the Secretary of State for Work and Pensions how many partners in *(a)* Chesterfield, *(b)* Derbyshire and *(c)* England have taken part in the New Deal for Partners in each month since January 2005. [318767]

Jim Knight *[holding answer 25 February 2010]*: The information is in the following yearly table. The numbers are the numbers of people starting in the New Deal for Partners in each month. The figures are available up to November 2009 For the Chesterfield constituency, the figures are shown as Nil throughout, the tables, because of the standard downward roundings used in the Department's monthly data. Annual figures show that 50 people started in the New Deal for Partners in the five years from 2005 to 2009 inclusive.

Department for Work and Pensions Information Directorate

Pathways to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions if she will publish the latest cumulative performance data for Pathways to Work providers. [315718]

Jonathan Shaw *[holding answer 3 February 2010]*: These statistics were published on 23 February 2010.

Pathways to Work: Feltham

Alan Keen: To ask the Secretary of State for Work and Pensions how many people in Feltham and Heston constituency have *(a)* started Pathways to Work and *(b)* made recorded job starts under Pathways to Work in each year since the inception of the programme; and how many of those who started a job remain in employment. [316663]

Jonathan Shaw: Information requested is not available.

Pensioners: Poverty

Mr. Drew: To ask the Secretary of State for Work and Pensions (1) how many pensioners resident in Stroud constituency were officially defined as poor in each year since 1997; [318979]

(2) what her most recent estimate is of the level of pensioner poverty in Stroud constituency; and what steps her Department has taken to assist those affected. [318980]

Angela Eagle: The Government use a basket of three key thresholds of income, after housing costs, to measure pensioner poverty. The most commonly used figures relate to those with incomes below 60 per cent. of contemporary median income, after housing costs.

Estimates of poverty, published in the Households Below Average Income series, only allow a breakdown of the overall number of people in poverty at Government office region level. Therefore, information for the Stroud constituency is not available, though figures relating to the south-west Government office region are.

Three-year averages are used to report regional statistics as single-year estimates are subject to volatility. Figures are quoted to the nearest 100,000. The following table shows the number and percentage of pensioners in the south-west Government office region who have incomes below 60 per cent. of the contemporary median income:

Number and percentage of pensioners in the south-west Government office region with incomes below 60 per cent. of contemporary median after housing costs

	Number of pensioners	Percentage of pensioners
1997-98 to 1999-2000	300,000	28
1998-99 to 2000-01	300,000	26
1999-2000 to 2001-02	200,000	25
2000-01 to 2002-03	200,000	24
2001-02 to 2003-04	200,000	22
2002-03 to 2004-05	200,000	19
2003-04 to 2005-06	200,000	16
2004-05 to 2006-07	200,000	16
2005-06 to 2007-08	200,000	18

Notes:

1. Figures are published in the Households Below Average Incomes (HBAI) series for 2007-08, and are based on FES figures up to 1997-98, and on the FRS from 1998-99. Three sample years have been combined for regional statistics as single year estimates are subject to volatility.
2. Number of pensioners has been rounded to the nearest 100,000. Percentages have been rounded to the nearest whole percentage point.
3. Changes between periods are calculated based on unrounded figures and therefore may differ from the difference between the rounded figures presented above.

The final row in this table, covering the three year period 2005-06 to 2007-08 is the most recent estimate of pensioner poverty in the south-west region produced in the Department.

Our strategy since 1997 has been to target help on the poorest pensioners while providing a solid foundation of support for all.

We have a good track record of reducing pensioner poverty. In 2007-08 there were 900,000 fewer pensioners in relative poverty than in 1998-99 (measured as below 60 per cent. of contemporary median income after housing costs). Today's pensioners are less likely to be living in relative poverty after housing costs than the population as a whole.

In 1997, the poorest pensioners, who received Income Support, lived on around £69 a week (equivalent to £98 a week in today's prices). Today pension credit ensures that no pensioner needs to live on less than £130 a week or £198.45 a week for couples). This represents an increase in income by almost a third in real terms. And many of those on pension credit will also be entitled to additional support through housing benefit and council tax benefit.

The Pension, Disability and Carers Service continue to promote take-up of benefits for those entitled. This involves data matching to identify entitled non-recipients, home visits for vulnerable customers, targeted local marketing and media campaigns, a simple claim process involving telephones as well as paper claims and ever closer working with partner organisations. The Department is also looking at innovative ways of using information that we already hold to make payments of pension credit more automatically to entitled non-recipients.

In the Pensions Act 2007, we made a commitment to continue to uprate the pension credit standard minimum guarantee at least in line with average earnings over the long-term. The Institute for Fiscal Studies (IFS) has commented that without this, it is likely there would be significant increases in pensioner poverty in the future.

We have also made a commitment to re-link the uprating of the basic state pension to average earnings. Our objective, subject to affordability and the fiscal position, is to do this in 2012, but in any event by the end of the next Parliament at the latest. This will benefit almost 12 million pensioners.

Pensioners: Social Security Benefits

Lynne Featherstone: To ask the Secretary of State for Work and Pensions what steps her Department is taking to ensure that eligible pensioners receive their entitlement to *(a)* cold weather payments and *(b)* pension credit; and if she will make a statement. [319055]

Angela Eagle: The Government are committed to helping vulnerable customers to heat their homes during the cold weather, so we are continuing cold weather payments. These provide £25 towards eligible customers' heating costs during each consecutive seven-day period of very cold weather. There is no need to claim as eligible customers are paid automatically when payments are triggered in their area.

External communications, including media and web interviews and briefings for welfare organisations, focus on reassuring customers that they will get payments and do not need to make a claim. An online tool is available on the Directgov website where people can find out about eligibility and whether payments have been triggered in their area. There is also a leaflet, 'The Social Fund' which provides information.

The Government are also committed to reducing pensioner poverty and works hard to ensure pensioners are aware of pension credit. The claims process has been simplified and since November 2008 telephone claims for housing benefit and council tax benefit can be forwarded directly to the local authority.

Targeted take-up campaigns continue in selected regions to raise awareness and to encourage customers to apply. The campaign uses a range or methods including targeted direct mail, supported by sustained media coverage as well as community advertising.

When contacted, customer advisers in the Pension, Disability and Carers Service discuss pension credit with those who may be eligible and it also conducts around 13,000 home visits a week for vulnerable customers ensuring they are receiving the benefits they are entitled to.

Joint Working Partnerships have been established with all 203 primary-tier local authorities in England, Scotland and Wales. These enable the Pension, Disability and Carers Service, local authorities and the voluntary sector to provide a single point of access to social care and benefit entitlement.

Self-employed

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many people have moved into self-employment under the six-month offer introduced on 6 April 2009; how many people have received the self-employment credit; how much has been spent in total on the self-employment credit; and what estimate she has made of the average cost of movement into self-employment under the offer. [316977]

Jim Knight *[holding answer 22 February 2010]:* Under the jobseeker's allowance self-employment offer, there are two elements to the help we give people who want to move into self-employment or start a business—self-employment advice and support through our expert partners, and financial support for those leaving jobseeker's allowance and becoming self-employed.

Between April and October 2009, 5,310 jobseeker's allowance recipients have left benefit and claimed the self-employment credit as they moved into self-employment.

Total spend on the self-employment credit up to the end of October 2009 was £2,267,776 with a unit cost of up to a maximum of £800 per start (up to 16 weeks at £50 per week). The average cost is not available.

Snow and Ice

Bob Spink: To ask the Secretary of State for Work and Pensions what estimate she has made of the costs to her Department arising from the severe weather conditions in the period 4 January to 18 January 2010; and if she will make a statement. [313594]

Jim Knight: The severe weather experienced between 4 and 18 January 2010 had no significant impact on the operations of the Department for Work and Pensions and JCP and consequently no such estimate has been made.

In addition, between 4 and 18 January, for Great Britain, an estimated 6.9 million cold weather payments worth an estimated £174 million were authorised.

Social Security Benefits

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how much her Department has spent on *(a)* incapacity benefit, *(b)* employment and support allowance and *(c)* severe disablement allowance awarded on the basis of (i) drug or alcohol dependency and (ii) alcoholic liver disease in each year since 1997; [309342]

(2) how much her Department has spent on disability living allowance awarded on the basis of alcoholic liver disease in each year since 1997; [309343]

(3) how much her Department has spent on disability living allowance awarded on the basis of drug or alcohol dependency in each year since 1997; [309344]

(4) how many claimants received awards of *(a)* disability living allowance only, *(b)* incapacity benefit or employment and support allowance or severe disablement allowance only and *(c)* both disability living allowance and incapacity benefit or employment and support allowance or severe disablement allowance on the basis of alcoholic liver disease in each year since 1997; [309345]

(5) how many claimants received awards of disability living allowance on the basis of alcoholic liver disease in each year since 1997; [309346]

(6) how many claimants received awards of disability living allowance on the basis of drug or alcohol dependency in each year since 1997; [309347]

(7) how many claimants received awards of *(a)* disability living allowance only, *(b)* incapacity benefit or employment and support allowance or severe disablement allowance only and *(c)* both disability living allowance and incapacity benefit or employment and support allowance or severe disablement allowance on the basis of drug or alcohol dependency in each of ~~the last~~ 10 years. [309348]

Jonathan Shaw: Entitlement to incapacity benefits and disability living allowance is not dependent on a diagnosis or condition but relies instead on the effects that a person's condition has on their ability to carry out a number of everyday activities. The focus of the relevant medical assessment for incapacity benefits determines the extent to which these effects impact on a person, and benefit is only awarded after specific criteria are met. Similarly, entitlement to disability living allowance is not dependent on a diagnosis or condition but relies instead on the care and/or mobility needs arising.

Only the primary medical diagnosis written on a claimant's medical certificate is recorded for benefit purposes. However, many of those who claim benefit with a diagnosis of drug or alcohol dependency will also have other underlying medical conditions such as mental/psychiatric illness. Information on the cost and numbers of people on benefit who claim with a diagnosis of alcoholic liver disease is not available.

From 27 October 2008 we replaced incapacity benefits for new customers with the employment and support allowance and a revised medical assessment which focuses on what people can do, as well as what they cannot.

Medical conditions information for employment and support allowance is not yet available.

The available information has been placed in the Library. It should be noted however that this represents a subset of the total number of customers claiming these benefits who suffer from an alcohol or drug dependency

Social Security Benefits: Alcoholic Drinks

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of claimants of *(a)* jobseeker's allowance, *(b)* income support, *(c)* incapacity benefit and *(d)* employment and support allowance who were alcohol mis-users in each of the last five years. [316765]

Jim Knight: The information is not available. Alcohol misuse is a concern for the Government and work is currently under way within the Department for Work and Pensions to derive robust estimates of alcohol misuse amongst the benefit population.

Social Security Benefits: Armed Forces

Mrs. May: To ask the Secretary of State for Work and Pensions what guidance her Department has issued on the treatment in the benefits system of *(a)* current members of the armed forces, *(b)* spouses and immediate family members of members of the armed forces and *(c)* former members of the armed forces. [316487]

Jonathan Shaw: The Department for Work and Pensions and its executive agencies take into account an individual's circumstances as a matter of course, including current and former service personnel and their families.

The Service Command Paper 'The Nation's Commitment: Cross-Government Support to our Armed Forces, their Families and Veterans' [Cm 7424] published in July 2008 contained a number of departmental commitments to further support service personnel families and former members of the armed forces. These included an agreement to use service medical board evidence when considering entitlement to Employment Support Allowance (supporting guidance was issued to Jobcentre Plus staff in October 2009) and the Department's commitment to award Class 1 National Insurance Credits to spouses and civil partners of service personnel posted overseas with effect from April 2010. This will enable more members of service personnel families to qualify for Jobseeker's Allowance, Employment and Support Allowance and basic State Pension. Staff in my Department are currently working with colleagues in Her Majesty's Revenue and Customs and Ministry of Defence to produce guidance on this for our staff and customers. This will include producing a customer fact sheet, providing advice to go into the packs given to members of Her Majesty's forces when a posting outside the UK is about to end and making information, including the application form for the credits, available online via the Department for Work and Pensions and Ministry of Defence websites. The addresses are:

www.dwp.gov.uk

www.mod.uk

General guidance on the application and interpretation of Income Support, Jobseeker's Allowance and Employment and Support Allowance rules for our Decision Makers can be found in the Decision Makers Guide. A copy of the Guide is available in the Library and on the Department for Work and Pensions' website at:

http://www.dwp.gov.uk/publications/specialist-guides/decision-makers-guide/

Following the Home Office announcement last year that all Gurkhas who retired before 1 July 1997 with four years service would be able to settle in the UK, the Pension, Disability and Carers Service has been working with other Government Departments on plans for their arrival.

Internal guidance is being prepared for issue shortly to Pension, Disability and Carers Service staff to help them respond to the needs of ex-Gurkhas.

In the calculation of entitlement to housing benefit and council tax benefit, a mandatory £10 disregard of income from war pensions (war disablement pension, a pension to a war widow or war widower or a similar pension paid to a surviving civil partner), applies. In addition, local authorities have discretionary powers to disregard some or all of any income from war pensions, including service attributable pensions, once the mandatory disregard of £10 has been made. It is a matter for each authority to decide the extent to which they apply the additional disregard. We have recently issued guidance clarifying that service attributable pensions fall to be disregarded under the discretionary powers.

Social Security Benefits: Departmental Coordination

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what additional processing work attributable to the recession which has fallen to her Department is being undertaken with the assistance of staff from other Government departments; and if she will make a statement. [301739]

Jim Knight: The Pensions, Disability and Carers Service and the Child Support Agency have not taken on any staff from other Departments to process additional work as a result of the recession.

In the 12 month period from October 2008 to September 2009 Jobcentre Plus have recruited 1,095 staff from other Government Departments.

Social Security Benefits: Drugs

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of claimants of *(a)* jobseeker's allowance, *(b)* income support, *(c)* incapacity benefit and *(d)* employment and support allowance who were problem drug users in each of the last five years. [316775]

Jim Knight *[holding answer 10 February 2010]*: In 2008 the Department for Work and Pensions published a research report: 'Population estimates of problematic drug users in England who access DWP benefits: A feasibility study', working paper No. 46, Hay, G. and Bauld, L. that estimated the number of problem drug users claiming various benefits. Such information as is available is presented in the following table.

Estimated number of claimants who are problem drug users by benefit type in 2006

Benefit	*Number of claimants*
Jobseeker's allowance	60,000
Incapacity benefit	87,000
Income support	146,000
Total number of problem drug users on the above benefits	267,000

Notes:

1. Figures are rounded to the nearest thousand.
2. Problem drug users are defined as those who use heroin and/or crack cocaine and includes those who are in treatment for their dependency.
3. The sum of the component benefits is greater than the total number of problem drug users estimated to be in receipt of the main benefits. This is because claimants can be in receipt of Incapacity Benefit and Income Support at the same time.
4. The figures relate to 2006 and therefore predate the introduction of employment support allowance.

Source:

Population estimates of problematic drug users in England who access Department for Work and Pensions benefits: A feasibility study. Working Paper No. 46. Hay, G. and Bauld, L.

Social Security Benefits: Employment

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of claimants of employment and support allowance have left the benefit for employment since its introduction. [318795]

Jonathan Shaw *[holding answer 25 February 2010]:* The information requested is not available.

Social Security Benefits: Fibromyalgia

Mrs. Moon: To ask the Secretary of State for Work and Pensions what guidance her Department has issued to examining medical practitioners carrying out assessments for eligibility for disability living allowance and employment and support allowance on fibromyalgia. [318398]

Jonathan Shaw: All examining Atos Healthcare professionals, who carry out examining assessments on behalf of the Department, undertake a distance learning module on fibromyalgia within 12 months of joining the organisation. The distance learning module is approved by the chief medical adviser to the Department. In addition, they are required to undertake a programme of continuing medical education that is agreed with the Department. A module on chronic fatigue syndrome and fibromyalgia is included in the suite of continuing medical education topics available to the health care professionals.

Entitlement to disability living allowance is not based on the diagnosis of a particular disability or illness but on the effects of disability on the individual person. It is the information about care and/or mobility needs which a person provides on the claim form, supported where necessary by medical reports from a GP or Atos Healthcare professional, which allows the decision-maker to determine entitlement.

Social Security Benefits: Na h-Eileanan an Iar

Mr. MacNeil: To ask the Secretary of State for Work and Pensions how many people were in receipt of pension credits in Na h-Eileanan an Iar constituency in the latest period for which figures are available; and what the average weekly payment was in such credits in that constituency in that period. [319013]

Angela Eagle: The information requested is in following table.

Recipients of pension credit in the Na h-Eileanan an Iar constituency, as at August 2009

	Number/£
Individual beneficiaries	2,870
Households recipients	2,380
Average weekly award of pension credit	55.17

1. Caseload figures are rounded to the nearest 10.
2. Household recipients are those people who claim pension credit either for themselves or on behalf of themselves and a partner. Beneficiaries are the number of claimants in addition to the number of partners for whom they are claiming.
3. Pension credit is claimed on a household basis. The average weekly award of pension credit is in relation to the household.
4. Parliamentary constituencies and local authorities are assigned by matching postcodes against the relevant ONS postcode directory.

Social Security Benefits: Obesity

Mr. Harper: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of claimants of (a) employment and support allowance, (b) incapacity benefit and (c) severe disablement allowance who have a primary diagnosis of obesity which limits their ability to work in the latest period for which figures are available. [316778]

Jonathan Shaw *[holding answer 10 February 2010]:* To qualify for incapacity benefit/severe disablement allowance, claimants have to undertake a medical assessment of incapacity for work called the personal capability assessment. Therefore, the medical condition recorded on the claim form does not in itself confer entitlement to benefit. This means that the decision for a customer who has claimed incapacity benefit/severe disablement allowance because of obesity would be based on their ability to carry out a range of activities in the personal capability assessment. Causes of incapacity are based on the International Classification of Diseases, 10th Revision, published by the World Health Organisation.

Employment and support allowance was introduced from October 2008 for new customers only. It replaced incapacity benefit and income support paid on the grounds of incapacity or disability. Data by medical conditions are not yet available for employment and support allowance.

The available information is provided in the table.

Number of claimants of incapacity benefit/severe disablement allowance with obesity as the main disabling condition Great Britain and abroad as at May 2009

	Number
Incapacity benefit/severe disablement allowance	2,040
Incapacity benefit	1,940
Severe disablement allowance	90

Note:

Figures are rounded to the nearest 10.

Source:

Work and Pensions Longitudinal Study 100 per cent data.

Mr. Clappison: To ask the Secretary of State for Work and Pensions how many claimants of *(a)* incapacity benefit/severe disablement allowance and *(b)* employment and support allowance had a primary diagnosis of obesity in (i) each of the last five years and (ii) each of the last four quarters for which figures are available. [316978]

Jonathan Shaw: To qualify for incapacity benefit/severe disablement allowance, claimants have to undertake a medical assessment of incapacity for work called the personal capability assessment. Therefore, the medical condition recorded on the claim form does not in itself confer entitlement to benefit. This means that the decision for a customer who has claimed incapacity benefit/severe disablement allowance because of obesity would be based on their ability to carry out a range of activities in the personal capability assessment. Causes of incapacity are based on the International Classification of Diseases, 10th Revision, published by the World Health Organisation.

The available information is provided in the table.

Number of claimants of incapacity benefit/severe disablement allowance with obesity as the main disabling condition Great Britain and abroad May 2005 to May 2009

	Incapacity benefit/ severe disablement allowance	*Incapacity benefit*	*Severe disablement allowance*
May 2005	1,830	1,710	120
May 2006	1,890	1,790	110
May 2007	1,980	1,880	100
May 2008	2,070	1,970	100
August 2008	2,130	2,030	100
November 2008	2,140	2,040	100
February 2009	2,110	2,010	90
May 2009	2,040	1,940	90

Notes
1. Figures are rounded to the nearest ten.
2. Data by medical conditions is not yet available for employment and support allowance.

DWP Information Directorate: Lifetime Labour Market Database 1 per cent. sample of the National Insurance Recording System

Unemployment Benefits

Mrs. May: To ask the Secretary of State for Work and Pensions (1) what sanctions are available in relation to compulsory employment or training programmes; and how many times each such sanction has been used in each year since 1997; [313082]

(2) how many times each type of sanction available for *(a)* jobseeker's allowance, *(b)* incapacity benefit, *(c)* employment and support allowance and *(d)* income support has been used in each year since 1997. [313083]

Jim Knight: Data on sanctions is available for jobseeker's allowance from the year 2000. Data on sanctions is not available for income support, incapacity benefit and employment and support allowance.

Questions about entitlement to jobseeker's allowance can arise at any time from the commencement of a claim. For example, if there is doubt around whether the jobseeker's agreement (JSAg) is suitable, whether the claimant is actively looking for work or making them self available for work. In most cases payment of Jobseeker's Allowance will be suspended until the doubt is resolved.

The following types of sanctions are available for jobseeker's allowance claimants:

> Varied Length Sanctions: A sanction of between one week and 26 weeks is imposed for leaving employment voluntarily without just cause, refusing employment without good cause, or losing employment through misconduct. The actual period in each case is at the discretion of the adjudication officer who makes the decision.
>
> Fixed Length Sanctions: A sanction of two weeks (four weeks if repeated within 12 months, and 26 weeks if already received a four week sanction within last 12 months) are imposed for refusal, without good cause, to attend an employment programme or carry out a jobseeker's direction. Payment of benefit continues in full pending the adjudication officer's decision on a sanction question.

Data on the number of times each type of sanction available for jobseeker's allowance has been used in each year since 2000, including those that are available in relation to compulsory employment or training programmes, has been placed in the Library.

This information is also published on the Department for Work and Pensions website:

http://research.dwp.gov.uk/asd/tabtool.asp

Please note, in 2006 the Department refreshed the delivery of the jobseeker's allowance regime within Jobcentre Plus ensuring that all customers were receiving the right support at the right time. This led to a strengthening of the rights and responsibilities agenda which underpins the regime.

This coincides with the increase in jobseekers who were sanctioned between 2006-07 and 2007-08.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) what estimate her Department has made of its expenditure on out-of-work benefits in each year since 1980, expressed in real terms; [317619]

(2) what estimate her Department has made of its expenditure on unemployment benefits in each year since 1980, expressed in real terms; [317620]

(3) what estimate her Department has made of its expenditure on out-of-work benefits in *(a)* 2009-10 and *(b)* 2010-11 expressed, in real terms; [317642]

(4) what estimate her Department has made of its expenditure on unemployment benefits in *(a)* 2009-10 and *(b)* 2010-11, expressed in real terms. [317643]

Jim Knight: The available information is in the following table:

Expenditure on out-of-work benefits in Great Britain, 1980-81 to 2010-11

£ million (2009-10 prices)

	Incapacity-related benefits (including income support)	*Income support for lone parents*	*Jobseeker's allowance*	*Total*
Status Outturn				
1980-81	5,947	618	5,554	12,119
1981-82	6,146	761	7,683	14,589

Expenditure on out-of-work benefits in Great Britain, 1980-81 to 2010-11

£ million (2009-10 prices)

	Incapacity-related benefits (including income support)	*Income support for lone parents*	*Jobseeker's allowance*	*Total*
982-83	6,129	1,086	9,044	16,259
983-84	7,143	1,377	10,233	18,754

2006-07	12,807	2,143	2,612	17,562
2007-08	12,836	2,220	2,342	17,398
2008-09	12,503	2,088	2,916	17,506
Status: Forecast				
2009-10	13,512	2,223	4,950	20,685
2010-11	13,533	1,831	5,642	21,006

Notes:

1. Figures may not sum due to rounding.

2. Figures in the table have been adjusted to provide a consistent series throughout the period. Specifically, the following expenditure has been excluded from the table: Expenditure on invalidity benefit and incapacity benefit for people aged above state pension age, which was phased out between 1995 and 2000. Expenditure on income support in residential care and nursing homes, which was transferred to the Department of Health in 2002 and 2003. Child allowances in income support and jobseeker's allowance, which from 2003 were gradually replaced by child tax credit. 3. The JSA figures shown in the table are based on HM Treasury's assumption for claimant unemployment, which itself is based on forecasts from around 30 independent forecasters and is audited by the National Audit Office. It is intended as a cautious planning assumption, and does not represent the Treasury's own economic forecast.

Sources:

1. DWP Statistical and Accounting data.

2. Pre-Budget report forecasts.

Unemployment: Parents

Paul Holmes: To ask the Secretary of State for Work and Pensions how many households there were in which *(a)* both parents and *(b)* one parent in a married or cohabiting couple claimed jobseeker's allowance in each year since 2005. [316636]

Jim Knight: The information is not available.

Work Capability Assessment

Mr. Hancock: To ask the Secretary of State for Work and Pensions pursuant to the answer of 19 January 2010, *Official Report*, column 213W, on social security benefits: medical examinations, what guidance her Department issues to ATOS Medical assessors on work capability assessments. [318180]

Jonathan Shaw: The main guidance for examining Atos Healthcare professionals, who carry out the work capability assessments on behalf of the Department, is the Employment and Support Allowance handbook which has been developed in conjunction with the Chief Medical Adviser to the Department. This complements the training that the health care professionals receive to carry out the work capability assessment.

Work Capability Assessment: Parkinson's Disease

Mrs. Moon: To ask the Secretary of State for Work and Pensions what guidance her Department has issued to GPs on Parkinson's disease and medical assessments of individuals' fitness for work. [319452]

Jonathan Shaw: The Department for Work and Pensions does not issue guidance to GPs on Parkinson's disease. However, all healthcare professionals working for Atos Healthcare, who undertake work capability and personal capability assessments on behalf of the Department, are issued with an evidence based protocol on Parkinson's disease.

HOME DEPARTMENT

Anti-terrorism Control Orders

Mr. Dismore: To ask the Secretary of State for the Home Department pursuant to the answer of 10 February 2010, *Official Report*, column 1054W, on control orders, if he will hold discussions with law reporters on arrangements for reports of control order judgments and interim orders; and if he will make a statement. [318761]

Mr. Hanson *[holding answer 25 February 2010]*: My officials will hold discussions with the Ministry of Justice to explore the issues in relation to the reporting of closed judgments and interim orders.

Automatic Number Plate Recognition

Mr. Maude: To ask the Secretary of State for the Home Department what assessment his Department and its agencies have made of the accuracy of the data stored on the Automatic Number Plate Recognition databases for which they are responsible; and whether he has made a recent estimate of the proportion of entries on such databases which contain incorrect information. [318115]

Mr. Alan Campbell: Automatic Number Plate Recognition (ANPR) systems are owned and operated by individual police forces. Number plates read by police force cameras are fed into local Back Office Facility (BOF) databases before being forwarded to the National ANPR Data Centre (NADC) which is managed by the National Policing Improvement Agency (NPIA).

Chief Constables are "data controllers in common" for ANPR data and are responsible for the accuracy of the data. The National ACPO (Association of Chief Police Officers) ANPR Standards (NAAS) set out clearly the criteria for ANPR data quality.

While no estimate has been made of the proportion of incorrect interpretations of number plates, an image of the plate is stored with each record of a sighting. The plate text is never used without the image being viewed and such information would not be acted upon without further information or intelligence.

Blaydon

Mr. David Anderson: To ask the Secretary of State for the Home Department if he will set out, with statistical information related as directly as possible to the Blaydon constituency, the effects on Blaydon of his Department's policies and actions since 2000. [315300]

Mr. Alan Campbell: The Home Office has introduced a range of policies and initiatives since 2000. However, it is not always possible to quantify their effects particularly at constituency level. The available statistical information therefore relates to the Gateshead crime and disorder reduction partnership area.

In terms of police recorded crime in Gateshead, between 2002-03 and 2008-09, total recorded crime fell by 41 per cent. More specifically:

Violence against the person—down 36 per cent;

Sexual offences—down 37 per cent;

Robbery—down 68 per cent;

Burglary—down 50 per cent;

Offences against vehicles—down 49 per cent;

Other theft offences—down 38 per cent;

Criminal damage—down 36 per cent;

Drug offences—down 40 per cent.

Data prior to 2002-03 are not directly comparable because of the introduction of the national crime recording standard in April 2002.

Gateshead basic command unit had 443 police officers as at 30 March 2009. The number of police officers has increased by 33 since 2003. Comparisons with 2000 for Gateshead BCU are not available. There were 35 police community support officers as at 30 March 2009 while there were none in existence in 2000.

The Crime and Disorder Act 1998 saw positive effects with the statutory duty to create a crime and disorder reduction partnership (CDRP).

Gateshead CDRP is a merged CDRP/drug and alcohol action team and forms part of the local strategic partnership sub-group safer stronger communities and culture partnership. There is a genuine partnership with police, local authority and other key stakeholders problem solving to tackle complex issues.

Generally crime performance is positive. The overall rate of violence with injury per 1,000 population is lower than the regional and national averages.

Gateshead, as part of Northumbria police force, has been part of the Tackling Knives Action Programme in 2009-10. This has provided additional funding for prevention and education activity on knife crime and serious youth violence, as well as additional enforcement operations. The partnership has have also received funding and support from the Home Office and Ministry of Justice to tackle domestic and sexual violence including the development of multi area risk assessment conference (MARAC), a special domestic violence court (SDVC) and associated independent domestic violence advisers (IDVA).

Safer Gateshead uses antisocial behaviour tools and powers effectively. It is currently reviewing its delivery to provide a graded approach to ASB with a focus on early intervention.

Gateshead agreed to become a Neighbourhood Crime and Justice Pioneer Area in 2009. As a pioneer, it has dedicated resource to work with its communities to address local concerns on crime, antisocial behaviour and justice. The partnership uses Community Payback effectively as part of this approach.

Gateshead is an intensive drug intervention programme (DIP) area and tackles drug-related offending through drug-testing on arrest and restriction on bail provisions thereby allowing more offenders to be targeted and steered into treatment and out of crime. Gateshead's DIP budget for 2009-10 is £637,363. In 2008-09 there were 2,255 positive drug tests with 945 problem drug users (crack and/or opiate users) recorded as being in effective drug treatment.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at:

http://neighbourhood.statistics.gov.uk

Burglary

Mr. Evans: To ask the Secretary of State for the Home Department (1) what the rate of recovery has been of items stolen in reported incidents of aggravated burglary in each of the last five years; [315455]

(2) what proportion of reports of aggravated burglary to the police have resulted in *(a)* an arrest of a suspect and *(b)* a conviction in each of the last five years; [315456]

(3) how many incidents of aggravated burglary there were in *(a)* the Ribble Valley, *(b)* Lancashire and *(c)* England and Wales in each of the last five years. [315458]

Mr. Alan Campbell *[holding answer 4 February 2010]*: Statistics in relation to recovery rates for items stolen is not collected centrally.

In relation to part *(a)* of the second question, the arrests collection held by the Home Office covers arrests for recorded crime broken down by offence group eg violence against the person, sexual offences, burglary etc. Data for component offences within each offence group is not available and therefore data on arrests for aggravated burglary cannot be provided.

Referring to part *(b)* of the second question, the number of people found guilty at all courts for 'aggravated burglary', England and Wales 2004 to 2008, the latest available, is given in table 1. Court proceedings data for 2009 are planned for publication in the autumn, 2010.

The available information for the third question relates to offences recorded by the police and is given in table 2.

Table 1. Number of defendants found guilty at all courts for aggravated burglary[1], England and Wales 2004 to 2008[2, 3, 4]

	Found guilty
2004	284
2005	245
2006	248
2007	264
2008	292

[1] Includes the following offences:

i. Aggravated burglary in a dwelling.

ii. Aggravated burglary in a building other than a dwelling.

[2] The figures given in the table relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Excludes convictions data for Cardiff magistrates court for April, July, and August 2008.

Justice Statistics Analytical Services in the Ministry of Justice 080-10

Table 2. Recorded offences of 'aggravated burglary' from 2004-05 to 2008-09

Area	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Aggravated burglary in a dwelling[1]					
Ribble Valley CDRP[3]	0	0	1	1	3
Lancashire PFA[4]	82	76	72	72	34
England and Wales	2,538	2,162	1,806	1,572	1,455
Aggravated burglary in a building other than a dwelling[2]					
Ribble Valley CDRP[3]	0	1	0	0	0
Lancashire PFA[4]	1	7	8	9	2
England and Wales	453	356	279	214	182

[1] Domestic burglary.

[2] Non-domestic burglary.

[3] Crime and Disorder Reduction Partnership.

[4] Police force area.

Control Orders

Mr. Blunt: To ask the Secretary of State for the Home Department how much his Department spent on private security firms in respect of the oversight of individuals subject to a control order in each financial year since 2006-07. [319178]

Mr. Hanson *[holding answer 1 March 2010]:* The only involvement of private security firms in the oversight of individuals subject to a control order relates to the electronic monitoring of those individuals. This is carried out under contracts currently held by the Ministry of Justice. These contracts also cover all electronic monitoring of individuals within the criminal justice system in England and Wales.

The cost of the electronic monitoring of controlled individuals to the Ministry of Justice from April 2007 is set out in the following table. No breakdown of the costs of monitoring individuals subject to a control order is available for the period prior to April 2007 when these contracts were held by the Home Office.

Financial year	*Cost of electronic monitoring of control orders to the Ministry of Justice (£)*
2007-08[1]	74,900
2008-09	72,700
2009-10 (to the end of August)[2]	32,300

[1] The figure for 2007-08 is based partly on estimates.

[2] The figure for 2009-10 represents the most recent figure provided to the Ministry of Justice by the monitoring companies during the financial year and is based partly on estimates.

Countryside and Rights of Way Act 2000: Prosecutions

Ms Angela C. Smith: To ask the Secretary of State for the Home Department how many *(a)* prosecutions, *(b)* convictions and *(c)* orders there have been under section 14 of the Countryside and Rights of Way Act 2000. [318498]

Huw Irranca-Davies: I have been asked to reply.

Section 14(1) of the Countryside and Rights of Way Act 2000 relates to

> "placing or maintaining on access land notice deterring public use".

Section 14(2) and (3) stipulates

> "failure to comply with court order to remove notice deterring public use".

Data available on the Court Proceedings Database show that, between 2000 and 2008 (latest available), in 2002 there was one prosecution and one finding of guilt under section 14 of the Countryside and Rights of Way Act 2000. These data include section 14 sub-sections (1) (2) and (3) and it is therefore not possible to identify whether the proceedings were for placing or maintaining a notice or failure to comply with a court order.

Court proceedings data given above are on the principle offence basis which relates to persons for whom these offences were the principal offences for which they were dealt with. For example, when a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2009 are planned for publication in the autumn, 2010.

Departmental Advertising

Mr. Streeter: To ask the Secretary of State for the Home Department how much his Department plans to spend on television advertisements in 2009-10. [318974]

Mr. Woolas: During the financial year 2009-10 the Home Office has spent £4,344,769 on TV advertising.

Departmental Ministerial Policy Advisers

Chris Grayling: To ask the Secretary of State for the Home Department how many special advisers have been employed by his Department in each year since 1997; and what the average salary was for those special advisers in each such year. [317576]

Alan Johnson: The Government are committed to publishing an annual list detailing the number and costs of special advisers. Information for 2009-10 was published by my right hon. Friend the Prime Minister on 16 July 2009, *Official Report*, column 74WS. This information has been published since 2003.

Information prior to 2003 was provided at regular intervals and is available in the Library of the House.

Deportation

Chris Grayling: To ask the Secretary of State for the Home Department how many migrants were deported from the UK on the grounds that their presence was not conducive to the public good in each of the past 10 years. [318700]

Alan Johnson: In 2008 and 2009, the UK Border Agency removed or deported approximately 11,000 offenders. Of these, approximately 30 per cent. will have been removed on 'conducive' grounds. Information on those removed on conducive grounds from before 2008 would necessitate reviewing individual removal records. This would be a disproportionate cost.

This information is taken from Internal Management Information and is subject to change.

Deportation: Offenders

Chris Grayling: To ask the Secretary of State for the Home Department how many foreign nationals sentenced to one year or more in prison were not removed from the UK following the end of their sentence in each of the last 10 years. [318772]

Alan Johnson *[holding answer 25 February 2010]:* Between 2007 and 2009, the UK Border Agency removed approximately 15,000 foreign national offenders from the UK. Of these, approximately two-thirds had previously received a single or cumulative sentence of one year or more of which one-third were removed either before or within one month of the end of their sentence. The remainder were not removed following the end of their sentence and were, instead, either detained in a prison, an immigration removal centre, or released under UK Border Agency contact management conditions or by the Independent Tribunal Service on bail. Information regarding removals from before 2007 is not available electronically and could be obtained only by reviewing individual records. This would incur a disproportionate cost.

This answer is based on internal management information and is subject to change.

Drugs: Crime

James Duddridge: To ask the Secretary of State for the Home Department what assessment he has made of the trends in levels of illegal drugs sold by Somali nationals in *(a)* Southend and *(b)* England and Wales. [318205]

Mr. Alan Campbell *[holding answer 24 February 2010]:* A formal assessment into the trends in the sales of illegal drugs by Somali nationals has not been made. Drug offences are not separately identifiable by nationality.

The illegal supply of drugs is a serious matter. Trafficking in controlled drugs of all classes needs to be tackled robustly in order to reduce the harm drugs cause to communities and organised criminality associated with their supply.

The Government's strategy is to bear down on all points in the drugs supply chain in order to disrupt criminal gangs, stifle drug supply and reduce the harm caused to communities in the UK. Increasing quantities of drugs are being seized and organised crime groups and dealers disrupted.

The latest figure published show that in 2008-09, there were a record 241,090 drug seizures by police and UK Border Agency (including HMRC) in England and Wales, up six per cent from the 228,131 seizures the previous year. These figures include 3,988 drug seizures made by Essex police in 2008-09, an increase of 45 per cent. on seizures made in 2007-08 (2,747).

Feltham

Alan Keen: To ask the Secretary of State for the Home Department if he will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on the Department's policies since 1997. [316672]

Mr. Alan Campbell: The Home Office has introduced a range of policies and initiatives since 1997. However, it is not always possible to quantify their effects particularly at constituency level. Feltham and Heston comes within the Hounslow Crime and Disorder Reduction Partnership. The available statistical information therefore relates to the London borough of Hounslow at either CDRP or Basic Command Unit level.

In terms of police recorded crime in the Hounslow CDRP, between 2002-03 and 2008-09, total recorded crime fell by 28 per cent. More specifically:

Violence against the person - down 22 per cent.

Sexual offences - down 30 per cent.

Robbery - down 27 per cent.

Burglary - down 23 per cent.

Offences against vehicles - down 45 per cent.

Other theft offences - down 24 per cent.

Criminal damage - down 42 per cent.

Drug offences - up 160 per cent [up 12 per cent. in last year] (there has been increased recording of drug offences which was mainly attributable to the increased use of police powers to issue cannabis warnings).

Data prior to 2002-03 is not directly comparable because of the introduction of the National Crime Recording Standard in April 2002. Additionally, no data at borough level is available prior to 1998-99.

Hounslow BCU had 518 police officers as at 30 March 2009. The number of police officers has increased by 51 since 2003. Comparisons with 1997 for Hounslow BCU are not available. There were 98 Police Community Support Officers as at 30 March 2009 while there were none in existence in 1997.

The Crime and Disorder Act 1998 saw positive effects with the statutory duty to create a Crime and Disorder Reduction Partnership (CDRP). The CDRP has brought new ways of working in a cross-cutting way with the police, council and other key stakeholders and genuine partnership working to help tackle complex issues.

Along with the CDRP came the development of Safer Neighbourhood initiatives where there is now a dedicated police resource in each of the 20 wards of Hounslow which were not in place in 1997. Of the 20 Safer Neighbourhood Teams (SNTs) there are five in the Heston and Feltham wards, East, Central and West Heston and North and West Feltham. A more recent development is the Neighbourhood Community Safety Co-ordinators (NCSC). Part of the CDRPs pledge is to strengthen the work around community safety. This has included creating a new team of NCSCs, of which there are five: one covers Heston and Cranford and another covers Feltham. These co-ordinators are co-located at police stations throughout the borough. These officers will take a lead role in co-ordinating work around reducing crime, anti-social behaviour, alcohol and drugs by working with partners and residents in a designated area in the borough. (These officers have recently been recruited and Hounslow plans to launch the initiative in March.)

Before 1997 there were no bespoke powers to tackle anti-social behaviour but there are now a range of powers to deal with this issue. These include Anti-Social Behaviour Orders (ASBOs), and Designated Public Places Orders (DPPOs) from the Criminal Justice and Police Act 2001.

Hounslow is working hard tackling areas where there are poor perceptions of ASB especially where "rubbish and litter is lying around" and "vandalism/graffiti" is concerned. Hounslow have done a lot of work in this area over the past year and are confident of having better results in the 2010 Place Survey.

Another of Hounslow's CDRP pledges is to "introduce CCTV to more parts of the borough". They are providing a strategic community safety CCTV control room and roll out CCTV cameras in ten key sites across the borough.

The Neighbourhood Statistics Service provides a wide range of statistical information at Parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at:

http://neighbourhood.statistics.gov.uk./

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department when the Inter-Departmental Ministerial Group on Trafficking will next meet; and whether it plans to discuss the evaluation of its work on anti-trafficking responses in the UK. [318971]

Mr. Alan Campbell *[holding answer 1 March 2010]:* The next meeting of the Inter-Departmental Ministerial Group on Trafficking is scheduled for 14 April 2010.

The group routinely discusses work on anti-trafficking activities as part of its strategic oversight of the cross-Government UK Action Plan.

Illegal Immigrants: Employment

Chris Grayling: To ask the Secretary of State for the Home Department how many immigration officers have been stationed at postal hubs or depots in England and Wales in each of the last 10 years. [318703]

Alan Johnson: With the formation of the UK Border Agency (UKBA) in April 2008, responsibility for staffing postal hubs and depots transferred from HM Revenue and Customs, to the UK Border Force.

The United Kingdom's postal hubs and depots are located within the Central Border Force Region. It is Government policy to publish UKBA management information at a regional level, as location-specific information could provide value to those seeking to circumvent our controls.

Immigrants

Chris Grayling: To ask the Secretary of State for the Home Department how many people were convicted of *(a)* entering the UK in breach of a deportation order or without leave, *(b)* remaining in the UK after leave to enter or remain had expired, *(c)* assaulting an immigration officer and *(d)* trafficking people for exploitation in each year since 1998; and how many offenders in each category received the maximum available prison sentence or fine in each year. [318699]

Alan Johnson: The information requested is not recorded by the UK Border Agency. The Ministry of Justice is responsible for data regarding convictions which result from cases brought on behalf of the Home Office.

Immigration: Detention Centres

Chris Huhne: To ask the Secretary of State for the Home Department how many people have been detained in immigration removal centres having been granted leave to remain in UK for a given period, broken down by *(a)* sex, *(b)* age and *(c)* length of detention (i) prior to and (ii) following case determination. [318500]

Alan Johnson: The information requested is not available and could be provided only by examining individual records at disproportionate cost.

Information on people detained in immigration removal centres is available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

The latest information up to 31 December 2009 was published on 25 February 2010.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he plans to reply to the letter of 7 December 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. R. A. Ansari. [315017]

Alan Johnson: I wrote to my right hon. Friend on 10 February 2010.

Police

Jim Cousins: To ask the Secretary of State for the Home Department how many *(a)* cautions, *(b)* on-the-spot fines and *(c)* formal warnings were issued by each police force in (i) 2007-08 and (ii) 2008-09. [314004]

Mr. Alan Campbell: The number of cautions, penalty notices for disorder (PNDs) issued in each police force area in England and Wales is shown in Table 1 and Table 2, respectively. Data on cautions and PNDs are currently available to 31 December 2008 and are compiled by calendar year. Data provided by Ministry of Justice.

Cautions and court proceedings data for 2009 are expected to be published in the autumn, 2010.

The only formal warning statistics that are collected centrally are cannabis warnings. Police forces have been able to issue a formal warning for possession of cannabis, known as a cannabis warning, since 1 April 2004. Statistics on cannabis warnings for 2007-08 and 2008-09 are given in table 3.

Data provided by the Home Office.

Table 1: Number of cautions[1] [2] issued for all offences in England and Wales, by police force area 2007 and 2008

Police force area	*2007*	*2008*
Avon and Somerset	10,807	10,045
Bedfordshire	3,293	3,214

England	344,896	308,865
Dyfed-Powys	4,437	3,865
Gwent	5,735	4,651
North Wales	2,239	3,604
South Wales	5,588	5,909
Wales	17,999	18,029
England and Wales	362,895	326,894

Table 1: Number of cautions[1] [2] issued for all offences in England and Wales, by police force area 2007 and 2008

[1] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and warnings. These figures have been included in the totals.

[2] These cautions statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When an offender has been cautioned for two or more offences at the same time the principal offence is the more serious offence.

Note:

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Table 2: Number of penalty notices for disorder issued to offenders of all ages, by police force area, all offences, 2004[1]-08 England and Wales

Police force area	*2007*	*2008*

[1] Since 26 January 2009, penalty notices for disorder (PNDs) can be given for cannabis possession. Up to the end of March 2009 such PNDs were counted together with cannabis warnings.

Police: Information and Communications Technology

Paul Holmes: To ask the Secretary of State for the Home Department what recent estimate he has made of the number of hand held ICT devices used by police officers to receive information from and transmit information to police stations. [319597]

Mr. Hanson *[holding answer 1 March 2010]:* The total number of hand held ICT devices in use by frontline police officers as at 26 February 2010 is 42,824.

Police: Manpower

Chris Grayling: To ask the Secretary of State for the Home Department if he will make it his policy to increase the number of frontline police officers in England and Wales in the next five years. [318709]

Alan Johnson: The Government's priority is to protect the frontline and maintain a focus on increasing public confidence in the police service and achieving improvements in value for money. To support this the Government made clear in the pre-Budget report last December that it will provide sufficient funding in the next comprehensive spending review to enable police authorities to maintain current numbers of police officers, police community support officers and other staff exercising police powers in the years to 2012-13.

The decision on the number and mix of frontline officers and other staff that will best serve the public is an operational matter for individual chief constables and police authorities to determine.

Police: Pay

Mr. Hoyle: To ask the Secretary of State for the Home Department what the *(a)* median and *(b)* mean salary of a police constable in each police force was in (i) cash and (ii) real terms in each year since 1997. [319339]

Mr. Hanson: This information is not held centrally.

Prisoners: Deportation

Chris Grayling: To ask the Secretary of State for the Home Department how many foreign national prisoners were removed from the UK in each of the past 10 years. [318701]

Alan Johnson: The information requested in respect of foreign nationals removed from the UK prior to 2007 is not readily available and could be obtained only at disproportionate cost. Published figures for the UK Border Agency show that around 15,000 foreign nationals were removed or deported over the last three years.

This information is taken from Internal Management Information and is subject to change.

Sandwell

Mr. Watson: To ask the Secretary of State for the Home Department if he will set out, with statistical evidence relating as closely as possible to the borough of Sandwell, the effects on that borough of changes to his Department's policies since 1997. [316471]

Mr. Alan Campbell: The Home Office has introduced a range of policies and initiatives since 2000. However, it is not always possible to quantify their effects particularly at constituency level. The available statistical information therefore relates to the Sandwell Crime and Disorder Reduction Partnership area.

In terms of police recorded crime in Sandwell, between 2002-03 and 2008-09, total recorded crime fell by 41 per cent. More specifically:

Violence against the person—down 20 per cent.

Sexual offences—down 32 per cent.

Robbery—down 23 per cent.

Burglary—down 52 per cent.

Offences against vehicles—down 54 per cent.

Other theft offences—down 31 per cent.

Criminal damage—down 31 per cent.

Drug offences—up 37 per cent. (there has been increased recording of drug offences which was mainly attributable to the increased use of police powers to issue cannabis warnings).

Data prior to 2002-03 are not directly comparable because of the introduction of the National Crime Recording Standard in April 2002.

Sandwell comes within the West Midlands K1 and K2 Basic Command Units, which had 717 police officers as at 30 March 2009. The number of police officers has increased by 32 since 2003. Comparisons with 1997 for West Midlands K1 and K2 BCUs are not available. There were 78 police community support officers as at 30 March 2009 while there were none in existence in 1997.

The Crime and Disorder Act 1998 saw positive effects with the statutory duty to create a Crime and Disorder Reduction Partnership (CDRP). The CDRP has enabled new ways of working in a cross cutting way with the police, council and other key stakeholders to help tackle complex issues.

The Sandwell CDRP is well established and continues with good results in terms of tackling antisocial behaviour (ASB) and reducing crime and disorder.

Before 1997 there were no bespoke powers to tackle antisocial behaviour but there are now a range of powers to deal with this issue. These include antisocial behaviour orders and designated public places orders (DPPO) from the Criminal Justice and Police Act 2001 and as a result of their good work, Sandwell has been designated as an ASB Pioneer Area. The CDRP has also been instrumental in setting up an ASB Helpline in the borough; to date this has received 31,598 calls.

In 2008, the UK's first 'no rogue trader' zone was set up Sandwell, this is a borough-wide initiative between the police and trading standards to raise awareness of rogue trader tricks and encourage residents to report all suspicious activity.

Through the CDRP an award winning domestic violence partnership (Sandwell Organisation Against Domestic Abuse) was set up in 2006 which had received 12,017 referrals in total up to March 2009.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at:

http://neighbourhood.statistics.gov.uk/

Telephone Tapping: Newspaper Press

Chris Huhne: To ask the Secretary of State for the Home Department pursuant to the answer of 11 January 2010, *Official Report*, columns 701-02W, on telephone tapping, how many individuals have been warned by the Metropolitan Police Service about the possible illegal interception of their communications since July 2009; how many such individuals are in the *(a)* police, *(b)* military, *(c)* government and *(d)* royal category; and how many individuals were so contacted during the investigation which preceded the arrests of Clive Goodman and Glenn Mulcaire in August 2006. [319080]

Alan Johnson *[holding answer 1 March 2010]:* Further to my answer to the hon. Member on 11 January 2010, *Official Report*, column 702W, where information exists to suggest some form of interception of an individual's phone was or may have been attempted by Clive Goodman and Glenn Mulcaire, the Metropolitan Police Service (MPS) has taken all necessary steps to ensure those individuals have been informed.

The MPS is committed to respecting and protecting the privacy of those who may have been subject to illegal interception of their communications. The MPS considers that breaking down the small number of individuals contacted would undermine this commitment.

United Kingdom Human Trafficking Centre

Mr. Steen: To ask the Secretary of State for the Home Department how many staff *(a)* have been and *(b)* are seconded to work in the United Kingdom Human Trafficking Centre from (i) the Police, (ii) the UK Border Agency, (iii) the Prison Service, (iv) the Serious and Organised Crime Agency, (v) HM Revenue and Customs/UK Border Force, (vi) non-governmental organisations, (vii) social services and (viii) each other organisation. [319836]

Mr. Alan Campbell *[holding answer 1 March 2010]*: There have been 46 posts filled on secondment from the organisations listed above with 38 posts currently filled. The figures by agency are as shown in the table:

	Total secondment posts	*Currently seconded staff*
Police civilian staff	25	23
Police officers	5	
UKBA	5	3
SOCA	5	4
HMRC/UKBF	1	1
NGOs	3	1
Social Services	1	0
Other organisations (Crown Prosecution Service)	1	1

[1] There are no staff seconded from the Prison Service.

ENERGY AND CLIMATE CHANGE

British Nuclear Fuels: Pay

Angus Robertson: To ask the Secretary of State for Energy and Climate Change what the salary was of the Chief Executive of British Nuclear Fuels plc in 2009. [319811]

Mr. Kidney: In 2009, the salary of the Chief Executive of British Nuclear Fuels Ltd was £447,185.In addition he received £44,718 to be used at his own discretion to fund pension contributions.

Climatic Research Unit

Sammy Wilson: To ask the Secretary of State for Energy and Climate Change how much funding his Department has provided to the University of East Anglia's Climatic Research Unit in each of the last five years. [319423]

Joan Ruddock: Since the Department of Energy and Climate Change (DECC) was formed in October 2008, it has not provided any funding to the Climatic Research Unit at the University of East Anglia.

Departmental Thefts

Mr. Watson: To ask the Secretary of State for Energy and Climate Change how many thefts from his Department have been recorded since its inception. [318988]

Joan Ruddock: The Department has recorded three thefts since its inception.

Energy: Conservation

Mr. Drew: To ask the Secretary of State for Energy and Climate Change what support the *(a)* Energy Savings Trust and *(b)* Carbon Trust has provided to the residents of Stroud constituency in each year since 2004. [318978]

Joan Ruddock: The Energy Saving Trust (EST) is currently overseeing the Pay as You Save (PAYS) trials for DECC in which Stroud district council is participating.

EST's services are available to all UK citizens. These include a free telephone advice service (the Act on CO_2 Advice Line in England) which offers callers advice on energy saving behaviour, how to make our homes more energy efficient, energy efficient products, low carbon energy, sustainable travel, efficient use of water, and waste minimisation. Advice and self-help tools are also available through EST's web advice services.

The Carbon Trust (CT) provides specialist support to business and the public sector to help cut carbon emissions, save energy and commercialise low carbon technologies.

It is not possible to provide a funding breakdown at a constituency level for EST and CT support.

Environment Protection: Employment

Mr. Bain: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the proportion of the 1.2 million green jobs the Government plans to create by 2020 which are likely to be in Scotland. [318615]

Joan Ruddock: The figure of 1.2 million green jobs in the UK is an estimate of the potential growth in employment by 2014-15 based on an analysis of the Low Carbon and Environmental Goods and Services (LCEGS) sector (Innovas, March 2009, "Low Carbon and Environmental Goods and Services: An Industry Analysis").

While the Innovas study calculates that there were 73,000 people in the LCEGS sector in Scotland in 2007-08, it does not provide estimates of employment numbers at a country level in 2014-15.

Feed-in Tariffs

Dr. Pugh: To ask the Secretary of State for Energy and Climate Change whether his Department holds information for benchmarking purposes on feed-in-tariff schemes on other EU member states. [319547]

Joan Ruddock: The 'Report on Qualitative Issues in the Design of the GB Feed in Tariffs', prepared for the Department by Element Energy and Poyry Energy Consulting, contains that information and can be found on the DECC website at:

http://www.decc.gov.uk/en/content/cms/consultations/elec_financial/elec_financial.aspx

Natural Gas :Storage

Mr. Hoyle: To ask the Secretary of State for Energy and Climate Change if he will review Lancashire County Council's recent decision to refuse planning permission for additional gas storage capacity in that area. [310933]

Mr. Kidney: Lancashire county council refused planning permission for the Canatxx gas storage project at Preesall on 27 January 2010. My right hon. Friend the Secretary of State for Energy and Climate Change cannot review the case. The applicant may ask my right hon. Friend the Secretary of State for Communities and Local Government for a determination on appeal.

Nuclear Power Stations

Steve Webb: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the merits of pebble-bed technology in the design of new nuclear reactors. [318260]

Mr. Kidney: In line with the reactor designs currently being assessed by the regulators through the generic design assessment (GDA) process, any new nuclear reactors built over the next 10-15 years will be generation III designs. These designs are already available commercially. The pebble-bed reactor is a generation IV-plus design that is not yet available commercially and has not been considered as part of the GDA process.

Warm Front Scheme

Mr. Graham Stuart: To ask the Secretary of State for Energy and Climate Change how many complaints *(a)* his Department and *(b)* Eaga have received in relation to (i) the installation and (ii) failure of boilers installed under the Warm Front scheme in each of the last five years. [316429]

Mr. Kidney: The level of information requested in relation to complaints received by the Department is available for the period August to November 2009. During that time 421 expressions of dissatisfaction were received about a range of issues, of these, 80 cases relate to the quality of installation. The Department does not categorise complaints about boiler failure caused by manufacturing faults.

The following table shows the number of complaints received by eaga with regard to (i) boiler installation and (ii) boiler or system failure in each year under the present phase of the scheme (since 2005). The number of upheld complaints (complaints where a clear service failure has been identified) is shown alongside these figures.

	2005-06	*2006-07*	*2007-08*	*2008-09*	*2009-10*[1]	*Total*
Complaints -Installation	382	975	1,220	1,800	1,429	5,806
Upheld	29	78	47	185	174	513

Upheld	92	269	303	267	203	1,134

[1] Data run to 4 February 2010

WALES

Future Jobs Fund: Wales

Mrs. Gillan: To ask the Secretary of State for Wales which companies in Wales have made successful applications to the Future Jobs Fund; how many jobs have been created in respect of each application; when the jobs enabled by each application were advertised; and how many such vacancies have been filled. [318135]

Mr. Hain: The following organisations were successful in bidding for Future Jobs Fund money in Wales, with the number of jobs expected to be created in brackets:

Groundwork (240 jobs);

Rhyl City Strategy (322 jobs);

Cardiff City Council (289 jobs);

Hyfforddiant Ceredigion Training (100 jobs);

Pembrokeshire County Council (170 jobs);

Vale of Glamorgan Council (96 jobs);

Powys Partnership Future Jobs Fund (63 jobs);

City of Swansea's Employability Training (1,320 jobs);

Swansea Council for Voluntary Service (75 jobs);

WCVA (2,500 jobs);

Merthyr Tydfil Council (3,519 jobs);

Interlink (120 jobs);

Carmarthenshire County Council (291 jobs);

Neath Port Talbot County Council (288 jobs);

Newport Future Jobs Fund Partnership (472 jobs);

Coalfields Regeneration Trust (80 jobs).

These bids will bring a total of 9,945 jobs to Wales over the next 18 months.

Advertisement and recruitment into these positions is an ongoing process. Statistics for the number of starts are not yet available but are being collated by the Department for Work and Pensions.

JUSTICE

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Justice what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319097]

Mr. Wills: Throughout the Ministry of Justice (MoJ), as part of our continuing efforts to reduce energy consumption, staff are regularly reminded to turn off computers, monitors and other electrical equipment, unplug mobile phone chargers and switch off lights when rooms are not in use. As the 2010 Earth Hour event is on Saturday 27 March, many of our buildings will be unoccupied. The MoJ HQ estate will participate through contractors turning off any lighting not required and ensuring meeting room co-ordinators check video link screens and televisions are not left on standby.

The MoJ will publicise the Earth Hour event to staff through the staff Intranet.

Departmental Theft

Mr. Watson: To ask the Secretary of State for Justice how many thefts from his Department have been recorded in the last two years. [318996]

Mr. Wills: The Department records theft and other losses, but does not separately distinguish between the two for reporting purposes. The centrally recorded thefts and losses during the last two financial years for the Department and its predecessor, the Department for Constitutional Affairs (created in May 2007), including its agencies and other offices, are:

	Number
07-08	116
08-09	203

The number of such cases involving theft could be ovided only at disproportionate cost. This detail is corded in individual incident records held locally by e Department's various agencies and other business eas. The increase in the number of incidents is believed be due to the increased awareness of the requirement r reporting, arising from the Data Handling Review.

Ex-Servicemen: Prison

Mr. Llwyd: To ask the Secretary of State for Justice hether people *(a)* whose date of birth was navailable, *(b)* sent to prison before 1979 and *(c)* who d been reservists counted for the purposes of his epartment's determination of the number of veterans jails in England and Wales. [319840]

Maria Eagle: The methodology used by Defence nalytical Services and Advice (DASA) to estimate the oportion of armed forces veterans in prison was blished on the DASA website:

http://www.dasa.mod.uk/applications/newWeb/www/
lex.php?page=48&pubType=3&thiscontent=540&PublishTime
6:00:00&date=2010-01-25&disText=Single
20Report&from=listing&topDate=2010-01-25

n 25 January 2010.

The report describes in some length and detail who is contained in databases held by the Ministry of efence (MOD) and the Ministry of Justice (MoJ), the riables used in the matching process and the advantages d disadvantages of the approach taken.

As date of birth was a required variable only those cords that contained a date of birth were used. This nounted to around 81,000 valid records from the ison database and around 1.3 million valid records om the MOD database.

The date of the prison population extract taken to form the matching work was 6 November 2009. If a rson sent to prison before 1979 was still in prison on is date then their record would have been used in the atching process.

Reservists were not included in the matching process.

Mr. Llwyd: To ask the Secretary of State for Justice) whether people *(a)* whose first name was navailable, *(b)* under the age of 18 years, *(c)* who had anged their names on marriage and *(d)* known to e aliases were counted for the purposes of his epartment's determination of the number of service terans in prison; [319555]

(2) what the prison population was when his epartment made its determination of the number of rvice veterans in the prison system; [319556]

(3) what his most recent estimate is of the number of rvice veterans in HM Prison *(a)* Manchester, *(b)* urham and *(c)* Everthorpe; [319557]

(4) what his most recent estimate is of the number of rvice veterans under the supervision of the probation rvice on *(a)* court orders and *(b)* parole. [319558]

Maria Eagle: The methodology used by Defence Analytical Services and Advice (DASA) to estimate the proportion of Armed Forces veterans in prison was published on the DASA website

http://www.dasa.mod.uk/applications/newWeb/www/
index.php?page=48&pubType=3&thiscontent=540&Publish
Time=16:00:00&date=2010-01-25&disText=Single
%20Report&from=listing&topDate=2010-01-25

on 25 January 2010.

The report describes in some length and detail who was contained in databases held by the Ministry of Defence (MOD) and the Ministry of Justice (MoJ), the variables used in the matching process and the advantages and disadvantages of the approach taken.

The date of the prison population extract taken to inform this work was 6 November 2009. The total number of people in prison in England and Wales was 84,522. However, as only sentenced and remand prisoners aged 18 and over were matched, the denominator used was 81,071. Non criminal prisoners and those aged under 18 were excluded from the matching process.

No estimate of veterans in individual prisons has been made because this was outside the scope of the project.

The MoD and MoJ are currently working to estimate the proportion of armed forces veterans under the supervision of the Probation Service. Results will be published when complete.

Freedom of Information

Norman Baker: To ask the Secretary of State for Justice (1) whether the provisions of the Freedom of Information Act 2000 apply to documents relating to the administrative duties conducted on behalf of HM Courts Service by *(a)* the Lord Chief Justice, *(b)* the Master of the Rolls and *(c)* other judges; [319050]

(2) whether his Department accepts legal responsibility for the custody and control of documents relating to the administrative duties conducted on behalf of HM Courts Service by *(a)* the Lord Chief Justice, *(b)* the Master of the Rolls and *(c)* other judges. [319051]

Mr. Wills: Members of the judiciary do not carry out administrative duties on behalf of HM Court Service. There are accordingly no documents relating to such duties.

The Department does hold some information created by the judiciary in the course of discharging their judicial functions, and there may be occasions when the judiciary hold information on behalf of the Department. The Department's legal obligations in respect of such information under the Data Protection Act 1998, the Freedom of Information Act 2000 and the Public Records Act 1958 will depend on the facts of any given case.

Juries

Mr. Lancaster: To ask the Secretary of State for Justice (1) how many people summoned for jury service in Milton Keynes declined to carry out their service for each reason in each year since 1997; [319004]

(2) how many people *(a)* were summoned for and *(b)* undertook jury service in Milton Keynes in each year since 1997. [319005]

Bridget Prentice: The following table shows, on a national level basis for each calendar year from 2000 to 2008, the following:

(a) how many people have been required for jury service

(b) how many people have been supplied to the court for jury service

(c) how many people have been deferred from the original date they were summoned for jury service

(d) how many people have been excused from jury service

(e) how many people have been disqualified from jury service.

The Jury Central Summoning Bureau (JCSB) is not able to supply the information for Milton Keynes as the data cannot be extracted in this way by the computer system.

Data are organised under postal catchment areas to different Crown courts. Therefore residents from Milton Keynes could be summoned to either Aylesbury or Luton Crown court, which also covers other postal areas.

Members of the public summoned for jury service cannot decline to carry out jury service. However, a juror can apply to defer their jury service to a more suitable date within the forthcoming 12-month period if the original date is not convenient. Jurors can apply to be excused from jury service but their application must show good cause why they should be excused from attending.

Juries: Bexley

Mr. Evennett: To ask the Secretary of State for Justice how many people resident in the London Borough of Bexley *(a)* were summoned for and *(b)* undertook jury service in each year since 1997. [319470]

Bridget Prentice: The following table shows, on a national level basis for each calendar year from 2000 to 2008, the following:

(a) how many people have been required for jury service;

(b) how many people have been supplied to the court for jury service;

(c) how many people have been deferred from the original date they were summoned for jury service;

(d) how many people have been excused from jury service;

(e) how many people have been disqualified from jury service.

Information for each London borough is not held centrally as the information cannot be extracted in this way by the computer system. Residents from the London borough of Bexley could be summoned to one of five different court locations which also cover other postal areas.

Probation: Wales

Mr. Llwyd: To ask the Secretary of State for Justice at the management structure will be of the l-Wales Probation Trust. [319839]

Maria Eagle: An interim management structure has en implemented in preparation for transition to trust atus, which is as follows. This is based on the proposed structure put forward in the application for trust status. The final structure would be a matter for the trust's board and its chief executive when appointed.

Trust Board

Chief Executive

Director for Interventions and Business; Development Director for Resources; Director for Local Delivery

10 Local Delivery Unit Heads.

WOMEN AND EQUALITY

Departmental Energy

Dan Rogerson: To ask the Minister for Women and Equality what steps the Government Equalities Office plans to take to participate in the Earth Hour event on 27 March 2010. [319104]

Michael Jabez Foster: GEO's offices are in a Communities and Local Government building and will be subject to any response CLG makes to Earth Hour.

Departmental Internet

Mr. Heald: To ask the Minister for Women and Equality how many designs for its website the Government Equalities Office has commissioned since its inception. [318639]

Michael Jabez Foster: The Government Equalities Office has commissioned two designs for its website since its inception in October 2007.

Departmental Sick Leave

David Simpson: To ask the Minister for Women and Equality how many staff in the *(a)* Government Equalities Office and *(b)* Equality and Human Rights Commission have had five or more periods of sickness absence of less than five days in two or more of the last three years. [316451][1]

Michael Jabez Foster: The Government Equalities Office does not hold information on sickness absence from before October 2007. Since October 2008, no staff in the Government Equalities Office have had five or more periods of sickness absence of less than five days.

Four staff in the Equality and Human Rights Commission have had five or more periods of sickness absence of less than five days in two or more of the last three years.

Public Meetings

Mr. MacNeil: To ask the Minister for Women and Equality how many public meetings the Government Equalities Office has held in each year since its inception. [319348]

Michael Jabez Foster: No annual figures are kept but since its establishment in October 2007, the GEO has held the following public meetings:

consultations on the Equality Bill (8);

Women in Focus events, which promoted the use of the gender equality duty and aimed to improved outcomes for women offenders (10);

events that form part of the campaign to promote public appointments (29);

the Black And Minority Ethnic Women Councillor's Taskforce events (16); and

roundtable events to discuss the National Equality Framework (5).

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Dai Davies: To ask the Secretary of State for Defence (1) what reports have been received of the names of the 27 civilians killed by NATO action in Uruzgan province on 21 February 2010; [319237]

(2) what reports have been received of the names of the five civilians killed by NATO action in Kandahar on 15 February 2010; [319238]

(3) what reports have been received of the names of the 12 civilians killed by NATO action in Marjah on 14 February 2010 during Operation Moshtarak. [319239]

Mr. Bob Ainsworth: The International Security Assistance Force, of which the UK are an integral part, is deeply saddened by any incident involving civilian deaths. However, these incidents occurred outside of the UK area of operations and no UK forces were involved. In light of this, and the ongoing investigations into the incidents, it would not be appropriate for me to comment further.

Armed Forces

Michael Fabricant: To ask the Secretary of State for Defence which *(a)* hon. Members and *(b)* Members of the House of Lords responded in writing to the inquiry into national recognition of the armed forces undertaken by the hon. Member for Grantham and Stamford. [318667]

Mr. Kevan Jones: All those who were officially consulted by the inquiry team into National Recognition of the Armed Forces are named in the final report, a copy of which is in the Library of the House. Given that all other contributions were provided voluntarily by individuals on the understanding that they would be treated in confidence, it would be inappropriate for the Government to release their names.

Armed Forces Compensation Scheme

Dr. Murrison: To ask the Secretary of State for Defence what estimate he has made of the cost in 2009-10 to his Department of the changes to the Armed Forces Compensation Scheme announced on 10 February 2010. [318027]

Mr. Kevan Jones *[holding answer 22 February 2010]*: The Ministry of Defence (MOD) accounts for the liabilities arising from the Armed Forces Compensation Scheme on an accruals basis, which means that the full life-time value of awards is set aside in the year in which the injury, illness or death occurred, even though payments may be made through the Guaranteed Income Payments over an individual's lifetime. Details of the existing liabilities can be found in the Armed Forces Pension Scheme resource accounts which are placed in the Library of the House.

The MOD has estimated that the additional liabilities arising from the changes proposed in the review would be between around £30 million and £40 million per annum. These liabilities would be met from within existing provision in the Defence budget.

The liabilities (or cost) in 2009-10 do not arise until the necessary legislative amendments to the scheme are actually in place. The accounts in the financial year in which the legislation is made will reflect the change in liabilities arising from the review.

---

[1] *[Official Report, 15 March 2010, Vol. 507, c. 19-20MC.]*

Armed Forces: Leave

Andrew Rosindell: To ask the Secretary of State for Defence how many serving members of the *(a)* Army, *(b)* Royal Navy and *(c)* Royal Air Force have taken (i) maternity and (ii) paternity leave in the last 12 months. [319724]

Mr. Kevan Jones: The number of armed forces personnel who have taken either maternity or paternity leave, during the period 25 February 2009 until 24 February 2010, broken down by service is detailed in the following table:

Absence type	*Army*	*RAF*	*Navy*	*Grand total*
Maternity	760	500	280	1,540
Paternity	950	850	220	2,020

Note:
When rounding to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias. Due to the rounding the sum of the component parts may not equal the total.

Armed Forces: Pensions

Dr. Murrison: To ask the Secretary of State for Defence what estimate he has made of the number of people *(a)* eligible and *(b)* likely to file cases for review under the revised arrangements for the Armed Forces Pension Compensation scheme. [319455]

Mr. Kevan Jones *[holding answer 1 March 2010]*: All those personnel in receipt of an award under the Armed Forces Compensation Scheme (some 5,500 as at September 2009) will have their cases reviewed to ensure their awards reflect the recommendations made by Lord Boyce's review, which the Government have agreed to implement in full. There will therefore be no need for individuals to file their cases for review as the MOD will automatically conduct case reviews and contact all previous claimants to inform them of the increased benefits they will receive. We are committed to implementing the legislative changes arising from the review of the scheme within a year. Individual awards will be re-examined once the new legislation is in place. All new claimants under the scheme will, of course, benefit from the improvements being made in the same way.

Nick Harvey: To ask the Secretary of State for Defence how many *(a)* complaints and *(b)* requests for clarification on the taxation of war pensions his Department has received from former service personnel in the last two years. [319944]

Mr. Kevan Jones: War disablement pensions are not taxable and recipients of war disablement pensions are not affected by the recent issuing, by Her Majesty's Revenue and Customs, of incorrect tax code notices to recipients of attributable pensions under the Armed Forces Pension Scheme.

Information on the number of complaints and requests for clarification made to the Ministry of Defence on the tax code issue is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Training

Angus Robertson: To ask the Secretary of State for Defence how many graduates there were from Royal Air Force college Cranwell in each of the last 10 years; and how many of them are still employed within the RAF. [319243]

Bill Rammell: In 2005, the Initial Officer Training (IOT) course was restructured and a new data system was introduced. Retrieving data from pre-2006 would require a manual search of paper records and so this information could only be provided at disproportionate cost.

The number of Officer graduates from the Royal Air Force College Cranwell, by year, were:

	Number
2006	282
2007	371
2008	574
2009	547

The figures for 2006 are incomplete as the data collection did not commence until July, with the first graduation of the restructured IOT course. The increased output between 2007 and 2008 is due to an increase in RAF recruitment to meet the increasing demand in manpower establishment.

The number of graduates still employed within the RAF is not held centrally and could only be provided by manual searches through the Joint Personnel Administration database at disproportionate cost.

Angus Robertson: To ask the Secretary of State for Defence how many graduates there were from Commando Training Centre Royal Marines in each of the last 10 years; and how many of them are still employed within the Royal Marines. [319244]

Bill Rammell: The number of Royal Marines personnel to pass out of Commando Training Centre Royal Marines (CTCRM) in each of the last 10 years is as follows:

Commando Training Centre Royal Marines

	2000	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*	*2009*
RM officers	—	28	43	37	28	38	33	35	36	39
RM other ranks	500	566	602	663	612	458	568	569	557	574
AACC[1]	—	—	—	—	156	101	194	164	265	204
RMR RFCC[2]	—	—	—	—	46	48	46	47	66	66

[1] The All Arms Commando Course (AACC) is conducted primarily to train personnel who will serve either with or support of 3 Commando Brigade Royal Marines and is undertaken by service personnel from the Royal Navy, Army and Royal Air Force.

[2] The Royal Marine Reserve. Reserve Forces Commando Course (RMR RFCC) is undertaken by Royal Marine Reserve candidates prior to full Commando Training.

In order to provide the figures prior to 2001 for Royal Marine officers and before 2004 for AACC and RMR RFCC would require a manual search of records which could be provided only at disproportionate cost.

Information on how many of these graduates are still employed within the Royal Marines is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Vehicles

Norman Baker: To ask the Secretary of State for Defence how many times the Truck Cargo Heavy Duty convoy has had to return to base with its journey uncompleted for each reason in the last three years. [319189]

Mr. Quentin Davies: The Truck Cargo Heavy Duty convoy has not had to return to base with its journey uncompleted on any occasion in the last three years.

Armoured Fighting Vehicles

Mr. Swire: To ask the Secretary of State for Defence whether he has made an assessment of the merits of the use of mine-resistant ambush protected vehicles by the armed forces. [318074]

Mr. Quentin Davies: The term "Mine-Resistant Ambush Protected" or "MRAP" is a term used within the United States armed forces, and encapsulates a family of protected vehicles. Force Protection Industries have supplied Cougar vehicles for the US MRAP programme; two of these vehicles, the Cougar 4x4 and Cougar 6x6, are the base vehicles for the Mastiff and Ridgback protected vehicles in service with the UK armed forces.

Mastiff and Ridgback were acquired following assessments against a range of key requirements and ability to deliver within Urgent Operational Requirement timelines. Since their entry into service, these vehicles have an excellent protection record and are vehicles of choice for commanders.

Atomic Weapons Establishment: Floods

Norman Baker: To ask the Secretary of State for Defence with reference to the answer to the hon. Member for North Devon of 10 November 2009, *Official Report*, column 231W, on the Atomic Weapons Establishment: floods, when he expects discussions with insurers on the costs arising from the July 2007 flooding at the Atomic Weapons Establishment to be concluded. [319192]

Mr. Bob Ainsworth: Following analysis by Ministry of Defence officials of the Atomic Weapons Establishment Management Ltd. (AWEML) report on this issue, the matter has largely been concluded. Only one minor item remains to be agreed between AWEML and one of its contractors. It is anticipated that this will be resolved within three months.

Bomb Disposal

Nick Harvey: To ask the Secretary of State for Defence how much his Department has spent on *(a)* acquiring and *(b)* maintaining hand-held mine detectors in each of the last 10 years. [319157]

Mr. Quentin Davies: The Ministry of Defence has procured a range of hand-held metal detecting equipments that can be used for detecting mines and IEDs. Costs are only available from financial year 2006-07, the year of initial purchase, for the current primary equipment and are broken down as follows:

£ million

Equipment	*Acquisition cost*	*Maintenance cost*
2006-07	1.168	0
2007-08	2.345	0
2008-09	5.066	0
2009-10	8.216	0.136

In addition, approximately £3 million in total over the last 10 years has been spent on a range of specialist metal detectors. To break this figure down further, could be done only at disproportionate cost.

Nick Harvey: To ask the Secretary of State for Defence what percentage of his Department's hand-held mine detectors are *(a)* in service and *(b)* fit for purpose. [319158]

Mr. Quentin Davies: 100 per cent. of the Department's hand held metal detectors are in service and approximately 91 per cent. are available (i.e. fit for purpose).

Cadets

Michael Gove: To ask the Secretary of State for Defence how many *(a)* grammar, *(b)* comprehensive and *(c)* academy schools had operational Combined Cadet Forces in the last year for which figures are available. [319983]

Mr. Kevan Jones: As at 1 April 2009, the position in the state sector was:

State grammar schools: 22;
State academies: 4;
Other state schools: 34.

Chemical Weapons: Animals

Mr. Drew: To ask the Secretary of State for Defence pursuant to the answer of 9 February 2010, *Official Report*, columns 811-12W, on chemical weapons: animals, what the reasons are for the increase in the number of non-human primate tests between 2008-09; and whether any such tests have been conducted on human beings since 2005. [317541]

Mr. Quentin Davies: The number of procedures conducted on animals depends on the demand from the MOD research programme. The increase in the number of procedures returned by Dstl involving non-human primates in 2009 is due to the maturity of long term projects within the research programme. One of these projects concerns the development of new medical countermeasures which require the development of a non-human primate model of human infection. The model is required for the regulatory approval of new medical countermeasures to a range of bacterial and viral infections which are relevant in both military and civilian environments.

The other factor that contributed to the rise in numbers is another project which followed on from earlier studies conducted in a rodent species. These studies determined a necessity for work in a species closer to man to assess the clinical effects of the inhalation of various chemical materials.

The studies undertaken at Dstl Porton Down with human participants do not involve the use of chemical warfare agents. Studies involving the use of service volunteers since 2005 have included the assessment of candidate prophylactic and therapeutic drugs, and the physiological and psychological impact of wearing various combinations of personal protective clothing, including respirators.

Defence Nuclear Weapon Regulator

Norman Baker: To ask the Secretary of State for Defence pursuant to the answer of 14 December 2009, *Official Report*, column 825W, on the Defence Nuclear Weapon Regulator, what the *(a)* terms of reference and *(b)* mission and objectives are of the Defence Nuclear Weapon Regulator. [319185]

Mr. Kevan Jones: As explained in my answer on 14 December 2009, *Official Report*, column 825W, the Nuclear Weapon Regulator is an officer within the Defence Nuclear Safety Regulator (DNSR). The mission/objective of DNSR is to regulate the nuclear and radiological safety of the defence nuclear programmes so that they are managed with due regard for the protection of the work force, the public and the environment. As an individual, the Nuclear Weapon Regulator does not have a mission separate from that of the DNSR team as a whole.

The Nuclear Weapon Regulator's terms of reference are in the form of a letter of delegation from the head of DNSR which provides regulatory authority:

To give permission for nuclear activities on the basis of formal safety submissions, reviews and inspections.

To approve/agree nuclear safety submissions and safety management arrangements.

To offer formal regulatory advice to the authorisee's representatives.

To direct the postponement or cessation of specific nuclear weapons programme activity.

To assess the demonstration of emergency arrangements.

Defence Technology and Innovation Centre

Mr. Lidington: To ask the Secretary of State for Defence what his most recent estimate is of the budget outturn of the Defence Technology and Innovation Centre for 2009-10; and if he will make a statement. [318293]

Mr. Quentin Davies: The current 2009-10 outturn forecast for the Defence Technology and Innovation Centre is £308 million. This can be split into research expenditure of £303 million and operating costs of £5 million.

Mr. Lidington: To ask the Secretary of State for Defence what recent assessment he has made of the value for money of the Defence Technology and Innovation Centre; and if he will make a statement. [318294]

Mr. Quentin Davies: In April 2009 the Chief Scientific Adviser (CSA) commissioned an internal review of how all Science and Technology (S&T) is delivered within the Ministry of Defence (MOD).

The review determined that in the interests of achieving the best value for money from MOD's S&T investment, the science|innovation|technology top-level budget (SIT TLB) should stand down, with its tasks integrated in the future by the Centre TLB and the Defence Science and Technology Laboratory (Dstl). The Defence Technology and Innovation Centre (DTIC) is a part of SIT and thus it too will be standing down.

Departmental Housing

Angus Robertson: To ask the Secretary of State for Defence how much his Department received from *(a)* renting and *(b)* leasing its housing stock in Scotland to private companies or individuals in each of the last five years. [319354]

Mr. Kevan Jones: Service family accommodation (SFA) is provided to accommodate entitled service personnel and their families. However, where there is no short-to-medium term requirement for SFA, but a long-term requirement remains, the Department will do all it can to make properties available to the wider community.

While information for the last five years could be provided only at disproportionate cost, there are at present 15 SFA properties leased to Moray council for use as social housing at an annual rent of £3,600 per property. This arrangement began in 2009.

In addition, Tri-Service Accommodation Regulations allow for the occupancy of available SFA by eligible civilian occupants. There are currently six eligible civilian occupants of SFA in Scotland. Civilian occupancy charges are set in accordance with local market rates and at present this totals £2,755.34 per month.

Departmental Private Finance Initiative

Angus Robertson: To ask the Secretary of State for Defence how many of his Department's private finance initiative projects have been delayed because of problems obtaining finance; and what the monetary value is of the contract for each such project. [319235]

Bill Rammell: The Department is not aware of any Ministry of Defence private finance initiative projects that have been delayed because of problems obtaining finance.

Future Large Aircraft

Dr. Fox: To ask the Secretary of State for Defence how much additional funding the UK committed to the A400M programme at the EU Defence Ministers' meeting at Palma de Mallorca on 24 to 25 February 2010. [319990]

Mr. Quentin Davies: The UK did not commit any additional funding at this meeting.

Government Car and Despatch Agency

Grant Shapps: To ask the Secretary of State for Defence how much his Department paid to the Government Car and Despatch Agency in each of the last five years; how much it has spent on such payments in 2009-10; and what proportion of such payments was made in respect of the Government Car Service. [316420]

Mr. Kevan Jones: The Ministry of Defence (MOD) paid £90,035 to the Government Car and Despatch Agency (GCDA) in 2008-09, wholly for the Government Car Service (GCS). This amount includes the cost of the car allocated for use by the Secretary of State for Defence as reported by my right hon. Friend the Secretary of State for Transport in his written ministerial statement on 16 July 2009, *Official Report*, columns 79-80WS. The Secretary of State's car is provided as part of a range of security measures connected with the role. MOD payments to the GCDA so far in 2009-10 have totalled £90,535.

Iraq and Afghanistan

Angus Robertson: To ask the Secretary of State for Defence how many *(a)* Army, *(b)* Royal Navy and *(c)* Royal Air Force (i) fixed wing aircraft and (ii) helicopters are deployed in (A) Iraq, (B) Germany, (C) Afghanistan, (D) Cyprus, (E) Diego Garcia, (F) the Falkland Islands and the South Atlantic, (G) Gibraltar, (H) Kuwait, (I) Ascension Island, (J) the United Arab Emirates, (K) Oman, (L) Bahrain and (M) at sea. [316489]

Bill Rammell: There are no manned UK military aircraft deployed in Iraq, Cyprus, Diego Garcia, Gibraltar, Kuwait, the UAE or Ascension Island.

There are 12 Army helicopters permanently based in Germany, though some of these may be deployed on operations or in the UK for maintenance at any given time.

There are 12 RAF manned fixed-wing aircraft in Afghanistan. All three services have helicopters in Afghanistan and there are three Royal Navy helicopters deployed to Oman. I am withholding further information on numbers in operational theatres because it would, or would be likely to, prejudice the efficiency, security and capability of the armed forces.

In the Falkland Islands and the South Atlantic there are six manned fixed wing aircraft and two helicopters, all from the RAF.

There are no manned fixed-wing aircraft at sea. There are currently 10 Royal Navy helicopters at sea.

All figures and types are only for aircraft deployed on operations as at 23 February 2010. Aircraft may also be temporarily overseas for exercises or other short-term visits.

Military Aircraft: Helicopters

Dr. Fox: To ask the Secretary of State for Defence how many helicopters of each type in each armed service were *(a)* in service, *(b)* in the forward fleet and *(c)* fit for purpose on the latest date for which figures are available. [319492]

Mr. Quentin Davies: Operational capability is measured in terms of flying hours rather than the number of airframes available. All rotary wing operational requirements are currently being met.

Aircraft defined as available (i.e. fit for purpose) are those within the forward fleet that are considered capable of carrying out their planned missions on a given date. The number of helicopters available varies from day to day due to routine maintenance requirements.

All aircraft in the forward fleet which are not available are classified as short-term unserviceable. Aircraft in this category will be undergoing first-line maintenance, other minor works or being prepared for transportation. Aircraft which are short-term unserviceable can usually be made available relatively quickly.

The in service total includes aircraft in both the forward fleet and the depth fleet. Aircraft in the depth fleet are those undergoing modifications, depth maintenance, repair and those in storage.

Average across January 2010

Aircraft type	*In service*	*Forward fleet*	*Available*
Navy:			
Sea King 4/6	42	29	18
Lynx Mk3	27	19	10
Lynx Mk8	33	19	12
Merlin Mk1	42	23	14
Sea King Mk5	15	11	7
Sea King Mk7 (SKASac)	13	11	7
Army:			
Apache	67	44	18
N3	4	4	4
Lynx Mk7	77	44	29
Lynx Mk9/9A	23	9	8
Gazelle	27	22	14
Bell 212	8	8	8
RAF:			
Chinook Mk2/3	48	29	21
Merlin Mk3/3A	28	20	10
Puma	43	22	11
Sea King Mk3/3a	25	16	9

Military Aircraft: Training

Angus Robertson: To ask the Secretary of State for Defence how many training hours *(a)* helicopter pilots and *(b)* trainee helicopter pilots spent on average in each aircraft type in the Royal Air Force in each (i) year since 2005 and (ii) month of 2009. [319240]

Bill Rammell: To become a qualified RAF helicopter pilot individuals undertake initial flying training. Once qualified, pilots are trained to adapt their flying skills to a specific aircraft type which is known as operational conversion unit training. Both types of training are conducted through standardised packages with a set number of flying hours for each pilot. The level of flying required of each pilot for both categories has not changed significantly since 2005.

The training hours for initial flying training for each aircraft type are:

Squirrel: 84 hours, 45 minutes;

Griffin: 77 hours.

The training hours for operational conversion unit training for each aircraft type are:

Merlin: 29 hours;

Puma: 55 hours;

Chinook: 125 hours;

Sea King: 70 hours;

Augusta Western: 28 hours.

Pilots record their own training hours within their personal log books. To determine the average training hours helicopter pilots undertake outside of these training courses would require a manual extraction of data from each individual's flying log followed by analysis. This information is not held centrally and could be obtained at only disproportionate cost.

Public Expenditure

Mr. Swire: To ask the Secretary of State for Defence how much his Department has spent on joint European projects in each of the last 10 years. [318073]

Mr. Quentin Davies: After clarification I understand that your question refers to how much the Department has spent on joint European equipment acquisition projects over the past 10 years. Records containing the information you seek for all joint European equipment projects is not held centrally and could be provided only at disproportionate cost. I am, however, able to provide you with expenditure information on the largest of these projects drawing on information published in the Major Project Reports. This is provided in the table.

The table includes costs for the Type 45 destroyer project. This is a UK project, but an element of the costs relate to procurement of the Sea Viper (formerly PAAMS) missile, which is being procured collaboratively with France and Italy. The costs for Sea Viper are not recorded separately.

It has only been possible to provide expenditure incurred in-year for the years 2000 to 2008. This information was not collected for Major Projects Report 2009.

Ministry of Defence - major projects report

£ million

Description	*Cost up to March 2000*	*March 2001*	*March 2002*	*March 2003*	*March 2004*	*March 2005*	*March 2006*	*March 2007*	*March 2008*
A400M	—	—	2	0	36	67	94	135	230
Beyond Visual Range Air-To-Air Missile (BVRAAM)	—	—	—	83	41	91	86	69	97

Total	4,480	1,090	1,679	1,650	1,641	1,865	1,862	2,036	1,539

Royal Military Academy

Angus Robertson: To ask the Secretary of State for Defence how many graduates there were from RMA Sandhurst in each of the last 10 years; and how many of them are still employed within the Army. [319241]

Bill Rammell: The number of Regular and TA Officers who have graduated from the Royal Military Academy of Sandhurst in each of the last nine financial years is shown in the following table.

Output from RMAS

	Regular	*Territorial Army*
2001-02	714	257
2002-03	720	261
2003-04	713	287
2004-05	746	195
2005-06	752	115
2006-07	707	172
2007-08	712	217
2008-09	713	171
2009-10	645	157

Figures prior to financial year 2001-02 are not held centrally and could be provided only at disproportionate cost. Regular Officer information for 2009-10 does include a cohort of Officer Cadets who will pass out at Easter. Subject to any late removals from course this number may change. All TA courses for this period have completed.

Information on how many of those who graduated from Sandhurst in these years and are still employed within the Army is not held centrally and could be provided only at disproportionate cost.

Royal Naval College

Angus Robertson: To ask the Secretary of State for Defence how many graduates there were from Britannia Royal Naval College in each of the last 10 years; and how many of them are still employed within the Navy. [319242]

Bill Rammell: The number of Royal Navy personnel to pass out of Britannia Royal Navy College (BRNC) in each of the last 10 years is as follows:

Britannia Royal Navy College

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009
Royal Navy[1]	478	446	418	372	330	320	320	325	248	314
Royal Fleet Auxiliary	0	0	20	0	25	0	32	21	8	33
Foreign Nationals	55	37	41	48	65	41	40	63	60	77

[1] These figures include Royal Navy Reserve personnel.

Information on how many of these graduates are still employed within the Royal Navy is not held centrally and could only be provided at disproportionate cost.

Service Personnel and Veterans Agency: Manpower

Dr. Murrison: To ask the Secretary of State for Defence how many people the Service Personnel and Veterans Agency employs in each salary band. [319486]

Mr. Kevan Jones: The number of staff employed in the Service Personnel and Veterans Agency in each salary band for both military and civilian staff, as at 1 February 2010, are shown in the following tables:

Military

NATO Grades	Number
OF6	3
OF5	6
OF4	9
OF3	19
OF2	6
OR8	2
OR7	5
OR9	7
Total	57

Civilian

Broader banded grade	Number[1]
SCS	2
B1	4
B2	7
C1	37
C2	100
D	346
E1	335
E2	123
Skill zone 2	58
Skill zone 1	3
Medical advisor[2]	22
NHS[2]	7
Total	1044

[1] The figures for civilian staff are a headcount based on their substantive grade. Headcount is a measure of the size of the workforce that counts all staff equally regardless of their hours of work.

[2] Ministry of Defence staff employed on national health service terms and conditions.

Type 45 Destroyers

Andrew Rosindell: To ask the Secretary of State for Defence what timetable has been set for the delivery of the new Type 45 destroyers; and if he will make a statement. [319725]

Mr. Quentin Davies: The in-service date for HMS Daring, the first in the Class of Type 45 Destroyers, is expected to be declared later this year. The remaining five ships in the Type 45 Programme are expected to enter service progressively through to mid-2014.

Andrew Rosindell: To ask the Secretary of State for Defence what assessment he has made of the effectiveness of the Sea Viper missile system. [319727]

Mr. Quentin Davies: The effectiveness of the Sea Viper weapon system is being assessed through a rigorous trials programme to ensure that all the requirements of this complex system have been met and any problems resolved before it enters service.

Andrew Rosindell: To ask the Secretary of State for Defence whether he has made any official visits in connection with the new Type 45 destroyers. [319728]

Mr. Quentin Davies: Since August 2007, the current Secretary of State for Defence has made two official visits to HMS Daring, the first in the Class of Type 45 Destroyers; these visits were made when he was the then Minister of State for the armed forces. Details of these and all other official visits made by Defence Ministers in respect of Type 45 Destroyers are listed in the following table:

Date of visit	Defence Minister	Type 45 ship
2007		
14 August	Right hon. Bob Ainsworth MP, the then Minister of State for the Armed Forces	HMS Daring
2008		
29 February	Right hon. Baroness Taylor of Bolton, the then Minister of State for Defence Equipment and Support	HMS Duncan
4 September	Right hon. Bob Ainsworth MP, the then Minister of State for the Armed Forces	HMS Daring
17 November	Quentin Davies MP, Minister of State for Defence Equipment and Support	HMS Dragon
2009		
28 January	Quentin Davies MP, Minister of State for Defence Equipment and Support	HMS Daring
1 July	Kevan Jones MP, Minister of State for Veterans	HMS Dauntless
20 July	Bill Rammell MP, Minister of State for the Armed Forces	HMS Daring
7 and 8 October	Quentin Davies MP, Minister of State for Defence Equipment and Support	HMS Daring

LEADER OF THE HOUSE

Written Questions

Mr. David Hamilton: To ask the Leader of the House if she will take steps to ensure that all written questions due for answer on a named day before dissolution of Parliament receive a substantive answer. [320112]

Barbara Keeley: The clear expectation, as set out in the Guide to Parliamentary Work published by my office, is that Departments should ensure that Members receive a substantive response to their named day question on the date specified. However, it may not be possible for questions which are tabled for answer after the last sitting day of the Session to receive a reply.

The full 'Guide to Parliamentary Work' can be viewed at:

http://www.cabinetoffice.gov.uk/parliamentary-clerk-guide.aspx

CABINET OFFICE

Chequers

Mr. Hands: To ask the Minister for the Cabinet Office what guidance governs the display of fine china at Chequers. [318942]

Tessa Jowell: Chequers is established under the Chequers Estate Acts 1917 and 1958 and is administered by independent trustees. Any guidance governing the presentation of the collection is a matter for the trustees.

Community Infrastructure Levy

Mr. Stewart Jackson: To ask the Minister for the Cabinet Office whether the Office for National Statistics has classified the community infrastructure levy as a form of taxation. [319636]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent Parliamentary Question asking whether the Office for National Statistics has classified the community infrastructure levy as a tax (319636).

The Office for National Statistics (ONS) has not yet made a classification decision with regard to the Community Infrastructure Levy. Although the concept of a levy has been around for some time, having been part of the Planning Act 2008, ONS does not generally consider draft proposals as part of its classification process. Consequently, ONS has been waiting for the publication of the finalised version before formally considering it and making a classification decision.

The exact details of how the levy will be implemented have only been published recently, with the Community Infrastructure Levy Regulations 2010 laid before the House of Commons on 10 February 2010. ONS will make a formal classification decision on the levy in due course.

A summary of the UK National Accounts sector and transaction classification process is published on the ONS website at:

http://www.statistics.gov.uk/about/national_statistics/cop/downloads/NAclassification.pdf

Government Departments: Advertising

Mr. Maude: To ask the Minister for the Cabinet Office what advertising and marketing campaigns are being co-ordinated by the Central Office of Information in 2009-10; how many such campaigns that Office plans to co-ordinate in 2010-11; and what estimate she has made of the cost to the public purse of each such campaign. [318121]

Tessa Jowell: I have asked the chief executive of the Central Office of Information to write to the right hon. Member.

Letter from Mark Lund, dated 23 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [318121] asking for information regarding advertising and marketing campaigns co-ordinated by COI in 2009-10 and 2010-11.

Figures for campaigns, for the current year, co-ordinated by COI have not yet been finalised.

Accurate information for the current financial year will only be published once the annual accounts have been fully audited.

Estimates of the cost and number of campaigns are not held by COI but by the commissioning department.

Mr. Maude: To ask the Minister for the Cabinet Office how many companies participate in the Central Office of Information framework agreement for online advertising; what the monetary value is of the contracts under the framework agreement; and on what date that agreement was made in its final form. [318132]

Ms Butler: I have asked the chief executive of the Central Office of Information to write to the right hon. Member.

Letter from Mark Lund, dated 23 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [318132] asking for information regarding the online adverting framework.

The COI does not have a framework for online advertising, this may however be included on other frameworks that we manage, and a list can be found on our website:

www.coi.gov.uk

Government Departments: Marketing

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the Central Office of Information's contract procurement notice 2009/S 210-302171 for Brand and Brand Identity Framework, whether the proposed £4 million of expenditure is in relation to *(a)* branding in total or *(b)* establishing a framework agreement and approved suppliers. [318348]

Ms Butler: I have asked the chief executive of the Central Office of Information to write to the right hon. Member.

Letter from Mark Lund, dated 23 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [318348] asking for information regarding the allocation of expenditure in relation to the Brand and Brand Identity Framework.

The £4 million of expenditure relates to the estimated value of a framework agreement over a four year period.

Government Departments: Public Relations

Mr. Maude: To ask the Minister for the Cabinet Office what plans the Central Office of Information has to establish a framework agreement for public affairs firms as suppliers to Government departments and agencies. [318251]

Tessa Jowell: I have asked the chief executive of the Central Office of Information to write to the right hon. Member.

Letter from Mark Lund, dated 23 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [318251] asking whether COI has plans to establish a framework for public affairs firms.

COI has no plans to establish a framework for public affairs at this time.

Honours

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the Prime Minister's speech at Britain's Everyday Heroes Book Launch of 24 July 2007, how many individuals have received an Award for Social Technology to date. [318353]

Angela E. Smith: The UK Catalyst Awards—the community awards for social technology—were awarded to businesses that used social media to tackle current social challenges. A total of eight awards were received by businesses in 2008.

The event formed part of the work programme of the Council on Social Action. A full list of award winners from the 2008 UK Catalyst Awards can be found at:

http://www.enterpriseuk.org/get_involved/uk_catalyst_awards

A copy of the list will be placed in the Libraries of the House.

Jobseeker's Allowance: Leeds

Greg Mulholland: To ask the Minister for the Cabinet Office how many and what proportion of jobseeker's allowance claimants in Leeds, North-West constituency had been claiming the allowance for *(a)* up to three, *(b)* between three and six, *(c)* between six and 12 and *(d)* between 12 and 24 months in each month since September 2009. [319495]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking how many and what proportion of jobseeker's allowance claimants in Leeds, North-West constituency had been claiming the allowance for (a) up to three, (b) between three and six, (c) between six and 12 and (d) between 12 and 24 months in each month since September 2009. (319495)

The Office for National Statisties (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system.

The table attached shows the number of claims of JSA for people resident in Leeds, North-West parliamentary constituency, and the percentage of all claimants, by duration of the claim in each month since September 2009.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at

http://www.nomisweb.co.uk

Table 1 Number and proportion of persons claiming jobseeker's allowance by duration of claim resident in Leeds, North-West constituency

	Number of claimants (Thousand)					Proportions of claimants (Percentage)			
	Up to 13 weeks	Over 13 weeks up to 26 weeks	Over 26 weeks up to 52 weeks	Over 52 weeks up to 104 weeks	Total	Up to 13 weeks	Over 13 weeks up to 26 weeks	Over 26 weeks up to 52 weeks	Over 52 weeks up to 104 weeks
September 2009	1,050	440	385	180	2,085	50	21	19	9
October 2009	1,050	440	375	185	2,080	51	21	18	9
November 2009	965	490	365	215	2,055	47	23	18	10
December 2009	930	500	380	225	2,065	45	24	18	11
January 2010	890	540	430	230	2,110	42	26	20	11

Note:
1. Data rounded to nearest five.
2. Age and duration data are only available for computerised claims, which account for 99.7 per cent. of all claims.

Jobcentre Plus administrative system

Greg Mulholland: To ask the Minister for the Cabinet Office how many young people aged 16 and 17 years old in Leeds, North-West constituency have claimed jobseeker's allowance in each year since 2005. [319505]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking how many young people aged 16 and 17 years in Leeds, North-West constituency have claimed jobseeker's allowance in each year since 2005 (319505)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. Table 1 shows the number of people aged 16 and 17 resident in Leeds, North-West parliamentary constituency, claiming Jobseeker's Allowance (JSA) in January 2010 and January of each year since 2005.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Table 1: Number of persons[1] aged 16 and 17 claiming jobseeker's allowance resident in Leeds, North-West parliamentary constituency

As at January each year	*Leeds, North-West*
2005	5
2006	10
2007	5
2008	5
2009	5
2010	5

[1] Age data are only available for computerised claims, which account for 99.7 per cent. of all claims.
Note:
Data rounded to nearest 5.

Jobcentre Plus administrative system

Greg Mulholland: To ask the Minister for the Cabinet Tice what the average length of time was for which aimants aged between 18 and 24 years resident in eeds, North-West constituency were in receipt of bseeker's allowance in *(a)* each of the last 12 months d *(b)* each of the last five years. [319627]

Angela E. Smith: The information requested falls thin the responsibility of the UK Statistics Authority. have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I ve been asked to reply to your Parliamentary Question asking r what the average length of time was for which claimants aged tween 18 and 24 years resident in Leeds, North-West constituency ere in receipt of jobseeker's allowance in (a) each of the last months and (b) each of the last five years. (319627)

The number of people claiming Jobseeker's Allowance (JSA) is ken from the Jobcentre Plus administrative system. The length a claim has been defined as the time between the start of an dividual's claim and the count date in each reference month. able 1 shows the median length of live claims during the last months up to the latest available period in January 2010, and r January of each of the last 5 years for those people aged 18-24 sident in the Leeds, North-West Constituency.

National and local area estimates for many labour market atistics, including employment, unemployment and claimant ount are available on the NOMIS website at:

http://www.nomisweb.co.uk

Table 1: Median length of claims of jobseeker's allowance of persons1 aged 18-24 resident in Leeds, North-West constituency

	Leeds, North-West (median)
ears (as at January)	
006	13.5
007	11.7
008	11.2
009	9.8
010	12.1
Months	
February 2009	9.0
March 2009	10.1
April 2009	10.7
May 2009	11.4
June 2009	10.4
July 2009	6.8
August 2009	7.3
September 2009	8.4
October 2009	8.2
November 2009	9.7
December 2009	10.6
January 2010	12.1

[1] Length of claim data are only available for computerised claims, which account for 99.7 per cent. of all claims.

Jobcentre Plus Administrative System

New Businesses: Leeds

Greg Mulholland: To ask the Minister for the Cabinet Office how many businesses have started up in Leeds, North-West constituency since 1997; and how many of those businesses were operating in the latest period for which figures are available. [319503]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent Parliamentary Question concerning how many businesses have started up in Leeds, North-West constituency since 1997; and how many of those businesses were operating in the latest period for which figures are available [319503].

The ONS release on Business Demography at

www.statistics.gov.uk

gives information on five year survival rates, but these are not available prior to 2003. The table below contains the latest statistics available on survival into 2008 for Leeds, North-West.

Enterprise births and survival into 2008 for Leeds, North-West

	Births	Number surviving into 2008
2003	495	155
2004	315	175
2005	285	190
2006	305	240
2007	330	315

Pay

Mr. Amess: To ask the Minister for the Cabinet Office what the *(a)* mean, *(b)* median, *(c)* 10th percentile and *(d)* 90th percentile level of (i) private and (ii) public sector salaries in each (A) region and (B) industrial category was in each year since 1997. [318688]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your recent Parliamentary Question asking what the (a) mean, (b) median, (c) 10th percentile and (d) 90th percentile levels of (i) private and (ii) public sector salaries were in each of the years since 1997, broken down by (A) region and (B) industrial category. I am replying in his absence. (318688)

Annual levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for full-time employees on adult rates of pay, who have been in the same job for more than a year. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom.

Tables showing annual salary estimates for full-time employees according to the breakdowns you requested will be placed in the Libraries of the House. The figures are provided for each year from 1999, the earliest period for which annual earnings estimates are available.

Personal Income: Essex

Bob Spink: To ask the Minister for the Cabinet Office what estimate she has made of the average income of a household resident in *(a)* Essex and *(b)* Castle Point in the (i) private and (ii) social rented sector in each of the last three years. [318101]

Jim Knight: I have been asked to reply.

We use Households Below Average Income data to provide estimates of average incomes. However, the sample size of this survey is not sufficient to provide estimates for low-level geographies such as those requested.

Personal Income: Leeds

Greg Mulholland: To ask the Minister for the Cabinet Office what estimate she has made of the average income of a household in Leeds, North-West constituency in the *(a)* private and *(b)* social rented sector in each of the last three years. [319496]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent question asking what estimate has been made of the average income of a household in Leeds, North-West constituency in the (a) private and (b) social rented sector in each of the last three years. (319496).

The information requested is not available.

Population

Chris Huhne: To ask the Minister for the Cabinet Office what the population density was of each region of England in *(a)* 1980, *(b)* 1990, *(c)* 2000 and *(d)* 2010; and what the expected population density in each region is in (i) 2020, (ii) 2030 and (iii) 2050. [319986]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director-General for the Office for National Statistics, I have been asked to reply to your recent Parliamentary Question asking what the population density was of each region of England in (a) 1980, (b) 1990, (c) 2000 and (d) 2010; and what the expected population density in each region is in (i) 2020, (ii) 2030 and (iii) 2050. (319986)

The attached table shows population density, calculated for each mid-year, as requested. Figures for 1980 to the year 2000 are derived using mid-year population estimates and the relevant land area. Figures for 2010 to 2030 are derived using 2006-based subnational population projections and assume land areas for the UK constituent countries remain constant into the future. Population density figures for 2050 are not available.

Population density for Government office regions in England for selected years

Persons per sq km

	1980[1]	*1990*[1]	*2000*[1]	*2010*[2]	*2020*[2]	*2030*[2]
North East	309	301	297	301	312	322
North West	493	484	480	495	520	544
Yorkshire and The Humber	319	319	322	346	376	407
East Midlands	246	256	267	291	321	349
West Midlands	399	401	405	421	446	468
East	252	266	281	305	336	364
London	4,358	4,325	4,603	4,931	5,303	5,606
South East	376	396	419	445	479	512
South West	183	196	206	223	245	266

[1] Population densities are derived using mid-year population estimates and the relevant land area.

[2] Population densities are derived using 2006-based sub-national population projections, assuming constant land area for the UK constituent countries into the future.

Office for National Statistics

Social Leadership Forum

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the Prime Minister's speech at Britain's Everyday Heroes Book Launch of 24 July 2007, on what dates the Forum on Social Leadership has met since July 2007. [318352]

Angela E. Smith: Chain Reaction, the forum on social leadership, has held two annual conferences. The first was held on 17 and 18 November 2008 and the second on 12 November 2009.

The event formed part of the work programme of the Council on Social Action. For more information about both events see:

www.chain-reaction.org

Unemployment: Leeds

Greg Mulholland: To ask the Minister for the Cabinet Office what the level of unemployment in Leeds, North-West constituency was in each year since 1997. [319604]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking what the level of unemployment in Leeds, North-West constituency was in each year since 1997. (319604)

The Office for National Statistics (ONS) compiles unemployment statistics for local areas from the Annual Population Survey and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions. However, estimates of unemployment for the Leeds, North-West constituency are unavailable.

As an alternative, in Table 1 we have provided the number of persons claiming Jobseeker's Allowance for the Leeds, North-West constituency for January 2010 and January of each year since 1997.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Table 1. Number of persons resident in Leeds, North-West parliamentary constituency claiming jobseeker's allowance

January each year	*Number*
1997	2,167
1998	1,743
1999	1,505
2000	1,310
20[illegible]	1,061
2002	1,054
2003	1,133
2004	999
2005	917
2006	1,042
2007	1,034
2008	964
2009	1,640
2010	2,111

Jobcentre Plus administrative system

OREIGN AND COMMONWEALTH OFFICE

West Bank Checkpoints

. **Mrs. Ellman:** To ask the Secretary of State for
eign and Commonwealth Affairs what recent
ssment he has made of progress in the removal of
kpoints from the west bank. [319397]

r. Ivan Lewis: The UK welcomes Israel's easing of
e restrictions on movement and access in the west
k as a step in the right direction. While recognizing
el's legitimate security needs, we shall continue to
e the Israeli Government to reduce movement and
ss restrictions further.

Tzipi Livni

6. **Ms Katy Clark:** To ask the Secretary of State for
eign and Commonwealth Affairs what
resentations he has received on the law in relation to
versal jurisdiction, with particular reference to the
e of Tzipi Livni. [319398]

r. Ivan Lewis: I have discussed the law in relation to
versal jurisdiction, and in particular the case of
pi Livni, with Israeli Ministers. I have also received
respondence from a number of non-governmental
ups. Government officials have also been asked for
ormation on the UK's position by US and EU
nterparts.

EU Budget

17. **Philip Davies:** To ask the Secretary of State for
reign and Commonwealth Affairs what recent
essment he has made of prospects for reform of the
 budget. [319399]

Chris Bryant: The December European Council called
on the European Commission to publish a report in
der to provide orientations on priorities during 2010.
e Government remain committed to reform of the
 budget to make it fit for the 21st century, and will
ntinue to explore ways of achieving this with like-minded
ember states.

24. **Mr. Bone:** To ask the Secretary of State for
reign and Commonwealth Affairs what recent
scussions he has had on reform of the EU budget.
[319406]

Chris Bryant: Reform of the EU budget was last
scussed at the December European Council. Heads of
overnment agreed conclusions language calling on the
ommission to produce a report in order for the Council
 provide orientations on priorities during 2010. The
overnment remain committed to reform of the EU
dget to make it fit for the 21st century and will
ntinue to work with like-minded member states to
hieve it.

Sri Lanka

18. **Mr. Gerrard:** To ask the Secretary of State for
oreign and Commonwealth Affairs what recent
ssessment he has made of the political situation in Sri
anka; and if he will make a statement. [319400]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary released a written statement on 23 February 2010, *Official Report*, columns 36-38WS, updating the House on the political situation in Sri Lanka and outlining recent UK actions.

A link to the statement can be found here:

http://www.publications.parliament.uk/pa/cm200910/cmhansrd/cm100223/wmstext/100223m0009.htm#column_36WS

Pakistan

19. **Mr. David Hamilton:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the importance of the stability of Pakistan for the Government's policy on the region. [319401]

David Miliband: A stable, secure Pakistan enjoying good relations with her neighbours is important for UK objectives in South Asia and Afghanistan, particularly given the ongoing threat to UK forces in Afghanistan emanating from Pakistan's border areas. The UK and Pakistan, together with other international partners, are working closely together to support the extension of Government control over the border areas. £50 million of the Department for International Development (DFID)'s £665 million programme for Pakistan is going to support this stabilisation effort. The UK also strongly supports renewed dialogue between Pakistan and its neighbours, notably India, as an important component of wider regional stability.

Gaza

20. **Dr. Iddon:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last discussed the blockade of Gaza with his Israeli counterpart. [319402]

Mr. Ivan Lewis: The UK is deeply concerned by the humanitarian situation in Gaza. We continue to press the Israeli authorities to ease border restrictions further and to permit a greater flow of humanitarian aid, reconstruction materials, trade goods, and people into Gaza. This was most recently raised by the Secretary of State for International Development.

Iran

21. **Sir Malcolm Rifkind:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the political situation in Iran; and if he will make a statement. [319403]

David Miliband: Iranian authorities continue to suppress legitimate protest, restrict civil liberties and threaten violence, even execution, to silence dissent. But many Iranians continue to demand their fundamental rights. We urge the authorities to heed their citizens' calls, and ensure [illegible]etter future for all Iranians.

Falkland Islands

22. **Mr. Gray:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Argentinian ambassador on sovereignty over the Falkland Islands. [319404]

Chris Bryant: There has been no Argentine ambassador to the UK since July 2008. I have had no recent discussions on the sovereignty of the Falkland Islands with the Argentine embassy. The UK Government have no doubt about their sovereignty over the Islands.

Pregnant Women: Burkina Faso

23. **Harry Cohen:** To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on discrimination against pregnant women in Burkina Faso; and if he will make a statement. [319405]

Mr. Ivan Lewis: The Foreign and Commonwealth Office has noted Amnesty International's recent report on this issue. We are pleased to learn from Amnesty that President Compaoré of Burkina Faso met them on 12 February 2010 and committed to lifting all financial barriers to emergency obstetric care and access to family planning.

Burma: Arms Trade

Dr. Pugh: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 February 2010, *Official Report*, column 978W, on Burma: arms trade, whether his Department has had discussions with the government of *(a)* Canada, *(b)* New Zealand and *(c)* Brazil on a UN-mandated arms embargo against Burma. [319782]

Mr. Ivan Lewis: Following my right hon. Friend the Prime Minister's letter to the UN Secretary General and Security Council members in August 2009, we have made broad appeals to international governments to join the EU and ban the sale of arms to Burma. We have recently focused our diplomatic effort on raising the issue of a universal arms embargo with Burma's neighbours. We have also communicated our views to the Russian Government, as Russia is a notable supplier of arms to Burma. We have not yet raised an arms embargo with the Governments of Brazil, New Zealand or Canada. These and many other countries will be covered in a structured global campaign that will be launched shortly by the Foreign and Commonwealth Office.

Burma: Human Rights

Dr. Pugh: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 February 2010, *Official Report*, column 979W, on Burma: human rights, what discussions he has had in the United Nations Human Rights Council and the United Nations General Assembly on reports of crimes against humanity and war crimes in Burma. [319783]

Mr. Ivan Lewis: In both the Human Rights Council and UN General Assembly we have consistently raised our serious concern at reports of human rights abuses in Burma. Our approach reflects the representations we have had from a number of concerned parties who report on situations they believe amount to crimes against humanity and war crimes. Our judgment is that we would not be able to secure support within the UN Security Council for the actions that would be necessary to follow up with formal charges on those grounds. However, resolutions secured with strong UK support in the UN's human rights bodies make specific reference to human rights violations by the military regime.

Colombia: Politics and Government

Mrs. Moon: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received of statements by senior Colombian government officials linking senior members of the political opposition in that country to terrorist and subversive activity. [319750]

Chris Bryant: We have not picked up on recent reports of officials linking members of the opposition to terrorist and subversive activity. But we are aware of such statements having been made in the past, which are damaging to the credibility of Colombian politics and, more importantly, potentially dangerous to those whom the statements are directed at.

Democratic Forces for the Liberation of Rwanda

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the activities of the Democratic Forces for the Liberation of Rwanda following Rwanda's accession to the Commonwealth. [319651]

Mr. Ivan Lewis: The Democratic Forces for the Liberation of Rwanda (FDLR) continue to pose a destabilising presence in eastern Democratic Republic of Congo as violent attacks on civilians, particularly sexual violence against women, still occur. However efforts against the FDLR are ongoing, including recent military operations in the Kivus which have weakened the command and control structures, as have the arrests of key members of the leadership in Europe. Efforts in 2009 through the Disarmament, Demobilization, Repatriation, Resettlement and Reintegration programme have led to 1,997 FDLR being demobilised, with 1,552 repatriated to Rwanda, three times as many as in 2008.

Departmental Air Travel

Mr. Bain: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the savings in travel costs likely to be made consequent on the use by officials of his Department of economy class tickets for flights of up to five hours. [318613]

Chris Bryant: As part of a review of allowances we have proposed that all journeys of up to five hours (by train or air) should be taken in economy/standard class (including Eurostar). The Trade Union Side are now consulting their members about the proposals in the review. We estimate that using economy class for journeys up to five hours would save in the region of £600,000 per annum.

Diplomatic Service: Manpower

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has received advice on the permissibility of making redundant management service officers and replacing them in that capacity with locally-engaged staff; and if he will make a statement. [319429]

hris Bryant: To date there have been no compulsory undancies as a result of localisation of management cer positions. Some management officers have chosen ake voluntary early retirement. However no one has n forced to leave. Our policy is to avoid compulsory undancies wherever possible. In response to concerns sed by the trade union side, we sought advice on this estion and we are fully committed to following our al obligations in any redundancy situation should it se.

Government Hospitality: Wines

Mr. Watson: To ask the Secretary of State for reign and Commonwealth Affairs pursuant to the swer of 9 February 2010, *Official Report*, column 5W, on Government hospitality: wines, what portion of the backlog of data has been cleared ce the date of that answer. [320075]

Chris Bryant: Work on the Share Point Users database the Government Hospitality Cellar is on-going and undertaken by one civil servant as part of a much der range of duties and priorities. We are working wards a completion date of July 2010 for the system be fully updated.

Mr. Watson: To ask the Secretary of State for oreign and Commonwealth Affairs how many quests under the Freedom of Information Act 2000 s Department has received for information about the overnment wine cellar in the last three years. [320093]

Chris Bryant: Between 2007 and the end of 2009 overnment Hospitality (GH) received 18 requests under e Freedom of Information Act 2000 relating to the overnment Hospitality wine cellar or the GH Advisory ommittee for the Purchase of Wine. So far in 2010 H has received five Freedom of Information requests.

International Atomic Energy Agency

Mr. Dai Davies: To ask the Secretary of State for oreign and Commonwealth Affairs what matters were iscussed in his meeting with the Director-General of e International Atomic Energy Agency on 3 February 2010. [319894]

Mr. Ivan Lewis: My right hon. Friend the Foreign ecretary met the new Director General of the International tomic Energy Agency (IAEA) on 23 February during ukiya Amano's first official visit to the UK. They iscussed the latest developments on the Iranian nuclear le and other nuclear issues.

As a member of the IAEA Board, the UK is fully upportive of the Agency's work to ensure the robust mplementation of IAEA safeguards agreements in ountries of concern.

Nuclear Disarmament: Conferences

Mr. Dai Davies: To ask the Secretary of State for oreign and Commonwealth Affairs what epresentation his Department had at the global zero ummit on nuclear disarmament in Paris on 2 to February; and what evaluation he has made of the a) papers discussed and *(b)* conclusions reached at he summit. [319667]

Mr. Ivan Lewis: Our embassy in Paris represented the UK. My right hon. Friend the Prime Minister issued a statement welcoming Global Zero's work towards a safer world and setting out the UK's commitment to pursuing the goal of a world free from nuclear weapons.

At the summit, Global Zero launched their 2010 'Action Plan' which sets out a timeframed strategy towards zero in four phases, including a multilateral Global Zero accord. The UK firmly believes that sustainable global nuclear disarmament can only be achieved through a multilateral process, and stands ready to engage in a future broader multilateral process when the conditions are right. The UK is actively working to create the necessary conditions to enable countries to give up their nuclear weapons, verifiably and irreversibly.

Scientists

Martin Horwood: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government Chief Scientist has provided advice to *(a)* his Department and *(b)* the British Indian Ocean Territory (BIOT) Commissioner on the proposed marine protected area in the BIOT. [320087]

Chris Bryant: Marine Resources and Fisheries Consultants (MRAG) Ltd. is currently contracted by the British Indian Ocean Territory (BIOT) Administration to manage the Territory's fisheries. Professor Beddington stood down as Director of MRAG Ltd. on the announcement of his appointment by my right hon. Friend the Prime Minister on 1 October 2007. He has taken no part in any MRAG activities since that time. Since his appointment he has had no discussions with the Foreign and Commonwealth Office (FCO) or any other Department on fisheries with which MRAG is involved. Neither has Professor Beddington offered any advice on the proposed Marine Protected Area in BIOT. In responding to the FCO public consultation, the company's Development Director has declared MRAG's interest in the outcome of the consultation.

Southern Africa: AIDS

Mr. Borrow: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his own Department's specific commitments in the Government's AIDS strategy Achieving Universal Access apply to middle-income countries in Southern Africa. [319418]

Mr. Ivan Lewis: The Achieving Universal Access strategy does apply to middle-income countries in Southern Africa, although we do not expect to undertake activities in every middle-income African country. We are prioritising our limited resources to focus our activities in those countries where we can have the biggest impact on specific commitments.

For example, our High Commission in Windhoek supports politically and promotes advocacy of UN Children's Fund HIV/AIDS work in Namibia for orphans, women and vulnerable children (the Department for International Development (DFID) provides annual funding of approximately £1 million) and EU funded HIV/AIDS initiatives. Our High Commission also provided political support for the Namibian Government's 'Public Service Workspace Policy' on AIDS and for the US

President's Emergency Plan for AIDS Relief conference hosted by Namibia in June. In South Africa, our High Commission has helped DFID to agree the priorities and maximise the impact of their HIV/AIDS programme.

Foreign and Commonwealth Office Posts overseas also offer targeted lobbying and political support to DFID in low income countries.

Uganda: Oil

Mr. Gregory Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will hold discussions with British oil companies engaged in exploration in Uganda on the environmental effects in the region of such exploration activities. [319428]

Mr. Ivan Lewis: Our high commission in Kampala is in contact with British companies and other stakeholders engaged in the oil sector in Uganda. Uganda's oil and gas policy and proposed new oil legislation is aimed at addressing key priorities including resource management, revenue management and environmental protection. The UK and our international partners will continue to encourage the Government of Uganda to establish a comprehensive and transparent framework to ensure the responsible exploitation and management of its oil resources.

BUSINESS, INNOVATION AND SKILLS

Banks

Peter Luff: To ask the Minister of State, Department for Business, Innovation and Skills what discussions Ministers in his Department have had with *(a)* the Chancellor of the Exchequer, *(b)* the Governor of the Bank of England, *(c)* representatives of UK businesses, *(d)* any such bank or similar institution overseas and *(e)* the European Commission on the merits of establishing a state-owned investment bank; and if he will make a statement. [319912]

Mr. McFadden: Ministers in BIS have frequent discussions within and outside Government about options to ensure that there continues to be adequate investment to promote economic growth in the period ahead.

Cadbury: Fair Trade Initiative

Mr. Jamie Reed: To ask the Minister of State, Department for Business, Innovation and Skills whether he discussed with the purchasers of Cadbury any measures to maintain that company's commitment to the use of fairly traded cocoa, chocolate and other products; and if he will make a statement. [319170]

Ian Lucas: I have neither met, nor spoken to, representatives of Kraft. However, when Irene Rosenfeld, chairman and CEO of Kraft, met my right hon. and noble Friend the Secretary of State on 2 February, she confirmed that she expected the company's commitments to Fair Trade to continue.

Departmental Disabled Staff

Mr. Harper: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) its executive agencies of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff is. [317906]

Mr. McFadden: Based on management information, within the Department for Business, Innovation and Skills 7.8 per cent. of staff have declared a disability, 79.9 per cent. have declared that they do not have a disability and the remaining 12.4 per cent. of staff have chosen not to respond to the questionnaire. 0.8 per cent. of staff have declared themselves disabled and are working part time.

The following tables show the average salaries of both part-time and full-time by their pay band and disability status.

Full time staff

Grades	*Percentage of FT disabled staff*	*Average salary (£)*	*Percentage of FT non disabled staff*	*Average salary (£)*	*Percentage of FT non declared staff*	*Average salary (£)*
AA–AO	14.8	20,627	80.1	20,874	5.1	19,411
EO–HEO	8.6	28,326	74.8	28,876	16.6	27,200
SEO–G6	6.2	40,341	82.6	47,991	11.1	40,067
SCS	4.5	81,994	84.6	83,574	10.9	95,056
All FT staff	7.8	36,209	79.4	41,306	12.7	39,856

Part time staff

Grades	*Percentage of PT disabled staff*	*Average salary[1] (£)*	*Percentage of PT non disabled staff*	*Average Salary[1] (£)*	*Percentage of PT non declared staff*	*Average salary[1] (£)*
AA–AO	5.6	20,263	88.9	19,056	5.6	19,411
EO–HEO	8.5	27,016	80.8	27,116	10.8	27,200
SEO–G6	6.2	42,362	83.1	50,500	10.7	40,067
SCS	10.3	70,871	86.2	70,992	3.4	95,056
All PT staff	7.2	37,020	83.4	40,600	9.5	39,856

[1] The large differences between the average salaries of part time staff is due to the very small numbers of both those who have declared a disability and those who have not responded to the questionnaire which make up only 0.8 per cent. and 1 per cent. respectively of the Department's work force.

I have approached the chief executives of the Insolvency Service, Companies House, the Intellectual Property Office and the National Measurement Office they will respond to the Hon. Member directly.

Letter from Gareth Jones:

I am replying on behalf of Companies House to your Parliamentary Question tabled 10 February 2010, UIN 317906 to the Minister of State for Business, Innovation and Skills.

The proportion of Companies House staff known to be disabled is 3.1% and the median salary for both non-disabled and disabled staff is £18,320. This salary figure applies to both full-time and part-time staff. These figures are taken from the Annual Civil Service Employment Survey, published by the Office for National Statistics.

Letter from Peter Mason, dated 19 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question, tabled on 10 February 2010, to the Minister of State, Department for Business, Innovation and Skills asking for details of disabled staff employed by the Department and its agencies.

Information provided by the National Measurement Office (then known as the National Weights and Measures Laboratory) is included in the Annual Civil Service Employment Survey (ACSES) statistics published by the Office for National Statistics on 20 January 2010:

http://www.statistics.gov.uk/pdfdir/cs0110.pdf

Statistics in that Survey are based on self declaration of staff who wish to be considered disabled. In practice, no employee of the NMO has currently made such a declaration. Because the statistics depend on self declaration, no account is taken of members of staff who have medical conditions which have led them to make applications for reasonable adjustments under our equal opportunities or health & safety policies, but have not made such declarations.

Letter from John Alty, dated 16 February 2010:

I am responding in respect of the Intellectual Property Office to your Parliamentary Question tabled 10 February 2010, to the Minister of State, Department for Business, Innovation and Skills.

The IPO employs 905 staff of which 20 (2.2%) have declared a disability. Of this 20, 17 are full-time and 3 part-time.

Average salary costs are shown below:

(A) Full-time disabled: £28,266.10

(B) Full-time non-disabled: £30,808.36

(C) Part-time disabled: £17,955.07

(D) Part-time non-disabled: £26,337.83

Letter from Stephen Speed, dated 26 February 2010:

The Minister of State, Department of Business, Innovation and Skills (BIS) has asked me to reply to your question regarding how many and what proportion of staff in (a) his Department and (b) the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff.

There is a total of 2685 employees as at 1st February 2010. 357 (13.3%) of these are disabled. There is also a number of employees whose disability status is not known (163).

The table below gives average salary details[1].

£

	Disabled	*Non-disabled*
Full-time	(a) 25,606.80	(b) 26,206.76
Part-time	(c) 23,438.52	(d) 24,901.01

Departmental Written Questions

David Simpson: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 10 February 2010, *Official Report*, column 1117W, on departmental written questions, whether his Department maintains a database to monitor the progress of replies to parliamentary questions. [318383]

Mr. McFadden: Yes. The Department uses the database to monitor performance in answering parliamentary questions and will use it to produce published reports to Parliament in due course.

Music: Copyright

Mr. Maude: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the likely effect on tax revenues of the abolition of the exemption of charities from public performance licence requirements. [318350]

Mr. Lammy: The Government have made no assessment of the likely effect on tax revenues of the repeal of the statutory exemption from licensing requirements for the public performance of recorded and broadcast music by some charitable and not-for-profit organisations.

This measure is about providing a suitable legal framework for the music industry to ensure that the contribution made by musical performers and producers can be recognised. It is not a Government fiscal measure and therefore, following Better Regulation Executive guidance, it was not necessary to consider any impact on tax revenues.

Regional European Offices

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 10 February 2010, *Official Report*, column 1128W, on regional European offices, whether the Government Offices for the Regions *(a)* contribute to the funding of the regional European offices in Brussels and *(b)* hold copies of their accounts. [319012]

Ms Rosie Winterton: In 2009/10 three Government offices for the regions contributed to the funding of regional European offices in Brussels: GO East, GO East Midlands and GO North East. Neither holds copies of the accounts of those regional European offices.

Science: Expenditure

Mr. Touhig: To ask the Minister of State, Department for Business, Innovation and Skills how much the Government has spent on promotion of the UK's science base since 1997. [318147]

Mr. Lammy: Government spending on promotion of the UK's broad science base is widely distributed among the science-using Departments and a number of agencies and non-departmental public bodies, such as the research councils.

Within BIS alone (and formerly as DIUS and DTI), the Science and Society team spends a focused budget, drawn from the science budget allocation, on a number of key national activities. Budgets for this work have increased from around £1.25 million in 1997/98 to £17.4 million for the final year (2010/11) of the latest comprehensive spending review, reflecting both the sustained increases to the science budget and the increasing importance on public engagement and the relationship between science and society in the UK.

---

[1] Employees whose disability status is not known have not been included in any of the average salary data.

While BIS leads many Government activities, and is accountable to my right hon. and noble Friend the Minister of State for Science and Innovation, other Departments across Government directly promote either the science they fund, or the value of science in delivering their own objectives. For example, in January 2008 DCSF announced a £140 million strategy to educate the next generation of scientists and mathematicians, and provide more STEM teachers. This programme includes a significant science promotion element.

INTERNATIONAL DEVELOPMENT

Afghanistan: Opium

Mr. Sanders: To ask the Secretary of State for International Development what steps his Department is taking to reduce levels of production of opium in Afghanistan. [318975]

Mr. Michael Foster: The Department for International Development (DFID) is taking the following steps to support licit alternatives to opium production in Afghanistan:

Contributing £30 million over four years to the Comprehensive Agricultural and Rural Development Facility (CARD-F), a national programme designed to increase legal incomes and sustain poppy free districts across Afghanistan.

Spending around £5 million in support of Governor Mangal's Food Zone programme, to help distribute wheat seed, fertiliser and appropriate training to almost 40,000 farmers across Helmand province. The UK Conflict Fund will also contribute £3 million to this programme.

We are also considering further options to increase productivity nationwide.

Departmental Theft

Mr. Watson: To ask the Secretary of State for International Development how many thefts from his Department have been recorded in the last two years. [318995]

Mr. Michael Foster: The numbers of recorded thefts in the last two financial years were 10 in 2007-08 and eight in 2008-09.

Poland: Forestry

Martin Horwood: To ask the Secretary of State for International Development how much of the £100 million committed to forestry in Poznan in December 2008 has been *(a)* allocated and *(b)* spent. [319992]

Mr. Thomas: The UK announced up to £100 million of funding for forestry at Poznan in 2008. So far we have allocated £50 million to the Forest Investment Program (FIP), one of the multi-donor Climate Investment Funds, of which £12 million has been deposited. The FIP trust fund sub-committee is currently considering expressions of interest from 44 countries and regions, before selecting five pilots for funding. The UK is a member of this committee and will play a role in the deliberations. The remainder has been provisionally allocated to the FIP, and will be deposited in the next financial year, subject to good progress.

HEALTH

Alcoholic Drinks: Misuse

Mr. Lansley: To ask the Secretary of State for Health how many people aged *(a)* under 18 years and *(b)* 18 years and over were admitted to hospital with a condition related to alcohol misuse in each year since 1997-98. [318943]

Gillian Merron: The information is in the following table. It is important to note that the figures provided relate to admissions of patients rather than number of patients as a patient can be admitted more than once in a year.

Number of admissions of patients aged under 18 and 18 and over with an alcohol-related condition

	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09
Under 18	10,976	12,043	12,982	14,421	14,465	14,501	12,832
18 and over	499,197	557,374	631,203	721,091	784,655	848,763	932,391
Total	510,173	569,417	644,185	735,512	799,120	863,264	945,223

Note

Includes activity in English national health service hospitals and English NHS commissioned activity in the independent sector

Alcohol-related admissions

The number of alcohol-related admissions is estimated, based on the methodology developed by the North West Public Health Observatory. Figures for under 16s only include admissions where one or more of the following alcohol-specific conditions were listed

Alcoholic cardiomyopathy (I42.6)
Alcoholic gastritis (K29.2)
Alcoholic liver disease (K70)
Alcoholic myopathy (G72.1)
Alcoholic polyneuropathy (G62.1)
Alcohol-induced pseudo-Cushing's syndrome (E24.4)
Chronic pancreatitis (alcohol induced) (K86.0)
Degeneration of nervous system due to alcohol (G31.2)
Mental and behavioural disorders due to use of alcohol (F10)
Accidental poisoning by and exposure to alcohol (X45)
Ethanol poisoning (T51.0)
Methanol poisoning (T51.1)

Toxic effect of alcohol, unspecified (T51.9)

Number of episodes in which the patient had an alcohol-related primary or secondary diagnosis. These figures represent the number of episodes where an alcohol-related diagnosis was recorded in any of the 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) primary and secondary diagnosis fields in a Hospital Episode Statistics (HES) record. Each episode is only counted once in each count, even if an alcohol-related diagnosis is recorded in more than one diagnosis field of the record.

Ungrossed data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed)

Finished admission episodes

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. It should be noted that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Primary diagnosis

The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in the HES data set and provides the main reason why the patient was admitted to hospital.

Secondary diagnosis

As well as the primary diagnosis, there are up to 19 (13 from 2002-03 to 2007-08 and six prior to 2002-03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.

Data quality

HES are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Assessing growth through time

HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.

Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.

Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in out-patient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

Assignment of Episodes to Years

Years are assigned by the end of the first period of care in a patient's hospital stay.

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

Alcoholic Drinks: Prices

Mr. Hoyle: To ask the Secretary of State for Health what recent assessment he has made of the effects of pricing of alcoholic drinks on levels of alcohol abuse; and if he will make a statement. [318896]

Gillian Merron: In December 2008 the Department published an independent review of the effects of alcohol pricing and promotion from the School of Health and Related Research at the university of Sheffield. The review estimated the effects on health, crime and young people of a range of options including the impact of different levels of minimum unit price.

A copy of the publication "Independent Review of the Effects of Alcohol Pricing and Promotion from the School of Health and Related Research at the University of Sheffield" has already been placed in the Library.

We continue to look at how we can tackle the problems caused by cheap alcohol, while respecting the rights of responsible consumers and the Government have commissioned further research in this area.

Care Quality Commission

Mr. Syms: To ask the Secretary of State for Health how much the Care Quality Commission charged organisations for *(a)* initial and *(b)* repeat inspections in England in the last 12 months. [319908]

Mr. Mike O'Brien: The Care Quality Commission is the new integrated regulator for health and adult social care from 1 April 2009.

Regulated providers of adult social care and independent health care are charged fees by the Care Quality Commission in 2009-10. We have been informed by the Care Quality Commission that the total annual fees it charged organisations from 1 April 2009 to 31 January 2010 is £53.3 million. In the same period, the Care Quality Commission additionally charged independent health care organisations a total of £14,000 for repeat inspections.

Details of the fees charged to adult social care regulated providers is set out on the Care Quality Commission's website at:

www.cqc.org.uk/guidanceforprofessionals/registration/socialcare/fees.cfm

Details of the fees charged to independent health care regulated providers is set out on the Care Quality Commission's website at:

www.cqc.org.uk/guidanceforprofessionals/registration/independenthealthcareservices/howtoregister.cfm

For 2009-10, the Care Quality Commission does not charge fees for the registration and inspection of NHS bodies.

Mr. Syms: To ask the Secretary of State for Health what the average charge levied by the Care Quality Commission was for inspections of a *(a)* hospice and *(b)* district hospital in the latest period for which figures are available. [319911]

Mr. Mike O'Brien: The Care Quality Commission is the new integrated regulator for health and adult social care from 1 April 2009.

We have been informed by the Care Quality Commission that the average annual fee charged for a hospice for the period 1 April 2009 to 31 January 2010 is £1,629.

For 2009-10, the Care Quality Commission does not charge fees for the registration and inspection of national health service bodies.

Care Quality Commission: Dorset

Mr. Syms: To ask the Secretary of State for Health how much the Care Quality Commission charged organisations in Dorset for repeat inspections in the last 12 months. [319909]

Mr. Mike O'Brien: The Care Quality Commission is the new integrated regulator for health and adult social care from 1 April 2009.

We have been informed by the Care Quality Commission that it made no charges for repeat inspections of organisations in Dorset from 1 April 2009 to 31 January 2010.

Mr. Syms: To ask the Secretary of State for Health how much the Care Quality Commission charged hospices in Dorset for inspections in the last 12 months. [319910]

Mr. Mike O'Brien: The Care Quality Commission is the new integrated regulator for health and adult social care from 1 April 2009.

We have been informed by the Care Quality Commission that the total annual fees it charged hospices in Dorset from 1 April 2009 to 31 January 2010 was £5,663.

Dementia: Gloucestershire

Mr. Drew: To ask the Secretary of State for Health what financial support was allocated by Gloucestershire Primary Care Trust for *(a)* the treatment of and *(b)* research related to dementia in each of the last five years. [318900]

Phil Hope: The information is not available in the format requested. The Department allocated £150 million to the national health service over 2009-10 and 2010-11 to transform services for people with dementia. However, the Department does not break down primary care trust (PCT) revenue allocations by policies, at either the national or local level. Such information as is available about revenue allocations to PCTs in Gloucestershire is shown in the following table.

It is for PCTs to decide their priorities for investment locally taking into account both local priorities and the 'NHS Operating Framework'.

Revenue allocations to PCTs in Gloucestershire from 2004-05

Gloucestershire PCT	*Allocation (£ million)*
2004-05	515.9
2005-06	561.9
2006-07	669.7
2007-08	731.2
2008-09	771.1
2009-10	825.9
2010-11	868.5

Notes:

1. Allocations are not always comparable between years because of changes to baseline funding.

2. Allocations from 2006-07 include primary medical services funding.

3. PCTs were informed of their revenue allocations for 2009-10 and 2010-11 in December 2008.

Finance, Planning and Allocations Division, Department of Health

Departmental Advertising

Mr. Streeter: To ask the Secretary of State for Health how much his Department plans to spend on television advertisements in 2009-10. [318924]

Phil Hope: The Department's estimated expenditure on television advertising for the 2009-10 financial year is £26,150,885. This is a provisional figure until records are fully audited at the end of the financial year.

The figures do not include recruitment or classified advertising costs. Advertising spend is defined as covering only media spend (inclusive of agency commissions but excluding production costs, Central Office of Information commission and VAT). All figures exclude advertising rebates and audit adjustments and therefore may differ from Central Office of Information official turnover figures.

The Department evaluates its campaigns using a combination of robust techniques that help to identify exactly what works. In 2009, Smokefree marketing has driven over 715,000 four-week quits. Modelling has also demonstrated a one-year return on marketing investment (ROMI) of an additional £1.20 for every pound of public money spent and a three-year return of £3.84 for every pound spent. The Change4Life campaign has received nearly two million responses and over 400,000 families have signed up. It has been estimated that an additional 10,000 people have been given early access to care as a result of the Department's stroke (Act FAST) campaign in 2009-10, reducing the threat of death and disability.

Derriford Hospital

Mr. Swire: To ask the Secretary of State for Health (1) whether mechanisms are in place at Derriford Hospital to ensure that patients who require remedial surgery following full minimally invasive oesophagectomy procedures are operated on by the same surgeons who carried out the initial surgery; [319162]

(2) whether he has made an assessment of the level of post-operative care following full minimally invasive oesophagectomy procedures undertaken at Derriford Hospital following the transfer of the upper gastro-intestinal cancer unit from the Royal Devon and Exeter Hospital to Derriford Hospital; [319163]

(3) whether each of the trials that was being carried out at the Royal Devon and Exeter Hospital prior to the move of the upper gastro-intestinal cancer unit from the Royal Devon and Exeter Hospital to Derriford Hospital is continuing. [31[illegible]13]

Mr. Mike O'Brien: These are matters for the local national health service. I have therefore written to the chair of the South West Peninsula Cancer Network and asked him to write to the hon. Member.

Diabetes

Mr. Evans: To ask the Secretary of State for Health what estimate he has made of the cost to the national health service of treating patients with diabetes in the last 12 months. [319790]

Ann Keen: Estimates of national health service expenditure on diabetes are available from the programme budgeting returns. The following table shows the estimated gross level expenditure for diabetes from 2004-05 to 2008-09 in England. These figures include primary care trust, Department of Health, strategic health authority and special health authority expenditure. It should be noted that these figures do not include prevention expenditure or general medical services/primary medical services expenditure. This is considerable, but we cannot quantify it separately.

	Diabetes expenditure (£000)	*Department of Health gross expenditure (£000)*	*Diabetes as a proportion of gross expenditure (percentage)*
2004-05	687,402	71,922,179	1.0
2005-06	866,000	80,185,241	1.1
2006-07	1,043,021	84,193,209	1.2
2007-08	1,151,183	93,183,426	1.2
2008-09	1,262,066	96,814,987	1.3

Health Centres: Christchurch

Mr. Chope: To ask the Secretary of State for Health when he expects his Department to complete the disposal of its interest in the former health centre at Saxon Square, Christchurch. [320073]

Mr. Mike O'Brien: Following the decision of the local national health service trust not to utilise the property and the landlord's decision not to accept a surrender of the lease, agreement is being finalised with the landlord on the extent of repair works to be undertaken in compliance with a previously served repairs notice. Once agreement is reached, the works will be undertaken.

Consideration is also being given to potential alternative uses for the property before marketing but this requires the formal agreement of the landlord to vary the terms of the lease and discussions are in hand with the landlord.

The availability of the property has for some time been included on the Electronic Property Information Mapping Service (e-PIMS)—the central database of Government civil estate managed by the Office of Government Commerce.

Health Services: Isle of Man

Andrew Mackinlay: To ask the Secretary of State for Health pursuant to the answer of 1 February 2010, *Official Report*, column 56W, on health services: Isle of Man, how many individuals have their details on the dataset; and how much he estimates it would cost to redact personal information from the dataset. [319987]

Gillian Merron: Around 2,800 individual patient records are contained within the dataset. To print, sort, redact and check the records would incur disproportionate costs.

Health Services: Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Health how much was spent on NHS healthcare in Milton Keynes in each year since 1997. [319006]

Mr. Mike O'Brien: The following table shows the amount spent on health care services by Milton Keynes primary care trust from 2002-03 to 2008-09, which are the only years for which information is available by organisation.

Milton Keynes PCT: Purchase of health care, 2002-03 to 2008-09

£000

	Health care			
	Primary	*Secondary*	*Other*	*Total*
2008-09	77,346	210,309	476	288,131
2007-08	72,133	197,874	427	270,434
2006-07	70,386	174,667	316	245,369
2005-06	62,660	192,761	259	255,680
2004-05	56,529	167,612	342	224,483
2003-04	51,109	145,808	140	197,057
2002-03	38,034	140,139	388	178,561

Source: Audited summarisation schedules of Milton Keynes PCT

Mr. Lancaster: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses were employed in Milton Keynes in each year since 1997. [319007]

Ann Keen: The information requested is contained within the following table.

All doctors and qualified nursing staff in Milton Keynes: as at 1997 to 200[illegible]

Health Services: Reciprocal Arrangements

Andrew Mackinlay: To ask the Secretary of State for Health how much *(a)* the Government paid the Isle of Man government and *(b)* the Isle of Man government paid the Government for the cost of emergency admission to hospital and treatment under the reciprocal health agreement in each of the last 10 years for which information is available. [319988]

Gillian Merron: Under the current bilateral health care agreement, no monies change hands for emergency treatment provided in the United Kingdom, or the Isle of Man. An annual allocation (currently £2.8 million) is provided by the UK Government, to the Isle of Man Government, for additional elective treatment within the national health service.

Andrew Mackinlay: To ask the Secretary of State for Health what provisions will govern the exemption from charging of certain categories of UK residents admitted to hospital to receive emergency hospital treatment in the Isle of Man following the ending of the reciprocal health agreement between the UK and the Isle of Man; and if he will make a statement. [319989]

Gillian Merron: The exemptions that apply under the National Heath Service (Charges to Overseas Visitors) Regulations 1989, as amended, apply only to those accessing the national health service. As such, the exemptions do not extend to United Kingdom nationals accessing other health care systems, including the Isle of Man. Accident and emergency treatment will continue to be provided free of charge both in the UK and the Isle of Man.

Health Visitors: Leeds

Greg Mulholland: To ask the Secretary of State for Health how many health visitors were employed in Leeds, North-West constituency in each year since 1997. [319511]

Ann Keen: The information is not available in the format requested. The following table shows the number of health visitors in the Leeds Primary Care Trust (PCT) area as at 30 September each year.

	Headcount
2002	165
2003	181
2004	213
2005	195
2006	175
2007	166
2008	158

Notes:

1. Leeds PCT was formed in October 2006 from a complete merger of Leeds West PCT, Leeds North East PCT, East Leeds PCT, South Leeds PCT and Leeds, North-West PCT. Figures prior to 2006 are an aggregate of these predecessor organisations. It is not possible to map work force figures for these organisations prior to the creation of the PCTs in 2002.

2. Data Quality: the Information Centre for health and social care seeks to minimise inaccuracies and the effect of missing and invalid data but responsibility for data accuracy lies with the organisations providing the data. Methods are continually being updated to improve data quality where changes impact on figures already published. This is assessed but unless it is significant at national level figures are not changed. Impact at detailed or local level is footnoted in relevant analyses.

Hip Replacements

Mr. Syms: To ask the Secretary of State for Health how many hip replacement operations have been cancelled at NHS hospitals in the last 12 months. [318926]

Mr. Mike O'Brien: The number of cancelled operations for hip replacement is not collected centrally.

The Department collects data on the number of operations cancelled on the day of admission or day of operation, for non-clinical reasons, on a quarterly basis. However, these are not broken down to treatment function/specialty level. The latest published data can be found at the following web address:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsStatistics/DH_112182

Home Care Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 6 January 2010, *Official Report*, columns 470-1W, on care ho[illegible] finance, whether the efficiency savings are the sa[illegible] those local authorities are required to find [illegible] contribute towards the cost of providing free personal care at home for people in the greatest need. [318339]

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 6 January 2010, *Official Report*, columns 470-1W, on care homes: finance, whether the efficiency savings referred to are those which local authorities are required to find to contribute towards the cost of providing free personal care at home for people with the highest needs. [318893]

Phil Hope: Yes. The pre-Budget report announcement of £250 million efficiency savings from reducing variations in spend on residential care is an example of how savings can be made

> either to help meet the cost of providing free personal care at home for people in the greatest need, or to help meet wider pressures from demographic change.

Hospitals: Gardens

Mr. Syms: To ask the Secretary of State for Health what estimate he has made of expenditure on gardening and landscaping at NHS hospitals in the last five years. [318925]

Mr. Mike O'Brien: The information requested is not collected centrally. The Department does collect information on grounds maintenance costs, but this is a much broader category. This information relates to the pay and non-pay costs involved in the upkeep and maintenance of the grounds, gardens and external paths of the organisation site. It includes labour costs for all directly employed and contract staff. The information for the last five years is provided in the table.

	Grounds and gardens maintenance costs (£)
2008-09	30,018,479
2007-08	26,812,963
2006-07	28,051,758
2005-06	25,812,801
2004-05	24,424,117

The information has been supplied by the national health service and has not been amended centrally. The accuracy and completeness of the information is the responsibility of the provider organisation.

Mid Staffordshire NHS Foundation Trust Inquiry

Mr. Cash: To ask the Secretary of State for Health when he expects to make an assessment of the report of the inquiry into Mid Staffordshire NHS Foundation Trust commissioned by his Department and chaired by Robert Francis QC; and if he will make a statement. [318981]

Mr. Mike O'Brien: The Mid-Staffordshire NHS Foundation Trust inquiry's report was published on 24 February 2010. I refer the hon. Member to the oral statement made by my right hon. Friend the Secretary of State on 24 February 2010, *Official Report*, columns 309-25.

Midwives: North West

Mr. Hoyle: To ask the Secretary of State for Health what his most recent estimate is of the number of midwives *(a)* employed and *(b)* required in (i) Chorley, (ii) Lancashire and (iii) the North West. [318894]

Ann Keen: The information is not available in the format requested. The following table shows the number of qualified midwifery staff in the North West strategic health authority (SHA) area and Lancashire Teaching Hospitals NHS foundation trust as at 30 September 2008.

It is the responsibility of the national health service locally to plan, develop and improve health services according to the health care needs of their local populations and this includes ensuring the adequate provision of midwives.

Organisation	*Midwifery headcount*
North West SHA area	3,892
Of which:	
Lancashire Teaching Hospitals NHS foundation trust	226

Notes:
1. September 2008 is the latest available data. September 2009 is due to be published at the end of March.
2. Data Quality: The Information Centre for health and social care seeks to minimise inaccuracies and the effect of missing and invalid data but responsibility for data accuracy lies with the organisations providing the data. Methods are continually being updated to improve data quality where changes impact on figures already published. This is assessed but unless it is significant at national level figures are not changed. Impact at detailed or local level is footnoted in relevant analyses.

The Information Centre for health and social care Non-Medical Workforce Census.

Musgrove Park Hospital Taunton

Mr. Liddell-Grainger: To ask the Secretary of State for Health (1) what his most recent estimate is of the cost of the new surgical unit at Musgrove Park Hospital, Taunton; and what such estimate he had made in February 2009; [318935]

(2) what the cost to the public purse was of building work carried out at Musgrove Park Hospital in the last five years. [318936]

Mr. Mike O'Brien: The Department holds information on the major capital investment schemes that have been completed at Taunton and Somerset NHS Foundation Trust in the last five years.

The new cancer centre at Musgrove Park hospital was completed in July 2009 with a capital value of £21 million. Minor works were completed in April 2008 with a capital value of £1.2 million. The cardio catheter laboratory was completed in August 2007 with a capital value of £6.6 million.

Details of proposals being developed by Trusts such as that for the new surgical unit are not held by the Department. This is a matter for Taunton and Somerset NHS Foundation Trust. We have written to Rosalinde Wyke, Chair of Taunton and Somerset NHS Foundation Trust, informing her of the hon. Member's inquiry. She will reply shortly and a copy of the letter will be placed in the Library.

NHS: Construction

Mr. Lansley: To ask the Secretary of State for Health from which planned NHS building projects his Department has withdrawn support in the last 12 months. [319070]

Mr. Mike O'Brien: None.

NHS: Finance

Mr. Liddell-Grainger: To ask the Secretary of State for Health if he will make an estimate of the revenue which accrued to the NHS from the treatment of private patients at Musgrove Park Hospital, Taunton in the last 12 months. [319417]

Mr. Mike O'Brien: We are informed by the chairman of Monitor (the statutory name of which is the Independent Regulator of NHS Foundation Trusts) that in 2008-09 (the latest 12 month period for which audited data are available) the total income received by Taunton and Somerset NHS Foundation Trust from treating private patients was £1.82 million, which is calculated to 1.04 per cent. against its Private Patient Income Cap of 1.6 per cent.

Mr. Clappison: To ask the Secretary of State for Health what payments the NHS has made to *(a)* NHS-related charities and *(b)* NHS bodies as a result of the Icelandic banking collapse. [319538]

Mr. Mike O'Brien: The Department has been notified of two instances where payments were made by national health service bodies to support NHS organisations or related charities affected by the Icelandic banking collapse.

Firstly, the North West Strategic Health Authority forewent £6.5 million of its own capital funding in order to provide support to the Christie Hospitals NHS Foundation Trust cancer services development programme, after the trust lost a significant proportion of its investment funds following the collapse of the Icelandic bank, Kaupthing Singer and Friedlander.

Secondly, the nine primary care trusts from the South Central Strategic Health Authority have made a total of £1.5 million available to the Naomi House Children's Hospice Charity after it also lost deposits held in Kaupthing Singer and Friedlander.

The Department is not aware of any other similar instances where payments have been made.

NHS: Manpower

Mr. Gordon Prentice: To ask the Secretary of State for Health how many people are employed by primary care trusts in England in the direct provision of health services to patients. [318937]

Ann Keen: A table showing the number of staff by organisation type, including primary care trusts has been placed in the Library.

NHS: Parking

Mr. Syms: To ask the Secretary of State for Health how much was raised from *(a)* parking charges and *(b)* parking fines at car parks operated by NHS bodies in each of the last 12 months. [319032]

Mr. Mike O'Brien: These data are not collected centrally.

The management of national health service car parking is the responsibility of the NHS organisations locally. This includes the use of parking fines if the NHS consider it appropriate to reduce congestion and deter misuse of the facilities provided.

A consultation exercise on the provision of free car parking to NHS inpatient visitors and outpatients concluded on the 23 February 2010. The report analysing the responses will be published in due course.

NHS: Public Transport

Lynne Featherstone: To ask the Secretary of State for Health what discussions he has had with the Secretary of State for Transport on the effectiveness of public transport networks serving hospitals and GP surgeries; and if he will make a statement. [319333]

Mr. Mike O'Brien: The Department links with the Department for Transport with regard to transport planning and the provision of supporting guidance for the national health service. Guidance document 'Health Technical Memorandum 07-03 Transport management and car parking' provides advice about effective transport management, emphasising the importance of collaboration with local authorities and public transport coordinators on a community strategic networking basis. A copy of the document has been placed in the Library.

Effective public transport networks to serve health care facilities, including general practitioner practices, are achieved through local discussion between transport providers, local authorities and local health care organisations. The effective provision, which is determined at local level, takes into account the availability of public transport networks in the required area. In addition, this may be achieved through the town planning system.

The Department has recently been engaged with Department for Transport to produce the 'Active Travel Strategy' (February 2010), which advocates that healthy activity such as walking and cycling should also be positive options to access health care facilities. A copy of the document has been placed in the Library.

NHS: Sight Impaired

Dr. Starkey: To ask the Secretary of State for Health whether the NHS Summary Care Record system can include information on the preferred alternative format for communication with blind or partially-sighted patients. [319065]

Mr. Mike O'Brien: The information in the summary care record (SCR) of patients who choose to have a SCR is initially extracted from the general practitioner's record. Information can then be added and updated by the treating clinician, with the patient's express permission, including any information which the clinician or the patient regard as relevant to management of the patient's health.

There is a section in the SCR for demographic information which provides for patients' communication preferences to be recorded, for example, in the case of blind or partially-sighted patients, large print, Braille or audio.

Nurses: Pay

Mrs. Humble: To ask the Secretary of State for Health what the average salary of a nurse in the NHS was in the latest year for which information is available. [319536]

Ann Keen: The average salary for a nurse in the national health service in 2009 was £33,300.

Notes

In the context of this answer the term "Nurse in the NHS" has been interpreted as a qualified nurse.

Average earnings figure.*

Source:

* NHS Information Centre NHS Staff Earnings July-September 2009.

Nurses: Schools

Mr. Lansley: To ask the Secretary of State for Health how many (*a*) qualified and (*b*) other school nurses are employed in each (i) region and (ii) primary care trust; and how many such nurses were employed in each such area in 2004. [318941]

Ann Keen: A table containing the number of school nurses employed in each strategic health authority and primary care trust in 2004 and 2008 has been placed in the Library. Data for 2009 will be available when the annual workforce census is published on 25 March 2010.

Mr. Sanders: To ask the Secretary of State for Health how many and what proportion of (*a*) secondary schools and (*b*) associated primary school clusters are served by a full-time school nurse. [319539]

Ann Keen: The information requested is not collected centrally.

Our child health strategy "Healthy Lives, Brighter Futures" (published February 2009) recognised the importance of school health services. In particular, that school health teams provide a key link between education and health services, providing guidance and support on a range of health-related issues.

The Healthy Child Programme, published in October 2009, will be of further assistance in determining the composition of school health teams, which will vary from locality to locality according to local needs and service configurations. In most cases, they will have school nurses at their core, working with other professionals and support staff. The latest available figures for the number of national health service employed nurses working in a school environment show an increase of over 50 per cent., from 2,409 in 2004 to 3,643 nurses in 2008.

Pyrazinamide and Streptomycin

Julie Morgan: To ask the Secretary of State for Health whether there are plans to license (*a*) pyrazinamide and (*b*) streptomycin for use in the UK. [318139]

Mr. Mike O'Brien: The Medicines and Healthcare products Regulatory Agency (MHRA) granted a marketing authorisation, to Merck Sharp and Dohme, for a product containing pyrazinamide alone. It is indicated for the treatment of patients with active tuberculosis.

However, the new owners of the product, Genus Pharmaceuticals Ltd., informed the MHRA in 2007 that they were not currently marketing this product in the United Kingdom.

There are no pending applications for other products containing pyrazinamide alone indicated for treatment of patients with tuberculosis.

The MHRA granted a marketing authorisation, to UCB Pharma Ltd., for a product containing streptomycin sulphate alone. This product is indicated for the treatment of patients with tuberculosis.

This product is supplied on a named patient basis in the UK.

There are no pending applications for other products containing streptomycin alone indicated for the treatment of patients with tuberculosis.

Schizophrenia: Drugs

Lynne Jones: To ask the Secretary of State for Health what assessment has been undertaken of the National Institute for Health and Clinical Excellence Guideline on Schizophrenia, updated in March 2009, in respect of its compliance with *(a)* human rights and *(b)* mental capacity legislation relating to choice on whether to take medication. [319164]

Phil Hope: We have made no such assessment. The National Institute for Health and Clinical Excellence is an independent body and is responsible for ensuring that its guidance is compliant with relevant legislation.

Supranuclear Palsy

Mr. Amess: To ask the Secretary of State for Health (1) how many *(a)* males and *(b)* females in each age group in each area have been (i) diagnosed with and (ii) treated for progressive supranuclear palsy in each of the last five years; [319759]

(2) whether he has made an estimate of the number of *(a)* males and *(b)* females in each age group in each area diagnosed with progressive supranuclear palsy who died in each of the last five years. [319761]

Ann Keen: Information on the number of people diagnosed with progressive supranuclear palsy is not collected centrally.

We have made no estimate of the number of people dying from progressive supranuclear palsy.

Tranquillisers and Antidepressants

Jim Cousins: To ask the Secretary of State for Health how many *(a)* tranquillisers and *(b)* anti-depressants were prescribed (i) in total and (ii) per head in each primary care trust in England in each year since 2006; and what the net ingredient cost (A) in total and (B) per head was in each trust in each such year. [319334]

Mr. Mike O'Brien: The information requested has been placed in the Library.

Tranquillisers are defined as all those items appearing in paragraph 4.1.2 'Anxiolytics' of the British National Formulary (BNF) and anti-depressants defined as those items appearing in section 4.3 'Antidepressant drugs' of the BNF.

In October 2006, there was a reorganisation of primary care trusts (PCTs) and the 303 PCTs became 152 with some being abolished, others continuing and new ones being created. It is therefore not possible to give figures per head for each PCT in 2006. They have therefore not been included in the response.

West Dorset General Hospitals Trust

Mr. Chope: To ask the Secretary of State for Health (1) what steps he is taking to ensure that West Dorset General Hospitals Trust *(a)* improves its financial performance and *(b)* balances its budget; [320072]

(2) what discussions he had with the West Dorset General Hospitals Trust on his recent visit to Dorchester Hospital on the funding of redundancies. [320074]

Andy Burnham: I met with governors of the trust to hear first hand about its financial difficulties. The trust is working closely with the Department, the strategic health authority and Monitor to develop a robust plan for a sustainable financial recovery.

COMMUNITIES AND LOCAL GOVERNMENT

Affordable Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the *(a)* name, *(b)* location and *(c)* score was of each of the 136 housing projects giving funding under round one of the Kickstart Building for Life. [318728]

John Healey: The names and locations of successful round one Kickstart schemes are available on HCA's website:

http://www.homesandcommunities.co.uk/public/documents/kickstart-schemes-approve%20261109%20projects%20by%20region.pdf

HCA and CABE will produce detailed reports on all aspects of the delivery of Kickstart rounds one and two, including design, following the conclusion of the round two assessment process. These reports will include details of the design assessments undertaken on each scheme.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many homes have been sold to first-time buyers under the First Time Buyers Initiative since its inception. [319273]

Mr. Ian Austin: Provisional estimates are that there were 2,350 homes sold to first-time buyers under the First Time Buyers Initiative since its inception to September 2009.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many sales there have been under the Rent to Homebuy scheme since its inception. [319275]

John Healey: I refer the hon. Member to the answer I gave the hon. Member for Welwyn Hatfield (Grant Shapps) on 22 February 2010, *Official Report*, column 265W.

Affordable Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government what allocations have been made to each region by the Homes and Communities Agency under the *(a)* HomeBuy Direct, *(b)* New Build HomeBuy, *(c)* Open Market HomeBuy, *(d)* First Time Buyer's Initiative, *(e)* Social Homebuy and *(f)* Rent to HomeBuy schemes for (i) 2009-10 and (ii) 2008-11. [318720]

John Healey: The following table shows allocations made through the Homes and Communities Agency for 2009-10 and 2008-11 both to the end of January 2010 by region for HomeBuy Direct; New Build HomeBuy; Open Market HomeBuy; First Time Buyer's Initiative; Social HomeBuy and Rent to HomeBuy. The allocations shown are in respect of those made each year for 2008-09 and 2009-10 to end of January 2010 respectively. Allocations for 2010-11 will not be made until the next financial year. The 2009-10 allocations are included in the overall 2008-11 figures.

		Allocation (£ million)	
Sub-product type	*Region*	*2008-11*	*2009-10*
(a) HomeBuy Direct	Eastern	55.60	55.60
	East Midlands	35.66	35.66
	London	20.00	20.00
	North East	33.13	33.13
	North West	50.14	50.14
	South East	53.54	53.54
	South West	51.37	51.37
	West Midlands	42.69	42.69
	Yorkshire and the Humber	45.62	45.62
	Total	387.75	387.75
(b) New Build HomeBuy	Eastern	33.79	10.21
	East Midlands	21.15	2.43

Affordable Housing: Newcastle upon Tyne

Jim Cousins: To ask the Secretary of State for Communities and Local Government (1) which 33 sites were presented for consideration to the Homes and Community Agency as sites for new and affordable housing development by Newcastle upon Tyne City Council; [318824]

(2) how much funding has been provided to each of the projects in Newcastle upon Tyne supported by the *(a)* Homes and Communities Agency and *(b)* National Affordable Homes Programme in the last 12 months. [318826]

John Healey: It is not clear which 33 sites are referred ~~to in the~~ question and therefore we are unable to provide this information.

Investment by the Homes and Communities Agency in Newcastle-upon-Tyne in the 12 months to 31 December 2009 broken down by programme is as follows:

Programme	*Spend for 12 months to 31 December 2009 (£)*
National Affordable Housing Programme	6,320,000
Property and Regeneration	288,835
Places for change	426,940
Housing Market Renewal Grant[1]	44,828,347
Total	51,844,122

[1] This is spend for the Newcastle Gateshead Housing Market Renewal Pathfinder. It has not been possible to disaggregate the spend between the two areas. In addition, £48.6 million Decent Homes ALMO funding has been allocated to Newcastle-Upon-Tyne for 2009-10 financial year. This funding, while not direct Homes and Communities Agency funding, is managed and monitored by the Homes and Communities Agency on behalf of Ministers.

Association of Home Information Pack Providers: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much his Department has provided *(a)* directly and *(b)* by indirect means to the Association of Home Information Pack Providers since that body's inception. [319280]

Mr. Ian Austin: The Department has not provided any financial assistance to the Association of Home Information Pack Providers, either directly or indirectly.

Bullying: Office of the Deputy Prime Minister

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many formal complaints of *(a)* bullying and *(b)* harassment were submitted by staff of the Office of the Deputy Prime Minister during the period of its existence as a Government Department. [319227]

Barbara Follett: According to the information available to us, the Office of the Deputy Prime Minister received 13 formal complaints of bullying and harassment from its staff during the period of the Department's existence. Bullying and harassment were classified as one issue by that Department.

Community Development: Roehampton

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding was granted under the *(a)* Working Neighbourhoods Fund, *(b)* Neighbourhood Renewal Fund, *(c)* Deprived Area Fund, *(d)* Local Enterprise Growth Initiative, *(e)* New Deal for Communities, *(f)* Neighbourhood Management Pathfinders, *(g)* New Communities Fund, *(h)* European Regional Development Fund, *(i)* Inspiring Communities Grant, *(j)* Connecting Communities, *(k)* Single Regeneration Budget, *(l)* Land and Property Programme and *(m)* other regeneration programmes to Roehampton ward in each year since 2000. [318608]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave her on 10 February, *Official Report*, column 1027W, which details funding for these programmes by each local authority in London.

Community Infrastructure Levy

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether local authorities will be able to negotiate flexible Community Infrastructure Levy rates on a site-by-site basis to assist particular regeneration schemes. [319138]

Mr. Ian Austin: CIL Regulations provide that charging schedules may include differential rates where they can be justified either on the basis of the economic viability of development in different parts of the authority's area or by reference to the economic viability of different types of development within their area.

As an additional measure, the CIL regulations also provide for an exceptional cases procedure, through which (subject to certain conditions) individual developments could apply for a reduced CIL liability where its payment would render the development unviable. It will be for charging authorities to decide whether to permit such a procedure in their area and each request will be determined on a case-by-case basis.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether the Community Infrastructure Levy will be optional for local planning authorities. [319199]

Mr. Ian Austin: The Community Infrastructure Levy (CIL) is provided for by sections 205 to 225 of the Planning Act 2008. Section 206(1) of this Act states that "a charging authority may charge CIL in respect of development of land in its area". As potential charging authorities, local planning authorities will therefore be able to choose whether they decide to charge CIL in their area or not, to meet local infrastructure needs.

Council Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how much was allocated to the local authority new build fund from the *(a)* Budget 2009 announcements and *(b)* Housing Pledge; [318718]

(2) how much was allocated to the Kickstart Housing Delivery programme from the *(a)* programmes announced in Budget 2009 and *(b)* Housing Pledge. [318722]

John Healey: The local authority new build, and the Kickstart Housing Delivery programme are programmes announced as part of the housing stimulus package. Funding levels were announced at Budget 2009 and in the Housing Pledge, part of the Prime Minister's Building Britain's Future announcement. The budgets for each programme are published in the Homes and Communities Agency (HCA) corporate plan 2009-10-2010-11.

Council Housing: Property Transfer

b Spink: To ask the Secretary of State for munities and Local Government how many es from local authority housing stock in Castle were disposed of in each year since 1997. [318084]

r. Ian Austin: Information on disposals of local ority stock can be estimated from information on to buy, other local authority sales, large-scale tary transfers and small scale transfers to registered l landlords, and demolitions.

formation on all sales of local authority stock ding large-scale voluntary transfers and small scale fers to registered social landlords, right-to-buy and other local authority sales) is collected from authorities on the Quarterly Housing Monitoring return. This information is published to local ority district level on the Communities and Local ernment website in table 648:

p://www.communities.gov.uk/documents/housing/xls/
9863.xls

formation on local authority demolitions is reported cal authorities, for the financial year, on the Business Statistical Appendix (BPSA) return. BPSA data ns since 2001-02 are available at:

p://www.communities.gov.uk/housing/housingresearch/
usingstatistics/housingstatisticsby/localauthorityhousing/
aforms/

Council Housing: Standards

hn Mann: To ask the Secretary of State for munities and Local Government if he will issue ance to local authorities on *(a)* the fitting of idual thermostats for radiators under the Decent es Programme and *(b)* individual billing of ng for tenants in council housing served by munal heating systems. [318953]

r. Ian Austin *[holding answer 26 February 2010]:* Department will shortly be publishing, jointly with Department for Energy and Climate Change, the sehold Energy Management Strategy setting out iovernment's proposals to improve the energy efficiency ur housing stock to reduce carbon emissions. This be supported by a range of guidance on which we be consulting in due course.

hn Mann: To ask the Secretary of State for munities and Local Government what recent ssions he has had with local authorities on costs ng from the replacement of communal heating ms in council housing stock dating from the 1980s. [318954]

r. Ian Austin *[holding answer 26 February 2010]:* e have been no policy discussions between local orities and the Department for Communities and l Government regarding the costs involved in replacing munal heating systems.

hn Mann: To ask the Secretary of State for munities and Local Government what guidance Department has issued to local authorities on the mal efficiency of windows fitted during works led through the Decent Homes Programme. [318955]

Mr. Ian Austin *[holding answer 26 February 2010]:* The Decent Homes standard does not include any specification for the thermal efficiency of windows a landlord may decide to fit as part of their local decent homes programme. The standard is a minimum standard that homes must not fall below not a standard that work should be completed to.

John Mann: To ask the Secretary of State for Communities and Local Government who is responsible for inspecting works conducted on council housing stock to ensure compliance with the decent homes standard; and what mechanisms exist for appeals from residents where works are determined not to have reached the required standard. [318956]

Mr. Ian Austin *[holding answer 26 February 2010]:* A local authority is responsible for ensuring that their social housing stock does not fall below the Decent Homes standard and the works they do comply with the standard. If a council tenant considers that their home falls below the standard they should make a formal complaint to the local authority. If, after this process, they consider the local authority has treated them unfairly then they may make a complaint to the local government ombudsman.

Counsellors: Allowances

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much all local authorities spent on allowances and expenses for counsellors in each year since 1997 for which figures are available. [319263]

Ms Rosie Winterton: We do not collect or report on allowances paid to local authority members, which are matters for each council to decide, having regard to the recommendations of their independent remuneration panel. Councils are accountable for their decisions on allowances to their electorate and are required to make publicly available each year a statement of the amount of allowances paid to each member.

Departmental Meetings

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what meetings *(a)* Ministers and *(b)* special advisers in his Department have had with representatives of (i) the Association of Home Information Pack Providers, (ii) Luther Pendragon and (iii) Quintus Public Affairs in the last 12 months. [319281]

Mr. Ian Austin: I met with representatives from the Association of Home Information Pack Providers (AHIPP) on 25 November 2009. AHIPP were also represented at a meeting of home buying and selling stakeholders that I chaired on 15 December 2009. I am not aware of any meetings with Luther Pendragon or Quintus during the last 12 months.

Disadvantaged: Roehampton

Justine Greening: To ask the Secretary of State for Communities and Local Government what the level was of each indicator of deprivation in Roehampton ward as measured by the Index of Multiple Deprivation in each year since 2000. [318607]

Ms Rosie Winterton: The score and rank in each domain for the Roehampton ward are provided in the table where a rank of one would represent the most deprived ward and a rank of 8,414 would represent the least deprived ward.

Roehampton Ward	
Index of Multiple Deprivation Score	40.05
Rank of Index of Multiple Deprivation	1,116
Income Domain Score	34.61
Rank of Income Domain	897
Employment Domain Score	17.49
Rank of Employment Domain	1,123
Health Domain Score	.89
Rank of Health Domain	1,431
Education Domain Score	.56
Rank of Education Domain	2,203
Housing Domain Score	1.33
Rank of Housing Domain	641
Access Domain Score	-.59
Rank of Access Domain	6,312
Child Poverty Index Score	66.74
Rank of Child Poverty Index	206

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 29 January 2010, *Official Report*, column 1135W, on the Audit Commission: internet, what timetable has been set for publishing online the names of those councils which operate fortnightly refuse collections; and if he will request the Audit Commission to undertake a statistical analysis of the dataset in respect of the relationship between public satisfaction with waste collection services and the frequency of refuse collection services. [319125]

Ms Rosie Winterton: This is an operational matter for the Audit Commission and I will ask the Chief Executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 2 March 2010:

Information has now been received from DEFRA on the frequency of household waste collection. The Commission is already undertaking a statistical analysis of this data and comparing it with the published information included with the place survey on satisfaction with waste collection. Once the analysis has been completed for every district in England the information will be made publicly available on the Oneplace website:

http://oneplace.direct.gov.uk/Pages/default.aspx

A copy of this letter will be placed in Hansard.

Driveways: Planning Permission

Mr. Leech: To ask the Secretary of State for Communities and Local Government what steps he has taken to expedite the implementation of new planning regulations to allow the resurfacing of driveways with permeable paving materials without the requirement for planning permission. [318502]

Mr. Ian Austin: The Government's online service for planning, the planning portal, includes advice and guidance on how to implement the new planning regulations which allow surfacing of driveways with permeable paving materials. Similar advice together with the regulations is also on the departmental website. Ultimately it is for local authorities to encourage householders to make use of permeable materials, especially where there are particular risks of surface water run off leading to flooding. Local authorities are also responsible for enforcement where the new regulations are not observed.

Empty Dwelling Management Orders

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if he will publish a copy of the assessment undertaken for the Housing Act 2004 on whether the Act's provisions on empty dwelling management orders were compatible with the right to property in the European Convention on Human Rights. [319043]

Mr. Ian Austin: The Housing Act 2004 is fully compatible with the European Convention on Human Rights as stated by Lord Rooker when introducing the provisions during the passage of the Bill.

Energy Performance Certificates

David Howarth: To ask the Secretary of State for Communities and Local Government how many actions for non-compliance with energy performance certificates had been issued to landlords in the public sector by training standards officers on the latest date for which figures are available. [319482]

Mr. Ian Austin: No information is collected centrally about the number of penalty notices that have been issued by trading standards officers for non-compliance with the requirements of the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007 (S.I. 2007/991).

David Howarth: To ask the Secretary of State for Communities and Local Government how many display energy certificates for public buildings were recorded with the Landmark Agency in *(a)* 2008 and *(b)* 2009. [319771]

Mr. Ian Austin: The number of display energy certificates (DEC) for public buildings recorded on the DEC register operated by Landmark Information Group Ltd in *(a)* 2008 is 12,832; and *(b)* 2009 is 27,379.

Exeter and Devon (Structural Changes) Order 2010

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to page 26 of the Explanatory Memorandum to the Exeter and Devon (Structural Changes) Order 2010, (1) for what reason the 600 performance items have not been incorporated into the National Indicator Set; [319308]

(2) what each of the 600 performance items requested by the Government and inspectorates is; and what each of the 200 indicators referred to in his Department's press release of 20 January 2010 is. [319309]

Ms Rosie Winterton: The reference to 600 performance items is from a research document "Mapping the Local Government Performance Landscape." The research was commissioned by DCLG, carried out by PricewaterhouseCoopers and published in July 2006. We do not hold the data which underpinned the research. The findings of the research is available at:

http://www.communities.gov.uk/documents/localgovernment/pdf/151585.pdf

The 2006 Local Government White Paper "Strong and Prosperous Communities" committed to establishing a new local performance framework to replace the performance landscape of the time and streamline the separate performance arrangements at the local level. This new local performance framework was introduced from April 2008.

The press release referring to the National Indicator Set, is one element of the new local performance framework. The 2006 Local Government White Paper "Strong and Prosperous Communities" committed to establishing a single set of indicators of around 200 indicators measuring national priority outcomes delivered by local authorities working alone or in partnership. The National Indicator Set was introduced from April 2008 and currently contains 188 indicators. Further detail on the National Indicator Set is available at:

http://www.audit-commission.gov.uk/localgov/audit/nis/pages/default.aspx

Fire Services: Industrial Disputes

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether any fire authorities beside London have entered into contracts to provide fire cover in the event of industrial action according to records held by *(a)* the Chief Fire Adviser, *(b)* Firebuy and *(c)* the Fire Service College. [319297]

Mr. Malik: The Office of the Chief Fire and Rescue Adviser, Firebuy and the Fire Service College have no record of any fire and rescue authorities, other than London, which have entered into contracts with third parties to provide fire cover during industrial action.

Floods: Gardens

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer of 20 July 2009, *Official Report*, column 812W, on floods: gardens, if he will place in the Library a copy of the research report on permeable and impermeable surfacing. [319316]

Mr. Ian Austin: The research report 'Understanding permeable and impermeable surfaces' was published on 14 September 2009. It can be accessed on the Department's website at:

http://www.communities.gov.uk/documents/planningandbuilding/pdf/permeablesufacesreport.pdf

I have arranged for a copy of the report to be placed in the Library of the House.

Government Office for London: Expenditure

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 February 2010, *Official Report*, column 634W, on Government Offices for the Regions: procurement, how much the Government Office for London spent on *(a)* Digby Trout Restaurants, *(b)* Marks and Spencer and *(c)* The Peace Alliance; and (i) on what dates and (ii) for what purpose that expenditure was incurred. [319366]

Ms Rosie Winterton: Details of the Government Office for London's procurement are below. All costs relate to 2008-09.

Company	*Invoice date*	*Purpose of Expenditure*	*Cost (£)*
Digby Trout Restaurants	3 July 2008	Conference refreshments	1,274.88
Marks and Spencer (Lunch to Go)	April 2008 to March 2009	Refreshments for external meetings	882.29
The Peace Alliance	18 March 2008	Support the charitable London Peace Awards	500.00
Total			2,657.17

Government Office for the East of England: Expenditure

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 February 2010, *Official Report*, column 634W, on Government Offices for the Regions: procurement, how much the Government Office for the East of England paid to the Cambridge Hog Roast Company; on what dates; and for what purpose. [319129]

Ms Rosie Winterton: GO-East paid £920 to the Cambridge Hog Roast Company to supply catering at an event involving all staff at the Government office, held at the Cass Centre in Cambridge on the afternoon of 9 July 2008. Reflecting the changing role of the organisation, the event was held to give staff the opportunity to learn more about each other's work and share examples of their achievements.

Government Office for the South West: Expenditure

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 February 2010, *Official Report*, column 634W, on Government Offices for the Regions: procurement, how much the Government Office for the South West spent on Lyngford House in 2008-09; on what dates the venue was hired; for what purposes the venue was hired; and how many officials attended on each occasion. [319329]

Ms Rosie Winterton: The Government office for the south-west spent £816.50 on Lyngford House in 2008-09 for development sessions for 11 senior (Grade 6) staff. Sessions took place on 19 September 2008 and 12 January 2009.

Government Offices for the Regions: Expenditure

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much programme expenditure was directed through each Government Office in the last year for which figures are available. [319219]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave to the hon. Member for Bromley and Chislehurst (Robert Neill) on 23 February 2010, *Official Report*, columns 485-86W.

Government Offices for the Regions: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much his Department has contributed to the *(a)* administrative and *(b)* programme expenditure of each regional Government Office in each year since 2003; and what the equivalent forecast figures are for (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [319034]

Ms Rosie Winterton: The contributions from Communities and Local Government to the Government offices administrative budget are as follows:

	£
2003-04	55,950,000
2004-05	57,290,000
2005-06	60,060,000
2006-07	55,980,000
2007-08	57,013,000
2008-09	55,780,000
2009-10	63,537,000
2010-11	48,405,000
2011-12	[1]—

[1] Not yet determined

Programme expenditure which passes through the Government office network remains the responsibility of the Secretaries of State for the individual sponsor Departments and is accounted for by those Departments so a full picture of programme funding could be identified only at a disproportionate cost.

Government Offices for the Regions: Mass Media

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much the Government Office in each region has spent on media monitoring services in each of the last five years; and what companies were used by each office. [319217]

Ms Rosie Winterton: In the past, a number of Government Offices have taken media monitoring contracts to inform their role, including provision of regional intelligence to Whitehall Departments.

The means of doing this has varied between in house and use of contracted services. As of this year (2009-10) following a review of GO communications activity, there has been one media monitoring contract with TNS Media Monitoring Services which covers the whole GO Network. That contract operates from 2 June 2009 to 31 March 2010 with a total cost of £ 110,000 paid for by the Network centrally.

Media monitoring providers for Government Offices in the last five years

GO	*Year*	*Provider*	*Costs (£)*
GO East	2005-06	Records archived and unavailable	0

n/a = Not available.

[1] Plus VAT

[2] In 2008-09 the Network contracted media monitoring services on behalf of five Government Offices at a cost of £28,793.38.

Government Offices for the Regions: Operating Costs

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the projected running costs of the Government Office in each region are for 2009-10. [319269]

Ms Rosie Winterton: The projected running costs of the Government Offices for the Regions in 2009-10 are as follows:

	(£)
GO East	8,899,400
GO East Midlands	7,856,600
GO London	11,051,100
GO North East	8,673,300
GO North West	11,051,400

	(£)
GO South East	10,139,500
GO South West	9,625,000
GO West Midlands	11,373,700
GO Yorkshire and Humber	9,049,700

Green Belt

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Bromley and Chislehurst of 21 July 2009, *Official Report*, columns 1655-6W, on the green belt, in which local authority areas regional spatial strategies have recommended a review of the areas which should be designated as green belt. [319323]

Mr. Ian Austin: Regional spatial strategies (RSS) do not express any planning policies which refer to specific sites (local authority areas); they identify broad locations, which may be located in a local authority area or cross a number of local authority boundaries.

Homes and Communities Agency

Grant Shapps: To ask the Secretary of State for Communities and Local Government with which organisations the *(a)* Homes and Communities Agency, *(b)* Homes and Communities Agency Academy and *(c)* Tenants Services Authority share offices; and where each such office is located. [316350]

John Healey: Information can only be provided where the Department or one of its arm's length bodies either (a) owns the freehold or (b) sub-lets space or (c) HCA/HCA Academy/TSA collocates with another body within the CLG group. Where a property is let by a private landlord, it is not for the Department to comment on their commercial arrangements. The available information is as follows:

Buildings with shared occupancy where HCA sub-lets space:

Central Business Exchange II, Milton Keynes

HCA
sub-let: Milton Keynes Economic Learning Partnership

110 Buckingham Palace road, London

HCA
sub-let: Environment Agency

Buildings with shared occupancy where CLG is the landlord or sub-lets space:

Maple House (6th and 7th floor only)

HCA
TSA

The addresses for all HCA, HCA Academy and TSA offices are listed on their websites.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many staff are employed in each office of the *(a)* Homes and Communities Agency, *(b)* Homes and Communities Agency Academy and *(c)* Tenant Services Authority. [316412]

John Healey: Staff for The HCA and the HCA Academy are given in the table:

Location	*Total*
Ashford	21
Birmingham	33
Bristol	19
Buckingham Palace Road	81
Cambridge	26
Corby	11
Croydon	19
Exeter	25
Gateshead	108
Leeds	[1]69
Leicester	14
Manchester	17
Maple House	102
Milton Keynes	154
Nottingham	18
Palestra	44
Reading	17
Telford	15
Warrington	110
Wolverhampton	12
Graduate trainees	20
Total	935

[1] Of the 69 staff, 29 of these are Academy staff. This figure stands at 31 December 2009.

Staff for the TSA are as follows:

Location	*Total*
London	127
Manchester	36
Cambridge[1]	16
Leeds[1]	14
Leicester[1]	14
Wolverhampton[1]	4
Total[2]	211

[1] Staff in these locations work in office space belonging to either to Communities and Local Government or the Homes and Communities Agency.

[2] This total excludes the 40 TSA staff who work from home.

Households: Pensioners

Jim Cousins: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of households with a pensioner head of household in each tenure sector in *(a)* 2006-07, *(b)* 2007-08, *(c)* 2008-09 and *(d)* 2009-10; and what proportion of such heads of household was an owner-occupier in each of those years. [319337]

Mr. Ian Austin: Estimates of the number and proportion of households with a pension age householder in 2006-07, 2007-08 and 2008-09 are given in the following tables. Data for 2009-10 is not yet available. The 2006-07 and 2007-08 estimates are based on data from the Survey of English Housing; data for 2008-09 is from the English Housing Survey.

Pension age[1] households by tenure, England

			Thousands of households
	2006-07	*2007-08*	*2008-09*
Owner occupiers	4,127	4,231	4,526
Social renters	1,376	1,316	1,220
Private renters	304	239	294
All tenures	5,806	5,785	6,040

			Percentage of households
Owner occupiers	71	73	75
Social renters	24	23	20
Private renters	5	4	5
All tenures	100	100	100

[1] Male householder aged 65 or over, female aged 60 or over.

2006-07 and 2007-08 CLG Survey of English Housing

2008-09 CLG English Housing Survey

Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government what recent estimate he has made of the average deposit required of a first time buyer. [318737]

Mr. Ian Austin: The Department does not collect this information.

Housing: Construction

Bob Spink: To ask the Secretary of State for Communities and Local Government how many housing starts for housing of each type of tenure there were in *(a)* Essex and *(b)* Castle Point in the latest period for which figures are available. [318085]

Mr. Ian Austin: The following table shows the number of new house building starts in Essex county and Castle Point in the December quarter of 2009.

	Local authority	
	Essex	*Castle Point*
Private enterprise	898	34
Registered social landlords	72	0
Local authority	0	0
Total	970	34

Source:

New build starts from P2 quarterly returns submitted by local authorities and the National House-Building Council to CLG.

Housing: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government how many empty properties have been brought back into housing stock by Coventry City Council in each year since 2005. [319464]

Mr. Ian Austin: Information on the number of empty properties that have been brought back into housing stock by Coventry City Council in each year since 2005 is not held centrally.

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government how many *(a)* homes and *(b)* affordable homes have been built in Coventry since 1997. [319465]

Mr. Ian Austin: Information on the number of house building completions and the number of affordable new build homes delivered in Coventry since 1997-98 is provided in the following table:

House building completions and additional affordable new build homes delivered: Coventry, 1997-98 to 2008-09

	House building completions	*Additional affordable new build homes delivered*[1]
1997-98	*	110
1998-99	*	160
1999-2000	*	150
2000-01	*	60
2001-02	*	100
2002-03	806	260
2003-04	*	70
2004-05	*	120
2005-06	519	120
2006-07	871	190
2007-08	1,128	490
2008-09	506	240

'*' = Denotes not available.

[1] Rounded to nearest 10.

Sources

1. House building completions = Local authority returns to CLG and National House Building Council

2. Affordable new build homes = Homes and Communities Agency Investment Management System (IMS) and local authority returns to CLG

Not all affordable housing is delivered through new build completions, supply can also come from the acquisition and refurbishment of private sector homes. In 2008-09 for example a total of 270 additional affordable homes were delivered in Coventry.

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government how many homes have been built as a result of the Kickstart initiative in Coventry to date. [319466]

John Healey: Under round one of the Kickstart initiative, allocations of £973,000 were made to schemes in Coventry to provide a total of 111 homes all of which will be built by the end of March 2011.

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government how many home repossessions there have been in Coventry in each year since 1997. [319467]

Mr. Ian Austin: There are two independent sources of data on actual numbers of mortgage possessions: The Council of Mortgage Lenders (CML) and the Financial Services Authority (FSA). However both are only available for the United Kingdom as a whole.

Housing: Energy

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what estimate his Department has made of the average Energy Performance Certificate rating of a house built to Code for Sustainable Homes Level *(a)* 1, *(b)* 2, *(c)* 3, *(d)* 4, *(e)* 5 and *(f)* 6. [319134]

Mr. Ian Austin: From the information we have available, the average Energy Performance Certificate rating of houses built to the Code for Sustainable Homes various levels are as follows:

Code Level	*Average EPC rating*
1	84
2	87
3	87
4	89
5	100
6	100

Housing: Finance

Mrs. Lait: To ask the Secretary of State for Communities and Local Government when he expects to publish further proposals on reform of the Housing Revenue Account subsidy system; and if he will make a statement. [318918]

John Healey: In the consultation paper in July, I proposed a devolved system of responsibility and funding for council housing. On 16 December I announced that the responses show strong support for the principle of self-financing. I intend to make a further announcement in the next few weeks which will describe the progress we have made on self-financing, set-out more details of my proposals and provide a summary of responses to the consultation.

Housing: Regeneration

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much his Department has spent on the Housing Market Renewal Pathfinder programme in each year since its establishment; and what the equivalent forecast figure is for *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [319038]

Mr. Ian Austin: Housing Market Renewal allocations from the beginning of the programme to 2010-11 are given in the following table. 2011-12 falls outside the current settlement period and funding levels cannot therefore be confirmed at this stage.

HMR Pathfinder funding[1]	*£ million*
2003-04	51.0
2004-05	194.3
2005-06	303.2
2006-07	314.1
2007-08	405.6
2008-09	381.0
2009-10	346.0
2010-11	311.0

[1] An additional £23.4 million was allocated for HMR programme preparation 2002-04.

[2] Includes funding for the three areas of wider lower demand.

Housing: Sales

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether any assessment has been made of the level of *(a)* gazundering and *(b)* gazumping in the housing market since the introduction of home information packs. [319264]

Mr. Ian Austin: No such assessment has been made. However, we intend to evaluate the effectiveness of HIPs by updating "The HIP Baseline Research Report", published in January 2007.

Housing: Standards

Bob Spink: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of properties in (a) Essex and (b) Castle Point which (i) have been improved under the Decent Homes programme in each year of that programme and (ii) do not meet the Decent Homes standard. [318086]

Mr. Ian Austin: The only information we hold on all the stock is the annual number of non-decents. These are set out in the table.

Non-decent dwelling estimates—Essex 2001-09

	2001	2002	2003	2004	2005	2006	2007	2008	2009
Castle Point	n/a	n/a	n/a	227	185	251	178	163	151
Essex	n/a	n/a	n/a	19,266	18,070	16,183	15,015	8,354	10,217

n/a = not available

Annual returns to Communities and Local Government

Housing: Thames Gateway

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes have been built in the Thames Gateway area since 2008; and what target has been set for the number of completions by 2016. [318717]

Mr. Malik: Since 2008 to 30 September 2009, the latest period for which data are available, 5550 new dwellings (new build and conversions) have been delivered in the Thames Gateway. Data for the fourth quarter of the calendar year will be available shortly.

The Thames Gateway Delivery Plan, published in November 2007, sets out an ambition to build 160,000 new homes between 2001 and 2016. From 1 April 2001 to 30 September 2009, 56,870 new dwellings (new build and conversions) have been added to the Thames Gateway housing stock (including the 5550 already referred to).

The recession has impacted on the start of construction of new dwellings in the Thames Gateway as elsewhere. But the Government remains confident its ambitions are still achievable in the longer term: indeed research has shown that the Thames Gateway has the potential not only to meet but to exceed these ambitions. In the meantime, CLG and HCA continue to make every effort to sustain delivery, through initiatives like Kickstart.

Landlords: Registration

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what mechanisms will be used to ensure that landlords register on the proposed National Register of Landlords. [319212]

Mr. Ian Austin: Details of our proposals for the national register for landlords, including mechanisms for ensuring compliance are provided in the document which we published on 3 February—"The Private Rented Sector: Professionalism and Quality—Consultation. Summary of Responses and Next Steps."

Local Government: Partnerships

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether he has made an assessment of the effects of the Court of Appeal ruling in the case of Brent London Borough Council *v.* Risk Management Partners Limited on the entry of local councils into joint companies and partnerships other than mutual insurance bodies. [319312]

Ms Rosie Winterton: Provisions to enable best value authorities to set up and participate in mutual insurance arrangements were secured in the Local Democracy, Economic Development and Construction Act 2009. We have made clear that we are committed to considering further the adequacy of local authority powers following the consultation on 'Strengthening Local Democracy' (July 2009) and the responses to it. The Government are interested in extending powers—subject to certain prudential restrictions—to deal both with the issues raised in the LAML case around councils giving guarantees and indemnities to each other and also to ensure greater clarity in relation to action to drive efficiency and cost savings and so secure best value. These will be taken forward at the first legislative opportunity. Such developments are intended to ensure that councils will have a broad range of powers on which to take action in their communities' interests, building on the best value duty. The well-being power remains as a power of first resort for councils acting in relation to the social, economic and environmental well-being of their areas. The White Paper 'Putting the Frontline First: Smarter Government' (December 2009) and the pre-Budget report have committed to further exploring, subject to the overall fiscal position, what further finance mechanisms, powers and flexibilities could support local authorities to drive growth and innovation most effectively.

Local Government: Pensions

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the speech made by the Minister for Local Government on 27 January 2010, how much and what proportion of the £1 billion a year savings to public service pension schemes from 2012-13 will accrue as a result of changes to the scope of the Local Government Pension Scheme. [319119]

Ms Rosie Winterton: The pre-Budget report estimated public service pension schemes will save £1 billion a year from 2012-13, and at least twice this amount over the long-term as part of reforms across public service pension schemes. These savings will flow from cap and share reforms impacting on the four main public service pension schemes provided for teachers, local authority employees, the NHS and the Civil Service. The proportion of savings to accrue to the Local Government Pension Scheme will reflect the results of its cap and share process programmed to follow the next Scheme-wide actuarial valuation exercise due on 31 March 2010.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what assessment has been made of the effect of stock market movements between March 2007 and March 2010 on the employee contributions towards the Local Government Pension Scheme to be required from local authorities from March 2011. [319304]

Ms Rosie Winterton: The next scheme actuarial valuation exercise takes place on 31 March 2010. It will assess all the relevant factors influencing the stability and solvency of the scheme, including the effect of recent stock market conditions and trends. New employer contribution rates to be determined by the valuation will apply from 1 April 2011 until 31 March 2014. Employee contributions are set separately by the relevant Local Government Pension Scheme Regulations.

Local Government: Redundancy Pay

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Meriden of 19 October 2009, *Official Report*, columns 1312-13W, on local government: redundancy pay, if he will place in the Library a copy of each of the non-confidential written responses, including the record of the verbal briefing by the Chartered Institute of Personnel and Development. [319320]

Ms Rosie Winterton: The Audit Commission plans to publish its report on severance pay made to local authority chief executives in mid-March. The consultation responses from organisations will be placed on the Commission's website when the report is published. Copies of all non-confidential responses will be placed in the Library of the House.

Local Government: Reorganisation

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what account his Department takes of the level of support from the relevant local authorities in considering the creation of a new unitary authority. [314985]

Ms Rosie Winterton: The Secretary of State is now carefully considering the Boundary Committee's advice, all the representations he has received, including those of affected local authorities, and all other relevant information, before taking his statutory decisions about whether, to implement any of the unitary proposals before him, with or without modification, or to take no action on them.

Local Government: Statistics

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what datasets not in the National Indicator dataset are collected from local authorities by his Department's Executive agencies and non-departmental public bodies. [319245]

Ms Rosie Winterton: The Department has three executive agencies; the Planning Inspectorate, Fire Service College, and Queen Elizabeth II Conference Centre. None of these agencies collects datasets outside the national indicator dataset.

The Department does not hold information on datasets collected from local authorities by the Department's twenty associated non-departmental public bodies. Given the wide range of responsibilities and interactions those bodies have with local authorities, obtaining this information could only be achieved at disproportionate cost.

Local Government: Trespass

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what his latest estimate is of the number of *(a)* squatters, *(b)* trespassers and *(c)* other unauthorised occupiers of local authority properties. [319110]

Mr. Ian Austin: No data are available centrally on the total number of squatters, trespassers or other unauthorised occupiers in local authority properties.

Migration Impact Fund

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the *(a)* amount, *(b)* date of issuing and *(c)* purpose has been of each grant made under the Migration Impact Fund. [319035]

Mr. Malik: The Migration Impacts Fund is a UK-wide £35 million fund for each of the years 2009-10 and 2010-11. The overall purpose of the fund is to reduce the short term pressure of migration on local public services. Councils and other frontline services were asked through their local strategic partnerships to identify projects in their areas.

On the 9 July 2009 the Secretary of State announced the successful proposals for England. The specific purpose of each grant, the amount granted and the local services being supported are shown in the table which has been placed in the Library of the House.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government which local authorities have received funding from the Migration Impact Fund; how much each has received; and what methodology was used to allocate the funding. [319036]

Mr. Malik: The Migration Impacts Fund is allocated regionally; the amount each region receives is weighted towards the areas where international migration has had the greatest short-term impact. Local Strategic Partnerships in each region were invited to bid for projects the Migration Impacts Fund could support and these were assessed by their regional Government Office. The final decision was made by the Secretary of State.

The allocations to each local authority (per year) are set out in the following table:

Migration Impacts Fund—Local authority funding 2009-10 and 2010-11

Authority	*Total 2009-10*	*Total 2010-11*
Suffolk County Council	428,362	425,804
Peterborough City Council	354,832	337,030
Norfolk County Council	183,600	186,000
Cambridgeshire County Council	403,800	364,[illegible]
Breckland Council	220,000	30,000
Borough Council of Kings Lynn and West Norfolk	85,000	85,000

Migration Impacts Fund—Local authority funding 2009-10 and 2010-11

Authority	*Total 2009-10*	*Total 2010-11*
Hertfordshire County Council	264,000	277,000
Harlow Council	220,000	190,000
Luton Borough Council	272,500	317,000
Derby City Council	500,000	450,000
Leicester City Council	[illegible]	85,000
Lincolnshire County Council	854,000	875,000
Nottinghamshire County Council	210,000	10,000

Total	23,581,306	22,099,223

Mortgages

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the research report on UK mortgage arrears and repossessions commissioned by the National Housing and Planning Advice Unit from Professor John Muellbauer. [319290]

John Healey: The National Housing and Planning Advice Unit (NHPAU) is an independent advisory agency and publication is a matter for the NHPAU.

Mortgages: Government Assistance

Jim Cousins: To ask the Secretary of State for Communities and Local Government how much funding he has provided to assist low income homeowners in the last 12 months. [318811]

Mr. Ian Austin: Over £1 billion has been made available to local authorities through the Regional Housing Pot over the period 2008-09 to 2010-11 to help improve house conditions for the most vulnerable households as part of CSR 07. £425 million was made available for 2009-10.

Multiple Occupation: Planning Permission

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the planned timetable is for introduction of secondary legislation to require houses in multiple occupation to have planning permission. [319120]

Mr. Ian Austin: We are aiming to make the Order amending the Town and Country Planning (Use Classes) Order 1987, which will create the HMO use class, by 8 March 2010. This order does not need to be laid before Parliament.

We are also aiming to make the Order amending the Town and Country Planning (General Permitted Development) Order 1995, which will make a change from a HMO to a C3 dwelling house permitted development, by 8 March and lay it before Parliament by 15 March 2010.

Both amendments will come into effect on 6 April 2010.

Non-Domestic Rates: Ports

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government when prescription of statutory ports ended; and what the effect of ending it was on the rating of *(a)* port businesses and *(b)* port owners. [319438]

Barbara Follett: The ending of prescribed rating was enacted in the Local Government Act 2003 and the statutory port authorities (owners) were subject to conventional rating from 1 April 2005. The impact on the individual port authority was that their rateable value was ascertained by the same rules of assessment that apply to all other non-domestic property instead of by a prescribed formula.

The ending of prescribed rating had no effect on whether property occupied by other businesses within ports should be assessed separately for non-domestic rates. The principles concerning separate rateability where there is "exclusive occupation" and "paramount control" are long established. The leading case on the subject is a House of Lords decision from as far back as 1936—Westminster Council *v.* Southern Railway Company and W.H. Smith and Son.

The review of ports by the Valuation Office Agency is to ensure that all individual business properties within and outside ports are rated fairly to ensure that the burden of contributions to funding local government is shared fairly among businesses around the country.

The Government have listened to the concerns of businesses with significant and unexpected backdated bills, including some businesses within ports. It has legislated to enable such bills to be repaid over an unprecedented eight years rather than in a single instalment, helping affected businesses to manage the impact on their cash flows during the downturn by reducing the amount they are required to pay now by 87.5 per cent.

As at 8 October 2009, local authorities have reported that ratepayers occupying 221 properties within ports had fully discharged their backdated liability and ratepayers occupying a further 200 business properties within ports had been granted a schedule of payments.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government for how long the cumulo system of paying business rates by businesses in port hereditaments was prolonged in 2000; by what means the system was ended; when notice was given to port companies paying under the system that it would be ended; and when it was ended. [319439]

Barbara Follett: The term "cumulo" (artificial hereditament) has been used to describe where properties (hereditaments) within the same occupation that under the normal rules of rating would be shown as individual entries in the rating lists are shown as a single entry in the rating list.

The ability to create an artificial port hereditament in this way is determined by regulation 5 of the Non-Domestic Rating Miscellaneous Provisions (2) Regulations 1989 (SI 1989/2303), which provides that in certain circumstances two or more hereditaments occupied by a statutory port authority to be a single hereditament to be liable for non-domestic rates where for example the properties are split by a river.

Whether a separate occupier within a port makes a contribution to business rates through their agreement with the port authority is a contractual matter between the occupier and the port authority. The cumulo is not and has never been a method for occupations that should be separately assessed for business rates to waive their liabilities.

The review of ports by the Valuation Office Agency is to ensure that all individual business properties within and outside ports are rated fairly to ensure that the burden of contributions to funding local government is shared fairly amongst businesses around the country.

The Government have listened to the concerns of businesses with significant and unexpected backdated bills, including some businesses within ports. It has legislated to enable such bills to be repaid over an unprecedented eight years rather than in a single instalment, helping affected businesses to manage the impact on their cash flows during the downturn by reducing the amount they are required to pay now by 87.5 per cent.

As at October 8 2009, local authorities have reported that ratepayers occupying 221 properties within ports had fully discharged their backdated liability and ratepayers occupying a further 200 business properties within ports had been granted a schedule of payments.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government when the Valuation Office Agency began its work on separate assessment of port businesses in ports previously rated as a single hereditament; for what reasons the Agency decided to do this; and when the work was completed. [319444]

Barbara Follett: Valuation officers are required under Section 41 of the Local Government Finance Act 1988 to maintain accurate rating lists. When they become aware that a change is needed, such as that at the ports, they must make the alteration and also specify the date from which the change should become effective for rates charging purposes.

The principles concerning separate rateability where there is "exclusive occupation" and "paramount control" are long established. The leading case on the subject is a House of Lords decision from as far back as 1936—Westminster Council *v.* Southern Railway Company and W.H. Smith and Son.

The VOA rated ports and properties within ports for the 2005 list based upon information supplied by the ports operators. A significant number of separate assessments appeared in the rating lists for individual port occupiers even before the following review was initiated.

It was only after the lists were compiled, through routine work to keep the lists up to date, it was found that the rating lists may not reflect all the separate properties within the ports. Port operators were advised by letter of the ports review and its background in May 2006. While the initial reviews have been completed, many port properties change over time and the VOA continue to make alterations to individual properties as part of its statutory duty to maintain the rating lists.

The review of ports by the Valuation Office Agency is to ensure that all individual business properties within and outside ports are rated fairly to ensure that the burden of contributions to funding local government is shared fairly among businesses around the country.

The Government have listened to the concerns of businesses with significant and unexpected backdated bills, including some businesses within ports. It has legislated to enable such bills to be repaid over an unprecedented eight years rather than in a single instalment, helping affected businesses to manage the impact on their cash flows during the downturn by reducing the amount they are required to pay now by 87.5 per cent.

As at 8 October 2009, local authorities have reported that ratepayers occupying 221 properties within ports had fully discharged their backdated liability and ratepayers occupying a further 200 business properties within ports had been granted a schedule of payments.

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government who decided that port companies hitherto part of one port hereditament should be separately assessed for business rates. [319445]

Barbara Follett: Valuation officers are required under Section 41 of the Local Government Finance Act 1988 to maintain accurate rating lists. When they become aware that a change is needed, such as that at the ports, they must make the alteration and specify the date from which the change should become effective for rates charging purposes.

The principles concerning separate rateability, which is the rating rationale for the separate assessment of some properties within ports, where there is "exclusive occupation" and "paramount control" are long established. The leading case on the subject is a House of Lords decision from as far back as 1936—Westminster Council *v.* Southern Railway Company and W.H. Smith and Son.

The review of ports by the Valuation Office Agency is to ensure that all individual business properties within and outside ports are rated fairly to ensure that the burden of contributions to funding local government is shared fairly among businesses around the country.

The Government have listened to the concerns of businesses with significant and unexpected backdated bills, including some businesses within ports. It has legislated to enable such bills to be repaid over an unprecedented eight years rather than in a single instalment, helping affected businesses to manage the impact on their cash flows during the downturn by reducing the amount they are required to pay now by 87.5 per cent.

As at 8 October 2009, local authorities have reported that ratepayers occupying 221 properties within ports had fully discharged their backdated liability and ratepayers occupying a further 200 business properties within ports had been granted a schedule of payments.

Private Rented Housing

Mr. Curry: To ask the Secretary of State for ommunities and Local Government if the Minister of ate for Housing will meet representatives of First ack Solutions, formerly Social Homes, to discuss his epartment's plans for local letting agencies. [319485]

John Healey: I meet from time to time with a wide nge of representative bodies and other stakeholders ith an interest in our proposals for the future of the rivate rented sector, including the 'local lettings agency' oncept. I have no current plans to meet with individual ommercial companies, including First Track Solutions ormerly Social Homes), on this topic.

Public Bodies: Finance

Mr. Stewart Jackson: To ask the Secretary of State r Communities and Local Government what the cost f the *(a)* Tenant Services Authority, *(b)* Homes and ommunities Agency, *(c)* Audit Commission and *(d)* tandards Board is expected to be in (i) 2009-10, (ii) 010-11 and (iii) 2011-12. [319037]

Barbara Follett: In relation to the cost of the Tenant ervices Authority I refer the hon. Member to the nswer to the hon. Member for Welwyn Hatfield (Grant happs) on June 16 2009, *Official Report*, column 202W.

The Standards Board's estimate of its annual budgets or 2009-2010, 2010-2011 and 2011-2012 can be found n their corporate plan, which is available on the Standard Board's website at:

www.standardsforengland.gov.uk

The planned budgets for the Homes and Communities gency are set out in its corporate plan for 2009-10 and 010-11, available on the Agency's website at:

http://www.homesandcommunities.co.uk/publications

The Audit Commission's planned income from Central overnment grants as well as other sources for 2009-2010, 010-2011 and 2011-2012 is contained their draft strategic lan for 2010, available on the Audit Commission's ebsite at:

www.audit-commission.gov.uk

It should be noted that budgets for 2011-12 have not been formally set; it is expected that this will happen as part of a comprehensive spending review during 2010.

Regional Development Agencies

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Welwyn Hatfield of 1 February 2010, *Official Report*, column 138W, on regional development agencies: mining, for what reasons representatives of the other regional development agencies were not invited to the English Coalfield forum meetings. [319796]

Ms Rosie Winterton: The full range of stakeholders involved in the Coalfields Forum is quite wide; it includes representatives from several regeneration organisations and Government Departments. In order to keep the number of participants at each Forum meeting to a manageable size, the decision was taken to invite Yorkshire Forward to participate on behalf of the Regional Development Agencies (RDAs). They are the only RDA with a dedicated coalfields team.

Regional Improvement and Efficiency Partnerships

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government (1) how much collaborative procurement spending was directed through the Regional Efficiency Improvement Partnership in the latest period for which figures are available; [319112]

(2) how much central funding is planned to be provided to each Regional Efficiency Improvement Partnership in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [319133]

Ms Rosie Winterton: In 2009-10, core funding for each of the nine Regional Improvement and Efficiency Partnerships (RIEPs) was:

Region	*Core funding (£ million)*
East of England	7.952
East Midlands	7.159
London	7.699
North East	5.674
North West	8.036
South East	9.707
South West	7.665
West Midlands	7.193
Yorkshire and Humber	6.416
Total	67.5

Indicative core funding for each RIEP in 2010-11 is the same as for 2009-10; the decision on whether to confirm these indicative allocations will be announced shortly. No decisions have been taken yet regarding core funding in 2011-12.

Core funding is intended to enable RIEPs to meet their objectives to support the successful delivery of local area agreements and achievement of councils' £5.5 billion efficiency target by March 2011. An important activity to meet these objectives will be the promotion of collaborative procurement opportunities among local authorities. Core funding is not ring-fenced, so the decision on how much of it is to be used for this purpose is for individual RIEPs to make.

RIEPs also receive grants from government departments to support specific activities; for example, in 2009-10, they shared £31.706 million from this Department's Efficiency and Transformation Fund to use in support of capital projects that aim to deliver public services in more customer-focused and efficient ways.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many staff work for each Regional Improvement Efficiency Partnership. [319271]

Ms Rosie Winterton: We do not hold this information centrally.

Regional European Offices

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 10 February 2010, *Official Report*, column 1128W, on regional European offices, whether the Audit Commission has a role in auditing the finances of the *(a)* regional leaders boards and regional assemblies in England outside London and *(b)* regional European offices in Brussels. [319011]

Ms Rosie Winterton: This is an operational matter for the Audit Commission and I have asked the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 2 March 2010:

Your Parliamentary Question has been passed to me to reply.

The Audit Commission has been appointed by 4NW (the North West Regional Assembly) to audit its accounts. The necessary consent of the Secretary of State was received under section 29 of the Audit Commission Act 1998.

We previously audited the accounts of the Yorkshire and Humber Regional Assembly up to, and including, 2008/09. Again the necessary consent was obtained.

In both instances the Commission was approached by the relevant Regional Assembly, as the financial management of the bodies was carried out by local authorities, to which the Commission is required to make an auditor appointment under the Audit Commission Act 1998.

The Commission does not audit the finances of Regional Leaders Boards or Regional European Offices in Brussels.

A copy of this letter will be placed in Hansard.

Regional Planning and Development: Thames Gateway

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how much the Homes and Communities Agency spent on the Thames Gateway project in each of the last three years; [318716]

(2) which public bodies received funding from the Thames Gateway Fund in each of the last three years; and how much was paid to each organisation in each of those years; [318721]

(3) how much was paid to *(a)* the South East England Development Agency and *(b)* the East of England Development Agency by the Thames Gateway Fund in each of the last three years; [318724]

(4) how much was paid to local authorities by the Thames Gateway Fund in each of the last three years; [318725]

(5) how much was received by the Homes and Communities Agency from the Thames Gateway Fund in each of the last three years. [318727]

Mr. Malik: The Thames Gateway programme is set out in the Thames Gateway delivery plan published in November 2007. Until 30 November 2008 the programme was administered by the Thames Gateway Executive in Communities and Local Government. From 1 December 2008, the programme was transferred to the Homes and Communities Agency, although grant in aid for the two Thames Gateway urban development corporations continues to be paid out by Communities and Local Government.

The development corporations, local authorities, regional development agencies and other public bodies that have received Thames Gateway funding in the three years 2007-08, 2008-09, and 2009-10, together with the amounts, are:

Organisation	*Amounts (£) paid in:* 2007-08	2008-09	2009-10[1]
London Thames Gateway Development Corporation	44,000,000	50,000,000	35,000,000
Thurrock Thames Gateway Development Corporation	59,000,000	30,000,000	30,000,000
Basildon district council	2,370,693	4,436,981	6,339,117
Castlepoint borough council	99,779	39,783	340,000
Dartford borough council	4,068,190	4,967,821	6,217,700
Gravesham borough council	1,614,038	1,434,000	1,434,000
Kent county council	6,648,872	5,052,292	8,920,915
London borough of Barking and Dagenham	0	0	150,000
London borough of Bexley	454,235	341,490	885,000
London borough of Greenwich	2,205,671	2,228,569	6,112,520
London borough of Lewisham	2,057,805	471,599	3,350,805
Medway council	100,000	156,561	1,560,000
Southend on Sea borough council	455,954	522,016	3,000,000
Swale borough council	0	0	3,000,000
East of England Development Agency (EEDA)	0	0	0
South East England Development Agency (SEEDA)	5,553,001	358,354	4,025,000
Invest Thames Gateway	246,165	544,471	962,000
Office of Government Commerce	236,455	0	0
Commission for Architecture and the Built Environment	335,644	118,822	0
Land Restoration Trust	1,170,554	5,000	0
Forestry Commission	1,081,365	798,464	0
Environment Agency	853,500	178,500	580,000

[1] Amounts for 2009/10 are an estimate based on actual expenditure to date and forecast to the end of the financial year.

Rented Housing: Empty Property

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many *(a)* local authority-owned, *(b)* registered social landlord-managed and *(c)* privately-owned homes were empty for more than six months in each of the last 10 years; how many and what proportion of privately-owned homes in each local authority area were empty in each of the last 10 years; how many privately-owned homes were returned to habitation in each of the last 10 years; how many Empty Homes Management orders have been (i) applied for and (ii) completed since such orders were introduced; what discussions he has had with the Empty Homes Agency on its proposals for a homesteading scheme; what assessment he has made of the likely effectiveness of the introduction of such a scheme in reducing the number of empty homes; what estimate he has made of the cost of such a scheme in its first 12 months; and if he will make a statement. [318527]

Mr. Ian Austin: Information on the number of *(a)* local authority-owned homes that were empty for more than six months and *(c)* privately-owned homes that were empty for more than six months in each of the last 10 years can be found in the tables published on the Local Authority Housing Strategy and Business Plan Data page of the Communities and Local Government website at the following link. These tables present data collected in the annual Housing Strategy Statistical Appendix (HSSA) and Business Planning Statistical

Appendix (BPSA). Figures for some years, including 2009, may be unavailable due to changes in the format and detail of the forms used to collect these data.

Information on the number and proportion of privately-owned homes in each local authority area that were empty in each of the last 10 years can also be found in the HSSA-based tables at the same link. Figures for some years, including 2009, may be unavailable due to changes in the format and detail of the forms used to collect these data.

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/localauthorityhousing/

These data can only be collated and presented in a single set of tables and provided in the answer to this parliamentary question at disproportionate cost.

Information on *(b)* the number of registered social landlord-managed homes that were empty for more than six months in each of the last 10 years, and homes that were empty for more than six months in each of the last 10 years and on the number of privately-owned homes that were returned to habitation in each of the last 10 years is not held centrally.

To date, 29 Interim Empty Dwelling Management Orders (EDMOs) have been approved by the Residential Property Tribunal Service (RPTS) since the legislation came into effect in April 2006. Information on the number of Empty Dwelling Management Orders applied for is not held centrally.

My right hon. Friend the Minister for Housing met with the Empty Homes Agency on 2 September 2009 and discussed a range of issues including homesteading but no formal proposals have been submitted.

Sleeping Rough

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what methodology his Department has approved for conducting rough sleeping counts. [319236]

Mr. Ian Austin: Local authorities evaluate the extent of rough sleeping within their area in accordance with the methodology on street counts set out in the Department's "Guidance on Evaluating the Extent of Rough Sleeping—2007 Revision," which was developed in conjunction with the voluntary sector. This guidance gives the following definition of rough sleepers:

> "People sleeping, or bedded down, in the open air (such as on the streets, or in doorways, parks or bus shelters); people in buildings or other places not designed for habitation (such as barns, sheds, car parks, cars, derelict boats, stations, or "bashes").

In 1998 there were estimated to be 1,850 rough sleepers in England. Since then good progress has been progress has been made in reducing the total number of rough sleepers to 464 in 2009, based on local authority street counts.

Social Rented Housing: Registration

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many homes are recorded on the National Register of Social Housing; what proportion of *(a)* council housing and *(b)* housing association housing is on the register; and what targets the Tenant Services Authority has to increase the quantity of data held on the register. [319299]

Mr. Ian Austin: The total number of dwellings recorded on the National Register of Social Housing (NROSH) is 4.2 million.

The proportion of council (local authority) housing recorded on NROSH is 95 per cent. The proportion of housing association (registered social landlord) housing recorded on NROSH is 96 per cent.

The Tenants Services Authority's target, inherited from the Housing Corporation, is for all NROSH priority data fields to be populated by 31 March 2010.

Social Rented Housing: Rents

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the timetable is for the implementation of his Department's policy of rents convergence between local authority and housing association tenants. [319234]

John Healey: There is no fixed date established for convergence.

Social Rented Housing: Tenure

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government (1) what research on social housing tenure has been commissioned by his Department and its agencies in the last 36 months; and what such research has been completed; [319042]

(2) what research *(a)* his Department and *(b)* its agencies have conducted in relation to social housing rents since 2005; [319325]

(3) what research *(a)* his Department and *(b)* its agencies have conducted on social housing tenure, tenure eligibility and tenure security since 2005. [319326]

Mr. Ian Austin: Details of research projects commissioned by Communities and Local Government and its predecessors are available from our research database (RD) at

http://www.rmd.communities.gov.uk/

The database provides information on projects going back to 30 November 2001. This includes the subject, contractor and cost and publication date of each research commission.

Social Rented Housing: Waiting Lists

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many *(a)* individuals and *(b)* households were on social housing waiting lists in England in (i) April 1997 and (ii) the latest period for which figures are available. [319228]

John Healey: Information is available on numbers of households rather than people or families. The number of households registered on social housing waiting lists in each local authority, each region, and in England, as at 1 April each year from 1997 to 2009, is published on the Communities and Local Government website in Table 600. The link for this table is given as follows:

http://www.communities.gov.uk/documents/housing/xls/table600.xls

Standards for England

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many *(a)* items of data and *(b)* performance indicators the Standards Board requires local authorities to submit to it. [319143]

Ms Rosie Winterton: In the course of each year the Standards Board requires local authority monitoring officers to complete and submit five online returns.

Four are quarterly returns used to collect information on local case handling and legal composition of the local standards committee to enable the Standards Board to fulfil its statutory responsibilities for regulating the conduct regime including, in the worst cases of the standards committee failing to carry out its functions in relation to the conduct of members in a reasonable manner, if necessary, suspending a council's standards committee's initial assessment functions and passing its functions to another authority.

The fifth return is an annual return enabling the Standards Board to disseminate information on best practice across local government.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if he will place in the Library copies of the branding and communications advice obtained by the Standards Board in relation to its decision to rebrand itself as Standards for England. [319265]

Ms Rosie Winterton: I am arranging with the chief executive of the Standards Board for England for a copy of the advice, commissioned by the Standards Board, to be placed in the Library of the House.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if he will bring forward proposals to abolish the Standards Board for England. [319327]

Ms Rosie Winterton: We have no plans to abolish the Standards Board for England.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer of 19 October 2009, *Official Report*, column 1321W, on Standards for England, whether ministerial approval was sought for the rebranding of Standards Board for England as Standards for England; and whether external organisations were contracted to provide services relating to that rebranding. [319365]

Ms Rosie Winterton: These are operational matters which the Standards Board may progress without ministerial approval.

An external organisation was contracted to provide services relating to the rebranding, at a cost within the delegated authority of the Standards Board.

Supported Housing: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 26 January 2010, *Official Report*, columns 773-4W, on supported housing, whether capital funding to areas or projects will be reduced as a consequent on the allocation of £30 million of funding to the places for 16 and 17 year old single parents. [319107]

Mr. Ian Austin: Capital funding to areas or projects will not be reduced as a consequence of the Prime Minister's announcement in September 2009.

Tenancy Deposit Schemes

Grant Shapps: To ask the Secretary of State for Communities and Local Government what representations his Department has received on recent increases in the cost of joining tenancy deposit schemes. [318729]

Mr. Ian Austin: The Department has received around 10 representations from letting agents about the Tenancy Deposit Scheme (TDS)'s recent fee increases. TDS is one of the two Government authorised "insurance-based" tenancy deposit protection schemes which landlords pay a fee to join. The custodial tenancy deposit protection scheme, operated by the Deposit Protection Service, remains free to use.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what recent assessment he has made of the profits made by companies operating tenancy deposit schemes; and if he will make a statement. [318730]

Mr. Ian Austin: No recent assessment of the profits of the companies operating tenancy deposit protection schemes has been made. The three tenancy deposit protection schemes are operated by private companies under contract with Communities and Local Government and are designed to be self-financing.

Tesco: Planning Permission

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many planning appeals relating to Tesco supermarkets have been considered by the Planning Inspectorate in the last 24 months. [319015]

Mr. Ian Austin: In the 24 month period 1 January 2008 to 31 December 2009 the Planning Inspectorate received 49 planning appeals and, within the same period, determined 31 planning appeals, where Tesco was either appellant or joint appellant and the development related to a retail outlet.

Working Neighbourhoods Fund

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what plans he has for the funding of the Working Neighbourhoods Fund beyond 2010. [319225]

Ms Rosie Winterton: An indicative budget of £507,900,000 has been allocated for 2010-11 as part of the £1.5 billion three year (2008-11) settlement to help local authorities and their partners tackle worklessness.

No decision has yet been taken about the Working Neighbourhoods Fund beyond 2010-11.

CHILDREN, SCHOOLS AND FAMILIES

Building Schools for the Future Programme

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families (1) how much funding his Department has allocated to the Building Schools for the Future programme to date; [319545]

(2) which schools in England have received funding from the Building Schools for the Future programme to date. [319544]

Mr. Coaker *[holding answer 1 March 2010]*: Funding for Building Schools for the Future (BSF) is released when financial close has been reached for the school concerned. Once this milestone is reached funding is paid in instalments throughout the construction period. Table 2 lists all the schools which had reached financial close at the time of the last quarterly payment run in December 2009. They have all therefore received funding through BSF.

The total amount of funding allocated to the Building Schools for the Future (BSF) programme is shown in table 1 as follows:

Table 1

£ million

	2005-06	*2006-07*	*2007-08*	*2008-09*	*2009-10*	*Total*
Capital	786	927	513	630	979	3,385
PFI credits	1,200	1,250	1,300	1,314	1,320	6,384
Total	1,986	2,177	1,813	1,944	2,299	9,769

Notes:

1. The figures shown are budgets and do not include academies procured through the Partnerships for Schools national framework
2. It is expected that approximately £2.1 billion of capital and £1.3 billion PFI credits will be allocated to BSF in 2010-11.

Building Schools for the Future Programme: Birmingham

Richard Burden: To ask the Secretary of State for Children, Schools and Families (1) what discussions he has had with Birmingham city council on its prioritisation and phasing of schools projects under the Building Schools for the Future programme; [320061]

(2) what recent discussions he has had with Birmingham city council on future Building Schools for the Future projects in Birmingham; [320062]

(3) how many schools in Birmingham are *(a)* being and *(b)* planned to be redeveloped as part of the Building Schools for the Future programme; [320063]

(4) how much funding he has allocated to Building Schools for the Future (BSF) projects in Birmingham for *(a)* active projects and *(b)* follow-on projects in each wave of that programme; and whether there has been any change to (i) agreed and (ii) projected funding arrangements for BSF projects in Birmingham. [320091]

Mr. Coaker: Partnerships for Schools (PfS), as the delivery agent for Building Schools for the Future (BSF), is responsible for discussions with local authorities about prioritising and phasing of schools in the programme. Birmingham is in Waves 2 and 5 of the BSF programme and discussions with the city council have reached the following stages:

> The Wave 2 Strategic Business Case and Outline Business Case (OBC) identify the prioritisation and phasing of schools in the first phase that are now either in construction or being developed.
>
> The Wave 5 Strategy for Change and OBC, which will establish the prioritisation and phasing of the second phase, is currently being completed by the local authority.
>
> PfS is currently evaluating the authority's Readiness to Deliver (RtD) proposal for Phase 3.
>
> The local authority's Academy programme is in development.

10 schools are being redeveloped and 20 are planned to be redeveloped as part of the BSF programme.

When an OBC for a wave of a local authority's BSF project is agreed, the funding is fixed for the first group of prioritised schools in the wave. However, as each subsequent group of schools in the wave is brought forward the funding is adjusted for changes in construction inflation and location factors. As such, all funding after the first group of schools in the wave is indicative until the respective stage submission is approved. The current funding forecasts for Birmingham's BSF projects are as follows:

	£ million		
	PFI credits	*Capital grant*	*Funding status*
Active Wave 2 schools	78.77	18.33	Fixed
Remaining Wave 2 schools	27	80	Indicative

Funding of circa £160 million of capital grant for eight academies is currently in the process of being approved. This funding is not included above.

Funding allocations for Wave 5 will be determined in its OBC. Allocations for the remaining schools within Birmingham will be agreed when the projects come into the programme. The authority has submitted RtD proposals for Phase 3 within the £100 million scope required by PfS.

Children: Deaths

John Hemming: To ask the Secretary of State for Children, Schools and Families what the change was in the number of notifications to Ofsted of deaths of *(a)* children and *(b)* children under the age of one year following a serious incident between 2008 and 2009; and what assessment he has made of the reasons for that change. [314044]

Dawn Primarolo: Data on the number of notifications of deaths of children following a serious incident are a matter for Ofsted. Ofsted has disclosed the information requested in reply to a request under Freedom of Information Act from the hon. Gentleman.

Serious incidents are notified to Ofsted straight away where a child has died and where abuse or neglect are known or suspected to be a factor in the death. But further investigation may indicate that the death was due to other causes.

Government Offices have been working closely with Local Safeguarding Children Boards (LSCBs) to help ensure that procedures relating to child deaths are fully observed. A higher number of notifications could be due in part to an increased awareness of the procedures that need to be followed, including the notification to Ofsted of serious incidents.

Every single death of a child is an absolute tragedy, whether as a result of abuse or neglect or not. We must continue to do everything we can to protect children from those who seek to harm them. This is why we commissioned Lord Laming to carry out a report of safeguarding progress nationally. Lord Laming's report confirmed that robust legislative, structural and policy foundations are in place. We accepted and are implementing all 58 of his recommendations.

It is also the case that we are the first country in the world to implement a statutory multi-agency child death reviewing system to collect, analyse and act upon information about every child's death.

Citizenship: Essex

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many young people in *(a)* Essex and *(b)* Castle Point have received lessons in citizenship since that subject was made part of the national curriculum. [318087]

Ms Diana R. Johnson: We do not collect local data and cannot say how many young people have received lessons on citizenship in *(a)* Essex and *(b)* Castle Point since it became a compulsory subject in 2002.

Departmental Consultants

Stewart Hosie: To ask the Secretary of State for Children, Schools and Families (1) whether consultants have been contracted to carry out public participation activity on behalf of his Department in the last three years; [316835]

(2) whether his Department has contracted consultants to carry out public participation activity on behalf of his Department since 2007. [317069]

Ms Diana R. Johnson: The requested information cannot be obtained without incurring disproportionate cost.

Departmental Correspondence

John Mason: To ask the Secretary of State for Children, Schools and Families to how many *(a)* emails and *(b)* letters from members of the public his Department has responded since May 2007. [317048]

Ms Diana R. Johnson: The Department was established on 28 June 2007. From 1 July 2007 until 31 December 2009 we have responded to 108,901 items of correspondence from members of the public. The Department does not record the information by correspondence method and therefore cannot break the figure down into e-mails and letters.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Children, Schools and Families what the estimated *(a)* amount and *(b)* cost was of energy used in his Department in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317227]

Ms Diana R. Johnson: The Department for Children, Schools and Families was formed via a machinery of Government change in June 2007; therefore a complete response to the question above can be provided only for financial years 2007/08, 2008/09.

In 2007/08 the Department consumed 23,763,917 kilowatt hours of energy (gas, electricity and steam) at a cost of £1,489,366 at the four HQ sites in London, Darlington, Sheffield and Runcorn.

In 2008/09 the Department consumed 21,286,750 kilowatt hours of energy (gas, electricity and steam) at a cost of £1,683,021 at the four HQ sites in London, Darlington, Sheffield and Runcorn.

While a green energy tariff is in place for Darlington electricity it is not possible to determine the level of energy generated from renewables sources for each of these years.

Departmental Finance

Michael Gove: To ask the Secretary of State for Children, Schools and Families what the cost to his Department of funding *(a)* Post-graduate Certificate in Education and *(b)* undergraduate Bachelor of Education courses (i) was in each of the last three years and (ii) will be in 2010-11. [318136]

Mr. Coaker: The figures contained in the following table show the mainstream funding amounts the Training and Development Agency for Schools has paid to teacher training providers for postgraduate and undergraduate courses of initial teacher training (ITT) for academic years 2007/08 to 2009/10. The breakdown of funding between postgraduate and Postgraduate Certificate in Education courses and Bachelor of Education and other undergraduate courses is not available. Figures for 2010/11 are not yet available.

£

ITT funding	*Postgraduate*	*Undergraduate*	*Total*
2007/08	142,547,155	110,404,248	252,951,403
2008/09	148,511,550	111,698,185	260,209,735
2009/10	150,613,580	107,637,420	258,251,000

Notes

1. The above figures do not take account of funding adjustments (holdback) which have been made subsequently for under- and over recruitment to courses.

2. These figures do not include recruitment premiums, student bursaries and other incentives, capital support or development funding.

Departmental Information Officers

Mr. MacNeil: To ask the Secretary of State for Children, Schools and Families how many communications or press officers his Department employs. [319146]

Ms Diana R. Johnson: The Department's human resources system holds information on individuals by their generalist civil service grade and therefore it is not possible to identify everybody engaged in communications work in the department, and this information could only be obtained at disproportionate cost.

Departmental Public Consultation

Stewart Hosie: To ask the Secretary of State for Children, Schools and Families how much his Department spent on *(a)* written consultations, *(b)* consultation events and *(c)* focus groups in each of the last three years. [317068]

Ms Diana R. Johnson: The requested information can be obtained only at disproportionate cost.

Pete Wishart: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on *(a)* written consultations, *(b)* consultation road shows and *(c)* focus groups in each of the last three years. [317839]

Ms Diana R. Johnson: The requested information can be obtained only at disproportionate cost.

Departmental Publications

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of his Department's document entitled Social Mobility: Narrowing Social Class Educational Attainment Gaps published on 26 April 2006. [316716]

Ms Diana R. Johnson: A copy of the document entitled "Social Mobility: Narrowing Social Class Educational Attainment Gaps," dated 26 April 2006, has been placed in the Library.

Disadvantaged

Keith Vaz: To ask the Secretary of State for Children, Schools and Families how many schemes aimed at *(a)* improving parenting skills, *(b)* supporting dysfunctional families and *(c)* providing diversionary activities for young people at risk of offending his Department and its predecessors have introduced since 1997; how much has been spent on each; and whether any ring-fenced funding has been provided to local authorities to finance such schemes. [312229]

Dawn Primarolo: Between April 1997 and March 2009, we have identified 13 key policies that contribute to: *(a)* improving parenting skills, *(b)* supporting dysfunctional families and *(c)* providing diversionary activities for young people at risk of offending. This consists of £168 million on schemes that are aimed at improving parenting skills, £34 million supporting dysfunctional families and £439 million providing diversionary activities for young people at risk of offending. Of this, £164 million has been ring-fenced funding.

In addition to this, Sure Start has a total spend to date of £4.808 million and would contribute to both part *(a)* and *(b)* respectively. This funding is also ring-fenced.

Free School Meals: Leeds

Greg Mulholland: To ask the Secretary of State for Children, Schools and Families what proportion of students in Leeds, North-West constituency was eligible to receive free school meals in the latest period for which figures are available. [319507]

Ms Diana R. Johnson: The requested information is shown in the table.

Maintained nursery, primary[1] and state funded secondary[1, 2] schools: Number and percentage of pupils known to be eligible for free school meals[3] as at January 2009

	Leeds, North-West constituency		
	Number of pupils[4]	*Number of pupils eligible for FSM*	*Percentage of pupils eligible for FSM*
Nursery and primary schools[1]	4,620	520	11.3
State funded secondary schools[1, 2]	5,200	660	12.7

[1] Includes middle schools as deemed.

[2] Includes city technology colleges and academies.

[3] Those eligible may choose not to take up their offer of a free school meal for various reasons e.g. through preference or through non-attendance on the day. Pupils are counted as eligible only if they meet the eligibility criteria and make a claim.

[4] Includes sole and dual (main) registrations.

Note:

Pupil numbers have been rounded to the nearest 10.

Source:

School Census

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many students resident in *(a)* Knowsley, *(b)* Kensington and Chelsea and *(c)* Islington sat an A level in (i) mathematics, (ii) further mathematics, (iii) physics, (iv) English literature, (v) history, (vi) a modern language and (vii) chemistry in (A) 1997 and (B) the most recent year for which figures are available. [316852]

Mr. Coaker: The requested information is shown in the following table for 2003/04 and 2008/09. Subject information based on pupil residency is available only from 2003/04 onwards.

Students in maintained schools[1] sitting A level subjects in 2003/04[2] and 2008/09[3] by local authority of pupil residence

				Number
		Islington	*Kensington and Chelsea*	*Knowsley*
Mathematics	2003/04	45	24	34
	2008/09	60	49	45
Further Mathematics	2003/04	3	[4]...	5
	2008/09	6	9	[4]...

	2008/09	39	26	19
Chemistry	2003/04	35	13	27
	2008/09	45	25	25

[1] Includes pupils attending all maintained schools (including academies and city technology colleges)

[2] Based on final data.

[3] Based on revised data.

[4] Figures not shown in order to protect confidentiality.

Source:

National Pupil Database.

GCSE: Gifted Children

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils with gifted and talented status achieved *(a)* three As at A-level, *(b)* five GCSEs including English and mathematics at grades A* to C excluding equivalents and *(c)* at least one GCSE pass at grade C or above, excluding equivalents in (i) 1997, (ii) 2003, (iii) 2006 and (iv) the most recent year for which figures are available. [316855]

Mr. Coaker: The information requested for the academic years 2005/06 and 2008/09 is in the following tables. Data on gifted and talented pupils were not collected before the 2005/06 academic year.

GCSE achievements of gifted and talented pupils[1, 2] at the end of key stage 4, 2005/06 and 2008/09

	2005/06	*2008/09*
Number of gifted and talented pupils[1, 2] at the end of key stage 4	63,819	93,100
Number of gifted and talented pupils[1, 2] who achieved five or more GCSEs including English and mathematics at grade A*-C excluding equivalents	53,570	81,143
Percentage of gifted and talented pupils[1, 2] who achieved five or more GCSEs including English and mathematics at grade A*-C excluding equivalents	83.9	87.2
Number of gifted and talented pupils[1, 2] who achieved at least one GCSE pass at grade C or above excluding equivalents	62,454	91,611
Percentage of gifted and talented pupils[1, 2] who achieved at least one GCSE pass at grade C or above excluding equivalents	97.9	98.4

[1] Pupils attending maintained schools only including city technology colleges and academies.

[2] The question on the school census does not differentiate between gifted pupils and talented pupils.

Source:

National Pupil Database (2005/06 final data, 2008/09 revised data)

A level achievements of gifted and talented students[1, 2], 2005/06 and 2008/09

	2005/06	*2008/09*
Number of gifted and talented students[1, 2, 3]	10,683	31,469

A level achievements of gifted and talented students[1, 2, 3]: 2005/06 and 2008/09

	2005/06	2008/09
Number of gifted and talented students[1, 2, 3] who achieved three grade As at A level[4]	3,152	8,136
Percentage of gifted and talented students[1, 2, 3] who achieved three grade As at A level[4]	29.5	25.9

[1] Students attending maintained schools only including city technology colleges and academies. [2] 16 to 18-year-old candidates entered for GCE/Applied GCE A levels and Double Awards in 2008/09 and GCE/VCE A level and VCE Double Awards in 2005/06. [3] The question on the school census does not differentiate between gifted students and talented students. [4] Includes GCE/Applied GCE A level and Double Awards in 2008/09 and GCE/VCE A level and VCE Double Awards in 2005/06. *Source:* National Pupil Database (2005/06 final data, 2008/09 revised data).

Home Education: Gloucestershire

Mr. Drew: To ask the Secretary of State for Children, Schools and Families what recent estimate he has made of the number of home educators in *(a)* Gloucestershire and *(b)* Stroud constituency; and what estimate he has made of the cost to his Department of their regulation should the recommendation of the Badman review of secondary education be accepted. [312747]

Ms Diana R. Johnson: Gloucestershire local authority (LA) provided us with information about the number of children in its area, which includes Stroud, who were known by the LA to be home-educated in May 2009 (254) and again in September 2009 (224). This data has been used to inform Graham Badman's Review of "Elective Home Education England". We have not collected data below local authority level.

There may be other home-educated children in the Gloucestershire LA area of which the local authority is not aware because there is no current requirement for local authorities to keep a register of home-educated children.

We estimate that the cost of the registration and monitoring proposals for home-educated children will be around £26.3 million in the first year and £14.6 million in subsequent years, based on 20,000 home-educated children. We do not have figures available yet for allocations below national level. We will develop detailed funding methodologies for local authority allocations after discussion with the Local Government Association and local authorities.

National Curriculum Tests

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of children achieved at least level 2b in each subject at Key Stage 1 in each year since such assessments were introduced. [317740]

Mr. Coaker *[holding answer 22 February 2010]:* The information has been placed in the Libraries of the House.

Pupils: Per Capita Costs

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families how much *(a)* primary and *(b)* secondary schools in each London borough have received in funding per student in each of the last five years; and if he will make a statement. [319063]

Mr. Coaker: Per pupil revenue funding figures for primary school pupils (ages three to 10) for each London borough between 2004-05 and 2005-06 are shown in Table 1. These figures are in real terms and are based on financial years.

Table 1: Real terms revenue funding per pupil—SSA/EFS plus grants

		£
	2004-05	2005-06
Camden	5,860	6,100
Greenwich	5,210	5,570
Hackney	5,970	6,380
Hammersmith and Fulham	5,700	5,940
Islington	5,760	6,120
Kensington and Chelsea	5,910	6,090
Lambeth	5,830	6,110
Lewisham	5,350	5,710
Southwark	5,430	5,880
Tower Hamlets	6,110	6,570
Wandsworth	5,040	5,410
Westminster	5,560	5,840
Barking and Dagenham	4,410	4,610
Barnet	4,200	4,520
Bexley	3,810	4,000
Brent	4,850	5,160
Bromley	3,810	4,040
Croydon	4,140	4,350
Ealing	4,640	4,990
Enfield	4,370	4,570
Haringey	5,100	5,340
Harrow	4,220	4,500
Havering	3,770	3,970
Hillingdon	4,110	4,400
Hounslow	4,540	4,850

Merton	4,220	4,510
Newham	5,030	5,310
Redbridge	4,070	4,300
Richmond upon Thames	3,810	4,060
Sutton	3,910	4,100
Waltham Forest	4,660	4,850

Notes:

1. Price Base: Real terms at 2008-09 prices, based on GDP deflators as at 9 December 2009.
2. Figures reflect relevant sub-blocks of Standard Spending Assessment/Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DFES Departmental Expenditure Limits relevant to pupils aged three to 10 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level. For those authorities in receipt of advance of grant under the transitional support arrangements for 2004-05, advance grant funding is included in the year of payment (2004-05). There will be a consequential reduction in DFES grant for these LEAs in future years (either 2006-07 and 2007-08 or 2006-07 to 2008-09, depending on the terms on which the advance was given to the LEA).
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

Per pupil revenue funding figures for secondary school pupils (ages 11 to 15) for each London borough between 2004-05 and 2005-06 are shown in Table 2. These figures are in real terms and are based on financial years.

Table 2: Real terms revenue funding per pupil—SSA/EFS plus grants

£

	2004-05	2005-06
Camden	7,200	7,340

Notes:

1. Price Base: Real terms at 2008-09 prices, based on GDP deflators as at 9 December 2009.

2. Figures reflect relevant sub-blocks of Standard Spending Assessment/Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS.

3. Total funding also includes all revenue grants in DFES Departmental Expenditure Limits relevant to pupils aged 3 to 10 and exclude Education Maintenance Allowances (EMAs) and grants not allocated at LEA level. For those authorities in receipt of advance of grant under the transitional support arrangements for 2004-05, advance grant funding is included in the year of payment (2004-05). There will be a consequential reduction in DFES grant for these LEAs in future years (either 2006-07 and 2007-08 or 2006-7 to 2008-9, depending on the terms on which the advance was given to the LEA).

4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.

5. Rounding: Figures are rounded to the nearest £10.

6. Status: Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The revenue per pupil figures shown in Table 3 are taken from the Dedicated Schools Grant (DSG). They are not comparable with those for the years 2004-05 to 2005-06 (in Tables 1 and 2 above) because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 2004-05 to 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the Local Government Finance Settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. The DSG is based largely on an authority's previous spending. In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's Local Government Finance Settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable.

To provide a comparison for 2008-09 DSG, the Department have isolated the schools block equivalent funding in 2005-06 (the baseline); as described above this does not represent the totality of 'education' funding in that year.

Per pupil revenue funding figures for pupils (ages 3-15)for each London borough between 2005-06 and 2008-09 are shown in Table 3. As the DSG is a mechanism for distributing funding, a split between primary and secondary schools is not available. These figures are in real terms and are based on financial years.

Table 3: Real terms revenue funding per pupil—DSG plus grants

	2005-06 (baseline)	2006-07	2007-08	2008-09
Camden	6,570	6,690	6,900	6,910
Greenwich	5,660	5,920	6,130	6,260
Hackney	6,510	6,910	7,070	7,250
Hammersmith and Fulham	6,050	6,330	6,540	6,490

Redbridge	4,490	4,580	4,760	4,820
Richmond upon Thames	4,440	4,550	4,690	4,750
Sutton	4,490	4,590	4,740	4,810
Waltham Forest	4,970	5,170	5,330	5,330

Notes:

1. This covers funding through the Dedicated Schools Grant, School Standards Grant, School Standards Grant (Personalisation), and Standards Fund as well as funding from the Learning and Skills Council; it excludes grants which are not allocated at LA level.

2. Price Base: Real terms at 2008-09 prices, based on GDP deflators as at 9 December 2009.

3. These figures are for all funded pupils aged 3 to 15.

4. Figures have been rounded to the nearest £10.

5. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

School Choice: Advisory Services

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of his Department's evaluation of the Choice Advice service. [317091]

Ms Diana R. Johnson: The Department commissioned Sheffield Hallam university to carry out an evaluation of the independent Choice Advice Service in a small sample of local authorities. The evaluation was published on 27 November 2008 and is available electronically at:

http://www.dcsf.gov.uk/research/programmeofresearch/projectinformation.cfm?projectid=15471&resultspage=1

A hard copy is also available in the House of Commons Library.

Schools

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils are receiving one-to-one or small group tuition in *(a)* secondary and *(b)* primary schools; and how many pupils he expects to receive such tuition in each such case in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [317824]

Ms Diana R. Johnson: As part of the one-to-one tuition programme, funding is available to primary schools to provide approximately 150,000 courses of tuition in 2009-10, and approximately 335,000 courses of tuition in 2010-11 in key stage 2. In addition to this, the Every Child Counts and Every Child a Reader programmes in key stage 1 and the Every Child a Writer programme at key stage 2 will provide approximately 43,000 children with one-to-one tuition in 2009-10, and 87,000 with one-to-one tuition in 2010-11.

Funding for secondary schools from the one-to-one tuition programme is available to provide approximately 140,000 courses of tuition in 2009-10, and approximately 290,000 courses of tuition in 2010-11.

No decisions on funding for the one-to-one tuition programme or the Every Child programmes have been taken for 2011-12.

Schools received a personalisation budget of £1.6 billion for the three year period of this comprehensive spending review, and this funding can be used to provide further small group support. The Department does not collect data on the number of pupils receiving this type of support.

Schools: Asbestos

Paul Rowen: To ask the Secretary of State for Children, Schools and Families what training is provided to teachers on asbestos management and safety; and what assessment he has made of the effectiveness of such provision. [318514]

Ms Diana R. Johnson *[holding answer 24 February 2010]:* We have made a commitment to improve the training provided to head teachers and school business managers on asbestos management, and Partnerships for Schools will be working with HSE to produce training materials. These will be signposted in courses run by the National College for Leadership of Schools and Children's Services for new head teachers and school business managers. This work will assist them to understand and implement their role in relation to asbestos management during building work, repairs, maintenance and day-to-day operation of schools.

It is not the role of classroom teachers to monitor, manage or to be accountable for the presence of asbestos in schools. Responsibility for this resides with local authorities and/or governing bodies in ensuring that schools are safe for pupils and staff. Consequently, initial teacher training does not address this topic. While there are Qualified Teacher Status standards relating to health and safety issues and the establishment of safe learning environments, training in relation to these standards will be teaching and learning focused, and not related to issues concerning the construction of the building in which that learning takes place.

Schools: Crimes of Violence

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many assaults were officially recorded where the incident took place on school premises in *(a)* 1997, *(b)* 2005 and *(c)* the latest year for which figures are available. [317822]

Mr. Coaker: Data on assaults in schools are not collected at a national level.

Schools: Essex

Bob Spink: To ask the Secretary of State for Children, Schools and Families how much has been spent per pupil on schools in *(a)* Essex and *(b)* Castle Point in each year since 1997. [318089]

Mr. Coaker: The Department allocates education funding to local authorities so the requested information for Castle Point constituency is not available. In addition it is for local authorities to determine how they spend their funds locally. The per pupil revenue funding figures for schools in England and Essex local authority since 1997 is shown in the following table:

School based expenditure per pupil from 1997-98 to 2008-09

		England	*Pre LGR Essex*	*Essex*
1997-98	Pre-Primary and Primary Education	1,740	1,740	
	Secondary Education	2,360	2,580	
	Special Schools	9,830	8,730	
	Total (including Pre-Primary)	2,080	2,020	
1998-99	Pre-Primary and Primary Education	1,870		1,950
	Secondary Education	2,450		2,690

School based expenditure per pupil from 1997-98 to 2008-09

		England	*Pre LGR Essex*	*Essex*
	Special Schools	10,110	—	9,590
	Total (including Pre-Primary)	2,190	—	2,230
1999-2000	Primary Education	2,010	—	1,970
	Pre-Primary and Primary Education	2,050	—	1,970
	Secondary Education	2,610	—	2,730
	Special Schools	10,900	—	9,550
	Total (including Pre-Primary)	2,390	—	2,370
	Total (excluding Pre-primary)	2,370	—	2,370
2000-01	Primary Education	2,210	—	2,240
	Pre-Primary and Primary Education	2,280	—	2,250
	Secondary Education	2,830	—	2,860
	Special Schools	11,860	—	10,300
	Total (including Pre-Primary)	2,620	—	2,590
	Total (excluding Pre-primary)	2,590	—	2,590
2001-02	Primary Education	2,480	—	2,460
	Pre-Primary and Primary Education	2,570	—	2,480
	Secondary Education	3,150	—	3,190
	Special Schools	13,030	—	11,330
	Total (including Pre-Primary)	2,940	—	2,880
	Total (excluding Pre-primary)	2,900	—	2,870
2002-03	Primary Education	2,530	—	2,570
	Secondary Education	3,230	—	3,270
	Special Schools	12,820	—	11,780
	Total (excluding Pre-primary)	2,950	—	2,960
2003-04	Primary Education	2,750	—	2,750
	Secondary Education	3,550	—	3,560
	Special Schools	14,050	—	12,720
	Total (excluding Pre-primary)	3,230	—	3,200
2004-05	Primary Education	2,910	—	2,900
	Secondary Education	3,800	—	3,780
	Special Schools	15,110	—	13,200
	Total (excluding Pre-primary)	3,450	—	3,390
2005-06	Primary Education	3,150	—	3,120
	Secondary Education	4,070	—	4,010
	Special Schools	16,430	—	14,280
	Total (excluding Pre-primary)	3,720	—	3,630
2006-07	Primary Education	3,360	—	3,250
	Secondary Education	4,320	—	4,260
	Special Schools	17,480	—	14,530
	Total (excluding Pre-primary)	3,950	—	3,820
2007-08	Primary Education	3,580	—	3,440
	Secondary Education	4,620	—	4,550
	Special Schools	18,650	—	15,440
	Total (excluding Pre-primary)	4,210	—	4,070
2008-09	Primary Education	3,780	—	3,630
	Secondary Education	4,890	—	4,780
	Special Schools	19,790	—	16,860
	Total (excluding Pre-primary)	4,460	—	4,280

Notes:

1. The financial information used in the answer to this PQ is taken from the Department's s52 data collection.
2. 1999-2000 saw a change in data source when the data collection moved from the ROI form collected by CLG to the Section 52 form from the DCSF. 2002-03 saw a further break in the time series following the introduction of Consistent Financial Reporting (CFR) and the associated restructuring of the outturn tables. The change in sources is shown by dotted lines.
3. Pupil numbers include only those pupils attending maintained establishments within each sector and are drawn from the DCSF Annual Schools Census adjusted to be on a financial year basis.
4. Local government reorganisation (LGR) took place during the mid to late 1990's.
5. Expenditure was not distinguished between the pre-primary and primary sectors until the inception of Section 52 for financial year 1999-2000.
6. School based expenditure in LA maintained nursery schools was not recorded in 2002-03 and comparable figures are not available for 2003-04 onwards.
7. Figures are rounded to the nearest £10. Cash terms figures as reported by local authorities as at 22 February 2010.

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families when he plans to publish the report commissioned by his Department in 2008 on the Dedicated Schools Grant; and if he will make a statement. [318886]

Mr. Coaker: The Government launched a review of the Dedicated Schools Grant in January 2008 and it is now nearing its conclusion. We expect to issue a consultation on the way forward shortly.

Schools: Fires

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of the number of new schools not required to fit sprinklers. [318628]

Mr. Coaker: It is good practice and our expectation that the majority of new schools will include sprinkler systems. Currently over 70 per cent. of new secondary schools and academies procured under Partnerships for Schools arrangements include sprinklers. It is not however a legal requirement for schools to be fitted with sprinkler systems and we do not hold information on the number of new schools not fitted with sprinklers.

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what recent representations his Department has received on mandatory installation of fire sprinklers in new schools. [318630]

Mr. Coaker: On 19 May 2009, my right hon. Friend the Member for Makerfield (Mr. McCartney) led an Adjournment debate on fire safety in schools at which this issue was discussed. I subsequently met my hon. Friend and colleagues on 22 October. We have also received representations from the Chief Fire Officers Association and the National Fire Sprinkler Network; and parliamentary questions have been asked in the House of Commons and the House of Lords.

Our policy remains that introduced by my right hon. Friend the Member for South Dorset (Jim Knight), when he was Schools Minister. In March 2007 he announced the Government's policy on sprinklers and their value as a measure against arson by saying:

> "It is now our expectation that all new schools will have fire sprinklers installed. However, we do not intend to make this a compulsory measure. There may be a few cases where local authorities or other promoters of schools consider that sprinklers are not needed. If so, they will need to be able to demonstrate that such schools are low risk and that sprinklers would not represent good value for money."

Schools: Offensive Weapons

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many incidents of pupils carrying a dangerous weapon into school were reported in *(a)* 1997, *(b)* 2005 and *(c)* the latest year for which figures are available. [317820]

Ms Diana R. Johnson: Data on the number of incidents of pupils carrying a dangerous weapon into school are not collected at a national level.

Schools: Snow and Ice

Mrs. Villiers: To ask the Secretary of State for Children, Schools and Families if he will make an assessment of the extent to which anxiety about liability for slipping injuries influenced decisions on school closures during the recent severe weather episode. [317508]

Ms Diana R. Johnson: The Government do not collect data on the reasons for which schools close during severe weather, and there is no duty on schools to advise the Government why they closed.

The Department's guidance to schools about planning for, and responding to severe weather urges them to take a proportionate approach, balancing any risks arising from less supervision and minor slips and bumps against disruption to pupils' learning.

Schools: Standards

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many schools were rated good with outstanding features at the most recent point for which inspection data are available. [318481]

Mr. Coaker *[holding answer 24 February 2010]:* This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 22 February 2010:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for response.

Ofsted's rating system is based on only four judgements for overall effectiveness where 1 is outstanding; 2 is good; 3 is satisfactory; and 4 is inadequate. Schools are not rated good with outstanding features. Some inspectors might use this phrase in the text of their reports; we do not hold figures for this.

Consequently, this response considers maintained schools which were judged as good for overall effectiveness at their last inspection and where at least one of the other judgements made was outstanding.

The latest period for which published figures about maintained school section 5 inspection outcomes are available is the academic year 2008/09. This answer, therefore, takes into account inspections carried out prior to 1 September 2009.

At 1 December 2009 there were 22,260 schools open and eligible for a section 5 Ofsted inspection. Of these, 21,920 had received at least one section 5 inspection. These schools, together with their latest inspection judgements, form the basis for the response.

Of the 21,920 schools, 11,033 (50%) were judged as good for overall effectiveness at the last inspection. Of these, 8,704 (79%) received at least one judgement of outstanding.

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and placed in the library of both Houses.

Schools: Vocational Guidance

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what his assessment is of the effectiveness of careers services offered in schools; what recent steps he has taken to improve them; and how much has been spent on them in each year since 1997. [318197]

Mr. Iain Wright *[holding answer 24 February 2010]:* The best schools, working in partnership with local authority services, provide excellent support for their pupils to help them to make decisions about learning and careers but the quality across all schools is variable. We published our strategy to improve information, advice and guidance (Quality, Choice and Aspiration) in October 2009. Alongside the strategy we published statutory guidance for schools, setting out clear expectations for the provision of high quality impartial information about learning options, which promotes the best interests of pupils.

The way that provision of careers services has been funded has changed in the period since 1997, with the establishment of the Connexions service and, more recently, local authorities assuming responsibility for the provision of information, advice and guidance. Funding has been provided to Connexions/Careers Services as set out in the following table:

	Funding (£ million)	To
1997-98	192	[1]Careers services
1998-99	210	Careers Services
1999-00	223	Careers Services
2000-01	233	Careers Services
2001-02	116	[2]Connexions
	173	Careers Services
2002-03	337	Connexions
	52	Careers Services
2003-04	439	Connexions
2004-05	458	Connexions
2005-06	464	Connexions
2006-07	466	Connexions
2007-08	467	Connexions
2008-09	469	[3]Connexions
2009-10	467	Connexions

[1] Prior to 2001, Careers Services provided advice and guidance on careers and related issues.

[2] From April 2001 Connexions was introduced in a staged way and the Department provided funding to Connexions Partnerships for the delivery of Connexions services for young people.

[3] From April 2008 local authorities have received funding for Connexions services, which advise young people on a range of issues including careers, as part of their Area Based Grant.

Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 29 October 2009, *Official Report*, column 610W, on secondary education, how many schools in each *(a)* region and *(b)* local authority area there were in each category in each year. [318588]

Ms Diana R. Johnson *[holding answer 25 February 2010]:* The answer to this question has been placed in the Library.

Secondary Education: Pupil Numbers

Michael Gove: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 29 October 2009, *Official Report*, column 610W, on secondary education, how many such schools there were in each local authority area in each year. [318486]

Ms Diana R. Johnson *[holding answer 24 February 2010]:* The answer to this question has been placed in the Library.

Teachers: Pay

Mrs. Humble: To ask the Secretary of State for Children, Schools and Families what the average salary of a teacher in *(a)* Blackpool, *(b)* Lancashire and *(c)* England was in the latest year for which information is available. [319535]

Mr. Coaker: The following table shows the average salary of regular qualified teachers in service in local authority maintained schools in Blackpool and Lancashire local authorities and England. March 2008 the latest information available.

Average salary of full-time regular qualified teachers in local authority maintained nursery, primary, secondary, special schools and pupil referral units, January 2008[1] Coverage: Blackpool and Lancashire local authorities and England

	Average salary (£)
Blackpool	35,100
Lancashire	35,800
England	35,900

[1] Provisional

Source:

Database of Teacher Records Figures are rounded to the nearest £100

Truancy: Salford

Hazel Blears: To ask the Secretary of State for Children, Schools and Families what the unauthorised absence rate was for pupils in Salford in *(a)* 1997 and *(b)* 2009. [317385]

Mr. Coaker: The available information is shown in the table for 1996/97 and 2007/08. Information for 2008/09 is expected to be published in spring 2010.

Primary, secondary and special schools[1, 2, 3], percentage of half days missed due to unauthorised absence 1996/97 and 2007/08[4]: Salford parliamentary constituency

	Percentage of half days missed due to unauthorised absence[5]
1996/97	2.02
2007/08	2.17

[1] Includes middle schools as deemed.

[2] Includes maintained secondary schools, city technology colleges and academies (including all-through academies).

[3] Includes maintained and non maintained special schools. Excludes general hospital schools.

[4] Figures for 1996/97 have been sourced from the Absence in Schools Survey. Figures for 2007/08 are derived from the School Census.

[5] The number of sessions missed due to unauthorised absence expressed as a percentage of the total number of possible sessions.

Absence in Schools Survey and School Census (see note 4).

Written Questions: Government Responses

Mr. Oaten: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 24 February 2010, *Official Report*, column 650W, on Education Maintenance Allowance and the answer from the Minister for Further Education, Apprenticeships and Consumer Affairs of 3 December 2009, *Official Report*, column 987W, on the Learning and Skills Council for England's correspondence, if he will review his Department's processes to ensure that all letters from the Learning and Skills Council in response to Parliamentary Questions are sent to the Editor of the *Official Report* for publication. [319985]

Mr. Iain Wright: I have reviewed the process for responses to parliamentary questions with the Learning and Skills Council (LSC). Service standards have been agreed between my Department and the LSC, setting out that responses should be sent to the Editor of the *Official Report* within 10 working days of receipt.

Written Answers to Questions

Wednesday 3 March 2010

PRIME MINISTER

Detainees

Mr. Hague: To ask the Prime Minister with reference to the statement of 18 March 2009, *Official Report*, columns 55-6WS, on detainees, how many cases of potential criminal wrongdoing have been referred to the Attorney-General since March 2009; and if he will make a statement. [318805]

The Prime Minister: Since March 2009 one further case has been referred to the Attorney-General, as set out in a letter from the Foreign Secretary to the right hon. Gentleman on 11 September 2009.

CABINET OFFICE

10 Downing Street

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 4 February 2010, *Official Report*, column 508W, on departmental official hospitality, on what date *(a)* Mr. Derek Draper, *(b)* Mr. Charlie Whelan and *(c)* Mr. Damian McBride last entered the Downing Street/Cabinet Office complex as a visitor. [318328][1]

Tessa Jowell: I refer the hon. Gentleman to my answer given on 4 February 2010, *Official Report*, column 877W.

Deaths: Alcoholic Drinks

Mr. Don Foster: To ask the Minister for the Cabinet Office how many deaths of *(a)* men and *(b)* women attributable to the effects of alcohol there were in each local authority area in each of the last five years for which figures are available. [320047]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent question asking how many deaths of (a) men and (b) women attributable to alcohol misuse there were in each local authority area in each of the last five years for which figures are available. (320047)

The tables provide the number of deaths where the underlying cause was alcohol-related for (a) males (Table 1) and (b) females (Table 2), in each local authority in England and Wales, for the years 2004 to 2008 (the latest year available). Copies have been placed in the House of Commons Library.

Internationally accepted guidance from the World Health Organisation requires only those conditions that contributed directly to the death to be recorded on the death certificate. Medical practitioners and coroners are not supposed to record all of the diseases or conditions present at or before death, and whether a condition contributed is a matter for their clinical judgement. Lifestyle and behavioural factors, such as the deceased's alcohol consumption, are not recorded.

Departmental Computers

Mr. Stewart Jackson: To ask the Minister for the Cabinet Office how many computer keyboards purchased by her Department have been replaced owing to damage in each of the last 12 months. [319638]

Angela E. Smith: The Cabinet Office IT services are outsourced to Fujitsu Services Ltd. Keyboards are provided as part of that service and replaced by the supplier when they are faulty. In the last 12 months there have been 100 replacements. The following table shows how many have been replaced in each of the last 12 months:

	Number
March 2009	10
April 2009	10
May 2009	12
June 2009	8
July 2009	12
August 2009	8
September 2009	8
October 2009	8
November 2009	9
December 2009	5
January 2010	5
February 2010	5

Honours

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the Prime Minister's speech at Britain's Everyday Heroes Book Launch of 24 July 2007, what steps she has taken to reform the honours system to recognise more widely citizens' contributions to civic society since July 2007. [318355]

Tessa Jowell: Following his speech on 24 July 2007, my right hon. Friend the Prime Minister wrote to all Cabinet colleagues asking them to do more to emphasise, when considering candidates for honours, the role played by volunteers and others who serve the community. The Cabinet Secretary, as Chair of the Main Honours Committee, wrote to the Chairs of the eight Independent Honours Selection Committees repeating this strategic guidance. Government Departments and all those involved in the honours process are reminded of this guidance on a regular basis. In the New Year's Honours List 2010, 73 per cent. of all awards went to people working in the community.

WOMEN AND EQUALITY

Equality and Human Rights Commission: Industrial Disputes

Mr. Stewart Jackson: To ask the Minister for Women and Equality pursuant to the answer of 25 January 2010, *Official Report*, column 556W, on Equality and Human Rights Commission: industrial disputes, how much the Commission has spent to date on *(a)* internal courses, *(b)* external courses and *(c)* external trainers for staff training for employment tribunal litigation and process. [319748]

---

[1] *[Official Report, 9 March 2010, Vol. 507, c. 3MC.]*

Maria Eagle: The total spent since the inception of the Commission on the 1 October 2007 on staff training for employment tribunal litigation and process is £210. This was for an external course—part of the Law Society mandatory Continuous Professional Development requirement for Solicitors.

Commission staff receive support from the Commission's in-house Corporate Law Team, which provides advice, guidance and support in relation to employment tribunal litigation and process.

Dignity At Work Policy: Accompanying Communications Strategy

Mr. Stewart Jackson: To ask the Minister for Women and Equality if she will place in the Library a copy of the Equality and Human Rights Commission's *(a)* Dignity at Work policy and *(b)* accompanying communications strategy. [319625]

Maria Eagle: The Commission's Dignity at Work policy has not yet been finalised. It is due to be completed in March 2010. When the policy has been finalised I will place a copy in the Library, together with any accompanying communications strategy.

SOLICITOR-GENERAL

Departmental Energy

Dan Rogerson: To ask the Solicitor-General what steps the Law Officers' Departments plan to take to participate in the Earth Hour event on 27 March 2010. [319100]

The Solicitor-General: The Attorney-General's Office and Treasury Solicitor's Department have registered to participate in Earth Hour on Saturday 27 March 2010, and will be taking active steps to ensure that all non-essential lighting is powered down during the event.

The remaining Law Officers' Departments have not actively pledged to take part in the event but most have existing systems in place to ensure that all non-essential power is switched off during the weekend.

Departmental Theft

Mr. Watson: To ask the Solicitor-General how many thefts from the Law Officers' Departments have been recorded in the last two years. [318990]

The Solicitor-General: The Law Officers' Departments have recorded 64 instances of theft during the last two years.

Special Advocates

Mr. Dismore: To ask the Solicitor-General pursuant to the answer of 22 February 2010, *Official Report*, column 245W, on special advocates, in how many cases special advocates were used; on how many court or tribunal days special advocates were used; and what the total cost of the use of special advocates was in each of the categories listed in the question. [318930]

The Solicitor-General: The information requested is not recorded centrally and could be obtained only at disproportionate cost.

TRANSPORT

Automatic Number Plate Recognition

Mr. Stewart Jackson: To ask the Minister of State, Department for Transport with reference to the answer of 7 July 2009, *Official Report*, column 644W, on parking fines, which local authorities use automatic number plate recognition technology for *(a)* civil parking enforcement and *(b)* traffic lane enforcement, according to records held by his Department; and on what date each local authority was certified to use such technology. [319801]

Mr. Khan: Automatic number plate recognition (ANPR) technology is not a required feature of a civil enforcement system, and any system that relied solely on ANPR evidence would not comply with the relevant legislation. Although the Department for Transport does not require information about the use of ANPR in all circumstances, our records show that the following local authorities use ANPR to assist the visual identification of vehicles when the evidence is reviewed and, in some cases, to prompt the recording of evidence.

(a) Traffic Management Act 2004—civil parking enforcement

Applicant	*"Approved Device" certification granted*
Nottingham city council	16 June 2008
London borough of Hackney	30 March 2009
Bournemouth borough council	9 June 2009
Basildon district council	7 July 2009

(b) Transport Act 2000—civil bus lane enforcement

Traffic authority	*"Approved Device" certification granted*
Nottingham city council	20 December 2007
London borough of Hackney	30 March 2009
Reading borough council	6 July 2009
Essex county council	28 July 2009
Bournemouth borough council	21 October 2009
Bath and North East Somerset council	19 November 2009
Liverpool city council	5 January 2010

Cars: Essex

Mr. Amess: To ask the Minister of State, Department for Transport how many registered car owners there were in *(a)* Southend and *(b)* Essex in each year since 1997. [320605]

Paul Clark: The following table provides the number of licensed private cars registered within the local authorities of *(a)* Southend-on-Sea and *(b)* the county of Essex on the 31 December each year from 1997 to 2008.

		Number
	Southend-on-Sea	*Essex*
1997	58,235	538,188
1998	59,337	551,774
1999	61,057	569,300
2000	62,075	587,935
2001	64,093	608,629
2002	65,945	623,752
2003	67,517	627,595
2004	68,696	638,334
2005	69,465	648,379
2006	69,844	656,613
2007	70,196	665,074
2008	70,604	672,265

The Department for Transport holds no specific information on registered car owners and it should be noted that individual car owners may own multiple cars.

Data for 2009 will be published at the end of April 2010.

Driving Offences: Local Government

Mr. Stewart Jackson: To ask the Minister of State, Department for Transport how many cases heard by the Traffic Penalty Tribunal were brought by local authorities in respect of their own vehicles in the last 36 months. [319803]

Mr. Khan: This information is not held by central Government.

Driving under Influence: Crime Prevention

Stewart Hosie: To ask the Minister of State, Department for Transport what steps his Department is taking to reduce the number of instances of drink driving. [319753]

Paul Clark: There is stringent legislation around drink driving, with a minimum 12 month ban for drivers found over the prescribed alcohol limit for driving. We have worked closely with the police on enforcement, such as equipping police forces with new digital breathalysers, and in making the links between police campaigns and our drink-drive advertising. This long-term strategy has helped deliver more than a 75 per cent. reduction in drink-drive related deaths and serious injuries since 1980.

The Government consulted last year on a number of further measures to reduce drink-related casualties in the Road Safety Compliance document, the results of which will feed into the Government's post-2010 Road Safety Strategy to be published later this year.

The Department for Transport also announced in December that it had commissioned an independent review of drink and drug driving legislation. As far as drink driving is concerned, the review, led by Sir Peter North, is examining the case for changes to the current provisions, including options for reducing the legal alcohol limit for drivers. The study is also considering the likely impact of such changes on driver behaviour. Sir Peter has been asked to report by the end of March and the Government will then consult on his findings before finalising and publishing the new road safety strategy.

Copies of the Road Safety Compliance consultation document and the terms of reference for the North review have been placed in the Libraries of the House.

In addition to these steps, the Department for Transport is developing a new multi-media publicity campaign targeting drivers who continue to mix drinking and driving. We are aiming to launch the campaign in summer 2010.

Driving: Licensing

Mr. Crabb: To ask the Minister of State, Department for Transport if he will make it his policy to collect information on the country of issue of driving licences held by drivers involved in traffic accidents. [319161]

Paul Clark: The collection of information about driving licences held by drivers involved in traffic accidents was considered as part of the latest review of personal injury road casualties statistics collected by the police on behalf of the Department. The review has to consider user needs against the additional burden and practicality of collection. A copy of the summary review report, published on 4 February 2010, has been placed in the House Library.

The review proposed a new variable to identify whether a driver has a valid licence. No further details of the licence, including country of issue, will be collected as part of the statistics form. The introduction of a new electronic collision reporting system for the police from 2011 may enable further information on driving licences held by drivers involved in traffic accidents to be obtained in the future.

Exhaust Emissions

Norman Baker: To ask the Minister of State, Department for Transport what estimate he has made of the total carbon dioxide emissions from trains in the last 10 years; and what projection he has made of such emissions from trains in the next *(a)* 10, *(b)* 20 and *(c)* 50 years. [317025]

Mr. Khan: Rail carbon dioxide (CO_2) emissions for the last 10 years can be found at:

http://www.decc.gov.uk/en/content/cms/statistics/climate_change/gg_emissions/uk_emissions/2008_final/2008_final.aspx

The source of the data is AEA/Department of Energy and Climate Change (DECC).

Projected CO_2 (ktonnes) emissions in GB, as published in the Carbon Pathways Analysis document by the Department for Transport, are shown in the following table:

	2014		*2020*		*2022*	
	Min	*Max*	*Min*	*Max*	*Min*	*Max*
Passenger rail	2,730	2,895	2,988	3,136	3,018	3,168
Passenger rail electric	1,450	1,540	1,584	1,665	1,596	1,678

	2014		*2020*		*2022*	
	Min	*Max*	*Min*	*Max*	*Min*	*Max*
Passenger rail—diesel	1,280	1,355	1,404	1,472	1,422	1,491
Freight rail	569	600	607	640	618	651
Total rail	3,298	3,495	3,594	3,776	3,636	3,819

Source:
Carbon Pathways Analysis, Figure 2.10, page 33
http://www.dft.gov.uk/pgr/sustainable/analysis.pdf

Projected carbon emissions are on a different basis from the historic figures. The former are based on data from the Office of Rail Regulation, while the latter are from the UK's Greenhouse Gas Inventory.

Norman Baker: To ask the Minister of State, Department for Transport what estimate he has made of the total carbon dioxide emissions from *(a)* domestic and *(b)* international aviation in the UK in the last 10 years; and what projection he has made of the emissions from (i) domestic and (ii) international aviation in the UK in the next (A) 10, (B) 20 and (C) 50 years. [317026]

Mr. Khan: Aviation carbon dioxide (CO_2) emissions for the last 10 years can be found at:

http://www.decc.gov.uk/en/content/cms/statistics/climate_chanqe/gg_emissions/uk_emissions/2008final/2008_final.aspx

The source of the data is AEA/Department of Energy and Climate Change (DECC).

The following table shows the Departments latest forecasts for international, domestic and total CO_2 emissions from flights departing from UK airports in 10, 20 and 50 years.

Aviation emission forecasts:

			Million tonnes
	2020	*2030*	*2060*
Total International CO_2	47.1	54.5	54.0
Total Domestic CO_2	3.2	3.9	5.0
Total CO_2	50.3	58.4	59.0

Notes:
1. Data are for UK departures only.
2. These forecasts refer to the central demand scenario s12s2, with Stansted R2 in 2015 and Heathrow R3 around 2020, as presented in "UK Air Passenger Demand and CO_2 Forecasts", January 2009.
3. These CO_2 forecasts include freight, APU and a residual adjustment to ensure consistency with the DECC outturn estimate.

Norman Baker: To ask the Minister of State, Department for Transport what estimate he has made of the total carbon dioxide emissions from road transport in the last 10 years; and what projection he has made of such emissions from road transport in the next *(a)* 10, *(b)* 20 and *(c)* 50 years. [317028]

Mr. Khan: Road transport carbon dioxide (CO_2) emissions for the last 10 years can be found at:

http://www.decc.gov.uk/en/content/cms/statistics/climate_change/gg_emissions/uk_emissions/2008_final/2008_final.aspx

The source of the data is AEA/Department of Energy and Climate Change (DECC).

The Department for Transport's most recent forecasts of total road transport carbon dioxide emissions for England were produced as part of the road transport forecasts for 2010, 2015, and 2025. These are available in 'Road Traffic Forecasts 2008: Results from the Department for Transport's National Transport Model' which is available at:

http://www.dft.gov.uk/pgr/economics/ntm/roadtransportforecasts08/rtf08.pdf

Roads: Accidents

Mr. Syms: To ask the Minister of State, Department for Transport whether he has made an estimate of the number of *(a)* pedestrians and *(b)* cyclists injured in road traffic accidents in which the use of a personal music device was a contributory factor in the last five years. [320378]

Paul Clark: The information requested is not collected by the Department for Transport.

Mr. Amess: To ask the Minister of State, Department for Transport how many road traffic accidents were recorded in *(a)* Essex and *(b)* Southend in each year since 1997. [320645]

Paul Clark: The information requested is given in the following table.

Reported personal injury road accidents in Essex and Southend: 1997 to 2008

	Essex[1]	*Southend*
1997	6,886	692
1998	6,821	698
1999	6,843	717
2000	6,985	745
2001	6,773	686
2002	6,408	656
2003	6,182	612
2004	6,131	571
2005	5,595	540
2006	5,330	523
2007	5,004	466
2008	4,455	450

[1] Essex county, including the unitary authorities of Southend and Thurrock

Roads: Tolls

Mr. Scott: To ask the Minister of State, Department for Transport what recent discussions he has had with the Chancellor of the Exchequer on a national satellite-based road pricing scheme. [319661]

Mr. Khan: Department for Transport Ministers last had discussions with the Chancellor of the Exchequer on a national satellite-based road pricing scheme in the context of the Budget 2008 announcement of an invitation to the private sector to run a number of projects based on charging by time of day, distance travelled and route chosen.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Air Pollution

Graham Stringer: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking towards the achievement of public service agreement 28 on ambient air quality. [320000]

Jim Fitzpatrick: In the delivery agreement document for this public service agreement (PSA) published in October 2007 DEFRA said it will take forward actions under the UK air quality strategy and implement the EU air quality directives.

The Department will also take forward the review of the national air quality strategy to identify potential new policy measures to provide further health benefits and help move closer towards the strategy's air quality objectives. DEFRA will integrate environmental objectives, such as air quality targets, and sustainable development into policies and practice, and promote these across government, the UK and internationally. DEFRA will continue to work with partners in the EU and internationally on actions and measures to tackle national and transboundary air pollution.

Further detail on the PSA is available in the Treasury booklet "PSA Delivery Agreement 28: Secure a healthy natural environment for today and the future" available from the Treasury website at:

http://www.hm-treasury.gov.uk/d/pbr_csr07_psa28.pdf

Graham Stringer: To ask the Secretary of State for Environment, Food and Rural Affairs which areas of the country he expects to be compliant with EU limits on ambient air concentrations of particulates and nitrogen oxide at the conclusion of the term of the renewable energy strategy. [320001]

Jim Fitzpatrick: The renewable energy strategy is the Government's comprehensive action plan for achieving the UK's share of the EU 2020 renewable energy target. It was published in July 2009 alongside the low carbon transition plan.

Projections of air quality, which exclude the impact of the renewable energy strategy, indicate that the UK is expected to be in full compliance with limit values for particulate matter in 2020, and that exceedences of limit values for nitrogen dioxide will be confined to a small number of roadside locations in London. These exceedences are associated with road transport emission sources.

Emission projections, which include policies contained within the low carbon transition plan and the renewable energy strategy, indicate a small net increase in the emission of oxides of nitrogen due to increased uptake in combined heat and power units, and no change in relation to emissions of particulate matter. While a full exceedences assessment has not yet been undertaken based on these emissions projections, it is thought unlikely that there will be any impact on the extent of limit value exceedences in 2020.

DEFRA and DECC have worked closely to identify policies within the renewable energy strategy that may impact on air quality. For example, the renewable heat incentive proposes a maximum emissions standard for biomass boilers below 20MW to minimise any detrimental impact on air quality in urban areas.

Fertiliser Industry Assurance Scheme

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what his most recent estimate is of the cost to his Department of the fees charged by Product Authentication International in respect of the Fertiliser Industry Assurance scheme. [319441]

Jim Fitzpatrick: In respect of the Fertiliser Industry Assurance scheme, the companies participating in the scheme pay for the fees charged by Product Authentication International. For this reason, there are no costs to DEFRA or any Government Department.

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what his latest assessment is of the financial effects on individual farms of the Fertiliser Industry Assurance scheme; and if he will make a statement. [319442]

Jim Fitzpatrick: The Fertiliser Industry Assurance scheme has no direct financial effect on individual farms. The scheme was designed specifically for the fertiliser supply chain. For this reason, there are no individual farms signed up as members of the scheme.

Food: Public Sector

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department provides to public sector bodies on procuring meat and dairy products that are free range or produced to standards equivalent to those of the Royal Society for the Prevention of Cruelty to Animals Freedom Food scheme. [319537]

Jim Fitzpatrick: Guidance produced under DEFRA's Public Sector Food Procurement Initiative encourages all public sector bodies to, and shows how they can, specify higher animal welfare standards, including farm assurance schemes and higher level schemes such as the RSPCA's Freedom Foods standards.

Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* functions and *(b)* purposes are of (i) the Waste and Resources Action Programme and (ii) the Waste Improvement Network; and whether each body has provided guidance to local authorities on (A) adopting alternate weekly rubbish collections and (B) restricting residual refuse container capacity. [319733]

Dan Norris: The Waste Improvement Network is a service for local authority waste officers and members. It provides information, advice, guidance and support to its members, including networking possibilities and advice on working in partnerships.

The Waste Improvement Network does not provide advice on the issues listed in the question, but it does share information and good practice between councils and to that end it has published surveys and case studies on the impact of restricting residual waste i.e. on increasing recycling and reducing overall waste arisings per household.

The Waste and Resources Action Programme (WRAP) works with businesses and individuals to help them reap the benefits of reducing waste and develop sustainable products and use resources in an efficient way. It is WRAP's aim to create the case for change, support change and deliver change. WRAP's Business Plan is available on the WRAP website and provides more information about its functions and purposes. WRAP, through its local authority support programme, also provides direct support and advice to individual local authorities on all aspects of their collection and recycling services. Advice is provided at the request of local authorities and this has included advising on options for improving recycling and reducing refuse.

WRAP published guidance on alternate weekly collections in July 2007. This guidance makes reference to other options for restricting refuse capacity including that of maintaining weekly collections but providing smaller containers for refuse. This guidance document is also available on the WRAP website.

Waste Disposal: East of England

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what funding *(a)* his Department and *(b)* the Waste and Resources Action Programme has given to the East of England Waste Prevention Network since that body's inception. [319621]

Dan Norris: DEFRA has provided no funding to the East of England Waste Prevention Network.

WRAP has not provided any funding to the East of England Waste Prevention Network, but did provide the Network with consultancy support and advice on local communications and promotional activities linked to the East of England's involvement in the European Week for Waste Reduction in November 2009.

INTERNATIONAL DEVELOPMENT

Malaria

11. **David Tredinnick:** To ask the Secretary of State for International Development what steps his Department is taking to control malaria in developing countries. [319874]

Mr. Michael Foster: The UK remains strongly committed to tackling malaria.

That is why the Prime Minister committed in 2008 to provide over 20 million bednets by the end of 2010 and to help prevent 110,000 child deaths, and our 2009 White Paper committed to provide an additional 10 million bednets each year to 2013.

By the end of 2009, we had provided over 14 million bednets, preventing over 80,000 child deaths.

Jamaica and Nigeria: Development Aid

12. **Mr. Hollobone:** To ask the Secretary of State for International Development how much development aid his Department gave to Jamaica and Nigeria in the last 12 months. [319875]

Mr. Thomas: The amount of bilateral aid provided b the Department for International Development (DFID to Jamaica was £3.6 million and to Nigeria was £110. million in 2008-09.

Gleneagles Summit 2005

13. **Mr. Sharma:** To ask the Secretary of State fo International Development what recent assessment h has made of progress towards implementing thos recommendations of the Africa Commission which wer adopted at the Gleneagles summit in 2005. [319877

Mr. Michael Foster: We regularly monitor progres against the commitments made at Gleneagles. Alon with the other G8 countries, we are producing ar accountability report on this progress in time for th next G8 summit in Canada. This will include the Gleneagle commitments and the other development commitment made by the G8 since 2005.

14. **Mr. Bain:** To ask the Secretary of State fo International Development what recent discussions he has had with his G8 counterparts on progress toward meeting commitments made at Gleneagles in 2005. [319878]

Mr. Michael Foster: Last week the Secretary of State for International Development met with Minister Beverley Oda to discuss issues including the aid volume commitment made at Gleneagles. The European Union's Gleneagles commitments were also discussed at the Informal Meeting of EU Development Ministers at La Granja, attended by the Minister of State. While there he also had bilaterals with German Development Minister Niebel and European Development Commissioner Piebalgs. The UK will meet its aid volume commitments and continue to press others to meet their own commitments.

Departmental Public Expenditure

Mr. Curry: To ask the Secretary of State for International Development how much funding his Department *(a)* allocated to each Organisation for Economic Co-operation and Development and Creditor Reporting System code in each of its bilateral country programmes in each of the last five years and *(b)* intends to allocate to each such code for each such programme in each of the next three years. [319483]

Mr. Michael Foster: The Creditor Reporting System (CRS) is overseen by the Development Assistance Committee (DAC) of the Organisation for Economic Co-operation and Development. Full details of the UK return for calendar years up to 2008 are available directly from the OECD website at

http://stats.oecd.org/qwids/

A breakdown of the allocations of the Department for International Development's (DFID's) aid for 2009 or for future years cannot be provided at this level of detail without incurring disproportionate cost. Information on 2009 flows is due to be provided to the DAC in July.

Mr. Curry: To ask the Secretary of State for International Development how much funding his Department *(a)* allocated and *(b)* disbursed for (i) agriculture and (ii) food security through (A) bilateral expenditure,

(B) multilateral contributions and (C) research in each of the last five years; and how much it intends to disburse in each such case in each of the next three years. [319484]

Mr. Michael Foster: Details of funds disbursed by the Department for International Development (DFID) for agriculture and food security in each of the last five financial years are provided in the following table. DFID does not record funds allocated but not disbursed. These figures do not include spending on emergency humanitarian food aid.

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Bilateral					
Agriculture (incl. Fisheries)	72	55	74	52	64
Agriculture and RNR Research	36	33	26	27	33
Food Aid and Food Security	16	18	19	36	51
Rural Development	9	26	25	49	56
Rural Roads	—	—	—	—	10
Total Bilateral	133	132	145	164	214
Multilateral					
Agriculture (incl. Fisheries)	42	38	109	95	124
Agriculture (incl. Fisheries) Research	5	4	2	4	1
Food Security	26	31	27	19	14
Rural Development	25	20	29	19	22
Total Multilateral	98	93	166	138	161
Total DFID Expenditure Ag and FS	231	225	312	301	375
Basic Nutrition	1	1	2	9	13
Total DFID Expenditure Ag and FS (inc. Nutrition)	232	226	314	311	388

The UK Government have committed to spend £1.1 billion on agriculture and food security between 2009-10 and 2011-12. This commitment does not include spending on basic nutrition or emergency humanitarian food aid.

Falkland Islands: Oil

Clare Short: To ask the Secretary of State for International Development if he will apply the rules of the extractive industries transparency initiative in relation to any oil that may be discovered in the Falkland Islands. [320104]

Mr. Michael Foster: If oil is discovered in the Falkland Islands, any revenues generated will be subject to the same rules applied by the UK Government to other revenue received from extractive industries.

The UK Government publish all information on revenue received from oil and gas industries, including taxation revenues and this available on the HM Revenue and Customs website at

http://www.hmrc.gov.uk/index.htm

The UK practice of disclosure of revenue information is in line with the principles of the extractive industries transparency initiative.

South Africa: Natural Resources

Clare Short: To ask the Secretary of State for International Development if he will propose a joint commitment by the UK and South Africa to implement the extractive industries transparency initiative. [320105]

Mr. Michael Foster: The UK Government support the extractive industries transparency initiative (EITI) and collaborates with the EITI Board and Secretariat to promote the adoption and implementation of the initiative by resource rich countries. The EITI Chairman, Peter Eigen, has recently written to President Zuma encouraging South African implementation. The UK Government have no plans to propose to the president of South Africa a joint commitment by the UK and South Africa to implement the initiative.

Sri Lanka: Overseas Aid

Mr. David Jones: To ask the Secretary of State for International Development what recent discussions his Department has had with the government of Sri Lanka on humanitarian issues. [319876]

Mr. Michael Foster: The Department for international Development (DFID) remains in regular contact with the Government of Sri Lanka on humanitarian issues. The British high commissioner to Sri Lanka and our humanitarian adviser in Colombo frequently discuss issues of concern with Government representatives and the Presidential Task Force for the Development of the North. The Foreign Secretary also raised humanitarian issues with Foreign Minister Bogollogama when they last spoke on 5 February.

ENERGY AND CLIMATE CHANGE

Atomic Energy Authority: Pay

Angus Robertson: To ask the Secretary of State for Energy and Climate Change what the salary was of the Chief Executive of the United Kingdom Atomic Energy Authority in 2007. [319810]

Mr. Kidney: Details of remuneration for the UK Atomic Energy Authority's directors are disclosed in its annual reports and accounts.

Carbon Reduction Commitment Energy Efficiency Scheme

Mr. Stewart Jackson: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 11 January 2010, *Official Report*, column 735W, on the Carbon Reduction Commitment energy efficiency scheme, what estimate he has made of the maximum potential cost to a local authority at the bottom of the Carbon Reduction Commitment league table; whether he has made an assessment of the potential effect on levels of council tax bills of that scheme; and whether those costs will be classified a new burden. [319738]

Joan Ruddock: The Government have assessed the potential burdens of the CRC energy efficiency scheme on local authorities, and has determined that it will not constitute a new burden. Local authorities already report reductions in CO_2 emissions from their estate against National Indicator 185.

Our analysis indicates that participating local authorities should, on average, see savings through reduced energy bills outweighing administrative costs and the cost of investing in energy efficiency measures. The potential savings on energy bills are far higher than the costs incurred through CRC penalties for those at the bottom of the league table.

Climate Change: Seas and Oceans

Annette Brooke: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the likely change in sea levels attributable to climate change after 2100; and if he will make a statement. [319969]

Joan Ruddock: The Intergovernmental Panel on Climate Change's Fourth Assessment Report indicates that, after 2100, sea levels will continue to rise for centuries to come, mainly because of continued thermal expansion of the oceans. However, the magnitude of this rise cannot be predicted precisely because it depends on a number of factors, including the effects of future greenhouse gas emissions on temperature increases and the dynamics of ice sheet melting.

The Netherlands Delta Committee report, published in 2008, estimated that thermal expansion and the likely contribution from land-based ice melt could cause global sea level rises in a range from 1.5 to 3 metres by 2200, compared to levels at the end of the last century. Urgent mitigation of greenhouse gas emissions would reduce projected sea level rise but not prevent it beyond 2100, so adaptation to sea level rise would also be needed.

Combined Heat and Power

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how many micro-combined heat and power installations he expects to participate in the feed-in tariff scheme. [319793]

Joan Ruddock: A microCHP "pilot"—for installations with an electrical capacity of 2kW or less—will be included as part of the feed-in tariff scheme and will provide support for the uptake of up to 30,000 domestic scale microCHP installations. Because the industry is yet to become established we will review the support level as soon as 12,000 installations are reached, which we expect to be (based on industry projections) sometime in mid-2012.

Electricity Generation

David T. C. Davies: To ask the Secretary of State fo Energy and Climate Change how much energy generate from *(a)* coal, *(b)* gas and *(c)* nuclear sources wa supplied to the National Grid in each week of Januar 2010. [31995

Mr. Kidney: Official electricity generation data ar only available on a monthly basis. The latest data are fo December 2009, when major power producers supplie 14,899 GWh from gas, 8,345 GWh from coal an 5,229 GWh from nuclear. electricity output data fo January 2010 will be available on 25 March 2010.

Official monthly electricity data taken from tabl ET5.4, at:

http://decc.gov.uk/en/content/cms/statistics/source/electricity/electricity.aspx

Energy Supply

Martin Horwood: To ask the Secretary of State for Energy and Climate Change with which energy companies he has discussed the potential contributions of oil shale to the UK's energy supply; and when he expects the British Geological Survey to complete its reassessment of potential oil and gas shale resources in the UK. [32008

Mr. Kidney: We have had no discussions on this issue. However my Department has asked the British Geological Survey, acting as consultants, to carry out a reassessment of potential oil and gas shale resources in the UK. We expect the results of this to be published in the second half of this year and will be making these available via DECC's Oil and Gas "Promote" website at the following address:

https://www.og.decc.gov.uk/UKpromote/index.htm

Energy: Conservation

Mr. Drew: To ask the Secretary of State for Energy and Climate Change how many households resident in Stroud constituency have received assistance under the Home Energy Efficiency Scheme since its inception. [318977]

Mr. Kidney: The following table provides information as to how many households resident in Stroud have received assistance from the Warm Front Scheme[1] since its inception.

[1] The Home Energy Efficiency Scheme which begun in 1991 was rebranded to the Warm Front Scheme in 2000.

Stroud constituency

	Number
2000-01	119
2001-02	170
2002-03	168
2003-04	211
2004-05	199
2005-06	190
2006-07	231
2007-08	242
2008-09	347
2009-10[1]	259
Total	2,136

[1] Up to 31 January 2010

Energy: Housing

Mr. Stewart Jackson: To ask the Secretary of State for Energy and Climate Change what the take-up rate of home energy efficiency improvements in the Energy Savings Trust Penistone area project has been to date; and which such improvements are *(a)* free of charge and *(b)* made at a cost to the householder. [319734]

Joan Ruddock: The total take-up of home energy efficiency improvements in the Energy Saving Trust Penistone area project is 273. Of the total, 121 of these have been free and the balance, 152, have been provided at cost to the customer.

Mr. Stewart Jackson: To ask the Secretary of State for Energy and Climate Change what the take-up rate of home energy efficiency improvements in the Home Energy Efficiency programme trials has been to date; and which such improvements are *(a)* free of charge and *(b)* made at a cost to the householder. [319735]

Mr. Kidney: The Warm Front scheme[1] (Home Energy Efficiency scheme) is currently piloting the installation of 100 air source heat pumps and 100 installations of external wall insulation for park homes. The scheme has also piloted the installation of solar thermal heating for 125 households. The cost of these installations is fully funded by the scheme, at no cost to the participating households.

Feed-in Tariffs

Dr. Pugh: To ask the Secretary of State for Energy and Climate Change whether he has made an assessment of public *(a)* awareness of and *(b)* opinion on the effects on energy bills of the implementation of a feed-in-tariff scheme. [319566]

Joan Ruddock: The Government recognise that a number of its energy and climate change policies may have significant effects on energy bills. As such, analysis carried out to estimate the overall impacts on average domestic and non-domestic energy bills of the policies set out in the low carbon transition plan (including the feed-in-tariff scheme) was presented in the accompanying analytical annex. Consultation on the feed in tariff (from 15 July 2009 to 15 October 2009) received over 733 responses, 53 per cent. of which were from individuals, indicating there is considerable awareness of the scheme and its impacts.

Revised figures were published in the final impact assessment which accompanied the Government's response to the consultation.

Fuel Oil

Charles Hendry: To ask the Secretary of State for Energy and Climate Change (1) what recent representations he has received on the delay in the delivery of domestic heating oil to consumers; and if he will introduce measures to bring the regulation of domestic heating oil providers within the remit of Ofgem; [319707]

(2) what assessment he has made of the delay in the delivery of domestic heating oil as a consequence of the Christmas and new year holidays and of the snow in January and February 2010. [319843]

Mr. Kidney: Demand for heating oil increases in cold weather. Oil distributors worked hard in challenging conditions, particularly in more remote parts of the country, to supply customers during the worst cold weather experienced for 29 years. DECC officials received representations from the Federation of Petroleum Suppliers (FPS) that heating oil distributors were facing increases in demand—at higher rates than they could make deliveries in large part as a result of the difficulties of access to properties due to ice and snow. DECC officials worked closely with FPS so that the enforcement of drivers' hours rules could be temporarily relaxed to enable deliveries to be made to customers as conditions improved.

With regard to the question of Ofgem, the Government do not believe that bringing these fuels under regulations having similar scope to the Gas and Electricity Acts would be an appropriate and proportionate form of regulation. These Acts deal with markets where there are natural monopolies which mean that competition cannot be expected on its own to protect consumers from the risk of exploitation. In contrast, there is no natural monopoly in the distribution of heating oil. In the UK there are around 200 different fuel distributors each with a national, regional or local presence, with competition between the companies involved. Overall, the Government support the retention of a competitive market for heating oil, believing this to be in the best interests of all customers. Both general consumer protection legislation, such as the Sale of Goods Act and Unfair Terms in Consumer Contracts Regulations, and competition law apply to this sector.

Natural Gas: Imports

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what projection his Department has made of the proportion of UK gas demand that will be met by imports in *(a)* 2012, *(b)* 2015 and *(c)* 2020. [320359]

Mr. Kidney: Projections of net annual UK gas import dependency in *(b)* 2015 (43 per cent.) and *(c)* 2020 (45 per cent.) were published in July 2009 in Table 19 of the analytical annex to "The UK Low Carbon Transition Plan" which is (only) available online at

http://www.decc.gov.uk/en/content/cms/publications/lc_trans_plan/lc_trans_plan.aspx

The equivalent estimate for *(a)* 2012 is 39 per cent. These projections of net annual import dependency are in line with the projections of post-transition plan net UK gas demand and net UK gas production shown in chart 22 of the analytical annex. The Department updates its projections of both UK gas demand and production from time to time so these estimates of future import dependency are subject to revision.

Renewable Energy

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what figures are represented in chart *(a)* 2.1 on page 39 and *(b)* 2.4 on page 44 of The UK Renewable Energy Strategy, Cm 7686. [320362]

---

[1] The Home Energy Efficiency scheme which begun in 1991 was rebranded to the Warm Front scheme in 2000.

Mr. Kidney: The data behind the charts referred to come from the analysis for the Renewable Energy Strategy. They are reproduced in tabular format as follows. A copy of this PQ will be placed in the Libraries of the House.

Data behind chart 2.1 on page 39 of the Renewable Energy Strategy—renewable energy deployment in TWh of energy generation/use

	2008	2020 (current policies)	2020 (new policies)
Renewable heat	7.3	7.5	72.1
Renewable transport	9.3	23.1	49.4
Renewable electricity	22.3	55.6	117.0
Total	38.9	86.1	238.5

Note:

Electricity includes non RO

Data behind chart 2.4 on page 44 of the Renewable Energy Strategy—renewable electricity deployment in GW of installed capacity

	2008	2020
Onshore Wind	2.8	14.4
Offshore Wind	0.6	13.0
Bioenergy	1.7	3.3
Wave and Tidal	0.0	1.3
Hydro	1.6	2.1
Other	0.0	0.2
Small Scale electricity (non RO)	0.0	3.8
Total	6.8	38.2

UK-Indonesia Working Group on Environment and Climate Change

Martin Horwood: To ask the Secretary of State for Energy and Climate Change how much funding he has allocated to the work of the UK-Indonesia Working Group on Environment and Climate Change; when and where the group will next meet; and which civil society organisations are expected to participate in the group. [320090]

Joan Ruddock: In this financial year (2009-10) DECC has allocated just over £18,500 to the work of the UK-Indonesia Working Group on Environment and Climate Change. The second meeting of the group will be hosted by the Indonesian Government in July 2010. This is a working group between the UK and Indonesian Governments and as such no civil society organisations are expected to participate in the meetings.

The UK Government have an overarching memorandum of understanding covering its work with Indonesia in addressing climate change. Provision is made within this for enhancing capacity building and engagement of key stakeholders, including civil society, compatible with strategic directions developed under the Indonesian National Climate Change Council.

WALES

Departmental Advertising

Angus Robertson: To ask the Secretary of State for Wales how much was spent on advertising by *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in 2009. [319585]

Mr. Hain: The Wales Office does not have any non-departmental public bodies or executive agencies, and we have not spent anything on advertising in 2009.

Departmental Plants

David T.C. Davies: To ask the Secretary of State for Wales how much his Department spent on pot plants in *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10. [319208]

Mr. Hain: Nil.

Departmental Theft

Mr. Watson: To ask the Secretary of State for Wales how many thefts from his Department have been recorded in the last two years. [318992]

Mr. Hain: During the last two years there has been one recorded theft from my Department.

HEALTH

Accident and Emergency Departments: Alcoholic Drinks

Chris Grayling: To ask the Secretary of State for Health whether his Department has *(a)* commissioned and *(b)* evaluated research on the proportion of accident and emergency admissions on Friday and Saturday nights attributable to alcohol-related incidents. [319603]

Gillian Merron: The Department has not commissioned research on the proportion of alcohol-related accident and emergency (A&E) attendances on Friday and Saturday nights. However, in March 2008, as part of its review of the impact of the Licensing Act 2003, the Government looked at the impact of alcohol and the new licensing act on A&E services.

The review noted that

> "Alcohol-related demands on A&E services appear to have been stable in aggregate, though some individual hospitals have seen increased demand, others a fall."

Autism: Health Services

Andrew Mackinlay: To ask the Secretary of State for Health (1) what assistance his Department plans to provide to local authorities and primary care trusts to develop *(a)* local autism teams and *(b)* local planning groups as part of implementation of the adult autism strategy; and if he will make a statement; [320003]

(2) when he will publish the delivery plan for the adult autism strategy; and if he will make a statement. [320004]

Phil Hope: It will be for each local area to develop its own commissioning plan for services for adults with autism—building on the Joint Strategic Needs Assessment.

The delivery plan, scheduled for publication by the end of March 2010, will set out in more detail the timescale for delivery in the first year, including examples of possible structures for such boards, drawing on best practice that already exists around the country.

Further delivery plans will be prepared for the second and third years of the strategy.

Dementia

Mr. Stephen O'Brien: To ask the Secretary of State for Health what mechanisms are in place to identify people with dementia when they are admitted to general hospitals; and whether steps are taken to provide additional care for those people in respect of *(a)* dehydration and *(b)* confusion during their stay. [319924]

Phil Hope: The National Dementia Strategy calls for all acute trusts to identify a clinical lead for dementia to take the lead for quality improvements in dementia in hospitals, including the development of an explicit care pathway for the treatment and care of people with dementia in hospital.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what written information is provided to people with dementia and their carers *(a)* at the point of diagnosis and *(b)* by a general practitioner during subsequent consultations. [319925]

Phil Hope: Provision of information to people with dementia and their carers was identified as a priority in the National Dementia Strategy. The Strategy states that following diagnosis people with dementia should be given access to information. The demonstrator site pilots are also looking at how to provide information to people with dementia following a diagnosis.

The Department has commissioned the Alzheimer's Society to bring together evidence about information that people need following diagnosis and report back to the Department on what might be done to improve the information available. The results of this review are expected shortly.

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many people are recorded on the Quality and Outcomes Framework registers kept by general practitioners as having dementia; and what estimate he has made of the number of carers of those patients who have been reviewed by a general practitioner within 15 months of the diagnosis of the person for whom they act as carer. [319967]

Phil Hope: In 2008-09 there were 232,430 people with a diagnosis of dementia, recorded on practice disease registers in England under the national Quality and Outcomes Framework scheme.

No data are held on the number of carers of people with a diagnosis of dementia. However, guidance issued to support the Quality and Outcomes Framework makes clear that practices in reviewing the needs of people diagnosed with dementia should focus on support needs of both the patient and their carer.

In 2008-09 there were 169,438 people diagnosed with dementia whose care had been reviewed in the previous 15 months and for whom practices received a reward payment under the national Quality and Outcomes Framework.

Departmental Data Protection

Christine Russell: To ask the Secretary of State for Health whether he plans to revise his Department's Caldicott Guardian Manual 2006 on data sharing. [319895]

Mr. Mike O'Brien: The Department's Caldicott Guardian Manual has recently been revised in collaboration with the UK Council of Caldicott Guardians. The revised manual will be published shortly.

Health Services

Mark Simmonds: To ask the Secretary of State for Health when he expects the designation of specialist providers as recommended in the Carter Report of 2006 to have been completed. [319478]

Mr. Mike O'Brien: There has been a lot of progress in specialised commissioning since the publication of Sir David Carter's Review of Specialised Commissioning Arrangements for Specialised Services in 2006. Specialised Commissioning Groups (SCGs) are working towards designating providers of specialised services.

To date, national designation standards have been agreed for five specialised services. The National Specialised Commissioning Group is due to consider a plan for the development of further designation standards at its meeting on 3 March 2010. This plan will make recommendations about which sets of designation material are a priority for development. It will remain for individual SCGs to decide which services they choose to designate locally, a decision based on local priorities and discussion with their constituent primary care trusts.

Mark Simmonds: To ask the Secretary of State for Health what progress has been made towards implementation of the 2008-09 Operating Framework which required Specialised Commissioning Groups to create pooled budgets for commissioning specialised services. [319479]

Mr. Mike O'Brien: Some Specialised Commissioning Groups (SCGs) operate a system of pooled budgets for some services. Others, while not formally contributing to a shared budget, are working towards the principle of risk-sharing.

The SCG Finance Network which includes representatives from each of the 10 SCGs have a work stream on pooled budgets. They are currently mapping the position in each SCG.

Mark Simmonds: To ask the Secretary of State for Health what mechanisms are in place to assure the performance of *(a)* specialised commissioning groups and *(b)* the national commissioning group under the World Class Commissioning programme. [319480]

Mr. Mike O'Brien: In 2009, a system for examining the skills and capabilities of specialised commissioners was developed, closely based on the primary care trust commissioning assurance process. This has been made available on a voluntary basis to strategic health authorities for them to assess specialised commissioning groups. The national specialised commissioning team is based within NHS London and could be assessed using the same system with some adaptations. The national specialised commissioning group is an advisory group reporting to Ministers on the commissioning of specialised services and the assurance process would not be suitable to assess its performance.

Strategic health authorities also assure the performance of specialised commissioning groups on an ongoing basis as part of their management of the local national health service.

Health Services: Crown Dependencies

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he expects to publish his Department's review of the discontinuance of reciprocal health arrangements with the Crown Dependencies. [318221]

Gillian Merron: The review of the ending of the reciprocal healthcare agreement with the Isle of Man will take place in the autumn, around six months after the ending of the agreement. We will publish the findings as soon as we are able following completion of that review.

Health Services: Equality

Dr. Stoate: To ask the Secretary of State for Health who the members are of the Cross-Government Health Inequalities Programme Board. [320067]

Gillian Merron: The Cross-Government Health Inequalities Programme Board is a director-general level board. Its remit is to oversee the development of a cross-government health inequalities strategy post-2010 following the report of the Marmot review (the Post-2010 Strategic Review of Health Inequalities).

Its members are:

Una O'Brien (Chair)—Department of Health

Helen Bailey—HM Treasury

Tom Jeffery—Department for Children, Schools and Families

Irene Lucas—Communities and Local Government

Sue Owen—Department of Works and Pensions

Mike Anderson—Department for Environment, Food and Rural Affairs

Stephen Rimmer—Home Office

Stephen Marston—Department for Business, Innovation and Skills

Helen Edwards—Ministry of Justice

Chris Wormald—Cabinet Office

Andrew Ramsay—Department for Culture, Media and Sport

Steve Gooding—Department for Transport

Lionel Jarvis—Ministry of Defence

Jonathan Rees—Government Equalities Office

The following observers attend from the devolved administrations:-

Harry Burns—Chief Medical Officer, Scottish Government

Chris Tudor-Smith—Head of Public Health Improvement Division, Welsh Assembly Government

Andrew Elliott—Director, Department of Health, Social Services and Public Safety, Northern Ireland

A Secretariat to the Board is provided by the Department of Health.

Health Services: Isle of Man

Andrew Mackinlay: To ask the Secretary of State fo Health whether subordinate legislation is required to give effect to the decision of the UK Government to end the reciprocal health agreement between the UK and the Isle of Man with effect from 1 April 2010; and if he will make a statement. [320155

Gillian Merron: No subordinate legislation is required to give effect to the decision to end the reciproca healthcare agreement between the United Kingdom and the Isle of Man. The UK Government agreed a one year notice period with the Isle of Man Government to end the agreement, double the six months notice period contained within the agreement.

Andrew Mackinlay: To ask the Secretary of State for Health if he will negotiate an agreement with the Isle of Man Government to ensure that elderly persons and chronically sick and disabled persons who wish to make visits between the UK and the Isle of Man will continue to be eligible for free emergency hospital admission and treatment in either jurisdiction, providing that they are unable to obtain travel and health insurance at a reasonable cost due to their medical condition. [320188]

Gillian Merron: The UK Government have committed to working with the Isle of Man Government to carry out a review of the ending of the reciprocal healthcare agreement with the Isle of Man. The review will take place around six months after the agreement ends and will address any unforeseen consequences, including access to insurance. Accident and emergency treatment will continue to be free.

Andrew Mackinlay: To ask the Secretary of State for Health (1) with reference to paragraph seven of the Minister of State's letter of 22 January 2010 to the co-chair of the British-Irish Parliamentary Assembly on the UK's decision to terminate reciprocal health arrangements with the Isle of Man with effect from 1 April 2010, under what arrangements free emergency hospital admission and treatment will continue to be afforded to visitors to the Isle of Man who are visitors to the UK from a country which has a bilateral healthcare agreement with the UK; and if he will make a statement; [320189]

(2) with reference to paragraphs six and seven of the Minister of State's letter of 22 January 2010 to the co-chair of the British-Irish Parliamentary Assembly, under what agreement or authority *(a)* all UK pensioners visiting the Isle of Man who have lawfully lived in the UK for 10 continuous years will receive free emergency hospital treatment and admission and *(b)* there will be no variation in such provision following the termination of the reciprocal health arrangement; and if he will make a statement. [320190]

Gillian Merron: Free emergency hospital treatment will continue to be afforded to visitors to the United Kingdom from a country with which the UK has a reciprocal healthcare agreement. This provision does not extend to those visiting the Isle of Man, given that is not part of the UK.

The exemption from national health service charges for UK pensioners who have previously lived in the UK for 10 continuous years, under the national heath service (Charges to Overseas Visitors) Regulations 1989, as amended, applies only to UK pensioners visiting the UK. It does not apply to UK pensioners visiting destinations outside of the UK, including the Isle of Man.

Hospitals: Admissions

Chris Grayling: To ask the Secretary of State for Health (1) how many people of each age were admitted to hospital for injuries sustained as a result of an assault by *(a)* a sharp object and *(b)* a blunt object on school premises in each year since 1997; [317671]

(2) how many people of each age were admitted to hospital for injuries sustained as a result of an assault by bodily force on school premises in each year since 1997; [317669]

(3) how many people of each age were admitted to hospital for injuries sustained as a result of an assault of having been hit, struck, kicked, twisted or scratched by another person on school premises in each year since 1997; [317674]

(4) how many people of each age were admitted to hospital for injuries sustained as a result of an assault involving *(a)* a knife, *(b)* a sword and *(c)* a dagger on school premises in each year since 1997; [317677]

(5) how many people of each age were admitted to hospital for injuries sustained as a result of gunshot wounds caused by *(a)* a rifle, *(b)* a shotgun and *(c)* a larger firearm on school premises in each year since 1997; [317682]

(6) how many people of each age were admitted to hospital for injuries sustained as a result of an attack by a dog on school premises in each year since 1997; [317678]

(7) how many people of each age were admitted to hospital for injuries sustained as a result of gunshot wounds caused by a handgun on school premises in each year since 1997; [317680]

(8) how many people of each age have been admitted to hospital for injuries sustained by assault by *(a)* hanging, *(b)* strangulation and *(c)* suffocation on school premises in each year since 1997. [317683]

Ms Diana R. Johnson: I have been asked to reply.

Information on assaults which take place on school premises and result in hospital admission is not collected centrally.

NHS: Finance

Paul Rowen: To ask the Secretary of State for Health whether efficiency savings targets will be set for each strategic health authority for the purposes of making savings of between £15 and £20 billion between 2011 and 2014. [320122]

Mr. Mike O'Brien: There are no plans to set targets for individual strategic health authorities for this purpose.

Scarborough and North East Yorkshire NHS Trust: Translation Services

Mr. Greg Knight: To ask the Secretary of State for Health how much was spent on translation staff and services by Scarborough and North East Yorkshire NHS Trust in each of the last three years. [319706]

Ann Keen: This information is not held centrally. However, it should be available directly from the Scarborough and North East Yorkshire NHS Trust.

Supranuclear Palsy

Mr. Amess: To ask the Secretary of State for Health whether his Department *(a)* has commissioned, *(b)* plans to commission and *(c)* has evaluated (i) UK-based and (ii) international research into causes of progressive supranuclear palsy; and if he will make a statement. [319760]

Gillian Merron: The Department's policy research programme is funding a £2 million long-term neurological conditions research initiative. The initiative is investigating the care needs and experiences of those living with neurological conditions. It includes a study focusing on the needs of people suffering from progressive supranuclear palsy (PSP).

The Medical Research Council is similarly funding a number of projects specifically concerned with PSP; and supports a broad portfolio of research relating to neurodegenerative disorders that includes two major projects that, whilst addressing the wider topic, specifically mention they are of relevance to PSP.

Swine Flu: Vaccination

Mr. Drew: To ask the Secretary of State for Health whether those diagnosed with *(a)* myalgic encephalomyelitis (ME) and *(b)* symptoms associated with ME have automatic access to swine influenza vaccination. [319842]

Gillian Merron: Patients with myalgic encephalomyelitis (ME) or chronic fatigue syndrome are not routinely included in the clinical risk groups for vaccination for H1N1 swine influenza. These conditions are not known to increase the severity or duration of community acquired infections, such as influenza. Therefore, these conditions are not routinely regarded as causing immunosuppression, which is one of the conditions in the clinical risk categories. However, general practitioners (GPs) should take into account the risk of influenza infection exacerbating any other underlying disease that a patient may have, as well as the risk of serious illness from influenza itself. GPs should consider on an individual basis the clinical needs of their patients.

DEFENCE

Air Force: Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence how many fixed wing aircraft were in the effective fleet in *(a)* 1997 and *(b)* 2010. [319494]

Mr. Quentin Davies: The following table shows the combined number of fixed wing aircraft of all three services that were planned to be in service at the end of March 1997 and the number of fixed wing aircraft in actual service at the end of January 2010.

Role	*March 1997*	*January 2010*
Fast Jet (Excluding Hawk)	408	297
Tanker, Transport and Communications	111	92
ISTAR and Maritime Patrol	45	18
Training (Including Hawk)	477	404

Since 1997 Sea Harrier and Jaguar aircraft have been withdrawn from service and Tornado F3 continues to drawdown. A number of Training and ISTAR aircraft types used in 1997 have either been replaced by contractor owned fleets or Unmanned Aerial Vehicles which are not included in the answer.

Deliveries are continuing of the more capable Typhoon aircraft and an additional C17 aircraft is on order. FSTA, A400M, Nimrod MRA4 and Joint Strike Fighter are planned to enter service over the next decade.

Armed Forces: Equal Opportunities

Bob Spink: To ask the Secretary of State for Defence what his Department's policy is on equal opportunities in the armed forces; how his Department implements that policy; and what assessment he has made of its effectiveness. [319929]

Mr. Kevan Jones: Equality and Diversity policy for the armed forces is set out in the Ministry of Defence Unified Diversity Strategy. This policy is implemented through the Department's published Equality and Diversity Scheme.

The Equality and Diversity Scheme which includes an action plan sets out how we intend to meet our statutory general and specific Race, Disability and Gender Equality Duties. This scheme demonstrates our continued commitment to our equality and diversity agenda, making equality and diversity integral to all our policies, functions and services. We publish an Annual Report against the scheme setting out the progress being made against the targets set out in the action plan.

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence how many training exercises originally planned for 2010 have been cancelled; and what the reasons are for each cancellation. [312661]

Bill Rammell: Success in Afghanistan is our main effort, and will remain our principal commitment for as long as it takes. Our approach at this time must be—and is—Afghanistan first. All exercises that better prepare our forces for operations in Afghanistan will continue but those exercises that are considered not to directly support our effort have been examined critically and, where appropriate, cancelled.

The following table advises those exercises that have been cancelled.

Exercise
Jordan Express
Malaysian Express
Steppe Eagle
Cossack Steppe
French Connection
Tricolour
Asterix
Winged Star
Glow Worm/Rattlesnake
Gobi Dust
African Thorn
Oman Express
Bald Eagle
Chartered Flight
Citadel
Crown Eagle
Destier/Aurige
Devils Hat
Devils Horizon
First Eagle
First Rock
Guibert
Horizon
Kleiber
Gaulish
Longboat Warrior
Larksong Foxtrot
Marble Tor
Medoc
Modulex
Pathfinder
Pony Express
Ponte Vecchio/Tower Bridge
Readiness Challenge
Silver Eagle
Steam Drive
Top Kitten
Tunuk Warrior
Wet Gap
Work Sheet
Roman Eagle
Turtle Truss
Lion Sun 1
Lion Sun 2
Lion Star 1
Lion Star 2
Iron Ram/Ferro Ariete
Bass Rock
Anatolian Eagle 10
Green flag West 10-9
Torpedo Focus 10-3
Pitch Black
Bold Avenger 10

Exercise Blue Flag was cancelled by the host nation.

Exercise Rimpac 10 was cancelled due to the unavailability of an airframe which has been diverted to support operations.

Armed Forces: Vehicles

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* logistics and *(b)* engineering vehicles of each type were (a) in service and (b) available for operations on the latest date for which figures are available. [319488]

Mr. Quentin Davies: I am withholding the information on the numbers of vehicles available on operations for operational security reasons.

The Department holds a huge variety of logistics and engineering vehicles. For ease these have been grouped by role and category. The overall number of vehicles in service within each category are shown in the following table:

Role	*Total number in service*
Engineering	
Armoured Engineering	66
Bridging	177
Bulldozer	53
Dumper Truck	265
Excavator	487
Forklift	20
Route Engineer Plant	109
Beach T/WAY Dispenser	2
Logistics	
Bulk Fuel	1,499
Cargo	12,427
Container Handler	31
Crane	119
Equipment Transporter	794
Forklift	785
Medical	906
Recovery	388
Bulk Water	79
Airfield Support	472
Fire Vehicles	141

Departmental Theft

Mr. Watson: To ask the Secretary of State for Defence how many thefts from his Department have been recorded in the last two years. [318984]

Mr. Kevan Jones: The requested information is not held centrally and could be provided only at disproportionate cost.

Haiti: Earthquakes

Mr. Jenkin: To ask the Secretary of State for Defence (1) what assets his Department has deployed to Haiti since the earthquake on 12 January 2010; [319431]

(2) how many of his Department's *(a)* military and *(b)* civilian personnel have been deployed to Haiti since the earthquake on 12 January 2010; [319432]

(3) how much his Department has spent on relief and deployments to Haiti since the earthquake on 12 January 2010. [319433]

Bill Rammell *[holding answer 1 March 2010]:* The Department for International Development (DfID) is leading the UK response to the Haitian earthquake: at DfID's request the Ministry of Defence (MOD) sent a Royal Fleet Auxiliary (RFA) ship, RFA Largs Bay, to carry vital relief supplies to Haiti. RFA Largs Bay arrived in Haiti on 18 February, delivered its cargo of aid and is now engaged in further taskings in support of the World Food programme under the direction of DfID. This has been a high priority task and I trust it has been seen as a significant contribution by the Government to the international aid effort.

The MOD deployed an Operational Liaison and Reconnaissance Team to Haiti via 2 C-130 Hercules flights to advise DfID on the capabilities of RFA Largs Bay and on what military assistance was required. DfID does not currently require any military assistance in the region beyond that already in Haiti. The MOD continues to take an active role in the UK response, and will provide further assistance where possible if required.

Some 130 military personnel are on board the RFA Largs Bay. Five military personnel remain in Port-au-Prince in support of the ship. Eight members of a Royal Military Police close protection team for the FCO's consular Rapid Deployment Team as well as 11 military personnel and one civilian from the Operational Liaison and Reconnaissance Team were deployed initially to Haiti following the earthquake but have all since returned to the UK. A small number of UK service personnel on exchanges (with Canada, Bermuda and USA military forces) were also deployed, or were on standby to deploy, to Haiti.

Spending by the MOD in support of Operation PANLAKE, the assistance provided by MOD to Haiti on behalf of DfID, will be recovered from DfID. At present, it is not possible to provide a final costing of the operation as the work is still being completed.

Harassment

Bob Spink: To ask the Secretary of State for Defence how many incidents of harassment have been reported by *(a)* military and *(b)* civilian personnel in (i) each of the armed forces and (ii) his Department in each of the last 10 years. [319927]

Mr. Bob Ainsworth: The following table reflects the number of harassment complaints reported since October 2006 for each service. Some Tri-Service defence organisations do not record the service to which the complainant belongs.

Statistical data prior to October 2006 are not held centrally.

Formal harassment complaints	*Royal Navy*	*Army*	*RAF*	*Tri-Service Organisations*
October 2006 to March 2007	10	52	15	0
April 2007 to September 2007	21	17	21	0
October 2007 to March 2008	15	39	21	0
April 2008 to September 2008	29	20	27	7

Formal harassment complaints	*Royal Navy*	*Army*	*RAF*	*Tri-Service Organisations*
October 2008 to March 2009	17	34	30	5
April 2009 to December 2009	26	67	27	0

Statistics for Tri-Service Organisations have only been collected since April 2008. Armed forces personnel statistics may also include cases raised by MOD civilians against a service person.

The following table shows the number of formal complaints of bullying or harassment raised by MOD Civilians through the Department's Harassment and Bullying complaints procedure where investigation by a Harassment Investigation Officer has been requested.

Formal bullying and harassment complaints (financial year)	*MOD civil service*
1999-2000	19
2000-01	16
2001-02	13
2002-03	13
2003-04	27
2004-05	20
2005-06	36
2006-07	55
2007-08	66
2008-09	82
2009-10 (to date)	60

Due to the way information is recorded for civilian bullying and harassment complaints, it is not possible to separate the two types of complaint except at disproportionate cost.

HMS Sheffield

Mr. Arbuthnot: To ask the Secretary of State for Defence (1) pursuant to the answer of 20 January 2010, *Official Report*, column 351W, on HMS Sheffield, if he will lay before the House the findings of the comprehensive review of the Board of Inquiry report on the sinking of HMS Sheffield; [315473]

(2) when he plans to answer question 315473, on the comprehensive review of the Board of Inquiry report on the sinking of HMS Sheffield, tabled on 1 February 2010. [320115]

Bill Rammell: The review of the Board of Inquiry (BOI) report into the sinking of HMS Sheffield was concerned with the provision of considered advice to the then Minister of State for the Armed Forces on which documents from the BOI report should be published.

The findings of the review were never presented in a report; but led to the publication of the BOI report and associated papers, as announced on 2 November 2006, *Official Report*, column 23WS.

International Military Services Limited: Iran

Jim Cousins: To ask the Secretary of State for Defence whether the legal and contractual issues between International Military Services Ltd (IMS) and the republic of Iran have been resolved; what the outcome was; and whether IMS will now be wound up. [320129]

Mr. Bob Ainsworth: International Military Services Ltd (IMS Ltd) is a private limited company, albeit one owned by the Secretary of State for Defence. The company is under the direct control and management of a board of directors who are responsible for the conduct of its affairs. Questions on the legal and contractual issues between IMS Ltd and the republic of Iran are routinely for the company to address.

However, I asked my officials to consult the managing director of IMS about this case. His advice is that discussions between the two parties continue, and are leading to resolution of all of the outstanding issues.

I will update this House when these matters are fully resolved, and it is my intention at that time to wind up IMS Ltd.

Military Bases: Carbon Emissions

Angus Robertson: To ask the Secretary of State for [illegible] what estimate he has made of the level of [illegible] dioxide emissions from his Department's military establishments *(a)* in the UK and *(b)* abroad in each year since 2005. [319768]

Mr. Kevan Jones: The Ministry of Defence's (MOD's) carbon emissions from its military establishments in the UK and abroad since 2005 are provided in the following table:

			Tonnes CO_2
	UK estate	*Overseas estate*	*Total carbon emissions*
2005-06	1,668,527	211,673	1,880,200
2006-07	1,642,121	192,479	1,834,600
2007-08	1,519,725	376,175	1,895,900
2008-09	1,541,984	306,716	1,848,700

The increase in carbon emissions during 2007-08 and 2008-09 is because figures for the overseas estate from Gibraltar, Cyprus, Falkland Islands, Northwood in the UK and the Army overseas estate are taken into account. In previous years these figures were not included.

The Department's headline energy figures are now published within the MOD's Defence Statistics, included for the first time in 2009. They are also published yearly in MOD's Sustainable Development Report and separately by the Sustainable Development Commission as part of their role as the Government's Sustainable Development watchdog.

Navy: Deployment

Nick Harvey: To ask the Secretary of State for Defence how many days each Royal Navy frigate spent on non-operational deployment for *(a)* diplomatic engagements and *(b)* defence industry exhibitions in each of the last five years. [319943]

Bill Rammell: The Royal Navy does not deploy with the sole aim of diplomatic engagements or defence industry exhibitions; this is done on an opportunity basis. These types of engagements are undertaken when a vessel is located in, or passing through the region. Details of these engagements for the past five years are not held centrally and could be provided only at disproportionate cost.

Nuclear Weapons

Norman Baker: To ask the Secretary of State for Defence with reference to the answer to the hon. Member for North Devon (Nick Harvey) of 28 November 2007, *Official Report*, column 453W, on nuclear weapons, whether any funding for the work of his Department's Warhead Pre-Concept Working Group is included in the funding allocation for the Nuclear Warhead Capability Sustainment Programme; what the cost was of work undertaken by the Warhead Pre-Concept Working Group in 2008-09 and 2009-10; and what estimate he has made of the projected cost of work scheduled to be carried out by the Working Group in the next three years. [319190]

Mr. Bob Ainsworth: The work previously co-ordinated by the Warhead Pre-Concept Working Group now forms part of studies being undertaken by Atomic Weapon Establishment under the Nuclear Warhead Capability Sustainment Programme. This is required to inform decisions, likely to be necessary in the next Parliament, on whether and how we may need to refurbish or replace our current warhead. Expenditure amounted to some £7.3 million in 2008-09 and is forecast to be some £16.5 million in 2009-10. Comparable levels of future annual expenditure are anticipated until final decisions are taken.

Norman Baker: To ask the Secretary of State for Defence whether any stocks of defence special nuclear materials are held at locations other than sites owned by his Department. [319194]

Mr. Bob Ainsworth: Some special nuclear material is held at sites that are not owned by the Ministry of Defence. I am withholding further information on the location of this material as its release would, or would be likely to, prejudice national security and defence in the UK.

Somalia: EU Action

Dr. Fox: To ask the Secretary of State for Defence (1) how many RAF *(a)* C-17 Globemaster, *(b)* C-130K Hercules, *(c)* C-130J Hercules, *(d)* Tristar and *(e)* VC-10 aircraft will be used for the EU Training Mission for Somalia; [319512]

(2) what recent reports he has received on the *(a)* military and *(b)* financial contribution of each EU member state planning to participate in the EU Training Mission for Somalia; [319513]

(3) how many British service personnel of each rank in each unit in each service he expects to participate in the EU Training Mission for Somalia; [319514]

(4) what NATO assets he expects to be used for the EU Training Mission for Somalia under the *(a)* 2003 Berlin Plus arrangements and *(b)* 2002 NATO-EU Declaration on the European Security and Defence Policy; [319515]

(5) how much and what proportion of the funding of the EU Training Mission for Somalia his Department plans to contribute; and how much of that funding had been disbursed on 10 February 2010. [319516]

Bill Rammell: The European Union is currently undertaking detailed planning for the proposed EU Training Mission (EUTM) to Somalia and we are discussing appropriate force levels and financial contributions with our European partners. We are currently assessing possible UK contributions. We do not anticipate any UK military aircraft being used in EUTM Somalia nor do we anticipate that the mission will use any wholly owned NATO assets.

The current anticipated costs to the UK, should the mission proceed, are around €0.7million (£0.636 million). This represents our proportion of common costs currently assessed at around 14 per cent. Of this €0.4 million (£0.364 million) had been disbursed by 10 February 2010.

Territorial Army: Deployment

Dr. Fox: To ask the Secretary of State for Defence how many and what percentage of Territorial Army personnel were available to be deployed on operations on the latest date for which figures are available. [319490]

Bill Rammell: As of 1 December 2009 the strength of the Territorial Army, including University Officer Training Corps cadets, was 34,520. Of the total strength approximately 1,300 are currently mobilised in support of operations. Approximately a further 19,000 are available for mobilisation, subject to their being released from their civilian commitments and completing additional pre-deployment training. This represents around 55 per cent. of total Territorial Army strength. Available for mobilisation is defined as those who have completed phase 2 training and are not bound by limitations of the Reserve Forces Act 1996.

Type 45 Destroyers

Andrew Rosindell: To ask the Secretary of State for Defence (1) what recent discussions has he had on the weapons systems on the new Type 45 destroyers; [319708]

(2) what reports he received on the recent test firing of the Type 45 missile systems; and if he will make a statement. [319726]

Mr. Quentin Davies: The Secretary of State for Defence has not personally been involved in discussions relating to Sea Viper. However, I have been briefed by industry, partner nations and officials on a number of occasions, both on the recent test firing of the Sea Viper missile system and, more generally, on the weapons systems on the new Type 45 destroyers.

OLYMPICS

Government Car and Despatch Agency

Grant Shapps: To ask the Minister for the Olympics how much the Government Olympic Executive paid to the Government Car and Despatch Agency in each year since its inception; how much it has spent on such payments in 2009-10; and what proportion of such payments was made in respect of the Government Car Service. [319900]

Tessa Jowell: Since the creation of my post in June 2007, my private office has formed part of the Cabinet Office. The amount paid to the Government Car and Despatch Agency is shown in the following table:

	Expenditure (£)
2007-08	41,116.93
2008-09	122,226.83

Figures for 2009-10 are not available until the end of the reporting year. All of this expenditure was paid to the Government Car and Despatch Agency.

Olympic Games 2012: Plants

Miss McIntosh: To ask the Minister for the Olympics what proportion of plants for landscaping of the Olympics site she expects to come from UK growers. [319200]

Tessa Jowell: Overall, the Olympic Delivery Authority estimate that approximately 90 per cent. of plants for landscaping of the Olympic Park will have come from UK suppliers.

BUSINESS, INNOVATION AND SKILLS

Bankruptcy: Leeds

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills how many bankruptcies of *(a)* individuals in each age group resident and *(b)* businesses based in Leeds, North-West constituency there have been in each year since 2005. [319499]

Ian Lucas: Figures for bankrupts in Leeds, North-West constituency by age group since 2005 are shown in Table 1 as follows:

Table 1. Bankruptcies in Leeds Northwest constituency[1]

	Age group[2]						
	Unknown	*Under 25*	*25-34*	*35-44*	*45-54*	*55-64*	*65+*
2005	6	5	18	9	6	9	2
2006	3	5	15	30	7	10	3
2007	4	1	13	26	19	7	3
2008	12	3	18	25	17	15	5

[1] Where bankrupt has provided a valid postcode (from 95.3 per cent. in 2005 to 96.9 per cent. in 2008)

[2] Where bankrupt has provided a valid date of birth (from 92.1 per cent. in 2005 to 93.4 per cent. in 2008)

Self-employed traders may be declared bankrupt (or enter into an individual voluntary arrangement [IVA]), but, registered companies are the subject of "liquidation" (compulsory liquidation or creditors voluntary liquidation [CVL]).

Table 2 shows the number of self-employed traders who were declared bankrupt since 2005.

Table 2: Bankruptcies among sole traders in Leeds Northwest constituency[1]

Year[2]	*Leeds North West constituency*
2005	13
2006	14
2007	9
2008	14

[1] Where bankrupt has provided a valid postcode (from 95.3 per cent. in 2005 to 96.9 per cent. in 2008).

[2] Figures from October 2006 are compiled on a different basis and are not comparable to earlier figures

Regional figures for 2009 are not currently availal for bankruptcies, as they are compiled on an annu basis. They will be available later in 2010.

Official statistics covering corporate insolvenci including liquidation, are not currently available at sub-national level within England and Wales.

Departmental Carbon Emissions

Angus Robertson: To ask the Minister of Sta Department for Business, Innovation and Skills wh estimate he has made of the level of carbon emissio from his Department's buildings in each year sin 2005. [3197

Mr. McFadden: This Department is required to repo performance data on carbon emissions annually as pa of the Sustainable Development in Government (SDiC reporting process.

The latest assessment of Government's performanc against targets was published by the Office of Governmen Commerce (OGC) on 18 December 2009, and is availab on the OGC website:

http://www.ogc.gov.uk/sustainability_programme_progress.asp

Information on reporting years prior to 2008/09 wa collated and published by the Sustainable Developmen Commission (SDC) and can be found on the SD website:

http://www.sd-commission.org.uk

Further Education: Finance

Mr. Hoyle: To ask the Minister of State, Departmen for Business, Innovation and Skills what his policy is o the use by colleges of *(a)* ring-fenced and *(b)* genera funding provided by his Department to respond t local and regional priorities; and if he will make statement. [319160

Kevin Brennan: The Learning and Skills Council (LSC)— and from 1 April the Skills Funding Agency—has responsibility for the funding of post-19 further education and skills delivered through colleges and training organisations.

For 2010/11 academic year, the main funding streams available to colleges for post-19 learning are the Adult Learner Responsive and Employer Responsive budgets. Within these, Government funding is prioritised towards basic literacy and numeracy skills and full level 2 and full level 3 qualifications that provide the skills for adults to enter into and progress in employment and further learning.

It is for the LSC to agree with colleges the broad level outcomes that they expect to deliver for this funding. The actual amount paid will depend on how colleges respond to demand from learners and employers in line with local and regional priorities. Regional skills priorities will be articulated in regional priority statements by regional development agencies.

In addition to Adult Learner Responsive and Employer Responsive funding, some colleges and training organisations also receive Government funding to support a clearly defined set of outcomes. For example funding for the training element of the Young Person's Guarantee is to support 18 to 24-year-olds who have been unemployed for six months or longer to undertake specific employment focused training. The funding will therefore respond to meeting a local need.

Grimsby

Mr. Austin Mitchell: To ask the Minister of State, Department for Business, Innovation and Skills if he will set out, with statistical information related as directly as possible to Great Grimsby constituency, the effects of his Department's policies on that constituency since 1997. [320182]

Mr. McFadden: The policies and actions of the Department for Business, Innovation and Skills (BIS), and its predecessors, have focused on building a competitive economy and on delivering prosperity and sustainable economic growth. The implementation of BIS policy in the Yorkshire and the Humber region has been taken forward primarily by the Regional Development Agency Yorkshire Forward and the Government office for Yorkshire and the Humber, working in partnership with the local authority and other relevant bodies. The Government and their regional and local partners have responded vigorously to the global recession, providing assistance to businesses and individuals. Statistical information at constituency level is limited. Information has therefore been provided for north-east Lincolnshire local authority area, which includes the Great Grimsby constituency. Examples of how BIS policies and actions have impacted on north-east Lincolnshire include:

Levels of skills in the working age population have increased in north-east Lincolnshire since 1999 although they remain below the regional and national averages:

Performance at NVQ Level 1 and above has increased from 67.8 per cent. to 77.9 per cent.

Performance at NVQ Level 2 and above has increased from 46.5 per cent. to 59.2 per cent.

Performance at NVQ Level 3 and above has increased from 29.0 per cent. to 31.6 per cent.

Performance at NVQ Level 4 and above has increased from 14.8 per cent. to 16.8 per cent.

The proportion of the working age population with no qualifications has decreased from 23.2 per cent. to 10.3 per cent.

Source:

Local Area Labour Force Survey (LALFS)/Annual Population Survey(APS)

The stock of VAT registered businesses in north-east Lincolnshire has increased from 3,735 businesses in 1997 to 3,820 in 2007.

Source:

BIS VAT registrations/deregistrations by industry

The proportion of business registrations (including VAT and PAYE) per 10,000 resident population aged 16 and above in north-east Lincolnshire has increased from 41.5 in 2002 to 42.5 in 2008.

Source:

BIS Enterprise Directorate Data

The percentage of small businesses showing growth in number of employees in north-east Lincolnshire has increased from 12.3 per cent. in 2003 to 14.7 per cent. in 2008.

Source:

BIS National Indicator Data

The average gross full-time weekly earnings in north-east Lincolnshire have risen from £342.30 in 2002 to £451.60 in 2009, an increase of 32 per cent.

Source:

Annual Survey of Hours and Earnings (ASHE)

In support of its objective of promoting business efficiency, investment and competitiveness Yorkshire Forward has provided grants for businesses through the Selective Finance for Investment (SFI) scheme, which started in April 2004, and its successor the Grants for Business Investment (GBI) scheme, which started in October 2008. Yorkshire Forward has made 24 SFI and GBI grant offers to businesses in north-east Lincolnshire totalling £7.7 million, creating or safeguarding 1,663 jobs. Yorkshire Forward has also provided grants to support research and development by small and medium-sized businesses, through the SMART scheme and its successor, the Grants for Research and Development scheme. Since 2000, Yorkshire Forward has offered five research and development grants totalling £164.852 million to small and medium-sized businesses in north-east Lincolnshire.

Since 2008, Business Link Yorkshire has been the single contact point for all publicly funded support available to businesses in Yorkshire and the Humber. This has made it easier for businesses to access information, advice and support on issues including business regulation, best practice, marketing, innovation, financial support and help with exporting. For example in 2009/10 to date, Business Link Yorkshire has helped 1,260 businesses in the north-east Lincolnshire area and 256 individuals thinking of starting a business. As part of the Government's Real Help Now package we are providing more help for businesses to survive during the current economic conditions. Since October 2008 this has included a free Business Link health check which can be a useful starting point for identifying further business support tailored to the needs of individual companies. To date Business Link Yorkshire has arranged 373 health checks for small and medium-sized businesses in north-east Lincolnshire. In addition, the Yorkshire Forward funded Financial Health Check, which offers a grant of £2,000 for accountants to carry out a full review, has benefited 35 businesses in north-east Lincolnshire.

BIS also supports the Local Enterprise Growth Initiative (LEGI) programme, which was announced by the Chancellor in 2005 to promote enterprise in the country's more deprived areas boosting local incomes and employment opportunities, and building sustainable communities. North-east Lincolnshire was awarded £18.7 million for its LEGI programme ("e-factor") in December 2006. Since the programme began, e-factor has, with LEGI funding:

helped over 450 business start-ups
given assistance to over 400 businesses
created over 450 new jobs
helped over 250 people off benefits
had 30 businesses register for VAT.

For further information on Great Grimsby, the Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at

http://neighbourhood.statistics.gov.uk/

Leave: Leeds

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills what recent estimate he has made of the number of residents of Leeds North West constituency who qualify for paid leave entitlements. [319504]

Mr. McFadden: All workers resident in Leeds North West constituency qualify for paid annual leave entitlements. The statutory minimum as set out in the working time regulations is at least 5.6 weeks.

Numbers of workers resident in Leeds North West constituency are not available. However, according to the Annual Business Inquiry Employee Analysis by the Office for National Statistics, there were a total of 30,500 employees who worked in Leeds North West constituency (but did not necessarily live there) in 2008, who would all qualify for paid annual leave entitlement.

Local Government: Statistics

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills what datasets not included within the national indicator set local authorities are required to submit to *(a)* his Department and *(b)* the Better Regulation Executive. [319657]

Ian Lucas: This Department, of which the Better Regulation Executive is part, does not require local authorities to submit any additional data other than that required for the national indicator set.

Maternity Leave: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number and proportion of women resident in *(a)* Essex and *(b)* Castle Point who have taken 26 weeks maternity leave since 1997. [318106]

Mr. McFadden: From April 2007 all employed mothers are entitled to 52 weeks maternity leave, of which 39 may be paid. Employers are not required to record or report the uptake of maternity leave to the Government.

The most recent estimates of take-up of maternity leave are based on the DWP "Maternity Rights and Mothers' employment decisions in Britain: Survey of Mothers" (2007). In 2006, when the mothers included in the study went on maternity leave, the statutory entitlement to Ordinary Maternity Leave (OML) was 26 weeks, while mothers who had worked for their employer for a qualifying period of 26 weeks were also entitled to Additional Maternity Leave (AML) of 26 weeks. The Office for National Statistics estimate there were 15,370 live births in Essex in 2006.

For mothers taking maternity leave in 2006:

84 per cent. took 26 weeks or more maternity leave;

35 per cent. took exactly 26 weeks maternity leave;

46 per cent. of mothers took between 27 and 52 weeks and 3 per cent. were off for more than 52 weeks;

16 per cent. of mothers took less than the statutory minimum entitlement (i.e. 26 weeks in 2006).

The next "Maternity Rights" survey will be based on mothers who took maternity leave starting in summer 2008. It is due to report later in 2010. The "Maternity Rights" survey sample is not large enough to produce robust estimates at constituency or county levels.

Science

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what the cost to the public purse of the Science: [So what? So everything] programme has been in each year since its launch; how many officials in each pay band are responsible for that programme; and what mechanisms are in place to measure the effectiveness of that programme. [318921]

Mr. Lammy: The Science: [So what? So everything] campaign was launched on 28 January 2009. Costs in each year are as follows:

2008-09: £601,200 ex VAT (covers period from start of campaign 28 January 2009 to end of FY)

2009-10: £1,261,000 ex VAT (includes actual and projected costs for this FY)

The fraction of any individual official's time dedicated to the campaign varies between less than 10 per cent. to upwards of 80 per cent. The campaign is overseen by a senior civil service manager as part of the Department's Science and Society programme.

The following officials are responsible for the management of the campaign:

2 x Grade 6

1 x Grade 7

1 x Senior Information Officer

1 x Information Officer

The Science: [So what] campaign is one aspect of a wider initiative to promote public engagement in science which includes support for activities like National Science and Engineering Week and the work of outside individuals and organisations who are helping to take forward the BIS Science and Society strategy. The campaign plays a part in contributing to the success of this broad-based activity. Its aim is to focus on putting science in places that it would not typically be associated with, such as consumer and tabloid media and thereby demonstrating to the public how important science is to their everyday lives

To evaluate the effectiveness of the Science: [So what] campaign, BIS uses a range of measures, including visits to the campaign website, the extent that media coverage has reached the campaign's core audience and its return on investment for media coverage. An Ipsos-MORI survey is also being conducted with a representative sample of 2,000 people from the C2DE (lower income) core audience, in order to gauge their recognition of the campaign, its messages and the media channels used.

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills how much his Department spent on creating the Science: [So what? So everything] website; what estimate he has made of the annual cost of maintaining that website; how many unique visitors that website *(a)* has received since its launch and *(b)* receives on average each day; and how many officials in each pay band are responsible for maintaining that website. [318922]

Mr. Lammy: The Department for Business, Innovation and Skills has spent the following on creating and maintaining the Science: [So what? So everything] website:

2008-09: £56,440 (development costs for the landing site before campaign launch 28 January 2010)

2009-10: £235,161

Between its launch on 28 January 2009 and 24 February 2010, the site has received:

121,589 unique visitors

an average of 320 unique visits per day

359,737 page views over the same period.

The fraction of any individual official's time dedicated to the campaign varies between less than 10 per cent. to upwards of 80 per cent. The campaign is overseen by a senior civil service manager as part of the Department's Science and Society programme. The following officials are involved in the management of the contract for maintaining the site, with delivery contracted to an agency:

1 x Grade 6

1 x Information Officer

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of people in each age group who have attended events supported by his Department's Science: [So what? So everything] programme. [318923]

Mr. Lammy: The Science: [So what? So everything] campaign has supported and organised a wide range of events which have attracted significant presence from people of all ages.

Science: Finance

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what programmes and initiatives received funding from the other minor science programmes budget referred to in Table 11 of his Department's Departmental Report for 2009; and how much such funding was allocated to each such programme and initiative in the latest year for which figures are available. [318919]

Mr. Lammy: The "Other minor science programmes" line in Table 11 of the Departmental Report covers a number of smaller programmes as detailed below. The figures for 2009-10 are:

	£ million
Public Sector Research Establishments Fund	12.5
Science and Society activities	15.4
Government Office for Science	2.9
Contribution to the funding of the FCO Science and Innovation Network	2.9
Research Base Initiatives	0.4
Provision for additional allocations to NERC and STFC to cover the increased costs of international subscriptions resulting from exchange rate movements	30.0
Loan Repayment	43.0

The loan repayment relates to an intra-Departmental loan from Departmental non-science budgets that was made in 2007-08.

Students: Disabled

Mr. Harper: To ask the Minister of State, Department for Business, Innovation and Skills pursuant to the answer of 15 December 2009, *Official Report*, column 1095W, on students: disabled, what functions Postcomm performs in relation to the delivery of financial support for disabled students; and when he expects the Chief Executive of Postcomm to write with a substantive reply. [319071]

Mr. Lammy *[holding answer 26 February 2010]:* I regret that due to an administrative error the Department's Parliamentary Unit issued the wrong answer to the hon. Member's question tabled on 10 December 2009 (307712). I apologise to the hon. Member. The answer should have been:

The Government have made available £45 million in the academic year 2009/10 through the Access to Learning Fund to provide financial support for students who need extra help to access or remain in higher education. The fund is administered by the universities and colleges which make their own decisions on how best to use their ALF allocation, including whether or not to make short-term loans (for whatever reason). Information on the uses to which the universities and colleges are putting their 2009/10 allocation is not available.

COMMUNITIES AND LOCAL GOVERNMENT

Business and Community Safety Forum and Practitioners' Forum

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government if he will place in the Library copies of the minutes of meetings of the *(a)* Business and Community Safety Forum and *(b)* Practitioners' Forum held in the last 18 months. [319285]

Mr. Malik: Minutes of the Business and Community Safety Forum meetings held in the last 18 months will be placed in the Library of the House. Minutes of the Practitioners' Forum are produced by the Chief Fire Officers' Association which provides its secretariat and are available at:

http://www.pforum.fire.gov.uk/111

Community Infrastructure Levy

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what requirements there will be on local planning authorities to update charging schedules under the Community Infrastructure Levy scheme. [319135]

Mr. Ian Austin: There will be no formal requirements for authorities to revise their charging schedules. Part 3 of the draft CIL regulations covers charging schedules. The Government's position on revising charging schedules is set out in paragraphs 3.134 and 3.135 of the CIL consultation document of July 2009, available at the following link:

http://www.communities.gov.uk/documents/planningandbuilding/pdf/communitylevyconsultation.pdf

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what steps are being taken to prevent developers from being charged under both the Section 106 and Community Infrastructure Levy schemes. [319136]

Mr. Ian Austin: Regulations for the Community Infrastructure Levy (CIL) were laid before Parliament on 10 February 2010. If approved by Parliament, the CIL regulations will scale back planning obligations to prevent charging for the same infrastructure items through both CIL and planning obligations. Bodies operating a CIL will be required by Regulation 123 to set out what infrastructure they intend to fund through CIL and will be prevented from seeking planning obligation contributions towards those same items.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what conditions will apply to expenditure by local planning authorities receipts from Community Infrastructure Levy which they receive from developers. [319137]

Mr. Ian Austin: Sections 205 (2) and 216 (2) of the Planning Act 2008 ringfence CIL receipts for spending on infrastructure items that support the development of an area, subject to CIL Regulation 63, which prevents CIL from being used to fund affordable housing and Regulation 61, which allows authorities to use a percentage of CIL receipts to finance the administrative costs of CIL.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what guidance is being given to local planning authorities on the use of Grampian conditions alongside the Community Infrastructure Levy to ensure development does not proceed until infrastructure has been delivered. [319139]

Mr. Ian Austin: The Government's policy on the use of planning conditions is set out in Circular 11/95. The Government launched a consultation on a new policy document on conditions on 21 December 2009, which will form an annex to the new Development Management Policy Statement, on which a consultation was launched on the same date.

East of England Waste Prevention Network

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much funding *(a)* his Department and *(b)* regional efficiency improvement partnerships have given to the East of England Waste Prevention Network since its inception. [319220]

Ms Rosie Winterton: The Department has not provided funding directly to the East of England Waste Prevention Network, nor has it any plans to do so in the future.

Regional Improvement and Efficiency Partnerships (RIEPs) report to the Department on the basis of outcomes achieved and objectives delivered; they are not required to report in detail about to whom they have given money. However, we understand that RIEPs have not provided any funding to the East of England Waste Prevention Network.

Fire Prevention: Hotels

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what guidance *(a)* his Department and *(b)* the chief fire officer has provided to fire authorities on consistency in the application of fire safety assessments to hotels and bed and breakfast accommodation. [319218]

Mr. Malik: We have not provided guidance to fire and rescue authorities on consistency of enforcement in any premises covered by the Regulatory Reform (Fire Safety) Order 2005 (FSO).

It is for individual FRAs to determine their own audit and enforcement priorities under the FSO, based on their assessment of risk within their communities.

The National Framework 2008-11 makes it clear that we expect fire and rescue authorities to be mindful of the need to take an open and proportionate approach to their audit and enforcement functions in accordance with the principles of good enforcement set out in the Enforcement Concordat and the Regulators' Compliance Code, to which FRAs are required to have regard.

The Department worked in partnership with representatives of small accommodation providers and the Chief Fire Officers Association to develop information for small accommodation providers on the compliance requirements of the FSO. "Do you have paying guests?" was published in November 2008 and provides practical information for the owners of these type of businesses and the fire and rescue services on what is likely to represent proportionate fire safety measures in these types of premises.

Fire Services

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much has been spent on *(a)* empty property business rates, *(b)* utilities, *(c)* rent and other accommodation costs and *(d)* security on each regional fire control room; and for how many months each has been empty. [319115]

Mr. Malik: I refer my hon. Friend to the answers I gave on 14 December 2009, *Official Report*, column 915W.

Utilities (up to end January)

	£
North East	278,939
East Midlands	278,446
South West	161,170
West Midlands	254,603
South East	192,867
North West	152,083
Yorks and Humber	230,881
East of England	158,292

Rent and accommodation costs (up to end January)

	£ million
North East	3.46
East Midlands	3.78
South West	3.60
West Midlands	2.86
South East	2.68
North West	2.28
Yorks and Humber	1.67
East of England	1.66

The cost of the 24/7 security provision for the Regional Control Centres is included as part of the fixed fees of the facilities management contract, as above. The contract provides a holistic facilities management service, including security, maintenance, soft-landscaping, cleaning and support services such as courier bookings, and the staff to carry out these functions. It is not possible to provide a further breakdown of just the security costs.

None of the buildings are empty. All the RCCs have staff based there full-time and they frequently host regional, project and FRS meetings. The RCCs are also being used for developing and testing systems and providing familiarisation and training activities.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether retained firefighters are eligible to apply for positions above that of station officer. [319287]

Mr. Malik: National guidance does not preclude retained firefighters from applying for positions above that of station officer.

John McDonnell: To ask the Secretary of State for Communities and Local Government how many people were rescued uninjured from fires by the fire service in each of the last three years. [319426]

Mr. Malik: The latest three years for which data are available are 2006 to 2008. These are from the superseded fire data report forms which were in place until March 2009. Under this system, the numbers of people rescued but uninjured were recorded, but for reasons of economy, entry sampling was used such that full details of incidents for only one in five of those incidents that did not involve injuries were input to central databases.

Examination of the estimates from this database have shown that fluctuations in the estimates at fire and rescue service level, which occur as a result of the entry sampling, mean that only the following approximate national figure can be derived: the number of people rescued uninjured from fires by the fire and rescue service in each year between 2006 and 2008 is in the region of 1,500 to 2,000.

Details of incidents under the new incident recording system are entered electronically at source, thus CLG's databases of incidents from April 2009 will no longer be subject to entry sampling or the resulting limitations in estimates. Data for 2009-10 are scheduled for release in August.

Fires

Chris Grayling: To ask the Secretary of State for Communities and Local Government how many and what percentage of fire service call-outs were to fires which had been started deliberately in each local authority area in the last 12 months. [319778]

Mr. Malik: The latest statistics on the numbers and percentages of incidents attended by each Fire and Rescue Service which were fires that had been started deliberately are shown for each Fire Authority in the table.

Incidents attended by Fire and Rescue Services in England, 2008-09[1]

	All deliberate fires	*All fire incidents*	*Deliberate fires (as percentage of all fire incidents)*	*All incidents*[2]	*Deliberate fires (as percentage of all incidents*[2]*)*
Avon	2,847	4,629	62	13,195	22

Fire and Rescue Incident Statistics Databases, CLG

Government Office for the East of England: Expenditure

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 February 2010, *Official Report*, column 634W, on Government Offices for the Regions: procurement, how much the Government Office for the East of England paid to *(a)* Butterfly Hotels Ltd., *(b)* Five Lakes Hotel, *(c)* Hilton Hotel and *(d)* Jolly Hotel; on what dates; for what purpose; and how many civil servants used the facilities in each case. [319130]

Ms Rosie Winterton: GO-East spent the following amounts in delivery of regional Government business:

Butterfly Hotels Ltd.: £1,070.69

30 April 2008

Two meetings were held at this venue. The European Programmes Strategy Group held its regular meeting to oversee and scrutinise the region's use of European programme funding for 2007-13. The East of England Structural Fund Strategic Group reviewed delivery of the 2000-6 European Social Fund programme. 33 people attended the two meetings, including European Commission officials, national and regional Government officials and co-financing organisations from local authorities.

Eight civil servants: three from GO-East, two from CLG, two from DWP, one from BERR (now BIS).

Five Lakes Hotel: £538.91

13 March 2009

Regional partners met to review the Coastal Initiative's priorities, and to visit Abbots Hall Farm—a site of particular importance for coastal management. The initiative is a national exemplar which brings together Government Departments, regional expertise and local authority representatives to address issues faced by the coast. The event brought together 16 regional and local authority partners.

Three civil servants.

Hilton Hotel: £3733.13

25-26 March 2009

The meeting looked at how GO-East will deliver housing and transport targets in the region, while protecting the environment and delivering carbon reduction. It looked particularly at the challenges in Hertfordshire, and involved discussions with local partners from the county council to agree how best to work together.

27 civil servants, four local authority colleagues.

Jolly Hotel: £560.87

13 February 2009

The meeting brought together Government Office Network officials from across the country to agree how we can most effectively deliver our role for the Department for Transport and for the communities we represent in each region. The event included looking at best practice examples of effective delivery in Cambridgeshire.

10 civil servants.

Government Office for the North West: Expenditure

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 February 2010, *Official Report*, column 634W, on Government Offices for the Regions: procurement, how much the Government Office for the North West paid to *(a)* Aintree Racecourses, *(b)* the Athenaeum, *(c)* Inn on the Lake and *(d)* Malmaison Hotel; on what dates; for what purpose; and how many civil servants used the facilities in each case. [319131]

Ms Rosie Winterton: For details of the payments made to the suppliers listed I refer the hon. Member to the response I gave in PQ 319132.

Supplier	*Event*	*Date*	*Civil servants*
Inn on the Lake	Northwest High Focus areas	31 March 2008	1
Malmaison	3rd Sector Inaugural meeting	13 June 2008	31
Athenaeum	Director and Team Leader Meeting	21 July 2008	38
Athenaeum	Director and Team Leader Meeting	13 November 2008	35
Aintree Racecourses	NW Crime stats lunch	17 July 2008	8

Government Office for the South East: Expenditure

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 February 2010, *Official Report*, column 634W, on Government Offices for the Regions: procurement, how much the Government Office for the South East spent on *(a)* the County Club, *(b)* Devere Venues, *(c)* Mandolay Hotel and *(d)* Angel Posting House and Livery; and (i) on what dates and (ii) for what purpose each of those venues was used. [319328]

Ms Rosie Winterton: The amounts spent on the above named venues in 2008-09 are set out in my response to PQ 319132. The purposes for using these venues are provided in the following list. GOSE premises were being refurbished between September 2008 and March 2009 which meant that a number of meetings that would normally have been held in-house were held in external locations.

County Club

A number of Regional Resilience meetings with local resilience partners, and overseas emergency planners—9 October, 21 November, 5 December all 2008 and 7 January, 18 January, and 6 March all 2009.

Government office senior management team meeting—30 September 2008

Housing and planning meeting—16 October 2008

Government office directorate restructuring planning meeting—11 November 2008

Substance misuse partnership meeting—2 December 2008

Sustainable food and farming strategy partnership meeting—19 March 2009

Government office directorate meeting—25 March 2009.

Devere Venues

Accommodation costs for GOSE staff supporting the full Cabinet Meeting in Southampton—23 February 2009

Mandolay Hotel

A partnership meeting to discuss Young Peoples Substance Misuse—25 September 2008

A seminar for the South East Analysts network to look at and consider regional crime statistics—25 September 2008

Two meetings of the regional forum for the Drug Intervention Programme—24 October 2008 and 21 January 2009

A meeting to discuss the Civil Service South East agenda—28 November

A meeting of the South East Regional (drugs) Availability Group attended by representatives of the police and partners from local authorities—16 January 2009

A business planning meeting to agree future priorities for GOSE's work on community cohesion and empowerment and on support to the third sector—12 February 2009

A Regional Resilience seminar with local emergency planners—29 April 2009

GOSE non-executive director overnight accommodation, prior to GOSE Audit Committee and Board Meetings—15 April, 17 June, 24 September, 15 October all 2008

The Angel Posting House and Livery

European Social Fund Regional Committee—26 February 2009

Government Offices for the Regions: Procurement

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 February 2010, *Official Report*, column 634W, on Government Offices for the Regions: procurement, how much each Government Office paid to each supplier listed in 2008-09; and what the address of each named supplier was. [319132]

Ms Rosie Winterton: The information that has been requested has been deposited in the Library of the House.

Homelessness: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government how many people were recorded as sleeping rough in Coventry in 2008-09. [319468]

Mr. Ian Austin *[holding answer 2 March 2010]*: Annual rough sleeping figures have been collected since 1998. The last street count in Coventry found four rough sleepers in 2009.

We have reduced rough sleeping by 75 per cent. since 1998. Our national baseline was 1,850 in 1998 and the latest headline figure based on local authority rough sleeper counts was 464 for 2009.

Housing: Construction

Mr. Syms: To ask the Secretary of State for Communities and Local Government how many housing starts for housing of each type of tenure there were in the borough of Poole in the latest period for which figures are available. [320379]

Mr. Ian Austin: The number of house building starts in Poole unitary authority for each tenure for the latest available period is given in the following table.

Poole UA

		House building starts			
Financial year	*Quarter*	*Local authority*	*Registered social landlords*	*Private enterprise*	*Total*
2009/10	3	0	0	46	46

Source:

New build starts from P2 quarterly returns submitted by local authorities and the National House-Building Council to CLG

Local Government

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what guidance *(a)* his Department and *(b)* the Standards Board has given to local authorities on visits by (i) hon. Members, (ii) parliamentary candidates and (iii) Cabinet Ministers to premises owned by local authorities (A) within and (B) outside election purdah periods. [319292]

Ms Rosie Winterton: The Cabinet Office issues guidance to Departments on activities during general and local pre-election periods. Neither the Secretary of State nor the Standards Board issue separate guidance covering visits to premises owned by local authorities.

Local Government Services: Asylum

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what representations his Department has received from local authorities on funding to meet costs of supporting asylum seekers in the last 12 months. [319286]

Mr. Malik: During the course of the Department for Communities and Local Government consultation on the 2010-11 local government finance settlement two responses—form the London borough of Croydon and from the High Ethnicity Authorities Special Interest Group—raised the specific issue of pressures from asylum seekers without recourse to public funds who have exhausted the appeals process but have yet to be removed.

Local Government: Lobbying

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government whether guidance has been given to local authorities on retaining lobbyists and public affairs firms for the purposes of seeking to influence Government policy. [319266]

Ms Rosie Winterton: Local authorities have traditionally sought to influence Government policy through their representative bodies, principally the Local Government Association, London councils and the National Association of Local Councils, and individually through making representations to Government. This Department has issued no guidance about the retention of lobbyists or public affairs firms to assist such activities.

Local Government: Reorganisation

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many applications for judicial review of a ministerial decision have been brought in relation to his Department's plans for local government restructuring; which bodies have made the applications; and what timetables have been set for each case. [319300]

Ms Rosie Winterton: Regarding the Secretary of State's decisions of 10 February 2010 to implement unitary proposals in Exeter and Norwich, one joint judicial review has been brought by Devon and Norfolk county councils. The High Court has ordered that the case be listed for a hearing estimated at two days in the period 19 to 30 April 2010.

Nine separate challenges were brought by local authorities against the Secretary of State in relation to decisions taken in 2007 on unitary proposals concerning Bedfordshire, Cheshire, Cornwall, Durham, Exeter, Northumberland, North Yorkshire, Shropshire and Wiltshire. All these challenges have either been refused permission to apply for judicial review, withdrawn, or dismissed by the court.

Parking

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government in which regional spatial strategies policies on *(a)* maximum parking standards and *(b)* the setting of parking charges have been introduced. [319262]

Mr. Ian Austin: All regional spatial strategies currently in effect contain policies relating to parking standards for all types of development. Whether these standards are treated as maximums or not depends on the region. The RSS does not set out specific parking charges; this is the responsibility of local authorities.

North East—Policy 54

http://www.gos.gov.uk/gone/ourregion/strategies/?a=42496

The RSS does not define the maximum parking standards for developments: it is the local development framework which sets these standards so as to reflect local circumstances.

North West—Policy RT2

http://www.gos.gov.uk/gonw/Planning/RegionalPlanning/

The maximum parking standards cover non-residential developments only.

Yorkshire and Humber—Policy T2

http://www.yhassembly.gov.uk/News/2007/
Assembly%20welcomes%20publication%20of%20RSS%20panel%20report/

The maximum parking standards cover non-residential developments only.

East Midlands—Policy 47 and Policy 48

http://www.goem.gov.uk

The maximum parking standards cover non-residential developments only.

West Midlands—Policy T7

http://www.gowm.gov.uk

The RSS does not define the maximum parking standards for developments: it is the LDF which sets these standards so as to reflect local circumstances.

East of England—Policy T14

http://www.eera.gov.uk/category.asp?cat=120

The RSS defines the maximum parking standards for non-residential development as set out in PPG13 Transport; for these and for standards for residential development it is the LDF which interprets standards so as to reflect local circumstances.

South East—Policy T12

http://www.southeast-ra.gov.uk/southeastplan/plan/
view_plan.html

The RSS states that local parking standards set out in LDFs for residential and non-residential development have to be line with PPG 13 Transport.

South West—Policy RTS3

http://www.southwest-ra.gov.uk/nqcontent.cfm?a_id=836

The maximum parking standards cover non-residential developments only.

London—Policies 3C.23 and C3.24

http://www.london.gov.uk/thelondonplan/

The London Plan does define the maximum parking standards for residential and non-residential development; the boroughs should interpret these standards so as to reflect local circumstances.

Regeneration

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the National Audit Office's report on English Coalfields, HC 84, which *(a)* local authority areas and *(b)* Government Office regions the coalfields programme covers. [319117]

Mr. Ian Austin: The Homes and Communities Agency's National Coalfields Programme covers the following Government Office regions and local authorities:

Government office region	*Local authority area*
East Midlands	Ashfield
	Bassetlaw
	Bolsover
	Chesterfield
	Gedling
	Mansfield
	Melton
	Newark and Sherwood
	North East Derbyshire
	North West Leicestershire
	Rushcliffe
North East	County Durham
	Gateshead
	North Tyneside
	Northumberland
	South Tyneside
	Sunderland
North West	Copeland
	Knowsley
	Salford
	St. Helens
	Wigan
South East	Canterbury
	Dover
South West	Forest of Dean
West Midlands	Cannock Chase
	Lichfield
	Newcastle-under-Lyme
	North Warwickshire
	Staffordshire Moorlands
	Stoke-on-Trent
Yorkshire and the Humber	Barnsley
	Doncaster
	Leeds
	Rotherham
	Selby
	Sheffield
	Wakefield

A map showing the Government Office Regions and projects can be found at:

http://www.englishpartnerships.co.uk/coalfields.htm

Regional Government

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many regional assemblies have been abolished; and which assemblies have rebranded themselves. [319226]

Ms Rosie Winterton: No regional assemblies have been abolished. Pending the commencement of the Local Democracy, Economic Development and Construction Act on 1 April, five regional assemblies have transferred some of their activities to newly established interim Leaders' Boards. These are (a) the Association of North East Councils; (b) Local Government Yorkshire and Humber (c) 4NW; (d) South East England Leaders' Board; and (e) South West Councils Strategic Leaders' Board.

Travelling People: Caravan Sites

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many unauthorised Traveller pitches there were in each local authority in England in *(a)* 2000 and *(b)* the latest period for which figures are available. [319124]

Mr. Malik: The bi-annual count of Gypsy and Traveller caravans collects data on the number of caravans on unauthorised sites in England. It does not provide data on the number of pitches on unauthorised sites. Information on the number of caravans on unauthorised sites by local authority area in 2000 and 2009. I have arranged for a copy to be placed in the Library of the House.

Julie Morgan: To ask the Secretary of State for Communities and Local Government how many vacant plots there are on local authority Gypsy sites. [319167]

Mr. Malik: The count of Gypsy and Traveller caravans carried out by local authorities on 16 July 2009 shows there were 250 vacant residential pitches and 76 vacant transit pitches on local authority sites in England.

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to his Department's Progress Report on Gypsy and Traveller Policy of July 2009, what the evidential basis is for the analysis for Planning Inspectorate decisions referred to on page 12 of the Progress Report; if he will place in the Library a copy of the methodology and dataset for the analysis referred to on page 12 of that report; and if he will update that analysis using the latest data. [319231]

Mr. Malik: The evidential basis for the analysis of Planning Inspectorate decisions referred to on page 12 of the Progress Report on Gypsy and Traveller Policy of July 2009 is a review of all 81 appeal decisions made under section 78 of the Town and Country Planning Act 1990 between 1 April 2008 and 31 March 2009. The Annual Report to Parliament refers to 178 appeals; this is a typographical error. This does not impact on the figure of 27 per cent. of appeals relating to Gypsy and Traveller developments receiving permission. I have arranged for a copy of the dataset to be placed in the House Library.

It is our intention to provide an update to this in our 2010 report to Parliament.

Waste Improvement Network: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much funding *(a)* his Department and *(b)* the Regional Efficiency Improvement Partnership have given to the Waste Improvement Network in each year since its inception; and what the forecast level of funding by each is for (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [319314]

Ms Rosie Winterton: The Department has not provided funding directly to the Waste Improvement Network (WIN), nor has it any plans to do so in the future.

Regional Improvement and Efficiency Partnerships (RIEPs) report to the Department on the basis of outcomes achieved and objectives delivered; they are not required to report in detail about to whom they have given money. However, we are aware that WIN was established by the predecessor to the South East RIEP in 2006-07 with funding of £89,700, and that forecast investment by them is as follows:

2009-10: £15,000

2010-11: £15,000.

Written Questions: Government Responses

Grant Shapps: To ask the Secretary of State for Communities and Local Government when he plans to answer question 316350, on offices of the Homes and Communities Agency, the Homes and Communities Agency Academy and the Tenant Services Authority, tabled on 3 February 2010. [320252]

Barbara Follett: The hon. Member's question was answered on 10 February although unfortunately it was not printed in the *Official Report*. This has now been done on 2 March 2010, *Official Report*, columns 1140-41W.

Rates and Rating: Historic Buildings

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many stately homes in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010. [319222]

Ian Pearson: I have been asked to reply.

For the number of properties on the list in 1997, I refer the hon. Member to the answer given to the hon Member for Meriden (Mrs. Spelman) on 5 January 2010, *Official Report*, column 232W.

For the number of property types on the list in 2010, I refer the hon. Member to the statistical release titled "Non-domestic rateable values: 2010 Local Ratings Lists - England and Wales" published on 18 December 2009. A copy of this statistical release is available at the following link:

http://www.voa.gov.uk/publications/statistical_releases/VOA_Statistics_Release_Final.pdf

ELECTORAL COMMISSION COMMITTEE

Illegal Immigrants

Mr. Syms: To ask the hon. Member for South-West Devon, representing the Speaker's Committee on the Electoral Commission how many staff the Electoral Commission has appointed who were later discovered to be illegal immigrants since 2005. [320439]

Mr. Streeter: The Electoral Commission informs me that there have been no staff appointed who were later discovered to be illegal immigrants since 2005.

Trade Unions

Mr. Syms: To ask the hon. Member for South-West Devon, representing the Speaker's Committee on the Electoral Commission whether any staff of the Electoral Commission are seconded to trade unions; how many days staff of the Electoral Commission spent on trade union activity in the latest year for which figures are available; and what recent estimate has been made of the annual cost to the public purse of such activity. [320673]

Mr. Streeter: The Electoral Commission informs me that there are no Electoral Commission staff seconded to trade unions. The Electoral Commission has internal staff representatives of the Public and Commercial Services (PCS) trade union. During 2009 these representatives requested 11 hours of paid time to attend meetings and seven paid days to attend PCS training courses relating to staff representation. The estimated cost of paid time to undertake these activities was £1,400. In addition, internal staff representatives may provide ad hoc confidential advice to their members during working time, which is not recorded.

JUSTICE

Youth Custody: Appeals

David Howarth: To ask the Secretary of State for Justice what proportion of custodial sentences given to juveniles was appealed against in each of the last five years; and what proportion of those appeals was upheld. [319449]

Claire Ward: The information requested is not available. Data collected within the central IT systems do not currently hold sufficient detail to allow identification of the type of sentence which is the subject of each appeal against a sentence heard in the Crown court or Court of Appeal.

Annual statistics on all appeals dealt with in the Crown court against sentences given in the magistrates court are published by the Ministry of Justice in table 6.10 of the annual command paper "Judicial and Court Statistics". Annual statistics on all appeals in the Court of Appeal (Criminal Division) against sentences in the Crown court are also published in Table 1.6 of this report. The most recent edition, presenting statistics for 2004 to 2008, was published in September 2009.

Copies of "Judicial and Court Statistics" are available in the Library of the House and from the Ministry of Justice website at:

http://www.justice.gov.uk/publications/judicialandcourtstatistics.htm

Closed Circuit Television: Local Government

Mr. Stewart Jackson: To ask the Secretary of State for Justice pursuant to the answer of 1 February 2010, *Official Report*, column 80W, on closed circuit television (CCTV): local government, if he will place in the Library a copy of the guidance issued by the Information Commissioner on the use of CCTV cameras with microphones; and what responsibilities the *(a)* Information Commissioner and *(b)* interim CCTV Regulator has in respect of the use of CCTV by local authorities. [319742]

Mr. Wills: Copies of the Information Commissioner's CCTV code of practice, which covers CCTV systems with microphones, have been placed in the House of Commons and House of Lords Libraries.

The Information Commissioner has a responsibility to ensure that any CCTV systems that are used to process personal data comply with the principles of the Data Protection Act 1998.

The Interim CCTV regulator is currently responsible for the development of policy on matters surrounding the use of CCTV in public places. His forward work programme will focus on scoping the need for and requirements of a possible regulatory framework, which could include standards, data retention, training, and a complaints process. He will work with local authorities and other key stakeholders to achieve this.

Crimes of Violence

Dr. Pugh: To ask the Secretary of State for Justice how many people have been convicted of an offence of violence relating to the use of force against intruders in their homes in each of the last 10 years. [319564]

Claire Ward: The court proceedings database holds information on defendants proceeded against, found guilty and sentenced for criminal offences in England and Wales. The court proceedings database does not hold specific information on offences beyond descriptions provided by the statutes under which prosecutions are brought. Information available centrally on offences of assault do not identify if the victim was an intruder.

General Elections

Mr. Stewart Jackson: To ask the Secretary of State for Justice whether any expenses incurred by returning officers in undertaking a general election count immediately following the closure of the polls are considered to be reasonable additional expenses for which they may be reimbursed by the Government. [319436]

Mr. Wills: Returning Officers will be entitled to claim for charges necessarily incurred for the efficient and effective conduct of the election, up to the maximum recoverable amounts set out in an Order made by the Secretary of State ("the charges Order"). The maximum recoverable amounts in the charges order, which we are in the process of finalising, include an element for costs in conducting the verification and the count.

The amounts we have calculated for that element are based on estimates of the time taken to count the number of ballot papers expected to be returned in that constituency and an hourly rate of pay which takes into account the possibility of working at unsocial hours.

There is provision for the Secretary of State to authorise more than the maximum recoverable amount in a particular case provided that it was reasonable for the Returning Officer to incur the charges and the level of the charges in question is reasonable. Accordingly, any claim made by a returning officer for an additional payment above the maximum recoverable amount in connection with undertaking a count immediately after the poll has closed will need to be determined on a case-by-case basis.

Isle of Man: Health Services

Andrew Mackinlay: To ask the Secretary of State for Justice what assessment he has made of the effect on the Sewel Convention of the decision to end on behalf of the whole of the UK the reciprocal health agreement with the Isle of Man with effect from 1 April 2010. [320154]

Mr. Wills: None. The Sewel Convention is not relevant to the UK's decision to end the reciprocal health care agreement with the Isle of Man, as it involves neither a devolved legislature nor any form of legislation.

The Sewel Convention is relevant to the relationship between the UK Parliament and the Scottish Parliament. Similar conventions apply to the relationship between the UK Parliament and the National Assembly for Wales and the Northern Ireland Assembly. The convention provides that the UK Parliament would not normally legislate with regard to devolved matters except with the agreement of the devolved legislature.

Political Parties

Mr. Stewart Jackson: To ask the Secretary of State for Justice which provisions of the *(a)* Political Parties, Elections and Referendums Act 2000, *(b)* Electoral Administration Act 2006 and *(c)* Political Parties and Elections Act 2009 have not yet commenced; and for what reasons in each case. [319612][1]

Mr. Wills: I have provided a table which gives detail of the provisions that have not yet commenced, and the reasons for that, for the *(a)* Political Parties, Elections and Referendums Act 2000, *(b)* Electoral Administration Act 2006 and *(c)* Political Parties and Elections Act 2009.

Section	*Description*	*Reason why not yet in force*
Political Parties, Elections and Referendums Act 2000		

---

[1] .[*Official Report*, 10 March 2010; Vol. 507, c. 5MC.]

Section	*Description*	*Reason why not yet in force*
6(1)(c)	Review of electoral and political matters (redistribution of Parliamentary seats)	The Government accepted the recommendation of the Committee on Standards in Public Life's Eleventh Report, 'Review of the Electoral Commission', that the Electoral Commission should no longer have any involvement in electoral boundary matters and the provisions in PPERA to allow the transfer of boundary setting functions to the Commission should be repealed. Subsequently, the Local Democracy, Economic Development and Construction Act 2009 repealed these provisions and removes from the Electoral Commission functions relating to boundary and electoral changes
14 and Schedule 3	Boundary Committees, Transfer of Functions of Boundary Commissions	
17	Transfer of property etc of Boundary Commissions	
Schedule 21, paragraph 6(3),6(4),6(7)(1)(a),7	Minor and consequential amendments	Will be commenced at an appropriate time taking account of status of accounts from previous elections and allowing time for other changes contained in the EAA 2006 to bed in
Electoral Administration Act 2006		
1(2) and (5),2(2),(4)(9)-(12),5(10),7	CORE scheme	The CORE project has been paused to allow policy on individual electoral registration to develop first (individual registration may change the requirements for CORE and the context in which it is developed)
31(4) (as it relates to rule37(1)(d) schedule 1 to the Representation of the People Act 1983)	Replacement of counterfoils (procedure on close of poll)	Section 31 is commenced, except to the extent that it relates to sub-paragraph (d) of paragraph (1) of rule 37 of the parliamentary election rules, which remains under consideration
42-44 (as they relate to local government elections and authority elections as defined in section 203 of the Representation of the People Act 1983)	Control of documents after parliamentary election: access to election documents	Section 41 was commenced 1 January 2007. Policy changes in relation to election documents in Scotland, and secondary legislation, mean the commencement of sections 42 to 44 is, for the time being, unnecessary
59	Reporting donations to holders of certain elective offices	Commenced 1 July 2009 (so far as relates to a Member of the House of Commons). Otherwise under consideration
61(1)(2-4)(5)(6)	Regulation of loans etc.	Commenced 11 September 2006 (England, Wales, Scotland); 1 January 2007 (England, Wales, Scotland); 1 July 2008 (Northern Ireland) except so far as applies to minor parties within meaning of PPERA 2000 s160. The position of minor parties (i.e. those which do not seek to field candidates in parliamentary or local authority elections) remains under review
Schedule 1, Part 5, (75(1) amended rule 37 of the parliamentary rules set out in Schedule 1 to the Representation of the People Act 1983)	Amendments (Signing in Polling stations)	Remains under consideration in particular in the context of wider reforms to electoral registration
Political Parties and Elections Act 2009		
1(2),2,3(1),(3),(4),8, Schedules 1 and 2	Compliance with controls imposed by the 2000 Act etc; Investigatory powers of Commission; Civil Sanctions; Education about systems of government and EU institutions	The Electoral Commission's new powers will be commenced with effect from 1 July 2010. A statutory instrument supporting the civil sanctioning powers must be approved before section 3 and schedule 2 can be commenced
6	Number of Electoral Commissioners	The Speaker's Committee is considering proposed nominated Commissioners from party leaders. The provision will be commenced once the appointment process is complete

Section	*Description*	*Reason why not yet in force*
9-11 and Schedules 3 and 4	Declaration as to source of donation; Non-resident donors etc; Non-resident lenders etc.	As set out in the written ministerial statement of 24 November 2009, *Official Report*, columns 68-70 WS: "Officials have begun preliminary work on the prerequisites to implementation of these provisions. However, as stated during consideration of Lords Amendments to the Bill, we are practically unable to commence Sections 10 and 11 before the summer of 2010 due to their complex nature. Section 9, which requires donors to provide declarations as to the true origins of all donations of over £7,500, will be commenced alongside Sections 10 and 11 to ensure consistency in approach, which will be welcomed by those who make political donations, as well as parties and other recipients who will have to ensure that they comply with the additional declaration requirement."
25	Disposal of election documents in Scotland	Planned for commencement with effect from 1 July 2010
27	Returning officers for elections to the European Parliament	The intention is to commence this provision in due course in time for implementation ahead of the next scheduled European Parliamentary elections in 2014
28-29	CORE keeper	The CORE project has been paused to allow policy on individual electoral registration to develop first (individual registration may change the requirements for CORE and the context in which it is developed)
30,31,35,36	Electoral registration: Voluntary provision of identifying information; Regulations amending or supplementing section 30; Schemes for provision of data to registration officers: Schemes under section 35: proposals, consultation and evaluation	The timetable for the introduction of individual electoral registration remains as set out during the parliamentary passage of the Political Parties and Elections Act 2009. During Commons Consideration of Lords Amendments on 13 July 2009, *Official Report*, column 99, Michael Wills said: "Our approach to individual registration is to move in two phases: a voluntary phase and a compulsory phase...The voluntary phase will not commence before July 2010...and will not finish before 2014. That period will enable us to be fully confident that the system is ready before we move to the compulsory phase...It will enable us to prepare the public for the change, and to take steps to bolster registration rates in the meantime. That will be fundamental to protecting the system against the risk of a drop in the numbers registered." A project has been established to design and implement processes for the collection and storage of personal identifiers in the voluntary phase of individual electoral registration.
32(1)-(5)-(11)	Report by Electoral Commission on provision of identifying information	This section can only be commenced once sections 30 and 31 have come into force
33 and 34	Obligatory provision of identifying information (and provision supplementing 33)	The commencement of this section is linked to the annual reports produced by the Electoral Commission under section 32. Upon a positive recommendation being made by the Electoral Commission in 2014 the commencement of sections 33 and 34 will need to be debated and approved by both Houses.
	Minor and consequential amendments	The commencement of relevant minor and consequential amendments is dependant on commencement of other sections of the Act and will be brought forward as appropriate

Section	*Description*	*Reason why not yet in force*
	Repeals	

Prison Places: Expenditure

Paul Holmes: To ask the Secretary of State for Justice what the average cost to the public purse was of a place in prison in each of the last three years. [319561]

Maria Eagle: The average direct prison cost per prison place in each of the last three financial years is as follows:

Financial year	£
2008-09	30,000
2007-08	31,000
2006-07	30,000

The direct prison cost is only the expenditure met locally by prisons. It does not include expenditure met at area, regional, or national level by Her Majesty's Prison Service (HMPS) or the National Offender Management Service (NOMS). The figure for 2008-09 includes private prisons and is net of income from the Department of Health and the Department for Innovation, Universities and Skills.

For the last two years (2008-09 and 2007-08) an overall average cost per prison place including prison related costs met by NOMS, in addition to the direct prison cost, has been calculated as:

Financial year	£
2008-09	45,000
2007-08	43,000

The overall average cost for 2008-09 comprises the expenditure on public and private prisons (as recorded in the NOMS agency annual report and accounts), increased by an apportionment of relevant costs borne centrally and in the regions by NOMS. This involves some estimation. In addition, expenditure met centrally by the Youth Justice Board (YJB) is included. The figures do not include the cost of prisoners held in police or court cells under Operation Safeguard, nor expenditure met by other Government Departments (e.g. Health and Education). The prisoner escort service costs are included. Expenditure recharged to the YJB in respect of young people is included.

The overall cost for 2007-08 was calculated on a broadly similar basis. Cost per prison place is expressed in terms of the certified normal accommodation number of places; this gives a higher unit cost than the cost per prisoner. Figures to nearest £1,000.

Prison Places: Finance

David Howarth: To ask the Secretary of State for Justice whether the cost of *(a)* prisoner health care, *(b)* prisoner education services, *(c)* drug addiction services and *(d)* dog handling are taken into account in his Department's estimates of the cost of a prison place in England and Wales. [319437]

Maria Eagle: For 2008-09 the overall cost of a prison place was £45,000 (to nearest £1,000). This includes expenditure met by the National Offender Management Service (NOMS) and the Youth Justice Board (YJB). It does not include expenditure met by other Government Departments (e.g. for health and education).

In general health care costs are not included. Where prisons have been contracted out to the private sector the cost to NOMS includes health care and this is included in the cost per place above. In general prisoner education services are not included. Where prisons have been contracted out to the private sector the cost to NOMS includes education and this is included in the cost per place above. In general clinical drug addiction services are not included. Services which are the responsibility of NOMS (e.g. drug testing, accredited drug treatment programmes and Counselling, Assessment, Referral advice and Throughcare services) are included. Dog handling costs are included.

Before 2008-09 Her Majesty's Prison Service Annual report and Accounts included the direct prison cost per place. This included only the expenditure met and managed locally at each prison and excluded expenditure met at area, region or national level. The reported figures included expenditure on health care and education which was recharged to the other Government Departments. It did not include that expenditure met directly by other Government Departments.

The overall average cost for 2008-09 comprises the expenditure on public and private prisons (as recorded in the NOMS Agency Annual Report and Accounts), increased by an apportionment of relevant costs borne centrally and in the regions by NOMS. This involves some estimation. In addition, expenditure met centrally by the YJB is included. The figures do not include the cost of prisoners held in police or court cells under Operation Safeguard, nor expenditure met by other Government Departments (e.g. Health and Education). The prisoner escort service costs are included. Expenditure recharged to the YJB in respect of young people is included.

Cost per prison place is expressed in terms of the Certified Normal Accommodation number of places; this gives a higher unit cost than the cost per prisoner.

Prison Service: Racial discrimination

Paul Holmes: To ask the Secretary of State for Justice how many prison officers have been dismissed on grounds of racist behaviour in each of the last three years. [319560]

Maria Eagle: Staff working in the National Offender Management Service (NOMS) are expected to meet high standards of professional and personal conduct. Behaviour constituting discrimination, harassment, victimisation or bullying—including instances which involve a racial element—will not be tolerated and, depending on the individual circumstances of the case, would fall under the category of gross misconduct and would invariably lead to dismissal.

Details of disciplinary outcomes are recorded centrally according to the type of misconduct rather than the actual offence committed by the member of staff. According to central records, five prison officers have been dismissed from public sector Prison Service establishments on grounds of racist behaviour since 1 January 2007. A breakdown of this information is provided in the following table.

Calendar year	*Dismissals*[1]
2007	4
2008	0
2009	1
Total	5

[1] Data on disciplinary dismissals are derived from the HR Discipline Database and the Shared Service Personnel Management Database. As with any large-scale administrative systems these are liable to a certain level of inaccuracy. Cases that are ongoing or subject to internal appeal have not been included.

There may be additional cases on the central databases which have not been recorded as racist in nature. In order to confirm the accuracy of this data, NOMS would need to contact all public sector Prison Service establishments, ask them to check their local records for the period required and ask them to submit this information to Headquarters so that the central records can be updated. This would incur disproportionate cost.

NOMS believes that the key to long-term success in tackling unacceptable behaviour is to embed a sustainable diversity infrastructure across the service. A major initiative in this area has been the development of Challenge It Change It, a new training course and diversity toolkit. This is being introduced across the public sector prison service and NOMS HQ and is receiving very positive feedback.

Prisoners: Education and Drugs

Chris Grayling: To ask the Secretary of State for Justice pursuant to the answer of 23 February 2010, *Official Report*, column 508W, on prisoners: education and drugs, what proportion of offenders in the *(a)* CARAT programme and *(b)* Young People's Substance Misuse Service programme successfully completed the course of drug intervention in each year since 2005-06. [319659]

Maria Eagle: The Counselling, Assessment, Referral, Advice and Throughcare service (CARATs) is the key non-clinical gateway drug treatment service in prisons for prisoners aged over 18. The Young People's Substance Misuse Service (YPSMS) provides a similar service for all young people (aged 15-18) in custody. Neither CARATs nor YPSMS is an intervention in its own right. Both provide a gateway to support, information, structured interventions and resettlement planning for prisoners with substance misuse problems. As a consequence, there is not necessarily a point where a prisoner could be considered to have successfully or unsuccessfully completed their engagement with either service.

The following table shows the number of initial assessments carried out by CARATs and YPSMS in each of the full financial years since 2005-09. This gives an indication of the number of prisoners and young people engaged with drug treatment services in custody, although the level of engagement will vary according to individuals' needs.

	Interventions delivered[1]				
Intervention type	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Counselling, Assessment, Referral, Advice and Throughcare service (CARATs) substance misuse triage assessments	59,000	66,000	65,700	65,800	66,600
Young People's Substance Misuse Services (YPSMS) initial assessments	—	8,500	8,300	7,400	7,000

[1] Rounded to nearest 100

Prisons: Sanitation

David Howarth: To ask the Secretary of State for Justice what his most recent estimate is of the number of prison cells without in-cell sanitation; and what plans his Department has to install in-cell sanitation in those cells. [319481]

Maria Eagle: There are about 2,000 cells on normal location across the prison estate that do not have integral sanitation but which have electronic unlocking facilities, which permits a prisoner to leave the cell to access sanitation and washing facilities on a call system. This system was approved as a method of ending 'slopping out', as set out in the Judge Tumin report of 1989. There are also some further cells on the prison estate without integral sanitation but which permit prisoners to have open access to central sanitation facilities via their privacy locks This was also acceptable to Judge Tumin as a method of ending of ending "slopping out".

Cells with the current electronic unlocking facilities are too small for the installation of integral sanitation.

Probation Boards: Wales

Mr. Llwyd: To ask the Secretary of State for Justice how many members there were of each probation board in Wales on 31 December 2009. [319553]

Maria Eagle: The board members on each of the two probation areas and two probation trusts in Wales on 31 December 2009 were as follows:

Probation area/trust	*Board members (including the chair and chief officer/chief executive)*
Dyfed Powys Probation Trust	7
Gwent Probation Area	9
North Wales Probation Area	12
South Wales Probation Trust	10

Probation Officers: Wales

Mr. Llwyd: To ask the Secretary of State for Justice how many probation officers in each pay band at each grade were employed in each probation area in Wales on 31 December 2009. [319552]

Maria Eagle: There is only one pay band and grade for probation officers (introduced via the National Job Evaluation Scheme), which is Band 4. The number employed on 31 December 2009 were as follows:

Area/trust	*Probation officers*
Dyfed Powys Probation Trust	[1]38.10
Gwent Probation Area	[1]73.04
South Wales Probation Trust	[1]120.62
North Wales Probation Area	[1]164.20

[1] Whole-time equivalent.

Probation: Per Capita Costs

David Howarth: To ask the Secretary of State for Justice what his most recent estimate is of average annual cost to the public purse per offender of *(a)* probation supervision, *(b)* probation supervision with a drug programme attachment, *(c)* probation supervision with an anger management programme attachment and *(d)* probation supervision with a domestic violence programme attachment. [319450]

Maria Eagle: The funding for the supervision of offenders and the delivery of programmes in the community is part of the general grant given to probation areas or trusts. The costs will vary and depend on a number of factors including the risk presented by the individual, the level of supervision required, the programme the individual attends, and the arrangements for delivery in the particular area. It is not possible to accurately disaggregate the cost of this work.

Full costs of probation services will be collected and published in order to benchmark the whole probation system by the end of 2011.

Probation: Reoffenders

Mr. Llwyd: To ask the Secretary of State for Justice what his most recent estimate of the rate of re-offending after two years was following completion of a *(a)* domestic violence, *(b)* cognitive behaviour and *(c)* drugs programme in each probation area in Wales. [319549]

Maria Eagle: The Ministry of Justice does not produce statistics on reoffending rates following the completion of programmes. National Statistics on the reoffending of adults released from custody or commencing a court order or suspended sentence order are published annually for England and Wales; they are not broken down for Wales alone. The Ministry of Justice also publishes local reoffending data for all offenders on the probation caseload, which are available at the Probation Area level. These data measure the reoffending of all offenders under probation supervision over three months. For more information about these statistics please see:

http://www.justice.gov.uk/publications/reoffendingofadults.htm

and

http://www.justice.gov.uk/publications/local-adult-reoffending.htm

There is international research evidence (but no specific Welsh research that we are aware of) showing that general offending behaviour programmes, anger management/violence reduction programmes and some drugs interventions are effective in reducing reoffending, although the evidence regarding domestic violence programmes is limited and remains tentative.

Mr. Llwyd: To ask the Secretary of State for Justice what his most recent estimate is of the rate of re-offending after two years following completion of a *(a)* a probation or supervision order, *(b)* a probation or supervision order with conditions and *(c)* unpaid work in each probation area in Wales. [319550]

Maria Eagle: The requested data are not available. National reoffending data are based on offences committed within one year of offenders' release from custody or commencement of a court order under probation supervision, and cover England and Wales as a whole.

In addition to the national statistics on reoffending, the Ministry of Justice publishes local reoffending data for all offenders on the probation caseload. These data are available at the probation area level. These data measure the reoffending of all offenders under probation supervision over a period of three months. The results are produced by aggregating four quarters of data. Therefore the number of offenders quoted in the following table is approximately four times the number of offenders on the caseload at any one time.

The most recent reoffending rates for offenders on court orders under probation supervision for probation areas in Wales are shown in Table 1.

Table 1. Local reoffending rates for probation areas in Wales, 1 October2008 to 30 September 2009

Probation area	*Number of offenders*	*Proportion of offenders that reoffended within three months*
Dyfed-Powys	4,106	11.15
Gwent	7,091	10.68
North Wales	7,730	10.71
South Wales	17,140	11.00

[illegible] breakdown by requirement type is not available.

Further information on the reoffending of adult offenders on the probation caseload is available at:

http://www.justice.gov.uk/publications/local-adult-reoffending.htm

Further information on the National Statistics on adult reoffending is available at:

http://www.justice.gov.uk/publications/reoffendingofadults.htm

Probation: Wales

Mr. Llwyd: To ask the Secretary of State for Justice how many people completed and passed a probation programme in each probation area in Wales in each year since 2005. [319548]

Maria Eagle: The Accredited Programme Completions for each full year from 2005 are as follows:

	2005-06	*2006-07*	*2007-08*	*2008-09*
North Wales Probation Area	219	270	275	269
South Wales Probation Trust	468	552	410	494

	2005-06	*2006-07*	*2007-08*	*2008-09*
Gwent Probation Area	198	208	213	213
Dyfed Powys Probation Trust	138	157	151	153
Total	1,023	1,187	1,049	1,129

Mr. Llwyd: To ask the Secretary of State for Justice how many staff of each grade were employed by each probation area in Wales on 31 December *(a)* 2009 and *(b)* 1999. [319551]

Maria Eagle: Data on how many staff of each grade were employed by Wales Probation Areas/Trusts on 31 December 2009 are as follows:

Grade	*North Wales*[1]	*Gwent*[1]	*South Wales*[1]	*Dyfed-Powys*[1]
Chief Executive	1	1	[2]1	1
ACO Level	3.10	4	7.65	4
Grade 6 (includes Area Managers)	4	2	8.80	0
Grade 5 (includes Senior Probation Officer's)	28.60	18.5	75.32	21.40
Grade 4 (includes Probation Officers)	79.20	85.04	152.44	45.10
Grade 3 (includes Probation Service Officer's)	67.63	86.46	61.38	209.08
Grade 2 (admin)	24.12	32.05	96.69	26.9
Grade 1 (lower admin)	8.21	13.99	7.30	5.40

[1] WTE = whole-time equivalent
[2] Acting

Reliable data on 1999 staff in post are not available for all areas/trusts. This type of information is usually retained in accordance with the six-year retention limit specified by the Data Protection Act 1998.

Mr. Llwyd: To ask the Secretary of State for Justice for what reasons he decided to establish an all-Wales probation trust to replace the four probation service areas in Wales. [319554]

Maria Eagle: The application to form an all-Wales trust met the criteria required for Trust status in terms of performance and it is considered that this would be the best means of delivering locally tailored and cost effective services for all communities in Wales.

In common with all probation trusts, the Wales trust will be formed of local delivery units who are empowered to work with partners to understand and meet local needs, either through direct provision or commissioning. These units will provide a visible local presence for probation in all communities and ensure that the diverse needs in different parts of Wales are met. Compared with the retention of four separate probation areas in Wales, the single trust will save £1.5 million. This additional saving equates to 46 posts in corporate support and governance arrangements. In reducing management overheads, the all-Wales trust will focus resources on the frontline, improving public protection. These savings will allow 34 full-time equivalent probation officers to be employed across Wales who would otherwise not be funded.

Young Offender Institution: Costs

Paul Holmes: To ask the Secretary of State for Justice what the average cost of providing a place in a young offender institution was in each of the last three years. [319686]

Maria Eagle: The average direct prison cost per place in a young offender institution for each of the last three financial years is as follows:

Financial year	£
2008-09	34,000
2007-08	34,000
2006-07	33,000

The direct prison cost is only the expenditure met locally by prisons. It does not include expenditure met at area, regional, or national level by Her Majesty's Prison service (HMPS) or the National Offender Management Service (NOMS). The figure for 2008-09 includes private prisons and is net of income from the Department of Health and the Department for Innovation, Universities and Skills.

For the last two years (2008-09 and 2007-08) an overall average cost per place in a young offender institution including prison related costs met by NOMS, in addition to the direct prison cost, has been calculated as follows:

Financial year	£
2008-09	50,000
2007-08	49,000

The overall average cost for 2008-09 comprises the expenditure on public and private prisons (as recorded in the NOMS agency annual report and accounts), increased by an apportionment of relevant costs borne centrally and in the regions by NOMS. This involves some estimation. In addition, expenditure met centrally by the Youth Justice Board (YJB) in respect of prisoners under the age of 18 is included. The figures do not include the cost of prisoners held in police or court cells under Operation Safeguard, nor expenditure met by other Government Departments (e.g. Health and Education). The prisoner escort service costs are included. Expenditure recharged to the YJB in respect of young people is included. Prison costs are classified to categories according to each prison's major use at the end of the year. If a YOI shares a site with an adult prison (over 21 years) the YOI cost will not be reflected in the figures above.

The overall cost for 2007-08 was calculated on a broadly similar basis. Cost per prison place is expressed in terms of the certified normal accommodation number of places; this gives a higher unit cost than the cost per prisoner. Figures to nearest £1,000.

Young Offender Institutions: Social Workers

David Howarth: To ask the Secretary of State for Justice pursuant to the answer of 16 December 2009, *Official Report*, column 1248W, on young offender institutions: social workers, how many *(a)* social worker posts and *(b)* vacant social worker posts there are in each young offender institution in England and Wales. [316177]

Maria Eagle: The number of social worker posts and vacant social worker posts there are in each young offender institution in England and Wales are shown in the table.

Local authorities have a legal responsibility to provide social work services to children in need. We are actively exploring with the Association of Directors of Children's Services and the Youth Justice Board what more we can do to ensure local authorities fulfil their responsibilities in this regard.

Establishment	*Number of social worker posts*	*Number of vacancies*
Young People's Estate		
Ashfield	2	2
Brinsford[1]	0	0
Castington	1	0
Cookham Wood	1	0
Feltham	2	2
Hindley	4.5	2.5
Huntercombe	2	0
Parc	0	0
Stoke Heath	1	0
Warren Hill	2.5	1.5
Werrington	1	0
Wetherby	2	1
Young Women's Units		
Downview	0.5	0.5
Eastwood Park	1	1
Foston Hall	0	0
New Hall	1	0

[1] Brinsford will be decommissioned in mid-February, so will no longer be part of the young people's estate.

Note:

The data in this table have been provided by NOMS.

Youth Offending Teams

Mr. Stewart Jackson: To ask the Secretary of State for Justice pursuant to the answer of 10 February 2010, *Official Report*, column 1077W, on local government finance, what requirements local authorities have to submit data not contained in the national indicator set to *(a)* his Department and *(b)* its agencies other than the Youth Justice Board. [319462]

Claire Ward: Local authorities have no central requirements to submit data not contained in the national indicator set to the Ministry of Justice and its agencies.

Mr. Stewart Jackson: To ask the Secretary of State for Justice pursuant to the answer of 10 February 2010, *Official Report*, column 1077W, on local government finance, how many different items of data are collected from local authorities as part of the mandatory summary-level process by the Youth Justice Board. [319520]

Maria Eagle: The Youth Justice Board collects local authority data from youth offending teams. 12 different mandatory summary-level data items are collected. These data items are:

Rate of reoffending (National Indicator 19/Welsh Youth Justice Indicator 2) broken down by disposal

Use of custody (National Indicator 43/Welsh Youth Justic Indicator 3)

Ethnic Disproportionality (National Indicator 44—only Englis YOTs submit these data) compared to overall 10-17 populatio

Education, training and employment (National Indicator 45/Wels Youth Justice Indicator 4)

Accommodation (National Indicator 46/Welsh Youth Justic Indicator 5)

First-time Entrants (National Indicator 111/Welsh Youth Justic Indicator 1), broken down by ethnicity and gender

Access to substance misuse services (Welsh Youth Justice Indicato 6—only Welsh YOTs submit these data)

Annual YOT budget and staffing data

Prevention programme data, caseload, number of young peopl starting programme by age, gender and ethnicity, number wh become first-time entrants, number receiving education, trainin and employment at start/end and 'Onset' progress

Knife Possession Prevention Programmes data, young peopl convicted of knife-enabled offence who receive a knife 'interventio by age, gender and ethnicity

Intensive Supervision and Surveillance Programme data, numbe of young people starting, qualifying for and breaching programm by age, gender ethnicity and disposal

Priority and Prolific Offenders data, number, age, gender an ethnicity of young people in cohort and reoffending rate

Integrated resettlement support data, 'Asset' progress and numbe of young people starting on and completing integrated resettlemen support, broken down by offence, ethnicity, age and gender

TREASURY

Banknotes: Forgery

Mr. David Hamilton: To ask the Chancellor of the Exchequer how many counterfeit banknotes have been seized in the UK in each of the last two years for which figures are available; and how many purported to have been issued by *(a)* the Bank of England, *(b)* Scottish banks and *(c)* banks in Northern Ireland. [319952]

Sarah McCarthy-Fry: The Bank of England is responsible for collating statistics on counterfeits of its own banknotes and these are available at:

http://www.bankofengland.co.uk/banknotes/about/counterfeits.htm

Scottish and Northern Ireland banknote issuers are responsible for collating statistical information on counterfeits of their own banknote issue. The Scottish banks publish their statistics on the Committee of Scottish Clearing banks website available at:

http://www.scotbanks.org.uk/banknote_counterfeit.php

The Northern Irish banknote issuers do not publish statistics on counterfeits of their banknote issue.

Council Tax: Valuation

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer what the average council tax band of a new build dwelling in England was in the latest period for which figures are available. [319121]

Ian Pearson: The band which has most frequently been applied to dwellings first brought into council tax valuation lists between 1 April 2008 and 31 March 2009 in England is band B.

Financial Services: Advisory Services

Mr. Sanders: To ask the Chancellor of the Exchequer what steps his Department is taking to provide financial advisory services through the Post Office network. [319422]

Sarah McCarthy-Fry: The Government currently have no plans to provide financial advisory services specifically through the Post Office network.

The Government however are committed to ensuring that people can access helpful, impartial information and guidance on money. This will help them make better-informed financial decisions, manage their money well and avoid getting into financial difficulty. As part of this, the Government will shortly launch the roll-out of a national Money Guidance service.

The Government have also indicated that they want Post Office to play a bigger role in banking services. A public consultation on Post Office banking recently closed on 24 February and the Government are now considering the comments they received and will publish their response in due course.

Government: Assets

Mr. Mark Field: To ask the Chancellor of the Exchequer what correspondence his Department has had with the Crown Estate on its proposed sale of the *(a)* Cumberland Market, *(b)* Millbank, *(c)* Victoria Park and *(d)* Lee Green housing estate; and if he will make a statement. [319945]

Sarah McCarthy-Fry: The Treasury has been kept informed of the current consultation taking place. Recent correspondence included the materials sent to residents of the estates. No decision has yet been made.

Housing: Valuation

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer pursuant to the answer of 11 January 2010, *Official Report*, column 766W, on housing: valuation, how many and what proportion of dwellings in England have an entry on the Valuation Office Agency database with *(a)* dwellinghouse coding and *(b)* one or more value significant codes assigned to them. [319736]

Ian Pearson: I refer the hon. Member to the answer given on 16 October 2009, *Official Report*, column 140W.

Non-domestic Rates: Valuation

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer (1) how many pleasure piers were on the Valuation Office Agency's Rating List in England in *(a)* 1997 and *(b)* 2010; [319002]

(2) how many Traveller camp pitches in England were on the Valuation Office Agency's rating List in *(a)* 1997 and *(b)* 2010; [319127]

(3) how many public libraries in England were on the Valuation Office Agency's rating List in *(a)* 1997 and *(b)* 2010; [319128]

(4) how many premises of law courts in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319221]

(5) how many zoos in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319223]

(6) how many lap dancing venues in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319291]

(7) how many public telephone boxes in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319293]

(8) how many nightclubs and discotheques in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319294]

(9) how many supermarkets with a floor area of over 2,500 square metres in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319295]

(10) how many public conveniences in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319301]

(11) how many drive-in and drive-through restaurants in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319302]

(12) how many Post Offices in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319306]

(13) how many petrol filling stations in England were on the Valuation Office Agency's Rating List in *(a)* 1997 and *(b)* 2010; [319313]

(14) how many *(a)* casinos and gambling clubs and *(b)* bingo halls in England were on the Valuation Office Agency's Rating List in (i) 1997 and (ii) 2010. [319315]

Ian Pearson: For the number of properties on the list in 1997, I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 5 January 2010, *Official Report*, column 232W.

For the number of property types on the list in 2010, I refer the hon. Member to the statistical release titled "Non-domestic rateable values: 2010 Local Ratings Lists - England and Wales" published on 18 December 2009. A copy of this statistical release is available at the following link:

http://www.voa.gov.uk/publications/statistical_releases/VOA_Statistics_Release_Final.pdf

Revenue and Customs: Peterhead

Mr. Salmond: To ask the Chancellor of the Exchequer what consultation HM Revenue and Customs has undertaken with staff based at Keith House, Peterhead, over the Workforce Change programme. [311964]

Mr. Timms: Staff at the HM Revenue and Customs (HMRC) office at Keith House, Peterhead were invited to give their views on the proposal to vacate the office during an eight week period from 11 June to 6 August 2008.

Following the announcement on 4 December 2008 that HMRC would withdraw from Keith House, managers have held one-to-one meetings with staff to discuss their options, taking account of individual personal circumstances. A regional implementation team was set up to explore redeployment options and find suitable opportunities within HMRC and in other Government Departments and Agencies. Seminars for all affected staff are being held, and further support is being planned for those staff who want to continue their civil service careers.

Taxation: Gaming Machines

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer for what reasons HM Revenue and Customs proposes to reclassify skills with prize machines as gaming machines; and what account that proposal takes of his Department's policy on retrospective taxation. [319739]

Sarah McCarthy-Fry: The definition of a gaming machine for the purpose of amusement machine licence duty (AMLD) is provided by section 25 of the Betting and Gaming Duties Act 1981 which, in turn, refers to section 6 of the Gambling Act 2005.

HM Treasury and HM Revenue and Customs, in consultation with the Gambling Commission and the Department for Culture, Media and Sport, will undertake a review of Skill with prizes machines and the games played on them for the purposes of AMLD. The review was announced on 26 February and will report to Ministers in four months. The review will also consider the issue of tax arrears applicable to some machines.

Valuation Office Agency

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer whether the Valuation Office Agency has requested access to data held on the *(a)* Home Condition Register, *(b)* Energy Performance Certificate Register and *(c)* National Register of Social Housing. [319630]

Ian Pearson: The Valuation Office Agency has not requested access to data held on the Home Condition Report or Energy Performance Certificate Registers, but has requested and received data held on the National Register of Social Housing.

VAT: Alcoholic Drinks

Stewart Hosie: To ask the Chancellor of the Exchequer what assessment he has made of the effect of value added tax arrangements on loss-leading marketing promotions of alcohol by retailers. [320116]

Mr. Timms: No such assessment has been made. VAT returns to HM Revenue and Customs (HMRC) by retailers and other businesses do not distinguish payments or recovery of VAT on alcohol products from those on other sales.

HOME DEPARTMENT

Alcoholic Drinks: Young People

Mr. Ellwood: To ask the Secretary of State for the Home Department how many people have been fined for selling alcohol to under-age persons in each year since 1997; and what the average fine was in each such year. [313016]

Mr. Alan Campbell: Information on the number of fines issued by the courts and the average fine amount for "selling alcohol to persons under 18" for each year between 1997 and 2008 is provided in the following table. This does not include data on penalty notices for disorder, which can also be issued for underage sales.

Total fines given and average fine amount, selling alcohol to underage, 1997 to 2008

		1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*[*]	*2004*	*2005*	*2006*	*2007*	*2008*
14203	*Selling etc intoxicating liquor to person under 18 on the premises*												
	Number of fines issued	111	129	95	46	42	80	353	519	662	438	37	21
	Average fine imposed (£)	227	212	194	206	208	249	253	238	246	293	276	376
14379	*Sale of alcohol to person under 18*												
	Number of fines issued	—	—	—	—	—	—	—	13	17	278	425	287
	Average fine imposed (£)	—	—	—	—	—	—	—	206	251	324	375	378

Total fines given and average fine amount, selling alcohol to underage, 1997 to 2008

		1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
14380	*Allowing sale of alcohol to person under 18*												
	Number of fines issued	—	—	—	—	—	—	—	—	—	10	6	14
	Average fine imposed (£)	—	—	—	—	—	—	—	—	—	276	467	603

14398	*Persistently selling alcohol to children*												
	Number of fines issued	—	—	—	—	—	—	—	—	—	—	—	8
	Average fine imposed (£)	—	—	—	—	—	—	—	—	—	—	—	968.75

Notes:

1. These figures have been drawn from administrative data systems.

2. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

3. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.

Source:

Ministry of Justice

Animals (Scientific Procedures) Act 1986

Norman Baker: To ask the Secretary of State for the Home Department for what reason Section 24 of the Animals (Scientific Procedures) Act 1986 has yet to be repealed. [319541]

Meg Hillier *[holding answer 1 March 2010]:* We have no plans to review section 24 of the Animals (Scientific Procedures) Act 1986 before we know the outcome of European Union Directive 86/609/EEC on the protection of animals used for scientific purposes, which is currently being debated in the European Union.

We have never given a commitment to repeal section 24, only to review it.

Arrest Warrants

Mr. Davey: To ask the Secretary of State for the Home Department how many European Arrest Warrants have been *(a)* sought and *(b)* obtained by police forces and other organisations in England in respect of (i) each category of crime and (ii) each other member state; and if he will make a statement. [317728]

Meg Hillier: The information requested is as follows:

(a) We are unable to answer this part of the question. SOCA does not receive any information on the European Arrest Warrants (EAWs) which are applied for by UK Law Enforcement and only receives EAWs which have been issued.

(b) The data held on the number of EAWs issued cannot be broken down to reflect the figures for England only. All figures relate to the whole of the UK.

The figures for the number of EAWs issued by UK prosecuting authorities and transmitted by SOCA are as follows:

	EAWs issued	*Persons extradited to the UK*
2004	96	19
2005	131	63
2006	126	76
2007	198	99
2008	218	96

It is not possible from current systems to provide data broken down into the number of EAWs issued by the UK in respect of each category of crime or of each other member state. This would require a manual examination of all files and incur disproportionate cost.

Beer Glasses

Mr. Touhig: To ask the Secretary of State for the Home Department what estimate he has made of the effect on the number of injuries which would result from the national roll-out of the prototype shatter-proof pint glasses developed by his Department's Design and Technology Alliance; and if he will make it his policy to provide financial support to independent pub landlords to acquire stocks of such glasses. [318151]

Mr. Alan Campbell: There are around 87,000 violent incidents involving glassware each year. In the majority of cases where violent crime involving glassware is reported it is most commonly pint glasses which are broken and used as sharp weapons. The *British Medical Journal* has highlighted that the injury caused by drinking glasses could be substantially reduced by the use of toughened glass in premises.

We anticipate the cost of the new glasses will be similar to existing standard toughened glass. Cost will clearly be a consideration as we move forward with these prototypes. Both glass solutions should have a potentially longer lifespan than existing glass, therefore we do not have any plans to financially support trade in acquiring stocks of the glasses as it would be part of their natural expenditure.

Communications Capabilities Directorate

David Davis: To ask the Secretary of State for the Home Department what expenditure his Department has incurred on its Communications Capabilities Directorate since it was established. [318267]

Mr. Hanson *[holding answer 24 February 2010]:* The Communication Capabilities Directorate brings together work to ensure that, in a changing communications environment, communications data and interception of communications can continue to protect the public and save lives. This includes implementing the European Union data retention directive and looking at how communications data capabilities can be maintained in the future as technology continues to evolve through the Interception Modernisation Programme. The Directorate is also working with public authorities to improve training around the use of communications data to maximise efficiencies as suggested by feedback to the 2009 public consultation 'Protecting the Public in a Changing Communications Environment'. The Directorate has incurred expenditure of £14 million since it was established. This includes resources, facilities and capital expenditure.

David Davis: To ask the Secretary of State for the Home Department how many contracts the Communications Capabilities Directorate has put out to tender in the last 12 months; and how many it plans to put out to tender in the next 12 months. [318269]

Mr. Hanson *[holding answer 24 February 2010]:* Details of any past or future plans to tender cannot be disclosed on grounds of national security.

Crime

Chris Huhne: To ask the Secretary of State for the Home Department what the percentage change was in *(a)* total recorded crime, *(b)* crimes involving violence against the person, *(c)* robbery and *(d)* burglary in each basic command unit area between 2002-03 and 2008-09. [319785]

Alan Johnson *[holding answer 1 March 2010]:* The information requested is given in the table. The basic command unit (BCU) structure in some forces has changed across this period, as reflected in the table.

Table: Percentage change of recorded crime by BCU (basic command unit) between 2002-03 and 2008-09[1]

n/a = Not available

[1] The information presented complies with the National Statistics Code of Practice for Data Access and Confidentiality. In order to protect confidentiality, all counts lower than three have been suppressed. Other counts may be suppressed to protect confidentiality. These are denoted by an "*" symbol in the cell.

[2] Please note that the BCU structure in some forces has changed across this period. The concerning cases are not comparable and labelled as "not available".

Crime: Victims

Chris Grayling: To ask the Secretary of State for the Home Department how many and what proportion of victims of crime were notified when the person charged with the crime against them was *(a)* charged and *(b)* convicted in each year since 1997. [319780]

Claire Ward: I have been asked to reply.

Data on the number and proportion of victims of crime who were notified when the person charged with the crime against them was charged or convicted are not collected centrally.

However, the Witness and Victim Experience Survey (WAVES) interviews a national sample of victims (and prosecution witnesses) aged 18 and over, comprising just under 20,000 victims whose cases resulted in a criminal charge, in the following crime types: violence against the person, robbery, burglary, and theft and handling stolen goods. The survey excludes victims and witnesses of sexual offences, domestic violence, and cases involving a fatality on ethical grounds. Drug and motoring offences are also excluded.

WAVES data show that in 2008 (latest full year available), 91 per cent. of victims interviewed were notified that someone had been charged with the offence. WAVES does not fully distinguish between respondents who were informed of the case outcome, and those who found out the case outcome in another way.

Departmental Sick Leave

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the answer of 18 January 2010, *Official Report*, column 32W, on departmental sick leave, what the average number of annual working days lost per employee through sick leave was in each of the last 12 months; and what estimate he has made of the cost to his Department of such leave. [313439]

Alan Johnson: The average working days lost per staff per staff year in the Home Office (including its executive agencies) is shown in Table 1. The total cost of this absence is estimated to be about £24 million (out of a total wage bill for the Home Office of £997 million).

Home Office RYAWDL[1]

November 2009	9.10
December 2009	8.98

[1] This figure includes Home Office HQ, United Kingdom Border Agency, identity and Passport Service and Criminal Records Bureau.

Domestic Violence: Immigrants

Mr. Sanders: To ask the Secretary of State for the Home Department when he expects his Department's scheme to grant women victims of domestic violence indefinite leave to remain in order to receive support to commence; and how much funding will be allocated to the scheme in its first year of operation. [318927]

Mr. Alan Campbell: Since 1999, victims of domestic violence who entered the UK on a spouse or partner visa have been able to apply for indefinite leave to remain (ILR) in the UK under the domestic violence rule.

Since 30 November 2009, the Home Office has been running a pilot to support victims of domestic violence while their applications for ILR under the domestic violence rule are processed.

The costs of the pilot relate directly to the number of victims, and their children, who apply and are accepted under set criteria, therefore, we will not know the total cost until completion of the pilot.

Drug Seizures

Chris Grayling: To ask the Secretary of State for the Home Department what quantity and street value of class *(a)* A, *(b)* B and *(c)* C drugs was seized (i) in each police force area, (ii) at all major UK entry points and (iii) in England and Wales in each year since 1998. [317607]

Alan Johnson: Information on the quantities of selected class A, B and C drugs are published in supplementary table A5 of the Home Office Statistical Bulletin, "Drug seizures". Copies of this and earlier editions of the bulletin are available in the Library of the House.

The data covers seizures by all police forces as well as seizures in England and Wales at major entry points by the UK Border Agency (the statistics for 2004, 2005 and 2006-07 were provided by Her Majesty's Revenue and Customs. Data on seizure quantities for other drugs are not available as it is not possible to accurately calculate conversion factors (based on drug purities) for less commonly seized drugs.

Data on the street value of drugs are not collected by the Home Office, however information on the street value of drugs has been provided by the Serious Organised Crime agency (SOCA). The information covers UK wide prices.

Fixed Penalty Procedures Working Group

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department pursuant to the answer to Lord Tebbit of 2 February 2010, *Official Report, House of Lords*, column WA16, on cycling, on how many occasions the Fixed Penalty Procedures Working Group has met in the last 12 months; and if he will place in the Library a copy of the *(a)* minutes and *(b)* papers of each meeting held in the last 12 months. [319641]

Mr. Alan Campbell: The Fixed Penalty Procedures Working Group has met once in the last 12 months. The minutes of that meeting will be formally approved at its next meeting on 23 April, and I shall place a copy in the Library at that time.

National Security: Electromagnetic Fields

Mr. Swire: To ask the Secretary of State for the Home Department (1) what recent assessment has been made on the vulnerability of critical infrastructure to an electromagnetic pulse caused *(a)* deliberately and *(b)* through solar activity; [319896]

(2) what recent assessment he has made of the feasibility of strengthening civilian systems against electromagnetic pulse attacks; and what estimate he has made of the cost of undertaking such work. [319948]

Mr. Hanson: The Government's Cyber Security Strategy of the United Kingdom, published alongside and reflected in the National Security Strategy update of June 2009, considers a number of methods of cyber attack, including those that generate high levels of power that can damage or disrupt unprotected electronics. It also outlines the new governance structures and workstreams which are now building on existing work to take forward the Government's plan for reducing the impact on and vulnerability of the UK's interests from cyber attacks.

The Centre for the Protection of National Infrastructure (CPNI) provides advice on electronic or cyber protective security measures to the businesses and organisations that comprise the UK's critical national infrastructure, including public utilities, companies and banks. CPNI also runs a CERT (Computer Emergency Response Team) service which responds to reported attacks on private sector networks. In addition, CESG provides Government departments with advice and guidance on how to protect against, detect and mitigate various types of cyber attack.

It would not be in the interests of national security to provide information about specific vulnerabilities, assessments or protective measures relating to electromagnetic pulse attack.

Police Cautions

Paul Holmes: To ask the Secretary of State for the Home Department how many police cautions were given for *(a)* violent offences, *(b)* sexual offences, *(c)* robbery, *(d)* burglary, *(e)* theft, *(f)* fraud and forgery, *(g)* criminal damage and *(h)* drugs offences in each of the last three years; and what proportion of such cases were first offences. [319701]

Mr. Alan Campbell *[holding answer 2 March 2010]*: The latest Information on the number of persons cautioned, broken down as requested is published in table 3.1 of the Ministry of Justice Statistical Bulletin 'Criminal Statistics, England and Wales 2008'.

Copies are available in the Library of the House, however the table is provided for the Member's convenience.

Additionally, data provided by the Ministry of Justice on the proportion of cautions, reprimands or warnings given to offenders with no previous caution or conviction from 2006 to 2008 are provided in table B.

The figures in table B have been drawn from the police's administrative IT system, the police national computer, which, as with any large scale recording system, is subject to possible errors with data entry and processing. The figures are provisional and subject to change as more information is recorded by the police.

PNC data has been used for this table rather than data collection that forms the source of the published caution statistics, as the PNC provides information on the criminal history of offenders. As a result of the above, the two datasets are not directly comparable.

Drug offences	44	43	42
Other indictable offences	63	59	58

Table B. Proportion of cautions, reprimands or warnings given to offenders with no previous caption or conviction recorded on the Police National Computer, England and Wales, 2006-08

Percentage

	2006	*2007*	*2008*
All indictable	62	60	57
Summary offences	61	58	55
All offences	62	59	56

Police: Sick Leave

Mark Pritchard: To ask the Secretary of State for the Home Department how many police officers are on sickness absence due to *(a)* back-related injuries and *(b)* stress. [320248]

Mr. Hanson: This information is not collected centrally.

Reparation by Offenders

Paul Holmes: To ask the Secretary of State for the Home Department what recent progress has been made on the recruitment of local justice champions in Justice Seen, Justice Done areas. [319575]

Mr. Alan Campbell: There are 60 Neighbourhood Crime and Justice Pioneer Areas. Each has appointed a Neighbourhood Crime and Justice Co-ordinator. Areas also receive funding to appoint a victims champion. The vast majority of appointments have been made with a named contact in place in every area.

Vetting

Mr. Maude: To ask the Secretary of State for the Home Department pursuant to the answer of 1 February 2010, *Official Report*, column 90W, on independent safeguarding authority, what proportion of the population has been subject to a Criminal Records Bureau check. [318318]

Meg Hillier: The Criminal Records Bureau (CRB) cannot determine what proportion of the population has been subject to a CRB check as the Bureau only provides this service to employers based in England and Wales. The following table shows the number of CRB certificates issued in each financial year since its inception in 2002:

Financial year	*Total certificates issued*
2002-03	1,437,994
2003-04	2,284,688
2004-05	2,430,937
2005-06	2,770,265
2006-07	3,277,957
2007-08	3,323,251
2008-09	3,855,881
2009-10	3,215,409

The CRB cannot determine how many applicants these certificates relate to as applicants can apply more than once for a check in any one period. These figures are calculated by financial year and information for 2009-10 contains the figures up to December 2009. The full financial year's figure will not be available until after March 2010.

Violent and Sex Offender Register

Mr. Grieve: To ask the Secretary of State for the Home Department how many applications for removal from the sex offender register of a person convicted of consensual homosexual activity have been *(a)* received and *(b)* approved in each year since 2004. [319991]

Mr. Alan Campbell *[holding answer 2 March 2010]*: This answer can be obtained only at disproportionate cost.

CULTURE, MEDIA AND SPORT

Departmental Advertising

Angus Robertson: To ask the Secretary of State Culture, Media and Sport how much *(a)* his Departm and *(b)* each (i) non-departmental public body and executive agency for which his Department is responsi spent on advertising in each year since 2005. [3197

Mr. Sutcliffe: The available information regardi expenditure on advertising by the Department and agency, the Royal Parks, is set out in the table. In respe of the Department, it shows spend on recruitme advertising: other advertising spend is not separate analysed on the Department's accounting system an can be collated only at disproportionate cost.

The Department does not centrally maintain recor on advertising spend in respect of its non-departmenta bodies. It would incur disproportionate cost to obtai and collate this information.

Financial year	*DCMS spend (£)*	*The Royal Par spend (*
2009-10 to January 2010	18,800	86,41
2008-09	17,940	47,01
2007-08	36,150	34,83
2006-07	38,390	15,63
2005-06	105,450	14,65

Departmental Computers

Mr. Maude: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer to the hon. Member for Welwyn Hatfield of 12 January 2010, *Officia Report*, column 861W, on departmental computers, for what reason websites featuring tobacco content are banned; if he will give examples of the types of tobacco sites which are banned; and whether the internet ban includes the Forest (Freedom Organisation for the Right to Enjoy Smoking Tobacco) website. [318315]

Mr. Sutcliffe: The filtering software used by my Department has a standard range of categories that are blocked by default. Filtering is switched off for those categories that are directly related to the work of my Department, currently tobacco remains blocked. The tobacco category covers tobacco promotional websites such as

www.marlboro.com

The Forest (Freedom Organisation for the Right to Enjoy Smoking Tobacco) website was inadvertently covered by this category by default. It has been unblocked.

Departmental Consultants

Angus Robertson: To ask the Secretary of State for Culture, Media and Sport how much (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which his Department is responsible spent on external consultants and advisers in each year since 2005. [319765]

Mr. Sutcliffe: The expenditure on external consultants and advisers by the Department and its agency, the Royal Parks, is set out in the table.

The Department does not centrally maintain records on consultancy spend in respect of its non-departmental public bodies. To collate this information would incur disproportionate cost.

Financial year	*DCMS spend (£000)*	*The Royal Parks spend (£000)*
2009-10 to January 2010	712	329
2008-09	1,220	111
2007-08	1,163	883
2006-07	886	834
2005-06	1,161	574

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319090]

Mr. Sutcliffe: The Department will support the Earth Hour event on Saturday 27 March 2010 by switching off all office lights for one hour at 8.30 pm.

Departmental Theft

Mr. Watson: To ask the Secretary of State for Culture, Media and Sport how many thefts from his Department have been recorded in the last two years. [319083]

Mr. Sutcliffe: No thefts have been recorded in the last two years at the Department for Culture, Media and Sport.

Gaming Machines

Mr. Stewart Jackson: To ask the Secretary of State for Culture, Media and Sport whether a small firms impact assessment has been prepared in relation to proposals to reclassify skills with prize machines as gaming machines. [319904]

Mr. Sutcliffe: The Government have no current plans to reclassify skill with prizes machines as gaming machines.

The Gambling Act 2005 sets out the tests to be applied when determining whether or not a machine is a gaming machine. A full regulatory impact assessment accompanied the Bill.

Local Government: Statistics

Mr. Stewart Jackson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 3 February 2010, *Official Report*, column 341W, on local government finance, under how many indicators performance data are collected from local authorities in respect of *(a)* free swimming initiatives and *(b)* licensing. [319794]

Mr. Sutcliffe: The Department for Culture, Media and Sport does not collect "indicator" data from local authorities on free swimming or licensing and neither source is used for the national indicators set. Local authorities that have signed up to the free swimming initiative are responsible for submitting quarterly basic throughput data on the number of free swims that have taken place in their area each month.

For alcohol, entertainment and late night refreshment licensing the main purpose of this collection is to collect basic statistics about the operation of licensing. This provides a national picture and helps licensing authorities benchmark their position.

All data collected are published on the DCMS website, where further details can be found, including all the data we ask local authorities to provide for these two collections.

National Lottery: Olympic Games 2012

Mr. MacNeil: To ask the Secretary of State for Culture, Media and Sport how much revenue from the Dream Number Lottery game had been raised for the purposes of the London 2012 Olympics on the latest date for which figures are available. [318934]

Mr. Sutcliffe: As at 31 December 2009, designated Olympic Lottery games (including Dream Number) have raised more than £450 million towards the cost of staging the London 2012 Olympic Games and Paralympic games.

Returns to good causes from the sale of all National Lottery products are calculated in accordance with a formula set out in the National Lottery Licence. Proceeds to the Olympic Lottery Distribution Fund (OLDF) are based on the proportion of total sales attributable to all designated Olympic Lottery games. These include the Dream Number draw, certain Scratchcards and online instant win games. Proceeds to the OLDF are not available on a game-by-game basis.

We remain on course to meet the £750 million target towards the cost of staging the London 2012 Olympic and Paralympic games from dedicated National Lottery games.

Olympic Games: Canada

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many *(a)* Ministers and *(b)* officials of his Department attended the 2010 Winter Olympics in Vancouver. [318780]

Mr. Sutcliffe *[holding answer 25 February 2010]*: In my capacity as Minister for Sport I attended the 2010 Winter Olympics in Vancouver and was accompanied by my Private Secretary. The Minister for the Olympics also attended the games with her Private Secretary, a press officer and a special adviser.

In addition, four members of the Government Olympic Executive also attended the games and it is planned that a further four officials will attend the Paralympics. They are participating in the observer programmes which run throughout the Winter Olympic and Paralympic Games.

Attendance at the Games provided an invaluable opportunity to study at first-hand Vancouver's experience in staging an Olympic Games and to learn lessons for London 2012.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on travel for *(a)* officials and *(b)* Ministers to the Vancouver 2010 Winter Olympics. [318968]

Mr. Sutcliffe *[holding answer 1 March 2010]*: Details of ministerial travel costing over £500 are published annually and include the cost, destination and purpose of the trip. It also provides information on the number of officials who accompany Ministers.

The most recent list was published in July 2009 and the details of attendance at the Vancouver 2010 Winter Olympic Games will be included in the 2010 return.

Olympic Lottery

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport how much was raised for the London 2012 Olympics by *(a)* national lottery games dedicated to the London 2012 Olympics and *(b)* the Dream Number lottery game in 2007-08. [319574]

Mr. Sutcliffe: National Lottery Games dedicated to raising money for the London 2012 Olympics provided a total of £147 million for the financial year 2007-08.

Returns to good causes from the sale of all National Lottery products are calculated in accordance with a formula set out in the National Lottery Licence. Proceeds to the Olympic Lottery Distribution Fund (OLDF) are based on the proportion of total sales attributable to all designated Olympic Lottery games. These include the Dream Number draw, certain Scratchcards and online instant win games. Proceeds to the OLDF are not available on a game-by-game basis.

We remain on course to meet the £750 million target towards the cost of staging the London 2012 Olympic and Paralympic games from dedicated National Lottery games.

Public Houses: Closures

Mr. Stewart Jackson: To ask the Secretary of State for Culture, Media and Sport what recent steps his Department has taken to assist public houses facing closure. [319608]

Mr. Sutcliffe: The Department for Culture, Media and Sport (DCMS) continues to be the lead voice in Whitehall on the importance to the economy of the whole hospitality industry, including public houses, and for licensing policy. In particular, the Licensing Act 2003 and subsequent simplifications of its processes have produced savings in administrative burdens of about £99 million annually since the Act came into force in November 2005.

The Prime Minister has recently appointed my right hon. Friend, the Minister for Housing and Planning to head a task force of five Ministers to champion public houses in their role as the hubs of their communities. The Department for Communities and Local Government is co-ordinating relevant work with the DCMS, The Department for Business, Innovation and Skills, HM Treasury and the Cabinet Office.

Sports: Health Services

Andrew Mackinlay: To ask the Secretary of State for Culture, Media and Sport whether responsibility for providing free emergency health cover and hospital accommodation and treatment for *(a)* participants and *(b)* spectators at major international sporting events resides with the host country; if he will clarify the position in relation to (i) participants and visitors to the UK attending the London 2012 Olympic Gam
and (ii) UK residents who attend, as participants an
as visitors, the Isle of Man TT Races; and if he wi
make a statement. [31845

Mr. Sutcliffe: UK Sport has advised that for th
majority of events supported by UK Sport through it
World Class Events programme, athletes are require
by their international federations to have their ow
insurance to allow them to compete. Internationa
federations will usually incorporate medical cove
requirements in the event contract agreements wit
which host organisers must comply.

The event organisers are liable for public liabilit
insurance cover in case of any accident/injury as a resul
of the event set up, as opposed to simply injury/accident
as a result of participants competing.

Visitors to events are always covered in terms o
emergency first aid as a matter of best practice. This would be free of charge, but organisers of events would not be liable to cover any required hospital treatment.

With regards to participants and visitors to the UK for the Olympic Games in 2012, it was a requirement of the bid that NHS treatment for the Games Family (including participants, IOC and IPC members, technical officials etc.) would be free. The Department of Health is working to fulfil the bid commitment.

For participants, the larger Olympic and Paralympic teams will bring their own specialist medical teams and will provide any medical care required. The vast majority of medical services will be delivered by the London Organising Committee of the Olympic and Paralympic Games—LOCOG—in the polyclinic in the Olympic Park and in on-site facilities in other Games' venues. LOCOG is working directly with Hospital Trusts to specify the services and facilities needed in the rare event that a participant is admitted to hospital.

For spectators, business as usual arrangements will apply in line with current legislation—treatment given in an NHS accident and emergency department is free to all persons, but treatment after admission as an in-patient will incur a charge unless the person is entitled to it for free.

Finally, with regards to the TT races on the Isle of Man, the reciprocal healthcare agreement between the UK and the Isle of Man is still in effect, but terminates on 31 March 2010. Therefore all competitors must be insured against the risk of personal accident in accordance with the FIM Sporting Code.

The Isle of Man Health Service is not part of the UK NHS and, except for immediately necessary and emergency treatment which does not require admission to hospital, visitors to the Isle of Man (including UK residents) who require treatment will be expected to pay for it.

It is therefore strongly recommended that all visitors to the Isle of Man ensure that they have appropriate insurance in place which will cover any treatment costs and repatriation to the UK by air ambulance if that should prove necessary.

Swimming: Concessions

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on the free swimming initiative in each quarter of 2009 for which figures are available. [318911]

Mr. Sutcliffe *[holding answer 26 February 2010]:* The funding structure of the programme, with grants going to local authorities covering each financial year, means that quarterly spend figures for the Department are not available.

The Free Swimming Programme (FSP) is a £140 million package comprising contributions from the Department for Culture, Media and Sport, the Department of Health, the Department for Children, Schools and Families, the Department for Work and Pensions and the Department for Communities and Local Government. This is broken down into £10 million (capital funding) in 2008-09 and £65 million (a mixture of capital and resource) in each year for 2009-10 and 2010-11.

CHILDREN, SCHOOLS AND FAMILIES

Departmental Internet

Mr. Heald: To ask the Secretary of State for Children, Schools and Families how many designs for its website his Department and its predecessors have commissioned since 2005. [318657]

Ms Diana R. Johnson: The Department's main website homepage:

www.dcsf.gov.uk

and standard web page template have undergone four redesigns since 2005, as a result of changes to the Department's name and brand.

Departmental Official Hospitality

Angus Robertson: To ask the Secretary of State for Children, Schools and Families what expenditure his Department incurred on hospitality extended by Ministers in the financial year *(a)* 2004-05, *(b)* 2005-06, *(c)* 2006-07 and *(d)* 2007-08 in current prices. [318829]

Ms Diana R. Johnson: I refer the hon. Member to the answer given on 15 December 2008, *Official Report*, column 494W.

Angus Robertson: To ask the Secretary of State for Children, Schools and Families how many receptions he has hosted for representatives of print and broadcast media since October 2008; how much each reception cost; and how many people attended each. [318830]

Mr. MacNeil: To ask the Secretary of State for Children, Schools and Families how many receptions he has hosted for representatives of print and broadcast media since 2008; how much each reception cost; and how many people attended each. [319350]

Ms Diana R. Johnson: I refer the hon. Members to the written ministerial statements made by my right hon. Friend Secretary of State for Children, Schools and Families on 22 July 2008, *Official Report*, column 84WS, and 13 October 2009, *Official Report*, column 15WS.

Information for the current financial year will be published later in the year.

Mr. MacNeil: To ask the Secretary of State for Children, Schools and Families how much his Department spent on ministerial hospitality in *(a)* 2004-05, *(b)* 2005-06, *(c)* 2006-07 and *(d)* 2007-08, expressed in current prices. [319349]

Ms Diana R. Johnson: I refer the hon. Member to the answer given on 15 December 2008, *Official Report*, column 494W.

Mr. MacNeil: To ask the Secretary of State for Children, Schools and Families how many receptions he plans to host in 2010 for representatives of print and broadcast media. [319351]

Ms Diana R. Johnson: There are no such receptions planned at this time.

Departmental Public Expenditure

Mr. Peter Robinson: To ask the Secretary of State for Children, Schools and Families what percentage of his Department's annual budget is allocated to preventative and early intervention measures. [318841]

Ms Diana R. Johnson *[holding answer 26 February 2010]:* Preventative and early intervention measures are an integral part of many of the Department's programmes and policies. However, these aspects of the Department's business are not always identified as specific allocated budgets within the remit of larger programmes and policy initiatives. It would not be possible to accurately identify the annual amount of spend on preventative and early intervention measures without incurring disproportionate cost.

Departmental Public Relations

Stewart Hosie: To ask the Secretary of State for Children, Schools and Families (1) with which public relations companies *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* other bodies sponsored by his Department have had contracts in each year since 2004; [317067]

(2) how much was spent on external consultants and advisers by *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in 2009. [316837]

Ms Diana R. Johnson: Public relations agencies are employed for specific communications tasks, most commonly working alongside our press office to provide campaign support in local, regional and specialist media. The Department's expenditure on public relations for complete financial years, since its formation in June 2007, is outlined in the following table.

	Total spend (£)
2007-08	2,333,000
2008-09	4,023,403

The other requested information cannot be obtained without incurring disproportionate cost.

Departmental Theft

Mr. Watson: To ask the Secretary of State for Children, Schools and Families how many thefts from his Department have been recorded in the last two years. [318985]

Ms Diana R. Johnson: The number of items reported stolen from the Department for Children, Schools and Families in the last two years is given in the following table.

Item stolen	*2008/09*	*2009/10*
Laptops	4	4
BlackBerry/mobile	5	5
Projector	1	
Spider phone	1	
Staff passes	17	18
Total	28	27

Education: International Cooperation

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) what the average duration is of a Teachers' International Professional Development Programme visit; [318230]

(2) how many teachers and teaching assistants participated in Teachers' International Professional Development Programme visits to each county in each year since 2000. [318233]

Mr. Coaker: Study visits taking place under the Teachers International Professional Development (TIPD) programme take place during half-term and other holiday periods. The majority of study visits last for five days, but for long-haul destinations the study visit may be extended to a maximum of 10 days.

There are three strands to the TIPD programme: local authority led study visits on a theme decided by the relevant local authority; school determined visits to examine a theme of study decided by the schools engaged; and a programme of study visits to developing countries jointly funded by the Department for Children, Schools and Families and the Department for International Development. The number of teachers taking part in study visits by country under each of these three strands is contained in tables, copies of which have been placed in the Libraries.

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) if he will place in the Library a copy of each *(a)* audit and *(b)* evaluation of the Teachers' International Professional Development programme undertaken or commissioned by his Department to date; [318231]

(2) what assessment he has made of the effectiveness in promoting best practice in schools in England of the Teachers' International Professional Development programme. [318232]

Mr. Coaker: The Department commissioned the National Foundation for Educational Research (NFER) to conduct reviews of the Teachers International Professional Development (TIPD) programme, and evaluation reports were issued in 2002, 2003 and 2005. A further internal review of the TIPD programme reported in December 2006. Copies of these reports have been placed in the Library.

In 2009, the Department and the Department for International Development (DFID) commissioned a review of a range of international programmes funded by the two Departments. The review concluded that whilst the TIPD programme provided valuable professional development opportunities, efficiencies and improved outcomes could be achieved through streamlining the design and delivery of programmes. A formal public consultation on recommendations flowing from this review is planned for the near future.

Home Education

Mr. David Anderson: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effectiveness of school attendance orders in supporting families with home-educated children. [318521]

Mr. Coaker: It is the parents' duty to ensure that their child receives a suitable full-time education at school or otherwise (including home elective education).

If a local authority has concerns that a child is not receiving a suitable, full-time education it has the power to take steps under the school attendance order framework, including serving a school attendance order on the child's parents instructing them to register their child at a named school. Failure to comply with an order is an offence. Local authorities have the responsibility for prosecuting parents if they breach a school attendance order and also have the option of seeking an education supervision order. We believe that this achieves a balance between the rights of parents to educate their children outside the school system, many of whom do a good job, and the rights of the child to a full-time education suitable to their needs and abilities.

Primary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 29 October 2009, *Official Report*, column 596W, on primary education, how many schools in each *(a)* region and *(b)* local authority area there were in each category in each year. [318587]

Ms Diana R. Johnson *[holding answer 25 February 2010]*: The information requested is shown in the following table.

Number of maintained primary schools with over 800 pupils[1] 1997 and 2009 England

	Number of schools

School Census

Pupils: Bullying

David Simpson: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 10 February 2010, *Official Report*, column 1093W, on pupils: bullying, what steps his Department has taken to tackle bullying in schools in the last 12 months. [318384]

Mr. Coaker: Over the last 12 months, we have continued to roll out a comprehensive programme of work to prevent and tackle bullying. This includes working through the Anti-Bullying Alliance and the National Strategies to help schools deal with bullying effectively and providing challenge and support, where necessary, to improve anti-bullying strategies.

It also includes funding for peer mentoring of pupils and a helpline for parents. We have strengthened further our anti-bullying guidance. In April 2009 we published new guidance on preventing and tackling the cyberbullying of school staff. In September we produced a DVD resource pack for schools on bullying related to special educational needs or disabilities. In December 2009 we issued new guidance for schools on preventing and responding to sexist, sexual and transphobic bullying. In February this year we produced, in collaboration with Stonewall, a DVD resource pack on tackling homophobic bullying.

In November 2009 the Anti-Bullying Alliance delivered our annual anti-bullying week for which the theme was cyberbullying. During that week we launched a short web-based leaflet for parents on bullying from a young person's perspective and re-ran our cyberbullying campaign, 'laugh at it and you're part of it'. In December, 2009 we published a consultation document on the new duty on schools (due to come into force this September) to record and report all serious and persistent incidents of bullying.

Schools: Anti-Semitism

Mr. Amess: To ask the Secretary of State for Children, Schools and Families what steps his Department (*a*) has taken recently and (*b*) plans to take to reduce levels of anti-Semitism in schools; what recent discussions Ministers and officials in his Department have had on this issue; what recent representations he has received on this issue; and if he will make a statement. [318693]

Mr. Coaker: I refer the hon. Member to the reply given to him on 9 July 2009, *Official Report*, columns 1001-1002W. Further to that, the Department is currently consulting on a new statutory duty on schools to record and report to the local authority all incidents of bullying between pupils including racist bullying. The consultation will end on 4 March 2010 and plans are for the new duty to come into effect in September 2010. We have also provided additional funding to the School Linking Network to promote inter-faith linking by supporting faith schools, from both the independent and maintained sectors, to work in partnership to provide opportunities for their pupils to mix and interact, in order to promote community cohesion. My officials regularly attend the Anti-Semitism Working Group along with officials from other Government Departments and stakeholders from across the Jewish communities to monitor progress and discuss issues in relation to tackling anti-Semitism.

Schools: Flooding

Sarah Teather: To ask the Secretary of State for Children, Schools and Families for how many days schools in each region were closed owing to flooding in each of the last five years. [318660]

Ms Diana R. Johnson: Schools and local authorities are under no duty to report closures to my Department, so the Department does not maintain any regular records of closures. We do have information on the floods in mid 2007, and that information is shown in the following table. The figures include closures due to storm damage as well as flooding. Most schools closed for one to two days only, but we do not have a record of how many days each school was closed.

The only significant flood disruption to schools in 2009 was in Cumbria in November, when we understand that most schools closed for at least one day, but we have no record of the number of schools.

School closures due to mid 2007 severe weather reported to DCSF

	Number of schools
Yorkshire and Humber	386
South East	126
East Midlands	75
West Midlands	35
South West	6

School closures due to mid 2007 severe weather reported to DCSF

	Number of schools
London	2

Note:

The figures represent school closures reported in June and July 2007, and some delayed openings in September 2007. As information is only held at local authority level, without school names, there may be a small amount of duplication, but involving fewer than 10 schools.

Schools: Police

Michael Gove: To ask the Secretary of State for Children, Schools and Families on how many occasions police were called to schools in *(a)* 1997, *(b)* 2005 and *(c)* the latest year for which figures are available; and for what reason in each such case. [317821]

Ms Diana R. Johnson: Data on the number of occasions police are called to schools are not collected at a national level.

Schools: Transport

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much and what proportion of the Walking to School initiative's budget was spent in the latest year for which figures are available. [316168]

Ms Diana R. Johnson: The last year for which figures are available is 2009-10 during which we have spent £19.95 million, which represents 95.4 per cent. of the available budget. Of this, £14.11 million was allocated as grants to schools and they have three years in which to spend the funding. The remaining £5.84 million expenditure represents salary costs for approximately 250 school travel advisers and seven regional school travel advisers.

Specialist Schools

Mr. Drew: To ask the Secretary of State for Children, Schools and Families by what mechanisms a school may apply for specialist school status in relation to catering and hospitality education. [319343]

Mr. Coaker: Schools can specialise in a range of curriculum based subjects but it is not possible for a school to specialise in catering and hospitality within the specialist schools programme. Academies have access to a greater range of specialisms which must be rigorous and linked to an academic subject. It would therefore be possible for an Academy to offer a specialism in catering and hospitality if this was linked to an academic subject.

Sports: Primary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils *(a)* overall, *(b)* in years 10 and 11, *(c)* at primary school received the recommended number of hours of sport each week in the latest period for which figures are available. [315691]

Ms Diana R. Johnson: The 2008/09 PE and Sport survey showed that 50 per cent. of school pupils were taking part in at least three hours of high quality PE and sport per week as part of the five hour offer for children and young people. For Years 10 and 11 the figures were 42 per cent. and 37 per cent. respectively. For primary pupils the figure was 57 per cent. We are working with the Youth Sport Trust and Sport England, and through them with School Sport Partnerships and County Sport Partnerships, to ensure that plans are in place to deliver a five hour offer which is taken up by every young person who wants it. At present we judge this to be the case in 92 per cent. of SSPs. As part of this we believe every young person should have access to regular competitive sport; coaching to improve their skills and enjoyment; a choice of different sports; pathways to club and elite sport; and opportunities to lead and volunteer in sport. We are also developing new ways of communicating the offer so that more young people take it up.

Truancy: Prosecutions

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many cases associated with parents not ensuring their child attended school have been heard in court since 1997. [318229]

Mr. Coaker: Information from the Ministry of Justice court proceedings database on the number of defendants proceeded against at magistrates courts for offences relating to failing to attend school in England, 2001 to 2008 can be viewed in the attached table. Prior to 2001 these offences cannot be separately identified.

These data are a further breakdown of those published in the Criminal Statistics, Supplementary Volumes for England and Wales for the years 2001-08.

The number of defendants proceeded against at magistrates' courts at all courts for offences relating to 'failing to attend school'[1] [2]

	2001	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Proceeded against	1,961	3,163	3,849	4,442	4,648	5,999	7,745	9,506

[1] Includes the following:

(i) Failure to secure regular attendance at school. (Education Act 1996 S.444 (1)(8)).

(ii) Parent knows that their child is failing to attend school regularly and fails without reasonable justification to cause him or her to attend school. (Education Act 1996 S.444(8)(1a)(8a) added by Criminal Justice and Court Services Act 2000 S.72).

[2] Prior to 2001 these offences cannot be separately identified.

Notes:

1. The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:

Justice Statistics Analytical Services - Ministry of Justice.

The increase in the number of cases over this period reflects a sustained drive, led by the Government, to improve levels of school attendance including by encouraging local authorities to make more use of their powers to proceed against parents who are failing in their legal responsibility to ensure their children receive a full time education. The outcome has been a significant improvement in school attendance, with on average 71,800 more children attending school each day in 2007-08 than did in 2000-01.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many prosecutions for offences related to parents not ensuring their child attended school have resulted in conviction since 1997; and what the average fine imposed in respect of such convictions has been. [[illegible]18241]

Mr. Coaker: Information from the Ministry of Justice court proceedings database on the number of defendants proceeded against at magistrates courts and found guilty at all courts for offences relating to failing to attend school in England, 2001 to 2008 can be viewed in the following table. Prior to 2001 these offences cannot be separately identified.

These data are a further breakdown of those published in the Criminal Statistics, Supplementary Volumes for England and Wales for the years 2001 to 2008.

The number of defendants proceeded against at magistrates courts and found guilty at all courts and average fine imposed for offences relating to 'failing to attend school'[1] [2]

	2001	2002	2003	2004	2005	2006	2007	2008
Proceeded against	1,961	3,163	3,849	4,442	4,648	5,999	7,745	9,506
Found guilty	1,595	2,572	3,065	3,549	3,740	4,720	6,035	7,291

The number of defendants proceeded against at magistrates courts and found guilty at all courts and average fine imposed for offences relating to 'failing to attend school'[1] [2]

	2001	2002	2003	2004	2005	2006	2007	2008
Average fine imposed (£)	98.7	108.3	111.0	112.4	119.2	123.5	127.3	144.3

[1] Includes the following:

(i) Failure to secure regular attendance at school. (Education Act 1996 S.444 (1)(8)).

(ii) Parent knows that their child is failing to attend school regularly and fails without reasonable justification to cause him or her to attend school. (Education Act 1996 S.444(8)(1a)(8a) added by Criminal Justice and Court Services Act 2000 S.72).

[2] Prior to 2001 these offences cannot be separately identified.

Notes:

1. The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Justice Statistics Analytical Services—Ministry of Justice

(Ref. IOS 85-10)

The increase in the number of cases over this period reflects a sustained drive, led by the Government, to improve levels of school attendance including by encouraging local authorities to make more use of their powers to proceed against parents who are failing in their legal responsibility to ensure their children receive a full-time education. The outcome has been a significant improvement in school attendance, with on average 71,800 more children attending school each day in 2007/08 than did in 2000/01.

Written Answers to Questions

Thursday 4 March 2010

WALES

Departmental Correspondence

Mr. MacNeil: To ask the Secretary of State for Wales whether he has made an estimate of the number of *(a)* emails and *(b)* letters from members of the public to which his Department has responded since May 2007. [318933]

Mr. Hain: This information could be provided only at disproportionate cost.

Departmental Energy

Dan Rogerson: To ask the Secretary of State for Wales what steps his Department plans to take to participate in the Earth Hour event on 27 March 2010. [319103]

Mr. Hain: The Wales Office obtains its corporate and estates services from the Ministry of Justice and falls within its sustainability targets and strategic programmes.

However, the Wales Office is very much entering into the spirit of the Earth Hour event (and the other Government estate sustainability targets) and doing what we ourselves can to reduce our carbon emissions.

Departmental ICT

Mr. Philip Hammond: To ask the Secretary of State for Wales what information technology projects initiated by his Department were cancelled prior to completion in the last 12 months; and what the cost of each such project was to the public purse. [320436]

Mr. David: The Wales Office is provided with its information technology services by the Ministry of Justice, and consequently does not initiate projects.

Departmental Internet

Mr. Heald: To ask the Secretary of State for Wales how many designs for its website his Department has commissioned since 2005. [318640]

Mr. David: The Wales Office commissioned one redesign of its website as part of general improvements and modernisation of the website in 2007.

Departmental Paper

Martin Horwood: To ask the Secretary of State for Wales what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320024]

Mr. Hain: The Wales Office procures the majority of its paper from Banner, under a contract secured through the Ministry of Justice, and this paper is 80g/m2. The paper used in our publications has been at least 75 per cent. recycled.

The Ministry of Justice is working with Banner to procure a paper that is 100 per cent. recycled, which the Wales Office will use.

Media and Communications Team: Manpower

Angus Robertson: To ask the Secretary of State for Wales how many staff are employed in his Department's media and communications team; and how many were employed in 2009. [319584]

Mr. Hain: The Wales Office's Press Office consists of three full-time members of staff.

PRIME MINISTER

Building Resilience

Mr. Jenkin: To ask the Prime Minister if he will place in the Library a copy of the paper prepared for the Government in 2001 by Dr. Jamie MacIntosh and Mike Granatt CB, entitled, Building Resilience. [319930]

The Prime Minister: The findings informed the Government's response to Sir Iain Anderson's review into the lessons of the 2001 foot and mouth outbreak which was published and placed in the Libraries of the House.

CULTURE, MEDIA AND SPORT

Departmental Languages

Mr. Philip Hammond: To ask the Secretary of State for Culture, Media and Sport how many *(a)* Ministers and *(b)* civil servants in his Department received coaching in a foreign language in the last 12 months; what expenditure his Department incurred in providing such coaching; and in what languages such coaching was provided. [320414]

Mr. Sutcliffe: The Department for Culture, Media and Sport has not provided coaching in foreign languages to Ministers or civil servants in the Department within the last 12 months.

Departmental Paper

Martin Horwood: To ask the Secretary of State for Culture, Media and Sport what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320032]

Mr. Sutcliffe: The Department buys its paper through an outsourced stationery supplier, Office Depot, and its paper products through its Facilities Management provider Carillion. For paper the Department uses Evolve, which is 100 per cent. recycled; and for paper products it uses Kimberley-Clark and SCA Hygiene products.

The Department's procurement policy requires it to use products that are sustainable and which meet current public sector requirements, as specified by the Office of Government Commerce.

Departmental Public Relations

Angus Robertson: To ask the Secretary of State for Culture, Media and Sport which public relations companies have had contracts with *(a)* his Department and *(b)* each of its (i) non-departmental public bodies and (ii) executive agencies since 2004. [319809]

Mr. Sutcliffe: The Department for Culture Media and Sport has had contracts with Harrison Cowley and Edelman public relations companies since 2004. Our executive agency, The Royal Parks, has had contracts with six companies: Bellenden, Brunswick, Cavendish, Chelgate, Colman Getty and London Communities Agency (LCA).

The Department does not centrally maintain records on public relations companies in respect of its non-departmental bodies. It would incur disproportionate cost to obtain and collate this information.

Digital Broadcasting: Northern Ireland

Christopher Fraser: To ask the Secretary of State for Culture, Media and Sport whether he has had discussions with the Government of the Republic of Ireland on plans for the digitisation of radio. [319475]

Mr. Bradshaw: No discussions have taken place with the Government of the Republic of Ireland regarding switchover to digital radio.

National Lottery: Sports

Mr. Galloway: To ask the Secretary of State for Culture, Media and Sport what proportion of athletes supported through lottery funding distributed by UK Sport attended fee-paying schools. [320009]

Mr. Sutcliffe: UK Sport has advised that as part of their 2009 Athlete Insights survey, all athletes on their World Class Programme were asked for details of their school careers. Of the 75 per cent. that responded to the survey, 22 per cent. stated that they were either at, or had attended an independent school at some point during their education.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Politics and Government

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the extent of corruption in the Afghan Government; and what steps his Department is taking to seek to reduce levels of such corruption. [318929]

Mr. Ivan Lewis: Corruption is endemic throughout society and state. Pervasive corruption within the Government and the security forces undermines the legitimacy of the Government and corrodes consent. Nearly one-fifth of the Afghan population believe corruption is the country's biggest problem and Afghanistan ranks second to last on Transparency International's Corruption Perception Index. President Karzai made a commitment to tackling corruption in his inauguration speech and again at the London Conference. We expect him to demonstrate this commitment by creating independent institutions that can prevent, detect and take action against corrupt practices in government.

The UK is a key partner for the Government of Afghanistan on tackling corruption across a range of areas, including on accountability bodies, support to law enforcement and public financial management. We are one of the biggest donors to the Afghan Government's anti-corruption oversight body, High Office of Oversight. We will continue to offer experts from across the Government to support the Afghan Government to tackle corruption.

Broadcasting: Iran

Lembit Öpik: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the extent to which the outputs of *(a)* BBC Persian TV and *(b)* other international broadcasters are jammed by the Iranian Government; what assessment he has made of the compatibility of such actions with international agreements; what steps he has taken to bring such jamming to an end; and if he will make a statement. [320170]

Mr. Ivan Lewis: We are aware that BBC Persian TV and other international broadcasters have been severely disrupted by jamming signals originating from inside Iran. We support the European Parliament's resolution of 10 February which condemned the Iranian authorities' efforts to disrupt media services in breach of their International Telecommunications Union (ITU) obligations. We are continuing to liaise closely with international partners, the ITU and the BBC World Service to seek a resolution to the issue.

Cyprus

Patrick Hall: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the policy of the Turkish Government on the migration of Turkish nationals from Anatolia to Northern Cyprus; and if he will make a statement. [319947]

Chris Bryant: We are aware of reports of the migration of Turkish nationals from Anatolia to northern Cyprus. We have no information about a Turkish Government migration policy to Northern Cyprus.

Departmental Assets

Mr. Francois: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, column 53WS, on Foreign and Commonwealth Office finances, which assets he plans to sell in order to raise the £25 million. [318473]

Chris Bryant: I refer the hon. Member to the answer I gave to the hon. Member for Aylesbury (Mr. Lidington) on 22 February 2010, *Official Report*, column 213W.

Departmental Lost Property

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs what equipment owned by his Department has been *(a)* stolen and *(b)* otherwise unaccounted for in (i) Iraq and (ii) Afghanistan in each of the last three years; and what the cost of such equipment was. [317970]

Mr. Ivan Lewis: The information is as follows:

Iraq

The following equipment owned by Foreign and Commonwealth Office (FCO) has been stolen, or is otherwise unaccounted for, during the last three years from our posts in Iraq:

Basra

No equipment has been stolen or is otherwise unaccounted for over the last three years.

Erbil

No equipment has been stolen or is otherwise unaccounted for over the last three years.

Baghdad

In 2007 a shipping container was stolen from a transport contractor while en route from Basra to Baghdad. It contained furnishings and vehicle spares. The cost of the furnishings was £20,000. The cost of the vehicle spares was £10,000. A pickup truck was stolen from the embassy compound by a former locally employed member of staff. The cost of the vehicle was $15,000.

In 2008 no equipment was reported missing or was otherwise unaccounted for.

In 2009 a pistol worth about £900 was removed from a security contractor's accommodation compound in the International Zone in Baghdad. The contractor's compound was not part of the embassy compound. Security in Baghdad is of paramount concern and we took this matter very seriously. A thorough investigation into the loss was carried out by a Board of Inquiry. As a result procedures were strengthened to ensure that such a loss could not occur again and two individuals faced disciplinary action.

Afghanistan

The following equipment owned by FCO has been stolen, or is otherwise unaccounted for, during the last three years from our posts in Afghanistan:

Lashkar Gah

No equipment has been recorded as stolen or was otherwise unaccounted for over the last three years.

Kabul

In 2007 and 2008, no equipment has been recorded as stolen or was otherwise unaccounted for. However, in 2009 eight sets of body armour totalling £7,600 loaned to visitors were not returned. Steps are being taken to recover them.

Departmental Manpower

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of his Department's civil servants work in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland. [319582]

Chris Bryant: As at 1 February 2010, the Foreign and Commonwealth Office employed 3,588 civil servants based in UK locations. All of these officers are based in England.

Departmental Public Expenditure

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 23 February 2010, *Official Report*, columns 34-5WS, on departmental expenditure limits, for what legal services resources were requested. [319676]

David Miliband: Government departments make a contribution to the costs of the Office of the Parliamentary Counsel (OPC) according to a formula which was introduced in 2004 following a Cabinet decision. Under the formula, departments contribute to the cost of the OPC in proportion to their share of the total volume of enacted legislation in the last five years. The £11,000 is the Foreign and Commonwealth Office's share of £8.8 million held on the Cabinet Office's baseline for OPC. The Cabinet Office also invoices departments for their share of the OPC's costs.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 23 February 2010, *Official Report*, columns 34-5WS, on departmental expenditure limits, to what activities the administration costs for modernisation of his Department relate; and under what budget headings those costs were incurred. [319677]

David Miliband: This year, Treasury has made available administration budget funds to the Foreign and Commonwealth Office (FCO) Corporate Services programme from the modernisation fund in order to make working practices more efficient in future. In particular, money has been invested in two restructuring initiatives: in the UK, an early retirement scheme was run for the delegated grades; and overseas, posts have bid for funds to make efficiency gains in their local workforce engaged in corporate services activity. Funds were also used for the FCO Comprehensive Spending Review Value for Money programme. £400,000 was also passed on to UKTI to be spent on their modernisation programme.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 23 February 2010, *Official Report*, columns 34-5WS, on departmental expenditure limits, to what programmes the restructuring costs referred to relate; and under what budget headings those costs were incurred. [319678]

David Miliband: This year, Treasury has made available administration budget funds to the Foreign and Commonwealth Office (FCO) in respect of our Comprehensive Spending Review Value for Money programme. Money has been invested in early departure schemes for both the Senior Civil Service and delegated grades.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, column 54WS, on Foreign and Commonwealth Office finances, what cost savings he plans to implement in relation to his Department's back-office operations; and whether he expects staff redundancies to form part of the cost savings process. [319679]

David Miliband: Details of the next stages of the Foreign and Commonwealth Office programme of streamlining referred to in the statement have yet to be finalised.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, column 54WS, on Foreign and Commonwealth Office finances, how much he plans to require the *(a)* British Council, *(b)* BBC World Service and *(c)* FCO Services Trading Fund to contribute to his Department's budget. [319680]

David Miliband: I refer the right hon. Member to my answer to the hon. Member for Aylesbury (Mr. Lidington) of 22 February 2010, *Official Report*, column 214W, namely that the British Council will make available £5 million to the Foreign and Commonwealth Office (FCO), and that the BBC World Service will make £7.7 million available to the FCO, including an underspend of £4 million in 2009-10. These contributions will not result in permanent reductions in their baseline, but are for 2010-11 only. FCO Services Trading Fund will make a special dividend payment to the FCO of £3 million in financial year 2010-11.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, column 54WS, on Foreign and Commonwealth Office finances, what annual limit will apply to the funds available to his Department under the foreign exchange adjustment account; and if he will make a statement. [319681]

David Miliband: For the financial year 2010-11, £20 million will be available as the Foreign and Commonwealth Office foreign exchange adjustment account. No arrangements have been made for departmental budgets for financial years beyond this, as such arrangements will depend on the outcome of a future comprehensive spending review.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, column 54WS, on Foreign and Commonwealth Office finances, how the operation of the new foreign exchange adjustment account differs from previous arrangements to manage his Department's exposure to exchange rate movements; and if he will make a statement. [319682]

David Miliband: The foreign exchange adjustment account will be a departmental unallocated provision which the Foreign and Commonwealth Office (FCO) will draw on as necessary to manage the impact of foreign exchange fluctuations. It is not a return to the Overseas Price Movements Mechanism under which the FCO budget was adjusted from the Treasury Reserve to reflect foreign exchange rate movements.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, column 54WS, on Foreign and Commonwealth Office finances, what assets will be sold to make funding available for his Department's budget. [319683]

David Miliband: I refer the right hon. Member to my answer to the hon. Member for Aylesbury (Mr. Lidington) of 22 February 2010, *Official Report*, column 213W, namely that the Foreign and Commonwealth Office publishes details of disposals quarterly in a letter to the Foreign Affairs Committee. For commercial reasons and in order to realise maximum value from disposals, we do not publish details of planned disposals in advance.

Departmental Wines

Mr. Philip Hammond: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on its wine cellar in each of the last five years. [320344]

Chris Bryant: The Government Hospitality wine cellar provides for all Government Departments. For the period 2004-08, I refer the hon. Member to the reply given by my hon. Friend the Member for Lincoln (Gillian Merron) to the hon. Member for Welwyn Hatfield (Grant Shapps) on 20 April 2009, *Official Report*, column 510W.

The figure for 2008-09 was £121,939.

Diplomatic Service: Manpower

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what consultation took place with each of the Civil Service unions on proposals to replace management officers in overseas missions with locally-engaged staff; on what dates such consultation took place; and if he will place in the Library a copy of the report on the outcome of such consultation. [318449]

Chris Bryant: The trade union side (TUS), including representatives from those trade unions officially recognised by the Foreign and Commonwealth Office (FCO), were consulted several times informally between 8 June 2009 and 29 January 2010. That informal consultation continues.

The TUS side were consulted formally at Whitley Council meetings on 17 July and 18 August. The TUS also put their views about the localisation programme to the FCO Whitley Council Joint General Purposes Committee on 24 September 2009.

Egypt: Christianity

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations his Department has made to the Government of Egypt on the treatment of Coptic Christians in that country. [319652]

Mr. Ivan Lewis: The Government condemn all instances of discrimination and persecution of individuals and groups because of their religion or belief. At Egypt's Universal Periodic Review in February 2010 we encouraged further efforts by the Egyptian government and others in authority to reduce and prevent discrimination on the grounds of an individual's religion or belief. We have also raised the shooting dead of seven people outside a church in Naga Hammadi with the Egyptian Government at ministerial level and received assurances of Egypt's commitment to protecting its Christian population. We welcome the Egyptian Government's pursuit and arrest of the perpetrators of the crime.

The protection of human rights, including freedom of religion, is a central component of Egypt's ongoing dialogue with the EU.

G20: Public Relations

Mr. Hurd: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the answer of 16 September 2009, *Official Report*, column 2232W, on G20: public relations, what the cost to the public purse was of the external contracted staff; and from which companies they were contracted. [315498]

Chris Bryant: A temporary unit was created within the Foreign and Commonwealth Office (FCO) to support posts across the world in their engagement with stakeholders overseas, help organise local events during the run up to the summit, as well as providing information for the London G20 summit website.

The unit was staffed by FCO and temporary staff with specialist project co-ordination and website development skills. Temporary staff included a project co-ordinator and two events delivery co-ordinators hired from PA Consulting at a cost of £166,934. Two digital editors and a media co-ordinator were also hired through COI GovGap at a cost of £90,400. No external public relations or public affairs firms (consultancies) were contracted to provide support for the London G20 summit.

HIV Infection

Mr. Borrow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to fulfil its commitments under the Aids strategy, Achieving Universal Access, in *(a)* Cameroon, *(b)* Cote d'Ivoire, *(c)* Thailand and *(d)* Russia. [319169]

Mr. Ivan Lewis: The Foreign and Commonwealth Office (FCO) role under the Government's Achieving Universal Access HIV strategy is primarily focused on advocacy and lobbying to support the strategy's aims. Our work is targeted towards those countries in which issues of gender inequality, stigma and discrimination are stopping people from taking up preventive services and testing, disclosing their status, and seeking treatment and care.

In Cameroon, we have been fighting institutionalised and societal stigma against people living with HIV/AIDS through a project called "Rights of AIDS Sufferers", run in the North-West region. It has encouraged employers and socio-cultural groups to adopt specific policies that protect the rights of HIV-infected workers. The work of the project was reported nationally on TV and in the print media.

Our embassy in Moscow is supporting an Oxfam project aimed at improving access and quality of health care for poor and marginalized groups, including those suffering from HIV and AIDS. The project strengthens the role of a coalition of non-governmental organisations (NGOs) in holding the Government accountable for access to and quality of health care. The two-year project covers seven regions of Russia. Some of the interim outcomes include an increased awareness by citizens of their rights and the involvement of NGOs in helping to draft regional legislation on accessible health care, with the NGO focusing on the poor and vulnerable.

HIV is a global issue and the FCO also works multilaterally for global leadership and effective funding for HIV prevention, treatment and care, including in the countries listed. The UK works on the UNAIDS Programme Coordinating Board to push for improved human rights for at-risk communities and vulnerable people. For example, in November the UK worked successfully with the Eastern Europe Constituency and others to protect financial resources for a HIV/AIDS prevention programme in Russia, targeted at high risk groups.

In addition to our multilateral work, our Posts have been active in Sub-Saharan Africa and South-East Asia, although no specific activities have been undertaken under the Strategy in Cote d'Ivoire or Thailand.

Thailand has been recognised as a visionary leader in the AIDS response, and our embassy in Bangkok is currently reassessing what action it might take, under the strategy, to support the Thai Government's efforts.

India: Christianity

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of India on the treatment of Christians in Orissa State. [319662]

Mr. Ivan Lewis: We maintain a dialogue with the Indian authorities on these issues. On 2-5 February a member of our High Commission in New Delhi participated in an EU delegation to Orissa. The EU delegation met Government and police officials, civil society and victims in Bhubaneswar and Kandhamal. They noted some progress on rehabilitation and resettlement. They also determined that the central government in New Delhi were providing basic financial compensation for some of the victims of the 2008 violence. The local authorities continue to work to address displacement ~~and~~ justice issues. The EU also identified cross-community peace-building initiatives and improving the capacity of victims' lawyers as important areas to address.

Niger: Politics and Government

Mr. Gregory Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has had discussions with representatives of the African Union and the Government of Niger on the safety of people travelling to and from Niger following the coup in that country. [319427]

Mr. Ivan Lewis: The safety of UK nationals is of primary importance to the Foreign and Commonwealth Office (FCO). We received information from a variety of sources including international partners at the time of the coup and adjusted our Niger travel advice accordingly, available on the FCO website. No harm came to any UK national in Niger during or after the time of the coup. The FCO will continue to monitor the situation closely.

Nuclear Weapons: Proliferation

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last met the *(a)* Parliamentary Campaign for Nuclear Disarmament (CND) Group and *(b)* Top Level Group of

Parliamentarians for Multilateral Nuclear Disarmament and Non-proliferation to discuss nuclear non-proliferation and nuclear disarmament. [319847]

Mr. Ivan Lewis: My right. hon. Friend the Foreign Secretary last met and discussed nuclear non-proliferation and nuclear disarmament with the Top Level Group of Parliamentarians for Multilateral Nuclear Disarmament and Non-proliferation on 10 February 2010. He has not met recently with the Parliamentary Campaign for Nuclear Disarmament Group.

WORK AND PENSIONS

Carer's Allowance: Gwent

Mr. Touhig: To ask the Secretary of State for Work and Pensions how many people in Islwyn constituency who are ineligible for income support *(a)* are entitled to and *(b)* receive carer's allowance. [318144]

Jonathan Shaw: The information is not available in the format requested; it is not possible to say for what reason a claimant getting carers allowance might not be getting income support.

Departmental Cleaning Services

Paul Rowen: To ask the Secretary of State for Work and Pensions whether all contracted cleaners for her Department's buildings in London are paid at the level of the London living wage or a higher level. [318516]

Jonathan Shaw *[holding answer 24 February 2010]:* The Department encourages all of its suppliers to maintain good working conditions for their staff but their actual terms and conditions are a matter for them.

Departmental Consultants

Mrs. May: To ask the Secretary of State for Work and Pensions how much her Department spent on external recruitment consultants in 2009; [317166]

Mr. Hurd: To ask the Secretary of State for Work and Pensions how much her Department and its agencies spent on external recruitment consultants in the last 12 months. [315097]

Jonathan Shaw: The Department and its agencies spent £10.4 million on external recruitment consultants in the last 12 months.

This exceptional figure reflects the need to recruit over 15,000 additional staff into Jobcentre Plus in a very short period of time to meet the extra demands created by the recession. I expect the figure for 2010-11 to be substantially lower.

Departmental Contracts

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions by what mechanisms she plans to ensure that prime contractors in respect of work choice programmes include third sector and small and medium-sized enterprises as sub-contractors in their bids for contracts. [320076]

Jonathan Shaw *[holding answer 2 March 2010]:* Prime contractors will be expected to ensure that DWP provision is joined up with local partnership arrangements, working with smaller, specialist providers many of whom will be Third Sector or voluntary organisations dealing with disadvantaged groups in the local area.

Two networking events were held in September 2009 to facilitate bringing together smaller specialist organisations and potential Work Choice Prime providers. Nearly 600 people attended these events.

Departmental NDPBs

Bob Spink: To ask the Secretary of State for Work and Pensions for how many non-departmental public bodies her Department is responsible. [314257]

Jonathan Shaw: Information on the number of non-departmental public bodies (NDPBs) sponsored by my Department is published in the annual Cabinet Office report, "Public Bodies" 2009 is available online at:

http://www.civilservice.gov.uk/about/resources/public-bodies.aspx

Copies have been placed in the Libraries of the House.

Departmental Plants

Mrs. May: To ask the Secretary of State for Work and Pensions how much her Department spent on pot plants in 2009; [317165]

David T.C. Davies: To ask the Secretary of State for Work and Pensions how much *(a)* her Department and *(b)* its agencies has spent on pot plants in (i) 2007-08, (ii) 2008-09 and (iii) 2009-10. [319202]

Jonathan Shaw: DWP occupies all of its properties under the terms of a facilities management contract under which it pays an overall charge in return for fully-serviced accommodation including, where appropriate, the provision of interior plants. It is not charged separately for any elements of this contract.

Departmental Public Consultation

Grant Shapps: To ask the Secretary of State for Work and Pensions how many citizens' juries or summits have been hosted by her Department since October 2008; on what date each event took place; and which Ministers were present at each event. [310751]

Jim Knight: There is no central record of any citizen juries having been hosted by the Department for Work and Pensions since October 2008. However, a wide range of citizen engagement activities are regularly conducted across the Department. These are designed to ensure that citizens' needs are placed at the forefront of improving service delivery and in policy development.

The following large conferences, aimed at 100 or more delegates, have been organised by the Department for Work and Pensions and addressed by its Ministers since October 2008:

The Employment Summit took place on 12 January 2009, and was hosted by the Prime Minister, the Secretary of State for Innovation, Universities and Skills, and the Secretary of State for Work and Pensions.

Department for Work and Pensions' Annual Forum, London, 16 July 2009, for organisations that work with its customers. The Parliamentary Under-Secretary at the Department for Work and Pensions attended.

Welfare Reform Green Paper Consultation events, in Edinburgh on 9 October 2008 and Newcastle on 24 October 2008. Both were attended by the Secretary of State for Work and Pensions.

Backing Young Britain: Young People's Summit on 2 September 2009. This was hosted by the Prime Minister, Secretary of State for Work and Pensions and Mr. Iain Wright, Parliamentary Under-Secretary at the Department for Children, Schools and Families.

Grandparents Summit, a cross-Government event held on 12 November 2009. In attendance were the Secretary of State for Work and Pensions and the Parliamentary Secretary for Equality at the Government Equalities Office.

Disability Living Allowance

Mr. Harper: To ask the Secretary of State for Work and Pensions how many awards of disability living allowance were made to people whose main disabling condition was cancer in the latest period for which figures are available; and what the average waiting time was for such an award to be made in that period. [316779]

Jonathan Shaw *[holding answer 10 February 2010]*: The following table provides information on cases in payment where the main disabling condition is recorded as malignant disease and which includes cancer, carcinoma and leukaemia.

We do not record the average waiting time for a disability living allowance award where the main disabling condition was cancer.

Disability cases in payment where the main disabling condition is recorded as malignant disease, May 2009

	Number
Total	54,200

Notes:

1. Figures are rounded to the nearest 100 and have been uprated to be consistent with Work and Pensions Longitudinal Study data.
2. Figures show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended, for example if they are in hospital.
3. Where more than one disability is present only the main disabling condition is recorded.
4. A diagnosed medical condition does not mean that someone is automatically entitled to disability living allowance. Entitlement is dependent on an assessment of how much help someone needs with personal care and/or mobility because of their disability. These statistics are only collected for administrative purposes.

Department for Work and Pensions, Information Directorate, 5 per cent. sample

Employment

Mrs. May: To ask the Secretary of State for Work and Pensions what forecasts of employment levels have been *(a)* made and *(b)* used by her Department since 2007. [317633]

Jim Knight: The Department for Work and Pensions does not produce a forecast of employment levels of its own.

The Department draws on a number of elements of the Budget and pre-Budget report economic forecasts for planning purposes. These forecasts are detailed, along with a discussion of the current state of the economy, in the Budget and pre-Budget report. The latest forecast was set out in Annex A of the 2009 pre-Budget report (Cm 7747), published on 9 December 2009.

A copy of the pre-Budget report (Cm 7747) is available in the Library.

Employment Schemes: Young People

Paul Rowen: To ask the Secretary of State for Work and Pensions what programmes her Department has to assist young people into employment in Rochdale and the North-West; and if she will make a statement. [320199]

Jim Knight: The Government have implemented a substantial package of national measures to address youth unemployment, which are helping young people in the North-West region and Rochdale as well as elsewhere. Young people aged 16 to 24 can access apprenticeships, internships, mentoring and work experience through Backing Young Britain. Jobseekers aged 18 to 24 who have been unemployed for six months are guaranteed the offer of a job, training or work experience through the Young Person's Guarantee via provision that includes the Future Jobs Fund, Routes into Work, Work Focused Training, and the Community Task Force, as well as internships and access to help with self employment. From April taking up one of these options will become mandatory.

We have so far agreed to fund 17,078 jobs under the Future Jobs Fund in the North-West.

Equality 2025

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the answer of 9 February 2010, *Official Report*, column 863W, on the Review of Equality 2025, on what date *(a)* the report was completed and *(b)* Ministers of her Department received the report; how many officials of her Department are responsible for considering and implementing the report's recommendations; and if she will make a statement. [318792]

Jonathan Shaw *[holding answer 25 February 2010]*: The initial recommendations from the review were submitted to the Minister for Disabled People for approval in September 2009 and were accepted by him. Following the written ministerial statement to Parliament on 10 December 2009, *Official Report*, columns 40-42WS, the recommendations were published on the website of the Office for Disability Issues. The report was finalised on 23 February 2010, following detailed work to ensure compliance with data protection requirements, and sent to the Minister for Disabled People.

The Secretary to Equality 2025 has been involved in supporting Equality 2025 with implementing these recommendations, with input, as appropriate, from the Director and Deputy Director of the Office for Disability Issues. Work on implementing the recommendations is ongoing and will be completed by late June 2010.

Health Services: Isle of Man

Andrew Mackinlay: To ask the Secretary of State for Work and Pensions for what reasons her Department has not replied to the letter from the Government of the Isle of Man sent in 2009, requesting advice on the

Isle of Man's desire to negotiate a bilateral health agreement with the Scottish Executive; and if she will make a statement. [320268]

Helen Goodman: My Department has no record of receiving any such letter from the Government of the Isle of Man in 2009 concerning its negotiation of a bilateral health agreement with the Scottish Executive. If my hon. Friend would care to supply further details of the letter, I will look into the matter urgently.

Incapacity Benefit

Mr. Harper: To ask the Secretary of State for Work and Pensions what assessment she has made of the effectiveness of sanctions that have been imposed on existing claimants of incapacity benefit; and what the most common reasons are for the imposition of sanctions on claimants. [319021]

Jonathan Shaw *[holding answer 26 February 2010]:* The purpose of sanctions is to encourage compliance with the requirement to take part in work-focused interviews. The only reason for imposing sanctions on claimants is if they fail to take part in a work-focused interview, without good cause.

From the assessments which the Department has made of the effectiveness of the sanctions regime, as part of the extension to existing customers in Jobcentre Plus-led Pathways districts over 2005-06, it is clear the use of sanctions had a positive impact on attendance at work-focused interviews. However, customer views on the appropriateness of the use of sanctions were mixed.

The Department has published two research reports on the experiences of existing customers and these include a discussion regarding sanctions:

Pathways to Work: Extension to some existing customers: Early findings from qualitative research. Policy Studies Institute, Department for Work and Pensions report no. 323, 2006,

http://research.dwp.gov.uk/asd/asd5/rports2005-2006/rrep323.pdf

Pathways to Work: Extension to existing customers (matched case study). National Centre for Social Research. Department for Work and Pensions report no. 418, 2007,

http://research.dwp.gov.uk/asd/asd5/rports2007-2008/rrep418.pdf

Copies of both reports have been placed in the Library.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many claimants of incapacity benefit were sanctioned in each of the last 10 years; and what the monetary value was of sanctions imposed in each of those years. [319022]

Jonathan Shaw *[holding answer 26 February 2010]:* The Department does not publish data on the number of people who have been sanctioned who claim incapacity benefit; such data could be provided only at disproportionate cost. The same is true for those customers in receipt of employment and support allowance and income support.

New Deal Schemes

Mr. Harper: To ask the Secretary of State for Work and Pensions (1) what forecast the Government made of the number of expected referrals to flexible new deal phase 1 providers in each region in each of the first six months of its operation; [317038]

(2) how many customers have been referred to flexible new deal phase 1 providers in each region in each month to the end of January 2010. [317047]

Jim Knight *[holding answer 22 February 2010]:* The information is not available in the format requested. Delivery of the flexible new deal (FND) started from 5 October 2009 in phase 1 areas.

The Department is working to guidelines set by the UK Statistics Authority to ensure that we are able to publish statistics that meet the high quality standards at the earliest opportunity. Further information on the timing and scope of the release of FND statistics will be made available through the Department's website.

Pensioners: Poverty

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what additional assistance her Department provided to pensioners during the recent recession. [319026]

Angela Eagle: The Government provided a range of additional support to pensioners through the recent economic downturn and continues to provide support during the early stages of economic recovery.

In his pre-Budget report statement on 24 November 2008 the Chancellor announced the intention to give every pensioner a one-off payment of £60 on top of the regular £10 Christmas bonus received in December 2008. This was paid as a one-off increase to the Christmas bonus for 2008 only and was paid to all qualifying recipients of the Christmas bonus.

The payment provided additional direct financial support to help vulnerable groups through the economic downturn. In total the additional £60 payments cost around £900 million.

The Government made an additional payment alongside the winter fuel payment for winters 2008-09 and 2009-10 of £50 for households with someone aged 60-79 and £100 for those with someone aged 80 or over. This means the winter fuel payments have been £250 and £400 respectively which provides a significant contribution towards an older person's winter fuel bill. Cold weather payments for the winter of 2008-09 and 2009-10 have also been increased from £8.50 to £25.00 providing additional support to the most vulnerable. With the exception of those living in certain accommodation such as care homes, all pensioners on pension credit will qualify for a cold weather payment when the average temperature has been recorded as, or is forecast to be 0° C or below over seven consecutive days at the weather station linked to the eligible customer's postcode.

In April 2010, the Government have committed to increase the basic state pension by 2.5 per cent. This commitment, first given in 2001, was confirmed in the Chancellor's 2009 pre-Budget report, despite the negative growth for the September 2009 retail prices index, providing a real-terms boost to basic state pension. This means that in 2010-11, pensioners will have seen a long-term real increase of 12 per cent. in their basic state pension, which is over £10 per week, since 1997.

The Chancellor has also confirmed that from April 2010 the poorest pensioners will also benefit from an above indexation increase in the standard minimum guarantee in pension credit, an increase of £2.60 a week for single people and £3.95 for couples. This means that, from April 2010, no single pensioner need live on less than £132.60 a week and no couple on less than £202.40. That is a real terms increase of more than a third for the poorest pensioners since 1997. The 2 per cent. increase ensures that the vast majority of the poorest pensioners will be able to see the full benefit of the 2.5 per cent. increase in the basic state pension.

In order to help those pensioners who receive income from savings and who may have been affected by lower interest rates, the Government have increased the threshold in pension credit (and housing and council tax benefit for those who have attained the qualifying age for pension credit) from £6,000 to £10,000 from November 2009, so that pensioners can have up to £10,000 without it affecting their benefits.

This change will benefit around 500,000 pensioners and will mean around 88 per cent. of pension credit recipients will have all of their capital ignored in their pension credit assessment.

The Government also increased ISA limits up to £10,200 for people aged 50 and over from 6 October 2009.

Since November 2008, the Government have maintained the standard interest rate used to calculate support for mortgage interest at 6.08 per cent. to provide support for homeowners on pension credit who receive help with their mortgage. In his pre-Budget report on 9 December 2009, the Chancellor announced that the rate of 6.08 per cent. would be maintained for a further six months, to provide continued support to these customers.

The Government also launched a tax-back awareness campaign in autumn 2009 contacting all those in receipt of pension credit to encourage them to claim back tax they may have overpaid on their savings income and, where possible, register to receive interest on their savings tax-free in future.

Social Security Benefits

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate she has made of the monetary value of unclaimed benefits of each type in *(a)* the Highlands, *(b)* Scotland and *(c)* England and Wales in each of the last three years. [320124]

Helen Goodman: Estimates of unclaimed benefits are available for Great Britain only; they are not available for the geographical areas requested.

The latest estimates of unclaimed benefit amounts for Great Britain are published in the report "Income Related Benefits Estimates of Take-Up in 2007-08" a copy of which is available in the Library.

Social Security Benefits: Fibromyalgia

Mrs. Moon: To ask the Secretary of State for Work and Pensions what percentage of applicants for disability living allowance diagnosed with fibromyalgia have had their application approved. [318395]

Jonathan Shaw: The information is not available, as data on diagnosis for disallowed claims are not collected. This means that it is not possible to determine what percentage of applicants who listed Fibromyalgia on their claim form were allowed or disallowed.

The amount of disability living allowance someone receives, depends on how much help they need with personal care and/or mobility. It is not dependent on whether they have a specific diagnosis or medical condition. For example, a customer would not be awarded disability living allowance on the basis of a diagnosis of Fibromyalgia. The decision would be based upon their care/supervision needs and on the help they need to get around as a result of the any associated physical or psychological complications.

Mrs. Moon: To ask the Secretary of State for Work and Pensions what information her Department has issued to staff of the Disability and Carers Service with regard to fibromyalgia. [318399]

Jonathan Shaw: There is no specific internal guidance for Decision Makers about fibromyalgia.

Staff use the Decision Makers' Guide and the NHS Choices website, and specific advice is obtained on a case-by-case basis from health care professionals working under contract within the Department.

State Retirement Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions (1) with reference to the answer of 23 June 2009, *Official Report*, column 817W, on state retirement pensions, how much her Department has paid out in such lump sums to date; how many people have received such payments; when she expects to complete the exercise; and if she will make a statement; [319818]

(2) what her most recent estimate is of the number of cases of pensioners potentially entitled to lump sum payments of backdated retirement pension through payment of Class 3 national insurance contributions to take account of pensioners. [320120]

Angela Eagle *[holding answers 1 and 3 March 2010]*: The Department has contacted 23,884 women with potential to benefit from paying class 3 national insurance contributions. For the period up to 22 February 2010, 12,924 women have received lump sums of backdated pension, totalling £10,138,932.00. Of these, 871 also benefited from arrears of state pension after correction of their home responsibilities protection (HRP).

In addition, as part of this exercise, 2,360 customers were paid arrears of state pension resulting only from correction of their HRP. The total arrears paid resulting from correction of HRP is £1,488,244.

The exercise has officially ended but customers have, by law, until 5 April 2010 to contact the Department so this figure may increase.

Vauxhall

Kate Hoey: To ask the Secretary of State for Work and Pensions if she will set out, with statistical evidence relating as closely as possible to Vauxhall constituency, the effects on the constituency of changes to her Department's policies since 1997. [310327]

Jonathan Shaw: As the biggest delivery Department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. The policies that we have introduced since 1997 have aimed to give people more choice and control over their lives. Through our welfare reform programme, we are committed to providing personalised support to everyone who needs it so they have the opportunity to get into and remain in work.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 1997, the number of people unemployed in Vauxhall has decreased by 27 per cent. to 5,067, and the number unemployed for more than one year has decreased by 71 per cent. to 810. Since 1997 to May 2009 the number of lone parents claiming income support in Vauxhall has decreased by 43 per cent. to 3,090.

Our New Deal programmes have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in the UK have found work with the support of the New Deal, and 7,510 have been helped in Vauxhall.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the numbers of children living in poverty are not available at the constituency level, but the latest information for the inner London area shows that the proportion of children in poverty fell from 39 per cent. to 27 per cent. since 1997.

Support for older people

Since 1997 our strategy has been to target extra help at the poorest pensioners while providing a solid foundation of support for all.

This year we will be spending over £13 billion more on pensioners than if we had continued with the policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009, 5,260 pensioners in Vauxhall are receiving pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in the UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs). Statistics on the numbers of pensioners living in relative poverty are not available at the constituency level, but the latest information for the inner London area shows that the proportion of pensioners in poverty has fallen from 42 per cent. to 29 per cent. since 1997.

Pensioners in the UK also benefit from a range of additional support such as the winter fuel payment which this winter is worth £250 for households aged between 60-79 and £400 for households aged 80 or over. These payments provide vital reassurance to older people that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills—this year we will be spending around £2.7 billion on winter fuel payments alone. In 2008-09, 11,950 people aged 60 and over benefited from winter fuel payments in Vauxhall.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people aren't left without a pension even in the event that their employer becomes insolvent.

In total 423 people in the London area are receiving compensation from the Pension Protection Fund (data not available at constituency level).

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Vauxhall will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents, enabling them to choose how certain state support is used to meet their individual needs. Older and less well-off carers are receiving extra help through the provisions within the National Carers Strategy.

Work Capability Assessment

Mr. Hancock: To ask the Secretary of State for Work and Pensions for what reasons all three point-scoring descriptors have been removed from the work capability assessment; and if she will make a statement. [318176]

Jonathan Shaw: In October 2008, with the introduction of employment and support allowance, the work capability assessment replaced the personal capability assessment for all new claims. The new assessment was developed in consultation with representative groups and medical experts, to provide a more accurate assessment of an individual's functional capability in the context of a modern workplace, who concluded that the three point descriptors did not add up to an overall level of functional limitation at which it is unreasonable to expect a person to work. They reflect the sort of condition that any individual can expect to experience, without having any significant functional limitation.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Jenkin: To ask the Secretary of State for Defence what estimate he has made of the average number of flying hours for each *(a)* Apache and *(b)* Chinook machine in Afghanistan in each of the last three years. [320007]

Mr. Bob Ainsworth: I will not provide details of the number of flying hours that our deployed helicopters in Afghanistan have completed, either by specific airframes or by the fleet as a whole, for operational security reasons; the release of this information would, or would be likely to, prejudice the capability, effectiveness, or security of our armed forces.

Since November 2006, there has been an increase of nearly 140 per cent. in all UK battlefield helicopter flying hours. We will enhance our helicopter capability further, and will ensure that it continues to meet operational requirements. For example, we are converting eight Chinook Mk 3 aircraft to a support helicopter role and this will allow us to deliver more Chinooks to Afghanistan.

Armed Forces: Housing

Willie Rennie: To ask the Secretary of State for Defence (1) how much his Department has paid for improvements and modernisation of residential dwellings in each year since Annington Homes acquired its former housing stock; [320261]

(2) how much his Department paid Annington Homes in *(a)* rent and *(b)* maintenance costs for residential dwellings in each year since the company acquired his Department's former properties. [320262]

Mr. Kevan Jones: While the Ministry of Defence (MOD) retains responsibility for the upgrade, improvement and maintenance of properties leased from Annington Homes Ltd. (AHL), the expenditure is not centrally recorded nor separately identifiable from that on other Service Family Accommodation (SFA) in England and Wales or Great Britain.

However, I refer the hon. Member to the answer I gave on 11 January 2010, *Official Report*, column 401W, which gave details of the total maintenance and upgrade expenditure on SFA in Great Britain. We have been able to break this down further as follows:

Upgrading SFA in England and Wales

	Expenditure (£ million)
2001-02	n/a
2002-03	n/a
2003-04	8.3
2004-05	6.0
2005-06	4.4
2006-07	11.4
2007-08	13.9
2008-09	27.4

Most SFA properties in England and Wales were sold to AHL by the previous Conservative Government in 1996, the majority of which were immediately leased back by the MOD to house entitled service personnel and their families. The annual rent paid to AHL in each year was:

Year commencing	*Rent (£ million)*
November 1996	72.3
June 1997	110.6
June 1998	108.6
June 1999	109.7
June 2000	115.7
June 2001	119.2
June 2002	127.6
June 2003	129.8
June 2004	131.9
June 2005	138.1
June 2006	143.5
June 2007	148.6
June 2008	150.3
June 2009 to December 2009	113.0

The Department does not pay any maintenance costs to AHL.

Army: Lost Property

Andrew Rosindell: To ask the Secretary of State for Defence (1) how many pieces of protective eye wear have been reported *(a)* lost and *(b)* stolen from the armed forces in each of the last 12 months; [319709]

(2) how many army uniforms have been reported *(a)* lost and *(b)* stolen in each of the last 12 months.; [319710]

(3) how many sets of army gloves have been reported *(a)* lost and *(b)* stolen in each of the last 12 months.; [319711]

(4) how many army flares have been reported *(a)* lost and *(b)* stolen in each of the last 12 months; [319712]

(5) how many army knives have been reported *(a)* lost and *(b)* stolen in each of the last 12 months.; [319713]

(6) how many army ration packs have been reported *(a)* lost and *(b)* stolen in each of the last 12 months; [319716]

(7) how many army medical kits have been reported *(a)* lost and *(b)* stolen in each of the last 12 months; [319718]

(8) how many army radios have been reported *(a)* lost and *(b)* stolen in each of the last 12 months; [319721]

(9) how many pieces of body armour have been reported *(a)* lost and *(b)* stolen from the Army in each of the last 12 months; [319722]

(10) how many army helmets have been reported *(a)* lost and *(b)* stolen in each of the last 12 months. [319723]

Mr. Kevan Jones: This information is not held centrally and could be provided only at disproportionate cost.

Andrew Rosindell: To ask the Secretary of State for Defence how many army rocket launchers have been reported *(a)* lost and *(b)* stolen in each of the last 12 months. [319714]

Mr. Kevan Jones: No rocket launchers have been reported as lost or stolen during the last 12 months.

Andrew Rosindell: To ask the Secretary of State for Defence how many grenades have been reported *(a)* lost and *(b)* stolen from the Army in each of the last 12 months. [319715]

Mr. Kevan Jones: No grenades have been reported as lost or stolen during the last 12 months.

Andrew Rosindell: To ask the Secretary of State for Defence how many army night vision goggles have been reported *(a)* lost and *(b)* stolen in each of the last 12 months. [319717]

Mr. Kevan Jones: No night vision goggles have been centrally reported as stolen in the past 12 months but 21 have been reported lost. These include helmet mounted systems and those designed for use in military vehicles.

Army: National Bullying Helpline

Fiona Mactaggart: To ask the Secretary of State for Defence what contacts the Army has had with the National Bullying Helpline since 2004; and whether the Army has made any payments to *(a)* the National Bullying Helpline and *(b)* HR and Diversity Management Limited in that period. [320160]

Mr. Kevan Jones: The Army has no relationship with either the National Bullying Helpline or HR and Diversity Management. The armed forces have a well-publicised Confidential Support Line which is run by the Soldiers, Sailors, Airmen and Families Association—Forces Help charity, which is independent of the Chain of Command.

Individuals within the Army are free to contact either the National Bullying Helpline or HR and Diversity Management should they wish to do so. While it is possible that either organisation may have made contact with Army units on individual cases, this information is not held centrally and could be provided only at disproportionate cost.

Cadet Forces

Michael Gove: To ask the Secretary of State for Defence how many *(a)* school-aged children in maintained schools and *(b)* other school-aged children were enrolled in community cadet forces in the latest year for which figures are available. [316310]

Mr. Kevan Jones: The information required is not held in the format requested. The data provided reflect only the category of State schools (noting that for the purposes of Combined Cadet Force (CCF) data collated by MOD, all other schools are categorised as Independent).

As at 1 April 2009, and subject to the caveats mentioned above, there were 7,579 School pupils who were members of their State School's Combined Cadet Force. However, given that the majority of Cadets are members of a community-based Cadet unit, it is estimated that some 90,000 cadets are state school pupils. In the same timeframe there were some 130,000 cadets overall. It should also be noted that there are 25 known partnerships where Independent Schools with CCFs provide cadet places to neighbouring State schools; for these partnerships it is not possible to identify the numbers of State School cadets.

Full statistics on cadet forces can be found on the Defence Analytical Services and Advice organisation's website in their Tri-Service Publication (TSP) 7:

www.dasa.mod.uk

Defence Equipment

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* rifles, *(b)* mortars, *(c)* machine guns and *(d)* artillery weapons were (i) in service with the Army and (ii) available for use by the Army in operations on the latest date for which figures are available. [319491]

Mr. Quentin Davies: The in-service figures for rifles, mortars, machine guns and artillery weapons are provided in the following table. Availability data for rifles, mortars and machine guns are not held centrally. I am withholding information on the number of artillery weapons currently available on operations, as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

	In service (number)
SA80 A2	180,000
SSI/338	561
Carbine	1414
Machine Guns	
HMG	1,100
GMG	350
GPMG	8450
LMG	4500
Mortars	
81 MM Mortar	500
60MM B Mortar	115
60MM H Mortar	102
Artillery	
AS90	116
105 mm Lt Gun	125
MLRS	36
Stormer SP HVM	60
Rapier FSV Launcher	32

Departmental Buildings

Sarah Teather: To ask the Secretary of State for Defence what the *(a)* area and *(b)* estimated value is of (i) vacant and (ii) occupied office space (A) owned and (B) rented by his Department. [310532]

Mr. Kevan Jones: Within Defence, the civil office estate is defined as that which is capable of being shared with other Government Departments. Information in respect of these offices will take some time to collect and verify. I will write to the hon. Member as soon as possible.

Other office space outside this definition includes facilities within armed forces establishments and buildings. This information is not recorded and could be provided only at disproportionate cost.

Substantive answer from Kevan Jones to Sarah Teather:

In my answer of 14 January (Official Report, column 1103W) I undertook to write to you with details of the area and estimated value of vacant and occupied office space owned and rented by this Department.

Within the defence estate, the civil office estate is broadly defined as that which is capable of being shared with other Government Departments. On this basis the details are as follows:

Owned

	Square metre space	*Equivalent rental value (£ million)*
Occupied	345,000	21.4
Vacant	1,800	0.2

Rented

	Square metre space	*Total rental value (£ million)*
Occupied	80,307	14.6
Vacant	2,294	0.89

Office space outside this definition includes facilities within Armed Forces establishments and space used as offices (perhaps temporarily) within buildings of a different type such as hangars on barracks.

Departmental Paper

Martin Horwood: To ask the Secretary of State for Defence what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320031]

Mr. Quentin Davies: The Ministry of Defence (MOD) procures the majority of its paper and some paper products from Office Depot UK Ltd. under an enabling contract that was awarded to the company in 2007. Paper products are also procured from Lyreco UK Ltd under a similar enabling contract for the supply of stationery items. Specialist photographic paper is supplied by Calumet.

The brands of paper available under the Office Depot contract are: Office Depot/Niceday; Evolve; Xerox; IQ Selection; Mondi IQ; Conqueror; Epsom; Hewlett Packard; Fizz; Regal; Maine; Satimat; Crusade; Amber; Graphic; Colorit; Lumi; Kodak and Fuji.

The brands of paper products available under the Office Depot, Lyreco and Calumet contracts are: Mondi IQ; Conqueror; Epson; Hewlett Packard; Office Depot; Xerox; Kraft; Vanguard; Lyreco/Impega; Avery; Brother; Dymo; P-touch; Clairefontaine; Jiffy; Tyvek; NewGuardian; Tenzalope; Post-it; Pukka Pad; Black n'Red; Unipad; Vestry; Goldline; Collins; Sasco; Filofax; Nobo; Acco; Bantex; Leitz; Centurion; Eastlight; Elba; Exacompta; Esselte; Concord; Acco and Fellowes.

MOD's procurement policy requires the use of recycled paper and paper products except where these do not meet specific requirements, such as for specialist photographic paper. Recycled content under the current contracts with Office Depot and Lyreco varies between 70 per cent. and 100 per cent. It will be our aim in the follow-on contracts to adhere fully to the Government's policy, except in cases where there are specific specialised needs.

Military Bases: Security

Mr. Drew: To ask the Secretary of State for Defence pursuant to the answer of 4 February 2010, *Official Report*, column 465W, on "Military Bases: Security", in which military bases the incursions were recorded. [318619]

Mr. Kevan Jones: RAF Fylingdales, HMNB Clyde and RAF Mildenhall.

COMMUNITIES AND LOCAL GOVERNMENT

Departmental Advertising

Mr. MacNeil: To ask the Secretary of State for Communities and Local Government how much was spent on advertising by *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in each year since 2005. [320779]

Barbara Follett: I refer the hon. Member to the answers given to the hon. Member for Angus (Mr. Weir) on 23 February 2010, *Official Report*, column 478W, and to the hon. Member for Welwyn Hatfield (Grant Shapps) on 7 January 2010, *Official Report*, columns 502-03W.

Departmental Theft

Mr. Watson: To ask the Secretary of State for Communities and Local Government how many thefts from his Department have been recorded in the last two years. [318999]

Barbara Follett: In the financial year 2007-08 there was a total of 17 thefts from the Department for Communities and Local Government. The items stolen are:

	Number
Building passes	3
Desk-top computers	3
Laptop computers	9
Mobile phones	2

In the financial year 2008-09 there was a total of 11 thefts from the Department for Communities and Local Government. The items stolen are:

	Number
BlackBerrys	5
Laptop computers	5
Mobile phone	1

The stolen building passes were reported and cancelled ensuring that no unauthorised entry to CLG premises occurred.

None of the information contained on laptops, PCs or BlackBerrys was classified. However, each laptop and PC was password protected and the BlackBerrys were both encrypted and password protected.

Derelict Land: Regeneration

Mr. Todd: To ask the Secretary of State for Communities and Local Government if he will establish a Coalfields Regeneration Review to gauge progress and identify priorities for the future. [320516]

Mr. Ian Austin: Communities and Local Government intend to undertake a review of the Government's programme to regenerate former coalfield communities. The Department will work with stakeholders on the details of the review and an announcement will be made in due course.

Homes and Communities Agency and Tenant Services Authority: Equality

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether the *(a)* Tenant Services Authority and *(b)* Homes and Communities Agency has obtained legal advice on its obligations under the provisions of the Equality Bill. [320280]

John Healey: Neither the Homes and Communities Agency nor the Tenant Services Authority has sought external legal advice on the provisions of the Equality Bill. However, both organisations have considered in-house legal advice and have published single equalities schemes.

Housing Revenue Accounts

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government when he intends to publish a draft revised Circular 8/95 on the operation of the Housing Revenue Account ring fence. [320571]

Mr. Ian Austin: We intend to make an announcement in the next few weeks which will describe the progress we have made on self-financing, set out more details of our proposals and provide a summary of responses to the consultation. We expect this will include proposals on how the housing revenue account ring fence would operate within a reformed system.

Housing: Chelmsford

Mr. Burns: To ask the Secretary of State for Communities and Local Government how many first-time buyers purchased a home in West Chelmsford constituency in the last three years. [320353]

Mr. Ian Austin: Estimates of the number of first-time buyers buying a home with a mortgage in the UK are published by the Council of Mortgage Lenders based on their Regulated Mortgage Survey. However, these data are not available at the geographical level requested.

Regional Planning and Development

Grant Shapps: To ask the Secretary of State for Communities and Local Government what strategic development areas (SDAs) there are in England; how many homes are expected to be constructed in each SDA; and when each area is expected to be completed. [320258]

Mr. Ian Austin: "Strategic development area" is not an official or specific designation—it is a general planning term like the phrase "town centre" used in many, but not all, development plans (local, regional and sub regional) to refer to areas where development is expected to happen. We therefore do not hold the information requested.

Social Rented Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many properties were funded under the Temporary Social Housing programme in each of the last three years; [318774]

(2) how many properties managed by registered social landlords and funded through the Temporary Social Housing programme in 2008-09 were owned by *(a)* private individuals, *(b)* unregistered social landlords and co-operatives, *(c)* local authorities and *(d)* other public bodies; [318731]

(3) how many properties in receipt of Temporary Social Housing programme funding were *(a)* improved and *(b)* unimproved in each of the last three years; [318733]

(4) how many properties in receipt of funding under the Temporary Social Housing programme in 2008-09 were *(a)* subject to compulsory purchase orders, *(b)* subject to Empty Dwelling Management Orders, *(c)* long-term privately owned, *(d)* awaiting redevelopment or sale and *(e)* over shops in town centres; [318734]

(5) how many registered social landlords were in receipt of funding under the Temporary Social Housing programme in each of the last three years; [318735]

(6) how much was spent on the Temporary Social Housing programme in each of the last five years. [318736]

Mr. Ian Austin *[holding answer 25 February 2010]*: The following table shows spend on temporary social housing (TSH) through the Homes and Communities Agency's (HCA) National Affordable Housing Programme (NAHP) over the last five years.

	£ million
2004-05	17.1
2005-06	9.6
2006-07	10.5
2007-08	12.4
2008-09	12.9

Source:
HCA

The following table shows the number of TSH units provided over each of the three years 2006-07 to 2008-09 through HCA's NAHP which were improved or unimproved and the number of registered social landlords (RSLs):

	Improved	*Unimproved*	*Homes provided*	*Number of RSLs which completed TSH schemes*
2006-07	146	232	378	14
2007-08	311	161	472	14
2008-09	260	197	457	12

Source:
HCA Investment Management System

Information is not held centrally on whether these properties were owned by *(a)* private individuals, *(b)* un-registered social landlords and co-operatives, *(c)* local authorities and *(d)* other public bodies or on whether they were *(a)* properties subject to compulsory purchase orders, *(b)* properties subject to Empty Dwelling Management Orders, *(c)* long-term privately owned, *(d)* awaiting redevelopment or sale and *(e)* properties over shops in town centres.

Supported Housing: Young People

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 26 January 2010, *Official Report*, columns 770W, on "Housing: Lone Parents", how many individual places in foyers and specialist supported housing will be provided each year under that scheme; and whether he has made an estimate of the proportion of all 16 to 17 year old single parents able to be housed under that scheme. [319109]

Mr. Ian Austin: The Prime Minister announced in September 2009 that all 16 and 17-year-old teenage parents should receive housing with support.

TREASURY

Alcoholic Drinks: Fraud

Mr. Dismore: To ask the Chancellor of the Exchequer how many officials have been employed to deliver the HM Revenue and Customs' alcohol fraud strategy. [316991]

Sarah McCarthy-Fry: There are no figures available for the number of HMRC staff working on alcohol fraud strategy. This is because officers are deployed flexibly across a number of areas.

Banks: Manpower

Mr. Amess: To ask the Chancellor of the Exchequer (1) what estimate he has made of the effect of the reclassification of employees of nationalised banks on the *(a)* number of public sector employees and *(b)* total public sector pay bill in the next 12 months; [318633]

(2) what recent estimate he has made of the effect of the reclassification of employees of banks in public ownership on *(a)* the number of people employed in the public sector and *(b)* total public sector pay bill. [320647]

Sarah McCarthy-Fry: It is a matter for the Office for National Statistics (ONS) to determine classification of employees in these banks and the impact that any such classification has on public sector pay over the next 12 months will be reflected in ONS statistics.

Building Societies: Regulation

Jim Cousins: To ask the Chancellor of the Exchequer what reports he has received from the Financial Services Authority on its stress testing exercise on building societies; and whether that exercise has been concluded. [313292]

Sarah McCarthy-Fry: The FSA made a statement on stress tests on 28 May 2009, available at:

http://www.fsa.gov.uk/pages/Library/Communication/PR/2009/068.shtml

Further to this, the FSA have set out their ongoing approach to stress testing in Policy Paper PS 09/20 (published December 2009, available at:

http://www.fsa.gov.uk/pages/About/What/international/stress_testing/index.shtml

More details are available on the FSA's website.

Child Benefit: Foreigners

Mr. Philip Hammond: To ask the Chancellor of the Exchequer (1) how many nationals of each A8 country were receiving child benefit for a child or children living in another EEA member state at the end of December 2009; and in respect of how many such children child benefit was being paid on that date; [320265]

(2) how many nationals of each A8 country were receiving child benefit for a child or children living in another EEA member state at the end of the most recent month for which figures are available; and in respect of how many such children child benefit was being paid on that date. [320279]

Mr. Timms: Around 7.5 million families are currently claiming child benefit for around 13 million children.

The information requested is provided in the table. These child benefit awards are made by virtue of EC social security co-ordinating regulations which the UK has administered since it joined the European Economic Community in 1973.

	As of 31 December 2009		*As of 28 February 2010*	
Country	*Number of awards*	*Number of children*	*Number of awards*	*Number of children*
Czech Republic	174	289	180	299
Estonia	16	28	19	31
Hungary	76	119	78	124
Latvia	281	373	302	405
Lithuania	797	1,133	827	1,196
Poland	23,214	37,633	23,324	38,677
Slovakia	1,506	2,554	1,523	2,639
Slovenia	5	6	4	6
Total	26,069	42,135	26,257	43,377

Dormant Bank and Building Society Accounts Act 2008

Mr. Martyn Jones: To ask the Chancellor of the Exchequer (1) how many *(a)* banks and *(b)* building societies have used the provisions of the Dormant Bank and Building Society Accounts Act 2008 to transfer funds into the Big Lottery Fund for good causes; [319965]

(2) how much money has been transferred to the Big Lottery Fund for distribution to good causes under the provisions of the Dormant Bank and Building Society Accounts Act 2008. [319966]

Sarah McCarthy-Fry: The Chancellor announced in pre-Budget report 2009 that the Co-operative Financial Services intend to submit an application to the FSA for authorisation to establish and administrate a Reclaim Fund, subject to work going ahead as planned, as part of the Dormant Bank and Building Societies Accounts Act 2008. Once established, dormant account funds will be transferred from banks and building societies to the Reclaim Fund. This will enable surplus funds to flow to the BIG Lottery Fund and to spending priorities in due course.

Equitable Life Assurance Society

Mr. Brady: To ask the Chancellor of the Exchequer on what occasions Ministers in his Department have met with Mr Chris Wiscarson, Chief Executive of Equitable Life, since his appointment in September 2009; and when he expects the next such meeting to take place. [320579]

Sarah McCarthy-Fry: Treasury Ministers and officials have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

Gift Aid

Mr. David Hamilton: To ask the Chancellor of the Exchequer (1) how much the Government contributed to charities through the Gift Aid scheme in each of the last five years for which figures are available; and how many people made charitable contributions through the scheme in each such year; [319949]

(2) what steps he has taken to increase the number of charitable donations made using the Gift Aid scheme. [319950]

Ian Pearson: HMRC does not collate figures for the total number of people giving using Gift Aid. However, donations using Gift Aid, and the amount of Gift Aid tax relief paid to charities over the last five years, are set out in the following table.

	Amount donated using Gift Aid (£ billion)	*Repayments of tax to charities through Gift Aid (£ million)*
2004-05	2.8	626
2005-06	3.4	751
2006-07	3.8	830
2007-08	4.1	898
2008-09	4.3	[1]947

[1] £947 million includes £56 million paid as Gift Aid transitional relief supplement.

Source:

http://www.hmrc.gov.uk/stats/charities/menu.htm

(tables 10.1 and 10.3)

Following the Gift Aid consultation in 2007, the Government announced a package of measures in Budget 2008 aimed at increasing the take-up of Gift Aid, including:

improved HMRC guidance for charities and donors;

a new Gift Aid toolkit to help charities set up and run successful Gift Aid schemes;

extension of the tax effective giving initiative delivered through the Institute of Fundraising;

a small charities training programme, to ensure that small local charities can access guidance and training on Gift Aid;

promoting the use of local umbrella charities to help community and voluntary groups access Gift Aid;

a new online Gift Aid mentoring forum for charities.

In February 2010, HM Treasury set up a Gift Aid forum to consider further improvements to Gift Aid, informed by recent Government-sponsored research into the effect of tax incentives on charitable giving. The forum will come up with recommendations by September 2010.

Housing: Valuation

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer pursuant to the answer of 11 January 2010, *Official Report*, column 765W, on "Housing: Valuation", how many dwellings are recorded *(a)* with a WK value significant code and *(b)* as having a reputational issue. [319737]

Ian Pearson: The number of dwellings recorded as *(a)* having a value significant code (VSC) of WK was 72,244 as at 2 September 2009, which represents 0.3 per cent. of all dwellings in council tax valuation lists in England and Wales. No specific recording is made of *(b)* a 'reputational risk'. Where a value significant feature is to be recorded that is not covered by any of the other VSCs, it is given a WK code. The number of dwellings with each VSC is available in both the disclosure log on the Valuation Office Agency's website at

www.voa.gov.uk

and the Library of the House.

Members: Correspondence

Mr. Harper: To ask the Chancellor of the Exchequer when he plans to reply to the letter of *(a)* 7 December 2009 and *(b)* 22 January 2010 from the hon. Member for Forest of Dean on the Government's proposals to replace the existing taxation system affecting gambling, reference FD4725. [320269]

Sarah McCarthy-Fry: A reply was sent to the hon. Member on 9 January.

Non-domestic Rates: Ports

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer how many port businesses in single port hereditaments were separately assessed for business rates in *(a)* 2000, *(b)* 2004, *(c)* 2005, *(d)* 2006, *(e)* 2007, *(f)* 2008 and *(g)* 2009; what consultation was held with each of them on the matter; and what statutory requirements applied to such new assessments. [319443]

Ian Pearson: The Valuation Office Agency does not hold separate lists of properties (hereditaments) attributable to smaller locations. The information requested could be compiled only at disproportionate cost.

As he will be aware, however, prior to the ports review around 2,000 hereditaments within the 55 ports in England and Wales were on the rating lists with an effective date of 1 April 2005. Following the review, the total increased by over 600 hereditaments.

Valuation officers have a statutory requirement to maintain accurate rating lists and occupiers affected by the ports review were notified of the findings of the review as and when each review was completed.

Presbyterian Mutual Society

Mark Durkan: To ask the Chancellor of the Exchequer what progress has been made by the Ministerial Working Group on the Presbyterian Mutual Society. [318467]

Sarah McCarthy-Fry *[holding answer 24 February 2010]:* The Ministerial Working Group on the Presbyterian Mutual Society (PMS) continues to investigate the circumstances surrounding its collapse, to consider the losses incurred by its members and to consider what, if any, action can be taken to mitigate members' losses, particularly those hardest hit by the collapse.

Public Sector

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer if he will place in the Library a copy of each Total Place pilot report submitted to his Department. [319633]

Mr. Byrne: The publication of documents submitted by the local authorities and their partners involved in Total Place is a decision for them. However, some of the pilots have now made their February 2010 reports public, by either publishing on their own websites or the Total Place website.

Rates and Rating: Caravan Sites

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer how many Traveller pitches are liable for *(a)* council tax and *(b)* business rates; and what estimate the Valuation Office Agency has made of the number of pitches which are not rated either for council tax or business rates. [319016]

Ian Pearson: No data are available to differentiate Traveller pitches from other caravan pitches treated as dwellings for council tax purposes.

There are currently six Traveller sites subject to non-domestic rating.

Revenue and Customs: Correspondence

Mr. Winnick: To ask the Chancellor of the Exchequer when the Chief Executive, HM Revenue and Customs, expects to reply to the letter of 1 February 2010 from the hon. Member for Walsall, North; and for what reasons no initial acknowledgement of the letter was sent. [320348]

Mr. Timms: A reply was sent to the hon. Member on 2 March 2010.

HM Revenue and Customs apologises for the oversight in not issuing an acknowledgement.

Revenue and Customs: Surveys

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what HM Revenue and Customs Customer Service Survey overview reports were produced for *(a)* 2007, *(b)* 2008 and *(c)* 2009; and where such reports are published. [312154]

Mr. Timms: The Customer Service Survey overview report for 2007 is available at:

http://www.hmrc.gov.uk/research/

HM Revenue and Customs is currently finalising the report of the 2008-09 Customer Survey and will publish it on the Department's website in due course.

Revenue and Customs: Television

John McDonnell: To ask the Chancellor of the Exchequer how much HM Revenue and Customs has spent on sponsorship of the television programme The Business Inspector. [319939]

Mr. Timms: HMRC's contribution to the series' budget is £370,000. This should provide good value for money in comparison with advertising alone.

Taxation: Holiday Accommodation

Gordon Banks: To ask the Chancellor of the Exchequer when he will report on the findings from the technical consultation on the proposed legislation on Furnished Holiday Lettings which closed on 26 February. [320577]

Mr. Timms: There are no plans to publish a full report on the findings from the technical consultation on the proposed legislation to repeal the Furnished Holiday Lettings (FHL) rules, as none of the responses to this informal consultation identified any technical difficulties with the draft legislation which was published at the 2009 pre-Budget report.

Some respondents identified specific points on which they would like more information about the effects of the repeal. HMRC plan to issue further guidance to supplement the information provided in the technical note issued at the 2009 pre-Budget report.

Taxation: Overseas Income

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer if he will bring forward legislative proposals to allow UK citizens to be taxed on their worldwide income; and if he will make a statement. [319850]

Mr. Timms: Individuals, including UK citizens, who are resident, ordinarily resident and domiciled in the UK are liable to UK tax on their worldwide income. The Government have no plans to introduce legislation to make all UK citizens taxable on their worldwide income.

Valuation Office Agency: Contracts

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer pursuant to the answer of 4 February 2010, *Official Report*, column 522W, on Valuation Office Agency contracts, how much the Valuation Office Agency spent on each of the listed suppliers in 2008-09. [319644]

Ian Pearson: A list showing the amounts spent by the Valuation Office Agency on the suppliers who provided goods and services to the Valuation Office Agency in 2008-09 is being placed in the Library of the House.

Valuation Office Agency: North East

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer how many staff of the Valuation Office Agency worked in *(a)* the North East and *(b)* North Lincolnshire in each year since 1997; and how many such staff were visually impaired in each of those years. [319447]

Ian Pearson: The Valuation Office Agency does not hold staff in post or disability data based upon the North East and North Lincolnshire for each year since 1997.

CABINET OFFICE

Census: Sikhs

Mark Pritchard: To ask the Minister for the Cabinet Office if she will meet representatives of Sikhs to discuss proposals for the inclusion of a Sikh category in the ethnic data collection within the 2011 National Census. [320257]

Angela E. Smith: The Office for National Statistics consulted widely in establishing the proposed content of the 2011 Census, which included a public consultation and consultation with Sikh representatives. Following consultation, and in accordance with the Census Act 1920, the proposed content was laid before Parliament in "The Census (England and Wales) Order 2009 in October 2009". Parliament approved the Order, which came into force on 10 December. As the content of the 2011 Census is now determined, it is not appropriate for me to meet Sikh representatives to discuss the inclusion of a Sikh category in the ethnicity question within the 2011 Census.

Departmental Buildings

Mr. Philip Hammond: To ask the Minister for the Cabinet Office how much her Department spent on office refurbishments in each of the last 10 years. [320508]

Angela E. Smith: This information could be provided only at disproportionate cost.

Departmental Paper

Martin Horwood: To ask the Minister for the Cabinet Office what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products (A) her Department and (B) the Prime Minister's Office uses; and what the policy is of each on the procurement of those materials. [320035]

Angela E. Smith: The Prime Minister's Office is an integral part of the Cabinet Office.

Office Depot supplies the Cabinet Office with its paper and paper products.

The majority of the Department's paper usage relates to photocopying and printing, for which Evolve Everyday A4 and A3 80 gsm copier paper is used. These products are 100 per cent. recycled.

The paper for photocopying and printing is ordered centrally; other types of paper products can be bought as required by nominated individuals.

Exports

Mr. David Hamilton: To ask the Minister for the Cabinet Office what the monetary value of goods and services exported from *(a)* Scotland and *(b)* the UK was in each of the last five years for which figures are available. [319951]

Ian Lucas: I have been asked to reply.

The figures in the following table for exports of goods have been taken from HM Revenue and Customs Regional Trade Statistics.

		£ billion
	UK	*Scotland*
2004	190.5	11.9
2005	211.8	12.7
2006	243.8	13.5
2007	219.9	13.7
2008	248.8	14.3

Office for National Statistics (ONS) data for UK exports of services for the same years are shown in the following table on a Balance of Payments basis.

	UK (£ billion)
2004	112.9
2005	119.2
2006	134.2
2007	150.6
2008	170.8

The ONS does not produce comparable services trade statistics for countries and regions of the UK: the Scottish Executive publishes some data as part of their Global Connections Survey, available from:

http://www.scotland.gov.uk/Topics/Statistics/Browse/Economy/Exports

Honours

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the Prime Minister's speech at Britain's Everyday Heroes Book Launch of 24 July 2007, how much has been spent on the advertising campaign relating to the Good Neighbour MBE to date. [318358]

Tessa Jowell: £400,000 including VAT was spent on a regional advertising campaign in 2007-08 to encourage nominations for people who were doing outstanding service in their local community. The campaign focused on four areas: Scotland, the North West, Yorkshire and the Humber; and the West Midlands, which had shown least awareness of the honours system.

Hotels

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 29 January 2010, *Official Report*, column 1145W, on "Government Departments: Hotels", if she will place in the Library a copy of the summary data on bookings made under the Expotel facility in respect of her Department in 2009. [318309]

Angela E. Smith: The summary data for bookings made through the Cabinet Office's corporate contract with Expotel contain information including their commercial rates which must be treated as commercial in confidence.

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer to the hon. Member for Ruislip Northwood of 3 February 2010, *Official Report*, column 410W, on hotels, which sections of her Department made the 55 bookings for five star hotels; and which hotel was booked in each case. [318327]

Angela E. Smith: Cabinet Office is periodically requested to answer questions which may relate to the involvement of sensitive work streams. In this instance the majority of the bookings are sensitive.

In order to safeguard the effectiveness of both the security arrangements in place, and those involved in such areas, it has been the practice of successive governments not to disclose specific information concerning those involved or its associates.

This is in line with exemptions 1(a) and 7(b) as set out in Part II of the 'Code of Practice on Access to Government Information'.

Jobseeker's Allowance

Mr. Lidington: To ask the Minister for the Cabinet Office how many people have claimed jobseeker's allowance in each quarter since April 2008. [320172]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

The Office for National Statistics (ONS) compiles monthly counts of the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. Table 1 shows the number of people, resident in the United Kingdom, claiming Jobseeker's Allowance (JSA) at the end of each quarter since April 2008.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at

http://www.nomisweb.co.uk

Table 1: Number of persons claiming Jobseeker's Allowance resident in the UK Seasonally adjusted: United Kingdom

	Thousand
June 2008	843.3
September 2008	956.7
December 2008	1,175.8
March 2009	1,455.9
June 2009	1,557.8
September 2009	1,626.6
December 2009	1,612.1

Source:
Jobcentre Plus Administrative System

Social Workers: Females

Mr. Amess: To ask the Minister for the Cabinet Office what recent estimate she has made of the proportion of people employed in social care who are women. [320654]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking for the recent estimate of the proportion of people employed in social care who are women. (320654)

For the period October-December 2009 it was estimated that 1.4 million women were employed in social care in the UK, the proportion of women employed in social care is 80.0 percent.

These estimates are derived from the Labour Force Survey (LFS) and are not seasonally adjusted. The social care estimate was derived using the Standard Industrial Classification (SIC2007) codes: 87, Residential care activities and 88, Social work activities without accommodation.

As with any sample survey, the estimates provided are subject to a margin of uncertainty.

Trade Unions

Mr. Syms: To ask the Minister for the Cabinet Office how many days staff of *(a)* her Department, *(b)* the Charity Commission and *(c)* the Central Office of Information spent on trade union activity in the latest year for which figures are available; and what recent estimate she has made of the annual cost to the public purse of such activity. [320619]

Angela E. Smith: The following number of staff days have been allocated as trade union facility time for 2009-10:

(a) The Cabinet Office: 250 days.

(b) The Charity Commission: 188 days.

(c) The Central Office of Information: 55 days.

The annual cost of trade union activity for each organisation is not held centrally and could be provided only at disproportionate cost.

Unemployment

Mr. Lidington: To ask the Minister for the Cabinet Office how many people were not in employment in each quarter since April 2008. [320175]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated March 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking how many people were not in employment in each quarter since April 2008. (320175)

The table provided contains estimates of the number of people not in employment. These estimates have been derived from the figures published by the ONS in the monthly Labour Market Statistical Bulletin.

As with any sample survey, the estimates provided are subject to a margin of uncertainty. Indications of the sampling variability of LFS aggregate estimates are provided in the Statistical Bulletin.

Number of people aged 16 and over, not in employment[1] United Kingdom, seasonally adjusted

	Thousand
April to June 2008	19,504
July to September 2008	19,722
October to December 2008	19,895
January to March 2009	20,153
April to June 2009	20,493
July to September 2009	20,599
October to December 2009	20,708

[1] Unemployed people plus those who were economically inactive

Source:

ONS Labour Force Survey

Voluntary Work

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the Prime Minister's speech at Britain's Everyday Heroes Book Launch of 24 July 2007, what steps have been taken to mark the contribution of volunteers on 24 July each year. [318357]

Angela E. Smith: The Government have used the 24 July to recognise and celebrate the efforts of those making a difference in our communities. This has included work with the Council on Social Action as well as voluntary and community groups to support and encourage them to find more ways to celebrate all those acting for social good.

Events to mark the day have included the Catalyst Awards for people using technology to create social change, a reception at 10 Downing street for local heroes across the country and the creation of the National Talent Bank to act as an intermediary between employers who are scaling back working hours and volunteering organisations.

HOUSE OF COMMONS COMMISSION

Palace of Westminster

Mr. Greg Knight: To ask the hon. Member for North Devon, representing the House of Commons Commission for what reason the Carriage Gates exit to the Palace of Westminster was closed on 1 February 2010. [319899]

Nick Harvey: At approximately 5.12 pm on 1 February, a defect with the drop bolt on the Carriage Gates "exit gate" was discovered which left the gate unsecured when in the open position. Due to the risk of the gate swinging closed against a vehicle or person the decision was made to leave the gate in the closed and locked position. Remedial work was carried out overnight and the gate was returned to service. The "in gate" remained in use throughout.

Regional Committees

Mr. Stewart Jackson: To ask the hon. Member for North Devon, representing the House of Commons Commission what the cost has been of the operation of each *(a)* regional grand committee and *(b)* regional select committee since its inception. [319655]

Nick Harvey: The information requested is as follows:

(a) An estimate of the costs for regional grand committees to the end of February 2010 is given in the following table. Costs include hire of accommodation, sound recording, police support, and travel and subsistence for staff. No additional staffing costs were incurred as no extra staff were engaged to work for regional grand committees.

	Cost of regional grand committees (£)
East of England	1,647
East Midlands	2,858
North East	4,238
North West	3,956
South East	4,196
South West	6,850
West Midlands	2,392
Yorkshire and Humber	749
Total	26,886

(b) An estimate of the costs of regional select committees is given in the following table. Costs include staffing, hire of accommodation, transcription of evidence, printing, specialist advisers' and witnesses' expenses, and travel and subsistence for staff. Expenditure on staffing cannot be broken down by region as these committees were supported from a pool of staff in the Department of Chamber and Committee Services.

	Cost of regional select committees up to end of February 2010 (£)
East of England	22
East Midlands	16,787
London	6
North East	24,053
North West	13,904

	Cost of regional select committees up to end of February 2010 (£)
South East	13,125
South West	26,752
West Midlands	23,175
Yorkshire and Humber	3,640
Staffing costs for all regions	311,400
Total	432,865

JUSTICE

Convictions: Essex

Mr. Burns: To ask the Secretary of State for Justice how many people in *(a)* West Chelmsford constituency and *(b)* Essex have been convicted of offences (i) of domestic burglary and (ii) related to drug offences in each year since 2005. [320573]

Claire Ward: Information showing the number of persons found guilty at all courts for domestic burglary and drugs offences in the Essex police force area from 2005 to 2008 (latest available) is shown in the following table.

Court proceedings data are not available at parliamentary constituency level.

Data for 2009 are planned for publication in the autumn, 2010.

Persons found guilty at all courts for domestic burglary and drugs offences, in the Essex police force area, from 2005 to 2008[1, 2, 3]

				Number
Offence	*2005*	*2006*	*2007*	*2008[3]*
Burglary in a dwelling	272	249	292	291
Drugs offences	774	742	570	979
Total	1,046	991	862	1,270

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Excludes convictions for Cardiff magistrates court for April, July and August 2008.

Source:

Justice Statistics Analytical Services—Ministry of Justice.

Departmental Plants

David T.C. Davies: To ask the Secretary of State for Justice how much *(a)* his Department and *(b)* its agencies has spent on pot plants in 2009-10. [319230]

Mr. Straw: The information requested is as follows and covers expenditure for pot plants at the Ministry of Justice headquarters estate, for the period 2009-10.

	£	*Period*
Pot plants	[1]20,162.29	11 months

[1] Excluding VAT.

Note: Of which £10,503.66 is attributable to the Department; and £9,658.63 is attributable to its agencies occupying parts of the HQ estate.

The figures do not include costs from the Tribunal Service, Her Majesty's Court Service or the National Offender Management Service as no separate accounting code is used to record pot plants and to obtain this information would require a manual trawl of each Division at a disproportionate cost.

Driving Offences

Mark Hunter: To ask the Secretary of State for Justice what the average *(a)* fine and *(b)* length of sentence for an offence of dangerous driving was in each of the last 10 years. [320161]

Claire Ward: The requested information is provided in the following table:

Average fine and average length of sentence for dangerous driving[1], 1998 to 2008

	Average fine amount (£)	*Average custodial sentence length (months)*
1998	353.50	7.7
1999	361.38	7.8
2000	334.72	7.7
2001	366.98	7.9
2002	374.60	8.3
2003	386.79	8.5
2004	451.63	8.7
2005	437.90	8.5
2006	489.89	9.1
2007	530.58	8.9
2008	623.94	9.5

[1] Road Traffic Act 1988 S.2. Dangerous Driving.

[2] Excludes life and indeterminate sentences.

Notes:

1. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

2. The data have been taken from the Ministry of Justice Court Proceedings database. The data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.

Legal Aid Scheme: Negligence

Mr. Bellingham: To ask the Secretary of State for Justice how much was spent on legal aid for medical negligence cases in each of the last 10 years. [320008]

Bridget Prentice: Amount spent net of receipts on civil representation together with the value of claims submitted under legal help, under the clinical negligence category of law, in each of the last 10 years is shown in the following table.

£ million

	Civil representation	Legal help
	Expenditure	Value of claims submitted
1999-2000	31.0	
2000-01	34.0	0.7
2001-02	33.7	0.8
2002-03	30.4	1.0
2003-04	36.9	1.0
2004-05	25.8	1.0
2005-06	28.5	0.9
2006-07	25.2	0.8
2007-08	27.3	0.7
2008-09	27.0	0.9

Civil representation includes work carried out under a legal aid certificate in matters that may or do proceed to court. Net expenditure is net of funding that is recovered, including from 'settled cases' where the other side (i.e. the non-legally aided client) agrees to pay costs.

Legal help includes initial legal advice. The figures are only available from January 2000, when contracting was introduced. The value quoted in the table is the value of claims that providers have submitted.

Prisoners

Mr. Grieve: To ask the Secretary of State for Justice (1) how many prisoners from *(a)* the UK, *(b)* Ireland and *(c)* other European Economic Area countries serving mandatory life sentences have been released in each of the last five years; [320068]

(2) how many offences of *(a)* murder, *(b)* rape, *(c)* other homicide, *(d)* attempted murder and *(e)* attempted rape had been committed by offenders on End of Custody Licence. [320070]

Mr. Straw: The information requested is currently being collated by officials. I will write to the hon. Member once this work is complete and place a copy of the letter in the Library.

Mr. Grieve: To ask the Secretary of State for Justice how many prisoners from *(a)* Ireland and *(b)* other European Economic Area countries with mandatory life sentences are subject to probation supervision with a residential address in the UK. [320069]

Mr. Straw: This information is no longer held centrally and to collate it now would require a manual checking of paper files held in local probation areas, which can be undertaken only at a disproportionate cost.

The life licence lasts for the rest of the offender's life. Therefore, any life sentence prisoner residing in the UK would be subject to immediate recall to custody if he breached the conditions of his life licence.

John McDonnell: To ask the Secretary of State for Justice (1) how many prosecutions have been brought following the discovery of pornographic or violent images on mobile phones seized from prisoners; [320101]

(2) whether any prisoner has been charged with corrupting a public official during the last 12 months. [320084]

Claire Ward: The Court Proceedings Database holds information on defendants proceeded against, found guilty and sentenced for criminal offences in England and Wales. The Court Proceedings Database does not hold specific information on offences beyond descriptions provided by the statutes under which prosecutions are brought. Information available centrally on defendant's proceeded against does not identify whether the defendant is a prisoner.

Prisons: Mobile Phones

John McDonnell: To ask the Secretary of State for Justice whether his Department has *(a)* commissioned and *(b)* evaluated research into the means by which illicit mobile phones are brought into prisons. [320096]

Maria Eagle: The National Offender Management Service (NOMS) has not commissioned specific research into the means by which illicit mobile phones are brought into prisons. However, phones enter prisons by the same routes as other contraband: visitors; over the wall; post and parcels; reception; and remand prisoners and staff.

David Blakey CBE QPM DL, formerly Her Majesty's Inspector of Constabulary and Chief Constable of West Mercia, was commissioned by the Director General of NOMS, at the Justice Secretary's request, with undertaking a review of the effectiveness of HM Prison Service's measures for disrupting the supply of illicit drugs in prisons.

Mr. Blakey confirmed the five main routes for illicit drugs to get into prisons, and noted that the use of each route and the traffic flowing along it will alter from time to time and from place to place. He recognised the link between the availability of phones in prisons and the smuggling of illicit drugs. NOMS is determined to address the risks that mobile phones present to security and to the safety of the public. Our strategy is to: minimise the number of mobile phones entering prisons; find mobile phones that are smuggled into prisons; and disrupt mobile phones that we cannot find.

Prisons: Overcrowding

John McDonnell: To ask the Secretary of State for Justice what mechanisms are planned to assist new private prisons to reduce levels of prison overcrowding. [320094]

Maria Eagle: Crowding levels are set and managed carefully by the National Offender Management Service. Prison crowding occurs when the number of prisoners in an accommodation unit exceeds the certified normal capacity (CNA) of that unit. A prison's "certified normal accommodation" (CNA) is therefore its agreed capacity when there is no crowding. A prison's "operational capacity" is the maximum number of prisoners it is allowed to hold over and above CNA taking into account control, security and the proper operation of regimes. In addition operational managers must ensure that each cell used for the confinement of prisoners has sufficient heating, lighting and ventilation and is of adequate size for the number of prisoners to be held in it. Operational capacity in prisons is set by Directors of Offender Management on behalf of the Secretary of State in both publicly managed and contracted establishments.

The Government are committed to increasing substantially the capacity of the prison estate and plans to provide 96,000 places by 2014.

On 27 April 2009 the Justice Secretary announced that the Ministry of Justice plans to build up to five new 1,500 place prisons. The private and third sector will be invited to bid for the construction and operation of these new prisons and places are currently planned to be provided on an uncrowded basis.

Repossession Orders: Chelmsford

Mr. Burns: To ask the Secretary of State for Justice how many court orders for the repossession of homes in West Chelmsford constituency have been issued in each of the last five years. [320352]

Bridget Prentice: The following table shows the numbers of claims leading to orders being made for the repossession of property by mortgage lenders and landlords in the West Chelmsford constituency in each of the last five years.

These figures represent the numbers of claims leading to orders being made. This is more accurate than the number of orders, removing the double-counting of instances where a single claim leads to more than one order. It is also a more meaningful measure of the number of homeowners who are subject to court repossession actions.

These figures do not indicate how many properties have actually been repossessed. Repossessions can occur without a court order being made, while not all court orders result in repossession.

Tables showing the numbers of possession claims leading to an order in each constituency of England and Wales and in each year since 2000 for mortgages and 2003 for landlords have been placed in the Library of the House.

Number of mortgage[1] and landlord[2,3] possession claims leading to orders made[4,5,6,7] for properties in West Chelmsford constituency, 2005-09

	Mortgage possession	Landlord possession
2005	110	110
2006	115	120
2007	125	125
2008	145	150
2009	85	125

Notes:

1. Includes all types of mortgage lenders.
2. Includes all types of landlord whether social or private.
3. Landlord actions include those made under both standard and accelerated procedures. Landlord actions via the accelerated procedure enables the orders to be made solely on the basis of written evidence for shorthold tenancies, when the fixed period of tenancy has come to an end.
4. The number of claims that lead to an order includes all claims in which the first order, whether outright or suspended, is made during the period.
5. The court, following a judicial hearing, may grant an order for possession immediately. This entitles the claimant to apply for a warrant to have the defendant evicted. However, even where a warrant for possession is issued, the parties can still negotiate a compromise to prevent eviction.
6. Includes outright and suspended orders, the latter being where the court grants the claimant possession but suspends the operation of the order. Provided the defendant complies with the terms of suspension, which usually require the defendant to pay the current mortgage or rent instalments plus some of the accrued arrears, the possession order cannot be enforced.
7. All figures are rounded to the nearest 5.

Source:
Ministry of Justice.

SCOTLAND

Departmental Disciplinary Proceedings

Barry Gardiner: To ask the Secretary of State for Scotland how many *(a)* disciplinary and *(b)* capability procedures have been (i) initiated and (ii) completed in his Department in each of the last five years; how much time on average was taken to complete each type of procedure in each such year; how many and what proportion of his Department's staff were subject to each type of procedure in each such year; and how many and what proportion of each type of procedure resulted in the dismissal of the member of staff. [320625]

Ann McKechin: No disciplinary or capability procedures have been initiated or completed in the Scotland Office in each of the last five years.

Departmental Paper

Martin Horwood: To ask the Secretary of State for Scotland what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320026]

Ann McKechin: The Scotland Office participates in a contract, let by the Scottish Government, which prescribes the purchase of paper, and paper products, from recycled sources.

(a) Through this contract, the Scotland Office has both its paper and paper products supplied by Lyreco, with additional ad hoc purchases made through Banner Business Supplies, RR Donnelly and Piccolo Press.

(b) Brands of paper and paper products used by the Scotland Office are Impega, Evolve, Pukka, Black N Red, Sinclair, Avery, Collins, Elba, Xerox, Banner, Kleenex and Scott Performance.

Departmental Temporary Employment

Grant Shapps: To ask the Secretary of State for Scotland which companies his Department used to provide temporary staff in 2008-09; how many temporary staff were employed in that year; and what the monetary value of contracts with each such company in that year was. [320249]

Ann McKechin: Details of the companies used by the Scotland Office to provide temporary staff in 2008-09 are provided in the following table:

Company	*Number of staff*	*Cost (£)*
Kelly's	1	4,445.57
Eclipse	4	36,914.63
Michael Page International	1	18,971.55

Scottish Government

David Mundell: To ask the Secretary of State for Scotland how many meetings *(a)* he, *(b)* his predecessors and *(c)* other Ministers in his Department had with Scottish Executive Ministers in each month since May 2007. [320375]

Mr. Jim Murphy: Ministers and officials have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

PUBLIC ACCOUNTS COMMISSION

Illegal Immigrants

Mr. Syms: To ask the Chairman of the Public Accounts Commission how many staff the National Audit Office has appointed who were later discovered to be illegal immigrants since 2005. [320438]

Mr. Alan Williams: The National Audit Office has not appointed any staff since 2005 later discovered to be illegal immigrants.

Trade Unions

Mr. Syms: To ask the Chairman of the Public Accounts Commission how many days staff of the Public Accounts Commission spent on trade union activity in the latest year for which figures are available; and what recent estimate has been made of the annual cost to the public purse of such activity. [320672]

Mr. Alan Williams: No days were spent on trade union activity in 2009.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs by what means his Department will ensure any outcomes arising from the Axis 1 subsidies meet the required goals; and how those outcomes will be reported. [318781]

Dan Norris: Responsibility for delivery of Axis 1 of the Rural Development Programme for England (RDPE) lies mainly with the regional development agencies (RDAs). In considering any application for support from the programme, RDAs apply rigorous appraisal processes under which applications are assessed against a range of criteria and the extent to which they meet programme objectives and regional strategic priorities.

As managing authority for the programme, DEFRA retains overall responsibility for oversight of delivery of the programme and the achievement of outcomes. DEFRA maintains regular formal and informal liaison with the RDAs, who report frequently to DEFRA on the delivery of the programme. Regular reports are also made to the RDPE Programme Monitoring Committee, which comprises stakeholder and delivery bodies.

Monitoring and evaluation of the effectiveness with which the Axis 1 objectives are being met is carried out in accordance with procedures that are set out in EU legislation. These monitoring procedures include submission of an annual report by DEFRA. Programme evaluation is undertaken at the mid-point of the programme period (2007-13) and following the end of the programm period. The programme's mid-term evaluation proces will be carried out during 2010. Some RDAs are als undertaking targeted evaluation activity at a regiona level to help inform programme delivery.

Air Pollution

Mr. Evans: To ask the Secretary of State fo Environment, Food and Rural Affairs what estimate h has made of the level of *(a)* particulate and *(b* nitrous oxide emissions in each of the last five years [320340

Jim Fitzpatrick: Estimates of the UK emissions for a range of air pollutants are submitted annually to the United Nations Economic Commission for Europe's Convention on Long Range Transboundary Air Pollution. The following table shows the emission estimates for fine particles ($PM_{2.5}$), coarse particles (PM_{10}), nitrous oxide (N_2O) and nitrogen oxides (NO_x) in each of the last five years for which data are available.

Pollutant	*2004*	*2005*	*2006*	*2007*	*2008*
Fine particles, $PM_{2.5}$ (kt)	87	86	86	84	81
Coarse particles, PM_{10} (kt)	141	138	139	137	133
Nitrous oxide, N_2O (kt)	123	119	114	112	109
Nitrogen oxides, NO_x (kt)	1,708	1,682	1,654	1,557	1,403

Animal Feed

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what recent estimate he has made of the average fishmeal content of organic pig and poultry feed; [319569]

(2) what assessment he has made of the contribution of fishmeal to the nutritional content of organic pig and poultry feed; [319570]

(3) what recent research his Department has *(a)* commissioned and *(b)* undertaken on the effect on the organic classification of organic pig and poultry feed of the increase in fishmeal content. [319581]

Jim Fitzpatrick: EU rules for organic production (contained in Council Regulation 834/2007 and Commission Regulation 889/2008) require organic livestock to be fed entirely on organically produced feed. However, until 1 January 2012, they also permit 5 per cent. of the feed for organic pigs and poultry to be composed of conventionally produced materials when sufficient organic feed cannot be obtained. This concession currently allows for difficulties with sourcing protein ingredients for organic pig and poultry feed to be accommodated. DEFRA's Advisory Committee on Organic Standards is investigating the role that fishmeal can play, as a protein source for organic pig and poultry feed, when the requirement for these animals to be given 100 per cent. organic feed begins on 1 January 2012.

Animal Welfare

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs by what means his Department's health and welfare strategy indicators will be reported on *(a)* where the species of animal concerned is not covered by a sector council established under the England Implementation Group (EIG) and *(b)* following the disbandment of the EIG. [318782]

Jim Fitzpatrick: Arrangements for monitoring the Animal Health and Welfare Strategy are under review following the disbandment of the England Implementation Group. A decision has not yet been made on whether these indicators will continue to be updated in future. The last update of the Animal Health and Welfare Strategy Indicators was in autumn 2008 and is available on the DEFRA website.

Biodiversity

Nick Herbert: To ask the Secretary of State for Environment, Food and Rural Affairs when the collection of data for the 2008 UK Biodiversity Action Plan progress report was completed; and when he expects the report to be published. [318591]

Huw Irranca-Davies: Experts were invited to collect and submit information between September and December 2008. This was used to assess the status of Biodiversity Action Plan Priority Species and Habitats. The assessment was published in April 2009, as part of the update to the UK Biodiversity Indicators in Your Pocket. This can be found on the website of the Joint Nature Conservation Committee.

Nick Herbert: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to evaluate progress against the 2010 targets for priority species and habitats under the UK Biodiversity Action Plan. [318593]

Huw Irranca-Davies: We are considering carefully with our devolved colleagues and statutory advisers the options for assessing progress against the 2010 targets for priority species and habitats under the UK Biodiversity Action Plan.

Biofuels: Boilers

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to *(a)* control and *(b)* reduce emissions of (i) particulates and (ii) nitrous oxide from biomass boilers of less than 20 megawatts. [320342]

Jim Fitzpatrick: Pollution emissions from biomass boilers of less than 20 Megawatts thermal input are regulated under the Clean Air Act 1993, unless they are burning waste material at greater than 400 kW thermal input, or covered by a permit required under the waste incineration directive (2000/76/EC) depending on the nature of the biomass being burnt.

The existing controls for the remaining appliances arise from the Clean Air Act. Local authorities have the power to approve the grit and dust arrestment equipment fitted to appliances over a certain size as set out in regulation. Within smoke control areas designated by local authorities, only boilers exempt by Parliament can be installed.

In February, the Government launched a consultation[1] on the Renewable Heat Incentive (RHI) which proposes measures to encourage the uptake of renewable energy including biomass combustion.

Measures are included in the RHI requiring biomass boilers, including boilers less than 20 Megawatt, to meet high standards of emission performance for particles and nitrogen oxides (NO_x), though not for nitrous oxide (N_2O). The effect of these measures will be to reduce the emission of particles from biomass boilers by at least 60 per cent. for the same quantity of heat delivered, compared to the typical performance of current wood fuelled boilers.

[1] http://www.decc.gov.uk/en/content/cms/what_we_do/uk_supply/energy_mix/renewable/policy/renewable_heat/incentive/incentive.aspx

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in his Department have had five or more periods of sickness absence of less than five days in two or more of the last three years. [316465]

Dan Norris: As at 31 December 2009, out of a total of 10,092 staff in DEFRA and its agencies (excluding the Centre for Environment, Fisheries and Aquaculture Science (CEFAS)), 621 staff have had five or more periods of sickness absence of fewer than five days in two or more of the last three years. This figure has been based on the last three calendar years except for Rural Payments Agency, which has used financial years. CEFAS is implementing a new management information system and its figure is currently unavailable.

DEFRA and its agencies closely monitor sickness absence in line with their sickness absence policies and by benchmarking sick absence rates against Cabinet Office figures for the civil service. Policies and good working practices are in place to reduce frequent short-term sick absences. These include facilitating timely employee access to occupational health advice, medical or wellbeing interventions. Additionally, managers hold return-to-work interviews to discuss employees' reasons for absence, including any work-related issues connected with their absence. Where necessary, action plans will be agreed to improve employees' attendance at work.

Domestic Waste: Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 29 January 2010, *Official Report*, column 1135W, on "Audit Commission: Internet", if he will place in the Library a copy of the latest data on which local authorities collect residual household waste less than once a week according to records held by (a) his Department and (b) the Waste and Resources Action Programme. [319744]

Dan Norris: Data held by DEFRA and the Waste and Resources Action Programme showing which local authorities in England collected residual household waste less than once a week in 2008-09 have been placed in the Library.

Eels

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the effect on small-scale hydroelectric schemes of the obligation to provide eel passes. [319946]

Huw Irranca-Davies: Eel passes will be required wherever eels are present but are prevented from upstream migration; the Environment Agency will undertake an exercise to identify such locations during 2010.

The Environment Agency estimates that approximately 500 schemes (involving between 10-20 eel passes per scheme) will be required. Eel passes generally cost significantly less than those required to enable the migration of salmonids and can be in the order of between £500 to £2,000 per pass. However, where other substantial works are ongoing at the same time, the additional cost of building an eel pass or other easement can be much reduced. A separate assessment of the effect on small-scale hydroelectric schemes of the requirement to provide eel passes has not been made.

Environmental Permitting (England and Wales) Regulations 2010

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department plans to amend the Environmental Permitting Regulations; and if he will make a statement. [319525]

Dan Norris: The Environmental Permitting (England and Wales) Regulations 2010 are currently before Parliament and are anticipated to come into force on 6 April 2010. These regulations form part of the second phase of environmental permitting, which will amend and expand the current regime.

Fish: Conservation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will have discussions with ministerial colleagues on the public procurement of *(a)* fish and *(b)* shellfish to increase the proportions procured from sustainable sources. [318899]

Huw Irranca-Davies: My colleague, the Minister for Farming and the Environment has spoken or written to Ministers with responsibility for procurement to encourage them to procure food that has been sourced sustainably which includes the procurement of fish and shellfish. The latest report on food used in Government Departments shows that eight Departments purchased 100 per cent. of their fish from sustainable sources and for a further Department the figure was 99 per cent. We are also considering the case for introducing a minimum mandatory buying standard for central Government for food and catering, including for the procurement of seafood from sustainable sources.

Fisheries

Lembit Öpik: To ask the Secretary of State fo Environment, Food and Rural Affairs what recent research his Department has *(a)* commissioned and *(b)* undertaken on the effects on aquatic reefs and plants from trawling; and if he will make a statement. [319571]

Huw Irranca-Davies: DEFRA does not currently fund any research aimed specifically at examining the damage caused by trawling on aquatic reefs and plants. Earlier research has however helped to establish the extent to which fishing practices such as trawling had on the wider benthic community.

This early work has enabled us to be better informed about how we might help protect sensitive habitats such as reefs. DEFRA is currently funding a research project in Lyme Bay to examine how the seabed recovers within a Marine Protected Area. No scallop dredging or bottom trawling is allowed and the project aims to monitor the effects of the MPA, including the recovery of benthic communities.

Reefs are one of the habitats listed for which Special Areas of Conservation (SAC) are required to be designated under the EC habitats directive. Between 2004 and 2009 the Joint Nature Conservation Committee carried out a number of surveys in UK offshore waters to identify reef sites suitable for SAC designation. Details of these surveys can be found at:

http://www.jncc.gov.uk/page-4544

To date 37 SACs with reef as a qualifying habitat have been designated, with further sites subject to consultation or further analysis of data. By the end of 2012 it is estimated that around 36 per cent. of the UK reef habitat will be protected by European designations.

You will be interested to note that Charting Progress 2, which is due to be published in July 2010, has examined both the state and impact from pressures such as fishing on different components of the marine ecosystem, within the marine environment, to provide an overall assessment of the UK's seas.

Further details of DEFRA's current research programme can be found by following this link:

http://randd.defra.gov.uk/

and carrying out a word search (for example 'fisheries').

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of non-target species accidentally caught as a result of industrial fishing techniques in *(a)* 2007, *(b)* 2008 and *(c)* 2009. [319572]

Huw Irranca-Davies: Industrial fishing is the term applied to fishing activity where the catch is intended for processing into fish meal and oil rather than for human consumption. Industrial fishing uses smaller meshed nets than human consumption fisheries as they are targeting fish which are small even when fully grown and this will inevitably lead to the capture of small, often immature, individuals of other species.

In European waters, industrial fishing is undertaken for blue whiting, Norway pout, sandeel and sprat. The Norway pout and sandeel fisheries are exclusively industrial and are conducted in the North sea and Skagerrak, while the blue whiting fishery is only partly industrial and considerably more geographically widespread.

Fish stocks in EU waters are assessed by the International Council for the Exploration of the Sea (ICES). There are linkages between sandeel fishing and other species through by-catch, although scientific advice indicates that by-catches of prime human consumption species within the sandeel fishery are relatively small compared to the fisheries for human consumption.

ICES annually calculates industrial by-catches; i.e. landings of non-target species, for whiting and haddock in the North sea. Landings of North sea whiting from the industrial fisheries were 1,230 tonnes and 1,020 tonnes in 2007 and 2008, respectively. Landings of North sea haddock from the industrial fisheries were 48 tonnes and 199 tonnes in 2007 and 2008, respectively.

ICES has yet to analyse the data for 2009 and hence results will not be available until later in 2010.

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what recent research his Department has *(a)* commissioned and *(b)* undertaken on the effect on the level of fish stocks of industrial fishing techniques; and if he will make a statement. [319573]

Huw Irranca-Davies: The information is as follows:

(a) My Department and the Scottish Executive have, in the past, commissioned research into industrial fishing. Although there are currently no specific projects being undertaken, the UK Government continue to support work on sandeels and their predators.

Most recently, a major study by the Centre for Environment, Fisheries and Aquaculture Science which investigated the direct and indirect impacts of the sandeel fishery off the coast of eastern England was completed in March 2007. In addition, the Scottish Executive supported an EU-funded project: 'Interactions Between the Marine Environment, Predator Implications for Sustainable Sandeel Fisheries', which concluded before 2007.

(b) On the effect on the level of fish stocks of industrial fishing techniques, the UK, through the Scottish Government continues to support work on sandeels and their predators, through monitoring of the north-east UK area closure. Local studies of cod, haddock and whiting predation on sandeels before and after the closure was introduced in 2000, found no evidence of an effect, although the reduction in fishing mortality did lead to an increase in the abundance of age one and older sandeels. The lack of a fishing effect probably had more to do with the difference in the age of sandeel taken by these predators and the fishery.

The cod, haddock and whiting in this study mostly fed on young sandeels of the year, whereas the fishery targeted age one and older sandeels. The local abundance of cod and haddock in the study-region reflected wider North sea wide trends, suggesting that local conditions were not determining abundance. Had there been significant numbers of large cod and haddock in the region, then competition between the sandeel fishery and these species may have been more important, since the size and age of sandeels taken is limited by predator size.

The UK will continue to monitor industrial fisheries in EU waters.

Fuel Oil: Recycling

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's policy is on encouraging the re-use of waste oils. [319526]

Dan Norris: DEFRA's policies on waste oils are set out in Waste Strategy for England 2007. We are currently considering the responses to the stage one consultation on the transposition of the revised Waste Framework Directive (2008/98/EC), including the provisions in article 21 on waste oils.

Incinerators

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's policy on mass-burn incineration of household waste is. [319619]

Dan Norris: Government policy is to manage waste as far up the waste hierarchy as possible—with energy from waste ranking higher than landfill but below waste prevention, re-use, and recycling. The Government's view of incineration and similar technologies is that they form just one among several approaches, all of which are needed for sustainable and effective waste management.

It is recognised that there will always be some waste streams that cannot be re-used, recycled or composted and recovering energy from that waste, including by incineration, results in less greenhouse gas emissions compared to the alternative of landfill. Producing energy from this waste, which would otherwise have gone to landfill, not only contributes to reducing carbon emissions, but also counts towards our renewable energy targets by displacing fossil fuel power generation.

The choice in technology needs to reflect local circumstances, with reference to the relevant waste strategies and plans, so that proposed waste incineration plants are of an appropriate type and scale and do not prejudice the achievement of local, regional or national waste management targets.

Moorland: Environment Protection

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to protect wildlife in areas of heather moorland. [320338]

Huw Irranca-Davies: Natural England is taking action to protect and manage heather moorland habitats and is also taking additional steps to recover threatened species. A total of 354,000 hectares of heather moorland (comprising blanket bog and upland heathlands) have been designated as Sites of Special Scientific Interest (SSSIs). On 1 March 2010, 91 per cent. of these SSSIs were in favourable or recovering condition (up from about 57 per cent. in September 2006). 95 per cent. of eligible heather moorland is under agri-environment agreement.

In addition, about 40 heather moorland species have been listed as species of principal importance for the conservation of biological diversity under section 41 of the Natural Environment and Rural Communities Act 2006. Many of these species, including hen harrier, black grouse and juniper, benefit from targeted recovery plans.

Nanotechnology

Dr. Iddon: To ask the Secretary of State for Environment, Food and Rural Affairs how many entries have been registered under the voluntary reporting scheme for nanomaterials since its inception. [319921]

Dan Norris: A trial of the UK's voluntary reporting scheme for engineered nanomaterials was carried out between September 2006 and September 2008. DEFRA received 13 submissions to the scheme during this period. Although the scheme has now officially closed submissions are still accepted.

Dr. Iddon: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government plan to bring forward proposals for a mandatory reporting scheme for nanomaterials used in consumer products. [319922]

Dan Norris: As stated in the Government's June 2009 response to the Royal Commission for Environmental Pollution's December 2008 Report "Novel Materials in the Environment: The Case of Nanotechnology", we recognise that, given increasing interest in this area, additional work to boost our understanding is required. Work is currently ongoing to define in more detail how any successor to the voluntary reporting scheme could effectively be introduced, including whether or not it should be mandatory.

Dr. Iddon: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government plan to publish its Nanotechnology Strategy. [319923]

Dan Norris: The Government intend to publish their Nanotechnologies Strategy during March 2010.

Origin Marking: Israel

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of the European Court of Justice's ruling on goods from Jewish settlements in the occupied West Bank on his Department's policies on food imports. [320608]

Jim Fitzpatrick: The European Court of Justice's recent ruling in the case of C-386/08 (Brita-Gmbh) concerned the procedures which a EU member state's customs authority should follow in a case where imported goods are shown as being of Israeli origin, and preferential customs tariff treatment is claimed under the EC-Israel Association Agreement, but where there is reason to suppose that the goods in question did in fact originate in the Occupied Palestinian Territories (OPTs).

This ruling will have no effect on DEFRA's policies on food imports originating in the OPTs; since the Court's ruling confirms the correctness of the procedures that are already operated in the UK by HM Revenue and Customs. There are no inconsistencies between the Court's ruling and the technical guidance concerning the labelling of produce grown in the OPTs that was issued by DEFRA on 10 December 2009.

Renewable Energy: Fuel Oil

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions his Department has had with representatives of the waste oil regeneration industry; and if he will make a statement. [319845]

Dan Norris: We continue to maintain regular contact with the waste oil industry on a variety of issues affecting the management of waste oil.

Representatives of the waste oil processing industry are members of the Stakeholder Group relating to the transposition of the revised Waste Framework Directive (2008/98/EC), including the provisions in Article 4 on the waste hierarchy and Article 21 on waste oils. They were also involved in the Hazardous Waste Steering Group, which helped advise on proposals for a Strategy for Hazardous Waste Management in England.

The Hazardous Waste Steering Group and the Waste Framework Stakeholder Group last met on 29 September and 11 November 2009 respectively.

Renewable Energy: Waste

Mr. Heald: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what discussions the joint working group on energy from waste policy plans to hold on regulatory barriers to energy from waste deployment; [319330]

(2) who has attended each meeting of the joint working group on energy from waste policy; [319331]

(3) which Departments have officials on the joint working group on energy from waste policy. [319332]

Dan Norris: The Energy from Waste Project will consider the main factors affecting the deliverability of energy from waste plant. The project includes five workstreams on:

(i) Potential volumes of waste that could be used to produce energy

(ii) Technology choice

(iii) Location and scale of plants, including planning considerations

(iv) Financial issues affecting delivery of energy from waste plant

(v) Communications.

The Energy from Waste Project Board held its first meeting on 27 January, 2010 with officials from the following Government Departments and agencies attending:

DEFRA

Department of Energy and Climate Change (DECC)

Department for Transport (DfT)

Department for Communities and Local Government (CLG)

Department for Business, Innovation and Skills (BIS)

The Environment Agency.

The Energy from Waste Project Board includes officials from the following Government Departments:

DEFRA

DECC

DfT

CLG

BIS

HM Treasury.

River Severn

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department has *(a)* commissioned and *(b)* evaluated on the effects of the dam on the River Severn at Shrewsbury on the flow of the River Severn and its tributaries in Montgomeryshire; and if he will make a statement. [320167]

Huw Irranca-Davies: The Environment Agency, in conjunction with Shropshire council, has assessed the potential benefits of combining a proposed road scheme with a flood storage area and dam in Shrewsbury to reduce flood risk along the River Severn.

The aim was to discover whether the combination of both schemes could make the flood storage area and dam more viable. The work carried out has shown that there are no financial savings in having a combined scheme and there are no current plans to progress the construction of a dam in Shrewsbury.

A hydraulic river model was constructed as part of this work and a copy of the report has been placed in the Library of the House.

Seas and Oceans: Environment Protection

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to publish the draft statement setting out the principles of an ecologically coherent network of marine protected areas under the Marine and Coastal Access Act 2009; and if he will make a statement. [319435]

Huw Irranca-Davies: The written statement to fulfil the requirement in Section 123(6) of the Marine and Coastal Access Act 2009 will be laid before Parliament by the Secretary of State on 10 or 11 March 2010.

The statement will set out the principles and other matters that Government will follow when designating a network of Marine Protected Areas (MPAs). They include: the seven principles of ecological coherence which will underpin the network design; Government's commitment to an ecologically coherent network of MPAs by 2012; social and economic considerations; protection levels for MPAs including sites to allow recovery of damaged or diminished features; and links with other legislation such as the marine strategy framework directive.

The Government believe the ecologically coherent network of MPAs created through the Act will represent a significant step towards our vision for clean healthy, safe, productive and biologically diverse oceans and seas, and increase resilience to climate change.

Slaughterhouses

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the investigations conducted by Animal Aid into practices at slaughterhouses; and if he will take steps to ensure that those establishments adhere to high animal welfare practice standards. [320405]

Jim Fitzpatrick: The Meat Hygiene Service (MHS), an Executive agency of the Food Standards Agency, enforces the Welfare of Animals (Slaughter or Killing) Regulations 1995 in slaughterhouses on behalf of DEFRA. Animal cruelty within a slaughterhouse is not tolerated by the MHS who take appropriate enforcement action if there are breaches of animal welfare legislation.

Animal Aid passed to the MHS undercover footage taken in four abattoirs during 2009, where CCTV footage appeared to show evidence of animal cruelty by slaughterers at two slaughterhouses. In one of the slaughterhouses a slaughterer has had his licence revoked and the case has been referred for prosecution along with the operator of the plant. In the second two, slaughterers have had their licences revoked and a third slaughterer has been suspended. The case has been referred for investigation with a view to prosecution.

Trees: Urban Areas

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate the Forestry Commission has made of the *(a)* initial and *(b)* maintenance cost of planting and maintenance of an urban tree. [319618]

Huw Irranca-Davies: The Forestry Commission in England has made an estimate of the cost of planting a tree in an urban site in London as part of the London Trees and Woodlands Grant Scheme. This varies from between £250 for planting in a grass verge to £450 for planting in paved areas. Protective guarding of a tree can add £130. Maintaining a tree for the first three years, which includes watering, general maintenance and formative pruning is estimated at £300.

Waste Disposal

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs in which Government Office regions *(a)* regional waste awareness initiatives and *(b)* waste prevention networks are in operation; and what funding has been provided for such activity in each region in the latest period for which figures are available. [319622]

Dan Norris: Waste awareness and prevention initiatives run in each Government office region. These vary widely across the country from those run solely for local authorities to arrangements covering a broader range of partners; the funding arrangement are equally varied. More details are available from individual Government offices.

The Government-funded Waste and Resources Action Programme (WRAP) delivers the national 'Love Food Hate Waste' campaign. Information and resources are available for use by local government at a regional and local level as part of this campaign. In addition WRAP has provided advisory support to a number of regional waste prevention initiatives through its local authority support programme.

Waste Disposal: EC Action

Mr. David Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to publish the final version of the End of Waste Protocol; and if he will make a statement. [319086]

Dan Norris: On 23 and 26 November 2009 the European Commission and Austria respectively commented under Article 8(2) of the Technical Standards Directive on the draft end-of-waste protocol for fuel produced from waste lubricating oil that the UK notified under Article 8(1) of the directive. The UK responded to both sets of comments on 15 February 2010. In doing so, it was confirmed that the UK intended to adopt the end-of-waste protocol on the basis notified to the Commission on 27 August 2009 and that the UK would communicate the definitive text to the Commission in compliance with Article 8(3) of the directive. The Environment Agency expects to publish the definitive text before the end of March 2010.

Water Charges: Voluntary Organisations

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to his Department's press release of 14 July 2009, on surface water draining charges, what system of surface water charging for voluntary groups is in operation in each water company area. [318332]

Huw Irranca-Davies: Four of the 10 water and sewerage companies in England and Wales—Northumbrian Water, Severn Trent Water, United Utilities and Yorkshire Water—charge non-household customers for surface water drainage according to impermeable site area. The remaining six—Anglian Water, Southern Water, South West Water, Thames Water, Welsh Water and Wessex Water—charge for surface water drainage according to the rateable value of a premises and/or include the charge in their standing charges and/or volumetric charges.

TRANSPORT

Aviation: Exhaust Emissions

Norman Baker: To ask the Minister of State, Department for Transport what assessment he has made of the likely effect on airline profits on the inclusion of aviation in the EU Emissions Trading Scheme. [320406]

Paul Clark: A review of the available evidence found that, while some studies were suggesting that airlines could potentially pass on 100 per cent. of the costs of EU ETS allowances to passengers, other studies suggested that the level of cost passed on would depend on a number of factors, such as the level of competition faced on individual routes.

The impact on airline profits in practice will only become apparent after aviation has joined the EU ETS from 2012.

Norman Baker: To ask the Minister of State, Department for Transport what estimate he has made of the level of *(a)* UK and *(b)* EU carbon emissions from aviation in (i) 2004, (ii) 2006 and (iii) 2009; and what estimate he has made of each such level in (A) 2012 and (B) 2015. [320576]

Paul Clark: UK aviation carbon dioxide (CO_2) emissions in 2004 and 2006 can be found at:

http://www.decc.gov.uk/en/content/cms/statistics/climate_change/gg_emissions/uk_emissions/2008_final/2008_final.aspx

The source of the data is AEA/Department of Energy and Climate Chance (DECC).

The following table shows the Department's latest forecasts for total CO_2 emissions from all flights departing from UK airports in 2009, 2012 and 2015.

	Total CO_2 (million tonnes)
2009	39.2
2012	43.5
2015	46.1

Notes:

1. Data are for UK departures only (both international and domestic).

2. These forecasts refer to the central demand scenario and capacity scenario s12s2, as presented in UK Air Passenger Demand and CO_2 Forecasts, January 2009.

3. These CO_2 forecasts include freight, APU and a residual adjustment to ensure consistency with the DECC outturn estimate.

The Department does not collect or forecast EU level CO_2 emissions data. Emissions inventories for other EU countries are available on the UNFCCC website. This can be found at:

http://unfccc.int/national_reports/items/1408.php

Capita Group

Mr. Touhig: To ask the Minister of State, Department for Transport on how many occasions Capita Group plc tendered for contracts let by his Department in each of the last five years; how many such tenders were successful; how much his Department paid to Capita Group plc for the execution of contracts in each such year; how many contracts which terminate after 2010 Capita Group plc hold with his Department; and what the monetary value is of all outstanding contracts between his Department and Capita Group plc. [303160]

Chris Mole: The Department for Transport does not hold centrally information relating to tendering activity, contracts awarded and the values of such contracts and this could be provided only at disproportionate costs.

However, following a search across the Department and its Executive agencies, it is known that Capita Group plc tendered and were awarded the following contracts/framework agreements:

	Number of tenders	*Number of contracts awarded*
2005	4	2
2006	10	8
2007	12	8
2008	12	8
2009	7	5

Departmental Buildings

Mr. Philip Hammond: To ask the Minister of State, Department for Transport how much his Department spent on office refurbishments in each year since its inception. [320510]

Chris Mole: The information requested can be provided only at disproportionate cost.

Departmental Internet

Mr. Heald: To ask the Minister of State, Department for Transport how many designs for its website his Department has commissioned since 2005. [318642]

Chris Mole: The Department last commissioned a new design for its corporate website:

www.dft.gov.uk

in 2005. The design work was commissioned as part of a larger project to implement a new Content Management System.

Departmental Legal Costs

Pete Wishart: To ask the Minister of State, Department for Transport how much his Department spent on external legal advice in *(a)* 2008 and *(b)* 2009. [318798]

Chris Mole: In the past two financial years the Department for Transport (including its agencies) has spent the following on external legal services:

2007-08: £3,297,415.19

2008-09: £12,410,668.11

The reason for the significant difference in spend from 2007-08 to 2008-09 is due to change to the Department's accounting system in 2008 which culminated in some historical data not being available. Recovery of this data could have been obtained only at disproportionate cost.

Departmental Paper

Martin Horwood: To ask the Minister of State, Department for Transport what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320025]

Chris Mole: The Department for Transport and its Executive Agencies use the following suppliers and brands of paper and paper products:

Suppliers:

Antalis, Banner Business Services, Howard Smith Paper, James McNaughton, Premier Paper Group, Robert Home Group, Taylor Brothers, The Paper Company, Unicorn Office Products, United and Viking Direct

Brands of office paper for printing and copying:

Banner, EP4, Evolve, Premier Paper, Securi Monde, Steinbeis, Xerox

Brands of paper for printed publications:

9 Lives, Cacoon, Green Coat, Evolution, Revive.

Brands of paper products:

3M, 5 star, Adare, Avery, Basildon Bond, Cambridge, Conqueror, FT Print, Graffico, HP, Jiffy, Kleenex, MBA, New Guardian, Niceday, NP, Office Depot, Oxford, Paragon, Post-it, Q connect, RR Donnelly, Sasco, SMI, Stralfors, Taylor Brothers, Unicorn Office, Unique and Viking

The Department conducts its procurement in accordance with UK Government's value for money policies and principles, utilising collaborative arrangements where these are available and in accordance with the legal and regulatory framework. Where possible, the Department purchases recycled products that meet the current Department for Environment, Food and Rural Affairs (DEFRA) 'Buy Sustainable Quick Wins' guidance.

Directly Operated Railways and East Coast Main Line Company

Stephen Hammond: To ask the Minister of State, Department for Transport (1) how much has been paid by *(a)* and *(b)* East Coast Trains for the use of office space in his Department since July 2009; [319598]

(2) for how long he expects to let office space in his Department to *(a)* Directly Operated Railways and *(b)* East Coast Trains. [319600]

Chris Mole *[holding answer 1 March 2010]*: From the 6 May, Directly Operated Railways will move from Department for Transport premises to offices in Kemble Street, London. In relation to the period up to this date, the value of use of office space in the Department for Transport was taken into account when Directly Operated Railways' grant was set on creation.

In relation to East Coast I refer the hon. Gentleman to my answer of 25 February 2010, *Official Report*, column 666W.

Driving Tests: Motorcycles

Mark Williams: To ask the Minister of State, Transport what casual sites for motorcycle testing have been brought into use since April 2009; and what the cost was of making each such site suitable for motorcycle testing. [320266]

Paul Clark: No casual sites have been brought into use since April 2009. There were 16 Vehicle and Operator Services Agency (VOSA) and six casual sites available to use when the new motorcycling test was implemented on 27 April 2009. Of these sites, 13 VOSA and four casual sites remain operational with five now having been replaced by permanent multi-purpose test centres (MPTCs).

Other VOSA and casual sites will be replaced as permanent MPTCs become operational locally.

The total cost of preparing and maintaining the VOSA and casual sites for use for module one motorcycle testing is forecast to be £2.5 million.

Driving: Licensing

Chris Huhne: To ask the Minister of State, Department for Transport how many people *(a)* over and (b) under retirement age in each police force area have had their driving licence withdrawn in each of the last five years. [320130]

Paul Clark: The information requested is not readily available and would incur disproportionate costs to gather. However, the following table provides the number of people *(a)* over and *(b)* at or below 65, whose driving licence has been withdrawn for the reasons quoted.

	Medically withdrawn/refused		*Disqualified*		*Revoked*		*Total*	
	(a)	*(b)*	*(a)*	*(b)*	*(a)*	*(b)*	*(a)*	*(b)*
2009	9,979	15,632	2,658	132,945	740	73,386	13,377	221,963
2008	9,328	12,718	3,297	153,787	805	88,230	13,430	254,735
2007	8,833	11,038	3,894	168,954	640	71,916	13,367	251,908
2006	7,757	9,588	4,152	174,695	436	61,692	12,345	245,975
2005	6,070	7,351	2,534	79,388	306	33,311	8,910	120,050

Exhaust Emissions

Norman Baker: To ask the Minister of State, Department for Transport what estimate he has made of the total carbon dioxide emissions from shipping in the UK in the last 10 years; and what projection he has made of such emissions from shipping in the UK in the next *(a)* 10, *(b)* 20 and *(c)* 50 years. [317027]

Mr. Khan: Shipping carbon dioxide (CO_2) emissions for the last 10 years can be found at:

http://www.decc.gov.uk/en/content/cms/statistics/climate_change/gg_emissions/uk_emissions/2008_final/2008_final.aspx

The source of the data is AEA/Department of Energy and Climate Change (DECC).

Forecasts of carbon dioxide emissions from UK domestic shipping in 2010, 2015, 2020 and 2022 were included in the Department for Transport's "Carbon Pathways Analysis" report. This report is available to download from the Department's website at

http://www.dft.gov.uk/pgr/sustainable/analysis.pdf

Projections of reportable carbon dioxide emissions from international shipping for all years between now and 2022 were included in HM Treasury's "Building a low-carbon economy" report. This report is available from the HM Treasury website at

http://www.hm-treasury.gov.uk/d/Budget2009/bud09_carbon_budgets_736.pdf

Grimsby

Mr. Austin Mitchell: To ask the Minister of State, Department for Transport if he will set out, with statistical information related as directly as possible to Great Grimsby constituency, the effects of his Department's policies on that constituency since 1997. [320186]

Mr. Khan: Our policies and legislation since 1997 have provided a new framework benefiting all local transport authorities. The framework gives greater certainty of funding, while encouraging more strategic transport planning with local consultation, and increasing local flexibility and discretion over resources. It has been accompanied by a significant increase in capital funding: support from the Department for transport investment in North East Lincolnshire, within which transport authority Great Grimsby falls, has more than doubled over the last decade.

Investment in North East Lincolnshire council's local transport plan has delivered a number of improvements to the quality, safety and accessibility of the local transport network. Between 2004 and 2008, bus patronage per head of population increased by 19 per cent. and the number of people killed or seriously injured on the local highway network decreased by 13 per cent. in the period 2001-07.

In 2002, North East Lincolnshire council received a total of £719,000 from the Department's Urban and Rural Bus Challenge funds to establish the Phone 'n' Ride community travel initiative. Phone 'n' Ride is a demand-responsive bus service for those members of the community who have difficulty accessing employment, education, healthcare and leisure services due to a lack of transport.

In 2005, North East Lincolnshire council submitted a successful bid to the Department for 'Kickstart' revenue funding of improvements to the Grimsby and Cleethorpes bus network. The £523,000 award facilitated the introduction of high-frequency services on routes 13 and 14, linking the area's main residential estates with Grimsby and Cleethorpes town centres. It was accompanied by an investment of almost £2 million by Stagecoach in 23 new low-floor buses for the service.

Following a successful bid by North East Lincolnshire council and First TransPennine Express, it was announced in April 2006 that Grimsby Town station would receive £53,000 to improve disabled access and facilities. The improvements, funded as part of the Department's Access for All Strategy, include an enlarged waiting room, improved flooring and lighting, and a new ticket window.

Local Government: Statistics

Mr. Stewart Jackson: To ask the Minister of State, Department for Transport what performance *(a)* indicators and *(b)* datasets outside the National Indicator Set local authorities are regularly required to provide to his Department. [319613]

Mr. Khan: None.

M40: Repairs and Maintenance

Tony Baldry: To ask the Minister of State, Department for Transport what assessment he has made of the likely effects of the implementation of his Department's policy on the North West Bicester eco-town on the timing of the allocation of funding for improvement made by the Highways Agency on junction 9 of the M40 motorway. [318982]

Chris Mole: I recognise that current capacity constraints at junction 9 are directly inhibiting the wider potential for growth within the Bicester area.

I wrote to the leader of Oxfordshire county council in November 2009 confirming that the Highways Agency is committed to an interim scheme, commencing in the spring of 2010-11, to improve the movement of traffic onto the A34 southbound from the M40 southbound at junction 9. The Department for Transport remains committed to deliver the proposed medium-term solution subject to the outcome of any forthcoming spending review.

My officials are working closely with Cherwell district council and Oxfordshire county council in developing the transport aspects of their proposals and a planning application is expected to be submitted shortly. I expect that priority will be given to more sustainable transport options, as set out in the Planning Policy Statement on eco-towns published in July 2009, which is consistent with the key aims set out in "Developing a Sustainable Transport System".

Motorways: Accidents

Norman Baker: To ask the Minister of State, Department for Transport how many accidents have taken place between motorway junctions where there is hard shoulder running in each of the last five years. [319048]

Chris Mole: Hard shoulder running was introduced on the M42 between J3A and J7 on 12 September 2006 and normally operates at peak travel times or when there is an incident.

The accident data for the M42 J3a to 7 cover all personal injury accidents for the period to the end of 2008 and are as follows:

	2004	2005	2006	2007	2008
M42 J3a-J4	11	9	4	4	10
M42 J4-J5	15	10	12	13	14
M42 J5-J6	18	23	20	17	9
M42 J6-J7	12	7	3	6	6
Total	56	49	39	40	39

More significantly the rate of personal injury accidents has dropped from 5.1 per month to 1.8 since the implementation of this scheme.

Motorways: Road Traffic

Norman Baker: To ask the Minister of State, Department for Transport what estimate he has made of the cost to the public purse of hard shoulder running in the latest period for which figures are available. [319049]

Chris Mole: The estimated cost to the Highways Agency of hard shoulder running between Junctions 3a and 7 on the M42 is associated with the following four main areas of additional activity and cost.

Additional advanced motorway indicators over the hard shoulder—estimated cost of annual maintenance is £25,000.

Fixed CCTV cameras to monitor the hard shoulder—estimated costs of annual maintenance is £80,000.

Control room staff to open, close and monitor use of hard shoulder running—estimated annual cost is £38,000.

Additional traffic officer patrols to undertake pre-opening inspections of the hard shoulder and manage incidents—estimated annual cost of staff and vehicles is £66,000.

There are several additional areas for which it is not possible to disaggregate costs including power, sweeping and salting of the emergency refuge areas. These costs are considered to be negligible.

Motorways: Standards

Norman Baker: To ask the Minister of State, Department for Transport what the average delay in minutes has been between motorway junctions where there is hard shoulder running in each of the last five years. [319047]

Chris Mole: Hard shoulder running was introduced on the M42 between Junction 3A and Junction 7 on 12 September 2006 and normally operates at peak travel times or when there is an incident.

In measuring delay the Highways Agency defines a free flow theoretical reference speed. For the M42, this is approximately 66 mph. Delay is measured as the actual measured speed of traffic compared to this reference speed and is quoted as the delay per 10 vehicle kms.

The following table shows the results for the M42 Junctions 3A to 7 for the last five years.

Delay per 10 vehicle km

					Minutes
	2005 total	2006 total	2007 total	2008 total	2009 total
M42 between M42 J3A and M42 J3 (LM503)	0.33	0.42	0.35	0.44	0.43
M42 between M42 J3 and M42 J3A (LM504)	0.53	0.67	0.51	0.64	0.42
M42 between M42 J5 and M42 J4 (LM505)	1.00	1.36	1.58	1.33	1.04
M42 between M42 J4 and M42 J5 (LM506)	1.38	1.65	1.38	1.46	1.14
M42 between M42 J6 and M42 J5 (LM507)	1.26	1.56	1.67	1.38	1.41
M42 between M42 J5 and M42 J6 (LM508)	1.31	1.56	1.43	1.32	1.06
M42 between M42 J7 and M42 J6 (LM509)	1.58	1.69	1.54	1.46	1.56
M42 between M42 J6 and M42 J7 (LM510)	1.32	1.47	1.33	1.31	1.03

The primary objective of managed motorway schemes is to improve journey time reliability. In the case of the M42 this has improved by 22 per cent. since the implementation of the scheme.

Official Engagements

Dr. Murrison: To ask the Minister of State, Department for Transport what ministerial engagements the Parliamentary Under-Secretary of State for Transport has planned on each day until 6 May. [319008]

Chris Mole: I have accepted speaking engagements on the 9 March and 22 March. It is not usual practice to release details of future engagements other than confirmed speaking engagements.

Petrol: Ethanol

Mr. Greg Knight: To ask the Minister of State, Department for Transport if he will require all petrol containing ethanol to be labelled prominently as such at the fuel pump. [319898]

Mr. Khan: Fuel pumps dispensing petrol containing more than 5 per cent. biofuel (including ethanol) are required to be labelled "Not suitable for all vehicles: consult vehicle manufacturer before use" by virtue of the Biofuel (Labelling) Regulations 2004 (SI 2004 No 3349). Where petrol contains more than 10 per cent. ethanol, an additional label indicating this will be required from 5 December 2010, by virtue of a forthcoming amendment to the 2004 Regulations, implementing a requirement of the EU renewable energy directive (2009/28/EC).

Railways: Bexley

Mr. Evennett: To ask the Minister of State, Department for Transport what progress has been made on reducing overcrowding on passenger rail services from stations in the London borough of Bexley to London terminals. [319471]

Chris Mole: Southeastern has carried out a survey of crowding on trains and are currently looking at measures to address crowding on specific services.

Railways: Poole

Mr. Syms: To ask the Minister of State, Department for Transport how much money his Department has spent on railway *(a)* track and *(b)* station improvements in Poole constituency in each year since 1997. [320391]

Chris Mole: This is an operational matter for Network Rail as the owner and operator of the national rail network. The hon. Member should contact Network Rail's chief executive at the following address for a response to his questions:

Iain Coucher
Chief Executive
Network Rail
Kings Place
90 York Way
London, N1 9AG.

Railways: Standards

Norman Baker: To ask the Minister of State, Department for Transport what information his Department holds on the number of trains which were *(a)* cancelled and *(b)* delayed by each train operating company in each of the last five years; and how many of those cancellations occurred on (i) peak, (ii) weekday off-peak and (iii) weekend services. [319045]

Chris Mole: I refer the hon. Member to the answer given on 27 January 2010, *Official Report*, columns 880-82W, showing the number of trains cancelled and the number of trains arriving late at destination.

Data on the number of trains which may have suffered a delay en route as opposed to arriving late at destination, are not held by the Department for Transport.

Data are held recording the number of cancellations in peak hours for London and South East operators, and are given in the following table. The remaining data requested are not held by the Department.

	Peak cancellations				
Train operating company	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
c2c	328	268	278	222	219
Chiltern Railways	241	278	240	185	192
First Capital Connect	983	1,069	962	773	1,067
First Great Western	245	238	316	330	260
London Midland	106	63	109	76	276
London Overground	90	57	47	49	37
National Express East Anglia	805	991	1,260	974	897
South West Trains	881	877	945	582	981
Southeastern	1,246	1,089	986	953	1,431
Southern	1,108	911	801	652	938

Roads: Snow and Ice

Mrs. Villiers: To ask the Minister of State, Department for Transport whether he has had discussions with the Secretary of State for Health in 2010 on the salt and grit supplies held by hospitals. [316891]

Mr. Khan: As part of the collective response by the Government to the severe weather, a number of discussions have been held with ministerial colleagues during Cabinet level meetings convened on this matter.

Furthermore, the salt suppliers are holding salt for distribution to non-highway users. They determine priorities for distributing this, separately from the Salt Cell. However, non-highway salt users may seek mutual aid arrangements with local authorities and others if they wish. In critical cases, where these arrangements are not working, health organisations are encouraged to raise the issue with the Department of Health.

Mr. Stewart Jackson: To ask the Minister of State, Department for Transport what information his Department holds on the quantity of salt held by each local authority; and for which local authorities his Department holds no up-to-date information. [319614]

Mr. Khan: An updated table has been placed in the Libraries of the House, which shows how many tonnes of salt local authorities estimate they have available, according to the local authority salt audit returns the Department for Transport had received at 10 a.m. on 25 February.

These figures provide a snapshot of one day and may not fully reflect the regional weather, salt delivery dates, weather preparedness or distribution practices.

Waterloo Station

Susan Kramer: To ask the Minister of State, Department for Transport if he will instruct BRB (Residuary) Ltd. to ensure that no commercial development takes place under the platforms of Waterloo International Terminal which would significantly delay bringing into use the former Eurostar platforms at Waterloo for domestic passengers. [319030]

Chris Mole: The Department for Transport is working closely with BRB (Residuary) Ltd. to ensure that the timing of any commercial development of the space below the platforms at Waterloo International station does not adversely impact upon any plans to bring the platforms into use for domestic passengers.

Susan Kramer: To ask the Minister of State, Department for Transport whether any commercial development is permitted to take place under the former Eurostar platforms at Waterloo; and whether Network Rail has permitted development rights to integrate the platforms into use for domestic passengers. [319031]

Chris Mole: Any commercial development under the former Eurostar platforms at Waterloo would be subject to planning permission from the local authority (LB Lambeth).

Network Rail does not enjoy permitted development rights to integrate the platforms into use for domestic passengers as Waterloo International terminal is owned by British Railways Board (Residual) Limited.

Susan Kramer: To ask the Minister of State, Department for Transport what estimate his Department has made of the likely timetable for converting the former Waterloo International platforms for use for domestic passengers. [319259]

Chris Mole: The Department for Transport is currently in discussion with the British Railways Board (Residuary) Limited, Network Rail and Stagecoach South West Trains to establish what would be the most cost-effective way to integrate Waterloo International terminal into the domestic station that maximises benefits for the short, medium and long term.

HOME DEPARTMENT

Alcoholic Drinks: Fixed Penalties

Chris Grayling: To ask the Secretary of State for the Home Department how many penalty notices for disorder were issued to persons aged 16 and over for an offence of being drunk and disorderly in England and Wales in each of the last five years. [315063]

Alan Johnson: The number of persons issued with a penalty notice for disorder for drunk and disorderly related offences in England and Wales, from 2004 to 2008 is provided in the following table.

Number of persons issued with a penalty notice for disorder for drunk and disorderly related offences in England and Wales, from 2004 to 2008[1, 2, 3]

Offences		*2004*	*2005*	*2006*	*2007*	*2008*
Drunk and disorderly offences	Penalty notices for disorder	29,106	40,176	46,268	49,062	45,849

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the more severe.

[2] Data include the following offence descriptions and corresponding statutes:
Being found drunk in a highway or other Public place whether a building or not, or a licensed premises.
Licensing Act 1872 Sec 12.
Any person who in any public place is guilty, while drunk, of disorderly behaviour.
Criminal Justice Act 1967 Sec 91.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
Justice Statistics Analytical Services in the Ministry of Justice
Ref: IOS 60-10

Arrests: Young People

Chris Huhne: To ask the Secretary of State for the Home Department (1) how many people aged *(a)* under 10, *(b)* 10 to 12, *(c)* 13 to 15 and *(d)* 16 to 18 years old have been arrested for each offence in each police force area in each year since 1997; [319823]

(2) how many people aged *(a)* under 18, *(b)* 18 to 29, *(c)* 30 to 59 and *(d)* over 60 years old have been arrested for each category of offence by each police force in each year since 1997. [319079]

Alan Johnson *[holding answer 1 March 2010]*: The arrests collection held by the Home Office covers arrests for recorded crime (notifiable offences) only, broken down at a main offence group level, covering categories such as violence against the person and robbery. The data are also broken down by age groups which are (a) aged under 10, (b) aged 10-17, (c) aged 18-20, (d) aged 21 and over, (e) age unknown and so we can only provide data in these age groups and not that which is requested.

The data requested covering the period from 2000-01 to 2007-08 have been placed in the House Library. Data prior to 2000-01 are not available.

Data for 2008-09 are due to be published in early April 2009-10.

Asylum: Newcastle upon Tyne

Jim Cousins: To ask the Secretary of State for the Home Department what assessment he has made of the merits of the establishment of an asylum seeker reception centre in Newcastle upon Tyne; and what discussions he has had with the Strategic Migration Partnership and Newcastle-upon-Tyne City Council on such a proposal. [318820]

Mr. Woolas: The UK Border Agency is proposing to open initial accommodation for asylum seekers in the North East. Agency staff discussed this proposal with its key partners in the North East in April 2009. These discussions included both the North East Strategic Migration Partnership and the North East Consortium for Asylum Support Services. In addition, the UK Border Agency's regional director for the North East, Yorkshire and the Humber discussed the proposal with the chief executive, Newcastle city council when they met on 22 February.

UKBA launched a formal competition to provide initial accommodation in the North East with its target providers at the end of December 2009. An invitation to bid was sent to the North East Consortium for Asylum Support Services and the North East Strategic Migration Partnership was notified of the competition in January 2010.

Departmental Grants

Chris Grayling: To ask the Secretary of State for the Home Department to which faith-based organisations his Department has made grants in each of the last five years; and what the *(a)* monetary value and *(b)* purpose of the grant was in each case. [317768]

Alan Johnson: The Home Office funds a wide range of organisations to deliver outcomes related to Home Office objectives. Although it is not always possible to tell from the information available to us whether organisations would regard themselves as faith-based, the information set out in the table is based on those organisations where it is clear they are, and consider themselves to be, faith-based.

The Department has made the following payments to faith-based organisations within the last five years:

Recipient	*Monetary value* *Year*	*£*	*Purpose*
Street Pastors	2006-07	10,000	Diversionary and other community-based projects that work with young people at risk of involvement in gangs and the use of weapons
	2007-08	5,000	
Peace Alliance	2006-07	10,000	London Week of Peace
	2007-08	75,000	
	2008-09	75,000	
Christian Police Association	2004-05	5,000	General funding towards association's aims and objectives (grant in Aid funding)
	2009-10	10,000	
National Association of Muslim Police	2008-09	45,000	General funding towards association's aims and objectives (grant in Aid funding)
	2009-10	45,000	
St. Luke's Parochial Trust	2009-10	54,000	Target hardening homes against burglary in Camden (under Securing Homes Action Against Burglary (SHAAB) grant stream)
Peterborough Salvation Army	2009-10	21,000	Target hardening homes against burglary in Peterborough (under Securing Homes Action Against Burglary (SHAAB) grant stream)

Departmental Internet

Mr. Heald: To ask the Secretary of State for the Home Department how many designs for its website his Department has commissioned since 2005. [318649]

Mr. Woolas: The Home Office has commissioned two redesigns since 2005.

Departmental Telephone Services

Mr. Maude: To ask the Secretary of State for the Home Department what the *(a)* average time to answer a call, *(b)* average waiting time for members of the public during a call, *(c)* percentage of calls dropped or not answered and *(d)* average length of calls was in call centres run by his Department and each of its agencies in the latest period for which figures are available. [312376]

Mr. Woolas: The Core Home Office does not run any call centres. Please see the information requested in the following table in respect of the Home Office Executive Agencies:

	United Kingdom Border Agency	*Criminal Records Bureau*	*Identity and Passport Service*
Average time to answer a call	5 minutes 45 seconds	9 seconds	Calls are answered on second ring by automated response
Average waiting time for members of the public during a call	6 minutes 54 seconds	7 seconds	10 seconds to speak to agency after selecting from automated response
Percentage of calls dropped or not answered	26.7 per cent	0.80 per cent	1.5 per cent
Average length of calls	4 minutes 02 seconds	2 minutes 45 seconds	4 minutes 30 seconds

The figures provided in the above table for UKBA and CRB are based on monthly figures available for December 2009. Figures for IPS provided are based on averages from monthly returns for Authentication. By Interview (ABI) and Adviceline calls.

UKBA have made improvements to their procedures for answering calls over the past six months. There is an action plan in place to deliver further improvements.

Deportation: Commonwealth

Angus Robertson: To ask the Secretary of State for the Home Department how many people from each Commonwealth country have been deported in *(a)* each of the last three years and *(b)* 2010 to date. [319580]

Mr. Woolas: The following table shows the number of nationals of each Commonwealth country removed or departed voluntarily, 2007 to 2009. Figures for 2010 are not currently available. Statistics for the first quarter of 2010 will be published on the 27 May 2010.

The Home Office publishes statistics on the number of persons removed or departed voluntarily from the UK on a quarterly and annual basis, which are available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Removals and voluntary departures of Commonwealth nationals from the United Kingdom[1, 2], by country of nationality[3], 2007 to 2009[4]

			Number of departures
Country of nationality	*2007*	*2008[7]*	*2009[7]*
Antigua and Barbuda	65	35	40
Australia	655	680	670
Bahamas	10	10	10
Bangladesh	1,310	1,850	1,200
Barbados	75	95	80
Belize	15	15	10
Botswana	80	55	70
Brunei	5	10	10
Cameroon	365	235	235
Canada	795	845	785
Cyprus	10	5	*
Dominica	60	50	50

Rwanda[6]	35	30	30
Samoa	*	*	5
Seychelles	75	40	40
Sierra Leone	255	190	120
Singapore	115	120	100
Solomon Islands	5	—	—
South Africa	1,900	1,645	1,290
Sri Lanka	775	705	695
St. Kitts and Nevis	30	20	20
St. Lucia	165	160	115
St. Vincent and the Grenadines	90	80	75
Swaziland	40	45	30
Tanzania	155	165	170
Tonga	10	10	10
Trinidad and Tobago	350	310	270
Tuvalu	—	—	*
Uganda	425	455	390
Vanuatu	5	—	—
Zambia	120	140	140
Commonwealth total	26,230	27,480	24,080

[1] Includes enforced removals, persons departing voluntarily after notifying the UK Border Agency of their intention to leave prior to their departure, persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration, persons who it has been established left the UK without informing the immigration authorities and non-asylum cases refused entry at port and subsequently removed.

[2] Figures include dependants.

[3] Includes Commonwealth member states as at 25 February 2010, the full list is available from the Commonwealth Secretariat website at www.thecommonwealth.org

[4] Figures rounded to the nearest five (— = 0, * = one or two) and may not sum to the totals shown because of independent rounding.

[5] Following the decisions taken by the Commonwealth Ministerial Action Group on 31 July 2009, Fiji Islands was suspended from membership of the Commonwealth on 1 September 2009.

[6] Rwanda joined the Commonwealth in November 2009.

[7] Provisional figures. Removals and voluntary departures recorded on the system as at the dates on which the data extracts were taken. Figures will under record due to data cleansing and data matching exercises that take place after the extracts are taken.

Deportation: Offenders

Mr. Clappison: To ask the Secretary of State for the Home Department (1) how many foreign national offenders who have been subject to the *(a)* early removal and *(b)* facilitated return scheme have been (i) charged with and (ii) convicted of a further offence; [317314]

(2) what the average length of custodial sentence has been of a foreign national prisoner participating in the *(a)* early removal and *(b)* facilitated return scheme; [317315]

(3) how many foreign national prisoners of each nationality have participated in the *(a)* early removal and *(b)* facilitated return scheme in each year since their inception; [317316]

(4) what the monetary value of the average financial package received by foreign national prisoners is as a result of participation in the *(a)* early removal and *(b)* facilitated return scheme; [317317]

(5) how many foreign national prisoners participating in the *(a)* early removal and *(b)* facilitated return scheme were serving a custodial sentence of (i) four years or less, (ii) three years or less and (iii) two years or less at the latest date for which figures are available. [317318]

Mr. Woolas *[holding answer 22 February 2010]:* All foreign nationals subject to removal will be considered by National Offender Management Service under the early removals scheme (ERS), which allows for early removal up to a maximum of 270 days prior to the halfway point of the sentence, subject to the serving of a requisite period. Since 2008, the UKBA has removed approximately 11,000 foreign national prisoners. Of these, approximately a quarter were removed before the end of the sentence under the ERS and approximately 30 per cent. were removed under the facilitated returns scheme.

We do not publish a breakdown by nationality of the foreign national prisoners removed or deported from the UK. Information on total removals and voluntary departures from the UK by nationality is published quarterly. The latest can be found at:

http://www.homeoffice.gov.uk/rds/pdfs09/immiq309 supp1.xls#'TableF'!A1

Of those removed directly from prison under ERS since 2008, the average sentence length was between three and four years and approximately two-thirds were serving a sentence of less than four years.

Of those removed from the UK under the FRS scheme since 2008, the average sentence length was between two and three years and approximately three-quarters were serving a sentence of less than four years.

This is taken from provisional management information and subject to change. Data from before 2008 could be obtained only by referencing individual case files. This would be at disproportionate cost.

In both 2008 and between quarters 1 and 3 of 2009 less than three-quarters removed under FRS claimed the reintegration package on return and of those that did, the average amount received was less than £2,500 for 2008 and £3,500 for quarters 1 to 3 of 2009. There is no financial package associated with ERS.

All foreign national prisoners are entered on the watch list when removed so checks can be made to prevent those who are barred and those who have no right from entering the UK. To provide information on foreign nationals who have been removed and gone on to re-offend would require the examination of individual records which would incur disproportionate cost.

Electronic Government: International Cooperation

Chris Grayling: To ask the Secretary of State for the Home Department what work *(a)* his Department, *(b)* the Identity and Passport Service and *(c)* each of his Department's other agencies has carried out with or for Project STORK in each of the last five years. [318710]

Alan Johnson: Project STORK started in June 2008 and the Identity and Passport Service is leading the UK contribution to the project. Some preparatory work was undertaken from 2007 until the formal start of the project. During this time work on the project has fallen into two phases. The first has been analysis and design to enable technical implementation and meet legal requirements. The second is the implementation of a number of pilot projects, starting later this year.

Entry Clearances: Skilled Workers

Mr. Frank Field: To ask the Secretary of State for the Home Department pursuant to the answer of 8 December 2009, *Official Report*, columns 221-22W, on entry clearances, how many permits under Tier 2 general were issued in each month of 2009. [318670]

Mr. Woolas *[holding answer 25 February 2010]:* The following table provides detail of the numbers of in-country grants of leave to remain and out of country visas issued under Tier 2 (General) of the Points Based System in each month of 2009.

	Tier 2 (General)	
	In country	*Out of country*
January	168	147
February	566	305
March	772	453
April	687	557
May	1,032	756
June	1,356	883
July	1,636	886
August	1,561	1,078
September	1,191	977
October	1,201	856
November	1,136	821
December	1,275	839
Total	12,581	8,558

The table above is based on approved main applications only. This data are not provided under National Statistics protocols. They have been derived from local management information and are therefore provisional and subject to change.

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department how many individuals, waited between their first application to the National Referral

Mechanism and receiving their conclusive grounds decisions for *(a)* up to seven days, *(b)* eight to 45 days, *(c)* 46 days to three months, *(d)* three to six months and *(e)* over six months in the latest period for which figures are available. [318963]

Mr. Woolas *[holding answer 1 March 2010]:* Between 1 April 2009 and 31 December 2009, 132 decisions have been made at the conclusive grounds stage. From the date of referral *(a)* no conclusive grounds decision were released in the first seven days, *(b)* 24 were released in eight to 45 days, *(c)* 65 in 46 days to three months, *(d)* 39 in three to six months and *(e)* four took over six months.

Mr. Steen: To ask the Secretary of State for the Home Department what the *(a)* average and *(b)* maximum number of case owners is in respect of each potential human trafficking case that has been referred through the National Referral Mechanism since 1 April 2009. [318972]

Mr. Woolas *[holding answer 1 March 2010]:* The majority of National Referral Mechanism cases are assessed by two officers. Upon referral, a case will be allocated to a competent authority case owner who will decide if someone is a victim of trafficking. Before the decision is released it will then be considered by a second person, normally a senior competent authority, to quality assure the decision.

In cases where a referral has been made by an external agency such as the police or local authority, and where there is an immigration issue but the person is not yet known to UKBA, the UK Human Trafficking Centre (UKHTC) will make the reasonable grounds decision and then pass the case to the UKBA Competent Authority for the conclusive grounds decision. In these circumstances cases will be considered by four officers at various stages of the NRM process.

There will be instances where a case is assigned to a competent authority who becomes unavailable part way through consideration due to illness or a change in role. These circumstances are rare but where they occur they will result in the case being reallocated to another case owner.

Mr. Steen: To ask the Secretary of State for the Home Department how much time elapsed between the asylum interview and a conclusive grounds decision in respect of the case of each potential victim of human trafficking referred to the National Referral Mechanism on the latest date for which figures are available. [319835]

Mr. Woolas *[holding answer 1 March 2010]:* The National Referral Mechanism (NRM) for identifying victims of human trafficking includes a decision on whether a person is conclusively found to be a victim of trafficking. This is separate from the asylum system, which involves an assessment of whether someone has a well founded fear of persecution under the 1951 Geneva Convention.

It will be under a particular set of circumstances where there has been an asylum application leading to an asylum interview as well as a conclusive grounds trafficking decision for the same individual. Moreover the timing of the separate processes is not directly linked. Where an asylum application is made, it can be before, during or after a referral and conclusive grounds decision under the NRM.

The following is a table of cases where there has been an asylum interview and a conclusive grounds decision under the NRM with their respective dates:

Case number	*Date of asylum interview*	*Date of conclusive grounds decision*
1	6 April 2009	19 April 2009
2	6 April 2009	30 June 2009
3	15 April 2009	17 March 2009
4	5 May 2009	17 September 2009
5	1 May 2009	24 August 2009
6	30 April 2009	8 July 2009
7	6 May 2009	11 June 2009
8	18 May 2009	16 July 2009
9	8 October 2009	13 November 2009
10	5 August 2009	23 October 2009
11	12 March 2009	15 October 2009
12	2 March 2009	17 September 2009
13	8 April 2009	17 June 2009
14	27 March 2009	24 August 2009
15	9 June 2009	29 September 2009
16	24 August 2009	27 October 2009
17	22 September 2009	2 October 2009
18	22 August 2009	16 September 2009
19	25 June 2009	9 September 2009
20	3 February2009	29 October 2009
21	2 March 2009	29 September 2009
22	24 August 2009	11 November 2009
23	26 August 2009	3 September 2009
24	9 August 2007	14 December 2009
25	3 November 2009	20 November 2009
26	7 September 2009	30 October 2009
27	14 September 2009	27 November 2009
28	7 August 2009	7 April 2009

49	19 November 2009	1 December 2009
50	17 November 2009	30 October 2009
51	9 February 2009	22 June 2009
52	17 July 2009	30 October 2009
53	30 July 2009	14 August 2009
54	3 November 2009	26 November 2009
55	20 January 2010	16 December 2009

Identity and Passport Service

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what planning applications the Identity and Passport Service has submitted in the last 18 months; and in respect of which addresses. [319665]

Meg Hillier: The Identity and Passport Service has submitted two planning applications as detailed in the following table:

Date	*Address*	*Planning reference*	*Detail*	*Status*
18 May 2009	Aragon Court, Northminster Road, Peterborough, Cambridgeshire, PE1 1QG	09/00544/FUL	Installation of two roof mounted heat pump units	Granted in full.
8 February 2010	Law Society House, 90-106 Victoria St. Belfast BT1 3JZ	Z/2010/0106/F	New external louvers to rear elevation and roof top plant to existing office accommodation	This application has been checked for completeness and is considered to be valid. The application will now be subject to: neighbour notification, advertising, consultation with statutory agencies, and if necessary, other organisations and a site inspection.

Identity and Passport Service: Manpower

Chris Grayling: To ask the Secretary of State for the Home Department how many people worked for the Identity and Passport Service *(a)* in 2006 and *(b)* at the latest date for which figures are available; and how many are projected to work for it in 2015. [318706]

Alan Johnson: As published in the 2006-07 Annual Report, the average number of employees on the Agency payroll during the year ending 31 March 2007 was 3,619.

The latest published figures are also available in the 2008-09 Annual Report which shows that the average number of employees on the Agency payroll during that year was 4,078. This figure includes the GRO staff who joined the Agency from 1 April 2008.

IPS does not have a projected headcount for 2015.

Identity Cards

Chris Grayling: To ask the Secretary of State for the Home Department what *(a)* Government departments, *(b)* non-governmental public bodies and *(c)* other organisations (i) have and (ii) are planned to have access to information held on the national identity database. [318708]

Alan Johnson: No organisation will have direct access to information recorded on the National Identity Register, with or without the consent of the individual. The Identity Cards Act 2006, and secondary legislation made there under, sets out who may be provided with information from an individual's entry on the register and under what circumstances.

Chris Grayling: To ask the Secretary of State for the Home Department if he will make it his policy not to introduce compulsory identity cards. [318715]

Alan Johnson: Government policy is that Identity Cards are voluntary. The Prime Minister has made it clear that there will be no legislation to make Identity Cards compulsory for British citizens in the next Parliament. Identity cards are all about personal choice and the introduction of identity cards, which has now started for British citizens, is on a voluntary basis.

Identity Cards: EU Action

Chris Grayling: To ask the Secretary of State for the Home Department what the nature is of the relationship between the Identity and Passport Service and Project STORK. [318770]

Alan Johnson *[holding answer 25 February 2010]:* The Identity and Passport Service is leading the UK contribution to Project Stork as a member of a consortium within the EU who are working together to pilot a cross border solution for the delivery of e-services. The project is part of the European Union Competitiveness and Innovation Framework Programme.

Illegal Immigrants: Employment

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what the name and address is of each business the UK Border Agency has fined for hiring illegal immigrants in the last 24 months. [319617]

Mr. Woolas: Since the introduction of civil penalties which came into effect for those employed on, or after 29 February 2008, a total of 3,709 notices of liability for a civil penalty to the period 31 January 2010, have been issued to employers hiring illegal workers. These data are derived from local management information and are therefore provisional and subject to change. It is not practical to list the names and addresses of all those employers but details of employers where the appeal process against service of a notice of liability for a civil penalty has been fully exhausted in the last quarter can be found on the UK Border Agency website at the following link:

www.ukba.homeoffice.gov.uk/sitecontent/documents/employersandsponsors/listemployerspenalties/

The information is listed by region and includes the name of the business, the town or city where it is located, the postcode of the business, the number of illegal workers found to be working illegally and the amount of the civil penalty imposed.

Immigration Controls

Mr. Frank Field: To ask the Secretary of State for the Home Department how many Certificates of Sponsorship have been granted to employers under *(a)* Tier 2 general and *(b)* Tier 2 ICT to date; and how many such certificates for the second year of Tier 2 of the points-based system remain under consideration. [318427]

Mr. Woolas *[holding answer 24 February 2010]:* As at 21 February 2010 the number of Certificates of Sponsorship (CoS) assigned to employers under Tier 2 (General) is 36,140[1] and the number assigned for Intra-company transfer is 40,980[1].

Information on the number of certificates for the second year of Tier 2 which remain under consideration is not available.

[1] These figures are not provided under National Statistics protocols and have been derived from local management information. They are therefore provisional and subject to change.

Local Government Finance

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what datasets not included in the National Indicator Set local authorities are required to submit to *(a)* his Department and *(b)* its agencies. [319616]

Mr. Hanson: The Home Office does not place any statutory obligations on local authorities to submit, for either performance management or monitoring purposes, any datasets to the department or its agencies, other than the National Indicator Set.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for the Home Department when he expects to reply to the email from the hon. Member for West Worcestershire, dated 17 December 2009, on asylum seekers (reference: M27601/9). [319456]

Mr. Woolas *[holding answer 1 March 2010]:* I replied to the hon. Member's e-mail under reference M27605/9 on 19 January 2010.

I will arrange despatch of a further copy of that reply.

Metropolitan Police

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department if he will make it his policy to review the process by which senior police officers in the Metropolitan Police are appointed; and if he will make a statement. [319851]

Mr. Hanson: The Government are supportive of the Commissioner having a strong role in appointments. The Policing and Crime Act 2009 reinforces this by making it a statutory obligation for the Metropolitan Police Authority to consult the Commissioner in making senior appointments. This process will be kept under review.

Passports: Fraud

Angus Robertson: To ask the Secretary of State for the Home Department how many fraudulent passport applications were made in 2009; and how many of those applications involved *(a)* identity theft and *(b)* false declarations where the individual was otherwise entitled to a passport. [319577]

Meg Hillier: IPS estimates that in the calendar year 2009 there were 13,396 fraudulent passport applications. The number of confirmed frauds detected in 2009 was around 8,600 of which 167 involved identity theft. IPS does not routinely collate data where a false declaration has been made where the applicant was otherwise entitled to a passport.

Police: Bureaucracy

Chris Grayling: To ask the Secretary of State for the Home Department (1) what estimate he has made of the proportion of police officer time spent on paperwork in each year since 1997; [319529]

(2) what estimate he has made of the proportion of police officer time spent on beat patrol in each year since 1997; [319530]

(3) what estimate he has made of the proportion of police officer time spent on patrol *(a)* on foot and *(b)* in cars in each year since 1997. [319531]

Alan Johnson: Information on time spent on patrol and paperwork was collected between 2003-04 and 2007-08 as part of the frontline policing measure and is set out in the following table. Information was not collected on time spent on patrol in cars and on foot. To reduce paperwork burdens on police officers the collection of data about time spent by officers on police activities ceased after 2007-08 in response to the recommendations by Sir David Normington in his review of data burdens placed by the Government on the police service published in February 2009.

The figure for time spent on patrol does not include everything done by an officer engaged in frontline policing. It only measures the time an officer is engaged on no other activity but patrol, for example as soon as they respond to an incident they are counted against that activity and not patrol. It is therefore inappropriate to look at the patrol element in isolation from the rest of the frontline policing measure.

Policing necessarily requires a degree of paperwork: to ensure accountability in the use of powers, prepare case files, and take witness statements. Non-incident paperwork includes handling complaints. All of these activities are part of providing a modern, effective and accountable police service.

Time spent on patrol and paperwork 2003-04 to 2007-08

Percentage

	Total time spent on paperwork	*Time spent on incident-related paperwork*	*Time spent on non incident related paperwork*	*Time spent on patrol*	*Frontline policing measure*
2003-04	20.1	10.3	9.8	14.2	62.1
2004-05	18.4	9.9	8.5	15.3	62.6

Time spent on patrol and paperwork 2003-04 to 2007-08

Percentage

	Total time spent on paperwork	*Time spent on incident-related paperwork*	*Time spent on non incident related paperwork*	*Time spent on patrol*	*Frontline policing measure*
2005-06	19.3	10.8	8.5	14.0	63.1
2006-07	19.9	11.4	8.5	13.6	64.2
2007-08	21.7	12.4	9.3	13.8	64.9

Chris Grayling: To ask the Secretary of State for the Home Department what estimate he has made of the proportion of police officer time spent on health and safety-related activities in each year since 1997. [319533]

Alan Johnson: Information relating to the proportion of time spent on 'health and safety-related activities' is not held centrally.

The health, safety and welfare of police officers is the responsibility of the chief officer of each individual police force.

Prison Sentences: Deportation

Mr. Grieve: To ask the Secretary of State for the Home Department how many prisoners from *(a)* Ireland and *(b)* each other European Economic Area country serving mandatory life sentences have been deported or removed in each of the last five years. [320071]

Mr. Woolas *[holding answer 2 March 2010]:* Since 2007, the UK Border Agency has removed or deported over 15,000 foreign national offenders. Of those removed or deported, less than three in every thousand previously served a mandatory life sentence.

Information from before this period could be obtained only by reviewing individual records. This would be a disproportionate cost.

As a general rule, it is our policy not to disclose the volume or characteristics of those removed to specific countries as it would jeopardise our diplomatic relations. This exemption would normally include EEA countries but, in the case of the Irish Republic and consistent with the special relationship that exists between the UK and the Republic of Ireland, I can confirm that, approximately 30 Irish national prisoners have been removed since 2007.

CHILDREN, SCHOOLS AND FAMILIES

Cadet Forces

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils at *(a)* grammar, *(b)* comprehensive and *(c)* Academy schools were members of cadet forces in the last year for which figures are available. [316722]

Mr. Kevan Jones: I have been asked to reply.

The information required is not held in the format requested. The data provided reflects only the category of 'State' schools (noting that for the purposes of Combined Cadet Force (CCF) data collated by MOD, all other schools are categorised as Independent).

As at 1 April 2009, and subject to the caveats mentioned above, there were 7,579 School pupils who were members of their State School's Combined Cadet Force. However, given that the majority of Cadets are members of a community-based Cadet unit, it is estimated that some 90,000 cadets are state school pupils. In the same timeframe there were some 130,000 cadets overall. It should also be noted that there are 25 known partnerships where Independent Schools with CCFs provide cadet places to neighbouring State schools; for these partnerships it is not possible to identify the numbers of State School cadets.

Full statistics on cadet forces can be found on the Defence Analytical Services and Advice organisation's website in their Tri-Service Publication (TSP) 7:

www.dasa.mod.uk

Children: Day Care

Mr. Stewart Jackson: To ask the Secretary of State for Children, Schools and Families what steps his Department and its predecessors have taken to reduce the cost of child care to parents and carers in London since 2005. [319663]

Dawn Primarolo: As a result of changes introduced since 2004, all families in London (as elsewhere in England) with three and four-year-olds are entitled to 12.5 hours of free early learning and child care per week, and this will rise to 15 hours per week from September 2010. Since September 2009, all local authorities in London have also received funding of 10 hours of free early learning and child care per week to their 15 per cent. most disadvantaged two-year-olds.

Parents in London can also receive support for child care costs through the tax credits system. In 2006, the threshold of costs that were available to parents was increased from 70 per cent. to 80 per cent. In London the number of families benefiting increased by over 12,000 between 2004-05 and 2007-08 (the latest year for which figures are available).

From 2005 to 2009, a joint initiative by the Government and the London Development Agency, the London Childcare Affordability Pilots 2005, offered parents more affordable and flexible child care places. At its peak the pilot provided over 6,000 subsidised flexible day care places.

Since 2009 the Childcare Affordability Pilots have been trialling with London families two possible improvements to the support for child care costs that they receive through the child care element of working tax credit. The pilots are assessing the impact on child care take up of offering families 100 per cent. of their child care costs up to £215 per week for one child rather than the usual £140; and, for families with a disabled child, paying 80 per cent. of their child care costs up £300 per week for one child. Both strands offer up to £350 per week if parents have more than one child.

Children's Centres: South West

Mr. Drew: To ask the Secretary of State for Children, Schools and Families how many children's centres are *(a)* open and *(b)* planned to be opened in the next 12 months at each location in each local authority area in the south west. [316055]

Dawn Primarolo: The table setting out the number of Sure Start Children's Centres that have *(a)* opened and *(b)* planned to be opened in the next 12 months at each location in each local authority area in the south west as at 31 December 2009, has been placed in the Libraries.

Class Sizes: Salford

Hazel Blears: To ask the Secretary of State for Children, Schools and Families what the average class size in schools in Salford was in *(a)* 1997 and *(b)* 2009. [317388]

Ms Diana R. Johnson: The average class size in maintained primary schools in Salford constituency was 26.0 in 1997 and 24.6 in 2009; the figures for state funded secondary schools were 21.4 and 18.4 respectively.

Figures include middle schools as deemed. City technology colleges and academies are included under secondary.

Pre-school Education: Leeds

Greg Mulholland: To ask the Secretary of State for Children, Schools and Families how many *(a)* free nursery and *(b)* pre-school places were available for children aged (i) three and (ii) four years old in Leeds North West constituency in each year since 1997. [319508]

Dawn Primarolo: Table 1 shows the number of part-time equivalent places filled by three and four-year-olds in Leeds North West constituency from 2004 to 2009.

The Department publishes information on the part-time equivalent number of free early education places filled by three and four-year-olds in maintained, private, voluntary and independent providers. Information on the number of pre-school places is not separately available. Part-time equivalent places are derived by counting children taking up 12 and a half hours per week as one place, 10 hours per week as 0.8 places, seven and a half hours per week as 0.6 places, five hours per week as 0.4 places and two and a half hours per week as 0.2 places. Data at parliamentary constituency level are not available prior to 2004.

Table 2: Part-time equivalent number of free early education places[1, 2, 3] filled by three and four-year-olds[4], parliamentary constituency: Leeds North West position in January each year

	Three-year-olds	Four-year-olds
2004	570	720
2005	590	600
2006	600	710
2007	660	690
2008	710	650
2009	760	700

[1] A place is equal to 12.5 hours (five sessions) and can be filled by more than one child.

[2] Figures are rounded to the nearest 10.

[3] Prior to 2004, information on early education places was derived from returns made by local authorities as part of the nursery education grant (NEG) data collection exercise. These data were collected at local authority level, therefore data for this parliamentary constituency is not available prior to 2004.

[4] Age of all children taken at 31 December in the previous calendar year.

Source:

Early Years Census and School Census.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release (SFR) 11/2009 "Provision for children under five years of age in England: January 2009", available on the Department's website:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000848/index.shtml

Pupil Exclusions

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 22 February 2010, *Official Report*, column 312W, on National Safeguarding Delivery Unit: standards, how many pupils received more than *(a)* 15 and *(b)* 20 fixed period exclusions in each local authority area in (i) 2006-07 and (ii) 2007-08. [319165]

Ms Diana R. Johnson: The requested information is shown in the following table.

Primary, secondary and special schools[1, 2, 3] number of times pupil enrolments were excluded for a fixed period[4] 2006/07 and 2007/08

	2006/07		2007/08

[1] Includes middle schools as deemed.

[2] Includes city technology colleges and academies (including all-through academies).

[3] Includes maintained and non-maintained special schools. Excludes general hospital schools.

[4] Pupils may be counted more than once if they were registered at more than one school or moved schools during the school year.

Notes:

1. Those pupils counted in the 'more than 20' category are also included in the 'more than 15' category.
2. Figures rounded to nearest 10.

Source:

School Census

Sports: Primary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of *(a)* comprehensive and *(b)* maintained primary schools which held a school sports day in the latest period for which figures are available. [315705]

Mr. Iain Wright: The annual PE and Sport survey collects data from maintained schools relating to pupils' participation in PE and sport. The 2008/09 survey found that all primary schools and 98 per cent. of secondary schools held a sports day during the last academic year.

HEALTH

Abortion

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 3 February 2010, *Official Report*, columns 382-3W, on abortion, what the evidential basis is for the statement that additional funding for contraception in the last two years has contributed to a decrease in abortion rates. [319957]

Gillian Merron: The Department invested additional funds in contraception services in April 2008 (£12.8 million), September 2008 (£10 million) and April 2009 (£11.6 million). In each of the last five quarters (July 2008 to September 2009), the abortion rate was lower than the corresponding quarter in the preceding year. As these decreases in the abortion rate coincide with the period in which the additional investment was available, we believe that the additional investment, and other measures we have taken, has made a contribution towards the decreases in the abortion rate.

Aortic Aneurysm: Screening

Mr. Spring: To ask the Secretary of State for Health (1) how much the NHS Abdominal Aortic Screening programme has cost to date; [320049]

(2) how many phases of NHS Abdominal Aortic Screening programme there will be; [320050]

(3) which NHS trusts have submitted an application to the NHS Abdominal Aortic Screening programme to begin an ultrasound screening programme for aortic aneurysms; [320051]

(4) what the timetable is for the full implementation of the NHS Abdominal Aortic Screening programme; [320052]

(5) what estimate his Department made about the number of patients who will have been screened in each of the sites covered by phase one of the NHS Abdominal Aortic Screening programme after *(a)* one year and *(b)* five years; [320054]

(6) when ultrasound screening for aortic aneurysms will begin in each of the sites covered by phase one of the NHS Abdominal Aortic Screening programme; [320055]

(7) what steps his Department is taking to ensure that men aged 65 years old participate in an ultrasound screening programme for aortic aneurysms *(a)* at each of the early implementation sites and *(b)* when the programme is fully implemented. [320056]

Ann Keen: The NHS Abdominal Aortic Aneurysm screening programme has cost £5,335,809.50 up to the end of March 2010. This is made up of start up and full year costs for six early implementation sites, start up costs for four phase one sites, screening equipment for 10 sites, training of technicians and information leaflets.

It is anticipated that there will be a maximum of eight phases of roll out, however the exact number is unknown as this depends on the number of applications received and geographical fit of each local screening programme.

The following national health service trusts have been successful with their applications to begin ultrasound screening for aortic aneurysms:

Phase	*Screening Programme*	*NHS Trust*
Early Implementation	Gloucestershire	Gloucestershire Hospitals NHS Foundation Trust
Early Implementation	West Sussex	Royal West Sussex NHS Trust
Early Implementation	South West London	St George's Healthcare Trust
Early Implementation	South Devon and Exeter	South Devon Healthcare NHS Foundation Trust
Early Implementation	South Manchester	Central Manchester and Manchester Children's University Hospital NHS Foundation Trust
Early Implementation	Leicestershire	University Hospitals of Leicester NHS Trust
Phase 1	Peninsula	Royal Cornwall Hospitals NHS Trust Plymouth Hospitals NHS Trust
Phase 1	Heartlands	Heart of England NHS Foundation Trust
Phase 1	South East London	Guy's and St Thomas' Hospital NHS Trust
Phase 1	North East	Gateshead Health NHS Foundation Trust
Phase 1	North Central London	The Royal Free Hampstead NHS Trust
Phase 1	North West London	Imperial Healthcare NHS Trust
Phase 1	East Yorkshire and The Humber	Hull and East Yorkshire Hospital NHS Trust

It is anticipated that full national roll out of the Abdominal Aortic Aneurysm screening programme will be completed by the end of 2012-13.

The following table details the numbers of patients screened in phase one after a) one

year and b) five years:

Screening Programme	*Year One*	*Year Five*
Peninsula	4,369	29,512
South East London	4,818	32,548
North East	11,598	78,350
Heartlands	3,364	22,721
North Central London	3,966	26,789
North West London	7,349	49,648
East Yorkshire and The Humber	4,199	28,363

All phase one sites will be screening by the end of May 2010.

The national programme team have put in place a number of measures to ensure the highest possible take up of screening once men have been identified for screening through their general practitioner. Examples include:

Involving 65 year old men when developing the initial communication materials for the screening programme to ensure that key messages were targeted at the right level;

National information leaflets have been designed for use in local programmes to ensure consistency of messages and offer informed choice;

Recruiting a Communications manager to work with local programmes ensuring that the right information is promoted to suit their local demographic; and

Commissioning an independent evaluation of all information to assess:

whether the patient information materials met the needs of men invited for screening

how well men invited for screening understand the risks they may face and:

assess how well health professionals think the information meets the needs of men invited for screening and the programme itself.

Mr. Spring: To ask the Secretary of State for Health how many patients have been screened as part of the NHS Abdominal Aortic Screening programme at each early implementation site. [320053]

Ann Keen: The following table details the number of patients screened by each screening programme to the end of February 2010:

Screening Programme	*Numbers of patients screened*
Gloucestershire	4,214
Leicestershire	4,247
South West London	3,000
South Devon	2,276
South Manchester	1,878
West Sussex	3,111

Basildon and Thurrock University Hospitals NHS Foundation Trust

Andrew Mackinlay: To ask the Secretary of State for Health what recent assessment has been made of the standard and quality of care -and management at Basildon and Thurrock Hospital Trust by *(a)* Monitor, *(b)* the Care Quality Commission and *(c)* his Department. [320267]

Mr. Mike O'Brien: Chris Mellor, Acting Chair of Monitor, the regulatory body for NHS Foundation Trusts, has written to my right hon. Friend the Secretary of State about the progress being made at the trust.

Monitor has advised that further progress has been made at the trust since December 2009.

The Care Quality Commission (CQC) has advised that it has an ongoing engagement with Basildon and Thurrock as part of the registration process which began in January. CQC is in the process of assessing whether conditions will need to be attached to the trust's registration on 1 April.

The Secretary of State will update the House in a written ministerial statement which will be issued on 5 March.

Bone Marrow Disorders: Drugs

Mr. Willis: To ask the Secretary of State for Health (1) whether the drug Peginterferon alfa-2a has been approved by the National Institute for Health and Clinical Excellence for use with patients with essential thrombocythaemia; [320596]

(2) which primary care trusts in *(a)* London and *(b)* the South East have approved the funding for the treatment of essential thrombocythaemia with Peginterferon alfa-2a. [320597]

Mr. Mike O'Brien: Peginterferon alfa-2a is not licensed for the treatment of essential thrombocythaemia and the National Institute for Health and Clinical Excellence has not been asked to appraise it for this condition.

Information on primary care trusts' funding decisions is not collected centrally.

Colorectal Cancer Screening

Mr. Evans: To ask the Secretary of State for Health what steps his Department is taking to increase the levels of participation in bowel cancer screening programmes. [320339]

Ann Keen: Primary care trusts (PCTs) are responsible for screening services, including the promotion of the national health service bowel screening programme. We would expect those areas with low bowel screening uptake rates to develop targeted programmes to tackle this locally.

As the bowel cancer screening programme was implemented in local areas, NHS Cancer Screening Programmes sent out an information pack to all local general practitioners (GPs). As well as explaining how the programme works, the packs contained promotional information, including posters for GPs to use to promote the programme in their own practices.

The National Awareness and Early Diagnosis Initiative, launched in November 2008, is working with NHS Cancer Screening Programmes on key messages and awareness programmes to improve screening uptake, particularly in deprived groups.

Complementary Medicine

Mr. Willis: To ask the Secretary of State for Health what complementary or alternative treatments, medicines or therapies are offered through the National Health Service; and what evidence his Department has considered on the efficacy of each. [320578]

Gillian Merron: The commissioning and funding of any treatments, including complementary/alternative, is the responsibility of the national health service. Many strategic health authorities and primary care trusts have developed their own policies on which treatments they will provide based one the safety and clinical and cost-effectiveness of a treatment as well as the availability of suitably qualified/regulated practitioners. When developing guidance for the management of health conditions, the National Institute for Health and Clinical Excellence (NICE) considers complementary therapies, where appropriate and sufficient evidence of effectiveness exists, alongside conventional treatments.

Dementia

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how many staff in a *(a)* elderly mentally infirm and *(b)* standard care home are required to have a qualification in dementia awareness; [319959]

(2) Health what recent estimate he has made of the *(a)* length of stay in care homes of residents with dementia and *(b)* proportion of residents in care homes with a diagnosis of dementia. [319960]

Phil Hope: The Care Homes Regulations 2001 - Regulation 18 - require homes to

> "ensure that at all times suitably qualified, competent and experienced persons are working at the care home in such numbers as are appropriate for the health and welfare of service users".

This will include ensuring that there are suitable numbers of staff trained and able to care for residents with dementia.

We are informed by the NHS Information Centre that data on the length of stay in care homes of residents with dementia and the proportion of residents in care homes with a diagnosis of dementia are not collected centrally.

The Care Quality Commission (CQC) registers care homes under the Care Standards Act 2000 (CSA), which remains operational until 30 September 2010. The CSA makes no provision for a registration category of "elderly mentally infirm". Homes are registered with CQC as care homes or care homes with nursing.

Subject to the approval of Parliament, care homes will be registered from 1 October 2010 under the 'regulated activity' in which they are engaged - that is, 'accommodation for persons who require nursing or personal care'. It will be for CQC to decide whether to record detailed information for each care home, such as whether it provides care for people with dementia.

Health Act 2009

Lembit Öpik: To ask the Secretary of State for Health what progress his Department has made on its consultation on the provisions of the Health Act 2009 relating to tobacco; when he expects to *(a)* publish a report on the consultation and *(b)* lay before Parliament the consequent statutory instruments; and if he will make a statement. [320169]

Gillian Merron: On 26 February 2010, the Government published "Consultation on proposed tobacco control regulations for England (under the Health Act 2009):

Summary of consultation responses" on the Department's website. A copy has been placed in the Library.

Two sets of regulations for England were laid before Parliament on 27 January 2010, prohibiting tobacco sales from vending machine and regulating tobacco product prices lists and labels.

Two further sets of regulations for England were laid before Parliament on 2 March 2010 regulating the removal of tobacco displays and tobacco advertising and display by specialist tobacconists.

Health Services: Worcestershire

Peter Luff: To ask the Secretary of State for Health pursuant to the answer of 25 February 2010, *Official Report*, columns 747-48W, on health services: Worcestershire, what consultation he plans to undertake on the preferred option for the delivery of community services; and what objectives he has set for that consultation. [320575]

Mr. Mike O'Brien: The Department would not consult on proposals in Worcestershire. This is a matter for Worcestershire primary care trust (PCT).

'Transforming Community Services: The Assurance and Approval Process for PCT-provided Community Services', makes clear that patients and the public should be involved in any proposed service change that may arise from an organisational change. This document has already been placed in the Library. Sustained engagement of patients, public, staff, their unions and representatives, and key stakeholders is essential. This is a process that is managed locally by PCTs, and assured by strategic health authorities.

Home Care Services: Finance

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 8 December 2009, *Official Report*, column 296W, on social services: finance, from which of his Department's budgets the remaining £228 million required to fund the provisions of the Personal Care at Home Bill will be taken; and how much will be taken from each budget. [318889]

Phil Hope: In 2010-11, we are meeting half of the full implementation costs—£420 million—as implementation starts from October. These are being met as explained in my reply on 8 December 2009, *Official Report*, column 296W to the hon. Member for Boston and Skegness (Mark Simmonds).

The remaining half year costs will be found from 2011-12. Detailed budget prioritisation decisions for 2011-12 onwards will be taken once the outcome of the next Spending Review is available, as the Department's total budget beyond 2010-11 is not yet known.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 8 December 2009, *Official Report*, column 296W, on social services: finance, whether the savings in *(a)* administration and *(b)* management consultancy spending will be made in (i) his Department and (ii) primary care trusts. [318890]

Phil Hope: The savings will be made in the Department.

Lorely Burt: To ask the Secretary of State for Health what estimate he has made of the proportion of funding that local councils will have to contribute to implementation of the free social care at home scheme. [320272]

Phil Hope: I refer the hon. Member to the reply I gave to the hon. Member for Eddisbury (Mr. O'Brien) on 10 December 2009, *Official Report*, column 553W.

Leukaemia: Drugs

Derek Twigg: To ask the Secretary of State for Health when he expects to receive the National Institute for Health and Clinical Excellence's recommendations on the use of dasatinib and nilotinib for chronic myeloid leukaemia patients. [319180]

Mr. Mike O'Brien: I understand that the National Institute for Health and Clinical Excellence (NICE) currently expects to issue final guidance to the NHS on the use of dasatinib and nilotinib for the treatment of imatinib-intolerant chronic myeloid leukaemia (CML) in June 2010. Details of this appraisal are available on NICE'S website at:

http://guidance.nice.org.uk/TA/Wave17/18

NICE will schedule the technology appraisal of dasatinib and nilotinib for the treatment of imatinib-resistant CML into the review of its published guidance on the use of imatinib for the treatment of CML.

Derek Twigg: To ask the Secretary of State for Health how many people with chronic myeloid leukaemia have been prescribed *(a)* dasatinib and *(b)* nilotinib in the last 12 months. [319181]

Mr. Mike O'Brien: Information is not collected centrally on the number of people prescribed drugs or for what purpose drugs are prescribed.

In the period October 2008 to September 2009, the latest 12 months available, there were 109 prescriptions for dasatinib and less than 100 for nilotinib written in the United Kingdom and dispensed in the community in England.

Information for hospital prescribing is not available.

Medical Treatments Abroad

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate he has made of the number of people referred by NHS commissioners for proton therapy treatment abroad in each of the last five years. [319935]

Ann Keen: Proton beam therapy became a nationally commissioned service in April 2008. Prior to this, the service was commissioned by individual primary care trusts (PCTs) and figures are not available on the numbers of patients referred for treatment abroad.

In 2008-09, 24 patients were referred to the proton reference panel for consideration for proton beam therapy treatment. Of these, eight patients were turned down by the panel, six were not treated by the centre for clinical reasons, and 10 patients were treated.

In 2009-10, 67 patients were referred to the proton reference panel. Of these, 30 patients were accepted for treatment: and 17 of them received or are currently receiving treatment during 2009-10. Six patients were accepted by the panel, but were not treated by the centre for clinical reasons and three patients require more surgery before being considered further for proton beam therapy. Nine patients are still being considered by the panel.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Health when he expects to reply to the letter of 2 February 2010 from the hon. Member for Walsall North concerning a constituent. [320349]

Phil Hope: A reply was issued to my hon. Friend on 3 March 2010.

Mental Health Services

Mr. Burns: To ask the Secretary of State for Health how many independent investigations into cases of patients receiving treatment for mental health reasons have been commissioned in *(a)* West Chelmsford constituency and *(b)* England in each of the last five years. [320351]

Phil Hope: I refer the hon. Member to the written answer I gave the hon. Member for Mid-Bedfordshire (Nadine Dorries) on 22 February 2010, *Official Report*, column 134W.

NHS: Negligence

Mr. Greg Knight: To ask the Secretary of State for Health how many claims for clinical negligence as a result of NHS hospital mistreatment for which compensation has been awarded were made in each of the last five years; what the monetary value of the five largest payments was in each such year; and which hospitals were involved. [319913]

Ann Keen: The NHS Litigation Authority covers claims made against the national health service in England only. Claims are not made under the heading of mistreatment and an answer could be provided only at disproportionate cost.

NHS: Procurement

Mr. Harper: To ask the Secretary of State for Health how many contracts have been awarded through the NHS Supply Chain Framework for the Supply of Endoscopy Products *(a)* following a mini-competition and *(b)* under the terms of the framework itself. [320270]

Mr. Mike O'Brien: NHS Supply Chain has the following endoscopy framework agreements:

Endoscope Disinfectants and Detergents
Endoscopy Consumables
Endosurgery
Rigid Endoscopes
Flexible Endoscopy
Automated Endoscope Reprocessors.

'Endoscope Disinfectants and Detergents' is a national framework established in 2009 with nine suppliers. All orders and deliveries are via NHS Supply Chain. There are no mini-competitions or quotations. 186 trusts have made purchases against the framework from April 2009 to the present.

'Endoscopy Consumables' is a national framework established in 2008 with 10 suppliers. All orders and deliveries are via NHS Supply Chain. There are no mini-competitions or quotations. 170 trusts have used the framework to make purchases from April 2009 to the present.

'Endosurgery' is a national framework. There have been six mini-competitions and 210 trusts have gone though this framework. The framework has 17 suppliers and most purchases are made through NHS Supply Chain. However, there is a mini-competition option whereby trusts can create a local pricing agreement under the coverage of the national framework.

'Rigid Endoscopes' is a national, direct-supply framework. There have been no mini-competitions and 120 trusts have gone through this framework. Trusts request quotations for equipment from NHS Supply Chain and these quotes are then compiled by suppliers and subsequent orders and deliveries are facilitated directly. There is an option for mini-competitions but as yet no trusts have chosen this option.

There have been 340 contracts awarded though the 'Flexible Endoscopy' framework, with one mini-competition. 175 trusts have gone through this framework. The contracts are delivered direct from suppliers against this framework.

There have been 56 contracts awarded through the 'Automated Endoscope Reprocessors' framework. 36 trusts have gone though this framework, with no mini-competitions. The contracts are delivered direct from suppliers against this framework.

Mr. Harper: To ask the Secretary of State for Health what estimate he has made of the proportion of NHS trusts that have chosen to *(a)* purchase endoscopy products through NHS Supply Chain's Framework for the Supply of Endoscopy Products and *(b)* buy directly from suppliers. [320271]

Mr. Mike O'Brien: This information is not held centrally.

NHS: Sight Impaired

Lynne Featherstone: To ask the Secretary of State for Health (1) what guidance his Department has issued to NHS providers on communication with visually-impaired patients in accessible formats; what systems are in place to monitor the provision of such materials; and if he will make a statement; [319058]

(2) what estimate he has made of the proportion of visually-impaired patients who received communications from NHS providers in accessible formats in each of the last five years; and if he will make a statement; [319060]

(3) what proportion of *(a)* hospitals and *(b)* GP surgeries have used (i) Braille, (ii) large print and (iii) audio to communicate with visually-impaired patients in each of the last five years; and if he will make a statement. [319061]

Mr. Hoyle: To ask the Secretary of State for Health what recent assessment he has made of the adequacy of provision of information in hospitals for blind, partially sighted and print-disabled people. [318895]

Phil Hope: Information on the proportion of national health service providers that have provided Braille, large print, audio or other accessible communications to patients in general practice (GP) surgeries or hospitals in each of the last five years is not collected centrally.

The Disability Discrimination Act 1995 confers a duty on NHS providers to make reasonable adjustments for disabled people, including making information accessible to people with visual impairments. The NHS Constitution also commits the NHS to offer patients accessible information to enable them to participate fully in their health care decisions.

Under the Disability Discrimination Act 2005 each NHS organisation is required to develop a Disability Equality Scheme, based on real engagement with local people, including those who are blind or partially sighted. They are required to implement the action plans set out in their schemes; and report annually on their progress, the results of their information gathering and how this information has been used.

Listed Government Departments, including the Department, must publish a report setting out an overview of progress on disability equality as well as proposals for co-ordinated action between authorities in the sector to progress disability equality. The Department's first report, which was published in December 2008, acknowledges that patients who are blind or have severe visual impairments report significantly lower levels of satisfaction when making choices following a referral for hospital treatment. The introduction of data broken down by impairment in national GP access and choice surveys will allow NHS organisations in addressing such differences in satisfaction levels.

To support service improvements, the Department has also co-produced "Improving Access, Responding to Patients: a 'how to' guide for GP practices" in 2009. This guide brings together good practice case studies with step-by-step guides and top tips, developed and disseminated by national stakeholders. It has been distributed to every GP practice, primary care trust and strategic health authority in England and a copy has already been placed in the Library.

Putney Hospital: Valuation

Justine Greening: To ask the Secretary of State for Health what estimate the district valuer has made of the monetary value of the Putney Hospital site in each of the last 10 years. [320138]

Mr. Mike O'Brien: This information is not held centrally.

Swine Flu: Vaccination

Mr. Roger Williams: To ask the Secretary of State for Health how many units of Swine influenza vaccine are available to be dispensed to UK patients. [319958][1]

Gillian Merron: As of 26 February 2010, the amount of swine influenza vaccine available to be dispensed was 25.3 million doses, held centrally, plus the stock currently held in the national health service across the United Kingdom.

This is based on the total amount of swine influenza vaccine delivered to the United Kingdom from Baxter and GlaxoSmithKline (GSK) at approximately 38.5 million doses, less the total number of doses sent out to the NHS England, up to 24 February, which was approximately 13.2 million.

ENERGY AND CLIMATE CHANGE

Biofuels

Graham Stringer: To ask the Secretary of State for Energy and Climate Change what recent estimate he has made of the annual requirement for biomass for burning in *(a)* power stations and *(b)* for renewable heat; and what proportion of that requirement (i) is currently imported and (ii) will be imported in each of the next five years. [320002]

Mr. Kidney *[holding answer 3 March 2010]:* I refer my hon. Friend to the reply I gave to my hon. Friend the Member for Sherwood (Paddy Tipping), *Official Report,* 23 February 2010, column 466W which gave estimates for the amount of biomass needed for new power stations. For existing heat and power installations, the Department's Digest of UK Energy Statistics shows that in 2008 3.23 million tonnes (oil equivalent) of biomass were used to generate electricity and 0.74 million tonnes (oil equivalent) of biomass were used to generate heat. Assuming an average energy value of 18 gigajoules per tonne of biomass, this gives a total of 7.5 million tonnes of biomass for electricity generation and 1.7 million tonnes of biomass for heat generation.

Full records are not currently available for the country of origin of biomass used in the UK. Robust biomass supply chains are only now becoming established across the UK and biomass fuels are increasingly traded as a global commodity. The share of imports will depend on numerous factors, including progress with developing indigenous supply chains for waste wood, virgin material and energy crops. Heat-only installations are more likely to use UK sourced feedstocks.

The European Commission's recently published recommendations for sustainability criteria for solid biomass include a recommendation to monitor the origin of feedstocks. DECC will make an announcement later this month, setting out what actions the Government can now take to introduce sustainability standards for biomass used for heat and electricity in the UK. We already require sustainability reporting under the renewables obligation. This requirement was introduced in April 2009 and the first reporting cycle is due later this year. The sustainability report will include data on the type and origin of biomass used for electricity generation.

Carbon Emissions

Charles Hendry: To ask the Secretary of State for Energy and Climate Change with reference to paragraph 7.21, page 123, of the pre-Budget report, Cm 7747, when he plans to publish decarbonisation pathways to 2050. [320374]

---

[1] *[Official Report, 8 April 2010, Vol. 508, c. 16MC.]*

Joan Ruddock: In the Low Carbon Transition Plan, the Government committed to publish Pathways to 2050 in spring 2010.

Departmental Paper

Martin Horwood: To ask the Secretary of State for Energy and Climate Change what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320040]

Joan Ruddock: The information is as follows:

(a) The principal suppliers that the Department has used in the current financial year are Banner Office Supplies, The Office Depot, The Paper Company and Lyreco.

(b) The most common paper brand used is Evolve 100 per cent. recycled paper. Other brands sourced have predominantly been the suppliers' own brands. For other paper products the Department uses appropriate brands that are available from the preferred suppliers catalogues. It is not possible to identify all of these without incurring undue cost.

The Department's policy is to source paper that is 100 per cent. recycled wherever possible and that the usage of paper is kept to a minimum. All printers and photocopiers are set to double sided printing as the standard default and printing of e-mails is discouraged.

Energy Conservation

Charles Hendry: To ask the Secretary of State for Energy and Climate Change how many homes had received assistance under the Community Energy Saving Programme on the latest date for which figures are available. [320311]

Joan Ruddock: The Community Energy Saving Programme (CESP) went live on 1 September 2009. There are currently six CESP schemes that have commenced—one in Walsall, one in Bristol and four in Birmingham. Together these schemes will deliver energy efficiency benefits to around 900 households.

Figures for the number of completed actions in households will be available from 1 May 2010 when Ofgem is required to provide its first report to the Secretary of State.

Energy: Infrastructure

Annette Brooke: To ask the Secretary of State for Energy and Climate Change what estimate his Department has made of the *(a)* quantity, *(b)* duration of storage and *(c)* toxicity of the hazardous material to be kept on the 11 nuclear power sites assessed in the consultation on the Draft National Policy Statements for Energy Infrastructure. [319968]

Mr. Kidney: As part of the Draft Nuclear National Policy Statement (NPS) an appraisal of sustainability was carried out. The Main Appraisal of Sustainability Report[1] (Chapter 6) and Annex K[2] present the findings for the arrangements for managing radioactive and hazardous wastes arising from the Nuclear NPS.

The main hazardous material that is expected to be stored at new nuclear power stations will be spent fuel. It is the operator's responsibility to provide storage facilities for the waste produced. Storage facilities will have to satisfy the requirements of the independent safety, security and environmental regulators. The quantity of spent fuel produced by a single new nuclear power station depends on a number of factors, including the capacity of the plant, its operational lifetime and various other operational considerations.

The Nuclear Decommissioning Authority (NDA) has estimated that an AP-1000 reactor operating for 60 years would give rise to an estimated 2,560 spent fuel assemblies, equivalent to 640 disposal canisters. And that a UK EPR reactor operating for 60 years would give rise to an estimated 3,600 spent fuel assemblies, equivalent to 900 disposal canisters.

It is possible that interim storage facilities for spent fuel could be required for around 160 years (estimated 60 years station operating life, 100 years cooling period prior to disposal). However, the estimate of up to 100 years cooling is based on a set of conservative assumptions and there are a number of factors that may shorten the actual storage period that is likely to be required.

The actual cooling time required will depend in practice upon the level of burn-up achieved, designs of the disposal package, the disposal concept and design and its geological setting, which will all offer scope for optimisation and consequent shortening of the required storage time.

The activity and dose rate of spent fuel from new reactors are presented in the NDA's Disposability Assessment Reports for the AP-1000[4] and UK EPR[5] reactors. The NDA concluded in its assessments that the radionuclide characteristics of spent fuel from the AP-1000 and UK EPR reactors are consistent with those from Sizewell B Pressurised Water Reactor.

There will also be other hazardous materials produced. These will include intermediate level wastes (ILW), low level wastes (LLW) and non-radioactive hazardous wastes.

The volume of packaged ILW (both operational and decommissioning) produced by a UK EPR operating for 60 years is estimated to be in the range 2,097-3,651m^3 dependent upon the packaging system used. For an AP-1000 operating for 60 years, the volume of packaged ILW produced is estimated to be around 3,450m^3.

The Government expects that ILW will be safely and securely stored on site as it is for current UK nuclear power stations. The ILW will be disposed of when a geological disposal facility is available to accept this waste.

The NDA has assessed the activity and dose rate from ILW and reported that the principal radionuclides present in the wastes are similar to those present in the wastes arising from Sizewell B Pressurised Water Reactor.

Long-term storage on site of LLW and non-radioactive hazardous wastes is not expected to take place. Regulators discourage accumulation of waste at sites of origin if a disposal route is available. These wastes are expected to be disposed of promptly, after it has been generated, through a suitable disposal route.

http://www.nda.gov.uk/documents/upload/TN-17548-Generic-Design-Assessment-Summary-of-Disposability-Assessment-for-Wastes-and-Spent-Fuel-arising-from-Operation-of-the-EPWR.pdf

Energy: Technology

Martin Horwood: To ask the Secretary of State for Energy and Climate Change how much his Department spent promoting the development and deployment of *(a)* low carbon and *(b)* energy efficiency technology in 2008-09; how much such funding has been allocated to those technologies in each of the next three years; what assessment he has made of the contribution to the environmental technology economy made by projects in each area funded by his Department; and what mechanisms are in place to monitor the level of that contribution. [320057]

Joan Ruddock: The principal funding mechanism for demonstrating low carbon and energy efficiency technologies in 2008-09 was the Environmental Transformation Fund (ETF). In 2008-09 it spent £92 million. Spending figures for 2009-10 will be finalised after the end of the financial year. Final allocations for 2010-11 have not been agreed. In addition to the ETF, in Budget 2009, we announced up to £90 million for FEED studies in support of the first CCS demonstration competition, and a further £45 million for microgeneration. Budget 2009 also announced £155 million for low carbon technologies in 2009-10 and 2010-11. A number of other DECC-funded schemes, such as funding for interest-free energy efficiency loans for small and medium enterprises, also support deployment and demonstration of low carbon technologies.

No formal assessment has been made of the contribution to the environmental technology economy consequent on this funding. Economic impact was one of the considerations for allocation of the low carbon investment funding announced in 2009. It is our intention to evaluate programmes operated under the ETF and other technology support.

Warm Front Scheme

Bob Spink: To ask the Secretary of State for Energy and Climate Change how many Warm Front assessors have been contracted to the Warm Front scheme; how many assessments each assessor carried out on average in the latest period for which figures are available; and how many assessors his Department expects to remain under contract from 1 May 2010. [320263]

Mr. Kidney: There are currently 164 assessors contracted to the Warm Front scheme.

185,103 surveys were completed between April 2009 and January 2010. The number of assessors contracted to the scheme has fluctuated over this period; it is not therefore possible to provide an accurate figure for the number of assessments each assessor has carried out over the period.

Eaga, the Warm Front scheme manager, is currently considering scheme activity for 2010-11. As part of this, eaga will consider the anticipated level of assessments to be carried out, which in turn will determine the number of assessors required for the year.

Wood: Transport

Harry Cohen: To ask the Secretary of State for Energy and Climate Change what consideration is given to the average length of lorry journey in transporting wood from the processing plant to the international port in assessing the carbon footprint of biomass imports. [320520]

Joan Ruddock: The average length of lorry journey in transporting wood from the processing plant to the international port is not collated as part of UK biomass sustainability reporting.

However, the Environment Agency are developing a tool to enable power generators to determine the carbon emissions associated with their use of biomass. This tool will allow users to model Greenhouse Gas (GHG) emissions according to feedstock type, agriculture practices and transport mode.

The European Commission's recently published report for sustainability criteria for solid biomass includes a recommendation to monitor the origin of feedstocks. DECC will make a statement later this month, setting out what actions the Government can now take to introduce sustainability standards for biomass used for heat and electricity in the UK. We already require sustainability reporting under the Renewables Obligation. This requirement was introduced in April 2009 and the first reporting cycle is due later this year. The sustainability report will include the available data on the type and country of origin of the biomass used for electricity generation.

Written Questions: Government Responses

Sir Gerald Kaufman: To ask the Secretary of State for Energy and Climate Change when he plans to reply to the letter of 7 January 2010 from the right hon. Member for Manchester, Gorton on Ms K Morrison. [319563]

Joan Ruddock: My right hon. Friend the Secretary of State for Energy and Climate Change replied to the right hon. Member on the 2 March with apologies for the delay.

BUSINESS, INNOVATION AND SKILLS

Palaeography: Universities

Mr. Paul Goodman: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of places available for the study of palaeography at universities. [320198]

Mr. Lammy: I last met the director general of the Russell Group on 23 February. We discussed higher education funding, among other subjects.

Departmental Manpower

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Innovation and Skills how many employees in *(a)* his Department and *(b)* each of its agencies are in transition prior to being managed out; how long on average the transition window between notification and exit has been in (i) his Department and its predecessors and (ii) each of its agencies in each of the last five years; what estimate he has made of the salary costs of staff in transition in each such year; and what proportion of employees in transition were classed as being so for more than six months in each year. [313245]

Mr. McFadden: The Department for Business, Innovation and Skills (BIS) was created in June 2009 from the former Department for Innovation for Universities and Skills (DIUS) and former Department for Business, Enterprise and Regulatory Reform (BERR). DIUS was created in 2007 from the former DTI and the Department for Education and Skills.

Between July 2004 and the end of 2006, the Department of Trade and Industry had 488 people in transition; the average transition for these people was approximately three months; no estimate was made of the salary costs of these staff during this period and approximately 17 per cent. of employees in transition were classed as being surplus for more than six months.

During 2007, DI/BERR had 491 people in transition; the average transition was seven weeks; no estimate was made of the salary costs of these staff during this period and approximately 5 per cent. of those in transition were classed as being surplus for more than six months. DIUS had nobody who was classed as surplus.

During 2008, there were fewer than five people in transition in BERR. Further information is therefore suppressed on grounds of confidentiality. The information was not collected in former DIUS.

During 2009 the Department (DIUS and BERR and then BIS) had 11 people in transition; the average transition was 10 weeks; no estimate was made of the salary costs of these staff during this period and approximately 35 per cent. of those in transition were classed as being surplus for more than six months.

I have approached the chief executives of the Insolvency Service, Companies House, the National Measurement Office and the Intellectual Property Office and they will respond to the hon. Member directly.

Letter from Stephen Speed, dated 4 March 2010:

The Minister of State, for the Department for Business, Innovation and Skills (BIS) has asked me to reply to your question regarding how many employees in (a) his Department and (b) each of its agencies are in transition prior to being managed out; how long on average the transition window between notification and exit has been in (i) his Department and its predecessors and (ii) each of its agencies in each of the last five years; what estimate he has made of the salary costs of staff in transition in each such year; and what proportion of employees in transition were classed as being so for more than six months in each year.

The Insolvency Service has not had any staff in transition within the last five years prior to being managed out, therefore no estimation of salary costs was necessary.

Letter from Peter Mason, dated 1 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question, tabled on 20 January, to the Minister of State, Department for Business, Innovation and Skills asking how many employees are in transition prior to being managed out; how long on average the transition window between notification and exit has been in each of the last five years; and for estimates of the salary costs of staff in transition in each such year together with the proportion of employees in transition which were classed as being so for more than six months in each year.

There are currently no employees within the Agency who have been officially declared surplus.

With regard to the position over the last five years, I am advised that I am unable, on grounds of confidentiality, to provide information where there are less than five people in this Agency. There is, however, one instance that is in the public [illegible] described on page 33 of the 2007-2008 Annual Report and Accounts of the Agency (then known as the National Weights & Measures Laboratory).

Letter from Sean Dennehey, dated 25 January 2010:

I am responding in respect of the Intellectual Property Office to your Parliamentary Question tabled 20 January 2010, to the Minister of State, Department for Business, Innovation and Skills.

The Intellectual Property Office began its first redeployment exercise in April 2009. A total of 48 staff were declared surplus in 2009/10 and therefore in transition prior to being managed out. A total of 40 staff have been redeployed, 19 to internal vacancies and 21 externally. There are currently 8 staff in transition. On average, the 40 staff redeployed remained in the transition for 4 months. The budgeted salary cost for this exercise was £425k. 16 people were in transition for more than 6 months.

Letter from Gareth Jones, dated 22 January 2010:

I am replying on behalf of Companies House to your Parliamentary Question tabled 20 January 2010, UIN 313245, to the Minister of State for Business, Innovation and Skills.

Companies House has not managed out any employees from the Agency in the last five years.

Departmental Marketing

Mr. Philip Hammond: To ask the Minister of State, Department for Business, Innovation and Skills how many brand managers his Department and its predecessors have employed in each of the last five years; and at what cost. [320408]

Mr. McFadden: This Department has one member of staff responsible for managing the Department's brand. This includes the publication and dissemination of the brand guidelines and advising on their application. It is estimated that 25 per cent. of this person's time is spent on branding related activities. Based on the average pay costs for a member of staff at this grade this represents a staff cost of approximately £11,241 in 2009/10.

The former Department for Business, Enterprise and Regulatory Reform (BERR) and the former Department for Innovation, Universities and Skills (DIUS) each had one member of staff responsible for brand management. The average pay costs for this were:

	£
BERR 2008/09	11,653
BERR/DTI 2007/08	10,512

Figures for staff costs for earlier years could be provided only at disproportionate cost.

	£
DIUS 2008/09	6,300
DIUS 2007/08	12,000

The figure for DIUS in 2007/08 is the total staff cost on branding activity as a larger percentage of staff time was spent on branding issues in the first six months of the Department's existence.

Higher Education: Day Care

Mrs. Maria Miller: To ask the Minister of State, Department for Business, Innovation and Skills what recent representations he has received on the provision of child care places by universities for students with young children. [320201]

Mr. Lammy: I have received joint representations about nursery closures from the National Union of Students, the University and College Union and UNISON. The provision of nurseries for the children of students is a matter for individual institutions. In addition to the standard student support package, the Government provides generous support to help students with children. A child care grant of up to £13,260 per year is available for eligible full-time, undergraduate students with children in registered and approved child care. In addition, for academic year 2009/10, student parents may also receive a parents' learning allowance of up to £1,508 to meet course-related costs.

Learning and Skills Council for England

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills when he expects the Learning and Skills Council to publish on its website the minutes of its National Council Meeting on 9 December 2009. [320275]

Kevin Brennan: The acting chief executive of the Learning and Skills Council has recently undertaken a review of its National Council minutes and decided to make public the full minutes from these meetings, subject to the redaction of any sensitive or confidential information which is exempt under the terms of the Freedom of Information Act. The minutes of the 9 December 2009 meeting were published on the LSC's website on 26 February 2010. These can be found at:

www.lsc.gov.uk

Minimum Wage: Glasgow

Mr. Bain: To ask the Minister of State, Department for Business, Innovation and Skills how many people in Glasgow North East constituency aged *(a)* between 18 and 21 and *(b)* 22 years and over have been paid at the rate of the national minimum wage since its introduction. [319970]

Mr. McFadden: Data for earnings are not available at the constituency level because of small sample sizes at these levels in the Annual Survey of Hours and Earnings (ASHE).

Due to rounding in the conversion of payroll data into hourly wage rates and small sample sizes for 18 to 21-year-olds in ASHE, it is not possible at the regional level to infer the number of employees earning exactly at the National Minimum Wage (NMW) with sufficient certainty. However it is possible to estimate the number who were paid at or below the NMW.

The most recent figure from BIS analysis of the 2009 ASHE indicates the number of jobholders aged 18 to 21 who were paid at or below the NMW in April 2009 in Scotland was 11,000. The number of jobholders aged 22 and over who were paid at or below the NMW in Scotland was 51,000.

Science: Research

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills how much funding had been *(a)* allocated to and *(b)* disbursed from the Science and Research Budget to the (i) Large Facilities Capital fund, (ii) University Capital fund, (iii) Higher Education Innovation fund, (iv) Public Sector Research Establishments fund, (v) Science and Society fund and (vi) other programmes funded from that Budget in 2009-10 on the latest date for which figures are available. [319844]

Mr. Lammy: The Science and Research Budget funding figures for 2009-10 are as follows:

		£ million
	Allocated 2009-10	*Expenditure to 31 January 2010*
(i) Large Facilities Capital Fund[1]	138	[3]—
(ii) Research Capital investment Fund[1]	258	194
(iii) Higher Education Innovation Fund[2]	99	73
(iv) Public Sector Research Establishments Fund[2]	12	11
(v) Science and Society activities[2]	15	10
(vi) Other programmes[2]	9	5

[1] Capital programme.

[2] Near Cash programme.

[3] There is no expenditure recorded against the Large Facilities Capital Fund as this fund is used to make additional allocations to research councils for approved projects. To date £172 million has been allocated to research councils which includes £50 million of capital allocation brought forwards from 2010-11 under the capital acceleration scheme.

Note:

These figures do not include the allocations to and the expenditure of the research councils and the national academies.

Written Answers to Questions

Friday 5 March 2010

SCOTLAND

Departmental Ministerial Policy Advisers

Mr. Philip Hammond: To ask the Secretary of State for Scotland how many full-time equivalent staff of each grade are employed by his Department to assist special advisers. [321142]

Ann McKechin: The Scotland Office does not maintain records of the administrative time provided to special advisers and therefore is unable to identify the full-time equivalent figure. However, no staff are solely dedicated to supporting special advisers.

INTERNATIONAL DEVELOPMENT

Democratic Republic of Congo

Martin Horwood: To ask the Secretary of State for International Development whether an environmental impact assessment has been conducted for each *(a)* current and *(b)* proposed road building project funded by his Department in Democratic Republic of Congo; how much funding for each such project was allocated to reducing the effect on these projects; and what the percentage of the budget for the environment and local population was in (i) 2008, (ii) 2009 and (iii) 2010. [320086]

Mr. Thomas: All road rehabilitation projects funded by the Department of International Development (DFID) in the Democratic Republic of Congo (DRC) are subject to Environmental and Social Impact Assessments (ESIAs). The following amounts have been allocated to address environmental and social impacts of road rehabilitation projects currently funded by DFID:

£12 million, or 15 per cent., of a total contribution of £78 million from 2009 to 2013 for the 'Pro Routes' programme, in partnership with the World Bank.

£476,733, or 13 per cent., of a total contribution of £3.66 million from July 2009 to July 2011 for rehabilitation of roads in eastern DRC, in partnership with the United Nations Office for Project Services (UNOPS).

£435,949, or 15 per cent., of a total budget of £2.79 million for the same period to rehabilitate a road from Kisangani to Ubundu in partnership with the United Nations Development Programme (UNDP).

Martin Horwood: To ask the Secretary of State for International Development how much funding has been allocated to the Congo rainforest region as part of the £1.5 billion commitment to the fast start global financial package to help developing countries address climate change and its impacts agreed at Copenhagen; and if he will increase the fast-track funding contribution to $800 million per year. [320089]

Mr. Thomas: The Prime Minister has committed up to £1.5 billion in Fast Start finance over the next three financial years from 2010-11 to 2012-13. 20 per cent. of this total will be allocated for forestry, including planned investment in the Congo Basin Forest Fund. We are currently developing plans for 2010-11 and will determine priorities for 2011-12 and 2012-13 as part of the next spending review.

Departmental Paper

Martin Horwood: To ask the Secretary of State for International Development what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320038]

Mr. Michael Foster: The Department for International Development (DFID) uses Office of Government Commerce (OGC) framework contracts for the purchase of all standard paper items such as A4 paper and envelopes in the UK. The majority of products are purchased from Banner Business Services, including general use paper from their Evolve range, which is made from 100 per cent. recycled content. More detailed information on paper products cannot be provided without incurring disproportionate costs.

Departmental Temporary Staff

Grant Shapps: To ask the Secretary of State for International Development from which companies his Department sourced temporary staff in each of the last three years; how many temporary staff his Department employed in each year; and what the monetary value of the contracts with each such company was in each such year. [320016]

Mr. Michael Foster: The Department for International Development (DFID) has formal arrangements with Margaret Hodge, Josephine Sammons and Manpower to provide temporary staff at the administrative level. In addition, professional and specialist temporary staff can be appointed through specialist suppliers without the involvement of DFID's Human Resources Division. Subsequently, there is no central record of the total number of temporary staff employed or the associated costs for each of the last three years. This information cannot be provided without incurring disproportionate costs.

Food: Overseas Aid

Dr. Naysmith: To ask the Secretary of State for International Development what steps his Department plans to take to implement its commitment to agricultural and food security research related to developing countries supported by the UK science base in co-operation with UK research councils. [319936]

Mr. Michael Foster: The Department for International Development (DFID) is providing funds for agricultural research to the Biotechnology and Biological Sciences Research Council (BBSRC). This enables us to harness the UK's world-class bioscience base to address the challenges of agricultural growth and food security in developing countries.

We fund two programmes jointly with BBSRC: a crop science programme, to which DFID contributes £5.34 million; and a livestock disease research programme, to which DFID contributes £9.7 million.

We are exploring a third collaboration with BBSRC into crop science which can help withstand the impact of climate change. DFID is also working with the Department for the Environment, Food and Rural Affairs (DEFRA) and other public sector funders to improve coordination of agriculture and food security related research.

Haiti: Earthquakes

Ms Abbott: To ask the Secretary of State for International Development what equipment was used by fire and rescue personnel deployed to Haiti; and if he will make a statement. [320284]

Mr. Michael Foster: The following equipment was used by the UK fire and rescue personnel deployed to Haiti: technical search equipment including cameras, listening devices and dogs; light concrete breaking equipment; hand tools including percussion rescue tool (PRT); chainsaws; lighting and generators; and medical kit including splints, pain relief and stretchers.

Ms Abbott: To ask the Secretary of State for International Development how much funding his Department has provided to each *(a)* multi-national organisation and *(b)* UK non-governmental organisation which it has funded as part of the Haiti relief operation; and if he will make a statement. [320285]

Mr. Michael Foster: Details of funding provided by the Department for International Development (DFID) to non-governmental organisations and multilateral organisations to help the relief operation in Haiti are provided in the following table.

	£
Non governmental organisation	
Merlin	398,998
Agency for Technical Co-operation and Development (ACTED)	400,000
Action Against Hunger (ACF)	1,000,000
Handicap International	500,000
Oxfam	1,000,000
Multilateral organisation	
Office for Co-ordination of Humanitarian Affairs (OCHA)	1,000,000
World Food Programme (WFP)	2,000,000
Pan-American Health Organisation/World Health Organisation (PAHO/WHO)	300,000
International Organisation for Migration (IOM)	1,120,000
International Federation of Red Cross and Red Crescent Societies (IFRC)	1,000,000

International Assistance

Mr. Bone: To ask the Secretary of State for International Development what recent steps he has taken to assess the effectiveness of his Department's international aid. [320058]

Mr. Michael Foster: The Department for International Development (DFID) prioritises steps to ensure that all our aid is effective, whether delivered by DFID or through multilateral organisations.

For example we have recently conducted Portfolio Reviews in the Education and Health sectors which have shown that DFID is delivering excellent value. DFID's bilateral aid to the education sector, delivered through Government systems, funds an estimated 5 million children through primary school. This aid is funding more children in developing countries than the number attending primary schools in the UK at just 2 per cent. of the cost. Similar reviews on Governance and Civil Society are currently under way.

Millennium Development Goals

Mr. David Hamilton: To ask the Secretary of State for International Development what his most recent estimate is of the additional aid required from contributing states in order to meet the Millennium Development Goals. [319953]

Mr. Michael Foster: At the G8 Summit in L'Aquila last year the UK successfully called for an international assessment of what is needed to achieve the MDGs. The needs assessment will take a broad based approach to what is needed to achieve the MDGs, retaining aid as a central component, while also taking account of other issues such as trade, aid effectiveness, climate change and international and domestic policy frameworks. The United Nations Development Programme (UNDP) is currently undertaking this assessment and is due to produce a report in May.

Rwanda: Politics and Government

Mr. Bruce George: To ask the Secretary of State for International Development what recent progress has been made on issues covered by point B.10 of the renewed Memorandum of Understanding between the UK and the Government of Rwanda, with particular reference to the registration of opposition parties in advance of presidential elections in August 2010. [320173]

Mr. Thomas: The UK Government are closely monitoring the progress made on the registration of political parties in Rwanda. Ten political parties are currently registered and a further two parties are attempting to register. The Department for International Development (DFID) is aware that some parties are reporting registration difficulties and we are pressing the Government of Rwanda to ensure that full political rights, within the framework of Rwandan law, are upheld.

Uganda: Armed Conflict

Jo Swinson: To ask the Secretary of State for International Development what humanitarian assistance his Department has provided to those displaced and otherwise affected by the activities of the Lord's Resistance Army; and what steps his Department is taking to ensure the *(a)* delivery and *(b)* security of this assistance. [320343]

Mr. Thomas: In 2009 the Department for International Development (DFID) provided over £100 million for humanitarian assistance to those affected by the activities of the Lords Resistance Army (LRA). Of this, around £70 million was provided through UN Humanitarian Pooled Funds, and the remainder through other UN agencies, NGOs and other partners.

Monitoring and security procedures are built into all DFID programmes as standard. This allows staff to assess the delivery and impact of UK aid, and closely monitor security risks. All UN pooled funds include mechanisms that enable all donors to monitor the delivery and security of assistance.

WORK AND PENSIONS

Children: Maintenance

Grant Shapps: To ask the Secretary of State for Work and Pensions what the total value of overpayments made by the Child Support Agency was in each of the last three years. [318741]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what the total value of overpayments made by the Child Support Agency was in each of the last three years. (318741)

The total value of child maintenance payments overpaid to a parent with care is included in the table below. This includes figures over each of the last three financial years to January 2010.

	£
April 2007 to March 2008	6,203,754.72
April 2008 to March 2009	6,510,103.73
April 2009 to January 2010	6,497,860.88

These figures are for overpayments made by non-resident parents as a result of retrospective changes of circumstances and a consequent downward valuation of maintenance assessments. These recalculations usually occur as an outcome of new information being provided to the agency.

Where an overpayment is made the money is refunded to the non-resident parent.

I hope you find this answer helpful.

Grant Shapps: To ask the Secretary of State for Work and Pensions what the Child Support Agency's policy is on payment by credit card from individuals in arrears on their maintenance payments. [318742]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what the Child Support Agency's policy is on payment by credit card from individuals in arrears. [318742]

The Child Support Agency has had the facility to accept credit and debit card payments since the introduction of Regulation 3 of the Child support (Miscellaneous Amendments) Regulations 2006. This was introduced to provide access to a convenient and widely used method of payment.

The policy is to ensure the best payment agreement is reached with the non-resident parent without jeopardising the flow of regular maintenance payments. It is for the non-resident parent to determine whether it is appropriate to use a credit card to make the payments required by such an agreement.

I hope you find this answer helpful.

Grant Shapps: To ask the Secretary of State for Work and Pensions what advice is given by the Child Support Agency to people liable for maintenance payments on the use of credit cards to clear their arrears. [318745]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what advice is given by the Child Support Agency to people liable for maintenance payments who are (a) in arrears, (b) late in making payments and (c) behind on their payment schedules on the use of credit cards to clear their arrears. [318745]

The Child Support Agency's Debt Steer states that the starting point when negotiating an arrears payment plan is to require full repayment immediately. Where this is not possible, the aim will be to reach an agreement that will achieve full recovery within at most two years, with the discretion to accept an arrangement extending beyond this period where a client's circumstances warrant it.

In all cases involving arrears, caseworkers are instructed to discuss payment options that could be available to the client. Caseworkers do not provide financial advice, or recommend one payment option over another. Caseworkers can also signpost clients to other, independent organisations for financial help and advice where appropriate.

I hope you find this answer helpful.

Mr. Weir: To ask the Secretary of State for Work and Pensions how many cases of absent parents in *(a)* Scotland and *(b)* Angus constituency the Child Support Agency is managing. [318801]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many cases of absent parents in (a) Scotland and (b) Angus constituency the Child Support Agency is managing. [318801]

In December 2009, there are 112,810 live and assessed cases in Scotland and 2,170 in the parliamentary constituency of Angus. These figures include old scheme cases with a full or interim maintenance assessment as well as current scheme cases with a full maintenance calculation or default maintenance decision. Figures are adjusted to reflect those cases administered clerically.

I hope you find this answer helpful.

Mr. Lancaster: To ask the Secretary of State for Work and Pensions how many cases relating to absent parents resident in Milton Keynes the Child Support Agency is managing. [319003]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions how many cases relating to absent parents resident in Milton Keynes the Child Support Agency is managing. [319003]

Latest figures available show as at December 2009, the number of cases in Milton Keynes is 4,480. These figures include old scheme cases with a full maintenance assessment as well as current scheme cases with a full maintenance calculation or default maintenance decision. Figures are adjusted to reflect those cases administered clerically.

I hope you find this answer helpful.

Angus Robertson: To ask the Secretary of State for Work and Pensions how many cases managed by the Child Support Agency relate to absent parents in *(a)* Scotland and *(b)* Moray constituency. [319674]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how many cases managed by the Child Support Agency relate to absent parents in (a) Scotland and (b) Moray constituency. [319674]

Latest figures show as at December 2009, the number of cases in Scotland is 111,050; of these 1,760 are in the Parliamentary Constituency of Moray. These figures include old scheme cases with a full or interim maintenance assessment as well as current scheme cases with a full maintenance calculation or default maintenance decision. Figures are adjusted to reflect those cases administered clerically.

I hope you find this answer helpful.

Council Tax Benefits

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions what measures introduced by her Department since May 2005 have made it easier for *(a)* pensioners and *(b)* low income earners to claim council tax benefit. [319609]

Helen Goodman: Council tax benefit provides financial assistance with payment of council tax bills to people on low income and plays an important role in helping to combat pensioner and child poverty. Modernising and simplifying the claims process is a key part of the Department's strategy to increase benefit take-up among both pensioners and people of working age. We are also introducing a range of measures to improve awareness among staff, customers and advisers of the help that council tax benefit can give to people both in and out of work.

The main focus of activity to help poorer pensioners has been the automation of the claims process. In December 2005 a shortened, three page claim form was introduced for housing benefit and council tax benefit replacing a claim form that ran to 28 pages. Completion of the form was undertaken on behalf of the customer by officials in the Pension, Disability and Carers Service at the same time as a claim to pension credit was made over the telephone. The form was then sent to the customer to check and sign and return to the local authority.

From November 2008, the need for the customer to complete and sign a claim form was removed and housing benefit and council tax benefit claims data have been sent direct to the local authority.

This automated claims process has been further enhanced and since January 2010, all local authorities are able to receive secure electronic transfer of data making the claiming process virtually automatic for all pensioner customers.

Jobcentre Plus has successfully rolled out a new process which makes claiming benefits, including council tax benefit, easier and faster for people moving into and out of employment. The in and out of work process involves Her Majesty's Revenue and Customs and local authorities, working with Jobcentre Plus to smooth the transition for customers moving in and out of work reducing the number of organisations the customer has to contact at the point they make a new claim or when they start work. Jobcentre Plus gathers all the information and evidence that is needed for housing benefit, council tax benefit and tax credits improving the speed and accuracy of information sharing so that the right benefit is paid more quickly.

The Department continues to explore ways to make the claiming process more automatic through wider use of data sharing and also by data matching to assist local authorities to identify customers with potential entitlement. It will continue to look for service improvements on offer to pensioners for example by partnership working with local authorities and other agencies and signposting to the most appropriate contact point too pursue a benefit claim.

Departmental Manpower

Mr. Harper: To ask the Secretary of State for Work and Pensions how many full-time equivalent staff there have been in her Department's *(a)* Fraud Investigation Service and *(b)* Organised Fraud Unit in each year since 2006. [316364]

Jonathan Shaw: The available information is in the table (data are not available prior to 2007):

Numbers of full-time equivalent staff in Fraud Investigation Service and Organised Fraud Unit since 2007

Date	*Total number of Fraud Investigation staff (excluding Organised Fraud Unit staff)*	*Total number of Organised Fraud Unit staff*
March 2007	2,785	231
March 2008	2,671	204
March 2009	2,564	214
September 2009	2,557	218

The decrease in the total number of Fraud Investigation Service staff needs to be seen against the pre-recession spending review efficiency challenge. There have been significant productivity gains and elimination of waste that have seen record numbers of benefit thieves caught and sanctioned. The numbers in the Organised Fraud Unit are a reflection of our commitment to tackle the serious and organised fraudsters who abuse the benefits system.

Departmental Written Questions

John Mason: To ask the Secretary of State for Work and Pensions how many questions tabled for answer on a named day her Department received in each of the last 12 months; and to how many such questions her Department provided a substantive answer on the day named. [305384]

Helen Goodman: The information requested is in the following table:

Named day questions by month tabled

	2009										
	Jan	*Feb*	*Mar*	*Apr*	*May*	*Jun*	*Jul*	*Sept*	*Oct*	*Nov*	*Dec*
Number answered on or before the named day	20	21	19	9	6	29	34	17	17	14	18
Number answered after the named day	62	85	91	29	47	65	43	44	53	35	34
Total number	82	106	110	38	53	[illegible]	77	61	70	49	52

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what percentage of parliamentary questions tabled for written answer by her Department on a named day in session 2008-09 received a substantive answer on that day. [307546]

Helen Goodman: The Department answered 829 named day questions in session 2008-09, of which 252 (30.4 per cent.) received a substantive reply on the named day.

David Simpson: To ask the Secretary of State for Work and Pensions what average time her Department took to answer questions for *(a)* ordinary written answer and *(b)* written answer on a named day in the last 12 months. [313648]

Helen Goodman: In the 12 months to 31 January 2010 the average time taken by the Department to answer *(a)* ordinary written questions was 14.0 sitting days and *(b)* named day questions was 8.9 sitting days.

With effect from the current Session of Parliament, each Department will provide the Procedure Committee with sessional statistics on the time taken to answer written questions. This implements recommendation 24 of the 3rd report from the Procedure Committee, Session 2008-09.

Housing Benefit

Greg Mulholland: To ask the Secretary of State for Work and Pensions what proportion of claimants of local housing allowance make an additional payment to cover the difference between benefit received and rent paid; and what estimate she has made of the average weekly payment made by such claimants in the latest period for which figures are available. [318637]

Helen Goodman: In August 2009, 48 per cent. of customers who received housing benefit under the local housing allowance arrangements had a shortfall of £23 per week on average. This relates to shortfalls caused by a customer's contractual rent being higher than the appropriate local housing allowance rate.

Greg Mulholland: To ask the Secretary of State for Work and Pensions what percentage of those in receipt of housing benefit in the private rented sector, excluding those in receipt of local housing allowance, have their benefit paid to *(a)* their landlord and *(b)* themselves. [318813]

Helen Goodman: The information is not available in the format requested and could be obtained only at disproportionate cost.

Greg Mulholland: To ask the Secretary of State for Work and Pensions what percentage of those in receipt of local housing allowance have their benefit paid to *(a)* their landlord and *(b)* themselves. [318815]

Helen Goodman: The local housing allowance, rolled out from 7 April 2008, uses the appropriate local housing allowance rate, based on the area where the person lives and the size of their household, to determine the maximum amount to be included in the housing benefit calculation. Customers can choose to rent properties with rents below the local housing allowance rate and are able to keep the excess benefit up to a maximum of £15 per week. If the rent is higher than the local housing allowance rate they must make up the difference from other sources of income.

In August 2009, 25 per cent of customers who received housing benefit under the local housing allowance arrangements had their benefit paid to their landlord and 72 per cent had their benefit paid to themselves. For 3 per cent. of customers the payment destination information is not reliably reported.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Work and Pensions how much was spent by her Department on the Support for Mortgage Interest Scheme in *(a)* each of the last three years and *(b)* 2009-10 to date. [316745]

Helen Goodman: Annual expenditure on the Support for Mortgage Interest scheme in the last three years was as follows:

	£ million
2006-07	390
2007-08	430
2008-09	430

The latest available data are for the first quarter of 2009-10, for which the total expenditure on the Support for Mortgage Interest scheme was £120 million.

Source:

DWP Quarterly Statistical Enquiry

Pension Credit: Essex

Mr. Amess: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of pensioners resident in *(a)* Essex and *(b)* Southend eligible for but not claiming pension credit. [320642]

Angela Eagle: Estimates of eligibility are not available below the level of Great Britain.

The latest estimates of the take-up rates and the number of those entitled but not receiving pension credit are published in the report "Income Related Benefits estimates of Take-Up in 2007-08", which is available in the House of Commons Library or on the DWP website at:

http://research.dwp.gov.uk/asd/irb.asp

Social Security Benefits: Aberdeenshire

Mr. Salmond: To ask the Secretary of State for Work and Pensions how many individuals are in receipt of *(a)* pension credit, *(b)* attendance allowance, *(c)* incapacity benefit and *(d)* jobseeker's allowance in Banff and Buchan constituency; and what the average weekly level of each benefit received was in the latest period for which figures are available. [319346]

Jonathan Shaw: Attendance allowance provides an important non-contributory, non-income-related and tax free cash contribution towards the extra costs of severely disabled people. The Government are committed to providing real help to disabled people, particularly through the early stages of economic recovery. This is why the Chancellor announced in the December 2009 pre-Budget report that attendance allowance would be increased by 1.5 per cent.—bringing forward help when it is most needed. Without this commitment, the recent negative growth in the Retail Prices Index would have meant that this benefit would not have increased in 2010.

From 27 October 2008 we replaced incapacity benefits for new customers with the employment and support allowance and a revised medical assessment which focuses on what people can do, as well as what they cannot.

The principal function of pension credit is to tackle pensioner poverty by topping up the incomes of pensioners over 60 to the guaranteed minimum amount appropriate to their circumstances.

The information requested is in the table.

Number of cases in payment and average weekly payment of Pension Credit, Attendance Allowance, Incapacity Benefit/Severe Disablement Allowance and Jobseeker's Allowance in the Banff and Buchan constituency in August 2009

Benefit	*Number of cases in payment*	*Average weekly amount paid (£)*
Pension Credit (households)	4,570	48.81
Attendance Allowance	1,990	59.29
Incapacity Benefit/Severe Disablement Allowance	3,930	94.43
Jobseeker's Allowance	980	62.70

Notes:

1. Benefit recipients are rounded to the nearest 10,
2. Average weekly amounts rounded to the nearest penny.
3. Benefit recipients receiving more than one of these benefits will be counted under each benefit.
4. Attendance allowance totals exclude people with entitlement where the payment has been suspended, for example if they are in hospital.
5. These data do not include claimants of employment and support allowance introduced from October 2008.
6. All data refer to benefit recipients and will therefore exclude credits only and nil payment cases.
7. Household is defined here as the number of individuals or couples in receipt of pension credit and equates to a "benefit unit" which, since 2006, also include same-sex partners. Two individuals who are not partners but live in the same house are counted as separate households.

Department for Work and Pensions Information Directorate: Work and Pensions Longitudinal Study.

State Retirement Pensions

Mr. Waterson: To ask the Secretary of State for Work and Pensions (1) what mechanisms were in place to monitor the implementation of the financial corrections made by her Department in respect of voluntary pension payments made between 1996 and 2002; [316300]

(2) what financial corrections were made by the Government in respect of reminders for voluntary pensions contributions in each year between 1996 and 2002; and whether those corrections were made only in respect of individuals who had previously made voluntary pension contributions; [316301]

(3) how much has been paid in pension back payments to overseas residents who did not receive reminders about their voluntary pension contributions in each year between 1996 and 2002. [316302]

Angela Eagle: For the tax years 1996-07 to 2001-02 deficiency notices inviting customers with gaps in their national insurance records to pay voluntary contributions were temporarily suspended. Following the suspension my Department was responsible for contacting those people who reached state pension age between 6 April 1998 and 24 October 2004, and were due to receive a deficiency notice for one of more of the above tax years. An exercise started in September 2004 to contact such customers, where it would be beneficial for them to consider paying voluntary contributions.

Regulations allow for any customer who reached state pension age between 6 April 1998 and 24 October 2004 to pay voluntary contributions for the tax years 1996-07 to 2001-02. It is not possible to identify separately those who have made voluntary contributions after contact by my Department and those who have made them through their own inquiries. To date, following payment of voluntary contributions by individual customers, arrears of state pension amounting to £84.2 million have been paid to customers in Great Britain and £30 million to customers resident overseas. This is based on current information as customers still have until 5 April 2010 to decide whether to pay such voluntary contributions for these years. An annual breakdown of arrears attributable to voluntary contributions made in each of the tax years is not available.

Mr. Drew: To ask the Secretary of State for Work and Pensions what recent representations she has received on the uprating of the additional state pension; and if she will make a statement. [318621]

Angela Eagle: The Department has received a number of representations on the uprating of additional pension.

Increasing the basic state pension along with pension credit is the most effective way of getting help to over 11 million pensioners in Great Britain.

In the absence of RPI inflation there is no legal requirement to uprate additional pension. We have therefore decided to adopt a more equitable approach to helping pensioners by increasing the basic state pension which goes to virtually all pensioners in Great Britain and pension credit which goes to the poorest.

Work Capability Assessment

Mr. Hancock: To ask the Secretary of State for Work and Pensions what *(a)* medical training and *(b)* diagnostic experience her Department requires of Atos Medical Ltd. employees contracted to carry out work capability assessments. [318177]

Jonathan Shaw: Atos Healthcare doctors must be fully registered with the General Medical Council (GMC) without current or previous restrictions, conditions or warnings and hold a licence to practice from the date the GMC issues licences. In addition they must have at least three years post full registration (GMC or EEA—European Economic Area equivalent) experience. Alternatively for non EU graduates three years minimum post full registration experience in the doctors native country is required. In individual cases, solely at the discretion of the DWP chief medical adviser, the requirements that no conditions or warnings be attached to registration and that the doctor must have a minimum of three years post registration experience, may be waived.

Atos Healthcare nurses must be fully registered (level 1) Registered General Nurses without current or previous restrictions or cautions with the Nursing and Midwifery Council. In addition they must have at least three years post full registration experience. In individual cases, solely at the discretion of the DWP chief medical adviser, the requirements that no cautions be attached to registration and that the nurse must have a minimum of three years post registration experience, may be waived.

Atos Healthcare doctors and nurses are specifically trained to provide decision making authorities with independent, accurate and authoritative advice and reports on the effects of disability.

Initial Training: varies in detail according to which benefit is involved. However all such training follows a similar basic pattern, as follows:

Theoretical Training: Theoretical training commences with a trainer led theory based course usually delivered to a group of trainees in a classroom setting. Trainees who are new to the work of Atos Healthcare will receive instruction in such areas as disability analysis, customer's rights, equal opportunities and professional standards. Detailed technical information relevant to the benefit concerned is provided. All Atos Healthcare trainers have undergone specific training to prepare them for the role, including practical sessions to enhance their understanding of how adults learn.

Practical Training: Practical Training is the work undertaken by the new recruits that is produced in a controlled environment. For examination centre based assessments the trainee is supervised and appraised by an experienced medical adviser as they complete their introductory cases. In the domiciliary visit based benefits the initial cases are monitored immediately on return to allow feedback to be given without delay.

Demonstration of understanding assessed by multiple choice examination: for incapacity benefit, employment and support allowance and disability living allowance the trainee is required to attain a pass mark in a multiple choice questionnaire before they are allowed to proceed to the practical training. The questionnaire includes questions on the whole range of topics covered in the training course.

Demonstration of understanding by audit: In all benefits the initial cases produced by the trainee are target monitored by an experienced medical adviser and the training cannot be considered as complete until the HCP has demonstrated that their work is acceptable. Whenever any problems are identified appropriate feedback is provided. Further cases are monitored until the work is shown to be satisfactory. If the situation is not rectified the HCP may be required to repeat the entire training process. Continued lack of progress will result in the HCP being offered no further training and no further work.

Approval: All HCPs must be approved by the chief medical adviser to the DWP and separate approval is required for each benefit area in which the HCP is involved. Approval is dependent on successful completion of all stages of their training process and ongoing demonstration that the work being carried out meets a satisfactory standard.

Written Guidelines: As part of the trainees training and ongoing support, HCPs are issued with guidelines pertaining to the benefit involved. These guidance notes provide specific technical advice about the benefit concerned, outline best practise and contain general advice about disability analysis and service to the people with disabilities.

TRANSPORT

A19: North Tyneside

Norman Baker: To ask the Minister of State, Department for Transport if he will take steps to ensure that the proposed improvements to the junction of the A1058 and A19 are concluded in a way that makes appropriate provision for further future improvement works on the A19 to be carried out, with particular reference to traffic flow arrangements during any period of construction. [320807]

Chris Mole: The proposed improvements by the Highways Agency to the roundabout where the A1058 slip road and the A19 meet are an interim scheme designed to relieve congestion at the roundabout in the short term until a major improvement scheme can be delivered. In the Highways Agency's contract for these works, there will be a requirement to maintain two lanes in both directions for traffic on the A19 during peak periods.

By increasing the available road space at the junction, this scheme should make it easier to manage traffic flow during the construction of further future improvements, such as the major improvement scheme for the Interchange.

During the development of the interim scheme, discussions have been held with the designer of the major improvement scheme to ensure that there is a minimum of abortive work, and that the two schemes are compatible. The precise traffic management requirements for the major improvement scheme will not be decided until a contractor is appointed, but it is envisaged that the scheme can be constructed without major disruption, with two lanes maintained in both directions for traffic on the A19 and A1058 Coast Road during peak periods.

Bus Services: Concessions

Mr. Harper: To ask the Minister of State, Department for Transport if he will estimate the cost to the Exchequer of mutual recognition of concessionary bus travel passes between England and Wales. [320936]

Mr. Khan: It is difficult to predict the cost of mutual recognition of concessionary travel bus passes across the devolved Administrations because the precise pattern of passholder travel is not knowable in advance. However, the Department for Transport has commissioned some research and this suggested that mutual recognition, excluding Northern Ireland, could cost in the region of £11 million per annum. This does not take into account the potentially significant costs of harmonisation of the different concessionary travel schemes which apply in England, Wales and Scotland.

Parking Offences

Mrs. Ellman: To ask the Minister of State, Department for Transport what powers the Secretary of State has to *(a)* suspend and *(b)* revoke the civil parking enforcement powers exercised by a local authority; and what criteria he uses to determine whether it is appropriate to exercise such powers. [320958]

Mr. Khan: The Secretary of State has the power to revoke a Statutory Instrument that designates the whole or part of a local authority's area as a civil enforcement area for parking contraventions on the application of that authority. Each application would be considered on its merits. There is no power to suspend such an instrument.

Mrs. Ellman: To ask the Minister of State, Department for Transport what steps he takes to assess the performance of local authorities in respect of civil parking enforcement. [320959]

Mr. Khan: We have no plans to carry out such assessments. Councillors are accountable to the electorate, rather than to the Government, for the performance of their local authority. The Government's longer term vision for local government involves councils reporting less to central Government and more to their local communities.

CHILDREN, SCHOOLS AND FAMILIES

Class Sizes

Anne Main: To ask the Secretary of State for Children, Schools and Families what the average staff to pupil ratio is in secondary schools in *(a)* St. Albans constituency and *(b)* England. [320889]

Mr. Coaker: The following table provides the pupil:adult ratios for local authority maintained secondary schools in St. Albans constituency and England, January 2009.

Within school pupil:adult ratio (PAR)[1] in local authority maintained secondary schools[2] Year: January 2009, Coverage: St. Albans constituency and England

	Secondary
England	10.7
St. Albans	11.5

[1] The within school PAR is calculated by dividing the total full-time equivalent (FTE) number of pupils on roll in schools by the total FTE number of all teachers and support staff employed in schools, excluding administrative and clerical staff.

[2] Excludes city technology colleges and academies.

SOLICITOR-GENERAL

Departmental Paper

Martin Horwood: To ask the Solicitor-General what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products the Law Officers' Departments use; and what the Law Officers' Department's policies are on the procurement of those materials. [320021]

The Solicitor-General: The information requested is as follows:

Attorney-General's Office (AGO)

Where possible, the AGO uses recycled paper products. Where it is not recycled, it is sourced from 'well-managed forests'. The hand towels, which are currently 'virgin pulp' are being switched to a 100 per cent. recycled product once current supplies are exhausted

Brand	*Supplier*	*Paper type*	*Size*	*Weight*	*Recycled content*
Evolve	Eximedia	Copier paper	A4	80gsm	100 per cent.
Steinbeis	Banner	Copier paper	A3	80gsm	100 per cent.
Xerox Symphony	Banner	Copier paper—green	A4	80gsm	Virgin
Letterheaded paper	Eximedia	Ministerial paper	A4	100gsm	Virgin
Viking	Viking	White Card	A4	160gsm	Virgin

Brand	*Supplier*	*Paper type*	*Size*	*Weight*	*Recycled content*
Luxury whisper	Mayflower	Toilet tissue	—	—	100 per cent.
Tork premium	Mayflower	Hand towels	—	—	Virgin
Katrin classic	Mayflower	Kitchen roll	—	—	100 per cent.

National Fraud Authority (NFA)

The NFA is committed to using suppliers that are contracted via the Office of Government Commerce Buying Solutions Framework to ensure value for money; procuring paper products that are sustainably sourced where possible. In 2008-09 all paper products used by NFA were sourced from sustainable forests and are 100 0 per cent. recyclable. Current brands used are as follows:

Type	*Supplier*	*Brand*	*Specification*
Copier paper	Lyreco UK Ltd.	Navigator Universal	A4 and A3 80gsm White
Printing paper	Lyreco UK Ltd.	Navigator Universal	A4 and A3 80gsm White
	Banner Business Supplies	Xerox	A4 Symphony Tint 80gsm Green

No orders were placed for paper packaging, craft materials or hygiene products

between August 2008 and March 2009.

Serious Fraud Office

SFO policy on the procurement of paper and paper products is (wherever possible) to meet the "Buy Sustainable—Quick Wins" best practice specifications issued by the Department for Environment, Food and Rural Affairs (DEFRA). Suppliers used are 'Talk paper' and 'KH packaging'. The brands are as follows:

Paper brand

Evolve Office

Evolve Office 2 Hole

Data Colour

Data Colour Every day

Crown Prosecution Service

The Crown Prosecution Service (CPS) has a national framework contract with Office Depot for the supply of general stationery items and photocopying paper. CPS Sustainable Procurement Policy mandates that relevant products are purchased in accordance with the Office of Government Commerce's list of quick wins.

The CPS does not keep central records of the brands of paper products purchased and to obtain these details would involve manually checking paper records throughout the organisation and would incur disproportionate cost.

According to records supplied by Office Depot brands of paper purchased during 2008-09 include Niceday, Epson, Evolve, Hewlett Packard, Xerox, Datacopy, Steinbeis and Conqueror.

The CPS is a devolved organisation and it is possible that additional paper products outside of the Office Depot contract have been purchased. To obtain details of these including the brands of items would incur disproportionate cost.

Prior to the merger of the two departments in 2009-10 Revenue and Customs Prosecutions' Office (RCPO) obtained all its paper supplies, other than the fine quality bond paper, from Premier Beswick Paper mills, who are a recommended supplier from OGC. All the paper provided by Premier Beswick is 100 per cent. recycled.

Treasury Solicitor's Department

The Treasury Solicitor's Department (TSol) utilises *(a)* Banner Office Supplies and Exi Serve Ltd. and *(b)* paper products as follows:

	Size
Stationery items—supplier and brand both Banner Office Supplies	
A-Z index books	A4/A5
Memo pads	A4/A5
Shorthand notebooks	A5
Plain pads	A5/A6
Post-it notes	Small/medium/large
Blue inserts/spines/corners	
Photocopying paper (part recycled fibres)	A4
Photocopying paper (part recycled fibres)	A3
Envelopes—supplier and brand both Banner Office Supplies	
A5 White Window	229x162
A5 Plain	229x162
A4 Window	
A4 Plain	
Plain	254x178
Plain	381x254
Window	110x220
Plain	110x220
Plain	406x305
Transit envelopes	Medium/large
Stationery products—supplier Exi Serve Ltd. Brand Q-Connect	
Business storage boxes/archive boxes	
Counsel note books	

The Treasury Solicitor's Departments policy is to procure, where possible, all items of paper products from Banner Office Supplies under a framework agreement negotiated by HM Revenue and Customs and to ensure that items are procured in the most cost-efficient and environmentally manner possible.

HM Crown Prosecution Service Inspectorate

HMCPSI have adopted sustainable procurement and are working with TSol towards adopting their e-procurement policy and framework. Wherever possible, HMCPSI are committed to meet the "Buy Sustainable—Quick Wins" best practice specifications issued by the Department for Environment, Food and Rural Affairs (DEFRA).

The following table shows the *(a)* suppliers *(b)* brands of (i) paper and (ii) paper products bought during the financial year 2008-09.

(a) Supplier	*(b) Brands*	*(i) Paper*	*(ii) Paper products*
Lyreco UK Ltd.	Evolve which is 100 per cent. recycled content	Copier/office paper	

(a) Supplier	*(b) Brands*	*(i) Paper*	*(ii) Paper products*
Paperback Ltd.	Croxley Heritage which is 80 per cent. recycled content	Letterhead	—
Paperback Ltd.	Evercolour which is 100 per cent. recycled content	Coloured paper	—
Xerox (MOJ) supplier	Usually Xerox own brand paper. No definite figure for recycled content but meets government standard	Report Printing	—
Pioneer Quality Services and their sub-contractors	No information supplied by contractor	—	Toilet paper and hand towels
Lyreco UK Ltd.	Impega and Tyrek—company brands. They are endorsed by the Forest Stewardship Council and are sourced from sustainable forests and are 100 per cent. recyclable	—	Envelopes

Hotels

Mr. Maude: To ask the Solicitor-General pursuant to the answer to hon. Member for Ruislip Northwood of 9 February 2010, *Official Report*, column 861W, on hotels, at which hotels graded five star or above bookings were made; for what *(a)* dates and *(b)* purposes the bookings were made; and whether the bookings were made on behalf of (i) Ministers and (ii) civil servants. [320911]

The Solicitor-General: The following five star hotels were booked for civil servants carrying out official duties. SFO policy is that hotel expenditure should meet the SFO hotel booking policy which compares favourably with wider Government service policies. Hotels with five star ratings have only been selected in exceptional circumstances where other lower ratings were not available or suitable. The geographical location of the hotels has not been specified because all the bookings related to investigations conducted by the Serious Fraud Office into possible criminal activity.

Hotel name	*Arrival*
Hilton	25 May 2009
Hilton	25 May 2009
Inter-Continental hotel	26 Aug 2009
Radisson	20 May 2009
Radisson	15 Sep 2009
Radisson	02 Mar 2009
Radisson	02 Mar 2009
Radisson	03 Aug 2009
Radisson	22 Apr 2009
Radisson	22 Apr 2009
Radisson	22 Apr 2009
Other unnamed hotel	05 Jul 2009

Royal Family

Norman Baker: To ask the Solicitor-General which members of the Royal Family are entitled to the assistance of the Attorney-General in her capacity as legal adviser. [319371]

The Solicitor-General: The only member of the Royal Family whom the Attorney-General, as Her Majesty's Attorney-General, is on occasion called upon to advise is the Queen.

Royal Family: Wills

Norman Baker: To ask the Solicitor-General (1) who initiated the discussions between the Palace, Farrers, the Attorney-General's Secretariat, the Attorney-General, a Senior District Judge, and President of the Family Division on the practice of the sealing of royal wills, leading to the creation of a document considering the practices for the closure of royal wills which was created in discussions before and after the death of the late Her Royal Highness the Princess Margaret Countess of Snowdon, but prior to the issue of any proceedings; [319368]

(2) if she will publish the record of the discussions between the Palace, Farrers, the Attorney-General's Secretariat, the Attorney-General, a Senior District Judge, and President of the Family Division on the practice of sealing of royal wills before and after the death of the late Her Royal Highness the Princess Margaret Countess of Snowdon, but prior to the issue of any proceedings to the sealing of royal wills. [319369]

The Solicitor-General: There have from time to time for many years been discussions between interested parties about the practice of the sealing of royal wills. It is not usual practice to comment on discussions undertaken in confidence with the Royal Household or their legal representatives.

Norman Baker: To ask the Solicitor-General whether the Attorney-General attended a court hearing to determine whether the will of *(a)* Her Majesty the Queen Mother and *(b)* Her Royal Highness the Princess Margaret, Countess of Snowdon should be sealed. [319370]

The Solicitor-General: The Attorney-General did attend court hearings to determine whether the wills of Her Majesty Queen Elizabeth the Queen Mother and Her Royal Highness the Princess Margaret should be sealed.

HEALTH

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Health how much was paid in reimbursable expenses to special advisers in his Department in each of the last five years. [320477]

Phil Hope: The Department paid the following amounts, as reimbursable expenses, over the past five financial years:

	£
2009-10 (to date)	476.69
2008-09	738.62
2007-08	1,156.28
2006-07	501.49
2005-06	1,081.34

Grimsby

Mr. Austin Mitchell: To ask the Secretary of State for Health if he will set out, with statistical information related as directly as possible to Great Grimsby constituency, the effects of his Department's policies on that constituency since 1997. [320181]

Ann Keen: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. 93 per cent. of people nationally now rate the NHS as good or excellent. The NHS Constitution contains 25 rights and 14 pledges for patients and the public including new rights to be treated within 18 weeks, or be seen by a cancer specialist within two weeks and an NHS health check every five years for those aged 40 to 74 years.

There is significant evidence that these policies have yielded considerable benefits for the Great Grimsby constituency. For example:

Figures for December 2009 show that in the North East Lincolnshire Care Trust Plus:

99 per cent. of patients whose treatment involved admission to hospital started their treatment within 18 weeks.

99 per cent. of patients whose treatment did not involve admission to hospital started their treatment within 18 weeks.

In December 2009, at the Northern Lincolnshire and Goole Hospitals NHS Foundation Trust, 98.5 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge.

Between September 2002 and September 2008, the number of consultants at the Northern Lincolnshire and Goole Hospitals NHS Foundation Trust has increased from 120 to 141. Between September 2002 and September 2008 the estimated number of nurses has increased from 1,646 to 1,826.

Between September 2001 and September 2008 the number of general practitioners (GPs) per 100,000 within the North East Lincolnshire Care Trust Plus has increased from 55.9 to 62.6.

96.3 per cent. of urgent GP referrals to the Northern Lincolnshire and Goole Hospitals NHS Foundation Trust with suspected cancer are seen by a specialist within two weeks of the referral (as at December 2009).

In July 2009, a new GP-led health centre opened in Grimsby town centre. The health centre is open from 8 am until 8 pm, seven days a week, 365 days a year, and offers bookable appointments and walk-in services for any member of the public.

There is one publicly funded scheme in the area that serves this constituency: a £12 million women and children's unit at the Diana Princess of Wales Hospital, which opened in February 2004.

Although statistical information is not available at a local level, Great Grimsby will have also benefitted from national policies in other areas. For example:

Since 1997, gross current expenditure on personal social services has increased by around 70 per cent. in real terms with around 105,000 households now receiving intensive home care and 3,076 new extra care housing units—exceeding the original target of 1,500 new extra care units.

Other strategies currently being implemented are:

Subject to parliamentary approval, the Personal Care at Home Bill will guarantee free personal care for 280,000 people with the highest needs and help around 130,000 people who need home care for the first time to regain their independence.

'Shaping the Future of Care Together' Green Paper, published in July 2009, sets out a vision of a National Care Service for all adults in England which is fair, simple and affordable. The Department has consulted widely on this reform and is currently analysing the responses, which will feed into a White Paper later this year.

The National Carer's Strategy ('Carers at the heart of 21st century families and Communities'), launched in 2008.

The first National Dementia Strategy was published in February 2009.

'Valuing People Now', a three year strategy for people with learning disabilities published in January 2009.

'New Horizons: A Shared Vision for Mental Health', launched in December 2009, to maintain improvements in mental health services combined with a new cross-Government approach to promoting public mental health.

Since 1998, there are now 2.4 million fewer smokers in England as a result of the Government's comprehensive tobacco control strategy which has a measurable impact on reducing smoking prevalence.

Child obesity levels are reducing due to the efforts of families across England, supported by the Government's obesity strategy. In 2008, 13.9 per cent. of children (aged two to 10) in England were classified as obese, compared with 17.3 per cent. in 2005.

Overall, life expectancy at birth for men has increased from 74.5 years (1995-97 data) to 77.7 years (2006-08 data) while for women, life expectancy at birth has increased from 79.6 years (1995-97 data) to 81.9 years (2006-08 data).

Health Services: Isle of Man

Andrew Mackinlay: To ask the Secretary of State for Health whether Flybe has been consulted on the implications for carriers of the discontinuance of the reciprocal health agreement between the UK and the Isle of Man; and if he will make a statement. [318456]

Gillian Merron: The Department took the decision to end the reciprocal healthcare agreement between the United Kingdom and the Isle of Man, as it no longer represents value for money to the UK taxpayer. Neither Flybe, nor other carriers, were consulted as part of that process. However, the Department will be targeting the tourist industry as part of a campaign to raise awareness that the agreement with the Isle of Man will be ending.

Illegal Immigrants

Mr. Syms: To ask the Secretary of State for Health how many staff his Department and its agencies have appointed who were later discovered to be illegal immigrants since 2005. [320445]

Phil Hope: No illegal immigrants have been found to be working within the Department or its agencies in the last five years.

Mobile Phones: Children

Lembit Öpik: To ask the Secretary of State for Health what steps his Department has taken to increase awareness of its advice on the use of mobile telephones by children and young people under the age of 16; and if he will make a statement. [320171]

Gillian Merron: The Department's leaflet, "mobile phones and health", including advice concerning children's use of mobile phones, is available on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4123979

The Department keeps this leaflet under review to ensure the presentation is fresh and effective. A copy has already been placed in the Library.

Advice on using mobile phones is also available on the NHS Choices website at:

www.nhs.uk/conditions/mobile-phone-safety/pages/risks.aspx

The Health Protection Agency's Radiation Protection Division advises the Government on science matters concerning electromagnetic fields and has recently reviewed its website advice on mobile phones at:

www.hpa.org.uk/webw/HPAweb&HPAwebStandard/HPAweb_C/1195733769169

NHS: Finance

Fiona Mactaggart: To ask the Secretary of State for Health what contacts the NHS has had with the National Bullying Helpline; and whether the NHS has made any payments to *(a)* the National Bullying Helpline and *(b)* HR and Diversity Management Limited since 2004. [320132]

Ann Keen: This information is not held centrally. Any data on payments to the above bodies would be held at local trust level. One of the measurement criteria in the NHS staff survey is

> "Percentage of staff experiencing bullying & harassment from staff (manager, team leader or other colleague) in the previous 12 months".

The next staff survey results are due on 17 March 2010.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Flood Control

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs how many dams, reservoirs and lakes in England have a system of releasing water to provide storage for excess rain; and if he will make a statement. [320166]

Huw Irranca-Davies: The Environment Agency keeps a public register of the 2,102 (1,899 in England) large raised reservoirs which are capable of holding 25,000m^3 or more of water above natural ground level. The Environment Agency is the enforcement authority for the Reservoirs Act 1975 in England and Wales.

The register does not contain details of the systems for releasing water from the reservoirs. However, most reservoirs do have such systems for operation and maintenance purposes.

The Environment Agency is the operator for 182 flood storage reservoirs in England. The purpose of these reservoirs is to provide storage for excess rain.

Horses: Anaemia

Mr. Soames: To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of equine infectious anaemia were reported in the UK in each of the last five years. [320968]

Jim Fitzpatrick: There have been two cases of equine infectious anaemia reported in the UK in the last five years. The first was in Northern Ireland in September 2006, the second was in England in January 2010.

Livestock: Exports

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* unweaned calves, *(b)* cattle, *(c)* sheep and *(d)* other livestock species were exported for (i) further fattening and (ii) slaughter in 2009. [319974]

Jim Fitzpatrick: Statistics on numbers of animals consigned for export from Great Britain are not routinely collated (although numbers of export consignments are). Nor are statistics collated on whether consignments are for breeding, further fattening or slaughter, or numbers of weaned or unweaned calves.

Information for trade within the European Union is currently being sought through the European Commission. However, the system used to access this has been unavailable since 22 February although the Commission has been contacted and is expected to provide this information shortly. The information for non-EU trade can be gathered by scrutinising the export certificates for each of the 49 consignments in 2009, though this could not be achieved within the timescale required for this response but will be supplied subsequently.

NORTHERN IRELAND

Departmental Languages

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland how many *(a)* Ministers and *(b)* civil servants in his Department received coaching in a foreign language in the last 12 months; what expenditure his Department incurred in providing such coaching; and in what languages such coaching was provided. [320541]

Mr. Woodward: The Northern Ireland Office (NIO) has not provided or funded, coaching in a foreign language to Ministers or civil servants in the last 12 months.

Departmental Paper

Martin Horwood: To ask the Secretary of State for Northern Ireland what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320027]

Mr. Woodward: The majority of divisions within the Northern Ireland Office (NIO) use a central contract to procure copying paper. Suppliers on this contract are Antalis; Banner; Office Depot and Supplies Team.

Brand details of copying paper procured through this contract are:

Everyday Business recycled paper A4 80 gsm white;

Evolve Business recycled paper A4 80 gsm white;

Xerox recycled paper A4 80 gsm (various colours);

Banner minute sheets A4 and A5 sizes 70 gsm;

Steinbeis recycled paper A4 80 gsm white.

Separate arrangements are in place for our London Office, who source copying paper via locally based suppliers. The local supplier used is Xerox. The brand of paper procured is Xerox Supreme recycled paper A4 80 gsm white.

All brands of copying paper procured by the Department are 100 per cent. recycled.

There are local arrangements in place in each NIO location with landlords providing paper based products such as kitchen and toilet rolls. There is no central list of the suppliers or brand names of these products.

Departmental policy is to procure recycled copying paper and paper products in line with the Quick Wins targets set by the Government.

Illegal Immigrants

Mr. Syms: To ask the Secretary of State for Northern Ireland how many staff his Department and its agencies have appointed who were later discovered to be illegal immigrants since 2005. [320448]

Mr. Woodward: The Northern Ireland Office (NIO) has not appointed any staff since 2005 who were later discovered to be illegal immigrants.

BUSINESS, INNOVATION AND SKILLS

UK Innovation Investment Fund

Miss Kirkbride: To ask the Minister of State, Department for Business, Innovation and Skills when he expects the first funding to be disbursed from the UK innovation investment fund. [320208]

Mr. McFadden: The UK Innovation Investment Fund brings together public and private sector finance to back the best of British Innovation. The fund has appointed two managers, Hermes Private Equity and the European Investment Fund. There is a total pool of capital of £325 million. £200 million will be invested through the EIF's UK Future Technologies Fund in areas such as ICT, life sciences and advanced manufacturing. £125 million through the Hermes Environmental Innovation Fund will specialise in cleantech and low carbon. We expect these two funds to begin investing over the next few months.

Science and Knowledge Transfer

Linda Gilroy: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the effects on the economy of his Department's policies on science and knowledge transfer. [320211]

Mr. Lammy: Independent studies have shown that excellent research improves the performance of existing business, creates new business, delivers highly skilled people to the labour market and attracts research and development investment from global business.

UKTI used the strength of the research base to attract 450 R and D investments to the UK between 2007-08 and 2008-09.

Business Funding

Mr. Bain: To ask the Minister of State, Department for Business, Innovation and Skills how many businesses have received funding directly from his Department since 2008. [320214]

Mr. McFadden: During the economic downturn, the Government have supported thousands of businesses of all sizes by way of a number of programmes through a combination of grants, guarantees, investments and loans. Through the Enterprise Finance Guarantee, over 8,000 businesses have been offered loans totalling over £850 million. Through the Regional Transition Loan Fund, over £40 million of loans have been agreed. And 160,000 businesses have been able to spread £5 billion in business taxes through allowing businesses more time to pay their tax bill.

Statutory Redundancy Pay

Natascha Engel: To ask the Minister of State, Department for Business, Innovation and Skills if he will take steps to equalise eligibility for statutory redundancy pay for those aged under 22 and 22 or older. [320215]

Ian Lucas: The Government believe that the age bands in the statutory redundancy scheme are objectively justified. The lower band is designed to encourage employers to recruit and retain younger workers.

Aerospace Industry: Skills

Mr. Laurence Robertson: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of the skills requirement of the aerospace industry. [320216]

Kevin Brennan: We are working closely with aerospace businesses to understand their requirements, and with organisations like the Sector Skills Council for Science Engineering and Manufacturing Technologies and the Aerospace Defence Security Industries trade association, who are helping businesses plan their individual skills needs through a Strategic Workforce Planning tool. Building on this, the Aerospace Defence Security Industries trade association is developing a Roadmap to provide a clearer signal of the sector's skills needs.

Biotechnology and Biological Science Research Council

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills what projects will be funded as part of the Biotechnology and Biological Science Research Council initiatives on animal disease. [319841]

Mr. Lammy *[holding answer 3 March 2010]:* BBSRC has recently announced 16 projects that will be funded through the 'Combating infectious diseases of livestock for international development' initiative. BBSRC is also currently funding projects through other initiatives on endemic diseases, avian influenza, blue tongue virus and swine flu. Details are on the web at

http://www.bbsrc.ac.uk/web/FILES/Publications/100215-cidlid-brochure.pdf

BBSRC is also involved in an initiative led by DEFRA on Emerging and major infectious diseases of livestock. The projects to be supported under this initiative have yet to be assessed.

In addition to these initiatives BBSRC has also supported research projects on animal disease through core funding to the Institute for Animal Health (IAH), which in 2008-09 totalled £9.5 million with a further £19.6 million of capital funding related to research on animal disease in 2008-09.

In 2008-09, BBSRC total spend on animal disease research was around £31 million.

Copyright

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to protect copyright privileges. [320580]

Mr. Lammy *[holding answer 4 March 2010]:* Copyright is a private property right. In the vast majority of cases of copyright infringement, the law provides this is a civil wrong. As such it is not for Government to intervene in the enforcement of a private right. The Government are however aware of the need to ensure that the copyright framework is fit for purpose, such that copyright owners are able to take action to enforce their own rights if appropriate. Our proposals in the Digital Economy Bill will improve the options available to copyright owners in the case of online infringement of their rights. Our strategy published last October, 'Copyright—the way ahead: A Strategy for Copyright in the Digital Age', takes a broader view at changes that may be necessary to keep pace with developments. It can be found at:

http://www.ipo.gov.uk/c-strategy-digitalage.pdf

The Government also believe there must be an appropriate and proportionate legal framework in place to tackle criminal infringement of copyright. As part of this framework, the Digital Economy Bill will introduce increased financial penalties for online and physical copyright infringement.

Graduates: Government Assistance

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many people have attended each Make it Happen *(a)* day and *(b)* roadshow event. [319915]

Mr. Lammy: The total number of people who attended a Flying Start - Make it Happen day between 27 October and 10 December is 1,066. Since January 2010 the Make it Happen day events have been combined with the self-employment and business start-up programmes, and between 19 January 2010 and 25 February 2010, 544 people have attended such combined events.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many students from each higher education institution have registered with the Flying Start—Make it Happen campaign. [319916]

Mr. Lammy: The Make it Happen programme is aimed primarily at unemployed graduates; however, students—especially final year students—are not discouraged from attending a Make it Happen event.

The following table shows the numbers of graduates and students to have registered with Make it Happen since its launch in September 2009, broken down by University, and whether a student or graduate, where this is known.

University	*Number of graduates*	*Number of students*
Aberystwyth, University of Wales	9	3

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many unique visitors there were to the FlyingStart—Make it Happen website in each month since it was launched. [319917]

Mr. Lammy: The total number of unique visitors to the Flying Start—Make it Happen website since it was launched on 24 September 2009 is 23,863. The figures by month are:

	Number
2009	
September	3,376
October	7,551
November	6,481
December	2,212
2010	
January	2,912
February	1,330

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how much has been spent on *(a)* roadshow Make it Happen events, *(b)* creating and maintaining the Make it Happen website and *(c)* other activities involved in the FlyingStart - Make it Happen campaign. [319918]

Mr. Lammy: The total spend to date on the Flying Start—Make it Happen programme is £350,000. This is broken down as follows:

£68,000 for the Make it Happen days and programmes;

£69,000 for the creation and maintenance of the Make it Happen Website; and

£213,000 for other activities.

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many people have began a Make it Happen self-employment and business start-up programme. [319920]

Mr. Lammy: 1,570 people have begun a Flying Start—Make it Happen self-employment/business start-up programme.

Innovation: Finance

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills what programmes and initiatives received funding from the other innovation programmes budget referred to in Table 11 of his Department's Departmental Report for 2009; and how much such funding was allocated to each such programme and initiative in the latest year for which figures are available. [318920]

Mr. Lammy *[holding answer 3 March 2010]:* The following received funding in 2008/09 from the "other innovation programmes" budget, referred to in Table 11 of the 2009 Departmental Report:

	£ million
Expenditure on National Measurement System Programmes	62
Depreciation and capital costs associated with the National Weights and Measurements laboratory site	12
Capital Expenditure on National Weights and Measurements laboratory site	12
British Standards Institute and UK Accreditation Service programmes	6
DIUS/Technology Strategy Board collaborative activities	3
Dividend received from Intellectual Property Office	-7
Intellectual Property Office cost of capital	3
Total	91

Music

Mr. Amess: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department is taking to assist the music industry, with particular reference to intellectual property rights relating to that industry. [320604]

Mr. Lammy: This Department conducted a review of copyright last year. The resulting strategy: 'Copyright—the way ahead: A Strategy for Copyright in the Digital Age' was published in October 2009. It can be found at:

http://www.ipo.gov.uk/c-strategy-digitalage.pdf

This covered copyright issues relating to a range of creative industries, including the music industry, and made a number of commitments which we are working to deliver. These include measures in the Digital Economy Bill to combat online infringement of copyright.

The music industry is of course an integral part of the creative economy, for which the Department for Culture, Media and Sport (DCMS) has responsibility. DCMS works closely with the music industry on a wide range of issues and, among other things, is setting up a number of community music rehearsal spaces around England in order to encourage and develop grass-roots talent. 'Creative Britain—New Talents for the New Economy', published in February 2008, and 'Digital Britain', published in June 2009, set the strategic direction for the Government's work to support the creative and digital sectors respectively and a programme of work in these areas is ongoing.

Photographs: Copyright

Mr. Jim Cunningham: To ask the Minister of State, Department for Business, Innovation and Skills what recent representations he has received on mandatory attribution of photographs to the photographer. [320581]

Mr. Lammy *[holding answer 4 March 2010]:* I have recently received a number of representations from photographers about Clause 42 of the Digital Economy

Bill which covers the treatment of Orphan Works and Extended Licensing. Some of these have also referred to the question of attribution.

UK law provides certain "moral rights", including that photographers and creators of other works may assert their right to be identified as the author when their work is used for certain purposes. There are, however, a number of exceptions including where a work is intended for use in a newspaper, magazine or similar periodical. I am aware that some photographers would like to see the law changed to require attribution in all cases.

As my Noble Friend the Parliamentary Under-Secretary of State for Postal Affairs and Employment Relations explained in the debates on the Digital Economy Bill, the Government have noted the concerns of creators (including photographers) and will be keeping the issue under review. The Strategic Advisory Board for Intellectual Property is already looking at the broader issue of moral rights.

Royal Mail

Lorely Burt: To ask the Minister of State, Department for Business, Innovation and Skills what plans he has for the future of Royal Mail sorting centres. [320740]

Mr. McFadden: I have asked Adam Crozier, chief executive of Royal Mail, to respond directly to the hon. Member as Royal Mail management has responsibility for the company's operations. A copy of his reply will be placed in the Libraries of the House.

Mail volumes continue to decline, by 8 per cent. in the first half of the financial year (April to Sept 2009), due to increased use of digital methods of communication. It is vitally important that Royal Mail can structure its operations as efficiently as possible so that it can compete in a competitive communications market while continuing to maintain the universal postal service at affordable prices. Royal Mail and the CWU are currently discussing a wide ranging agreement covering modernisation of the postal network.

Students: Loans

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many borrowers had a Student Loan Company debt cancelled or written off in each of the last five years; and in how many such cases action was taken because of *(a)* bankruptcy and *(b)* completion of an individual voluntary arrangement. [319902]

Mr. Lammy: The available information is shown in the table. Figures reflect the year in which the processing of the write-off took place and not necessarily the year in which the circumstances surrounding the write-off occurred.

Student loan borrowers with accounts cancelled or written-off[1] England

Financial year	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*[4]
Cancelled or written-off[2]	800	1,600	3,300	4,600	6,300
of which					
because of bankruptcy[3]	—	—	—	500	900
on completion of IVA[3]	—	—	—	100	100

— = nil or negligible

[1] The table shows the financial year in which the cancellation or write-off action was processed. The total includes both Mortgage Style and Income Contingent Repayment (ICR) borrowers.

[2] The functionality for processing cancellation of IC loans due to death and disability was put in place in 2008-09. Some write-offs due to death or disability were processed manually in earlier years, but a number of such write-offs dating back to previous years were processed in 2008-09 and are included in this figure.

[3] The functionality for processing write-offs due to bankruptcy and on completion of an IVA was put in place in 2007-08. Some write-offs due to bankruptcy or IVAs were processed manually in earlier years, but a number of such write-offs dating back to previous financial years were processed in 2007-08 and 2008-09 and are included in figures for those years.

[4] Provisional

Source:

Student Loans Company

The number of student loan borrowers has increased each year since loans were introduced in 1990, and it is therefore expected that the number of loans cancelled or written-off will increase annually.

Student loans have been exempt from bankruptcy arrangements since 2004, therefore the figures provided for write-offs due to bankruptcy in 2007-08 and 2008-09 all relate to bankruptcy in earlier years. The Apprenticeships, Skills, Children and Learning Act 2009 contains the provision to exclude student loans from Individual Voluntary Arrangements (IVAs).

Technology Strategy Board

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills what *(a)* projects and *(b)* companies have received funding from the Technology Strategy Board in each month since its creation; and how much funding was provided for each. [307911]

Mr. Lammy: Since it was established in July 2007 the Technology Strategy Board has provided grant funding to companies and collaborative R and D projects, and to knowledge transfer partnership projects.

A copy of the tables will be placed in the Libraries of the House.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Politics and Government

Mr. Sanders: To ask the Secretary of State for Foreign and Commonwealth Affairs what definition of corruption his Department uses in respect of Afghanistan; and what steps he is taking to ensure that officials of his Department based in that country are trained to recognise and report any such corruption. [319019]

Mr. Michael Foster: I have been asked to reply.

Both the UK and Afghan Governments are party to the United Nations Convention Against Corruption (UNCAC) which defines corruption as:

(a) the promise, offering or giving to a public official, directly or indirectly, of an undue advantage, for the official himself or herself or another person or entity, in

order that the official act or refrain from acting in the exercise of his or her official duties;

(b) the solicitation or acceptance by a public official, directly or indirectly, of an undue advantage, for the official himself or herself or another person or entity, in order that the official act or refrain from acting in the exercise of his or her official duties.

HMG officials based in Kabul and Lashkar Gah include Governance and Rule of Law advisers, who are able to identify and advise on how to tackle corruption. The UK government also provides annual guidance to all embassies and overseas offices on reporting suspected corruption.

Arms Control

Mr. Peter Robinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made on negotiations on the content of the proposed UN Arms Trade Treaty; when he expects negotiations to be completed and a text to be laid before the House; what discussions his Department has had with Shorts Bombardier on the effects of such a treaty on *(a)* that company and *(b)* the defence industry; and what steps will be taken to consult representations of the defence industry if a draft Treaty is agreed by the UN. [320941]

Mr. Ivan Lewis: We have made very good progress in securing overwhelming global support to start formal negotiations on an Arms Trade Treaty (ATT) in the UN in July this year. These negotiations will continue through 2011 and culminate in a UN Conference in 2012. We would hope to lay a text before the House following this.

We maintain a regular dialogue with a large number of states in support of the UN ATT process, and with a wide range of UK stakeholders. We have not had discussions with Shorts Bombardier, but we are pleased to be working closely with the UK defence industry trade associations to ensure there is no unintended impact on the legitimate trade in arms.

British Indian Ocean Territory: Environment Protection

Hugh Bayley: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 22 February 2010, *Official Report*, column 211W, on the British Indian Ocean Territory: environment protection, what proposals were made by each of the bodies represented at the meeting on *(a)* 14 January and *(b)* 21 July, 2009; what response the Government made to each of those proposals; and what his policy is on relations between the UK and Mauritius. [320128]

Mr. Ivan Lewis: During the 14 January meeting the delegations discussed the latest legal and policy developments relating to the British Indian Ocean Territory (BIOT)/Chagos Archipelago. Both delegations set out their respective positions on sovereignty and the UK also set out how the UK needed to bear in mind its treaty obligations with the US and our ongoing need of the British Indian Ocean Territory for defence purposes. There was mutual discussion of fishing rights, environmental concerns, the continental shelf and future visits to the Territory by Chagossians.

During the 21 July meeting both delegations reiterated their respective positions on sovereignty and resettlement as expressed at the first round of talks held in London on 14 January. The delegations agreed on the desirability of a co-ordinated submission to the UN Commission on the Limits of the Continental Shelf for an extended continental shelf in the Chagos Archipelago/BIOT region. A joint technical team would be set up with officials from both sides to look into the possibilities of a co-ordinated response. The UK delegation proposed that consideration be given to the possible creation of a Marine Protected Area (MPA), which the Mauritians agreed in principle. The UK delegation agreed to examine the Mauritian proposal to set up a mechanism to look into the joint issuing of fishing licences for BIOT waters, and stated that such examination would also include consideration of the implications of the proposed MPA.

UK relations with Mauritius are broad and deep, with regular contacts at all levels. The UK is Mauritius' largest trade partner and second largest tourism market. The UK and Mauritius have many shared international priorities and, subject to regional voting constraints, the UK and Mauritian Governments frequently take the same positions in international fora. Within regional blocs, such as the African Union (AU) and Southern African Development Community (SADC), Mauritius is often a voice supporting UK aims. The Government also supports, through the EU, structural adjustment of the Mauritian economy to cope with the loss of sugar preferences. The UK will continue to develop this relationship—later in the year, we will be marking the 200th Anniversary of UK involvement in Mauritius. More immediately, the Privy Council will hold their second sitting in Mauritius this April.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to reply to the letter of 3 February 2010 from the hon. Member for Walsall North on a constituent. [320742]

Chris Bryant: The Foreign and Commonwealth Office transferred the hon. Member for Walsall North's letter of 3 February to the Department for International Development (DfID) for reply. I understand that DfID replied on 3 March.

Middle East: Armed Conflict

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a specific assessment of the extent of damage caused by Israeli armed forces to projects in Gaza which have been *(a)* constructed and *(b)* financed with UK assistance since the Oslo Peace Accords. [320972]

Mr. Michael Foster: The UK Government have no plans to make such an assessment. Given current circumstances in Gaza, it would not be possible to gather the necessary data.

Nuclear Weapons: Proliferation

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 23 February 2010, *Official Report*, column 419, on nuclear weapons, what resources have been spent on solutions to *(a)* technical, *(b)* political and *(c)* institutional challenges to prevent (i) vertical and (ii) horizontal proliferation in each year since 1997; and what resources have been committed since to promoting abroad (A) the expansion of the peaceful uses of nuclear energy and (B) nuclear disarmament since July 2009. [320535]

Mr. Ivan Lewis: The Foreign and Commonwealth Office has undertaken extensive activity across these eight areas in collaboration with its global network of posts and other Government Departments, principally the Ministry of Defence, the Department of Energy and Climate Change (previously the Department of Trade and Industry and the Department of Business, Enterprise and Regulatory Reform) and the Agencies. The information requested is not immediately available and compilation could be attempted only at disproportionate cost.

Rwanda: Politics and Government

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on *(a)* attacks on Rwandan presidential candidate Victoire Umuhoza, *(b)* progress made toward the registration of opposition parties and *(c)* the extent of political freedom in Rwanda in the run-up to the 2010 presidential election; and if he will make a statement. [319692]

Mr. Ivan Lewis *[holding answer 1 March 2010]*: Our high commission in Kigali is in regular contact with the full spectrum of political opinion in Rwanda, including Mme Victoire Ingabire Umuhoza. We are aware of reports stating that Mme Ingabire was involved in an altercation on 3 February when she attended a registration office in Kigali to obtain her identity card. The circumstances are disputed, but Mme Ingabire was not herself harmed, although her driver was attacked by unknown assailants.

We are aware of reports of opposition parties facing difficulties registering prior to the elections. In this context, we meet regularly with political parties, including Government and opposition parties. We continue to engage with the Government of Rwanda, both with Ministers and with the National Election Commission, on the issues of registration and functioning of political parties, as well as the wider matter of extending political space in Rwanda, particularly with regard to the elections in August this year.

We continue to support political and media freedom in Rwanda and we engage regularly, both bilaterally and with our EU partners, to ensure that the Rwandan Government respects these issues.

JUSTICE

Departmental Paper

Martin Horwood: To ask the Secretary of State for Justice what *(a)* suppliers and *(b)* brands of (i) paper and (ii) paper products his Department uses; and what his Department's policy is on the procurement of those materials. [320037]

Mr. Wills: The Ministry of Justice currently use Banner Business Supplies Limited for all office paper and paper products that fall under the office stationery category. During 2008/09 Banner was the sole provider for all the National Offender Management Service (NOMS) paper based products and Office Depot were the main provider for all Wider Ministry of Justice paper based products.

The wider Ministry of Justice did not collate this information centrally before 2009. However, a new procurement system has been established that will enable more data to be captured and maintained. Implementation is due to complete shortly with information being available in the second quarter of 2010.

The following table shows the brands, size, weight, recycled content and volume purchased for paper only and refer solely to NOMS. The Information requested for paper products are not held centrally and could be provided only at disproportionate cost.

Brand of Paper	*Product*	*Size*	*Weight*	*Recycled content (percentage)*	*Volume purchased (reams) 2008-09*

[1] Road Traffic Act 1988.

[2] Offences against the Person Act 1861.

[3] Theft Act 1968 as added by Aggravated Vehicle-Taking Act 1992.

[4] Excludes life and indeterminate sentences.

[5] 408 Causing death by careless or inconsiderate driving, (Road Traffic Act 1988 s.2B was added by the Road Safety Act 2006) commenced in August 2008.

[6] 409 Causing death by driving: unlicensed, disqualified or uninsured drivers, (Road Traffic Act 1988 S.3ZB was added by the Road Safety Act 2006) commenced in August 2008.

Note:

1. These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.
2. These data have been taken from the Ministry of Justice Court Proceedings database. These data are presented on the principal offence basis. Where an offender has been sentenced for more than one offence the principal offence is the one for which the heaviest sentence was imposed. Where the same sentence has been imposed for two or more offences the principal offence is the one for which the statutory maximum is most severe.

Mark Hunter: To ask the Secretary of State for Justice (1) how many people have been convicted of dangerous driving in each of the smallest geographical areas for which figures are available in each of the last 10 years; and what proportion of those convicted were repeat offenders in each year; [320164]

(2) how many people in each age group have been convicted of causing death or bodily harm through driving in each of the smallest geographical areas for which figures are available in each of the last 10 years; and what proportion of those convicted were repeat offenders. [320168]

Maria Eagle: The number of persons found guilty at all courts in England and Wales of dangerous driving, by police force area, from 1999 to 2008 (latest available) is shown in table 1. These figures have been drawn from the Court Proceedings Database.

The proportion of convictions for dangerous driving where the offender had a previous conviction for dangerous driving, as recorded on the Police National Computer, by police force area, from 2000 to 2008 is given in table 2.

The figures in this table are provisional and subject to change as more information is recorded by the police. PNC data have been used for this table rather than the court proceedings data that forms the source of the published conviction statistics, as the PNC provides information on the criminal history of offenders. Figures prior to 2000 are not available.

The number of persons on the Court Proceedings Database found guilty at all courts in England and Wales of causing death or bodily harm through driving, by age group and police force area (which is the smallest geographic area for which statistics are available), from 1999 to 2008 can be found in tables 3A and 3B.

Figures taken from the Police National Computer show that between 2000 and 2008 three offenders were convicted for an offence of causing death or bodily harm through driving having been convicted previously for a similar offence.

Court proceedings data for 2009 are planned to be published in the autumn 2010.

Table 1: The number of persons found guilty at all courts in England and Wales for dangerous driving[1], by police force area, from 1999 to 2008[2,3,4]

---

[1] Includes offences of aiding, abetting, causing or permitting reckless driving under the Road Traffic Act 1988 s.2 as amended by the Road Traffic Act 1991 s.2.

[2] The figures given relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Excludes convictions for Cardiff magistrates court for April, July and August 2008.'

Total England and Wales	58	68	78	73	77	80	91	92	71	49

[1] Includes offences of: Causing death by dangerous driving; Causing death by careless driving when under the influence of drink or drugs; Causing death by driving—unlicensed, disqualified or uninsured drivers; Causing bodily harm by furious driving; Aggravated taking of a vehicle where, owing to the driving of the vehicle, an accident occurs causing the death of any person.

[2] The figures given relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Excludes convictions for Cardiff magistrates court for April, July and August 2008.

General Election 2010: Poole

Mr. Syms: To ask the Secretary of State for Justice what discussions he has had with returning officers in Poole on the timing of the general election vote count. [320382]

Mr. Wills: The acting returning officer for Poole has provided the Ministry of Justice with helpful information on the practical issues surrounding the timing of the count at the next UK parliamentary general election.

This information along with the views received from other key stakeholders, including the Electoral Commission, Association of Electoral Administrators and SOLACE helped to inform the clause that was inserted into the Constitutional Reform and Governance Bill ('CRaG Bill'), at Commons Report stage on 2 March which amends schedule 1 to the Representation of the People Act 1983 (the Parliamentary Elections Rules) to provide that a returning officer must take reasonable steps to begin counting the votes given on the ballot papers as soon as practicable within four hours of the close of poll. The clause also requires that:

(i) the Electoral Commission must produce guidance on this duty;

(ii) in instances where the count does not begin by 2 am, returning officers to publish and send to the Electoral Commission a statement within 30 days of the poll giving the time that the count began, explaining, why it did not begin before 2 am, and setting out the steps taken to begin the count by 2 am.

(iii) the Electoral Commission to list those constituencies that did not start the count before 2 am in its statutory report on the conduct of the election.

I am also aware that the acting returning officer for Poole has advised the Electoral Commission that he intends to commence the count on the night of the general election poll.

Grimsby

Mr. Austin Mitchell: To ask the Secretary of State for Justice if he will set out, with statistical information related as directly as possible to Great Grimsby constituency, the effects of his Department's policies on that constituency since 1997. [320184]

Mr. Wills: The Ministry of Justice's work spans criminal, civil and family justice, democracy, rights and the constitution. Every year around 9 million people use our services in 900 locations across the United Kingdom, including 650 courts and tribunals and 139 prisons in England and Wales.

The range of the Department's policies and actions is wide and the statistical information relating to it is not normally collected on a constituency basis. Consequently, some of the information requested in the question cannot be provided in the form requested except at a disproportionate cost.

Although data on sentencing for the period is not available for the constituency of Great Grimsby, it is available for Humberside. This shows the total number of offenders sentenced annually was 20,950 in 1997 and 14,569 in 2008, the latest period for which such information is available.

The number of offences brought to justice for the Humberside area increased from 18,497 for the 12 months ending 31 March 2001 (the earliest period since which such data has been compiled) to 26,584 (provisional figures) for the 12 months ending 31 March 2009.

With regard to prosecutions, data is not available for the constituency of Great Grimsby. However, the total number of defendants proceeded against at magistrates' courts in Humberside was 26,798 in 1997 compared to 19,101 in 2008.

The latest data, which covers reoffending in the period 1 October 2008 to 30 September 2009, showed that the three month reoffending rate for offenders on the probation caseload in North East Lincolnshire was 12.53 per cent. After controlling for changes in the characteristics of offenders on the probation caseload, there was an increase in reoffending of 1.26 per cent. compared to the 2007-08 baseline. Data is not available prior to 2007 on this basis.

The number of persons commencing court order supervision by the Probation Service in Humberside was 2,139 in 1997 and 3,450 in 2008.

56,172 civil non-family proceedings were started in the county courts of Humber and South Yorkshire HM Courts Service (HMCS) area in 2008, compared to 61,944 in 1998, the first year for which these figures are available. In respect of family law, there were also 4,803 private law applications and 303 public law applications made in the county or High Courts of this HMCS area in 2008-09, compared to 4,530 and 385 respectively in 2003-04, the first annual period for which these figures are available.

In addition, at a national level:

Local communities are being better engaged in criminal justice by giving them a say in the types of community payback projects offenders carry out and allowing them to see justice being done, for example through the use of high visibility jackets. Offenders have now worked more than fourteen million hours, with an estimated value to the taxpayer of over £80 million.

Major constitutional reforms have been delivered, including devolution, the Human Rights Act, Freedom of Information, Lords Reform, and a new Supreme Court for the UK.

National Bullying Helpline

Fiona Mactaggart: To ask the Secretary of State for Justice what contact the Prison Service has had with the National Bullying Helpline since 2004; and whether the Prison Service has made any payments to *(a)* the National Bullying Helpline and *(b)* HR and Diversity Management Limited in that period. [320135]

Maria Eagle: The Prison Service has national policies designed to keep prisoners, staff and visitors safe from bullying. These policies do not promote the National Bullying Helpline. Whether prisons locally or offices have ever had any contact with the National Bullying Helpline since 2004 could be known only by contacting each prison and office and asking them to check available information. This would incur disproportionate cost. According to information held centrally, no payments have been made to either the National Bullying Helpline or to HR and Diversity Management Limited.

Prisons: Databases

John McDonnell: To ask the Secretary of State for Justice (1) when the Local Inmate Database System was introduced; [320082]

(2) what plans there are for the establishment of the Local Inmate Database System (LIDS); and what plans there are for the future of the national LIDS database. [320083]

Maria Eagle: The Prison Service Local Inmate Database System (LIDS) was introduced in 1989.

LIDS is being replaced by a new case management system, called Prison-NOMIS (Prison-National Offender Management Information System). Prison-NOMIS is a national system with a centralised database. It is on schedule to be deployed to public prisons by summer 2010.

Prisons: Drugs

John McDonnell: To ask the Secretary of State for Justice (1) whether he has made an estimate of the incidence of serious organised crime in prison which involves the trafficking of drugs; [320097]

(2) what recent assessment he has made of the level of serious organised crime activity in prisons. [320099]

Maria Eagle: Covert criminal activity is, of its nature, very difficult to quantify.

Prisons have a well established security information reporting framework. Where concerns are identified about a prisoner's potential criminal activity, prisons can draw on a range of measures to identify and disrupt that activity.

NOMS is also fully engaged in action to address serious and organised crime strategically, including the work identified in the Government report "Extending Our Reach: A Comprehensive Approach to Tackling Serious Organised Crime" to develop a strategy to manage serious organised criminals while in prison.

Prisons: Females

Mike Wood: To ask the Secretary of State for Justice (1) what arrangements have been made to re-categorise *(a)* HMP Morton Hall and *(b)* HMP Foston Hall from semi-open to closed prisons; and if he will make a statement; [320165]

(2) what assessment his Department undertook on the effect on women in prison of the removal of the semi-open category of prison. [320185]

Maria Eagle: On 11 February 2009 the National Offender Management Service (NOMS) announced the re-designation of both HMP Morton Hall and HMP/YOI Drake Hall from semi-open to closed prisons. There are no plans to change this decision.

The re-designation, which took effect on 2 March 2009, allowed NOMS to more effectively provide for the needs of all women prisoners through greater flexibility in the use of the estate. It has also improved closeness to home for some women, supported the placement of indeterminate sentenced women in accordance with their needs, and in general enabled more women to access the resettlement regimes available at these two prisons. There was no requirement to move any of the women out of either prison as a result of the change. Both establishments retained their levels of internal and perimeter security and their resettlement regimes, including their roles as specialist foreign national centres. Women suitable for open conditions are able to go these prisons if such a move meets their resettlement needs.

Prisons: Mobile Phones

John McDonnell: To ask the Secretary of State for Justice how many illicit mobile phones were found in each prison in England and Wales in each of the last 12 months; and how many of those phones were found *(a)* on staff, *(b)* on prisoners and *(c)* in communal areas. [320095]

Maria Eagle: The Government are committed to reducing the number of mobile phones in prisons. We have already strengthened the law through the Offender Management Act 2007, which made it an offence with a penalty of up to two years' imprisonment to bring a mobile phone or component into a prison. We are also taking forward legislation through the Crime and Security Bill to criminalise the possession of devices, including mobile telephones within a prison without authorisation.

The National Offender Management Service (NOMS) does not hold centrally disaggregated information on the location or ownership of phones seized. Many phones and component parts are not attributable to individuals. Prisons in England and Wales are instructed to send mobile phones and SIM cards found to a central unit for analysis, it is from this unit's records that this answer is based. The figures contained in the tables have been drawn from administrative data systems. Although care is taken when processing data, the detail collected is subject to the inaccuracies inherent in any large scale recording system. These data are not subject to audit.

The figures understate the actual number of finds, because they do not include items retained by the police for evidential purposes and phones not submitted for other reasons. It is not always appropriate to send phones to the central unit and some phones sent are not interrogated. These have not been included in these figures. NOMS is putting in place new procedures to improve the accuracy of these statistics.

Tackling mobile phones in prison presents substantial and increasing technological challenges, and while the numbers of phones found clearly indicates the scale of the challenge, it is also a reflection of prisons' increasing success in finding them and better reporting. The following tables show the number of mobile phones and SIM cards that have been received from each of the prisons over the last 12 months.

Mobile phone and sim cards submitted to central unit (February 2009 to January 2010)

John McDonnell: To ask the Secretary of State for Justice how data found on illicit mobile phones in prisons is being analysed by the prison service. [320098]

Maria Eagle: Data found on illicit mobile phones found in prison is analysed by establishments. However, for security reasons it is not possible to disclose details of how this is undertaken. Analysis of the data found on illicit mobile phones provides a potentially valuable source of intelligence for prisons and law enforcement agencies. Guidance to ensure a greater level of consistency across the estate is due to be circulated shortly.

John McDonnell: To ask the Secretary of State for Justice how many pornographic or violent images of (*a*) children and (*b*) adults have been found on illicit mobile phones seized from prisoners in the last three years. [320100]

Maria Eagle: Prisons are responsible for the analysis of the information recovered from mobile phones. Where there is evidence of a criminal offence, the matter is referred to the police. However, the majority of phones seized are not attributable to individual prisoners. The National Offender Management Service does not hold a centrally disaggregated record of the data found on illicit mobile phones found in prisons. To provide the information requested, we would need to contact all prisons in England and Wales, ask them to check their local records and to submit this information to headquarters. This would incur disproportionate cost.

John McDonnell: To ask the Secretary of State for Justice whether he has made a recent assessment of the level of transfer between illicit mobile phones in prisons of violent or pornographic images. [320102]

Maria Eagle: Data found on illicit mobile phones found in prison are analysed by establishments. However, for security reasons it is not possible to disclose details of how this is undertaken. Analysis of the data found on illicit mobile phones provides a potentially valuable source of intelligence for prisons and law enforcement agencies. Guidance to ensure a greater level of consistency across the estate is due to be circulated shortly.

Due to the covert nature of mobile phone use in prisons, we are not able to estimate the number of mobile phones or component parts in circulation, nor are we able to assess their usage.

Probation Officers

Chris Grayling: To ask the Secretary of State for Justice how much funding his Department and its predecessor allocated for the (*a*) recruitment and (*b*) training of probation officers in each year since 1997. [317631]

Maria Eagle: Recruitment funding is included in the general grant paid to areas for probation officer training delivery. However, information about the specific local spend on recruitment was not routinely collected and to do so would incur disproportionate cost.

The following information is the best quality information that is available but it has been transferred over time from the Home Office Adelphi finance system to the Prison Service Phoenix system and there is the possibility that there may be some gaps.

Details of the funding allocated for the training of probation officers is contained in the following tables.

Trainee probation officer (TPO) costs

Financial year	*Total (£ million)*
2003-04	57.886
2004-05	63.272
2005-06	42.381
2006-07	42.381
2007-08	44.762
2008-09	41.663
2009-10	26.4[illegible]0

Note:

1. The costs detailed include the trainee salary, pension contribution and the university administration cost. Figures are only available from 2003-04 when the Home Office took over responsibility for the higher education contracts.

2. The funding increase in 2004-05 was based on the assumption that Custody Plus would be implemented, requiring a rapid increase in probation officers. When the policy decision was made to suspend this, trainee numbers decreased. The final cohort of Diploma in Probation Studies began their two-year course in October 2008 and the drop in funding in 2009-10 represents the fact that there is only one cohort to fund between October 2009 and April 2010. The new Probation Qualification Framework will be launched in April 2010.

Probation service officer (PSO) costs

Financial year	*Training allocation (£)*
2003-04	n/a
2004-05	928,000
2005-06	772,000
2006-07	800,000
2007-08	800,000
2008-09	2,520,100
2009-10	2,500,000

Note:

The allocation for 2003-04 is not known. In 2005-06, areas were required to bid for PSO training funding. In 2006 to date, funding is provided for 1,000 PSOs at £800 per head per year and Areas are allocated maximum numbers calculated using the cash limit formula. In 2008-09 and 2009-10, an additional investment was made in PSO training in preparation for the launch of the new Probation Qualification Framework in April 2010.

TREASURY

Banks: Loans

Mr. Syms: To ask the Chancellor of the Exchequer what recent discussions he has had with UK Financial Investments on the level of bank lending. [320390]

Sarah McCarthy-Fry: Treasury Ministers and officials have meetings and discussions with UKFI as part of the process of policy development and delivery. As was the case with previous Administrations, the Government do not disclose the outcome or results of all such meetings and discussions.

Carbon Sequestration: Finance

Charles Hendry: To ask the Chancellor of the Exchequer with reference to paragraph 7.19, page 123, of the pre-Budget report, Cm 7747, from what level the Government have doubled its support for carbon capture and storage technology. [320373]

Sarah McCarthy-Fry: At Budget 2009, the Government made a commitment to fund two CCS demonstration plants. At the pre-Budget report, the Government announced this commitment would be extended to fund four demonstration plants.

Chemical Engineering: Government Assistance

Charles Hendry: To ask the Chancellor of the Exchequer with reference to paragraph 7.30, page 125, of the pre-Budget report, Cm 7747, from which budget the £30 million for the Teesside chemicals industry will be allocated. [320368]

Sarah McCarthy-Fry: The £30 million in support for the chemicals industry on Teesside is part of the £200 million extension to the Strategic Investment Fund (SIF) announced at 2009 pre-Budget report (PBR).

The SIF, which is administered by the Department for Business, Innovation and Skills, was created in Budget 2009 to support advanced industrial projects of strategic importance. Together with the PBR extension, it has total funds of £950 million. Of this, £400 million is to be spent on low-carbon projects (including the Teesside support).

Climate Change Levy

Charles Hendry: To ask the Chancellor of the Exchequer what estimate he has made of the monetary value of receipts from the Climate Change Levy in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [320512]

Sarah McCarthy-Fry: Current estimates of Climate Change Levy receipts for 2009-10, 2010-11 and 2011-12 are set out in Table B10 of the pre-Budget report 2009.

Economic Situation: Greece

Mr. Syms: To ask the Chancellor of the Exchequer what recent discussions he has had with his European counterparts on the effects on EU member states of the fiscal situation in Greece. [320388]

Ian Pearson: The Chancellor of the Exchequer has regular discussions with European Finance Ministers on European economic matters. The situation in Greece was discussed at the last ECOFIN on 16 February.

Excise Duties: Beer

Mr. Todd: To ask the Chancellor of the Exchequer what discussions he has had concerning the proposal to levy a lower duty on cask beer; and if he will make a statement. [320559]

Sarah McCarthy-Fry: Alcohol duty policy is restricted by EU rules. It is not possible to levy different rates of duty on cask beer compared to beer sold in other types of packaging.

Financial Services: Local Government

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer if he will request the Financial Services Authority to make a formal response to the Second Report of the Communities and Local Government Committee, on Local Authority Investments: Role of the Financial Services Authority, HC287. [319729]

Sarah McCarthy-Fry: The Financial Services Authority (FSA) responded to the Communities and Local Government Committee's first report, explaining that the boundaries of regulation are set by HM Treasury, not the FSA.

Public Bodies: Empty Property

Mr. Maude: To ask the Chancellor of the Exchequer with reference to the answer of 20 July 2009, *Official Report*, column 895W, on empty property, if he will take steps to require all central public bodies to report their actual and vacant properties for the e-PIMS database. [320905]

Ian Pearson: Central civil government departments, their executive agencies and arm's length bodies are already required to record actual and vacant properties on the e-PIMS database.

Public Sector: Energy

Charles Hendry: To ask the Chancellor of the Exchequer with reference to paragraph 7.32, page 125, of the pre-Budget report, Cm 7747, what the baseline is for the 10 per cent. reduction in public sector energy spending. [320367]

Sarah McCarthy-Fry: The commitment to a 10 per cent. reduction in public sector energy spending by financial year 2012-13 is with respect to a baseline of financial year 2008-09.

Renewable Energy: Finance

Charles Hendry: To ask the Chancellor of the Exchequer with reference to paragraph 7.25, page 124, of the pre-Budget report, Cm 7747, from which budget the *(a)* £50 million for the development of offshore wind technologies and *(b)* £40 million for the development of low carbon energy and advanced green manufacturing technologies will be allocated. [320366]

Sarah McCarthy-Fry: £50 million for the development of offshore wind technologies and £40 million for low carbon energy and advanced green manufacturing technologies are to be funded from the £200 million extension to the Strategic Investment Fund (SIF) announced at 2009 pre-Budget report (PBR).

The SIF, which is administered by the Department for Business, Innovation and Skills, was created in Budget 2009 to support advanced industrial projects of strategic importance. Together with the PBR extension, it has total funds of £950 million. Of this, £400 million is to be spent on low carbon projects (including the two areas noted above).

Taxation: Domicile

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what tests HM Revenue and Customs applies when determining domicile; and what investigations are normally undertaken in the cause of applying such tests. [320738]

Sarah McCarthy-Fry: Domicile is a concept of common law that is used in tax law for certain purposes. HM Revenue and Customs applies this legal concept to the facts of each case, those facts being established through the normal inquiry process.

HMRC has produced detailed guidance on domicile which gives an indication of the kind of information and documents that HMRC might request during an inquiry. These lists are not exhaustive. The guidance is available at:

http://www.hmrc.gov.uk/cnr/domicile-tier2.pdf

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer how many UK citizens acquired a new domicile of choice and retained long-term UK residence in each year since 2000. [320739]

Sarah McCarthy-Fry: This information is not available, as individuals are not required to report their UK domicile status or residence status to HM Revenue and Customs unless either is relevant to their liability to UK tax within that year.

UK Financial Investments: Expenditure

Mr. David Hamilton: To ask the Chancellor of the Exchequer what the cost to the public purse of *(a)* establishing and *(b)* maintaining UK Financial Investments Ltd has been to date. [319954]

Sarah McCarthy-Fry: Information on establishing and maintaining UK Financial Investments Ltd during 2008-09 is shown in Note 13.8.1 on page 214 of HM Treasury Group's Annual Report and Accounts 2008-09 (HC 611).

Information on spending in the current financial year will be available once the financial year has been completed and the Treasury's Resource Account, due for publication in the summer, has been audited by the Comptroller and Auditor General.

Further information on UK Financial Investments Limited's expenditure can be found in its Annual Report and Accounts 2008-09, available at:

www.ukfi.gov.uk

DEFENCE

Afghan Campaign Medal

Mr. Gray: To ask the Secretary of State for Defence what assessment he has made of the merits of changing the rules under which members of the Royal Air Force Aero-Medical Evacuation Squadron at RAF Lyneham are ineligible for the Afghan Campaign Medal. [317537]

Mr. Kevan Jones: The criteria for campaign medals are always complex, and subject to periodic review. The Ministry of Defence is aware of the situation pertaining to Aero-Medical personnel and consideration of their position is currently under active consideration and we hope to reach a conclusion shortly.

Armed Forces: Bomb Disposal

Bob Spink: To ask the Secretary of State for Defence how many specialist bomb disposal staff were trained in the armed forces in each of the last three years. [320283]

Bill Rammell: Specialist bomb disposal operators are highly skilled officers and senior non-commissioned officers of all three services that are trained to lead bomb disposal teams. The following table provides information on the number who have qualified as Conventional Munitions Disposal and/or Joint Service Improvised Explosive Device Disposal, and/or High Threat Improvised Explosive Device Disposal operators. As a result some personnel will have been recorded more than once.

Training year	*Total*
2007-08	101
2008-09	101
2009 to date	100

To determine those personnel who have completed just a single course would require a manual search of records and could be provided only at disproportionate cost.

AWE Aldermaston

Norman Baker: To ask the Secretary of State for Defence whether research at the proposed new hydrodynamics facility at AWE Aldermaston will be undertaken exclusively for defence purposes. [319053]

Mr. Quentin Davies: The work undertaken at the existing hydrodynamics facility at AWE Aldermaston exclusively supports defence activities including the requirement to maintain the skills base for the UK's deterrent capability. It is expected that this would also be the case for any replacement hydrodynamics facility.

Departmental Housing

Willie Rennie: To ask the Secretary of State for Defence how much his Department has spent on *(a)* permanent and *(b)* temporary accommodation for civil servants in each of the last 12 months. [314198]

Mr. Kevan Jones: I will write to the hon. Member when I have obtained the information, and will place a copy in the Library of the House.

Substantive answer from Kevan Jones to Willie Rennie:

In my answer of 22 February (Official Report, column 19W) I undertook to write to you with details on permanent and temporary accommodation for civil servants in each of the last 12 months.

Civil servants transferring within the Department in the UK may stay in temporary accommodation when they are sent on a long-term temporary basis to a different work location outside of reasonable daily travel of their home. They may also stay in temporary accommodation for a short period prior to occupying their permanent home following a transfer in the UK to a location which gives help with relocation expenses. The number of employees staying in temporary accommodation following a permanent or temporary transfer constantly fluctuates as employees enter or leave the accommodation. To obtain the numbers for each month would involve disproportionate cost, but on average, there are 250+ employees staying in temporary accommodation at any one time. This may be in private rented accommodation, service messes or staying with family or friends in the new area. Costs for each of the last 12 months are as follows:

2009 temporary accommodation

Month	*Amount £*
January	123,447
February	106,178
March	129,840
April	122,364
May	95,590
June	106,730
July	108,687
August	99,980
September	102,421
October	104,422
November	98,532
December	110,122

The responsibility for permanent accommodation costs at the normal place of work is a personal one. However, civil servants who are transferred on permanent terms to a new location where they may receive help with relocation costs may be eligible to receive assistance with Additional Housing Costs Allowance (AHCA). This payment provides a measure of help with additional housing costs for the new permanent home following a move to a more expensive location. It is payable for nine years (inclusive of a taper in the last four years). There are currently 1300 employees in receipt of AHCA at some point in the nine year cycle. Payments to civil servants in each of the last 12 months are as follows:

2009 AHCA

Month	*Amount (£)*
January	429,135
February	421,516
March	435,458
April	322,936
May	318,271
June	325,308
July	338,113
August	323,388
September	320,108
October	338,412
November	336,157
December	327,434

Similar information from overseas areas could only be provided at disproportionate cost.

Departmental Marketing

Mr. Syms: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Ruislip Northwood of 5 January 2010, *Official Report*, column 103W, on departmental marketing, how much his Department and agencies have spent on advertising, marketing, public relations and publicity in relation to the *(a)* Real Help Now and *(b)* Building Britain's Future themed campaign to date. [320460]

Mr. Kevan Jones: The Ministry of Defence has not conducted any Real Help Now or Building Britain's Future themed campaigns.

Departmental Theft

Mr. Watson: To ask the Secretary of State for Defence how many thefts of *(a)* personal items and *(b)* items which are the property of his Department have been reported from the London offices of his Department in the last two years. [320228]

Mr. Kevan Jones: The Ministry of Defence Police have recorded 26 thefts of personal property and nine thefts of MOD departmental property, from premises in London, during the period 1 February 2008 to 28 February 2010.

Middle East: Navy

Mr. Soames: To ask the Secretary of State for Defence how many naval assets of each type are tasked under Operation Calash. [320970]

Bill Rammell: One Royal Navy vessel is assigned to Op Calash. This is either a Type 22 or Type 23 Frigate.

Mr. Soames: To ask the Secretary of State for Defence which Royal Fleet Auxiliary vessels are deployed in the middle east; and what are their tasks. [320971]

Bill Rammell: The three Royal Fleet Auxiliaries deployed in the middle east are: RFA Bayleaf, supporting UK, NATO and Coalition forces in and around the Arabian Gulf; RFA Cardigan Bay, supporting the Iraqi Training and Mentoring Team; and RFA Lyme Bay, supporting UK Mine Counter Measure forces working in the Gulf.

Trade Unions

Mr. Syms: To ask the Secretary of State for Defence how many days staff of his Department and its agencies spent on trade union activity in the latest year for which figures are available; and what recent estimate he has made of the annual cost to the public purse of such activity. [320665]

Mr. Kevan Jones: The Ministry of Defence makes certain facilities available to civilian employees who are accredited representatives or members, but not paid officials, of Trade Unions and Staff Associations recognised by the Department.

Special Paid Leave or Unpaid leave may be given to accredited Trade Union (TU) representatives, for the following TU Activities, which are specifically concerned with TU policy:

Attendance at a conference of a MOD recognised TU, whether as a delegate or trainee delegate;

Representing a MOD TU on external bodies, relevant to employment in the Civil Service e.g. at TUC meetings;

Duty as organiser or treasurer.

Members of a recognised TU, who are not elected representatives, may be allowed reasonable time off, Special Paid Leave, for the following TU activities:

a conference of a recognised MOD TU, whether as a delegate or as a trainee delegate;

TU meetings at which branches consider the proposed resolutions for annual conferences;

branch committee meetings as a committee member who is not an accredited representative; and

representing the TU on external bodies relevant to employment in the Civil Service e.g. at TUC meetings.

The information regarding the amount of days MOD employees spend on TU activity, and its cost, is not held centrally, and could be provided only at disproportionate cost.

CABINET OFFICE

Departmental Temporary Employment

Grant Shapps: To ask the Minister for the Cabinet Office from which companies her Department sourced temporary staff in each of the last three years; how many temporary staff her Department employed in each year; and what the monetary value of the contracts with each such company was in each such year. [320020]

Angela E. Smith: The information requested for the Cabinet Office is not readily available and could be obtained only at disproportionate cost.

ENERGY AND CLIMATE CHANGE

Boilers: Government Assistance

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what steps his Department takes to ensure that boilers to be replaced under the boiler scrappage scheme are in working order before replacement. [320304]

Joan Ruddock: The boiler to be replaced under the Boiler Scrappage Scheme must be in working order (unless the applicant is over 60) to be eligible for a voucher.

In the first place we rely on a declaration by the applicant. This is checked by an onsite audit of a percentage of applicants before the replacement boiler is installed.

There is also a signed declaration on the voucher by the installer and applicant that the boiler removed was working where this is applicable.

Carbon Emissions: Boilers

Charles Hendry: To ask the Secretary of State for Energy and Climate Change with reference to paragraph 7.36, page 127, of the pre-Budget report, Cm 7747, what estimate he has made of the increase in greenhouse gas emissions likely to result from the manufacture of additional boilers as a result of the greener boiler incentive. [320370]

Joan Ruddock: Based on manufacturers' data on the lifecycle costs of a boiler, we estimate the greenhouse gas emissions from a boiler's manufacture are less than 1 per cent. of its lifetime emissions, with 99 per cent. associated with the fuel consumed during its operation.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change with reference to paragraph 7.36, page 127, of the pre-Budget report, Cm 7747, what estimate he has made of the annual reduction in UK greenhouse gas emissions likely to result from the greener boiler incentive. [320371]

Joan Ruddock: We estimate the annual reduction in CO_2 emissions from the boiler scrappage scheme at 110,000 to 140,000 tonnes of CO_2 per annum.

Charles Hendry: To ask the Secretary of State for Energy and Climate Change with reference to paragraph 7.36, page 127, of the pre-Budget report, Cm 7747, what estimate he has made of the effect on greenhouse gas emissions of the greener boiler incentive. [320372]

Joan Ruddock: The Government have estimated that there will be a saving of 110,000 to 140,000 tonnes of CO_2 per annum.

Collaboration Agreements

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change what recent collaboration agreements on energy projects have been concluded with India; and what resources have been made available to support such collaboration. [319203]

Joan Ruddock: The UK recently announced a £4.9 million collaboration on solar technology, led by Research Councils UK with matched funding from the Indian Department of Science and Technology. Two projects will run for three years each with a focus on creating cheaper, more effective solar panel technology.

As part of the Joint Declaration by the UK and India on civil nuclear co-operation, the two countries have agreed to jointly encourage research collaboration in this area. The UK Engineering and Physical Sciences Research Council and the Indian Department of Atomic Energy will consider potential scientific areas for this enhanced collaboration at a joint meeting in the UK in March 2010. The costs of this first step will be shared between the two parties.

DFID is supporting renewable energy initiatives in remote areas through development programmes in Madhya Pradesh and Orissa. In Orissa the project is focused on provision of solar lighting and in Madhya Pradesh it is focused on biogas cooking units. These renewable initiatives are part of bigger state level programmes and comprise only a very small part of overall funding.

DFID is supporting power sector reforms in two states, West Bengal and Madhya Pradesh, with an objective to achieve more efficient public sector units. The initiative in West Bengal is in partnership with the Department of Power and Non-conventional Energy Sources, Government of West Bengal (up to £11 million from June 2008 to March 2011). DFID has also supported capacity building of the power sector in West Bengal through the World Bank Trust Fund (up to $300,000 from June 2005 to March 2009). In Madhya Pradesh the power sector reforms project (2008-10, £20.4 million) supported evaluation of renewables in three key sectors (1) small scale industries, (2) municipal building and (3) water and waste water treatment. Under the next phase DFID India will be providing support to build capacity of the State Renewable Energy Agency.

DFID have also announced plans to provide the Energy and Resource Institute (TERI) with up to £10 million over the next five years. This funding will help to bring electricity and clean energy to millions of the world's poorest people by supporting renewable energy projects in India. As is routine, DFID is undertaking a full institutional assessment of TERI as part of their due diligence process before releasing funds.

Also with the Ministry of New and Renewable Energy, DFID is providing £285,000 through Winrock International India to develop sustainable business models for access to energy in remote rural areas.

Combined Heat and Power

Jeremy Wright: To ask the Secretary of State for Energy and Climate Change when he expects to make an announcement on the feed-in tariff rate for micro-combined heat and power. [320256]

Mr. Kidney: The feed-in tariff rate for the micro-CHP 'pilot', designed to support up to 30,000 installations with a capacity of 2kW or below, will be 10p/kWh. This rate was published in the Government's Response to the Feed-in Tariff Consultation on February 1 and can be found on the DECC website.

http://www.decc.gov.uk/en/content/cms/consultations/elec_financial/elec_financial.aspx

Departmental Consultants

Julia Goldsworthy: To ask the Secretary of State for Energy and Climate Change how much consultants employed by his Department have been paid *(a)* in total and *(b)* in reimbursable expenses since its inception. [314002]

Joan Ruddock: Since its inception on 3 October 2008 the Department of Energy and Climate Change has spent £10,624,367 on consultancy services.

Examples include advice on Combined Heat and Power, the evaluation of capital grant applications and renewable energy advice for which AEA Technology Services were paid £1,600, 000 a scoping study and the development of the Carbon Reduction Commitment registry for which the Environment Agency were paid £930,000, and analysis to support renewables for which NERA were paid £151,000.

It is not possible to identify all reimbursable expenses without incurring disproportionate costs.

Departmental Disabled Staff

Mr. Harper: To ask the Secretary of State for Energy and Climate Change how many and what proportion of staff in his Department are disabled; and what the average salary in his Department is of *(a)* full-time disabled staff, *(b)* full-time non-disabled staff, *(c)* part-time disabled staff and *(d)* part-time non-disabled staff. [317889]

Joan Ruddock: The Department of Energy and Climate Change (DECC) was created in October 2008 bringing together staff from Department for Business, Enterprise and Regulatory Reform (BERR) and Department for Environment, Food and Rural Affairs (DEFRA). The number of employees within DECC and who have declared a disability status was published in the Annual Civil Service Employment Survey (ACSES) by the Office for National Statistics on 20 January 2010.

An extract is shown as follows:

DECC Civil service employment and disability status[1]

	Number/percentage
Disabled	40
Non-disabled	200
Not declared or non-response	670
Total	910
All employees with known disability status	240
Disabled employees as percentage of known disability status	16.5

[1] Numbers are rounded to the nearest 10.

The median earnings for non-disabled and disabled employees is as follows:

£

	Non-disabled	*Disabled*
Full-time	37,710	31,900
Part-time	49,570	[1]—

[1] Data not available as disclosure could identify individuals.

Note

Data compiled as at 31 March 2009.

Eaga: Warm Front Scheme

Bob Spink: To ask the Secretary of State for Energy and Climate Change what mechanisms his Department uses to evaluate the performance of Eaga Ltd. in carrying out its Warm Front contractual obligations; what assessment he has made of the effectiveness of those mechanisms; and how many times Eaga Ltd. has not met those obligations in each of the last two years. [319994]

Mr. Kidney *[holding answer 3 March 2010]:* The Department has Key Performance Indicators (KPIs) in place to monitor Eaga's performance and hold regular meetings with Eaga at which time any concerns we have will be raised with them. Under the terms of the contract, my Department and Eaga will review the current KPIs this year. Furthermore, my Department engages independent Consultants and Quality Assessors, WYG, to audit Eaga's performance. Over the past two years the quarterly scorecards have shown that Eaga have principally met their key performance indicators. Provisions within the contract between the Department and Eaga allows the Department to claim and be paid service credits for any failure by Eaga to reach a set target for delivery against key KPIs. To date, the Department has not had to enforce the payment of service credits for failure to meet KPIs.

Energy Supply: Fees and Charges

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what recent estimate his Department has made of the number of households on social tariffs for *(a)* gas and *(b)* electricity. [320518]

Mr. Kidney: Ofgem publish annual estimates of the number of customer accounts on social tariffs.

http://www.ofgem.gov.uk/Sustainability/SocAction/Suppliers/CSR/Documents1/Monitoring_suppliers_social_spend_2008_09_final.pdf

At the end of March 2009, over 1 million customer accounts were on social tariffs, an increase of 118 per cent. from 460,000 customer accounts on social tariffs as at 31 March 2008.

Of the 1 million (1,004,000) customer accounts on social tariffs at the end of March 2009, 493,000 were for electricity; 470,000 were for gas and 41,000 were for duel fuel.

EU Emissions Trading Scheme

Norman Baker: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the price per tonne of carbon in the EU Emissions Trading Scheme in *(a)* 2012 and *(b)* 2015. [320574]

Joan Ruddock *[holding answer 4 March 2010]:* DECC publishes estimated values of the EU allowance price for use in appraising savings from policies that reduce emissions in the sectors covered by the EU Emissions Trading System.

The current valuation of EU allowances for 2012 provides a range between £13 and £28 with a central value of £22. In 2015 the forecast is a range between £13 and £29 with a central value of £23. These values assume an EU 20 per cent. reduction on 1990 emissions, and do not factor in the potential for a higher EU target.

The current published values have not incorporated the impact of the economic recession. Revised values are being prepared and will be published shortly.

Fuel Oil: Prices

Charles Hendry: To ask the Secretary of State for Energy and Climate Change whether his Department has received any information on increases in domestic heating oil prices arising from difficulties in the delivery of heating oil during the recent severe weather. [320337]

Mr. Kidney *[holding answer 4 March 2010]:* This winter we witnessed an increase in the price of heating oil, both wholesale and retail. Wholesale heating oil prices reached a peak of $729.75 (8 January 2010), a 14-month high. Retail heating oil prices reached a peak of 43.11p/l (18 January 2010), a 15-month high. While distributors faced access problems due to poor weather conditions, heating oil prices are driven primarily by demand changes and crude prices, which increased in the same period.

The peak in prices follows on from a general upward trend in the price of heating oil and crude oil since the beginning of 2009. However current prices are still well below the record levels reached in July 2008. Indeed the retail heating oil price is currently 42.20p/l (1 March 2010), 33 per cent. below the 2008 peak, while the wholesale heating oil price is currently $689/tonne (1 March 2010), 53 per cent. below the 2008 peak.

Renewable Energy

Charles Hendry: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the level of carbon dioxide emissions per unit of electricity generated in the UK in each year since 1980. [320364]

Joan Ruddock: Table 1 shows the grams of carbon dioxide emitted per unit of electricity generated by major power producers in the UK since 1980.

Table 1: Carbon dioxide emitted per unit of electricity

	gCO_2/KWh
1980	815.3
1981	793.9
1982	771.3
1983	740.4
1984	686.6
1985	688.2
1986	700.9
1987	714.2
1988	680.7
1989	658.0
1990	675.1
1991	665.5
1992	630.5
1993	563.9
1994	544.2
1995	520.3
1996	499.6
1997	463.6
1998	465.6
1999	437.6
2000	464.4
2001	478.1
2002	464.6
2003	478.4
2004	482.4
2005	476.5
2006	500.8
2007	491.9
2008	487.5

Provisional data for 2009 will be available after 29 July 2010.

Wood: Imports

Harry Cohen: To ask the Secretary of State for Energy and Climate Change what information his Department holds on the proportion of wood pellets used in heat and electricity generation which was imported in the last 12 months. [320521]

Mr. Kidney: The Department does not hold information on the proportion of wood pellets used in heat and electricity generation that were imported. However, in 2008, three major power producers used either wood pellets or wood chip, usually co-fired with other fuels.

WALES

Departmental Ministerial Policy Advisers

Mr. Philip Hammond: To ask the Secretary of State for Wales how many full-time equivalent staff of each grade are employed by his Department to assist special advisers. [321145]

Mr. Hain: One member of staff (administrative assistant) as part of her duties provides support to the senior civil servants and special advisers, in relation to travel and accommodation arrangements.

COMMUNITIES AND LOCAL GOVERNMENT

Council Tax: Southend

Mr. Amess: To ask the Secretary of State for Communities and Local Government how many people have registered for council tax in Southend in each year since 1997. [320650]

Barbara Follett: Council tax is a property tax. Whether the resident(s) or the owner(s) of a property should be liable for council tax is for individual local authorities to decide.

Departmental Advertising

Mr. Crausby: To ask the Secretary of State for Communities and Local Government how much his Department has spent on advertising in weekly and regional newspapers in each of the last three years. [321031]

Barbara Follett: I refer my hon. Friend to the reply given on 8 June 2009, *Official Report*, column 747W to my hon. Friend the Member for Stockport (Ann Coffey).

Departmental Internet

Mr. Heald: To ask the Secretary of State for Communities and Local Government how many designs for its website his Department and its predecessor has commissioned since 2005. [318656]

Barbara Follett: The Department's website was redesigned in October 2005 and in August 2007.

Departmental Languages

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government how many *(a)* Ministers and *(b)* civil servants in his Department received coaching in a foreign language in the last 12 months; what expenditure his Department incurred in providing such coaching; and in what languages such coaching was provided. [320412]

Barbara Follett: Records of the coaching received in foreign languages for staff in Communities and Local Government are not held by the Department. However, data obtained from training coordinators within the Department shows that in the last 12 months no Minister has received coaching in a foreign language and the following table gives the details of the civil servants who have received coaching in a foreign language during the last 12 months.

Language	*Cost (£)*	*Number of officials*
French	2,910	12
Chinese	1,500	2
Spanish	297.90	1

Departmental Marketing

Mr. Syms: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Ruislip Northwood of 5 January 2010, *Official Report*, column 103W, on departmental marketing, how much his Department and its agencies have spent on advertising, marketing, public relations and publicity to the (i) Real Help Now and (ii) Building Britain's Future themed campaign to date. [320494]

Barbara Follett: The Department publishes details of its central marketing communications spend on an annual basis. Details for the last full financial year, 2008-09, are available on the Department's website at:

http://www.communities.gov.uk/documents/corporate/pdf/1298507.pdf

In 2008-09 marketing communications activity on help for homeowners and HomeBuy used the Real Help Now brand, at a total cost of £1,372,511. No marketing communications activity used the Building Britain's Future brand.

The Department will publish details of central marketing communications spend for 2009-10 at the time of its 2010 Annual Report.

Empty Property

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many *(a)* empty homes and *(b)* homes which had been empty for more than six months there were in each region in each of the last five years. [305068]

Mr. Ian Austin: Estimates of the proportion of empty homes and the proportion of homes empty for more than six months in each region in each of the last five years are shown in the following table.

There are a number of reasons why a property might become empty, e.g. the current economic climate or where a property needs to be renovated before occupation or where it is in probate. It is therefore important to draw a distinction between properties that have been left empty for less than six months and those that are vacant for longer.

Total empty homes and homes empty for more than six months ("long term") in each region in each of the last five years as a percentage of total stock

Percentage

	2004		*2005*		*2006*		*2007*	
	Total vacants	*Long term vacants*	*Total vacants*	*Long term vacants*	*Total vacants*	*Long term vacants*	*Total vacants*	*Long term vacants*
North East	4	2	4	2	4	2	4	2
North West	4	2	4	2	5	2	5	2
Yorkshire and the Humber	4	2	4	2	4	2	6	2
East Midlands	3	1	1	2	3	1	4	1
West Midlands	4	2	3	2	3	2	3	2
East of England	3	1	3	1	3	1	3	1
London	3	1	3	1	3	1	3	1

Source:

Council Taxbase and Council Taxbase Supplementary (CTB1 and CTB1S) returns from local authorities

Housing: Construction

Bob Spink: To ask the Secretary of State for Communities and Local Government how many new *(a)* affordable homes and *(b)* homes for social rent have been built in Castle Point since 2008; and how many homes of each type are planned to be built in (i) 2010 and (ii) 2011. [318083]

Mr. Ian Austin: The latest data on total affordable housing supply relate to 2008-09. In that year there were 10 affordable homes provided through acquisitions.

Information on planned housing is available in 'Regional Spatial Strategies and Local Development Frameworks'.

Written Questions: Government Responses

Grant Shapps: To ask the Secretary of State for Communities and Local Government when he plans to answer Question 305068, on empty homes, tabled on 3 December 2009. [319594]

Mr. Ian Austin: I have now replied to the hon. Member's question.

HOME DEPARTMENT

Chorley

Mr. Hoyle: To ask the Secretary of State for the Home Department if he will set out, with statistical information as closely related to Chorley constituency as possible, the effect on that constituency of the policies of his Department since 1997. [314235]

Mr. Alan Campbell: The Home Office has introduced a range of policies and initiatives since 1997. The available statistical information relates to the Chorley Crime and Disorder Reduction Partnership area.

In terms of police recorded crime, data prior to 2002-03 is not directly comparable because of the introduction of the National Crime Recording Standard in April 2002. Between 2002-03 and 2008-09, total recorded crime in Chorley fell by 13 per cent. More specifically:

Sexual offences: down 21 per cent. (down 34 per cent. in last year).

Robbery: down 43 per cent. (down 23 per cent. in last year).

Burglary: down 44 per cent (down 1 per cent. in last year).

Offences against vehicles: down 56 per cent. (down 12 per cent. in last year).

Other theft offences: down 12 per cent. (down 5 per cent. in last year).

Criminal damage: down 1 per cent. (down 2 per cent. in last year).

Drug offences: up 22 per cent. (up 9 per cent. in last year) (there has been increased recording of drug offences which is mainly attributable to the increased use of police powers to issue cannabis warnings).

Violence against the person rose by 71 per cent. between 2002-03 and 2008-09. Between 2007-08 and 2008-09 it fell by 1 per cent. It reached a peak at 1,902 offences in 2004-05 and has subsequently fallen to 1,302 offences in 2008-09 (a fall of 32 per cent).

Chorley comes within the Lancashire Southern Basic Command Unit. Lancashire Southern BCU had 493 police officers as at 30 March 2009. The number of police officers has decreased by seven since 2003. Comparisons with 1997 for Lancashire Southern BCU are not available. There were 77 Police Community Support Officers as at 30 March 2009 while there were none in existence in 1997.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at:

http://neighbourhood.statistics.gov.uk/

Cleethorpes

Shona McIsaac: To ask the Secretary of State for the Home Department if he will set out, with statistical evidence relating as closely as possible to Cleethorpes constituency, the effects on that constituency of his Department's policies since 1997. [315242]

Mr. Alan Campbell: The Home Office has introduced a range of policies and initiatives since 1997. However, it is not always possible to quantify their effects particularly at constituency level. The available statistical information therefore relates to North East Lincolnshire.

In terms of police recorded crime in North East Lincolnshire, between 2002-03 and 2008-09, total recorded crime fell by 26 per cent. More specifically:

Violence against the person—up 16 per cent. (down 1 per cent. in last year)

Sexual offences—down 30 per cent. (up 8 per cent. in last year)

Robbery—down 33 per cent. (down 17 per cent. in last year)

Burglary—down 38 per cent. (down 5 per cent. in last year)

Offences against vehicles—down 62 per cent. (down 41 per cent. in last year)

Other theft offences—down 12 per cent. (up 3 per cent. in last year)

Criminal damage—down 17 per cent. (down 18 per cent. in last year)

Drug offences—up 16 per cent. (down 26 per cent. in last year) (there has been increased recording of drug offences which was mainly attributable to the increased use of police powers to issue cannabis warnings).

Data prior to 2002-03 are not directly comparable because of the introduction of the National Crime Recording Standard in April 2002. Additionally, no data at borough level is available prior to 1998-99.

Cleethorpes comes within the North East Lincolnshire Basic Command Unit. North East Lincolnshire BCU had 263 police officers as at 30 March 2009. The number of police officers has decreased by 115 since 2003. This decrease in numbers is due to the transfer of various functions from divisions to central services i.e. Command Centres, Traffic Units etc. Also, the recruitment of civilian Investigation Officers and Detention Officers across Humberside Police Force has contributed to the drop in police officer numbers. Comparisons with 1997 for North East Lincolnshire BCU are not available. There were 49 Police Community Support Officers as at 30 March 2009 while there were none in existence in 1997.

The Crime and Disorder Act 1998 saw positive effects with the statutory duty to create a Crime and Disorder Reduction Partnership (CDRP). The CDRP (Safer Communities North East Lincolnshire) has brought new ways of working in a cross cutting way with the police, council and other key stakeholders and genuine partnership working to help tackle complex issues.

The CDRP paved the way for a number of community safety initiatives which have benefited Cleethorpes. North East Lincolnshire has received funding under the Home Office Crime Reduction Programme and successor initiatives including the Safer and Stronger Communities Fund and the Basic Command Unit Fund. It has also benefited from other targeted Home Office funding streams which support work on drugs and alcohol harm reduction, domestic abuse, neighbourhood crime and justice, and antisocial behaviour.

The Home Office Partnership Support Programme helped review CDRP delivery structures and the future strategic development of the district's CCTV system. North East Lincolnshire is currently in receipt of funding from the Vigilance Programme which is helping to accelerate the development of Integrated Offender

Management. This is seen as the next step in achieving further sustainable reductions in crime across the district.

Before 1997 there were no bespoke powers to tackle antisocial behaviour but there are now a range of powers to deal with this issue. These include Anti-Social Behaviour Orders and Designated Public Places Orders (DPPO) from the Criminal Justice and Police Act 2001.

North East Lincolnshire's CDRP and wider partnership approach has been recognised nationally as effective practice. For example, the delivery of its Family Intervention Programme, which joins-up the resources of several Government Departments, and its work on reducing antisocial behaviour and providing visible neighbourhood justice.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at:

http://neighbourhood.statistics.gov.uk

Identity and Passport Service: Contracts

Dr. Palmer: To ask the Secretary of State for the Home Department whether he made an assessment of the merits of incorporating the specification for the Check and Send service in the requirements of the Identity and Passport Service tender notice for the procurement of front-office identity services. [319962]

Meg Hillier: The following statement was made in the Official Journal of European Union (OJEU) Notice with regards to Front Office Services:

> "IPS seeks expressions of interest from Service Providers for securing concessions to provide Front Office Services (FOS) to members of the public in connection with identity products issued by IPS and other government departments. These services may subsume the "Check & Send" assisted application process for UK passports."

This gives the agency the option to include the "Check and Send" service as part of the Front Office Services if deemed appropriate after further discussion with the suppliers down selected at the Pre-Qualification Questionnaire (PQQ) stage.

Milton Keynes

Mr. Lancaster: To ask the Secretary of State for the Home Department if he will set out, with statistical information related as directly as possible to North East Milton Keynes constituency, the effects on Milton Keynes of the policies and actions of his Department and its predecessors since 1997. [316041]

Mr. Alan Campbell: The Home Office has introduced a range of policies and initiatives since 1997. However, it is not always possible to quantify their effects particularly at constituency level. The available statistical information therefore relates to the Milton Keynes crime and disorder reduction partnership area.

In terms of police recorded crime in Milton Keynes, between 2002-03 and 2008-09, total recorded crime rose by 8 per cent. More specifically:

Violence against the person—up 85 per cent. (up 1 per cent. in last year)

Sexual offences—down 11 per cent. (down 4 per cent. in last year)

Robbery—up 42 per cent. (up 4 per cent. in last year)

Burglary—down 12 per cent. (down 2 per cent. in last year)

Offences against vehicles—down 24 per cent. (no change in last year)

Other theft offences—down 4 per cent. (down 4 per cent. in last year)

Criminal damage—up 2 per cent. (down 9 per cent. in last year)

Drug offences—up 134 per cent. (up 26 per cent. in last year) (there has been increased recording of drug offences which is mainly attributable to the increased use of police powers to issue cannabis warnings).

Data prior to 2002-03 are not directly comparable because of the introduction of the National Crime Recording Standard in April 2002. Additionally, no data at borough level are available prior to 1998-99.

Milton Keynes Basic Command Unit had 419 police officers as at 30 March 2009. The number of police officers has increased by 73 since 2003. Comparisons with 1997 for Milton Keynes BCU are not available. There were 73 police community support officers as at 30 March 2009 while there were none in existence in 1997.

Antisocial behaviour

Milton Keynes is to receive an additional £44,000 to tackle antisocial behaviour as part of the joint announcement in November 2009 by the Home Secretary and the Communities Secretary of additional funding for tackling ASB.

Drug-related offending

Since the inception of the national Drugs Intervention Programme (DIP) in 2003, Milton Keynes has received Home Office funding to deliver the DIP programme enabling it to tackle and reduce drug-related crime through targeting and steering individuals into treatment to reduce their offending. In 2009-10 Milton Keynes received grant of £166,338.

Tackling knives

Thames Valley is part of the Tackling Knife Crime and Serious Youth Violence Programme (TKAPIISYV) and has been allocated £250,000 from the TKAP programme for 2009-10. This includes work with young people and the community to prevent and educate about knife crime and serious youth violence. It will include the 13 to 24-year-old offender group who in Milton Keynes have a statistically significant impact on total knife crime.

Domestic violence

Milton Keynes has received funding and support from the Home Office and Government office for the south-east (GOSE) to tackle domestic violence. This includes Multi-Agency Risk Assessment Conference MARAC funding 2008-09 (£15,000), Independent Domestic Violence Adviser (IDVA) funding 2007-08 (£20,000), Domestic Violence project 2003-05 (£20,000) and A and E information sharing initiative 2006-07 (£10,000).

Milton Keynes is benefiting from GOSE regional support on improving performance of MARACs through the commissioning of tailored MARAC chair training providing them with the tools and skills to develop their MARAC and improve delivery of NI32—reducing repeat victimisation. The Home Office have provided NI32 data collection workshops for MARAC co-ordinators.

GOSE organises a regional Domestic Violence Co-ordinators forum bringing together the local authority co-ordinators (including Milton Keynes) on a quarterly basis to share good practice, provide them with an opportunity to keep up to date with—and help inform—Government policy, discuss emerging issues and resolutions, encourage new ideas and provide mutual support.

Alcohol related violence

GOSE provided Milton Keynes with advice in the development of their Alcohol Strategy. Milton Keynes attends GOSE's regional alcohol forum which is held every two months. Where the work of the Department of Health colleagues, the HO alcohol lead, DCSF young people's alcohol lead and TKAPIISYV local advisor in ensuring the Most Serious Violence, Alcohol and Health agendas are pulled together to deliver reductions in violent crime. Milton Keynes £9,700 received from the Alcohol-related Partnership Activity Fund in 2008-09.

Partnership support programme

The Home Office and GOSE made a joint Partnership Programme intervention in Milton Keynes in 2007 to help support improvements in the Milton Keynes Community Safety Partnership. Following agreement of its recommendations there has been improvement in partnership working to deliver on key aspects of the community safety agenda. Milton Keynes received £20,000 in 2008-09 from the Partnership Support Programme.

Police BCU funding Milton Keynes BCU received an allocation of £150,204 for 2009-10.

Safer and Stronger Communities Fund (capital) grant

In 2009-10 Milton Keynes received £73,000.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at:

http://neighbourhood.statistics.gov.uk/

Thanet

Dr. Ladyman: To ask the Secretary of State for the Home Department if he will set out, with statistical information related as directly as possible to South Thanet constituency, the effects on South Thanet of his Department's policies and actions since 2000. [315633]

Mr. Alan Campbell: The Home Office has introduced a range of policies and initiatives since 1997. However, it is not always possible to quantify their effects particularly at constituency level. The available statistical information therefore relates to the Thanet Crime and Disorder Reduction Partnership area.

In terms of police recorded crime in Thanet, between 2002-03 and 2008-09, total recorded crime fell by 3 per cent. More specifically:

Violence against the person - up 27 per cent. (down 6 per cent. in last year)

Sexual offences - up 10 per cent. (down 25 per cent. in last year)

Robbery - up 12 per cent. (up 17 per cent. in last year)

Burglary - down 17 per cent. (down 7 per cent. in last year)

Offences against vehicles - down 34 per cent. (down 15 per cent. in last year)

Other theft offences - no change (no change in last year)

Criminal damage - no change (down 19 per cent. in last year)

Drug offences - down 28 per cent. (down 22 per cent. in last year)

Data prior to 2002-03 are not directly comparable because of the introduction of the National Crime Recording Standard in April 2002. Additionally, no data at borough level is available prior to 1998-99.

With regard to police numbers, the available information relates to the East Kent Basic Command Unit which had 448 police officers as at 30 March 2009. The number of police officers has increased by 17 since 2007 (different boundaries where in place prior to this). Comparisons with 1997 for East Kent BCU are not available. There were 67 Police Community Support Officers as at 30 March 2009 while there were none in existence in 2000.

ASB

Kent is to receive an additional £64,000 to tackle AntiSocial Behaviour as part of the joint announcement in November 2009 by the Home Secretary and the Communities Secretary of additional funding for tackling ASB.

Tackling Knives

Kent is part of the Tackling Knife Crime and Serious Youth Violence Programme (TKAPIISYV). This includes work with young people and the community to prevent and educate about knife crime and serious youth violence. Kent has been allocated £100,000 from the TKAP programme for 2009-10.

Alcohol Related Violence

Thanet is part of the Alcohol Partnership Support Programme receiving funding for 2008-09 of £30, 000 and 2009 -10 of £30,000 for alcohol initiatives and communications. £25,000 has been used to assist Thanet in putting in place the necessary components for the successful multi agency running of the night time economy or other meeting place. The remaining £5,000 is for communication work.

Domestic Violence

For 2009-10 GOSE has provided Kent with £40,000 funding from the Home Office Private Place Violence regional funds for Independent Domestic Violence Advisers (IDVAs). The IDVA works with and supports high risk victims of domestic violence.

In 2008-09 GOSE provided Kent with £35,000 funding to increase their MARAC coverage across the region, and also funded MARAC training of £20,000 and IDVA funding of £40,000. Thanet is served by the East Kent MARAC covering Thanet and Canterbury. Thanet is benefiting from GOSE regional support on improving performance of MARACs through the commissioning of tailored MARAC chair training providing them with the tools and skills to develop their MARAC and improve delivery of NI32 - reducing repeat victimisation. The Home Office have provided NI32 data collection workshops for MARAC co-ordinators.

Drug-related offending

Since the inception of the national Drugs Intervention Programme (DIP) in 2003, Kent has received Home Office funding to deliver the DIP programme enabling it to tackle and reduce drug-related crime through targeting and steering individuals into treatment to reduce their offending. In 2009-10 Kent received a grant of £1,168,644.

Migration Impact Fund (MIF)

The MIF will be targeted at projects which have identified innovative solutions to migration related pressures. Funding will be allocated to local projects from Government Offices working closely with local partners. It will be targeted at projects which have identified innovative solutions to migration related pressures - where possible involving and benefiting a number of local services. Thanet will benefit from MIF through monies that were awarded to Kent county council.

(a) Thanet Specific

Czech/Roma Integration - £70,000 in respect of year one (2009-10) and £90,000 provisionally awarded for year two (2010-11) focused which is specifically Thanet

(b) Kent award, which will include some benefit to Thanet

£210,000 in respect of year one (2009-10) and £210,000 (in aggregate, as per year 1) provisionally awarded for year two (2010-11); to promote the participation and inclusion of new migrants in Kent; mobile information and advice service to hard to reach rural migrant workers; and one-stop-shop for migrants

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at:

Ministerial Corrections

Monday 22 February 2010

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Food Supply

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what funding his Department has provided to local food chain initiatives in the last 12 months; and which such initiatives received that funding. [315961]

[Official Report, 9 February 2010, Vol. 505, c. 829W.]

Letter of correction from Mr. Jim Fitzpatrick:

Errors have been identified in the table and first and second paragraphs of my written answer to the hon. Member for Stroud (Mr. Drew) on 9 February 2010. The RDPE spend cited for the Yorkshire and Humber regional development agency was incorrect. The correct table should have been:

RDA	*RDPE spend (£)*
North East RDA	2,656,337
Advantage West Midlands	583,228
East Midlands	648,847
South West RDA	2,850,000
North West RDA	1,776,242
South East RDA	2,590,536
East England DA	301,476
Yorkshire and Humber	4,457,098
Total	15,863,764

The first paragraph was as follows:

During the past 12 months (from 4 February 2009) £11,806,666 has been committed under the Rural Development Programme for England (RDPE) to support local food chain initiatives. This funding is administered by the Regional Development Agencies (RDAs) and the breakdown of spend by region is as follows:

The correct paragraph should have been:

During the past 12 months (from 4 February 2009) £15,863,764 has been committed under the Rural Development Programme for England (RDPE) to support local food chain initiatives. This funding is administered by the Regional Development Agencies (RDAs) and the breakdown of spend by region is as follows:

The second paragraph was as follows:

In the same period, RDA's have also provided £4,385,078 from their single pot to support local food chain initiatives, to which DEFRA makes a contribution. The RDPE and single pot money is supporting a range of initiatives including the funding of delivery organisations in the region, support for individual food producers and retail outlets, food hubs and farmers' markets.

The correct paragraph should have been:

In the same period, RDA's have also provided £5,710,071 from their single pot, to which DEFRA makes a contribution. The RDPE and single pot money is supporting a range of initiatives including the funding of delivery organisations in the region, support for individual food producers and retail outlets, food hubs and farmers' markets.

FOREIGN AND COMMONWEALTH OFFICE

Binyam Mohamed

Mr. Andrew Tyrie (Chichester) (Con): The Foreign Secretary said that our most basic values as a nation are at stake here. I agree. It is only by getting to the truth about all this that we can bring closure to the whole sorry episode that is now called extraordinary rendition and in which the UK appears to have allowed itself to become complicit in kidnapping and torture. Indeed, a judge in another case said that we had facilitated a rendition, so the issue of facilitation, in principle, is no longer in doubt. Given all that, will the Foreign Secretary now finally discuss with the Prime Minister the need for a judge-led inquiry, which is supported by Lord Carlile, who is the Government's own anti-terrorism watchdog, the Leader of the Opposition and the Liberal Democrats, as well as many others?

[Official Report, 10 February 2010, Vol. 505, c. 923-924.]

Letter of correction from Mr. David Miliband:

I am concerned to clarify a potential confusion in one sentence of my answer to the hon. Member for Chichester (Mr. Tyrie) on 10 February 2010. It concerns the difference between "rendition" and "extraordinary rendition", the former of which can be lawful (e.g. when someone is transferred to safety) and the latter of which is unreservedly to be condemned because it normally is understood to mean a transfer where there is a real risk of torture. I would not want my attempt to distinguish the process of rendition, or extraordinary rendition, from torture, to lead to confusion between rendition and extraordinary rendition.

The full statement made by me was as follows:

David Miliband: I am interested to hear that the Leader of the Opposition is recommitting himself to a judicial inquiry—I shall pursue it with Opposition Front-Bench Members to see whether it is the case. The Government have discussed whether a judicial inquiry would be right, but have concluded that it would not be right, not least because the judicial system in this country is performing a very effective function in the courts, which is where it belongs. I also want to put it on the record that a dangerous confusion is emerging between rendition—sometimes called extraordinary rendition—and torture. They are not the same thing, although both are reprehensible and contrary to the laws and spirit of this country. However, it is important that we do not confuse the two. In Mr. Mohamed's case, there are allegations that he was subject to both, but they are not the same; they are separate. However, they are both wrong and they both need to be addressed fully. In respect of the hon. Gentleman's main point, however, I do not think that the conclusion to be drawn from today's events is that a judicial inquiry is necessary; I draw the conclusion that the judiciary is performing its function extremely vigilantly.

The correct statement should have been:

David Miliband: I am interested to hear that the Leader of the Opposition is recommitting himself to a judicial inquiry—I shall pursue it with Opposition Front-Bench Members to see whether it is the case. The Government have discussed whether a judicial inquiry would be right, but have concluded that it would not be right, not least because the judicial system in this country is performing a very effective function in the courts, which is where it belongs. I also want to put it on the record that a dangerous confusion is emerging between extraordinary rendition and torture. They are not the same thing, although both are reprehensible and contrary to the laws and spirit of this country. However, it is important that we do not confuse the two. In Mr. Mohamed's case, there are allegations that he was subject to both, but they are not the same; they are separate. However, they are both wrong and they both need to be addressed fully. In respect of the hon. Gentleman's main point, however, I do not think that the conclusion to be drawn from today's events is that a judicial inquiry is necessary; I draw the conclusion that the judiciary is performing its function extremely vigilantly.

DEFENCE

RAF Lyneham: Weather

Mr. Gray: To ask the Secretary of State for Defence for how many days RAF Lyneham was closed as a result of recent adverse weather conditions. [315787]

[Official Report, 10 February 2010, Vol. 505, c. 970-971W.]

Letter of correction from Mr. Bill Rammell:

An error has been identified in the written answer given to the hon. Member for North Wiltshire (Mr. Gray) on 10 February 2010. The total number of hours during which RAF Lyneham was closed as a result of adverse weather conditions was incorrect. The correct answer should have been:

Bill Rammell: Between 1 and 17 January, RAF Lyneham closed only once on 6 January between 2.40 am and 3.12 pm, a total of 12 and a half hours. This was to enable the runway to be cleared of snow and ice. This limited period of closure was due to the fact that Lyneham has a short runway and clearance could be completed quickly.

Ministerial Correction

Tuesday 23 February 2010

HOME DEPARTMENT

Terrorism

Mr. Evans: To ask the Secretary of State for the Home Department how many people have been questioned and been *(a)* cautioned and *(b)* subsequently prosecuted in relation to terrorism offences in (i) Ribble Valley constituency, (ii) Lancashire and (iii) the UK in each of the last five years. [314349]

[Official Report, 29 January 2010, Vol. 504, c. 1130-131 W.]

Letter of correction from Mr. David Hanson:

An error has been identified in the written answer given to the hon. Member for Ribble Valley (Mr. Evans) on 29 January 2010. The Minister wrote to Mr. Evans and the Editor of the *Official Report* on 15 February 2010, but we are aware that the correction lacked clarity, and this submission seeks to resolve the situation.

The full answer given was as follows:

Mr. Hanson: The Home Office does not hold statistics on the number of individuals questioned in relation to terrorism offences. In the last five years the police have issued the following number of cautions for terrorism offences:

	Number of cautions issued
2004-05	4
2005-06	1
2006-07	0
2007-08	2
2008-09	4

The Home Office collates statistics on the number of terrorism arrests, charges and convictions and these are included in a Bulletin which was published for the first time on 13 May 2009 (Statistics on Terrorism Arrests and Outcomes Great Britain 11 September 2001 to 31 March 2008). The data contained in the Bulletin relates to Great Britain and not specific areas. The first edition of the Bulletin is available at:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb0409.pdf

The number of cautions as detailed above are contained in the second issue of the Bulletin which was published on 26 November 2009 and is available via the following link:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb1809.pdf

The correct answer should have been:

Mr. Hanson: The Home Office does not hold statistics on the number of individuals questioned in relation to terrorism offences. Current guidelines from the Crown Prosecution Service make clear that individuals suspected of terrorism offences are not eligible for cautions following arrest.

The Home Office collates statistics on the number of terrorism arrests, charges and convictions and these are included in a Bulletin which was published for the first time on 13 May 2009 (Statistics on Terrorism Arrests and Outcomes Great Britain 11 September 2001 to 31 March 2008). The data contained in the Bulletin relate to Great Britain and not specific areas. The first edition of the Bulletin is available at:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb0409.pdf

The second edition of the Bulletin, published on 26 November 2009, is available at:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb1809.pdf

Ministerial Correction

Wednesday 24 February 2010

FOREIGN AND COMMONWEALTH OFFICE

Turkey: EU Enlargement

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent progress has been made on negotiations on the accession of Turkey to the EU; and if he will make a statement. [314495]

[Official Report, 1 February 2010, Vol. 505, c. 36W.]

Letter of correction from Mr. Chris Bryant:

An error has been identified in the written answer given to the hon. Member for West Bromwich, East (Mr. Watson) on 1 February 2010 on accession negotiations with Turkey. The reference in the first paragraph to the number of accession chapters opened by Turkey was incorrect. The original answer stated:

"In December 2009 the EU agreed to open the Environment Chapter of the accession negotiations with Turkey. Turkey has now opened 11 out of 35 accession Chapters."

The correct answer should have been:

Chris Bryant: In December 2009 the EU agreed to open the Environment Chapter of the accession negotiations with Turkey. Turkey has now opened 12 out of 35 accession Chapters, of which one is closed. The European Commission's most recent Progress Report for 2009 on Turkey's EU accession process noted several steps forward, for example in addressing the Kurdish and Armenian questions, a new judicial reform strategy, and improving energy security.

During my hon. Friend the Minister for Europe's visit to Istanbul he reiterated the UK's support for Turkey's EU membership and urged Turkey to continue making the necessary reforms and to abide by its commitments under the Ankara Protocol.

At the same time the report noted that renewed efforts on further reforms were needed and challenged Turkey to step up the pace of their reform programme and proactively contribute to a Cyprus settlement.

Ministerial Correction

Friday 26 February 2010

WOMEN AND EQUALITY

Equality and Human Rights Commission: Databases

Mr. Stewart Jackson: To ask the Minister for Women and Equality pursuant to the answer of 13 January 2010, *Official Report*, column 1003W, on Equality and Human Rights Commission: databases, what the budget is for the new equality measurement framework database; whether it will hold personal data; what anonymised Census data it will use; whether a privacy impact assessment for that database will be prepared; and which organisations will be asked to provide data for that database. [314959]

[Official Report, 22 February 2010, Vol. 506, c. 41W.]

Letter of correction from Maria Eagle:

Errors have been identified in the response given to the hon. Member for Peterborough (Mr. Jackson) on 22 February 2010. The £2 million figure quoted for the budget of the Equality and Human Rights Commission for the development of the Equality Measurement Framework tool (EMF) was incorrect and should instead read £200,000.

The full correct answer should have been:

Maria Eagle: The Equality and Human Rights Commission budget for the development of the Equality Measurement Framework tool (EMF) is £200,000.

The plan is that no personal data will be stored or used within the context of the framework and because the data will be drawn from existing surveys most of which is already accessible to members of the public there will be no requirement for a privacy impact assessment.

The framework will not be using anonymised census information.

The intention is that data will be drawn from the following organisations: The Office for National Statistics, the NHS, the devolved Administrations, Government Departments, local government and the police force.

Ministerial Corrections

Monday 1 March 2010

WORK AND PENSIONS

Jobcentre Plus: Compensation

Danny Alexander: To ask the Secretary of State for Work and Pensions how many compensation payments Jobcentre Plus have made through their Special Payment Scheme in *(a)* the UK, *(b)* Scotland, *(c)* the Highlands and *(d)* Inverness, Nairn, Badenoch and Strathspey in each of the last three years; and how much was paid out in each area in each of those years. [307149]

[Official Report, 13 January 2010, Vol. 503, c. 1033W.]

Letter of correction from Mr. Jim Knight:

Errors have been identified in the reply given by the chief executive of Jobcentre Plus to the written answer given to the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) on 13 January 2010.

The correct answer should have been:

Jim Knight: The administration of Jobcentre Plus is a matter for the chief executive, Darra Singh. I have asked him to provide the hon. Member with the information requested.

Letter from Darra Singh:

The Secretary of State has asked me to reply to your question asking how many compensation payments Jobcentre Plus has made through their Special Payment Scheme in (a) the UK, (b) Scotland, (c) the Highlands and (d) Inverness, Nairn, Badenoch and Strathspey in each of the last three years; and how much was paid out in each area in each of those years. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The Jobcentre Plus Special Payments Scheme is part of a wider scheme operated by the Department for Work and Pensions. Details are contained in the Financial Redress for Maladministration Guide, a copy of which can be found in the House of Commons Library.

The data below provide the information you requested in relation to (a) Great Britain (DWP does not administrate payments in Northern Ireland), and (b) Scotland.

(a) The number of compensation payments made across the GB and how much was paid out.

GB special payments

	2006-07	2007-08	2008-09
Compensation payments made	5,135	4,343	7,389
Amount paid (£)	1,778,407	1,664,092	2,489,442

(b) The number of compensation payments made across Scotland and how much was paid out.

Scotland special payments

	2006-07	2007-08	2008-09
Compensation payments made	258	280	470
Amount paid (£)	94,063	58,134	168,510

I am not in a position to provide a response to Questions (c) & (d) as we do not hold data in that format.

CABINET OFFICE

Iraq Committee of Inquiry: Mass Media

Mr. Whittingdale: To ask the Minister for the Cabinet Office (1) what arrangements are in place for the provision of footage obtained from the broadcast pool camera at the Iraq Inquiry to news agencies and news providers; [314411]

(2) if she will make it her policy to ensure that all video news agencies providers have access to low-resolution footage from the broadcast pool camera at the Iraq Inquiry. [314412]

[Official Report, 9 February 2010, Vol. 505, c. 894-95W.]

Letter of correction from Tessa Jowell:

Errors have been identified in the response give to the hon. Member for Maldon and East Chelmsford (Mr. Whittingdale) on 9 February 2010, relating to the cost and availability of broadcasts from the Iraq inquiry.

The correct answer should have been:

Tessa Jowell: The Cabinet Office is not responsible for the broadcast footage of the Iraq inquiry. The UK Broadcasting Pool, a partnership between the BBC, Sky News and ITN, is responsible for distributing footage from their cameras in the inquiry's hearing room. Other broadcasters would need to make arrangements with the pool, not the Government or the inquiry. There is already an agreement to provide footage to all Iraqi broadcasters at reduced cost.

The Cabinet Office, as the sponsoring Department for the inquiry, has a contract with the pool to receive footage for use on the Iraq inquiry website, which can be viewed by the public for free.

Departmental Computer Software

Mr. Maude: To ask the Minister for the Cabinet Office what her policy is in respect of the installation and use of *(a)* Internet Explorer, *(b)* Firefox and *(c)* Opera website browsers by Government departments. [318248]

[Official Report, 24 February 2010, Vol. 506, c. 603W.]

Letter of correction from Angela E. Smith:

Errors have been identified in the response given to the right hon. Member for Horsham (Mr. Maude) on 24 February 2010. The words "such as Firefox and Opera" and "such as Internet Explorer" were incorrectly included in the answer.

The correct answer should have been:

Angela E. Smith: Government policy regarding installation and use of web browsers is that all decisions must be in line with value for money requirements. In addition, the Open Source, Open Standards, Re-use strategy requires Departments to consider open source browsers on a level basis with proprietary browsers.

The strategy can be found at:

www.cabinetoffice.gov.uk/media/318020/open_source.pdf

Ministerial Correction

Wednesday 3 March 2010

HEALTH

Departmental NDPBs

Bob Spink: To ask the Secretary of State for Health for how many non-departmental public bodies his Department is responsible. [314255]

[Official Report, 1 February 2010, Vol. 505, c. 55-56W.]

Letter of correction from Mr. Phil Hope:

An error has been identified in the written answer given to the hon. Member for Castle Point (Bob Spink) on 1 February 2010. I am sorry that the answer said that the Department had nine strategic health authorities; it should have referred to nine special health authorities.

The correct answer should have been:

Phil Hope: The Department has one agency, 10 executive non-departmental public bodies, nine special health authorities and 30 advisory non-departmental public bodies. Further detailed information is contained in the 'Department of Health's Public Bodies 2009', a copy of which has been placed in the Library. This document is also available on the Department's website:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_111365

Ministerial Correction

Thursday 4 March 2010

ENERGY AND CLIMATE CHANGE

Climate Change: International Cooperation

Mr. Bain: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Congleton of 7 January 2010, *Official Report*, column 628W, on climate change: Copenhagen, what his most recent assessment is of the likelihood of effective global action to limit climate change; and if he will make a statement. [318584]

[Official Report, 1 March 2010, Vol. 506, c. 903W.]

Letter of correction from Joan Ruddock:

An error has been identified in the written answer given to the hon. Member for Glasgow, North-East (Mr. Bain) on 1 March 2010. Paragraph 1 of the answer made reference to 69 countries accounting for nearly 90 per cent. of global emissions. It should have said that these countries account for 80 per cent. of global emissions.

The correct answer should have been:

Joan Ruddock: Since Copenhagen, we have seen support for the Copenhagen Accord grow. As of 22 February 2010, 69 countries had listed targets/actions in the Accord to limit their greenhouse gas emissions. These countries account for 80 per cent. of global emissions. This willingness of many countries to take substantial domestic action, demonstrates that—with ambition—the international community has the opportunity to come together to tackle dangerous climate change effectively.

But there is still more to do. We must continue to encourage these countries to deliver the most ambitious end of their offers if we are to deliver our goal of limiting global warming to 2 degrees Celsius. And we will continue to campaign for countries to include these offers in a comprehensive legally binding treaty.

INDEX TO THE

PARLIAMENTARY DEBATES

OFFICIAL REPORT

SIXTH SERIES **VOLUME 506**

SESSION 2009–2010

22 February 2010—5 March 2010

Printed indexes to Hansard

This index is produced from the House of Commons Library's Parliamentary Information Management Services (PIMS). It contains references to all material in the bound volume of Hansard.

- At the end of the session a sessional index is produced containing references to material in the bound volumes for the whole session.

Indexes on the Parliamentary website

Volume indexes covering material from the beginning of the 1999/2000 session will also appear on the Parliamentary website at http://www.parliament.uk with links to the full text of Hansard.

SCOPE

The indexes include entries covering:

- The content of all material recorded in Hansard, including debates, procedural motions and questions.
- The names of all Members contributing to the Parliamentary business recorded in Hansard.
- The names of some types of Parliamentary business whenever they occur in Hansard. These are 'Ministerial statements', 'Business statements', 'Petitions', 'Opposition days' and 'Estimates days'.

ARRANGEMENT

- All headings are in one word-by-word alphabetical sequence, with Members' contribution entries distinguished from other entries by italics.
- Where a Member contributes to Parliamentary business and is the subject of Parliamentary business there are separate contribution and subject entries, the subject entry coming first.
- Entries beginning 'Mac' and 'Mc' are sorted in one sequence as 'Mac'.
- 'St', when abbreviated for Saint, is filed as 'Saint'.
- Numbers are filed as if spelt out, e.g. '10 Downing Street' as if 'Ten Downing Street'.

HEADINGS

Choice of headings

- *Specificity*—Entries summarise the overall content of a debate or question as specifically as the various PIMS thesauruses allow. For example, Education, Higher education, or the name of a particular university is used depending on the breadth of the item.
- *Name headings*—Specific entries are included for the names of people, places, institutions, organisations, committees, programmes, initiatives, publications and legislation when these constitute the overall subject of an item.
- *Organisations and subjects*—Organisation entries are preferred for material about the general performance, administration and staffing of an organisation (for example, Identity and Passport Service, Standards). Subject entries are preferred for what organisations do as part of their duties (for example, Passports, Fees and charges).

Geographical coverage

- *Subject headings*—Subject headings are assumed to refer to the whole of England, Great Britain or the United Kingdom unless otherwise stated.
- *Scotland, Northern Ireland and Wales*—Material relating to the whole of Scotland, Northern Ireland and Wales is indexed under these headings.
- *Places within the UK*—Material about specific towns, areas and institutions is entered under the name of the specific town, area or institution.
- *Foreign countries*—Most material relating to foreign countries is collected under the name of that country. Some additional material may be found under the names of—groups of countries, areas within countries, geographical features, place names associated with particular issues, politicians and heads of state, international bodies, and institutions and companies operating in those countries.
- *EC/EU material*—General material about the European Union and European institutions as bodies is entered under 'European Union' and the named individual institutions. Material about what the Union and institutions are doing or propose to do is entered under various subject headings beginning 'EC' such as 'EC environmental policy'.

Parliamentary material and business

- *Material about Parliament*—This is indexed under 'Parliament', the names of the two Houses, the 'Palace of Westminster' and parts of the Parliamentary estate (such as 'Portcullis House').
- *Committees*—Material about committees is indexed under 'Committees', types of committee (such as 'Select committees') and the names of individual committees (such as 'Home Affairs Select Committee').
- *Parliamentary proceedings/procedures*—Material discussing these is indexed under the specific type of proceeding (such as 'Parliamentary questions' or 'Oral questions'), procedure (such as 'Calling of Members') or issue (such as 'Unparliamentary expressions').
- *Legislation*—Entries for Parliamentary proceedings on bills and statutory instruments are entered under their titles. Where the lead word of the bill or statutory instrument does not provide a full or clear indication of the subject there are additional subject entries when the bill or instrument is debated. For example, debates on the 'Child Support Pensions and Social Security Bill' have entries under 'Pensions' and 'Social security benefits' as well as under the title of the Bill.
- *Members' names*—These are given in the form by which the Member prefers to be known.
- *Speaker and Chair*—Contributions by the Speaker and deputies are brought together under the heading 'Speaker and deputies'. Contributions from the chair during Committees of the Whole House are brought together under 'Chairman of Committee of the Whole House'. Significant rulings and statements (as opposed to routine comments) are indicated by the sub-heading 'Rulings and statements' in both cases.

Cross references

- *See* references indicate that all the material has been entered under another heading.
- *See also* references indicate that additional information may be found under another heading.

REFERENCES

- References in the indexes are to columns rather than pages.
- References to debates and petitions, but not questions, are accompanied by the date of the item.
- There are separate sequences in Hansard for the material taken on the floor of the House, Westminster Hall sittings, written statements, written questions and ministerial corrections:
  - References consisting of a number by itself indicate material taken on the floor of the House.
  - References ending in 'wh' indicate Westminster Hall sittings.
  - References ending in 'ws' indicate written statements.
  - References ending in 'w' indicate written questions.
  - References ending in 'p' indicate written petitions.
  - References ending in 'mc' indicate ministerial corrections. (Where a volume number is given, the correction appears in a later volume).
- References under all headings except the names of Members contributing to Parliamentary business and the titles of legislation are listed in one numerical sequence irrespective of whether the material is taken on the floor of the House, is discussed at a Westminster Hall sitting, is a written statement or is a written question.
- References under the names of Members contributing to Parliamentary business and the titles of legislation are listed in numerical sequence under the following headings:
  - *Chamber Debates* (which includes interventions and points of order as well as significant contributions to debates);
  - *Westminster Hall Debates* (covering all debates held as part of the Westminster Hall sittings);
  - *Written Statements* (consisting of ministerial statements issued in writing); and
  - *Questions* (which includes all written, oral and urgent questions).

ABBREVIATIONS

The following abbreviations are used in connection with the progress of bills:

- 1R = First reading
- 2R = Second reading
- Com = Committee stage
- Rep = Report stage
- 3R = Third reading
- res = resolution
- amendt(s) = amendment(s)
- * = matter taken formally without debate or division
- (HL) = Bill starting in House of Lords
- (SP) = Bill in Scottish Parliament.

Parliamentary background

- The Parliamentary website at http://www.parliament.uk contains a range of information about Parliament and the full text of some Parliamentary papers and proceedings including Hansard.
- Information on current Parliamentary business is provided in the House of Commons Information Office *Weekly Information Bulletin*, available on the website and from The Stationery Office (020 7873 8499).
- Further information on Parliamentary proceedings and procedures is available from the House of Commons Information Office (020 7219 4272).
